PREFACE

The Eagleville Municipal Code contains the codification and revision of the ordinances of the City of Eagleville, Tennessee. By referring to the historical citation appearing at the end of each section, the user can determine the origin of each particular section. The absence of a historical citation means that the section was added by the codifier. The word "modified" in the historical citation indicates significant modification of the original ordinance.

The code is arranged into titles, chapters, and sections. Related matter is kept together, so far as possible, within the same title. Each section number is complete within itself, containing the title number, the chapter number, and the section of the chapter of which it is a part. Specifically, the first digit, followed by a hyphen, identifies the title number. The second digit identifies the chapter number, and the last two digits identify the section number. For example, title 2, chapter 1, section 6, is designated as § 2-106.

By utilizing the table of contents, code index and the analysis preceding each title and chapter of the code, together with the cross references and explanations included as footnotes, the user should locate all the provisions in the code relating to any question that might arise. However, the user should note that most of the administrative ordinances (e.g. Annual Budget, Zoning Map Amendments, Tax Assessments, etc...) do not appear in the code. Likewise, ordinances that have been passed since the last update of the code do not appear here. Therefore, the user should refer to the city's ordinance book or the city recorder for a comprehensive and up to date review of the city's ordinances.

Following this preface is an outline of the ordinance adoption procedures, if any, prescribed by the city's charter.

The code has been arranged and prepared in loose-leaf form to facilitate keeping it up to date. MTAS will provide updating service under the following conditions:

- (1) That all ordinances relating to subjects treated in the code or which should be added to the code are adopted as amending, adding, or deleting specific chapters or sections of the code (see section 7 of the adopting ordinance).
- (2) That one copy of every ordinance adopted by the city is kept in a separate ordinance book and forwarded to MTAS annually.
- (3) That the city agrees to pay the annual update fee as provided in the MTAS codification service charges policy in effect at the time of the update.

When the foregoing conditions are met MTAS will reproduce replacement pages for the code to reflect the amendments and additions made by such ordinances. This service will be performed at least annually and more often if

justified by the volume of amendments. Replacement pages will be supplied with detailed instructions for utilizing them so as again to make the code complete and up to date.

The able assistance of the codes team, Kelley Myers, Nancy Gibson and Sandy Selvage is gratefully acknowledged.

1-205. Acceptance of gratuities, etc. An official or employee may not accept, directly or indirectly, any money, gratuity, or other consideration or favor of any kind from anyone other than the city:

(1) For the performance of an act, or refraining from performance of an act, that he would be expected to perform, or refrain from performing, in the regular course of his duties; or

(2) That might reasonably be interpreted as an attempt to influence his action, or reward him for past action, in executing city business. (Ord. #07-03, April 2007)

1-206. Use of information. (1) An official or employee may not disclose any information obtained in his official capacity or position of employment that is made confidential under state or federal law except as authorized by law.

1-210. Ethics complaints. (1) The city attorney is designated as the ethics officer of the city. Upon the written request of an official or employee potentially affected by a provision of this chapter, the city attorney may render an oral or written advisory ethics opinion based upon this chapter and other applicable law.

(2) (a) Except as otherwise provided in this subsection, the city attorney shall investigate any credible complaint against an appointed official or employee charging any violation of this chapter, or may undertake an investigation on his own initiative when he acquires information indicating a possible violation and make recommendations for action to end or seek retribution for any activity that, in the attorney's judgment, constitutes a violation of this code of ethics.

(b) The city attorney may request that the city council hire another attorney, individual, or entity to act as ethics officer when he has or will have a conflict of interest in a particular matter.

(c) When a complaint of a violation of any provision of this chapter is lodged against a member of the city council, the city council shall either determine that the complaint has merit, determine that the complaint does not have merit, or determine that the complaint has sufficient merit to warrant further investigation. If the governing body determines that a complaint warrants further investigation, it shall authorize an investigation by the city attorney or another individual or entity chosen by the city council.

(3) The interpretation that a reasonable person in the circumstances would apply shall be used in interpreting and enforcing this code of ethics.

(4) When a violation of this code of ethics also constitutes a violation of a personnel policy, rule, or regulation or a civil service policy, rule or regulation, the violation shall be dealt with as a violation of the personnel or civil service provisions rather than a violation of this code of ethics. (Ord. #07-03, April 2007)

1-211. Violations and penalty. An elected official or appointed member of a separate municipal board, commission, committee, authority, corporation, or other instrumentality who violates any provision of this chapter is subject to punishment as provided by the city's charter or other applicable law and in addition is subject to censure by the city council. An appointed official or an employee who violates any provision of this chapter is subject to disciplinary action. (Ord. #07-03, April 2007)

Whenever in this code or in any ordinance of the city any act is prohibited or is made or declared to be unlawful or an offense or a misdemeanor, or wherever in such code or ordinance the doing of any act is required or the failure to do any act is declared to be unlawful, the violation of any such provision of this code or any such ordinance shall be punished by a penalty of not more than fifty dollars (\$50.00) for each separate violation; provided, however, that the imposition of any such penalty under the provisions of this code or of any ordinance of the city shall not prevent the revocation of any permit or license for violation of any provisions hereof where called for or permitted under the provisions of this code or of any ordinance. The city judge shall fix the penalty to be imposed under the provisions hereof as the city judge's discretion may dictate. Each day that any violation of this code or of any ordinance continues shall constitute a separate offense. (a) Files the following oath of poverty: I, _____, do solemnly swear under penalties of perjury, that owing to my poverty, I am not able to bear the expense of the action which I am about to commence, and that I am justly entitled to the relief sought, to the best of my belief;

(b) Files an accompanying affidavit of indigency.

3-502. Appeals from municipal court. Any person dissatisfied with the judgment of the municipal judge in any case or cases heard and determined by the municipal judge, may, within ten (10) entire days¹ thereafter, Saturdays, Sundays and government recognized holidays exclusive, appeal to the next circuit court of the county, upon giving bond with good and sufficient security as approved by the municipal judge for his appearance or the faithful prosecution of the appeal.² In prosecutions for the violations of the city ordinances, the bond shall not exceed two hundred fifty dollars (\$ 250.00). The appeal shall not act as a stay or supersedeas of the imprisonment of any

defendant who fails to pay a fine imposed, unless the defendant executes an appeal bond with solvent, qualified surety in double the amount of fine imposed, and conditioned to appear and prosecute his appeal and pay any fine and costs adjudged against him upon the appeal. Appeals from the judgment of the municipal court for violation of the criminal laws of the State of Tennessee shall be pursuant to the provisions of Rule 5 of the Tennessee Rules of Criminal Procedure. (2004 Code, § 3-502)

3-503. Deposit of CDL or operator's license in lieu of bond.

Pursuant to Tennessee Code Annotated § 55-50-801, et seq., whenever any person lawfully possessed of a Commercial Driver's License ("CDL") or operator's license theretofore issued to him by the Department of Safety, State of Tennessee, is issued a citation or arrested and charged with the violation of any city ordinance regulating traffic, except one which requires mandatory revocation of the license, said person shall have the option of depositing his CDL or operator's license with the officer or court demanding bail in lieu of any other security required for his appearance in the city court in answer to any such charge before the court. INFECTIOUS DISEASE CONTROL POLICY

- 4-316. Legal rights of victims of communicable diseases.

4-301. Purpose. It is the responsibility of the City of Eagleville to provide employees a place of employment which is free from recognized hazards that may cause death or serious physical harm. In providing services to the citizens of the City of Eagleville, employees may come in contact with life-threatening infectious diseases which can be transmitted through job related activities. It is important that both citizens and employees are protected from the transmission of diseases just as it is equally important that neither is discriminated against because of basic misconceptions about various diseases and illnesses.

The purpose of this policy is to establish a comprehensive set of rules and regulations governing the prevention of discrimination and potential occupational exposure to Hepatitis B Virus (HBV), the Human Immunodeficiency Virus (HIV), and Tuberculosis (TB).

4-302. Coverage. Occupational exposures may occur in many ways, including needle sticks, cut injuries or blood spills. Several classes of employees are assumed to be at high risk for blood borne infections due to their routinely increased exposure to body fluids from potentially infected individuals. Those high risk occupations include but are not limited to:

- (1) Paramedics and emergency medical technicians;
- (2) Occupational nurses;
- (3) Housekeeping and laundry workers;

- (4) Police and security personnel;
- (5) Firefighters;
- (6) Sanitation and landfill workers; and
- (7) Any other employee deemed to be at high risk per this policy and an exposure determination.

