PREFACE

The Oakland Municipal Code contains the codification and revision of the ordinances of the Town of Oakland, Tennessee. By referring to the historical citation appearing at the end of each section, the user can determine the origin of each particular section. The absence of a historical citation means that the section was added by the codifier. The word "modified" in the historical citation indicates significant modification of the original ordinance.

The code is arranged into titles, chapters, and sections. Related matter is kept together, so far as possible, within the same title. Each section number is complete within itself, containing the title number, the chapter number, and the section of the chapter of which it is a part. Specifically, the first digit, followed by a hyphen, identifies the title number. The second digit identifies the chapter number, and the last two digits identify the section number. For example, title 2, chapter 1, section 6, is designated as section 2-106.

By utilizing the table of contents and the analysis preceding each title and chapter of the code, together with the cross references and explanations included as footnotes, the user should locate all the provisions in the code relating to any question that might arise. However, the user should note that most of the administrative ordinances (e.g. Annual Budget, Zoning Map Amendments, Tax Assessments, etc...) do not appear in the code. Likewise, ordinances that have been passed since the last update of the code do not appear here. Therefore, the user should refer to the town's ordinance book or the city clerk for a comprehensive and up to date review of the town's ordinances.

Following this preface is an outline of the ordinance adoption procedures, if any, prescribed by the town's charter.

The code has been arranged and prepared in loose-leaf form to facilitate keeping it up to date. MTAS will provide updating service under the following conditions:

- (1) That all ordinances relating to subjects treated in the code or which should be added to the code are adopted as amending, adding, or deleting specific chapters or sections of the code (see section 8 of the adopting ordinance).
- (2) That one copy of every ordinance adopted by the town is kept in a separate ordinance book and forwarded to MTAS annually.
- (3) That the town agrees to pay the annual update fee as provided in the MTAS codification service charges policy in effect at the time of the update.

When the foregoing conditions are met MTAS will reproduce replacement pages for the code to reflect the amendments and additions made by such ordinances. This service will be performed at least annually and more often if justified by the volume of amendments. Replacement pages will be supplied

with detailed instructions for utilizing them so as again to make the code complete and up to date.

The able assistance of Linda Dean, the MTAS Sr. Word Processing Specialist who did all the typing on this project, and Sandy Selvage, Administrative Services Assistant, is gratefully acknowledged.

CHAPTER 4

CODE OF ETHICS

SECTION

- 1-401. Applicability.
- 1-402. Definition of "personal interest."
- 1-403. Disclosure of personal interest by official with vote.
- 1-404. Disclosure of personal interest in nonvoting matters.
- 1-405. Acceptance of gratuities, etc.
- 1-406. Use of information.
- 1-407. Use of municipal time, facilities, etc.
- 1-408. Use of position of authority.
- 1-409. Outside employment.
- 1-410. Ethics complaints.
- 1-411. Violations.

1-401. Applicability. This chapter is the code of ethics for personnel of the municipality. It applies to all full-time and part-time elected or appointed officials and employees, whether compensated or not, including those of any separate board, commission, committee, authority, corporation, or other instrumentality appointed or created by the municipality. The words "municipal" and "municipality" include these separate entities. (as added by Ord. #07.03.02, April 2007)

1-402. Definition of "personal interest." (1) For purposes of §§ 1-403 and 1-404, "personal interest" means:

(a) Any financial, ownership, or employment interest in the subject of a vote by a municipal board not otherwise regulated by state statutes on conflicts of interests; or

(b) Any financial, ownership, or employment interest in a matter to be regulated or supervised; or

(c) Any such financial, ownership, or employment interest of the official's or employee's spouse, parent(s), stepparent(s), grandparent(s), sibling(s), child(ren), or stepchild(ren).

(2) The words "employment interest" include a situation in which an official or employee or a designated family member is negotiating possible employment with a person or organization that is the subject of the vote or that is to be regulated or supervised.

(3) In any situation in which a personal interest is also a conflict of interest under state law, the provisions of the state law take precedence over the provisions of this chapter. (as added by Ord. #07.03.02, April 2007)

1-403. Disclosure of personal interest by official with vote. An official with the responsibility to vote on a measure shall disclose during the meeting at which the vote takes place, before the vote and so it appears in the minutes, any personal interest that affects or that would lead a reasonable person to infer that it affects the official's vote on the measure. In addition, the official may recuse himself from voting on the measure. (as added by Ord. #07.03.02, April 2007)

1-404. Disclosure of personal interest in nonvoting matters. An official or employee who must exercise discretion relative to any matter, other than casting a vote, and who has a personal interest in the matter that affects or that would lead a reasonable person to infer that it affects the exercise of the discretion shall disclose, before the exercise of the discretion when possible, the interest on a form provided by and filed with the recorder. In addition, the official or employee may, to the extent allowed by law, charter, ordinance, or policy, recuse himself from the exercise of discretion in the matter. (as added by Ord. #07.03.02, April 2007)

1-405. Acceptance of gratuities, etc. An official or employee may not accept, directly or indirectly, any money, gift, gratuity, or other consideration or favor of any kind from anyone other than the municipality:

(1) For the performance of an act, or refraining from performance of an act, that he would be expected to perform, or refrain from performing, in the regular course of his duties; or

(2) That might reasonably be interpreted as an attempt to influence his action, or reward him for past action, in executing municipal business. (as added by Ord. #07.03.02, April 2007)

1-406. Use of information. (1) An official or employee may not disclose any information obtained in his official capacity or position of employment that is made confidential under state or federal law except as authorized by law.

(2) An official or employee may not use or disclose information obtained in his official capacity or position of employment with the intent to result in financial gain for himself or any other person or entity. (as added by Ord. #07.03.02, April 2007)

1-407. Use of municipal time, facilities, etc. (1) An official or employee may not use or authorize the use of municipal time, facilities, equipment, or supplies for private gain or advantage to himself.

(2) An official or employee may not use or authorize the use of municipal time, facilities, equipment, or supplies for private gain or advantage to any private person or entity, except as authorized by legitimate contract or lease that is determined by the governing body to be in the best interests of the municipality. (as added by Ord. #07.03.02, April 2007)

1-408. Use of position or authority. (1) An official or employee may not make or attempt to make private purchases, for cash or otherwise, in the name of the municipality.

(2) An official or employee may not use or attempt to use his position to secure any privilege or exemption for himself or others that is not authorized by the charter, general law, or ordinance or policy of the municipality. (as added by Ord. #07.03.02, April 2007)

1-409. Outside employment. An official or employee may not accept or continue any outside employment if the work unreasonably inhibits the performance of any affirmative duty of the municipal position or conflicts with any provision of the municipality's charter or any ordinance or policy. (as added by Ord. #07.03.02, April 2007)

1-410. Ethics complaints. (1) The city attorney is designated as the ethics officer of the municipality. Upon the written request of an official or employee potentially affected by a provision of this chapter, the city attorney may render an oral or written advisory ethics opinion based upon this chapter and other applicable law.

(2) (a) Except as otherwise provided in this subsection, the city attorney shall investigate any credible complaint against an appointed official or employee charging any violation of this chapter, or may undertake an investigation on his own initiative when he acquires information indicating a possible violation and make recommendations for action to end or seek retribution for any activity that, in the attorney's judgment, constitutes a violation of this code of ethics.

(b) The city attorney may request that the governing body hire another attorney, individual, or entity to act as ethics officer when he has or will have a conflict of interests in a particular matter.

(c) When a complaint of a violation of any provision of this chapter is lodged against a member of the municipality's governing body, the governing body shall either determine that the complaint has merit, determine that the complaint does not have merit, or determine that the complaint has sufficient merit to warrant further investigation. If the governing body determines that a complaint warrants further investigation, it shall authorize an investigation by the city attorney or another individual or entity chosen by the governing body.

(3) The interpretation that a reasonable person in the circumstances would apply shall be used in interpreting and enforcing this code of ethics.

(4) When a violation of this code of ethics also constitutes a violation of a personnel policy, rule, or regulation or a civil service policy, rule, or regulation, the violation shall be dealt with as a violation of the personnel or

civil service provisions rather than as a violation of this code of ethics. (as added by Ord. #07.03.02, April 2007)

1-411. Violations. An elected official or appointed member of a separate municipal board, commission, committee, authority, corporation, or other instrumentality who violates any provision of this chapter is subject to punishment as provided by the municipality's charter or other applicable law and in addition is subject to censure by the governing body. An appointed official or an employee who violates any provision of this chapter is subject to disciplinary action. (as added by Ord. #07.03.02, April 2007)

(1) Approve the application if the proposed regulated improvement will conform with the DRC's general guidelines and is otherwise conducive to the proper development of Oakland; or

(2) Disapprove the application, with written comments and recommendations, if the proposed regulated improvement does not conform with its promulgated guidelines or is otherwise not conducive to the proper development of Oakland.

If disapproved, the applicant may re-submit its application incorporating the DRC's comments and recommendations, pursuant to § 2-204 above. (as added by Ord. #16-3, March 2016)

2-206. Permits. If the DRC approves the application, then the planning department shall issue the building permit. If the DRC rejects the application, then the planning department shall not issue the building permit. The planning department shall nevertheless accept a revised application incorporating any comments and recommendations, treating same as a new application under § 2-204 to be reviewed pursuant to the guidelines hereunder. (as added by Ord. #16-3, March 2016)

2-207. Appeal. If the applicant is dissatisfied with any DRC action regarding its application, it may, no later than thirty (30) days after the action, appeal to the board of mayor and aldermen ("board") to review the DRC's action. The board shall review the DRC's action not more than sixty (60) days after the appeal is taken. The board's review shall be upon the record submitted to, and reviewed by, the DRC, which record shall be assembled and transmitted to the board by the planning department. The board, at a hearing, shall consider the record and any other evidence that may be pertinent or requested and shall either approve or disapprove the application, on appeal. If the board approves, then the planning department shall issue the building permit. (as added by Ord. #16-3, March 2016)

CHAPTER 4

TRAVEL REIMBURSEMENT REGULATIONS

SECTION

4-401. Enforcement.

4-402. Travel policy.

4-403. Travel reimbursement rate schedule.

4-404. Administrative procedures.

4-401. Enforcement. The chief administrative officer (CAO) of the town or his or her designee shall be responsible for the enforcement of these travel regulations. (Ord. #7-93A, July 1993)

4-402. Travel policy. (1) In the interpretation and application of this chapter, the term "traveler" or "authorized travel" means any elected or appointed municipal officer or employee, including members of municipal boards and committees appointed by the mayor or the municipal governing body, and the employees of such boards and committees who are traveling on official municipal business and whose travel was authorized in accordance with this chapter. "Authorized traveler" shall not include the spouse, children, other relatives, friends, or companions accompanying the authorized traveler on town business, unless the person(s) otherwise qualifies as an authorized traveler under this chapter.

(2) Authorized travelers are entitled to reimbursement of certain expenditures incurred while traveling on official business for the town. Reimbursable expenses shall include expenses for transportation; lodging; meals; registration fees for conferences, conventions, and seminars; and other actual and necessary expenses related to official business as determined by the CAO. Under certain conditions, entertainment expenses may be eligible for reimbursement.

(3) Authorized travelers can request either a travel advance for the projected cost of authorized travel, or advance billing directly to the town for registration fees, air fares, meals, lodging, conferences, and similar expenses.

Travel advance requests aren't considered documentation of travel expenses. If travel advances exceed documented expenses, the traveler must immediately reimburse the town. It will be the responsibility of the CAO to initiate action to recover any undocumented travel advances.

(4) Travel advances are available only for special travel and only after completion and approval of the travel authorization form.

(5) The travel expense reimbursement form will be used to document all expense claims.

(6) To qualify for reimbursement, travel expenses must be:

(a) Directly related to the conduct of the town business for which travel was authorized, and

(b) Actual, reasonable, and necessary under the circumstances. The CAO may make exceptions for unusual circumstances.

Expenses considered excessive won't be allowed.

(7) Claims of \$5 or more for travel expense reimbursement must be supported by the original paid receipt for lodging, vehicle rental, phone call, public carrier travel, conference fee, and other reimbursable costs.

(8) Any person attempting to defraud the town or misuse town travel funds is subject to legal action for recovery of fraudulent travel claims and/or advances.

(9) Mileage and motel expenses incurred within the town aren't ordinarily considered eligible expenses for reimbursement. (Ord. #7-93A, July 1993)

4-403. Travel reimbursement rate schedule. Authorized travelers shall be reimbursed according to the federal travel regulation rates. The town's travel reimbursement rates will automatically change when the federal rates are adjusted.

The municipality may pay directly to the provider for expenses such as meals, lodging, and registration fees for conferences, conventions, seminars, and other education programs. (Ord. #7-93A, July 1993)

4-404. Administrative procedures. The town adopts and incorporates by reference--as if fully set out herein--the administrative procedures submitted by MTAS to, and approved by letter by, the Comptroller of the Treasury, State of Tennessee, in June 1993. A copy of the administrative procedures is on file in the office of the town clerk/recorder.

This chapter shall take effect upon its final reading by the municipal governing body. It shall cover all travel and expenses occurring on or after July 1, 1993. (Ord. #7-93A, July 1993)

- 4-514. Records and reports.
- 4-515. Legal rights of victims of communicable diseases.
- 4-516. Amendments, supplements, or revisions.

4-501. Purpose. It is the responsibility of the Town of Oakland to provide employees a place of employment which is free from recognized hazards that may cause death or serious physical harm. In providing services to the citizens of the Town of Oakland, employees may come in contact with life-threatening infectious diseases which can be transmitted through job related activities. It is important that both citizens and employees are protected from the transmission of diseases just as it is equally important that neither is discriminated against because of basic misconceptions about various diseases and illnesses.

The purpose of this policy is to establish a comprehensive set of rules and regulations governing the prevention of discrimination and potential occupational exposure to Hepatitis B Virus (HBV), the Human Immunodeficiency Virus (HIV), and Tuberculosis (TB), and any other blood-borne infection. (as added by Ord. #13-18, Nov. 2013)

4-502. Coverage. Occupational exposure may occur in many ways, including needle sticks, cut injuries, or blood spills. Several classes of employees are assumed to be at high risk for blood borne infections due to their routinely increased exposure to bodily fluids from potentially infected individuals. Those high risk occupations include, but are not limited to the following personnel:

- (1) Paramedics and emergency medical technicians
- (2) Police officers

- (3) Firefighters
- (4) Solid waste
- (5) Any other employee deemed to be at high risk per this policy and an exposure determination. (as added by Ord. #13-18, Nov. 2013)

4-503. Administration. This infection control policy shall be administered by the mayor or his/her designated representative who shall have the following duties and responsibilities:

- (1) Exercise leadership in implementation and maintenance of an effective infection control policy subject to the provisions of this chapter, other ordinances, the town charter, and federal and state law relating to OSHA regulations;
- (2) Make an exposure determination for all employee positions to determine a possible exposure to blood or other potentially infectious materials;
- (3) Maintain records of all employees and incidents subject to the provisions of this chapter;
- (4) Conduct periodic inspections to determine compliance with the infection control policy by municipal employees;
- (5) Coordinate and document all relevant training activities in support of the infection control policy;
- (6) Prepare and recommend to the board of mayor and aldermen any amendments or changes to the infectious control policy;
- (7) Identify any and all housekeeping operations involving substantial risk of direct exposure to potentially infectious materials and shall address the proper precautions to be taken while cleaning rooms and blood spills; and
- (8) Perform such other duties and exercise such other authority as may be prescribed by the board of mayor and aldermen. (as added by Ord. #13-18, Nov. 2013)

4-504. Policy statement. All blood and other potentially infectious materials are infectious for several blood-borne pathogens. Some body fluids can also transmit infections. For this reason, the Centers for Disease Control developed this strategy that everyone should always take particular care when there is a potential exposure. These precautions have been termed "universal precautions."