4-303. Administration. This infection control policy shall be administered by the city manager or his/her designated representative who shall have the following duties and responsibilities:

- (1) Exercise leadership in implementation and maintenance of an effective infection control policy subject to the provisions of this chapter, other ordinances, the city charter, and federal and state law relating to OSHA regulations;
- (2) Make an exposure determination for all employee positions to determine a possible exposure to blood or other potentially infectious materials;
- (3) Maintain records of all employees and incidents subject to the provisions of this chapter;
- (4) Conduct periodic inspections to determine compliance with the infection control policy by municipal employees;
- (5) Coordinate and document all relevant training activities in support of the infection control policy;
- (6) Prepare and recommend to the city council any amendments or changes to the infection control policy;
- (7) Identify any and all housekeeping operations involving substantial risk of direct exposure to potentially infectious materials and shall address the proper precautions to be taken while cleaning rooms and blood spills; and
- (8) Perform such other duties and exercise such other authority as may be prescribed by the city council.

4-304. Definitions. (1) "Body fluids" - fluids that have been recognized by the Center for Disease Control as directly linked to the transmission of HIV and/or HBV and/or to which universal precautions apply: blood, semen, blood products, vaginal secretions, cerebrospinal fluid, synovial fluid, pericardial fluid, amniotic fluid, and concentrated HIV or HBV viruses.

(2) "Exposure" - the contact with blood or other potentially infectious materials to which universal precautions apply through contact with open wounds, non-intact skin, or mucous membranes during the performance of an individual's normal job duties.

(3) "Hepatitis B Virus (HBV)" - a serious blood-borne virus with potential for life-threatening complications. Possible complications include: massive hepatic necrosis, cirrhosis of the liver, chronic active hepatitis, and hepatocellular carcinoma.

(4) "Human Immunodeficiency Virus (HIV)" - the virus that causes acquired immunodeficiency syndrome (AIDS). HIV is transmitted through

sexual contact and exposure to infected blood or blood components and perinatally from mother to neonate.

(5) "Tuberculosis (TB)" - an acute or chronic communicable disease that usually affects the respiratory system, but may involve any system in the body.

(6) "Universal precautions" - refers to a system of infectious disease control which assumes that every direct contact with body fluid is infectious and requires every employee exposed to direct contact with potentially infectious materials to be protected as though such body fluid were HBV or HIV infected.

4-305. Policy statement. All blood and other potentially infectious materials are infectious for several blood-borne pathogens. Some body fluids can also transmit infections. For this reason, the Centers for Disease Control developed the strategy that everyone should always take particular care when there is a potential exposure. These precautions have been termed "universal precautions."

Universal precautions stress that all persons should be assumed to be infectious for HIV and/or other blood-borne pathogens. Universal precautions apply to blood, tissues, and other potentially infectious materials. Universal precautions also apply to semen, (although occupational risk or exposure is quite limited), vaginal secretions, and to cerebrospinal, synovial, pleural, peritoneal, pericardial and amniotic fluids. Universal precautions do not apply to feces, nasal secretions, human breast milk, sputum, saliva, sweat, tears, urine, and vomitus unless these substances contain visible blood.

4-306. General guidelines. General guidelines which shall be used by everyone include:

(1) Think when responding to emergency calls and exercise common sense when there is potential exposure to blood or other potentially infectious materials which require universal precautions.

(2) Keep all open cuts and abrasions covered with adhesive bandages which repel liquids.

(3) Soap and water kill many bacteria and viruses on contact. If hands are contaminated with blood or other potentially infectious materials to which universal precautions apply, then wash immediately and thoroughly. Hands shall also be washed after gloves are removed even if the gloves appear to be intact. When soap and water or handwashing facilities are not available, then use a waterless antiseptic hand cleaner according to the manufacturers recommendation for the product.

(4) All workers shall take precautions to prevent injuries caused by needles, scalpel blades, and other sharp instruments. To prevent needle stick injuries, needles shall not be recapped, purposely bent or broken by hand, removed from disposable syringes, or otherwise manipulated by hand. After they are used, disposable syringes and needles, scalpel blades and other sharp items

shall be placed in puncture resistant containers for disposal. The puncture resistant container shall be located as close as practical to the use area.

(5) The city will provide gloves of appropriate material, quality and size for each affected employee. The gloves are to be worn when there is contact (or when there is a potential contact) with blood or other potentially infectious materials to which universal precautions apply:

(a) While handling an individual where exposure is possible;

(b) While cleaning or handling contaminated items or equipment;

(c) While cleaning up an area that has been contaminated with one of the above;

Gloves shall not be used if they are peeling, cracked, or discolored, or if they have punctures, tears, or other evidence of deterioration. Employees shall not wash or disinfect surgical or examination gloves for reuse.

(6) Resuscitation equipment shall be used when necessary. (No transmission of HBV or HIV infection during mouth-to-mouth resuscitation has been documented.) However, because of the risk of salivary transmission of other infectious diseases and the theoretical risk of HIV or HBV transmission during artificial resuscitation, bags shall be used. Pocket mouth-to-mouth resuscitation masks designed to isolate emergency response personnel from contact with a victim's blood and blood contaminated saliva, respiratory secretion, and vomitus, are available to all personnel to provide or potentially provide emergency treatment.

(7) Masks or protective eyewear or face shields shall be worn during procedures that are likely to generate droplets of blood or other potentially infectious materials to prevent exposure to mucous membranes of the mouth, nose, and eyes. They are not required for routine care.

(8) Gowns, aprons, or lab coats shall be worn during procedures that are likely to generate splashes of blood or other potentially infectious materials.

(9) Areas and equipment contaminated with blood shall be cleaned as soon as possible. A household (chlorine) bleach solution (1 part chlorine to 10 parts water) shall be applied to the contaminated surface as a disinfectant leaving it on for a least thirty (30) seconds. A solution must be changed and re-mixed every twenty-four (24) hours to be effective.

(10) Contaminated clothing (or other articles) shall be handled carefully and washed as soon as possible. Laundry and dish washing cycles at one hundred twenty degrees (120°) are adequate for decontamination.

(11) Place all disposable equipment (gloves, masks, gowns, etc.) in a clearly marked plastic bag. Place the bag in a second clearly marked bag (double bag). Seal and dispose of by placing in a designated "hazardous" dumpster. NOTE: Sharp objects must be placed in an impervious container and shall be properly disposed of.

(12) Tags shall be used as a means of preventing accidental injury or illness to employees who are exposed to hazardous or potentially hazardous

conditions, equipment or operations which are out of the ordinary, unexpected or not readily apparent. Tags shall be used until such time as the identified hazard is eliminated or the hazardous operation is completed.

All required tags shall meet the following criteria:

(a) Tags shall contain a signal word and a major message. The signal word shall be "BIOHAZARD," or the biological hazard symbol. The major message shall indicate the specific hazardous condition or the instruction to be communicated to employees.

(b) The signal word shall be readable at a minimum distance of five feet (5') or such greater distance as warranted by the hazard.

(c) All employees shall be informed of the meaning of the various tags used throughout the workplace and what special precautions are necessary.

(13) Linen soiled with blood or other potentially infectious materials shall be handled as little as possible and with minimum agitation to prevent contamination of the person handling the linen. All soiled linen shall be bagged at the location where it was used. It shall not be sorted or rinsed in the area. Soiled linen shall be placed and transported in bags that prevent leakage.

The employee responsible for transported soiled linen should always wear protective gloves to prevent possible contamination. After removing the gloves, hands or other skin surfaces shall be washed thoroughly and immediately after contact with potentially infectious materials.

(14) Whenever possible, disposable equipment shall be used to minimize and contain clean-up.

4-307. Hepatitis B vaccinations. The City of Eagleville shall offer the appropriate Hepatitis B vaccination to employees at risk of exposure free of charge and in amounts and at times prescribed by standard medical practices. The vaccination shall be voluntarily administered. High risk employees who wish to take the HBV vaccination should notify their department head who shall make the appropriate arrangements through the infectious disease control coordinator.

4-308. Reporting potential exposure. City employees shall observe the following procedures for reporting a job exposure incident that may put them at risk for HIV or HBV infections (i.e., needle sticks, blood contact on broken skin, body fluid contact with eyes or mouth, etc.):

(1) Notify the infectious disease control coordinator of the contact incident and details thereof.

(2) Complete the appropriate accident reports and any other specific form required.

(3) Arrangements will be made for the person to be seen by a physician as with any job-related injury.

Once an exposure has occurred, a blood sample should be drawn after consent is obtained from the individual from whom exposure occurred and tested for Hepatitis B surface antigen (HBsAg) and/or antibody to human immunodeficiency virus (HIV antibody). Testing of the source individual should be done at a location where appropriate pretest counseling is available. Post-test counseling and referral for treatment should also be provided.

4-309. Hepatitis B virus post-exposure management. For an exposure to a source individual found to be positive for HBsAg, the worker who has not previously been given the hepatitis B vaccine should receive the vaccine series. A single dose of hepatitis B immune globulin (HBIG) is also recommended, if it can be given within seven (7) days of exposure.

For exposure from an HBsAg-positive source to workers who have previously received the vaccine, the exposed worker should be tested for antibodies to hepatitis B surface antigen (anti-HBs), and given one dose of vaccine and one dose of HBIG if the antibody level in the worker's blood sample is inadequate (ie., 10 SRU by RIA, negative by EIA).

If the source individual is negative for HBsAg and the worker has not been vaccinated, this opportunity should be taken to provide the hepatitis B vaccine series. HBIG administration should be considered on an individual basis when the source individual is known or suspected to be at high risk of HBV infection. Management and treatment, if any, of previously vaccinated workers who receive an exposure from a source who refuses testing or is not identifiable should be individualized.

4-310. Human immunodeficiency virus post-exposure management. For any exposure to a source individual who has AIDS, who is found to be positive for HIV infection, or who refuses testing, the worker should be counseled regarding the risk of infection and evaluated clinically and serologically for evidence of HIV infection as soon as possible after the exposure. The worker should be advised to report and seek medical evaluation for any acute febrile illness that occurs within twelve (12) weeks after the exposure. Such an illness, particularly one characterized by fever, rash, or lymphadenopathy, may be indicative of recent HIV infection.

Following the initial test at the time of exposure, seronegative workers should be retested six (6) weeks, twelve (12) weeks, and six (6) months after exposure to determine whether transmission has occurred. During this follow-up period (especially the first six to twelve (6-12) weeks after exposure) exposed workers should follow the U.S. Public Health service recommendation for preventing transmission of HIV. These include refraining from blood donations and using appropriate protection during sexual intercourse. During all phases of follow-up, it is vital that worker confidentiality be protected.

If the source individual was tested and found to be seronegative, baseline testing of the exposed worker with follow-up testing twelve (12) weeks later may

be performed if desired by the worker or recommended by the health care provider. If the source individual cannot be identified, decisions regarding appropriate follow-up should be individualized. Serologic testing should be made available by the city to all workers who may be concerned they have been infected with HIV through an occupational exposure.

4-311. Disability benefits. Entitlement to disability benefits and any other benefits available for employees who suffer from on-the-job injuries will be determined by the Tennessee Workers' Compensation Bureau in accordance with the provisions of Tennessee Code Annotated, § 50-6-303.

4-312. Training regular employees. On an annual basis all employees shall receive training and education on precautionary measures, epidemiology, modes of transmission and prevention of HIV/HBV infection and procedures to be used if they are exposed to needle sticks or potentially infectious materials. They shall also be counseled regarding possible risks to the fetus from HIV/HBV and other associated infectious agents.

4-313. Training high risk employees. In addition to the above, high risk employees shall also receive training regarding the location and proper use of personal protective equipment. They shall be trained concerning proper work practices and understand the concept of "universal precautions" as it applies to their work situation. They shall also be trained about the meaning of color coding and other methods used to designate contaminated material. Where tags are used, training shall cover precautions to be used in handling contaminated material as per this policy.

4-314. Training new employees. During the new employee's orientation to his/her job, all new employee will be trained on the effects of infectious disease prior to putting them to work.

4-315. Records and reports. (1) Reports. Occupational injury and illness records shall be maintained by the infectious disease control coordinator. Statistics shall be maintained on the OSHA-200 report. Only those work-related injuries that involve loss of consciousness, transfer to another job, restriction of work or motion, or medical treatment are required to be put on the OSHA-200.

(2) Needle sticks. Needle sticks, like any other puncture wound, are considered injuries for recordkeeping purposes due to the instantaneous nature of the event. Therefore, any needle stick requiring medical treatment (i.e. gamma globulin, hepatitis B immune globulin, hepatitis B vaccine, etc.) shall be recorded.

(3) Prescription medication. Likewise, the use of prescription medication (beyond a single dose for minor injury or discomfort) is considered medical treatment. Since these types of treatment are considered necessary, and

must be administered by physician or licensed medical personnel, such injuries cannot be considered minor and must be reported.

(4) Employee interviews. Should the city be inspected by the U.S. Department of Labor Office of Health Compliance, the compliance safety and health officer may wish to interview employees. Employees are expected to cooperate fully with the compliance officers.

4-316. Legal rights of victims of communicable diseases. Victims of communicable diseases have the legal right to expect, and municipal employees, including police and emergency service officers are duty bound to provide, the same level of service and enforcement as any other individual would receive.

(1) Officers assume that a certain degree of risk exists in law enforcement and emergency service work and accept those risks with their individual appointments. This holds true with any potential risks of contacting a communicable disease as surely as it does with the risks of confronting an armed criminal.

(2) Any officer who refuses to take proper action in regard to victims of a communicable disease, when appropriate protective equipment is available, shall be subject to disciplinary measures along with civil and, or criminal prosecution.

(3) Whenever an officer mentions in a report that an individual has or may have a communicable disease, he shall write "contains confidential medical information" across the top margin of the first page of the report.

(4) The officer's supervisor shall ensure that the above statement is on all reports requiring that statement at the time the report is reviewed and initiated by the supervisor.

(5) The supervisor disseminating newspaper releases shall make certain the confidential information is not given out to the news media.

(6) All requests (including subpoenas) for copies of reports marked "contains confidential medical information" shall be referred to the city attorney when the incident involves an indictable or juvenile offense.

(7) Prior approval shall be obtained from the city attorney before advising a victim of sexual assault that the suspect has, or is suspected of having a communicable disease.

(8) All circumstance, not covered in this policy, that may arise concerning releasing confidential information regarding a victim, or suspected victim, of a communicable disease shall be referred directly to the appropriate department head or city attorney.

(9) Victims of a communicable disease and their families have a right to conduct their lives without fear of discrimination. An employee shall not make public, directly or indirectly, the identity of a victim or suspected victim of a communicable disease.

(10) Whenever an employee finds it necessary to notify another employee, police officer, firefighter, emergency service officer, or health care provider that a victim has or is suspected of having a communicable disease, that information shall be conveyed in a dignified, discrete and confidential manner. The person to whom the information is being conveyed should be reminded that the information is confidential and that it should not be treated as public information.

- 4-501. Definitions.
- 4-502. Legal representation.
- 4-503. Exclusions - determination of representation.

- 4-505. Refusal to cooperate.
- 4-506. Conflict with provisions of insurance policies.
- 4-507. Pending claims.
- 4-508. Other indemnification.

4-501. Definitions. For the purpose of this chapter, the following words shall have the following meanings unless the context indicates otherwise:

(1) "Claim" means a claim, civil action or proceeding filed against such official or employee, in his or her official or individual capacity or both, on account of an act or omission arising out of the scope of his or her employment as an official or employee of the city.

(2) "Employee" means any person who is or has been employed in the service of the city.

(3) "Official" means any person who is serving or has been served as an elected or appointed city officer and any person who is serving or has served as an appointed member of any city board, commission, agency or committee. (2004 Code, § 4-601)

4-502. Legal representation. Subject to the conditions and requirements of this chapter, the city shall, upon request of any present or former official or employee, provide to the official or employee such legal representation as may be reasonably necessary to defend any claim filed against the official or employee, arising out of the performance, purported performance or failure of performance, in good faith, of duties for or employment with the city. This legal representation shall be provided by the city attorney or the city attorney's designee, except as may be provided under an insurance policy or self insurance or joint insurance program and subject to the terms of the city attorney's employment agreement with the city. (2004 Code, § 4-602)

4-503. Exclusions - determination of representation. This chapter shall not apply to any dishonest, fraudulent, willful misconduct, criminal or malicious act of the person requesting defense and indemnification, to any act outside the scope of service or employment, to any lawsuit brought by or on behalf of the city, to any matter which would create a conflict of interest

between the city and the person or persons involved, or to any accident, occurrence or circumstance in which the city or an official or employee is insured against loss or damages under the terms of a city insurance policy or self insurance or a joint insurance program.

The city attorney or his designee shall determine whether an official or employee was performing duties for or employment with the city in good faith, and whether an official or employee committed a dishonest, fraudulent, criminal or malicious act. The official or employee may appeal such determination to the city council. (2004 Code, § 4-603)

4-504. Payment of claims - conditions of representation. At the request of an official or employee, the city attorney, his designee or other attorney or attorneys hired as an independent contractor to handle the matter shall investigate and defend a claim which is covered by this chapter. If that claim is deemed by the city attorney, his designee or other attorney or attorneys hired as an independent contractor to handle the matter, to be a proper claim against the official or employee, the claim shall be paid by the city as long as the following requirements are met.

(1) As soon as practicable after receipt of notice of a claim, the official or employee shall give the city attorney written notice of the claim, specifying the names of the officials or employees involved, the date, time, place and circumstances surrounding the incident or conduct giving rise to the claim, the names and addresses of all persons allegedly injured, the names and addresses of owners of allegedly damaged property, and the names and addresses of all witnesses.

(2) The official or employee shall cooperate with the city attorney, his designee or other attorney or attorneys hired as an independent contractor to handle the matter, and, upon request, shall assist in making settlements of any lawsuits and in enforcing any claim for subrogation against any persons or organizations that may be liable to the city because of any damages or losses arising from the incident or conduct.