Universal precautions stress that all persons should be assumed to be infectious for HIV and/or other blood-borne pathogens. Universal precautions apply to blood, tissues, and other potentially infectious materials. Universal precautions also apply to semen, vaginal secretions, and to cerebrospinal, synovial, pleural, peritoneal, pericardial and amniotic fluids. Universal precautions do not apply to feces, nasal secretions, human breast milk, sputum, saliva, sweat, tears, urine, and vomitus unless these substances contain visible blood. (as added by Ord. #13-18, Nov. 2013)

4-505. General guidelines. General guidelines which shall be used by everyone include:

(1) Think when responding to emergency calls and exercise common sense when there is potential exposure to blood or other potentially infectious materials which require universal precautions.

(2) Keep all open cuts and abrasions covered with adhesive bandages which repel liquids.

(3) Soap and water kill many bacteria and viruses on contact. If hands are contaminated with blood or other potentially infectious materials to which universal precautions apply, then wash immediately and thoroughly. Hands shall also be washed after gloves are removed even if the gloves appear to be intact. When soap and water or hand washing facilities are not available, then use a waterless antiseptic hand cleaner.

(4) All workers should take precautions to prevent injuries caused by needles, scalpel blades, and other sharp instruments. To prevent needle stick injuries, needles shall not be recapped, purposely bent or broken by hand, removed from disposable syringes, or otherwise manipulated by hand. After they are used, disposable syringes and needles, scalpel blades and other sharp items shall be placed in puncture resistant containers for disposal. The puncture resistant container shall be located as close as practical to the use area.

(5) The town will provide gloves of appropriate material, quality, and size for each affected employee. The gloves are to be worn when there is contact, or when there is potential contact, with blood or other potentially infectious materials to which universal precautions apply:

(a) While handling an individual where exposure is possible;

(b) While cleaning or handling contaminated items or equipment;

(c) While cleaning up an area that has been contaminated with one of the above.

Gloves shall not be used if they are peeling, cracked, or discolored, or if they have punctures, tears, or other evidence of deterioration. Employees shall not wash or disinfect surgical or examination gloves for reuse.

(6) Resuscitation equipment shall be used when necessary. Appropriate equipment will be made available to all personnel who potentially provide emergency treatment.

(7) Masks or protective eyewear or face shields shall be worn during procedures that are likely to generate droplets of blood or other potentially infectious materials to prevent exposure to mucous membranes of the mouth, nose, and eyes.

(8) Areas and equipment contaminated with blood shall be cleaned as soon as possible. A household (chlorine) bleach solution (one (1) part chlorine to ten (10) parts water) shall be applied to the contaminated surface as a disinfectant leaving it on for at least thirty (30) seconds. A solution must be changed and re-mixed every twenty-four (24) hours to be effective.

(9) Contaminated clothing or other articles shall be handled carefully and washed as soon as possible. Laundry and dishwashing cycles at one hundred twenty degrees (120°) are adequate for decontamination.

(10) Place all disposable equipment (gloves, masks, gowns, etc.) in a clearly marked plastic bag. Place the bag in a second clearly marked bag (double bag). Seal and dispose of by placing in a designated "hazardous" dumpster. NOTE: Sharp objects must be placed in an impervious container and shall be properly disposed of.

(11) Tags shall be used as a means of preventing accidental injury or illness to employees who are exposed to hazardous or potentially hazardous conditions, equipment or operations which are out of the ordinary, unexpected or not readily apparent. Tags shall be used until such time as the identified hazard is eliminated or the hazardous operation is complete. All required tags shall meet the following criteria:

(a) Tags shall contain a signal word and a major message. The signal word shall be "biohazard," or the biological hazard symbol. The major message shall indicate the specific hazardous condition or the instruction to be communicated to employees.

(b) The signal word shall be readable at a distance of five feet (5') or such greater distance as warranted by the hazard.

(c) All employees shall be informed of the meaning of various tags used throughout the workplace and what special precautions are necessary.

(12) Linen soiled with blood or other potentially infectious materials shall be handled as little as possible and with minimum agitation to prevent contamination of the person handling the linen. All soiled linen should be bagged at the location where it was used. It shall not be sorted or rinsed in the area. Soiled linen shall be placed and transported in bags that prevent leakage. The employee responsible for soiled linen should always wear protective gloves to prevent possible contamination. After removing the gloves, hands or other skin surfaces shall be washed thoroughly and immediately after contact with potentially infectious materials.

(13) Gowns, aprons, or lab coats shall be worn during procedures that are likely to generate splashes of blood or other potentially infectious materials.

(14) Whenever possible, disposable equipment shall be used to minimize and contain clean-up. (as added by Ord. #13-18, Nov. 2013)

4-506. Hepatitis B vaccinations. The Town of Oakland shall offer the appropriate Hepatitis B vaccinations to employees at risk of exposure free of charge and in amounts and times prescribed by standard medical practices. The vaccinations shall be voluntary and will be administered through the Fayette County Health Department. High risk employees who wish to take the HBV vaccination should notify their department head and they shall make the appropriate arrangements after following purchasing procedures. Those

employees determined high risk that decline to obtain the Hepatitis B vaccinations must sign a waiver. Verification of vaccinations and or waiver must be provided to town recorder for personnel files. (as added by Ord. #13-18, Nov. 2013)

4-507. Reporting potential exposure. Town employees shall observe the following procedures for reporting a job exposure incident that may put them at risk for HIV or HBV infections (i.e., needle sticks, blood contact on broken skin, body fluid contact with eyes or mouth, etc.):

(1) Notify department head of the contact incident and details thereof.
(2) Complete the appropriate accident reports and any other specific form required.

(3) Arrangements will be made for the person to be seen by a physician as with any job related injury.

Once an exposure has occurred, a blood sample should be drawn after consent is obtained from the individual from whom exposure occurred and tested for Hepatitis B surface antigen (HBsAg) and/or antibody to Human Immunodeficiency Virus (HIV antibody). Testing of the source individual should be done at a location where appropriate pretest counseling is available. Post-test counseling and referral for treatment should be provided. (as added by Ord. #13-18, Nov. 2013)

4-508. Hepatitis B virus post-exposure management. For an exposure to a source individual found to be positive for HBsAg, the worker who has not previously been given the Hepatitis B vaccine should receive the vaccine series. A single dose of Hepatitis B immune globulin (HBIG) is also recommended, if it can be given within seven (7) days of exposure.

For exposure from an HBsAg-positive source to workers who have previously received the vaccine, the exposed worker should be tested for antibodies to Hepatitis B surface antigen (anti-HBs), and given one (1) dose of vaccine and one (1) dose of HBIG if the antibody level in the worker's blood sample is inadequate (ie., 10 SRU by RIA, negative by EIA).

If the source individual is negative for HBsAg and the worker has not been vaccinated, this opportunity should be taken to provide the Hepatitis B vaccine series. HBIG administration should be considered on an individual basis when the source individual is known or suspected to be at high risk of HBV infection. Management and treatment, if any, of previously vaccinated workers who receive an exposure from a source who refuses testing or is not identifiable should be individualized. (as added by Ord. #13-18, Nov. 2013)

4-509. Human immunodeficiency virus post-exposure management. For any exposure to a source individual who has AIDS, who is found to be positive for HIV infection, or who refuses testing, the worker should be counseled regarding the risk of infection and evaluated clinically and

serologically for evidence of HIV infection as soon as possible after exposure. The worker should be advised to report and seek medical evaluation for any acute febrile illness that occurs within twelve (12) weeks after the exposure. Such an illness, particularly one characterized by fever, rash, or lymphadenopathy, may be indicative of recent HIV infection.

Following the initial test at the time of exposure, seronegative workers should be retested six (6) weeks, twelve (12) weeks, and six (6) months after exposure to determine whether transmission has occurred. During this follow-up period (especially the first six to twelve (6-12) weeks after exposure) exposed workers should follow the U.S. Public Health Service recommendation for preventing transmission of HIV. These include refraining from blood donations and using appropriate protection during sexual intercourse. During all phases of follow-up it is vital that worker confidentiality be protected.

If the source individual was tested and found to be seronegative, baseline testing of the exposed worker with follow-up testing twelve (12) weeks later may be performed if desired by the worker or recommended by the health care provider. If the source individual cannot be identified, decisions regarding appropriate follow-up should be individualized. Serologic testing should be made available by the town to all workers who may be concerned they have been infected with HIV through occupational exposure. (as added by Ord. #13-18, Nov. 2013)

4-510. Disability benefits. Entitlement to disability benefits and any other benefits available for employees who suffer from on-the-job injuries will be determined by the Tennessee Worker's Compensation Bureau in accordance with the provisions of Tennessee Code Annotated, § 50-6-303. (as added by Ord. #13-18, Nov. 2013)

4-511. Training regular employees. On an annual basis all employees shall receive training and education on precautionary measures, epidemiology, modes of transmission and prevention of HIV/HBV infection and procedures to be used if they are exposed to needle sticks or potentially infectious materials. They shall also be counseled regarding possible risks to the fetus from HIV-HBV and other associated infectious agents. (as added by Ord. #13-18, Nov. 2013)

4-512. Training high risk employees. In addition to the above, high risk employees shall also receive training regarding the location and proper use of personal protective equipment. They shall be trained concerning proper work practices and understand the concept of "universal precautions" as it applies to coding and other methods used to designate contaminated material. Where tags are used, training shall cover precautions to be used in handling contaminated material as per policy. (as added by Ord. #13-18, Nov. 2013)

4-513. Training new employees. During the new employee's orientation to his/her job, all new employees will be trained on the effects of infectious disease prior to putting them to work. (as added by Ord. #13-18, Nov. 2013)

4-514. Records and reports. (1) Reports. Occupational injury and illness records shall be maintained by the town recorder. Statistics shall be maintained on the OSHA-200 report. Only those work-related injuries that involve loss of consciousness, transfer to another job, restriction of work or motion, or medical treatment are required to be put on the OSHA-200.

(2) Needle sticks. Needle sticks, like any other puncture wound, are considered injuries for recordkeeping purposes due to the instantaneous nature of the event. Therefore, any needle stick requiring medical treatment (i.e. gamma globulin, Hepatitis B immune globulin, Hepatitis B vaccine, etc.) shall be recorded.

(3) Prescription medication. Likewise, the use of prescription medication (beyond a single dose for minor injury or discomfort) is considered medical treatment. Since these types of treatment are considered necessary, and must be administered by physician or licensed medical personnel, such injuries cannot be considered minor and must be reported.

(4) Employee interviews. Should the town be inspected by the U.S. Department of Labor Office of Health Compliance, the compliance safety and health officer may wish to interview employees. Employees are expected to cooperate fully with the compliance officers. (as added by Ord. #13-18, Nov. 2013)

4-515. Legal rights of victims of communicable diseases. Victims of communicable diseases have the legal right to expect, and municipal employees, including police and emergency service officers are duty bound to provide, the same level of service and enforcement as any other individual would receive.

This holds true with any potential risks of contacting a communicable disease as surely as it does with the risks of confronting an armed criminal.

(8) All circumstances not covered in this policy that may arise concerning the releasing of confidential information regarding a victim, or suspected victim, of a communicable disease shall be referred directly to the town attorney.

(9) Victims of a communicable disease and their families have a right to conduct their lives without fear of discrimination. An employee shall not make public, directly or indirectly, the identity of a victim or suspected victim of a communicable disease.

(10) Whenever an employee finds it necessary to notify another employee, police officer, firefighter, emergency service officer, or health care provider that a victim has or is suspected of having a communicable disease, that information shall be conveyed in a dignified, discrete, and confidential manner. All contracts, leases, and lease-purchase agreements extended beyond the end of any fiscal year must have prior approval of the board of mayor and alderman. The mayor may enter into binding contracts on behalf of the town, without specific board approval, only in routine matters and matters having insubstantial long-term consequences. "Routine matters and matters having insubstantial long-term consequences" mean any contract for which expenditures during the fiscal year will be less than ten thousand dollars (\$10,000.00). The mayor may allow the purchasing officer duties to be designated to a substitute on a temporary basis when warranted if designee is suitable to perform the duties. (Ord. #99-6-2, July 1999, as replaced by Ord. #13-17, Dec. 2013)

5-302. Purchase requisitions are required to request a purchase order. The department head of the using department shall deliver to the accounts payable clerk a written purchase request for the item(s) or service(s) to be purchased. 5-303. Purchase orders are required prior to any purchase. The department head of the using department shall deliver to the purchasing officer through the accounts payable municipal clerk a properly completed purchase requisition form for the item(s) to be purchased and provide ample time for processing. Purchases must be planned in order to eliminate avoidable emergencies, frequent requests, and unnecessary use of labor and fuel. Except as otherwise provided in this policy, all supplies, materials, equipment, and services of any nature shall be assigned a purchase order number and verified

to see that all requirements for purchase have been completed. Once such requirements have been verified, the purchase may be approved and completed. No purchase is authorized until the purchase order is approved and returned to the requesting department head. The only exception to requisition and purchase order requirements is purchases of five hundred dollars (\$500.00) or less. Detailed instructions for requisitions are in the procedures attached hereto.¹ (as added by Ord. #13-17, Dec. 2013, and amended by Ord. #14-15, Dec. 2014, and Ord. # 15-9, June 2015)

5-304. Certification of availability of funds to meet contract obligations. No contract, agreement, or other obligation involving the expenditure of funds shall be entered into, nor shall any ordinance, resolution, or order of the expenditure of funds be passed by the board of mayor and aldermen or be authorized by any officer of the town, unless the town recorder/chief financial officer shall first certify that the funds required for such contract, agreement, obligation, or expenditure, is in the treasury or safely assured to be forthcoming and available in time to comply with, or meet such contract, agreement, obligation, or expenditures, and no contract, agreement, or other obligation involving the expenditure of money payable from the proceeds of any bonds of the town shall be entered into until the issuance and sale of such bonds have been duly authorized by the board of mayor and aldermen. (as added by Ord. #13-17, Dec. 2013)

5-305. Purchases not exceeding \$10,000.00. The mayor or town recorder/chief financial officer are authorized to make purchases whose estimated costs do not exceed ten thousand dollars (\$10,000.00) without formal sealed bids and written specifications for commonly used items of material, supplies, equipment, and services used in the ordinary course of maintaining and repairing the town's real or personal property; building or maintaining stocks of city material, supplies, and equipment used in the ordinary course of town operations: and minor constructions, repair, or maintenance services. However, a record of all such purchases shall be maintained describing the material, supplies, equipment, or service purchased, the person or business from whom it was purchased, the date it was purchased, the purchase cost, and any other information from which the general public can easily determine the full details of the purchase. Each purchase shall be supported by invoices and/or receipts and all other required documentation. Additional requirements for purchases not exceeding ten thousand dollars (\$10,000.00):

(1) **Purchases less than two thousand five-hundred dollars (\$2,500.00).** Purchases, leases, or lease-purchases of two thousand five hundred dollars

¹Purchasing procedures (and amendments thereto) are available in the office of the recorder.