(3) The official or employee shall attend interviews, depositions, hearings and trials as requested, and assist in securing and giving evidence and obtaining the attendance of witnesses.

If the city attorney, his designee or other attorney or attorneys hired as an independent contractor to handle the matter, determines that a claim against an official or employee is not covered by this chapter and a court of competent jurisdiction, in a final judgment, finds that the claim is covered by this chapter, the city shall pay the claim and reasonable attorney's fees. (2004 Code, § 4-604)

4-505. Refusal to cooperate. If any official or employee fails or refuses to meet the requirements of § 4-504 herein or elects to provide his or her own representation on any claim, this chapter shall be inapplicable and of no force and effect with respect to that claim. (2004 Code, § 4-605)

4-506. Conflict with provisions of insurance policies. Nothing contained in this chapter shall be construed to modify or amend any provision of any insurance policy or any coverage through a self insurance or joint insurance program. If there is a conflict between this chapter and the provisions of any such policies or coverage, the provisions of any such policies or coverage shall control. (2004 Code, § 4-606)

4-507. Pending claims. This chapter shall apply to any pending claim against an official or employee and to any claim hereafter filed irrespective of the date of the events or circumstances giving rise to the claim. (2004 Code, § 4-607)

4-508. Other indemnification. In any other action or proceeding, including proceeding which took place before the passage of this chapter, the city may provide for the defense or pay the defense costs of a present or former city official, if the city attorney determines that such representation or defense costs were incurred while the official or employee was performing, purporting to perform or failing to perform, in good faith, duties for or employment with the city and such actions or failure to act did not fall under the exclusions of § 4-503 of this chapter. Such past costs may be paid only on presentation of canceled checks drawn on the account of the official. (2004 Code, § 4-608)

This section would not be applicable to servers with a certification from Alcoholic Beverage Commission per Tennessee Code Annotated § 57-5-106.

(2) That no sale shall be made to any person under the age of twenty-one (21) years, nor shall any person under the age of eighteen (18) be employed directly in the sale or distribution of such beverages.

(3) That no person under the age of twenty-one (21) shall be allowed to loiter about the applicant's premises, provided that persons under that age shall be allowed a reasonable amount of time to consume their meals and nonalcoholic beverages.

(4) That no sale shall be made to persons intoxicated or who are feeble-minded, insane or otherwise mentally incapacitated.

(Ord. #09-01, June 2009, modified)

8-208. Application to be filed; open to inspection; forfeiture of permit for false statement. 8-209. Classes of permits. There shall be four (4) classes of permits issued by the beer board as follows:

(1) Class A. An "off-site" permit to any person or legal organization engaged in the sale of such beverages where they are not to be consumed by the purchaser or other persons upon or near the premises of such seller.

The monthly beer sales of any Class A permit holder which for two (2) consecutive months or for any three (3) months in any calendar year has beer sales exceeding thirty percent (30%) of its gross sales shall have its beer permit suspended or revoked in accordance with the provisions in this chapter.

(2) Class B. An "on-site" permit to any person or legal organization engaged in the operation of a restaurant wherein the sale of beer is for consumption on the premises. A restaurant shall be defined as a business establishment whose primary business is the sale of prepared food to be consumed on the premises and less than thirty percent (30%) of its income is from the sale of beer.

(3) Class C. A temporary permit may be issued at the request of an applicant through the same process governing permanent permits, except that the posting of a sign on the premises shall not be required as part of the application process, and the beer board shall determine and specify the terms and conditions for issuance of each temporary permit. Temporary permits may be issued for periods of time not to exceed a total of thirty (30) days during any consecutive twelve (12) month period under the same permit and application. Temporary permits may be issued by the beer board for scheduled sporting, recreation, amusement, dining, entertainment and other similar events and activities and shall specify with reasonable particularity the premises on which the permit shall be valid and the time or times during which the permit shall be valid. If events covered by a temporary permit will be held on land not owned by the applicant, a written statement of approval from the landowner must accompany the temporary permit application. Except when the members of the beer board and the members of the city council are one and the same, no such permit shall allow the sale, storage, dispensing, serving, distribution, or manufacture of beer on publicly owned or controlled property, or on public right-of-way, unless additionally approved by the city council. The beer board is authorized to place any and all limitations or restrictions it deems necessary on temporary permits, including but not limited to hours of sales and number of locations. Should special called meetings of the beer board be necessary to consider temporary permit applications or follow-up applications other than days and times that the beer board or city council are scheduled to meet, the applicant will be required to pay the same fee for special called meetings as prescribed in the city's current fees schedule. Temporary permits shall be issued as one (1) of two (2) types:

(a) Single event permit. A single event permit shall be valid for a maximum of thirty (30) days, with the actual number of days and the specific times each day to be determined by the beer board based upon the information provided by the applicant.

(b) Multiple event permit. A multiple event permit may be issued for a fixed number of events during a calendar year. The exact dates and locations of each event must be approved by the beer board at the time of issuance of the permit, or if exact dates or locations are not known at the time of permit issuance, subsequent approval at a future beer board meeting must be obtained prior to the event. Each beer board meeting that is necessary to consider previously unknown dates or locations under this section require the payment of an additional fifty dollar (\$50.00) application fee, which must be submitted with a request and description of the event three weeks prior to the next scheduled or called beer board or city council meeting in which the issue is intended to be taken into consideration. The applicant shall also pay the city for the additional cost of each related publication. (Ord. #09-01, June 2009, as amended by Ord. #2011-05, Aug. 2011, and Ord. #2015-09, July 2015)

8-210. Grounds for denial of a permit. No application for permit for the sale of beer shall be approved where in the reasonable determination of the board such sale would cause a dangerous congestion of traffic or interfere with the peaceful and orderly operation of schools, churches, playgrounds, parks, or other places of public gathering, or where the applicant has once held a permit and it has been revoked less than one (1) year from the time of his present application, or where it would otherwise interfere with the public health, safety and morals. (Ord. #09-01, June 2009)

8-211. Permits prohibited within certain areas. (1) No permit shall be issued to an applicant whose location:

(a) Is upon property having a common boundary line with the property upon which a church, school, public park or public playground is located; or

(2) No permit shall be issued to an applicant whose location is within two hundred fifty feet (250') from any church, school, public park or public playground.

(3) In determining the distance under this section, measurement shall be from the center of the main entrance of a structure, or facility, in case of a public park or public playground following a straight line, to the center of the main entrance of the potential permittee. (Ord. #09-01, June 2009)

(3) Complaints filed against any permit holder for the purpose of suspending or revoking such permit shall be made in writing filed with the board when the board shall have reason to believe that any permit holder shall have violated any of the provisions of this chapter. The board is authorized, in its discretion, to notify the permittee of said violations and to cite said permittee by written notice to appear and show cause why his permit should not be suspended or revoked for such violation. Said notice to appear and show cause shall state the alleged violation as charged, and shall be served upon the permittee either by registered letter or by a member of the Police Department of the City of Eagleville, Tennessee. The notice shall be served upon the permittee at least ten (10) days before the date set for the hearing. At the hearing, the board shall publicly hear the evidence both in support of the charges and on behalf of the permittee. After such hearing, if the charges are sustained by the evidence, the board may, in its discretion, suspend or revoke said permit. The beer board has the option at the time it imposes a suspension or revocation of offering the permit holder the alternative of paying a civil penalty not to exceed one thousand five hundred dollars (\$1,500.00) for each offense of making or permitting to be made any sales to minors, or a civil penalty of one thousand dollars (\$1,000.00) for any other violation of this chapter. If a civil penalty is offered as an alternative to suspension or revocation, the permit holder shall have seven (7) days within which to pay the civil penalty before the revocation or suspension is effective. If the civil penalty is paid within that time, the revocation or suspension shall be withdrawn. The action of the board in all such hearings shall be final, subject only to review by

the court as provided in Tennessee Code Annotated § 57-5-109. (Ord. #09-01, June 2009)

This provision shall not apply to temporary absences of the permittee, but shall apply when said permittee permanently ceases operations under his permit. Said permittee shall within five (5) days from the date on which he ceases to do business under the permit surrender said permit to the city recorder. (Ord. #09-01, June 2009)

(2004 Code, § 9-705)

9-606. Revocation or suspension of franchise. The chief of police or his designee may revoke or suspend any wrecker franchise for misrepresentations or false statements made in the application therefor or for traffic violations or violations of this chapter by the wrecker owner or any driver. (2004 Code, § 9-706)

9-607. Mechanical condition of vehicles. It shall be unlawful for any person to operate any wrecker in the city unless such wrecker is equipped with four (4) wheel brakes, front and rear lights, safe tires, horn, muffler, windshield wipers, and rear view mirror, all of which shall conform to the requirements of the state motor vehicle law. The motor and all mechanical parts shall be kept in such condition or repair as may be reasonably necessary to provide the safety of the public and the continuous satisfactory operation of the wrecker, as described in the wrecker service inspection guidelines provided by the chief of police or his designee to each franchise holder. (2004 Code, § 9-707)

9-608. Equipment required. At the time of application for a license, the chief of police or his designee shall direct that the applicants be furnished in writing a list of such equipment as the chief of police deems minimum equipment, and the licensee shall carry and have available at all times and in good working order such minimum equipment until a new list is furnished the licensee. 9-609. Inspection of vehicles. All wreckers shall be inspected at least semiannually by the chief of police or his designee to insure that they comply with the requirements of this chapter with respect to mechanical condition, equipment, etc. (2004 Code, § 9-709)

9-610. License and permit required for drivers. No person shall drive a wrecker unless he is in possession of the appropriate state driver's license and a current city permit. No wrecker may be operated as part of the city rotation schedule without a current rate card visibly displayed inside the cab of the wrecker. (2004 Code, § 9-710)

9-611. Rotating schedule. A rotating schedule will be prepared on a calendar year basis by the chief of police or his designee showing a weekly rotation of each service. This schedule will be amended as services are approved or omitted from the list of scheduled services. An updated copy of the rotation schedule will be presented to each scheduled wrecker service before it becomes effective. (2004 Code, § 9-711)

9-612. Use of scheduled service. Scheduled services will be used exclusively on all abandoned and all unattended vehicles which in the opinion of a duly authorized police officer are in violation of the municipal code. (2004 Code, § 9-712)

9-613. Use of owner-requested services. The choice of the owner or operator will be honored if, in the opinion of the police officer in charge, the owner or operator is competent to make a responsible decision. If, in the opinion of the officer in charge, the owner or operator is unable to make a responsible decision, the scheduled service will be requested. In all cases, however, if in the opinion of the officer in charge, there is sufficient danger due to road hazard or other just cause, the officer in charge may insist on the scheduled service. (2004 Code, § 9-713)

9-614. Acceptable response time. Up to three (3) local public service telephone numbers will be made available to the chief of police or his designee for each service. Upon a request for a wrecker, each of these numbers, in order given, will be attempted by the police dispatcher. The dispatcher will allow five (5) rings at each number before going on to the next number. If contact is not made on all three (3) numbers, the next scheduled service will be attempted. The time of actual contact will be logged on the official radio log of the Eagleville Police Department. After fifteen (15) minutes have passed, if the wrecker has not arrived on the scene, the next scheduled service may be summoned. In this event, the original service summoned will not be allowed to make the tow and will receive no compensation for the call. Five (5) missed calls in any one (1) calendar month is justification for elimination from the schedule for a period of six (6) months. The time of contact on the original call that is to be logged on the police log will be used on scheduled calls to determine the rate to be charged. (2004 Code, § 9-714)

9-615. Revocation or suspension of driver's permit. The chief of police, or his designee, may revoke or suspend any wrecker driver's permit for violation of traffic regulations, for violation of this chapter, or when the driver ceases to possess the qualifications as prescribed in § 9-610. (2004 Code, § 9-715)

9-616. Wreckers not to be used for illegal purposes. No wrecker shall be used for or in the commission of any illegal act, business, or purpose. (2004 Code, § 9-716)

(2004 Code, § 9-717)

9-618. Schedule of rates. Towing, transporting, and storage rates shall be set by the city and shall not be exceeded unless written authorization is agreed to by the wrecker service and the owner or operator of the vehicle. (2004 Code, § 9-718, modified)

9-619. Street cleaning. Wrecker personnel shall be required to remove all debris from the city right-of-way before leaving the scene. (2004 Code, § 9-719)

9-620. Storage of towed vehicles. Vehicles towed for violation of city ordinances requiring storage will be taken to the franchise holder's lot unless otherwise requested by the ranking police officer on the scene. Vehicles and contents on franchise holder's lots are the total responsibility of the franchise holder. This responsibility will begin upon the signing of a "tow-in" form prescribed by the chief of police. (2004 Code, § 9-720)

9-621. Retrieving of towed vehicles. Persons retrieving towed vehicles must first have release of vehicle from the City of Eagleville. All wrecker services on twenty-four (24) hour rotating schedule must allow vehicles to be retrieved on a twenty-four (24) hour basis. (2004 Code, § 9-721)

¹State law reference

Tennessee Code Annotated, § 44-17-501, et seq., "The Tennessee Spay/Neuter Law," prohibits persons from adopting a dog or cat from an agency (pound, animal shelter, etc.) operated by a municipality unless the dog or cat was already spayed or neutered, was spayed or neutered while in the custody of the agency, or the new owner signs a written agreement to have the animal spayed or neutered within 30 days of the adoption if the animal is sexually mature, or within 30 days after the animal reaches six (6) months of age if it is not sexually mature.

Before an agency may release an animal which has not been spayed or neutered it must collect a twenty-five dollar (\$25.00) deposit from the new owner to ensure compliance with the law. This code section can be used when the city seeks to clean up the swimming pool, spa, or hot tub at the owner's expense and place a lien against the property for the cost of the clean-up but not to prosecute the owner in city court. The property owner and/or tenant may be cited or summoned to municipal court for violation of the ordinance provisions.

(7) **Judicial review; appeal.** Any person aggrieved by an order or act of the city under the provisions of the subsections above may seek judicial review of the order or the act. The time period established in subsections (5) or (6) above shall be stayed during the pendency of judicial review.

(3) Notice to property owner. It shall be the duty of the codes enforcement and inspection division to serve notice upon the owner of record in violation of subsection (1) above, a notice in plain language to remedy the condition within ten (10) days (or twenty (20) days if the owner of record is a carrier engaged in the transportation of property or is a utility transmitting communications, electricity, gas, liquids, steam, sewage, or other materials), excluding Saturdays, Sundays, and legal holidays. The notice shall state that the owner of the property is entitled to a hearing, and shall, at the minimum, contain the following additional information:

The city is authorized to use either internal labor and equipment or private contractors at its discretion to enforce the provisions of this code. Failure to make a request for a hearing within the aforementioned notice period shall without exception constitute a waiver of the right to a hearing. The city attorney is authorized to take legal action to collect the costs of clean-up assessed against the property owner and to take any and all necessary action to place a lien against the property for the costs of clean-up if not paid. In addition to or in the alternative, the codes enforcement and inspection division may cite the property owner to municipal court for violation of the ordinance provisions.

14-301. General use of and construction in right-of-way.
Relationship with other laws. Construction work and maintenance of any and all facilities within the city's rights-of-way shall be done in accordance with the Eagleville Municipal Code, including but not limited to, EMC Title 16; City of Eagleville Standard Specifications for Road, Bridge and Municipal Construction; City of Eagleville Standard Plans for Municipal Construction; any other applicable ordinance, rule or policy; and any amendments thereto. The provisions of chapter 3 are meant to be supplemental to the above provisions. In the event of a conflict between the above provisions and this section, the above provisions shall prevail. (2004 Code, § 14-301)

14-302. Construction. (1) All construction and maintenance of any and all facilities within the city's rights-of-way incident to grantee's cables, lines, piping, fibers, and appurtenances shall be and remain the grantee's responsibility regardless of who performs the construction. Grantee shall apply for and obtain all permits necessary for construction or installation of any facilities, and for excavating and laying any facilities, within the city's rights-of-way. Grantee shall pay all applicable fees upon issuance of the requisite construction permits by the city to grantee, and shall pay all inspection fees and other costs incurred by the city as a result of work authorized by such permit.

(2) Before beginning any construction, grantee shall provide the city with a construction schedule for work in the city's rights-of-way. As grantee's construction of facilities of the city's rights-of-way is completed on its location

subsequently altered during the term of the permit, grantee shall periodically provide the city with maps showing the location of the installed facility in the city's rights-of-way, as built.

(3) Before beginning any work in the city's rights-of-way, grantee shall apply for and obtain appropriate permits from the city, and give appropriate notices to any other franchisees, licensees or permittees of the city, or other units of government owning or maintaining pipes, wires, conduits or other facilities which may be affected by the proposed excavation.

(4) When facilities pass over or under private or publicly owned property it shall be grantee's sole responsibility to obtain all necessary permission from the owner thereof before commencing work, and to notify all utility companies and property owners who may be subject to damage or inconvenience during such work. (2004 Code, § 14-302)

14-303. Relocation. The city shall have the right to require grantee to change the design or location of any of grantee's cables, lines, piping, fibers, and appurtenances within the city's rights-of-way when the public convenience or public interest would be served by such a change, and the expense thereof shall be paid by grantee. Should grantee fail to remove or relocate or redesign any such facilities by the date reasonably established by the city, the city may effect such removal or relocation or redesign, and the expense thereof shall be paid by grantee, including all costs and expenses incurred by the city due to grantee's delay. If the city requires grantee to relocate its facilities located within the city's rights-of-way, the city shall provide grantee with an alternate location within the city's rights-of-way. Nothing herein shall prevent grantee from participating in any alternative funding for relocation. (2004 Code, § 14-3013)

14-304. Restoration of city's rights-of-way. Whenever grantee disturbs the surface of any right-of-way for any purpose, the grantee shall be responsible for restoration of the city's right-of-way and its surface within the area affected by the excavation unless the city authorizes itself in the street use permit to perform such restoration work. The cost of all restoration work, including the cost of inspection and supervision, shall be paid by the grantee. All excavations made by grantee in the city's rights-of-way shall be properly safeguarded for the prevention of accidents. (2004 Code, § 14-304)

14-305. Maintenance and workmanship. (1) Grantee's cables, lines, piping, fibers, and appurtenances shall be constructed and maintained so as not to interfere with sewers, water pipes, conduits or any other property of the city, or with any other pipes, wires, conduits, structures or other facilities that may have been laid in the city's rights-of-way by or under the city's authority.