(\$2,500.00) or less in any fiscal year shall not require any public advertisement or competitive bidding. The department head is expected to obtain the best prices and services available for purchases regardless of bidding requirements.

(2) Purchases more than two thousand five-hundred dollars (\$2,500.00) but less than ten thousand dollars (\$10,000.00). Purchases, leases, and lease purchases of more than two thousand five hundred dollars (\$2,500.00) and less than ten thousand dollars (\$10,000.00) singly, or in the aggregate, during any fiscal year and, except as otherwise provided herein, shall require three (3) proposals or quotations in writing prior to each purchase. Awards shall be made to the lowest and most responsible proposal or quote. A written record shall be required and available for public inspection showing that competitive quotes were obtained. (as added by Ord. #13-17, Dec. 2013)

5-306. Purchases more than \$10,000.00. A description of all projects or purchases, except as herein provided, which require the expenditure of town funds of ten thousand dollars (\$10,000.00) or more shall be prepared by the department head and provided to the town recorder/chief financial officer for submission to the board of mayor and aldermen by resolution for authorization to call for bids or proposals. After the determination that adequate funds are budgeted and available for a purchase, the board of mayor and aldermen may authorize the town recorder/chief financial officer to advertise for bids or proposals and to accept only sealed bids that shall be opened by the purchasing officer or the board of mayor and aldermen. The award of purchases, leases, or lease-purchases of ten thousand dollars (\$10,000.00) or more shall be made by the board of mayor and aldermen to the lowest and best responsible bidder. The transaction shall be evidenced by written contract. (as added by Ord. #13-17, Dec. 2013)

5-307. Purchases amounting to \$10,000.00 or more, which do not require public advertising and sealed bids or proposals. May be allowed only under the following circumstances and, except as otherwise provided herein, when such purchases are approved by the board of mayor and aldermen:

(1) Sole source of supply or proprietary products as determined after complete search by the department head and/or purchasing officer; sole source providers must be approved by the board of mayor and aldermen prior to purchase.

(2) Emergency expenditures with subsequent approval of the board of aldermen.

(3) Purchases from instrumentalities created by two (2) or more cooperating governments.

(4) Purchases from non-profit corporations whose purpose or one of whose purposes is to provide goods or services specifically to municipalities.

(5) Purchases, leases, or lease-purchases of real property.

(6) Purchases, leases, or lease-purchases, from any federal, state, or local governmental unit or agency, of second-hand articles or equipment or other materials, supplies, commodities, and equipment.

(7) Purchases through other units of governments as authorized by Tennessee Code Annotated, § 6-56-301 et seq.

(9) Purchases directed through or in conjunction with the state department of general services.

(10) Purchases from Tennessee state industries.

(11) Professional service contracts as provided in Tennessee Code Annotated, §§ 29-20-407 and 12-4-106. Professional service contracts shall never be awarded on the basis of competitive bidding; rather awards shall be made on the basis of recognized competence and integrity.

(12) Tort liability insurance as provided in Tennessee Code Annotated, §§ 12-4-407 and 29-20-407.

(13) Purchases of perishable commodities.

(14) Natural gas for resale. (as added by Ord. #13-17, Dec. 2013)

5-308. Noncompetitive contracts. The board of mayor and aldermen, upon written recommendation of the mayor, and by unanimous resolution of those present at the meeting, may authorize noncompetitive contracts where it is clearly to the advantage of the municipality not to contract with competitive bidding. (as added by Ord. #13-17, Dec. 2013)

5-309. Acceptance of bids. The town reserves the right to reject any or all bids, to waive any irregularities in a bid, to make awards to more than one (1) bidder, to accept any part or all of a bid, or to accept that bid (or bids) which in the judgment of the board of mayor and aldermen is in the best interest of the city. The board of mayor and aldermen may also reject all bids and assign public improvements or any other municipal work to a municipal department. (as added by Ord. #13-17, Dec. 2013)

5-310. Sealed bids or proposals. Sealed bids are required on all purchases of ten thousand dollars (\$10,000.00.00) or more. Bids must be advertised in a local newspaper of general circulation not less than five (5) days before bid opening date. The decision to use sealed proposals instead of sealed bids must be made by the board of mayor and aldermen by ordinance adopting a procurement code in compliance with Tennessee Code Annotated, § 12-3-1011. When the purchasing officer sends duplicate copies of bid request forms to each bidder, thereby enabling the bidder to return one (1) and maintain a file copy, bids will not be accepted on any vendor letterhead, vendor bid form or other substitutions unless special permission is given by the purchasing officer. (as added by Ord. #13-17, Dec. 2013)

5-311. Record of bids. A summary of bids form should be used to record all bids. The form should be included in the information presented to the board of mayor and aldermen for consideration of award of the bid. All bids should be opened in public at an advertised specified time. Late bids should not be accepted or opened. The purchasing officer shall keep a record of all open market orders and bids submitted in competition thereon, including a list of the bidders, the amount bid by each, and the method of solicitation and bidding, and such records shall be open to public inspection and maintained by the recorder/chief financial officer. At a minimum, the bid file shall contain the following information:

- (1) Request to start bid procedures.
- (2) A copy of the bid specifications.
- (3) A copy of the resolution approved by the board authorizing process.
- (4) A copy of the purchase order.
- (5) A copy of the bid advertisement.
- (6) A list of bidders and their responses.
- (7) A copy of the invoice and all supporting documentation. (as added by Ord. #13-17, Dec. 2013)

5-312. Contracts, applications for title, tax exemption certificates, agreements, and contracts for utilities. Shall not be signed by a town employee other than the designated purchasing officers herein unless authorized in writing by the action of the board of mayor and aldermen. (as added by Ord. #13-17, Dec. 2013)

5-313. Electronic bidding and invitations to bid.¹ Notwithstanding any provision of law, rule, or regulation to the contrary, local governments may satisfy any requirement for mailing by distributing invitations to bid electronically. In addition, local governments may receive bids electronically. The invitation to bid may be distributed electronically and bids shall be considered when they are received in hand at the designated office if by the time and date set for receipt of bids. Such electronic bids or proposals shall contain specific reference to the invitation for bids; the items, quantities, and prices for which the bid is submitted; the time and place of delivery; and a statement that the bidder agrees to all the terms, conditions, and provisions of the invitation for bids. (as added by Ord. #13-17, Dec. 2013)

¹State law reference

Tennessee Code Annotated, § 12-3-704.

5-314. Legal recognition of electronic records, electronic signatures, and electronic contracts.¹ A record or signature may not be denied legal effect or enforceability solely because it is in electronic form. A contract may not be denied legal effect or enforceability solely because an electronic record was used in its formation. If a law requires a record to be in writing, an electronic record satisfies the law. If a law requires a signature, an electronic signature satisfies the law. (as added by Ord. #13-17, Dec. 2013)

5-315. Bid opening. Bids will be opened at the time and date specified on the bid request. All bids are opened publicly and read aloud, with a tabulation provided to all vendors participating. Proposals for extensive systems, complicated equipment, or construction projects, may be evaluated privately with a public recommendation to the board of mayor and aldermen after evaluation and study. The purchasing officer is responsible for setting bid opening dates and times. Failure of a vendor representative to sign a bid removes that bid from consideration. A typed official's name will not be acceptable without that person's written signature. (as added by Ord. #13-17, Dec. 2013)

5-316. Late bids. No bids received after closing time will be accepted. All late bids will be returned unopened to the vendor. Bids postmarked on the bid opening date but received after the specified time will be considered late and will be returned unopened. It is important that the integrity or the bidding process be maintained. (as added by Ord. #13-17, Dec. 2013)

5-317. Telephone bids. The purchasing officer will not accept any bid by telephone. He may accept telephone quotes for purchases less than two thousand five-hundred dollars (\$2,500.00). (as added by Ord. #13-17, Dec. 2013)

5-318. Shipping charges. Bids are to include all shipping charges to the point of delivery. Bids will only be considered on the basis of delivered price, except as otherwise authorized by the board of mayor and aldermen. In many instances, the amount of shipping charges will be the deciding factor in making a purchase. (as added by Ord. #13-17, Dec. 2013)

5-319. Sample product policy. The purchasing officer may request a sample product as part of a bid. If this is stated on the bid proposal form, the vendor is required to comply with this request or have the bid removed from consideration. (as added by Ord. #13-17, Dec. 2013)

¹State law reference

Tennessee Code Annotated, § 47-10-107.

5-320. Approved equal statement. Specifications in the request for bids are intended to establish a desired quality or performance level or other minimum requirements which will provide the town with the best product available at the lowest possible price. When a brand name and/or model are designated, it signifies the minimum quality acceptable. If an alternate is offered, the bidder must include the brand name or model to be furnished, along with complete specifications and descriptive literature and, if requested, a sample for testing. Brands and/or models other than those designated as "equal to" products shall receive equal consideration. (as added by Ord. #13-17, Dec. 2013)

5-321. Alternate bids. Should it be found, after bids have been opened, that a product has been offered with an alternative specification and that this product would be better for the town to use, all bids for that item may be rejected and specifications redrawn to allow all bidders an equal opportunity to submit bids on the alternate item. (as added by Ord. #13-17, Dec. 2013)

5-322. Vendor identification. Potential suppliers are selected from existing vendor files using department's suggestions and any and all sources available to locate vendors related to a specific product or service. New suppliers are added to the bid list as they are found. (as added by Ord. #13-17, Dec. 2013)

5-323. Cancellation of invitation for bid. An invitation to bid, a request for proposal, or other solicitations may be canceled, or any or all bids or proposals may be rejected in part as may be specified in the solicitation when it is in the best interest of the town. The reasons shall be made a part of the bid or proposal file. (as added by Ord. #13-17, Dec. 2013)

5-324. Public advertisement. In addition to publication in a newspaper of general circulation as required by law, the purchasing officer may make any other efforts to let all prospective bidders know about the invitation to bid. This may be accomplished by delivery, verbally, mail, or by posting the invitation to bid in a public place. It is not required that specifications be included in the invitation to bid. However, the notice should state clearly the purchase to be made. (as added by Ord. #13-17, Dec. 2013)

5-325. Mistakes in bids. Mistakes in bids detected prior to bid opening may be corrected by the bidder withdrawing the original bid and submitting a revised bid prior to the bid opening date and time. Bidder mistakes detected by the bidder after the bids have been opened based on miscalculation may be withdrawn only with the approval of the purchasing officer. The purchasing officer shall determine if all or a portion of any bid bond shall be surrendered to the town as liquidated damages for any costs associated with the bid withdrawal. (as added by Ord. #13-17, Dec. 2013)

5-326. Performance, bid bonds, and deposits. Performance, bid bonds, and deposits must be determined by the board of mayor and aldermen. The board of mayor and aldermen may require a performance bond before entering into a contract, in such amount as they find reasonably necessary to protect the best interests of the town and furnishers of labor and materials in the penalty of not less than the amount provided by Tennessee Code Annotated. When deemed necessary, the board of mayor and aldermen may require that bidders submit a bid bond or other acceptable guarantee equal to five percent (5%) of the bid to ensure that the lowest responsible bidder selected by the board enters into a contract with the town. All or a portion of the bid bond shall be surrendered to the town as liquidated damages should the successful bidder fail to enter into a contract awarded by the board within ten (10) days after the award, and unsuccessful bidders shall be entitled to a return of such deposits within ten (10) calendar days of the bid award. The board of mayor and aldermen may require and then include in the bid documents a requirement for the successful bidder to post a performance bond or other guarantee satisfactory to the city attorney that insures the faithful performance of all of the terms and conditions of any purchase contract. (as added by Ord. #13-17, Dec. 2013)

5-327. Professional service contracts.¹ Only contracts for services performed within the professional's field of expertise are to be considered professional service contracts. A contract is required to be awarded on the basis of recognized competence and integrity, rather than competitive bids. A written contract specifying the service, cost, and expenses covered under the contract is required. Professional services include legal services, fiscal agent, financial advisor or advisory services, consultants, and other similar services by professionals with "high ethical standards." Only contracts for services performed within the professional's field of expertise are to be considered professional service contracts. Contracts for professional services will be awarded on the basis of recognized competence and integrity rather than on competitive bids. This does not prevent the town from requesting proposals from eligible service providers, then deciding the capabilities of each. (as added by Ord. #13-17, Dec. 2013)

¹State law reference

Tennessee Code Annotated, §§ 12-4-106 and 62-2-107.

Architect or Engineer: Plans, specifications, and estimates for any public works project exceeding twenty-five thousand dollars (\$25,000.00) must be prepared by a registered architect or engineer as required by Tennessee Code Annotated, § 62-2-107.

5-328. Emergency purchases. Emergency purchases are to be made only when normal functions and operations of the town would be severely hampered by purchasing in the regular manner, or where property, equipment, or life are endangered through unexpected circumstances; and materials, services, etc., are needed immediately. Failure to plan does not equivocate to the necessity or approval as an emergency purchase. All emergency purchases must be documented and submitted to the board of aldermen for subsequent review. (as added by Ord. #13-17, Dec. 2013)

5-329. Procedures upon taking delivery of purchased items. Before accepting delivery of purchased equipment, supplies, materials and other tangible goods, the department head of the using department shall:

- (1) Inspect the goods to verify that they are in acceptable condition.
- (2) Verify that all operating manuals and warranty cards are included in the delivery of the goods, if applicable.
- (3) Verify that the number of items purchased has been delivered; making special note when part of all of a particular purchase has been back ordered.
- (4) Record serial numbers on appropriate forms for all capital and mobile items and provide to town recorder/chief financial officer.
- (5) Provide to the purchasing agent all packing slips, signed tickets, etc. reflecting acceptable receipt of goods.
- (6) All warranty information must be provided to the town recorder/chief financial officer. (as added by Ord. #13-17, Dec. 2013)

5-330. Considerations in determining bid awards and rejection of bids. The board of mayor and aldermen shall have the authority to reject any and all bids, parts of all bids, or all bids for any one or more supplies or contractual services included in the proposed contract, when the public interest will be served thereby. The board of mayor and aldermen shall not accept the bid of a vendor or contractor who is in default on the payment of any taxes, licenses, fees, or other monies of whatever nature that may be due the town by said vendor or contractor. When the award for a purchase or contract is not given to the lowest bidder, a full and complete statement of the reasons shall be prepared and filed as part of the bid record and shall be recorded in the minutes of the meeting. The following criteria shall be considered in determining bid awards:

- (1) The ability of the bidder to perform the contract or provide the material or service required.
- (2) Whether the bidder can perform the contract or provide the service promptly, or within the time specified, without delay or interference.
- (3) The character, integrity, reputation, judgment, experience, and efficiency of the bidder.