(2) Grantee shall operate its system so as to prevent injury to the city's property or property belonging to any person within the city. Grantee, at its own

expense, shall repair, renew, change and improve its facilities from time to time as may be necessary to accomplish this purpose.

(3) Grantee shall not construct its system in any manner that requires any subscriber to install any cable, wire, conduits or other facilities under or over a right-of-way. (2004 Code, § 14-305)

14-306. Acquisition of facilities. Upon grantee's acquisition of facilities in any city right-of-way, or upon the addition or annexation to the city of any area in which grantee owns or operates any facility in any city right-of-way, the grantee shall, at the city's request, submit to the city a statement and as-built plans describing all existing facilities, whether authorized by franchise, permit, license or other prior right, and depicting the location of all such facilities with such specificity as the city property may reasonably require. Such facilities shall immediately be subject to the terms of this chapter and shall be brought into compliance with it as soon as practicable. In the event the new facilities or annexed area have characteristics that make literal application of any term of the chapter inappropriate, the parties will negotiate in good faith to modify the chapter solely with respect to such characteristics and only to the extent necessary to achieve consistency with the purposes of this chapter. (2004 Code, § 14-306)

14-307. Reservation of city right-of-way rights. Nothing in this chapter shall prevent the city from constructing, maintaining, or repairing any city right-of-way, or public work or improvement in the city's rights-of-way. All such work shall be done, insofar as practicable, so as not to obstruct, injure or prevent the use and operation of grantee's cables, lines, piping, fibers, and appurtenances. However, if any of the grantee's system will interfere with the construction, maintenance, or repair of any city right-of-way or public work or improvement in the city's rights-of-way, at its own expense the grantee shall remove or relocate its system as the city directs. Should the grantee fail not to remove, adjust or relocate its facilities by the date established by the city's written notice to grantee, the city may effect such removal, adjustment or relocation and recover the cost thereof from the grantee, including all costs and expenses incurred by the city due to grantee's delay. (2004 Code, § 14-307)

14-308. Reservation of rights and privileges. Nothing in this chapter shall deprive the city of any rights or privileges which it now has, or which may hereafter be conferred upon it, including any rights to exercise its police powers in the regulation and control the use of the rights-of-way. (2004 Code, § 14-308)

14-309. Discontinuing use of facilities. Whenever grantee intends to discontinue using any facility or capacity within the city's rights-of-way, grantee shall submit for the City of Eagleville's approval a complete description of the

facility and the date on which the grantee intends to discontinue using the facility or capacity. Grantee may remove the facility or request that the city permit it to remain in place. Notwithstanding the grantee's request that any such facility remain in place, the City of Eagleville may require the grantee to remove the facility from the city's right-of-way or modify or maintain the facility or capacity to protect the public health and safety or otherwise serve the public interest. The City of Eagleville may require the grantee to perform a combination of modification, maintenance, and/or removal of the facility and/or capacity. Grantee shall complete such removal or modification in accordance with a schedule set by the City of Eagleville. Until such time as grantee removes or modifies the facility as directed by the City of Eagleville, or until the rights to and responsibility for the facility are accepted by another person having authority to construct and maintain such facility, grantee shall be responsible for all necessary repairs and relocations of the facility, as well as maintenance of the city's right-of-way, in the same manner and degree as if the facility were in active use, and grantee shall retain all liability for such facility. (2004 Code, § 14-310)

14-310. Hazardous substances. (1) Grantee shall comply with all applicable state and federal laws, statutes, regulations and orders concerning hazardous substances relating to grantee's cable system in the city's rights-of-way. For purposes of § 14-311, "hazardous substances" shall be all substances so characterized in R.C.W. 70.1050.020 (5).

(2) Grantee shall maintain and inspect its facilities located in the city's rights-of-way and immediately inform the city of any release of hazardous substances. Upon reasonable notice to grantee, the city may inspect grantee's facilities in the city's rights-of-way to determine if any release of hazardous substances has occurred, or may occur, from or related to grantee's facilities. In removing or modifying grantee's facilities as provided in this chapter, grantee shall also remove all residue of hazardous substances related thereto provided, however, if it is determined that grantee's owned facilities did not cause the release of hazardous substances, grantee shall have no duty to remove such substances.

(3) Grantee agrees to forever indemnify the city against any claims, costs, and expenses of any kind, whether direct or indirect, incurred by the city arising out of a release of hazardous substances arising from, connected to or incident to grantee's facilities in the city's rights-of-way. (2004 Code, § 14-311)

14-311. Underground cable. Grantee is strongly encouraged to locate and construct its present and future cables and other facilities underground. Grantee shall install its cables or other facilities underground wherever and at the same time existing utilities in the immediate vicinity are installed underground, where all utilities are placed underground, or where statute or ordinance requires utilities to be placed underground. Previously installed

aerial cable shall be underground in concert, and on a reasonable cost-sharing basis, with other utilities pursuant to the general ordinances of the city or applicable state law, or in the event that a telecommunications utility or a public utility decides to underground its on a voluntary basis, unless the city grants an exception. (2004 Code, § 14-312)

14-312. Construction codes. Grantee shall strictly adhere to all building and zoning codes currently or hereafter in effect. Grantee shall arrange its lines, cables, and other appurtenances, on both public and private property, in such a manner as to cause no unreasonable interference with the use of said public or private property by any person. In the event of such interference, the city may require the removal or relocation of the grantee's lines, cables, and other appurtenances from the property in question at grantee's expense. (2004 Code, § 14-313)

14-313. Construction and use of poles. Grantee shall negotiate and enter into pole attachment agreements with utilities maintaining poles in the grantee's franchise area in terms acceptable to grantee and the affected utilities; provided, any obligations to provide fiber or capacity that might be imposed on grantee shall be deemed fully satisfied for the term of their agreement and any extensions by grantee's agreement to install, at the time of grantee's own construction, fiber for the city in accordance with the following provisions:

In the course of grantee's own construction of its optical fiber system, grantee shall include at the city's request additional fiber for the city's exclusive use for governmental purposes. Such purposes shall not include any lease, license, or other transfer to any third party of the right to use such fiber and shall not include any commercial use. However, such purposes may include the following uses, for which the city may receive payment to defray its costs of installation and maintenance.

(1) The city may share use of the fiber with other governments for governmental purposes where signals are mixed with city signals in the same transmission system and the city may make fibers available to schools as distinctly leased fibers or as part of a shared transmission system as described above.

(2) The city shall bear the incremental cost of adding the additional fiber during grantee's construction and the incremental cost, if any, of maintenance.

(3) The total amount of fiber installed for the city under this provision shall not exceed thirty (30) miles in distance, nor two hundred (200) fiber miles (number of fibers in a sheath times distance) without the express consent of grantee.

(4) Grantee's agreement to provide fiber under this section shall not be construed as acquiescence in or admission of the city's authority to impose such obligations unilaterally. (2004 Code, § 14-314)

14-314. Tree trimmings. The grantee must submit all construction plans and/or pruning plans to the city for initial review before any work begins. This review may take place concurrently with reviews required by the city council. (2004 Code, § 14-315)

SPEED LIMITS

SECTION

15-301. Generally.

15-302. Intersections.

15-303. School zones.

15-304. Congested areas.

15-301. Generally. It shall be unlawful for any person to operate or drive a motor vehicle upon any highway or street at a rate of speed in excess of thirty (30) miles per hour except where official signs have been posted indicating other speed limits, in which cases the posted speed limit shall apply. (2004 Code, § 15-301)

15-302. Intersections. It shall be unlawful for any person to operate or drive a motor vehicle through any intersection at a rate of speed in excess of fifteen (15) miles per hour unless such person is driving on a street regulated by traffic control signals or signs which require traffic to stop or yield on the intersecting streets. (2004 Code, § 15-302)

15-303. School zones. Generally, pursuant to Tennessee Code Annotated § 55-8-152, special speed limits in school zones shall be enacted based on an engineering investigation; shall not be less than fifteen (15) miles per hour; and shall be in effect only when proper signs are posted with a warning flasher or flashers in operation. It shall be unlawful for any person to violate any such special speed limit enacted and in effect in accordance with this paragraph. Speed limits enacted pursuant to this paragraph shall not apply at school entrances and exits to and from controlled access highways on the system of state highways.