(4) The previous and existing compliance by the bidder with laws and ordinances relating to the contract or service.

(5) The quality of performance of previous contracts or services, including the quality of such contracts or services in other municipalities, or performed for private sector contractors.

oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually oriented entertainment to their intended market. Neither is it the intent nor effect of this ordinance to condone or legitimize the distribution of obscene materials.

(2) Findings. Based on evidence concerning the adverse secondary effects of adult uses on the community presented in hearings and in reports made available to the board of mayor and aldermen, and on findings incorporated in the cases of *Town of Renton v. Playtime Theatres, Inc.*, 475 U.S. 41 (1986); *Young v. American Mini Theatres*, 426 U.S. 50 (1976); and *Barnes v. Glen Theatre, Inc.*, 501 U.S. 560 (1991); *Arcara v. Cloud Books, Inc.*, 478 U.S. 697, (1986); *California v. LaRue*, 409 U.S. 109 (1972); *Iacobucci v. Town of Newport, Ky*, 479 U.S. 92 (1986); *United Sates v. O'Brien*, 391 U.S. 367 (1968); *DLS, Inc. v. Town of Chattanooga*, 107 F.3d 403 (6th Cir. 1997); *Kev, Inc. v. Kitsap County*, 793 F.2d 1053 (9th Cir. 1986); *Hang On, Inc. v. Town of Arlington*, 65 F.3d 1248 (5th Cir.1995); and *South Florida Free Beaches, Inc. v. Town of Miami*, 734 F.2d 608 (11th Cir.1984), as well as studies conducted in other cities including, but not limited to, Phoenix, Arizona; Minneapolis, Minnesota; Houston, Texas; Indianapolis, Indiana; Amarillo, Texas; Garden Grove, California; Los Angeles, California; Whittier, California; Austin, Texas; Seattle, Washington; Oklahoma Town, Oklahoma; Cleveland, Ohio; and Beaumont, Texas; and findings reported in the Final Report of the Attorney General's Board on Pornography (1986), the Report of the Attorney General's Working Group On the Regulation Of Sexually Oriented Businesses (June 6, 1989, State of Minnesota), and statistics obtained from the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention, the board of mayor and aldermen finds that:

(a) Sexually oriented businesses lend themselves to ancillary unlawful and unhealthy activities that are presently uncontrolled by the operators of the establishments. Further, there is presently no mechanism to make owners of these establishments responsible for the activities that occur on their premises.

(b) Crime statistics show that all types of crimes, especially sex-related crimes, occur with more frequency in neighborhoods where sexually oriented businesses are located. See, e.g., *Studies of the cities of Phoenix, Arizona; Indianapolis, Indiana; and Austin, Texas.*

(c) Sexual acts, including masturbation, and oral and anal sex, occur at sexually oriented businesses, especially those which provide private or semi-private booths or cubicles for viewing films, videos, or live sex shows. See, e.g., *California v. LaRue*, 409 U.S. 109, 111 (1972); See also Final Report of the Attorney General's Board on Pornography (1986) at 377.

(d) Offering and providing such booths and/or cubicles encourages such activities, which creates unhealthy conditions. See, eg.,

Final Report of the Attorney General's Board on Pornography (1986) at 376-77.

(e) Persons frequent certain adult theaters, adult arcades, and other sexually oriented businesses, for the purpose of engaging in sex within the premises of such sexually oriented businesses. See, e.g., *Arcara v. Cloud Books, Inc.*, 478 U.S. 697, 698 (1986); see also Final Report of the Attorney General's Board on Pornography (1986) at 376-77.

(f) At least 50 communicable diseases may be spread by activities occurring in sexually oriented businesses including, but not limited to, syphilis, gonorrhea, human immunodeficiency virus infection (HIV- AIDS), genital herpes, hepatitis B, Non A, Non B amebiasis, salmonella infections, and shigella infections. See, e.g., Study of Fort Meyers, Florida.

(g) For the period 1985 through 1995, the total number of reported cases of AIDS in the United States caused by the immunodeficiency virus (HIV) was 523,056. See e.g., Statistics of the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention.

(h) As of February, 1999, there have been 8203 reported cases of AIDS in the State of Tennessee.

(i) Since 1981 and to the present, there has been an increasing cumulative number of persons testing positive for HIV antibody test in [state of] Tennessee.

(j) The total number of cases of early (less than one year) syphilis in the United States reported during the ten year period 1985-1995 was 367,796. See, e.g., Statistics of the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention.

(k) The number of cases of gonorrhea in the United States reported annually remains at high level, with a total of 1,250,581 cases reported during the period 1993-1995. See, e.g. Statistics of the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention.

(l) The surgeon general of the United States in his report of October 22, 1986, advised the American public that AIDS and HIV infection may be transmitted through sexual contact, intravenous drug use, exposure to infected blood and blood components, and from an infected mother to her newborn.

(m) According to the best scientific evidence available, AIDS and HIV infection, as well as syphilis and gonorrhea, are principally transmitted by sexual acts. See, e.g. Findings of the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention.

(n) Sanitary conditions in some sexually oriented businesses are unhealthy, in part, because the activities conducted there are unhealthy, and, in part, because of the unregulated nature of the activities and the

failure of the owners and the operators of the facilities to self-regulate those activities and maintain those facilities. See, e.g., Final Report of the Attorney General's Board on Pornography (1986) at 377.

(o) Numerous studies and reports have determined that bodily fluids, including semen and urine, are found in the areas of sexually oriented businesses where persons view "adult" oriented films. See, e.g., Final Report of the Attorney General's Board on Pornography (1986) at 377.

(p) Nude dancing in adult establishments encourages prostitution, increases sexual assaults, and attracts other criminal activity. See, e.g., *Barnes v. Glen Theatre*, 501 U.S. 560, 583 (1991).

(q) Nude dancing in adult establishments increases the likelihood of drug dealing and drug use. See, e.g., *Kev, Inc. v. Kitsap County*, 793 F.2d 1053, 1056 (9th Cir.1986).

(r) The findings noted in paragraphs numbered (a) through (q) raise substantial governmental concerns.

(s) Sexually oriented businesses have operational characteristics which should be reasonably regulated in order to protect those substantial governmental concerns.

(t) A reasonable licensing procedure is an appropriate mechanism to place the burden of that reasonable regulation on the owners and operators of the sexually oriented businesses. Further, such licensing procedure will place a heretofore non-existent incentive on operators to see that the sexually oriented business is run in a manner consistent with the health, safety, and welfare of its patrons and employees, as well as the citizens of the town. It is appropriate to require reasonable assurances that the licensee is the actual operator of the sexually oriented business, fully in possession and control of the premises and activities occurring therein.

(u) Removal of doors on adult booths and requiring sufficient lighting on the premises with adult booths advances a substantial governmental interest in curbing the illegal and unsanitary sexual activity occurring in adult establishments.

(v) The disclosure of certain information by those persons ultimately responsible for the day-to-day operation and maintenance of the sexually oriented business, where such information is substantially related to the significant governmental interest in the operation of such uses, will aid in preventing the spread of sexually transmitted diseases and criminal activity.

(w) It is desirable, in the prevention of the spread of communicable diseases, to obtain a limited amount of information regarding certain employees who may engage in the conduct this ordinance is designed to prevent, or who are likely to be witnesses to such activity.

(x) The fact that an applicant for a sexually oriented business license has been convicted of a sex-related crime leads to the rational assumption that the applicant may engage in that conduct in contravention to this ordinance.

(y) The barring of such individuals from operation or employment in sexually oriented businesses for a period of five (5) years for a previous felony conviction serves as a deterrent to and prevents conduct which leads to the transmission of sexually transmitted diseases.

(z) The general welfare, health, morals, and safety of the citizens of this town will be promoted by the enactment of this ordinance. (as added by Ord. #01-02-01, March 2001)

It shall be unlawful for any person to operate or ride on any vehicle in violation of this section, and it shall also be unlawful for any parent or guardian knowingly to permit any minor to operate a motorcycle or motor driven cycle in violation of this section.

(4) Civil offense. It is a civil offense to fail to provide evidence of financial responsibility pursuant to this section. Any violation of this section is punishable by a civil penalty of up to fifty dollars (\$50). The civil penalty prescribed by this section shall be in addition to any other penalty prescribed by the laws of this state or by the city's municipal code of ordinances.

(5) Evidence of compliance after violation. On or before the court date, the person charged with a violation of this section may submit evidence of compliance with this section in effect at the time of the violation. 15-301. In general. It shall be unlawful for any person to operate or drive a motor vehicle upon any highway or street at a rate of speed in excess of thirty (30) miles per hour except where official signs have been posted indicating other speed limits, in which cases the posted speed limit shall apply. The speed limit on Highway 64 within the corporate boundaries of the Town of Oakland, Tennessee shall be forty-five (45) miles per hour. (as amended by Ord. #02.01.02, Feb. 2002)

15-302. At intersections. Generally, pursuant to Tennessee Code Annotated, § 55-8-152, special speed limits in school zones shall be enacted based on an engineering investigation; shall not be less than fifteen (15) miles per hour; and shall be in effect only when proper signs are posted with a warning flasher or flashers in operation. CHAPTER 5

STOPPING AND YIELDING

SECTION

15-501. Deleted.

15-502. When emerging from alleys, etc.

15-503. To prevent obstructing an intersection.

15-504. At "stop" signs.

15-505. At "yield" signs.

15-506. At traffic-control signals generally.

15-507. At flashing traffic-control signals.

15-508. At pedestrian control signals.

15-509. Stops to be signaled.

15-501. Deleted. (as replaced by Ord. #09.07.04, Aug. 2009, and deleted by Ord. #09.10.04, Nov. 2009)

15-502. When emerging from alleys, etc. The drivers of all vehicles emerging from alleys, parking lots, driveways, or buildings shall stop such vehicles immediately prior to driving onto any sidewalk or street. They shall not proceed to drive onto the sidewalk or street until they can safely do so without colliding or interfering with approaching pedestrians or vehicles.

15-503. To prevent obstructing an intersection. No driver shall enter any intersection or marked crosswalk unless there is sufficient space on the other side of such intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of traffic in or on the intersecting street or crosswalk. This provision shall be effective notwithstanding any traffic-control signal indication to proceed.

15-504. At "stop" signs. The driver of a vehicle facing a "stop" sign shall bring his vehicle to a complete stop immediately before entering the crosswalk on the near side of the intersection or, if there is no crosswalk, then immediately before entering the intersection, and shall remain standing until he can proceed through the intersection in safety.

15-505. At "yield" signs. The drivers of all vehicles shall yield the right of way to approaching vehicles before proceeding at all places where "yield" signs have been posted.

15-506. At traffic-control signals generally. Traffic-control signals exhibiting the words "Go," "Caution," or "Stop," or exhibiting different colored lights successively one at a time, or with arrows, shall show the following colors only and shall apply to drivers of vehicles and pedestrians as follows:

(1) Green alone, or "Go":

(a) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.

(2) Steady yellow alone, or "Caution":

(a) Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited.

(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(3) Steady red alone, or "Stop":

(a) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "Go" is shown alone. Provided, however, that a right turn on a red signal shall be permitted at all intersections within the town, provided that the prospective turning car comes to a full and complete stop before turning and that the turning car yields the right of way to pedestrians and cross traffic traveling in accordance with their traffic signal. However, said turn will not endanger other traffic lawfully using said intersection. A right turn on red shall be permitted at all intersections except those clearly marked by a "No Turns On Red" sign, which may be erected by the town at intersections which the town decides require no right turns on red in the interest of traffic safety.

(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(4) Steady red with green arrow:

(a) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(5) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made a vehicle length short of the signal.

15-507. At flashing traffic-control signals. (1) Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal placed or erected in the town it shall require obedience by vehicular traffic as follows:

(a) Flashing red (stop signal). When a red lens is illuminated with intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) Flashing yellow (caution signal). When a yellow lens is illuminated with intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules set forth in § 15-504 of this code.

15-508. At pedestrian control signals. Wherever special pedestrian control signals exhibiting the words "Walk" or "Wait" or "Don't Walk" have been placed or erected by the town, such signals shall apply as follows:

(1) "Walk." Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.

(2) "Wait or Don't Walk." No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the walk signal shall proceed to the nearest sidewalk or safety zone while the wait signal is showing.

15-509. Stops to be signaled. No person operating a motor vehicle shall stop such vehicle, whether in obedience to a traffic sign or signal or otherwise, without first signaling his intention in accordance with the requirements of the state law,¹ except in an emergency.

- (7) Alongside or opposite any street excavation or obstruction when other traffic would be obstructed.
- (8) On the roadway side of any vehicle stopped or parked at the edge or curb of a street.
- (9) Upon any bridge.
- (10) Alongside any curb painted yellow or red by the town.

15-605. Loading and unloading zones. No person shall park a vehicle for any purpose or period of time other than for the expeditious loading or unloading of passengers or merchandise in any place marked by the town as a loading and unloading zone.

15-606. Presumption with respect to illegal parking. When any unoccupied vehicle is found parked in violation of any provision of this chapter, there shall be a prima facie presumption that the registered owner of the vehicle is responsible for such illegal parking.

- 16-204. Deposit or bond.
- 16-205. Safety restrictions on excavations.

16-201. Permit required. It shall be unlawful for any person, firm, corporation, association, or others, including utility districts to make any excavation in any street, alley, or public place, or to tunnel under any street, alley, or public place without having first obtained a permit as herein required, and without complying with the provisions of this chapter; and it shall also be unlawful to violate, or vary from, the terms of any such permit; provided, however, any person maintaining pipes, lines, or other underground facilities in or under the surface of any street may proceed with an opening without a permit when emergency circumstances demand the work to be done immediately and a permit cannot reasonably and practicably be obtained beforehand. The person shall thereafter apply for a permit on the first regular business day on which the office of the city recorder is open for business, and the permit shall be retroactive to the date when the work was begun. (as replaced by Ord. #07.04.03, May 2007)

16-202. Applications. Applications for such permits shall be made to the city recorder, or such person as he may designate to receive such applications, and shall state thereon the location of the intended excavation or tunnel, the size thereof, the purpose thereof, the person, firm, corporation, association, or others doing the actual excavating, the name of the person, firm, corporation, association, or others for whom the work is being done, and shall

¹State law reference

This chapter was patterned substantially after the ordinance upheld by the Tennessee Supreme Court in the case of City of Paris, Tennessee v. Paris-Henry County Public Utility District, 207 Tenn. 388, 340 S.W.2d 885 (1960).

contain an agreement that the applicant will comply with all ordinances and laws relating to the work to be done. Such application shall be rejected or approved by the city recorder within twenty-four (24) hours of its filing. (as replaced by Ord. #07.04.03, May 2007)

16-203. Fee. The fee for such permits shall be twenty dollars (\$20.00). (as replaced by Ord. #07.04.03, May 2007)

16-204. Deposit or bond. No such permit shall be issued unless and until the applicant therefor has deposited with the city recorder a cash deposit. The deposit shall be in the sum of five hundred dollars (\$500.00) if no pavement is involved or one thousand dollars (\$1,000.00) if the excavation is in a paved area and shall insure the proper restoration of the ground and, laying of the pavement, if any. Where the amount of the deposit is clearly inadequate to cover the cost of restoration, the city recorder may increase the amount of the deposit to an amount considered by him to be adequate to cover the cost. From this deposit shall be deducted the expense to the city of relaying the surface of the ground or pavement, and of making the refill if this is done by the city or at its expense. The balance shall be returned to the applicant without interest after the tunnel or excavation is completely refilled and the surface or pavement is restored.

In lieu of a deposit the applicant may deposit with the city recorder a surety bond in such form and amount as the city recorder shall deem adequate to cover the costs to the city if the applicant fails to make proper restoration. (as replaced by Ord. #07.04.03, May 2007)

16-206. Restoration of streets, etc. Any person, firm, corporation, association, or others making any excavation or tunnel in or under any street, alley, or public place in this city shall restore the street, alley, or public place to its original condition except for the surfacing, which shall be done by the city but shall be paid for promptly upon completion by such person, firm, corporation, association, or others for which the excavation or tunnel was made. In case of unreasonable delay in restoring the street, alley, or public place, the city recorder shall give notice to the person, firm, corporation, association, or others that unless the excavation or tunnel is refilled properly within a specified

reasonable period of time, the city will do the work and charge the expense of doing the same to such person, firm, corporation, association, or others. If within the specified time the conditions of the above notice have not been complied with, the work shall be done by the city, an accurate account of the expense involved shall be kept, and the total cost shall be charged to the person, firm, corporation, association, or others who made the excavation or tunnel. (as replaced by Ord. #07.04.03, May 2007)

16-207. Insurance. In addition to making the deposit or giving the bond hereinbefore required to insure that proper restoration is made, each person applying for an excavation permit shall file a certificate of insurance indicating that he is insured against claims for damages for personal injury as well as against claims for property damage which may arise from or out of the performance of the work, whether such performance be by himself, his subcontractor, or anyone directly or indirectly employed by him. Such insurance shall cover collapse, explosive hazards, and underground work by equipment on the street, and shall include protection against liability arising from completed operations. The amount of the insurance shall be prescribed by the city recorder in accordance with the nature of the risk involved; provided, however, that the liability insurance for bodily injury shall not be less than one hundred thirty thousand dollars (\$130,000.00) for each person and three hundred fifty thousand dollars (\$350,000.00) for each accident, and for property damages not less than fifty thousand dollars (\$50,000.00) for any one (1) accident, and a seventy five thousand dollars (\$75,000.00) aggregate. (as replaced by Ord. #07.04.03, May 2007)

16-208. Time limits. Each application for a permit shall state the length of time it is estimated will elapse from the commencement of the work until the restoration of the surface of the ground or pavement, or until the refill is made ready for the pavement to be put on by the city if the city restores such surface pavement. It shall be unlawful to fail to comply with this time limitation unless permission for an extension of time is granted by the city recorder. (as replaced by Ord. #07.04.03, May 2007)

16-209. Supervision. The person designated by the board of mayor and aldermen shall from time to time inspect all excavations and tunnels being made in or under any public street, alley, or other public place in the city and see to the enforcement of the provisions of this chapter. Notice shall be given to him at least ten (10) hours before the work of refilling any such excavation or tunnel commences. (as replaced by Ord. #07.04.03, May 2007)

16-210. Violation and penalty. Any violation of this chapter shall constitute a civil offense and shall be punishable by a civil penalty under the general penalty provision of the city's municipal code, by revocation of permit,

Collections shall be made regularly in accordance with an announced schedule. Collection fees are established by the board of mayor and aldermen by duly adopted ordinance and charged to all residential units. Collections fees for commercial units are also established, but commercial units may contract independently so long as all requirements of this chapter are met. Building materials or any refuse not meeting town's collector contract requirements are not services provided by the town. The town's contracted collector may provide private service pick-up for these items separately from the town's services and costs. Any additional billing for these services must be handled through the collector and the customer independently. (as replaced by Ord. #11.11.02, Dec. 2011, and Ord. #14-10, Sept. 2014)

17-109. Confiscation of unsatisfactory storage containers. The official refuse collecting department or subcontractor of the town is authorized to confiscate or to remove unsatisfactory storage containers from the premises of residences and establishments, public and private, when the enforcement officer or contracted collector, if applicable, determines that such containers are

not suitable for the healthful and sanitary storage of refuse substances. Such unsatisfactory containers shall be removed and disposed of at a place and in a manner designated by the official refuse collecting department or subcontractor. (as added by Ord. #09.02.03, March 2009, and replaced by Ord. #11.11.02, Dec. 2011, and Ord. #14-10, Sept. 2014)

17-110. Storage locations of containers or bins. (1) The receptacle can either be designed or hidden into the scheme of structure or of the building itself in the side or rear yard; inside a garage or carport; or in an enclosed and screened fenced area in the side or rear yard. No trash receptacle should be stored any further out than the structure it is servicing.

(2) (a) On all commercial building sites with enclosed area for trash receptacles, the dumpsters or other trash receptacles shall be located behind the building and hidden from street view when it is possible to do so unless there is a conflict with the authorized collector. On all commercial building sites with no enclosed area for trash receptacles, the dumpsters or other trash receptacles shall be located behind the building and hidden from street view when it is possible to do so. The location of dumpsters or other trash receptacles, either enclosed or not enclosed, must allow for a twenty foot (20') wide fire lane wherever possible. Possible alternatives may be considered during site plan review by the approving and reviewing authority.

(b) Exception. In order to prevent littering, trash receptacles, not to exceed thirty-five (35) gallons, are allowed on all commercial properties for customer convenience to dispose of trash. These receptacles are to be maintained at the sole expense of the business providing the receptacle.

(3) All temporary dumpsters located at building construction sites and all dumpsters placed for the purpose of collecting recyclable material are exempt from all provisions of this section. (as added Ord. #11.11.02, Dec. 2011, and replaced by Ord. #14-10, Sept. 2014)

17-111. Curbside garbage containers regulated. (1) The ninety-six (96) gallon wheeled containers or any other such authorized containers are to be placed at the curb by 6:00 A.M. on the homeowner's scheduled collection day. The container is not to be placed on the road in such manner to impede the flow of traffic or safety of the public in general. If there is no curb at the residence than the container is to be placed at the end of the driveway or along the roadside.

(2) The containers are to be returned to a location in accordance with this chapter by 7:00 A.M. of the morning following the actual day of pickup.

(3) Exception; assisted services. In the event that the contract with the trash collection firm allows additional services, public works may authorize the firm to provide individuals with special needs or disabilities to receive

service without placing their receptacles by the roadway in accordance with collector contract, if applicable. (as added by Ord. #11.11.02, Dec. 2011, and replaced by Ord. #14-10, Sept. 2014)

17-112. Notice to remove. Upon the failure of any owner of property within the town to remove rubbish or refuse from his property and dispose of it in accordance with the law, it shall be the duty of the enforcement officer to serve notice on the owner of such property to clean the property within five (5) days of the service of such notice. Such notice may be served personally on the owner of the property, may be mailed to the last known address of such owner by registered or certified mail, posted on the property on which such refuse exists, or published in local newspaper for two consecutive weeks. Service of notice by any of the above methods shall be due notice to such owner. (as added by Ord. #11.11.02, Dec. 2011, and replaced by Ord. #14-10, Sept. 2014)

17-113. No refuse to be collected unless properly stored. In no case will it be the responsibility of the town or contracted collector of the town to shovel or pick up from the ground any accumulation of refuse, including leaves, lawn clippings, brush, or packing material that do not meet the provisions of this chapter or town's collector contract, if applicable. (as added by #14-10, Sept. 2014)

17-114. Collection of garbage and refuse permits. No person, firm, or corporation other than the town or contracted collector shall engage in the business of collecting refuse or removing the contents of any refuse container, or any purpose whatsoever, who does not possess a permit to do so from the code enforcement department. Such permits may be issued only after the applicant's capability of complying with the requirements of this chapter has been fully determined. Such permits may be suspended or revoked upon the violation of any of the terms of this chapter. (as added by #14-10, Sept. 2014)

17-115. Collection vehicles. The collection of refuse shall be by means of vehicles as established in collector contract, if applicable. (as added by #14-10, Sept. 2014)

17-116. Disposal of refuse. The disposal of refuse in any quantity by any person in any place, public or private, other than as directed by the terms of this chapter, is expressly prohibited. Dumping in streams, sewers, drains, roadways, rights-of-way, etc. is strictly prohibited. (as added by #14-10, Sept. 2014)

17-117. Violations and penalty. Any person who shall violate any of the provisions of this chapter or who shall fail or refuse to obey any notice issued by an enforcement officer, with reference to the storage, accumulation, or

disposal of refuse, shall be guilty of a misdemeanor and shall be subject to a fine under the general penalty clause for this code. Failure to carry out the provisions of this chapter shall be considered a misdemeanor subject to a fine not less than five dollars (\$5.00) or more than fifty dollars (\$50.00) with each day being a separate offense unless otherwise specified. (as added by #14-10, Sept. 2014)

- 18-125. Liability for cutoff failures.
- 18-126. Restricted use of water.
- 18-127. Interruption of service.

18-101. Application and scope. The provisions of this chapter are a part of all contracts for receiving water and/or sewer service from the municipality and shall apply whether the service is based upon contract, agreement, signed application, or otherwise.

18-102. Definitions. (1) "Customer" means any person, firm, or corporation who receives water and/or sewer service from the municipality under either an express or implied contract.

(2) "Household" means any two (2) or more persons living together as a family group.

(3) "Service line" shall consist of the pipe line extending from any water or sewer main of the municipality to private property. Where a meter and meter box are located on private property, the service line shall be construed to include the pipe line extending from the municipality's water main to and including the meter and meter box.

(4) "Discount date" shall mean the date ten (10) days after the date of a bill, except when some other date is provided by contract. The discount date is the last date upon which water and/or sewer bills can be paid at net rates.

(5) "Dwelling" means any single structure, with auxiliary buildings, occupied by one or more persons or households for residential purposes.

(6) "Premise" means any structure or group of structures operated as a single business or enterprise, provided, however, the term "premise" shall not include more than one (1) dwelling.

18-103. Obtaining service. A formal application for either original or additional service must be made and be approved by the municipality before connection or meter installation orders will be issued and work performed.

18-104. Application and contract for service. Each prospective customer desiring water and/or sewer service will be required to sign a standard form of contract before service is supplied. If, for any reason, a customer, after signing a contract for service, does not take such service by reason of not occupying the premises or otherwise, he shall reimburse the municipality for the expense incurred by reason of its endeavor to furnish said service.

The receipt of a prospective customer's application for service, regardless of whether or not accompanied by a deposit, shall not obligate the municipality to render the service applied for. If the service applied for cannot be supplied in accordance with the provisions of this chapter and general practice, the liability of the municipality to the applicant shall be limited to the return of any deposit made by such applicant.

18-105. Service charges for temporary service. Customers requiring temporary service shall pay all costs for connection and disconnection incidental to the supplying and removing of service in addition to the regular charge for water and/or sewer service.

18-106. Connection charges. Service lines will be laid by the municipality from its mains to the property line at the expense of the applicant for service. The location of such lines will be determined by the municipality.

Before a new water or sewer service line will be laid by the municipality, the applicant shall make a deposit equal to the estimated cost of the installation.

This deposit shall be used to pay the cost of laying such new service line and appurtenant equipment. If such cost exceeds the amount of the deposit, the applicant shall pay to the municipality the amount of such excess cost when billed therefore. If such cost is less than the amount of the deposit, the amount by which the deposit exceeds such cost shall be refunded to the applicant.

When a service line is completed, the municipality shall be responsible for the maintenance and upkeep of such service line from the main to and including the meter and meter box, and such portion of the service line shall belong to the municipality. The remaining portion of the service line beyond the meter box (or property line, in the case of sewers) shall belong to and be the responsibility of the customer.

18-107. Water and sewer main extensions. Persons desiring water and/or sewer main extensions must pay all of the cost of making such extensions.

For water main extensions cement-lined cast iron pipe, class 150 American Water Works Association Standard (or other construction approved by the governing body), not less than six (6) inches in diameter shall be used to the dead end of any line and to form loops or continuous lines, so that fire hydrants may be placed on such lines at locations no farther than 1,000 feet from the most distant part of any dwelling structure and no farther than 600 feet from the most distant part of any commercial, industrial, or public building, such measurements to be based on road or street distances. Cement-lined cast iron pipe (or other construction approved by the governing body) two (2) inches in diameter, to supply dwellings only, may be used to supplement such lines. For sewer main extensions eight-inch pipe of vitrified clay or other construction approved by the governing body shall be used.

All such extensions shall be installed either by municipal forces or by other forces working directly under the supervision of the municipality in accordance with plans and specifications prepared by an engineer registered with the State of Tennessee.

Upon completion of such extensions and their approval by the municipality, such water and/or sewer mains shall become the property of the municipality. The persons paying the cost of constructing such mains shall

execute any written instruments requested by the municipality to provide evidence of the municipality's title to such mains. In consideration of such mains being transferred to it, the municipality shall incorporate said mains as an integral part of the municipal water and sewer systems and shall furnish water and sewer service therefrom in accordance with these rules and regulations, subject always to such limitations as may exist because of the size and elevation of said mains.

18-108. Variances from and effect of preceding section as to extensions. Whenever the governing body is of the opinion that it is to the best interest of the municipality and its inhabitants to construct a water and/or sewer main extension without requiring strict compliance with the preceding section, such extension may be constructed upon such terms and conditions as shall be approved by the governing body.