When the city council has not established special speed limits as provided for above, any person who shall drive at a speed exceeding fifteen (15) miles per hour when passing a school during a recess period when a warning flasher or flashers are in operation, or during a period of ninety (90) minutes before the opening hour of a school or a period of ninety (90) minutes after the closing hour of a school, while children are actually going to or leaving school, shall be prima facie guilty of reckless driving. (2004 Code, § 15-303, modified)

15-304. Congested areas. Whenever the city council determines upon the basis of an engineering or traffic investigation or study that any maximum speed set forth in the above sections is greater or less than is reasonable or safe under the conditions found to exist at any congested area, intersection, or other place, the city council may declare by resolution reasonable and safe maximum

or minimum limits thereat, which shall be effective when appropriate signs giving notice thereof are erected. Such a maximum or minimum speed limit may be declared to be effective at all times or at such times as are indicated upon signs. Differing limits may be established for differing times of day, different types of vehicles, varying weather conditions, and other factors bearing on safe speed. (2004 Code, § 15-304)

CHAPTER 4

TURNING MOVEMENTS

SECTION

15-401. Generally.

15-402. Right turns.

15-403. Left turns on two-way roadways.

15-404. Left turns on other than two-way roadways.

15-405. U-turns.

15-401. Generally. No person operating a motor vehicle shall make any turning movement which might affect any pedestrian or the operation of any other vehicle without first ascertaining that such movement can be made in safety and signaling his intention in accordance with the requirements of the state law.¹ (2004 Code, § 15-401)

15-402. Right turns. Both the approach for a right turn and a right turn shall be made as close as practicable to the right hand curb or edge of the roadway. (2004 Code, § 15-402)

15-403. Left turns on two-way roadways. At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center line thereof and by passing to the right of the intersection of the center lines of the two (2) roadways. (2004 Code, § 15-403)

15-404. Left turns on other than two-way roadways. At any intersection where traffic is restricted to one (1) direction on one (1) or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left hand lane lawfully available to traffic moving in the direction of travel of such vehicle and after entering the intersection the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left hand lane lawfully available to

CHAPTER 5

STOPPING AND YIELDING

SECTION

- 15-501. Upon approach of authorized emergency vehicles.
- 15-502. When emerging from alleys, etc.
- 15-503. To prevent obstructing an intersection.
- 15-504. At railroad crossings.
- 15-505. At "stop" signs.
- 15-506. At "yield" signs.
- 15-507. At traffic control signals generally.
- 15-508. At flashing traffic control signals.
- 15-509. Stops to be signaled.

15-501. Upon approach of authorized emergency vehicles.¹ Upon the immediate approach of an authorized emergency vehicle making use of audible and/or visual signals meeting the requirements of the laws of this state, the driver of every other vehicle shall immediately drive to a position parallel to, and as close as possible to, the right hand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer. (2004 Code, § 15-501)

15-502. When emerging from alleys, etc. The drivers of all vehicles emerging from alleys, parking lots, driveways, or buildings shall stop such vehicles immediately prior to driving onto any sidewalk or street. They shall not proceed to drive onto the sidewalk or street until they can safely do so without colliding or interfering with approaching pedestrians or vehicles. (2004 Code, § 15-502)

15-503. To prevent obstructing an intersection. No driver shall enter any intersection or marked crosswalk unless there is sufficient space on the other side of such intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of traffic in or on the intersecting street or crosswalk. This provision shall be effective notwithstanding any traffic control signal indication to proceed. (2004 Code, § 15-503)

15-504. At railroad crossings. Any driver of a vehicle approaching a railroad grade crossing shall stop within not less than fifteen feet (15') from the

¹Municipal code reference

Special privileges of emergency vehicles: title 15, chapter 2.

nearest rail of such railroad and shall not proceed further while any of the following conditions exist:

- (1) A clearly visible electrical or mechanical signal device gives warning of the approach of a railroad train.
- (2) A crossing gate is lowered or a human flagman signals the approach of a railroad train.
- (3) A railroad train is approaching within approximately one thousand five hundred feet (1,500') of the highway crossing and is emitting an audible signal indicating its approach.
- (4) An approaching railroad train is plainly visible and is in hazardous proximity to the crossing. (2004 Code, § 15-504)

15-505. At "stop" signs. The driver of a vehicle facing a "stop" sign shall bring his vehicle to a complete stop immediately before entering the crosswalk on the near side of the intersection or, if there is no crosswalk, then immediately before entering the intersection, and shall remain standing until he can proceed through the intersection in safety. (2004 Code, § 15-505)

15-506. At "yield" signs. The drivers of all vehicles shall yield the right-of-way to approaching vehicles before proceeding at all places where "yield" signs have been posted. (2004 Code, § 15-506)

15-507. At traffic control signals generally. Traffic control signals exhibiting the words "Go," "Caution," or "Stop," or exhibiting different colored lights successively one at a time, or with arrows, shall show the following colors only and shall apply to drivers of vehicles and pedestrians as follows:

- (1) Green alone, or "Go".
 - (a) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.
 - (b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.
- (2) Steady yellow alone, or "Caution". Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited.
- (3) Steady red alone, or "Stop". Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection and shall remain standing until green or "Go" is shown alone. Provided, that a right turn on a red signal, generally, shall be permitted at all intersections within the city, provided that the prospective turning car comes to a full and complete stop

before turning and that the turning car yields the right-of-way to pedestrians and cross traffic traveling in accordance with their traffic signal. However, said turn will not endanger other traffic lawfully using said intersection. A right turn on red shall be permitted at all intersections except those clearly marked by a "No Turns On Red" sign, which may be erected by the city at intersections which the city decides require no right turns on red in the interest of traffic safety.

(4) Steady red with green arrow. Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

(5) In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made a vehicle length short of the signal. (2004 Code, § 15-507)

15-508. At flashing traffic control signals. (1) Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal placed or erected in the city it shall require obedience by vehicular traffic as follows:

(a) Flashing red (stop signal). When a red lens is illuminated with intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or if none, or if there is no crosswalk or limit line, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) Flashing yellow (caution signal). When a yellow lens is illuminated with intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules set forth in § 15-504 of this code. (2004 Code, § 15-508)

15-509. Stops to be signaled. No person operating a motor vehicle shall stop such vehicle, whether in obedience to a traffic sign or signal or otherwise, without first signaling his intention in accordance with the requirements of the state law,¹ except in an emergency. (2004 Code, § 15-509)

Except as hereinafter provided, every vehicle parked upon a street within the City of Eagleville shall be so parked that its right wheels are approximately parallel to and within eighteen inches (18") of the right edge or curb of the street.

Notwithstanding anything else in this code to the contrary, no person shall park or leave a vehicle parked on any public street or alley within the fire limits between the hours of 1:00 A.M. and 5:00 A.M. or on any other public street or alley for more than seventy-two (72) consecutive hours without the prior approval of the chief of police.

15-603. Occupancy of more than one space. No person shall park a vehicle in any designated parking space so that any part of such vehicle occupies more than one (1) such space or protrudes beyond the official markings on the street or curb designating such space unless the vehicle is too large to be parked within a single designated space. (2004 Code, § 15-603)

15-604. Where prohibited. No person shall park a vehicle in violation of any sign placed or erected by the state or city, nor:

- (9) On the roadway side of any vehicle stopped or parked at the edge or curb of a street;
- (10) Upon any bridge;
- (11) Alongside any curb painted yellow or red by the city.
- (12) In any space designated "handicapped" parking. (2004 Code, § 15-604, modified)

15-605. Loading and unloading zones. No person shall park a vehicle for any purpose or period of time other than for the expeditious loading or unloading of passengers or merchandise in any place marked by the city as a loading and unloading zone. (2004 Code, § 15-605)

15-606. Presumption with respect to illegal parking. When any unoccupied vehicle is found parked in violation of any provision of this chapter, there shall be a prima facie presumption that the registered owner of the vehicle is responsible for such illegal parking. (2004 Code, § 15-606)

(2004 Code, § 15-702)

15-703. Illegal parking. Whenever any motor vehicle without a driver is found parked or stopped in violation of any of the restrictions imposed by this code, the officer finding such vehicle, or the codes enforcement officer, shall take its license number and may take any other information displayed on the vehicle which may identify its user, and shall conspicuously affix to such vehicle a citation for the driver and/or owner to answer for the violation within ten (10) days during the hours and at a place specified in the citation. necessary for the security of the vehicle or to prevent obstruction of traffic, to remove from the streets and impound any vehicle whose operator is arrested or any unattended vehicle which is parked so as to constitute an obstruction or hazard to normal traffic. Any impounded vehicle shall be stored until the owner or other person entitled thereto claims it, gives satisfactory evidence of ownership or right to possession, and pays all applicable fees and costs or until it is otherwise lawfully disposed of. Fees for impounding vehicles and for storage costs shall be established from time to time by the city council. (2004 Code, § 15-704, modified)

15-705. Disposal of abandoned motor vehicles. "Abandoned motor vehicles," as defined in Tennessee Code Annotated § 55-16-103, shall be impounded and disposed of by the police department in accordance with the provisions of Tennessee Code Annotated §§ 55-16-103 through 55-16-109. Provided further, that the violation regulating all moving traffic shall be punishable by a penalty of not more than fifty dollars (\$50.00) and costs and litigation taxes for each separate violation.