The authority to make water and/or sewer main extensions under the preceding section is permissive only and nothing contained therein shall be construed as requiring the municipality to make such extensions or to furnish service to any person or persons.

18-109. Meters. All meters shall be installed, tested, repaired, and removed only by the municipality.

No one shall do anything which will in any way interfere with or prevent the operation of a meter. No one shall tamper with or work on a water meter without the written permission of the municipality. No one shall install any pipe or other device which will cause water to pass through or around a meter without the passage of such water being registered fully by the meter.

18-110. Meter tests. The municipality will, at its own expense, make routine tests of meters when it considers such tests desirable.

In testing meters, the water passing through the meter will be weighed or measured at various rates of discharge and under varying pressures. To be considered accurate, the meter registration shall check with the weighed or measured amounts of water within the percentage shown in the following table:

<u>Meter Size</u>	<u>Percentage</u>
5/8", 3/4", 1", 2"	2%
3"	3%
4"	4%
6"	5%

The municipality will also make tests or inspections of its meters at the request of the customer. However, if a test requested by a customer shows a meter to be accurate within the limits stated above, the customer shall pay a meter testing charge in the amount stated in the following table:

<u>Meter Size</u>	<u>Test Charge</u>
5/8", 3/4", 1"	\$12.00
1-1/2", 2"	\$15.00
3"	\$18.00
4"	\$22.00
6" and over	\$30.00

If such test shows a meter not to be accurate within such limits, the cost of such meter test shall be borne by the municipality.

18-111. Billing procedures and rates. (1) That water, sewer, and solid waste bills be rendered monthly on or by the first (1st) of the month, and a standard net payment period for all customers is revised from the tenth (10th) day of the month to the fifteenth (15th) day of the month. The customer's bill must be paid by close of business on the fifteenth (15th) day of the month in order to receive the net price on the monthly bill. Payments received after close of business on the fifteenth (15th) of each month will incur a ten percent (10%) late penalty charge.

(2) Customers subject to the late penalty charge shall be issued a written final notice including the following information: Delinquent amount, including late payment penalty, right to a hearing, date services are subject to termination, and the amount of the automatic service fee that will accrue on unpaid accounts at close of business on the twenty-fifth of the month.

(3) If a customer fails to make payment by close of business on the twenty-fifth (25th) of the month, the termination of service process begins and an automatic service fee of thirty dollars (\$30.00) is incurred on all balances over ten dollars (\$10.00). This service fee includes processing of the termination of services; up to and including disconnection and reconnection of the services. Any balance at or under the established termination of service minimum will not incur the service fee, nor be subject to termination of services.

(4) Payments must actually be received at city hall by close of business on the established dates. Payments received after close of business on the fifteenth (15th) of the month will automatically accrue a ten percent (10%) penalty. Payments not received in full by close of business on the twenty-fifth (25th) of the month, including the ten percent (10%) late penalty, will automatically accrue the thirty dollar (\$30.00) service fee and services will be terminated immediately.

(5) Customers must allow forty-eight (48) hour processing of online payments for funds to be considered received by the town.

(6) Security box payments are removed and registered at the beginning and close of business each day.

(7) If the due date falls on a Saturday, Sunday, or a town holiday, net payment will be accepted in the security box as timely paid up to the beginning of the next business day. Payments placed in the security box after the

beginning of business the next business day will not be considered timely payments.

(8) The town recorder/chief financial officer may approve a three (3) month extension to pay monthly bills upon written request and attendance of the specified hearing prior to the twenty fifth (25th) of the month. To receive an extension, the customer must have justifiable cause and no prior service fees for nonpayment in the previous twelve (12) months. The customer must pay fifty percent (50%) of the current bill and the remaining fifty percent (50%) will be divided into two (2) installments over the course of the two (2) months immediately subsequent to the month for which the customer obtained an extension. During the extension period, all current billing must be paid in addition to the amounts approved in the extension agreement. Late penalties will accrue on all delinquent amounts, but the service fee will not apply if current billing and extension agreement are maintained. All extensions approved under this item must have subsequent approval of the mayor. Extension requests for four (4) months or longer must be approved by the board of mayor and aldermen.

(9) Service charge for temporary services. Customers requiring temporary services shall pay all costs for connection and disconnection incidental to the supplying and removing of service in addition to the regular charge for water and/or sewer service. The service charge for this temporary service is established at fifty dollars (\$50.00).

(10) Minimum irrigation meter billing is hereby established at ten dollars (\$10.00).

(11) Meter rereads at customer request will be at no charge if initial reading is found to be inaccurate, and the cost shall be borne by the municipality for the reread. If the initial reading is found to be accurate, then the customer shall pay a reread charge of fifteen dollars (\$15.00).

(12) Unpaid bill at prior address. Any customer's unpaid bill accrued at a prior address shall be added to the customer's bill for his current address.

(13) Termination of services will not be made on any preceding day when city hall or the water and sewer department is scheduled to be closed.

(14) Fee to restore service after business hours fifty dollars (\$50.00).

(15) Damaged or destroyed equipment fees. The following replacement fees shall be charged to customers who destroy, disable or otherwise damage town equipment. Water meter box lock ten dollars (\$10.00); concrete meter box lid twenty dollars (\$20.00). (as replaced by Ord. #15-1, Feb. 2015)

18-112. Multiple services through a single meter. No customer shall supply water or sewer service to more than one dwelling or premise from a single service line and meter without first obtaining the written permission of the municipality.

Where the municipality allows more than one dwelling or premise to be served through a single service line and meter, the amount of water used by all

the dwellings and premises served through a single service line and meter shall be allocated to each separate dwelling or premise served. The water and/or sewer charges for each such dwelling or premise thus served shall be computed just as if each such dwelling or premise had received through a separately metered service the amount of water so allocated to it, such computation to be made at the municipality's applicable water rates schedule, including the provisions as to minimum bills. The separate charges for each dwelling or premise served through a single service line and meter shall then be added together, and the sum thereof shall be billed to the customer in whose name the service is supplied.

18-113. Deleted. (as deleted by Ord. #15-1, Feb. 2015)

18-114. Discontinuance or refusal of service. The municipality shall have the right to discontinue water and/or sewer service or to refuse to connect service for a violation of, or a failure to comply with, any of the following:

- (1) These rules and regulations.
- (2) The customer's application for service.
- (3) The customer's contract for service.

Such right to discontinue service shall apply to all service received through a single connection or service, even though more than one (1) customer or tenant is furnished service therefrom, and even though the delinquency or violation is limited to only one such customer or tenant.

Discontinuance of service by the municipality for any cause stated in these rules and regulations shall not release the customer from liability for service already received or from liability for payments that thereafter become due under other provisions of the customer's contract.

No service shall be discontinued unless the customer is given reasonable notice in advance of such impending action and the reason therefore. The customer shall also be notified of his right to a hearing prior to such disconnection if he disputes the reason therefore and requests such hearing by the date specified in the notice. When a hearing is requested, the customer shall have the right to have a representative at such hearing and shall be entitled to testify and to present witnesses on his behalf. Also, when such hearing has been requested, the customer's service shall not be terminated until a final decision is reached by the hearing officer and the customer is notified of that decision.

18-115. Re-connection charge. Whenever service has been discontinued as provided for above, a re-connection charge shall be collected. The charge shall be an amount as set by the board from time to time by ordinance or resolution.

18-116. Termination of service by customer. Customers who have fulfilled their contract terms and wish to discontinue service must give at least

three (3) days written notice to that effect unless the contract specifies otherwise. Notice to discontinue service prior to the expiration of a contract term will not relieve the customer from any minimum or guaranteed payment under such contract or applicable rate schedule.

When service is being furnished to an occupant of premises under a contract not in the occupant's name, the municipality reserves the right to impose the following conditions on the right of the customer to discontinue service under such a contract:

(1) Written notice of the customer's desire for such service to be discontinued may be required; and the municipality shall have the right to continue such service for a period of not to exceed ten (10) days after receipt of such written notice, during which time the customer shall be responsible for all charges for such service. If the municipality should continue service after such ten (10) day period subsequent to the receipt of the customer's written notice to discontinue service, the customer shall not be responsible for charges for any service furnished after the expiration of such ten (10) day period.

(2) During such ten (10) day period, or thereafter, the occupant of premises to which service has been ordered discontinued by a customer other than such occupant, may be allowed by the municipality to enter into a contract for service in the occupant's own name upon the occupant's complying with these rules and regulations with respect to a new application for service.

18-117. Access to customers' premises. The municipality's identified representatives and employees shall be granted access to all customers' premises at all reasonable times for the purpose of reading meters, for testing, inspecting, repairing, removing, and replacing all equipment belonging to the municipality, and for inspecting customers' plumbing and premises generally in order to secure compliance with these rules and regulations.

18-118. Inspections. The municipality shall have the right, but shall not be obligated, to inspect any installation or plumbing system before water and/or sewer service is furnished or at any later time. The municipality reserves the right to refuse service or to discontinue service to any premises not meeting standards fixed by municipal ordinances regulating building and plumbing, or not in accordance with any special contract, these rules and regulations, or other requirements of the municipality.

Any failure to inspect or reject a customer's installation or plumbing system shall not render the municipality liable or responsible for any loss or damage which might have been avoided had such inspection or rejection been made.

18-119. Customer's responsibility for system's property. Except as herein elsewhere expressly provided, all meters, service connections, and other equipment furnished by or for the municipality shall be and remain the property

of the municipality. Each customer shall provide space for and exercise proper care to protect the property of the municipality on his premises. In the event of loss or damage to such property arising from the neglect of a customer to care for it properly, the cost of necessary repairs or replacements shall be paid by the customer.

18-120. Customer's responsibility for violations. Where the municipality furnishes water and/or sewer service to a customer, such customer shall be responsible for all violations of these rules and regulations which occur on the premises so served. Personal participation by the customer in any such violations shall not be necessary to impose such personal responsibility on him.

18-121. Supply and resale of water. All water shall be supplied within the municipality exclusively by the municipality, and no customer shall, directly or indirectly, sell, sublet, assign, or otherwise dispose of the water or any part thereof except with written permission from the municipality.

18-122. Unauthorized use of or interference with water supply. No person shall turn on or turn off any of the municipality's stop cocks, valves, hydrants, spigots, or fire plugs without permission or authority from the municipality.

18-123. Limited use of unmetered private fire line. Where a private fire line is not metered, no water shall be used from such line or from any fire hydrant thereon, except to fight fire or except when being inspected in the presence of an authorized agent of the municipality.

All private fire hydrants shall be sealed by the municipality, and shall be inspected at regular intervals to see that they are in proper condition and that no water is being used therefrom in violation of these rules and regulations. When the seal is broken on account of fire, or for any other reason, the customer taking such service shall immediately give the municipality a written notice of such occurrence.

18-124. Damages to property due to water pressure. The municipality shall not be liable to any customer for damages caused to his plumbing or property by high pressure, low pressure, or fluctuations in pressure in the municipality's water mains.

18-125. Liability for cutoff failure. The municipality's liability shall be limited to the forfeiture of the right to charge a customer for water that is not used but is received from a service line under any of the following circumstances:

(1) After receipt of at least ten (10) days' written notice to cut off a water service, the municipality has failed to cut off such service.

(2) The municipality has attempted to cut off a service but such service has not been completely cut off.

(3) The municipality has completely cut off a service but subsequently the cutoff develops a leak or is turned on again so that water enters the customer's pipes from the municipality's main.

Except to the extent stated above, the municipality shall not be liable for any loss or damage resulting from cutoff failures. If a customer wishes to avoid possible damage for cutoff failures, the customer shall rely exclusively on privately owned cutoffs and not on the municipality's cutoff. Also, the customer (and not the municipality) shall be responsible for seeing that his plumbing is properly drained and is kept properly drained, after his water service has been cut off.

18-126. Restricted use of water. In times of emergencies or in times of water shortage, the municipality reserves the right to restrict the purposes for which water may be used by a customer and the amount of water which a customer may use.

18-127. Interruption of service. The municipality will endeavor to furnish continuous water and sewer service, but does not guarantee to the customer any fixed pressure or continuous service. The municipality shall not be liable for any damages for any interruption of service whatsoever.

In connection with the operation, maintenance, repair, and extension of the municipal water and sewer systems, the water supply may be shut off without notice when necessary or desirable, and each customer must be prepared for such emergencies. The municipality shall not be liable for any damages from such interruption of service or for damages from the resumption of service without notice after any such interruption.

18-201. Purpose and policy. This chapter sets forth uniform requirements for the disposal of wastewater in the service area of the City of Oakland, Tennessee, wastewater treatment system. The objectives of this chapter are:

- (1) To protect the public health;
- (2) To provide problem free wastewater collection and treatment service;
- (3) To prevent the introduction of pollutants into the municipal wastewater treatment system, which will interfere with the system operation, will cause the city's discharge to violate its National Pollutant Discharge Elimination System (NPDES) permit or other applicable state requirements will cause physical damage to the wastewater treatment system facilities;
- (4) To provide for full and equitable distribution of the cost of the wastewater treatment system;
- (5) To enable the City of Oakland to comply with the provisions of the Federal Clean Water Act, the General Pretreatment Regulations (40 CFR Part 403), and other applicable federal and state laws and regulations;
- (6) To improve the opportunity to recycle and reclaim wastewaters and sludges from the wastewater treatment system.

In meeting these objectives, this chapter provides that all persons in the service area of the City of Oakland must have adequate wastewater treatment either in the form of a connection to the municipal wastewater treatment system or, where the system is not available, an appropriate private disposal system. The chapter also provides for the issuance of permits to system users, for the regulations of wastewater discharge volume and characteristics, for monitoring and enforcement activities; and for the setting of fees for the full and equitable distribution of costs resulting from the operation, maintenance, and capital recovery of the wastewater treatment system and from other activities required by the enforcement and administrative program established herein.

This chapter shall apply to the City of Oakland Tennessee, and to persons outside the city who are, by contract or agreement with the city users of the municipal wastewater treatment system. Except as otherwise provided herein, the water and sewer superintendent of the City of Oakland shall administer, implement, and enforce the provisions of this chapter. (2) It shall be unlawful to discharge to any waters of the state within the service area of the City of any sewage or other polluted waters, except where suitable treatment has been provided in accordance with subsequent provisions of this chapter.

(3) Except as hereinafter provided, it shall be unlawful to construct or maintain any privy, privy vault, septic tank, cesspool, or other facility intended or used for the disposal of sewage.

(4) Except as provided in paragraph (5) below, the owner of all houses, buildings, or properties used for human occupancy, employment, recreation, or other purposes situated within the service area and abutting on any street, alley, or right-of-way in which there is now located or may in the future be located a public sanitary sewer in the service area, is hereby required at his expense to install suitable toilet facilities therein, and to connect such facilities directly with the proper public sewer in accordance with the provisions of this chapter, within sixty (60) days after date of official notice to do so, provided that said public sewer is within five hundred (500) feet of the building drain as defined herein.

(5) The owner of a manufacturing facility may discharge wastewater to the waters of the state provided that he obtains an NPDES permit and meets all requirements of the Federal Clean Water Act, the NPDES permit, and any other applicable local, state, or federal statutes and regulations.

(6) Where a public sanitary sewer is not available under the provisions of Paragraph (4), the building sewer shall be connected to a private sewage disposal system complying with the provisions of §§ 18-207 and 18-208 of this chapter. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

(2) All costs and expenses incident to the installation, connection, and inspection of the building sewer shall be borne by the owner. The owner shall indemnify the city from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

(3) A separate and independent building sewer shall be provided for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.

(4) Old building sewers may be used in connection with new buildings only when they are found, on examination and tested by the superintendent to meet all requirements of this chapter. All others must be sealed to the specifications of the superintendent.

(5) Building sewers shall conform to the following requirements:

(a) The minimum size of a building sewer shall be four (4) inches.

(b) The minimum depth of a building sewer shall be eighteen (18) inches.

(c) Four (4) inch building sewers shall be laid on a grade greater than 1/8-inch per foot. Larger building sewers shall be laid on a grade that will produce a velocity when flowing full of at least 2.0 feet per second.

(d) Slope and alignment of all building sewers shall be neat and regular.

(e) Building sewers shall be constructed only of:

(i) Concrete or clay sewer pipe using rubber or neoprene compression joints of approved type;

(ii) Cast iron soil pipe with leaded or compression joints;

(iii) Polyvinyl chloride pipe with solvent welded or with rubber compression joints;

(iv) ABS composite sewer pipe with solvent welded or rubber compression joints of approved type; or

(f) A cleanout shall be located five (5) feet outside of the building, one as it taps onto the utility lateral and one at each change of direction of the building sewer which is greater than 45 degrees. Additional cleanouts shall be placed not more than seventy-five (75) feet apart in horizontal building sewers of four (4) inch nominal diameter and not more than one hundred (100) feet apart for larger pipes. Cleanouts shall be extended to or above the finished grade level directly above the place where the cleanout is installed. A "Y" (wye) and 1/8 bend shall be used for the cleanout base. Cleanouts shall not be smaller than four (4) inches on a four (4) inch pipe.

(g) Connections of building sewers to the public sewer system shall be made with the appropriate existing wye or tee branch using compression type couplings or collar type rubber joints with corrosion resisting or stainless steel bands. Where existing wye or tee branches are not available, connections of building services shall be made by either removing a length of pipe and replacing it with a wye or tee fitting or cutting a clean opening in the existing public sewer and installing a tee-saddle or tee-insert of a type approved by the superintendent. All such connections shall be made gastight and watertight.

(h) The building sewer may be brought into the building below the basement floor when gravity flow from the building to the sanitary sewer is at a grade of 1/8-inch per foot or more if possible. In cases where basement or floor levels are lower than the ground elevation at the point of connection to the sewer, adequate precautions by installation of check valves or other backflow prevention devices to protect against flooding shall be provided by the owner. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by an approved means and discharged to the building sewer at the expense of the owner.

(i) The methods to be used in excavating, placing of pipe, jointing, testing, backfilling the trench, or other activities in the construction of a building sewer which have not been described above shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the city or to the procedures set forth in appropriate specifications of the ASTM and Water Pollution Control Federal Manual of Practice No. 9. Any deviation from the

prescribed procedures and materials must be approved by the superintendent before installation.

(j) An installed building sewer shall be gastight and watertight.

(6) All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazards. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the city.

(7) No person shall make connection of roof downspouts, exterior foundation drains, areawy drains, basement drains, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn in connected directly or indirectly to a public sanitary sewer. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-205. Inspection of connections. (1) The sewer connection and all building sewers from the building to the public sewer main line shall be inspected before the underground portion is covered by the superintendent or his authorized representative.

(2) The applicant for discharge shall notify the superintendent when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the superintendent or his representative. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-206. Maintenance of building sewers. Each individual property owner or user of the POTW shall be entirely responsible for the maintenance of the building sewer located on private property. This maintenance will include repair or replacement of the service line as deemed necessary by the superintendent to meet specifications of the city. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-207. Availability of public sewer. (1) Where a public sanitary sewer is not available under the provisions of § 18-203(4), the building sewer shall be connected to a private wastewater disposal system complying with the provisions of this section.

(2) Any residence, office, recreational facility, or other establishment used for human occupancy where the building drain is below the elevation to obtain a grade equivalent to 1/8-inch per foot in the building sewer but is otherwise accessible to a public sewer as provided in § 18-203, the owner shall provide a private sewage pumping station as provided in § 18-204(5)(h).

(3) Where a public sewer becomes available, the building sewer shall be connected to said sewer within sixty (60) days after date of official notice to do so. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-208. Requirements for private wastewater disposal. (1) A private domestic wastewater disposal system may not be constructed within the

service area unless and until a certificate is obtained from the superintendent stating that a public sewer is not accessible to the property and no such sewer is proposed for construction in the immediate future. No certificate shall be issued for any private domestic wastewater disposal system employing subsurface soil absorption facilities where the area of the lot is less than that specified by the Fayette County Health Department.

(2) Before commencement of construction of a private sewage disposal system, the owner shall first obtain written permission from the Fayette County Health Department. The owner shall supply any plans, specifications, and other information as are deemed necessary by the Fayette County Health Department.

(3) A private sewage disposal system shall not be placed in operation until the installation is completed to the satisfaction of the Fayette County Health Department. They shall be allowed to inspect the work at any stage of construction and, in any event, the owner shall notify the Fayette County Health Department when the work is ready for final inspection, and before any underground portions are covered. The inspection shall be made within a reasonable period of time after the receipt of notice by the and Fayette County Health Department.

(4) The type, capacity, location, and layout of a private sewage disposal system shall comply with all recommendations of the Department of Health of the State of Tennessee and the Fayette County Health Department. No septic tank or cesspool shall be permitted to discharge to any natural outlet.

(5) The owner shall operate and maintain the private sewage disposal facilities in a sanitary manner at all times, at no expense to the city.

(6) No statement contained in this chapter shall be construed to interfere with any additional requirements that may be imposed by the Fayette County Health Department. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-209. Regulation of holding tank waste disposal. (1) Permit. No person, firm, association or corporation shall clean out, drain, or flush any septic tank or any other type of wastewater or excreta disposal system, unless such person, firm, association, or corporation obtains a permit from the superintendent to perform such acts or services. Any person, firm, association, or corporation desiring a permit to perform such services shall file an application on the prescribed form. Upon any such application, said permit shall be issued by the superintendent when the conditions of this chapter have been met and providing the superintendent is satisfied the applicant has adequate and proper equipment to perform the services contemplated in a safe and competent manner.

(2) Fees. For each permit issued under the provisions of this chapter, an annual service charge therefore shall be paid to the city to be set as specified in § 18-215. Any such permit granted shall be for one full fiscal year or fraction

of the fiscal year, and shall continue in full force and effect from the time issued until the ending of the fiscal year unless sooner revoked, and shall be nontransferable. The number of the permit granted hereunder shall be plainly painted on each side of the motor vehicle used in the conduct of the business permitted hereunder.

(3) Designated disposal locations. The superintendent shall designate approved locations for the emptying and cleansing of all equipment used in the performance of the services rendered under the permit herein provided for, and it shall be a violation thereof for any person, firm, association or corporation to empty or clean such equipment at any place other than a place so designated.

(4) Revocation of permit. Failure to comply with all the provisions of this chapter shall be sufficient cause for the revocation of such permit by the superintendent. The possession within the service area by any person of any motor vehicle equipped with a body type and accessories of a nature and design capable of serving a septic tank of wastewater or excreta disposal system cleaning unit shall be prima facie evidence that such person is engaged in the business of cleaning, draining, or flushing septic tanks or other wastewater or excreta disposal systems within the service area of the City of Oakland. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-210. Applications for domestic wastewater discharge and industrial wastewater discharge permits. (1) Applications for discharge of domestic wastewater. All users or prospective users which generate domestic wastewater shall make application to the superintendent for written authorization to discharge to the municipal wastewater treatment system. Applications shall be required from all new dischargers as well as for any existing discharger desiring additional service. Connection to the municipal sewer shall not be made until the application is received and approved by the superintendent, the building sewer is installed in accordance with § 18-204 of this chapter and an inspection has been performed by the superintendent or his representative.

The receipt by the city of a prospective customer's application for service shall not obligate the city to render the service. If the service applied for cannot be supplied in accordance with this chapter and the city's rules and regulations and general practice, the connection charge will be refunded in full, and there shall be no liability of the city to the applicant for such service, except that conditional waivers for additional services may be granted by the superintendent for interim periods if compliance may be assured within a reasonable period of time.

(2) Industrial wastewater discharge permits. (a) General requirements. All industrial users proposing to connect to or contribute to the POTW shall obtain a wastewater discharge permit before connecting to or contributing to the POTW. All existing industrial

users connected to or contributing to the POTW within 180 days after the effective date of this chapter.

(b) Applications. Applications for wastewater discharge permits shall be required as follows:

(i) Users required to obtain a wastewater discharge permit shall complete and file with the superintendent an application in the form prescribed by the superintendent, and accompanied by the appropriate fee. Existing users shall apply for a wastewater contribution permit within 60 days after the effective date of this chapter, and proposed new users shall apply at least ninety (90) days prior to connecting to or contributing to the POTW.

(ii) The application shall be in the prescribed form of the city and shall include, but not be limited to the following information: name, address and SIC number of applicant; wastewater volume; wastewater constituents and characteristics; discharge variations - daily, monthly, seasonal and 30 minute peaks; a description of all toxic materials handled on the premises; site plans, floor plans, mechanical and plumbing plans and details showing all sewers and appurtenances by size, location and elevation; a description of existing and proposed pretreatment and/or equalization facilities and any other information deemed necessary by the superintendent.

(iii) Any user who elects or is required to construct new or additional facilities for pretreatment shall as part of the application for wastewater discharge permit submit plans, specifications and other pertinent information relative to the proposed construction to the superintendent for approval. Plans and specifications submitted for approval must bear the seal of a professional engineer registered to practice engineering in the State of Tennessee. A wastewater discharge permit shall not be issued until such plans and specifications are approved. Approval of such plans and specifications shall in no way relieve the user from the responsibility of modifying the facility as necessary to produce an effluent acceptable to the city under the provisions of this chapter.

(iv) If additional pretreatment and/or O & M will be required to meet the pretreatment standards, the application shall include the shortest schedule by which the user will provide such additional pretreatment. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard. For the purpose of this paragraph, "pretreatment standard," shall include either a

national pretreatment standard or a pretreatment standard imposed by § 18-211 of this chapter.

(v) The city will evaluate the data furnished by the user and may require additional information. After evaluation and acceptance of the data furnished, the city may issue a wastewater discharge permit subject to terms and conditions provided herein.

(vi) The receipt by the city of a prospective customer's application for wastewater discharge permit shall not obligate the city to render the wastewater collection and treatment service. If the service applied for cannot be supplied in accordance with this chapter or the city's rules and regulations and general practice, the application shall be rejected and there shall be no liability of the city to the applicant of such service.

(vii) The superintendent will act only on applications containing all the information required in this section. Persons who have filed incomplete applications will be notified by the superintendent that the application is deficient and the nature of such deficiency and will be given thirty (30) days to correct the deficiency. If the deficiency is not corrected within thirty (30) days or within such extended period as allowed by the superintendent, the superintendent shall submit the application to the mayor with a recommendation that it be denied and notify the applicant in writing of such action.

(c) Permit conditions. Wastewater discharge permits shall be expressly subject to all provisions of this chapter and all other applicable regulations, user charges and fees establishing by the city. Permits may contain the following:

(i) The unit charge or schedule of user charges and fees for the wastewater to be discharged to a community sewer;

(ii) Limits on the average and maximum wastewater constituents and characteristics;

(iii) Limits on average and maximum rate and time of discharge or requirements and equalization;

(iv) Requirements for installation, maintenance, inspections and sampling facilities;

(v) Specifications for monitoring programs which may include sampling locations, frequency of sampling, number, types, and standards for tests and reporting schedule;

(vi) Compliance schedules;

(vii) Requirements for submission of technical reports of discharge reports;

(viii) Requirements for maintaining and retaining plant records relating to wastewater discharge as specified by the city and affording city access thereto;

(ix) Requirements for notification of the city of any new introduction of wastewater constituents or any substantial change in the volume or character of the wastewater constituents being introduced into the wastewater treatment system;

(x) Requirements for notification of slug discharged;

(xi) Other conditions as deemed appropriate by the city to ensure compliance with this chapter.

(d) Permit modifications. Within nine months of the promulgation of a national categorical pretreatment standard, the wastewater discharge permit of users subject to such standards shall be revised to require compliance with such standard within the time frame prescribed by such standard. A user with an existing wastewater discharge permit shall submit to the superintendent within 180 days after the promulgation of an applicable federal categorical pretreatment standard the information required by § 18-210(2)(b)(ii) and (2)(b)(iii). The terms and conditions of the permit may be subject to modification by the superintendent during the term of the permit as limitations or requirements are modified or other just cause exists. The user shall be informed of any proposed changes in this permit at least 30 days prior to the effective date of change. Any changes or new conditions in the permit shall include a reasonable time schedule for compliance.

(e) Permits duration. Permits shall be issued for a specified time period not to exceed five (5) years. A permit may be issued for a period less than a year or may be stated to expire on a specific date. The user shall apply for permit reissuance a minimum of 180 days prior to the expiration of the user's existing permit.

(f) Permit transfer. Wastewater discharge permits are issued to a specific user for a specific operation. A wastewater discharge permit shall not be reassigned or transferred or sold to a new owner, new user, different premises, or a new or changed operation without the approval of the city. Any succeeding owner or user shall also comply with the terms and conditions of the existing permit.

(g) Revocation of permit. Any permit issued under the provisions of this chapter is subject to be modified suspended, or revoked in whole or in part during its term for cause including, but not limited to, the following:

(ii) Obtaining a permit by misrepresentation or failure to disclose fully all relevant facts.

(iii) A change in any condition that requires either a temporary or permanent reduction or elimination of the permitted discharge.

(iv) Intentional failure of a user to accurately report the discharge constituents and characteristics or to report significant changes in plant operations or wastewater characteristics.

(3) Confidential information. All information and data on a user obtained from reports, questionnaire permit application, permits and monitoring programs and from inspections shall be available to the public or any other governmental agency without restriction unless the user specifically requests and is able to demonstrate to the satisfaction of the superintendent that the release of such information would divulge information, processes, or methods of production entitled to protection as trade secrets of the user.