From this deposit shall be deducted any expense to the city of correcting or completing any installation to city specifications. The balance, if any, shall be returned to the applicant without interest after the tunnel or excavation is completely refilled and the surface or pavement is restored. (2004 Code, § 16-204)

16-205. Manner of excavating; barricades and lights; temporary sidewalks. Any person, firm, corporation, association, or others making any excavation or tunnel shall do so according to the terms and conditions of the application and permit authorizing the work to be done. Sufficient and proper barricades and lights shall be maintained to protect persons and property from injury by or because of the excavation being made. All traffic control and obstructions must be coordinated with the Eagleville Police Department and with the public works department. It is the responsibility of the permittee to control traffic. If any walkway or street is blocked by any such work, a temporary walkway or street shall be constructed or provided with detour signs which shall be safe for travel and convenient for users. (2004 Code, § 16-205)

16-206. Restoration of streets, etc. Any person, firm, corporation, association, or others making any excavation or tunnel in or under any street, alley, or public place in the city shall restore said street, alley, or public place to its original condition. In case of delay past the completion date set forth in the application, the codes enforcement officer shall give notice to the applicant and the person for whom the work was done if different that unless the excavation or tunnel is refilled properly within a specified period of time, the city will do the

work and charge the expense of doing the same to the applicant or the person for whom the work was done. If within the specified time the conditions of the above notice have not been complied with the work shall be done by the city, an accurate account of the expense involved shall be kept, and the total cost shall be charged to the applicant or the person for whom the work was done. (2004 Code, § 16-206)

16-207. Insurance. In addition to making the cash deposit or giving the bond hereinbefore required to insure that proper restoration is made, each person applying for an excavation permit shall file a certificate of insurance indicating that the applicant is covered by workman's compensation insurance as well as against claims for property damage or personal injury which may arise from or out of the performance of the work, whether such performance be by the applicant, his subcontractor, or anyone directly or indirectly employed by him. Such insurance shall cover collapse, explosive hazards, and underground work by equipment on the street, and shall include protection against liability arising from completed operations. The amount of the insurance shall be prescribed by the codes enforcement officer in accordance with the nature of the risk involved; provided, however, that the liability insurance for bodily injury shall not be less than three hundred thousand dollars (\$300,000.00) for proper damages. (2004 Code, § 16-207)

16-208. Time limits. Each application for a permit shall state the length of time that will elapse from the commencement of the work until the restoration of the surface, but in no case shall the time for restoration exceed sixty (60) days. It shall be unlawful to fail to comply with this time limitation unless permission for an extension of time is granted by the codes enforcement officer. (2004 Code, § 16-208)

MISCELLANEOUS

[RESERVED FOR FUTURE USE]

ORDINANCE NO. 2018-006

AN ORDINANCE ADOPTING AND ENACTING A COMPREHENSIVE CODIFICATION AND REVISION OF THE ORDINANCES OF THE CITY OF EAGLEVILLE, TENNESSEE.

WHEREAS some of the ordinances of the City of Eagleville are obsolete, and

WHEREAS some of the other ordinances of the city are inconsistent with each other or are otherwise inadequate, and

WHEREAS the Mayor and City Council of the City of Eagleville, Tennessee, has caused its ordinances of a general, continuing, and permanent application or of a penal nature to be codified and revised and the same are embodied in a code of ordinances known as the "Eagleville Municipal Code," now, therefore:

BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF EAGLEVILLE, TENNESSEE, THAT:

Section 1. Ordinances codified. The ordinances of the City of Eagleville of a general, continuing, and permanent application or of a penal nature, as codified and revised in the following "titles," namely "titles" 1 to 20, both inclusive, are ordained and adopted as the "Eagleville Municipal Code," hereinafter referred to as the "Municipal Code."

Section 2. Ordinances repealed. All ordinances of a general, continuing, and permanent application or of a penal nature not contained in the municipal code are hereby repealed from and after the effective date of said code, except as hereinafter provided in section 3 below.

Section 3. Ordinances saved from repeal. The repeal provided for in section 2 of this ordinance shall not affect: Any offense or act committed or done, or any penalty or forfeiture incurred, or any contract or right established or accruing before the effective date of the municipal code; any ordinance or resolution promising or requiring the payment of money by or to the city or authorizing the issuance of any bonds or other evidence of said city's indebtedness; any appropriation ordinance or ordinance providing for the levy of taxes or any budget ordinance; any contract or obligation assumed by or in favor of said city; any ordinance establishing or authorizing the establishment of a social security system or providing or changing coverage under that system; any administrative ordinances or resolutions not in conflict or inconsistent with the provisions of such code; the portion of any ordinance not in conflict with such

code which regulates speed, direction of travel, passing, stopping, yielding, standing, or parking on any specifically named public street or way; any right or franchise granted by the city; any ordinance dedicating, naming, establishing, locating, relocating, opening, closing, paving, widening, vacating, etc., any street or public way; any ordinance establishing and prescribing the grade of any street; any ordinance providing for local improvements and special assessments therefor; any ordinance dedicating or accepting any plat or subdivision; any prosecution, suit, or other proceeding pending or any judgment rendered on or prior to the effective date of said code; any zoning ordinance or amendment thereto or amendment to the zoning map; nor shall such repeal affect any ordinance annexing territory to the city.

Section 4. Continuation of existing provisions. Insofar as the provisions of the municipal code are the same as those of ordinances existing and in force on its effective date, said provisions shall be considered to be continuations thereof and not as new enactments.

Section 5. Penalty clause. Unless otherwise specified in a title, chapter or section of the municipal code, including the codes and ordinances adopted by reference, whenever in the municipal code any act is prohibited or is made or declared to be a civil offense, or whenever in the municipal code the doing of any act is required or the failure to do any act is declared to be a civil offense, the violation of any such provision of the municipal code shall be punished by a civil penalty of not more than fifty dollars (\$50.00) and costs for each separate violation; provided, however, that the imposition of a civil penalty under the provisions of this municipal code shall not prevent the revocation of any permit or license or the taking of other punitive or remedial action where called for or permitted under the provisions of the municipal code or other applicable law. In any place in the municipal code the term "it shall be a misdemeanor" or "it shall be an offense" or "it shall be unlawful" or similar terms appears in the context of a penalty provision of this municipal code, it shall mean "it shall be a civil offense." Anytime the word "fine" or similar term appears in the context of a penalty provision of this municipal code, it shall mean "a civil penalty."

Each day any violation of the municipal code continues shall constitute a separate civil offense.¹

Section 6. Severability clause. Each section, subsection, paragraph, sentence, and clause of the municipal code, including the codes and ordinances adopted by reference, is hereby declared to be separable and severable. The

invalidity of any section, subsection, paragraph, sentence, or clause in the municipal code shall not affect the validity of any other portion of said code, and only any portion declared to be invalid by a court of competent jurisdiction shall be deleted therefrom.

Section 7. Reproduction and amendment of code. The municipal code shall be reproduced in loose-leaf form. The mayor and city council, by motion or resolution, shall fix, and change from time to time as considered necessary, the prices to be charged for copies of the municipal code and revisions thereto. After adoption of the municipal code, each ordinance affecting the code shall be adopted as amending, adding, or deleting, by numbers, specific chapters or sections of said code. Periodically thereafter all affected pages of the municipal code shall be revised to reflect such amended, added, or deleted material and shall be distributed to city officers and employees having copies of said code and to other persons who have requested and paid for current revisions. Notes shall be inserted at the end of amended or new sections, referring to the numbers of ordinances making the amendments or adding the new provisions, and such references shall be cumulative if a section is amended more than once in order that the current copy of the municipal code will contain references to all ordinances responsible for current provisions. One copy of the municipal code as originally adopted and one copy of each amending ordinance thereafter adopted shall be furnished to the Municipal Technical Advisory Service immediately upon final passage and adoption.

Section 8. Construction of conflicting provisions. Where any provision of the municipal code is in conflict with any other provision in said code, the provision which establishes the higher standard for the promotion and protection of the public health, safety, and welfare shall prevail.

Section 9. Code available for public use. A copy of the municipal code shall be kept available in the recorder's office for public use and inspection at all reasonable times.

Section 10. Date of effect. This ordinance shall take effect from and after its final passage, the public welfare requiring it, and the municipal code, including all the codes and ordinances therein adopted by reference, shall be effective on and after that date.