When requested by the person furnishing the report, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public, but shall be made available to governmental agencies for use; related to this chapter or the city's or user's NPDES permit. Provided, however, that such portions of a report shall be available for use by the state or any state agency in judicial review or enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics will not be recognized as confidential information.

Information accepted by the superintendent as confidential shall not be transmitted to any governmental agency or to the general public by the superintendent until and unless prior and adequate notification is given to the user. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-211. Discharge regulations. (1) General discharge prohibitions. No user shall contribute or cause to be contributed, directly or indirectly, any pollutant or wastewater which will interfere with the operation and performance of the POTW. These general prohibitions apply to all such users of a POTW whether or not the user is subject to national categorical pretreatment standards or any other national, state, or local pretreatment standards or requirements. A user may not contribute the following substances to any POTW:

(a) Any liquids, solids, or gases which by reason of their nature or quantity are, or may be, sufficient either alone or by interaction with other substances to cause fire or explosion or be injurious in any other way to the POTW or to the operation of the POTW. At no time, shall two successive readings on an explosion hazard meter, at the point of discharge into the system (or at any point in the system) be more than five percent (5%) nor any single reading over twenty percent (20%) of the Lower Explosive Limit (LEL) of the meter. Prohibited materials include, but are not limited to, gasoline, kerosene, naphtha, benzene, toluene, xylene, ethers, alcohols, ketones, aldehydes, peroxides, chlorates, perchlorates, bromate, carbides, hydrides and sulfides and any other

substances which the city, the state or EPA has notified the user is a fire hazard or a hazard to the system.

(b) Solid or viscous substances which may cause obstruction to the flow in a sewer or other interference with the operation of the wastewater treatment facilities such as, but not limited to: grease, garbage with particles greater than one-half inch (1/2") in any dimension, paunch manure, bones, hair, hides, or fleshings, entrails, whole blood, feathers, ashes, cinders, sand, spent lime, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, spent grains, spent hops, waste paper, wood, plastics, gas, tar, asphalt residues, residues from refining, or processing of fuel or lubricating oil, mud, or glass grinding or polishing wastes.

(c) Any wastewater having a pH less than 5.0 or higher than 9.5 or wastewater having any other corrosive property capable of causing damage or hazard to structures, equipment, and/or personnel of the POTW.

(d) Any wastewater containing any toxic pollutants, chemical elements, or compounds in sufficient quantity, either singly or by interaction with other pollutants, to injure or interfere with any wastewater treatment process, constitute a hazard to humans or animals, create a toxic effect in receiving waters of the POTW, or to exceed the limitation set forth in a categorical pretreatment standard. A toxic pollutant shall include but not be limited to any pollutant identified pursuant to Section 307(a) of the Act.

(e) Any noxious or malodorous liquids, gases, or solids which either singly or by interaction with other wastes are sufficient to create a public nuisance or hazard to life or are sufficient to prevent entry into the sewers for maintenance and repair.

(f) Any substance which may cause the POTW's effluent or any other product of the POTW such as residues, sludges, or scums, to be unsuitable for reclamation and reuse or to interfere with the reclamation process. In no case, shall a substance discharged to the POTW cause the POTW to be in non-compliance with sludge use or disposal criteria, guidelines or regulations developed under Section 405 of the Act; any criteria, guidelines, or regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, the Clean Air Act, the Toxic Substances Control Act, or state criteria applicable to the sludge management method being used.

(g) Any substance which will cause the POTW to violate its NPDES permit or the receiving water quality standards.

(h) Any wastewater causing discoloration of the wastewater treatment plant effluent to the extent that the receiving stream water quality requirements would be violated, such as, but not limited to, dye wastes and vegetable tanning solutions.

(i) Any wastewater having a temperature which will inhibit biological activity in the POTW treatment plant resulting in interference, but in no case wastewater with a temperature at the introduction into the POTW which exceeds 40° C (104° F).

(j) Any pollutants, including oxygen demanding pollutants (BOD, etc.) released at a flow rate and/or pollutant concentration which a user knows or has reason to know will cause interference to the POTW.

(k) Any waters or wastes causing an unusual volume of flow or concentration of waste constituting "sludge" as defined herein.

(l) Any wastewater containing any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the superintendent in compliance with applicable state or federal regulations.

(m) Any wastewater which causes a hazard to human life or creates a public nuisance.

(n) Any waters or wastes containing fats, wax, grease, or oil, whether emulsified or not, in excess of one hundred (100) mg/l or containing substances which may solidify or become viscous at temperature between thirty-two (32) or one hundred fifth (150) degrees F (0 and 65° C).

(o) Any stormwater, surface water, groundwater, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as storm sewers, or to a natural outlet approved by the superintendent and the Tennessee Department of Public Health. Industrial cooling water or unpolluted process waters may be discharged on approval of the superintendent and the Tennessee Department of Public Health, to a storm sewer or natural outlet.

(2) Restrictions on wastewater strength. No person or user shall discharge wastewater which exceeds the following set of standards (Table A - User Discharge Restrictions) unless an exception is permitted as provided in this chapter. Dilution of any wastewater discharge for the purpose of satisfying these requirements shall be considered in violation of this chapter.

(3) Protection of treatment plant influent. The superintendent shall monitor the treatment works influent for each parameter in the following table. (Table B - Plant Protection Criteria). Industrial users shall be subject to reporting and monitoring requirements regarding these parameters as set for in this chapter. In the event that the influent at the POTW reaches or exceeds the levels established by this table, the superintendent shall initiated technical studies to determine the cause of the influent violation and shall recommend to the city the necessary remedial measures, including, but not limited to, recommending the establishment of new or revised pretreatment levels for these parameters. The superintendent shall also recommend changes to any of these criteria in the event that: the POTW effluent standards are changed, there are changes in any applicable law or regulation affecting same, or changes are needed for more effective operation of the POTW.

(4) Federal categorical pretreatment standards. Upon the promulgation of the federal categorical pretreatment standards for a particular

industrial subcategory, the federal standard, if more stringent than limitations imposed under this chapter for sources in that subcategory, shall immediately supersede the limitations imposed under this chapter. The superintendent shall notify all affected users of the applicable reporting requirements under 40 CFR, Section 403.12.

(5) Right to establish more restrictive criteria. No statement in this chapter is intended or may be construed to prohibit the superintendent from establishing specific wastewater discharge criteria more restrictive where wastes are determined to be harmful or destructive to the facilities of the POTW or to create a public nuisance, or to cause the discharge of the POTW to violate effluent or stream quality standards, or to interfere with the use or handling of sludge, or to pass through the POTW resulting in a violation of the NPDES permit, or to exceed industrial pretreatment standards for discharge to municipal wastewater treatment systems as imposed or as may be imposed by the Tennessee Department of Public Health and/or the United States Environmental Protection Agency.

(6) Special agreements. Nothing in this section shall be construed so as to prevent any special agreement or arrangement between the city and any user of the wastewater treatment system whereby wastewater of unusual strength or character is accepted into the system and specially treated subject to any payments or user charges as may be applicable. The making of such special agreements or arrangements between the city and the user shall be strictly limited to the capability of the POTW to handle such wastes without interfering with unit operations or sludge use and handling or allowing the pass through of pollutants which would result in a violation of the NPDES permit. No special agreement or arrangement may be made without documentation by the industry of the use of good management practice in the reduction of wastewater volume and strength.

(7) Exceptions to discharge criteria. (a) Application for exception. Non-residential users of the POTW may apply for a temporary exception to the prohibited and restricted wastewater discharge criteria listed in § 18-211(1) and (2) of this code. Exceptions can be granted according to the following guidelines:

The superintendent shall allow applications for temporary exceptions at any time. However, the superintendent shall not accept an application if the applicant has submitted the same or substantially similar application within the preceding year and the same has been denied by the city.

All applications for an exception shall be in writing, and shall contain sufficient information for evaluation of each of the factors to be considered by the city in its review of the application.

(b) Conditions. All exceptions granted under this paragraph shall be temporary and subject to revocation at any time by the superintendent upon reasonable notice.

The user requesting the exception must demonstrate to the superintendent that he is making a concentrated and serious effort to maintain high standards of operation control and housekeeping levels, etc., so that discharges to the POTW are being minimized. If negligence is found, permits will be subject to termination. The user requesting the exception must demonstrate that compliance with stated concentration and quantity standards is technically or economically infeasible and the discharge, if excepted, will not:

- (i) Interfere with the normal collection and operation of the wastewater treatment system.
- (ii) Limit the sludge management alternatives available and increase the cost of providing adequate sludge management.
- (iii) Pass through the POTW in quantities and/or concentrations that would cause the POTW to violate its NPDES permit.

The user must show that the exception, if granted, will not cause the discharger to violate its inforce federal pretreatment standards unless the exception is granted under the provisions of the applicable pretreatment regulations.

A surcharge shall be applied to any exception granted under this subsection. These surcharges shall be applied for that concentration of the pollutant for which the variance has been granted in excess of the concentration stipulated in this chapter based on the average daily flow of the user.

(c) Review of application by the superintendent. All applications for an exception shall be reviewed by

- (i) The engineering aspects of various types of pretreatment or other control techniques available to the user to improve the quality or quantity of wastewater discharge.

(8) Accidental discharges. (a) Protection from accidental discharge. All industrial users shall provide such facilities and institute such procedures as are reasonably necessary to prevent or minimize the potential for accidental discharge into the POTW of waste regulated by this chapter from liquid or raw material storage areas, from truck and rail car loading and unloading areas, from inplant transfer or processing and materials handling areas, and from diked areas or holding ponds of any waste regulated by this chapter. The wastewater discharge permit of any user who has a history of significant leaks, spills, or other accidental discharge of waste regulated by this chapter shall be subject on a case-by-case basis to a special permit condition or requirement for the construction of facilities establishment of procedures which will prevent or minimize the potential for such accidental discharge. Facilities to prevent accidental discharge of prohibited materials shall be provided and maintained at the user's expense. Detailed plans showing

the facilities and operating procedures shall be submitted to the superintendent before the facility is constructed.

The review and approval of such plans and operating procedures will in no way relieve the user from the responsibility of modifying the facility to provide the protection necessary to meet the requirements of this chapter.

(b) Notification of accidental discharge. Any person causing or suffering from any accidental discharge shall immediately notify the superintendent (or his designated official) by telephone to enable countermeasures to be taken by the superintendent to minimize damage to the POTW, the health and welfare of the public, and the environment. This notification shall be followed, within five (5) days of the date of occurrence, by a detailed written statement describing the cause of the accidental discharge and the measures being taken to prevent future occurrence.

Such notification will not relieve the user of liability for any expense loss, or damage to the POTW, fish kills, or any other damage to person or property; nor shall such notification relieve the user of any fines, civil penalties, or other liability which may be imposed by this chapter or state or federal law.

(c) Notice to employees. A notice shall be permanently posted on the user's bulletin board or other prominent place advising employees whom to call in the event of a dangerous discharge. Employers shall ensure that all employees who may cause or suffer such a dangerous discharge to occur are advised of the emergency notification procedure. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-212. Industrial user monitoring, inspection reports, records access, and safety. (1) Monitoring facilities. The installation of a monitoring facility shall be required for all industrial users having wastes which receive pretreatment, are otherwise altered or regulated before discharge, or are unusually strong and thereby subject to a surcharge. Monitoring facility shall be a manhole or other suitable facility approved by the superintendent.

When, in the judgment of the superintendent, there is a significant difference in wastewater constituents and characteristics produced by different operations of a single user the superintendent may require that separate monitoring facilities be installed for each separate source of discharge.

Monitoring facilities that are required to be installed shall be constructed and maintained at the user's expense. The purpose of the facility is to enable inspection, sampling and flow measurement of wastewater produced by a user. If sampling or metering equipment is also required by the superintendent, it shall be provided and installed at the user's expense.

The monitoring facility will normally be required to be located on the user's premises outside of the building. The superintendent may, however,

when such a location would be impractical or cause undue hardship on the user, allow the facility to be constructed in the public street right-of-way with the approval of the public agency having jurisdiction of that right-of-way and located so that it will not be obstructed by landscaping or parked vehicles.

There shall be ample room in or near such sampling manhole or facility to allow accurate sampling and preparation of samples for analysis. The facility, sampling, and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the user.

Whether constructed on public or private property, the monitoring facilities shall be constructed in accordance with the superintendent's requirements and all applicable local agency construction standards and specifications. When, in the judgment of the superintendent, an existing notified in writing. Construction must be completed within 180 days following written notification unless an extension is granted by the superintendent.

(2) Inspection and sampling. The city shall inspect the facilities of any user to ascertain whether the purpose of this chapter is being met and all requirements are being complied with. Persons or occupants of premises where wastewater is created or discharged shall allow the city or their representative ready access at all reasonable times to all parts of the premises for the purpose of inspection, sampling, records examination or in the performance of any of their duties. The city, approval authority and EPA shall have the right to set up on the user's property such devices as are necessary to conduct sampling inspection, compliance monitoring and/or metering operations. Where a user has security measures in force which would require proper identification and clearance before entry into their premises, the user shall make necessary arrangements with their security guards so that upon presentation of suitable identification, personnel from the city, approval authority and EPA will be permitted to enter, without delay, for the purposes of performing their specific responsibility. The superintendent or his representatives shall have no authority to inquire into any manufacturing process beyond that point having a direct bearing on the level and sources of discharge to the sewers, waterways, or facilities for waste treatment.

(3) Compliance date report. Within 180 days following the date for final compliance with applicable pretreatment standards or, in the case of a new source, following commencement of the introduction of wastewater into the POTW, any user subject to pretreatment standards and requirements shall submit to the superintendent a report indicating the nature and concentration of all pollutants in the discharge from the regulated process which are limited by pretreatment standards and requirements and the average and maximum daily flow for these process units in the user facility which are limited by such pretreatment standards or requirements. The report shall state whether the applicable pretreatment standards or requirements are being met on a consistent basis and, if not, what additional O & M and/or pretreatment is necessary to bring the user into compliance with the applicable pretreatment

standards or requirements. This statement shall be signed by an authorized representative of the industrial user, and certified to by a qualified professional.

(4) Periodic compliance reports. (a) Any user subject to a pretreatment standard, after the compliance date of such pretreatment standard, or, in the case of new source, after commencement of the discharge into the POTW, shall submit to the superintendent during the months of June and December, unless required more frequently in the pretreatment standards or by the superintendent a report indicating the nature and concentration of pollutants in the effluent which are limited by such pretreatment standards. In addition, this report shall include a record of all daily flows which during the reporting period exceeded the average daily flow. At the discretion of the superintendent and in consideration of such factors as local high or low flow rates, holidays, budget cycles, etc., the superintendent may agree to alter the months during which the above reports are to be submitted.

(b) The superintendent may impose mass limitations on users where the imposition of mass limitations are appropriate. In such cases, the report required by subparagraph (a) of this paragraph shall indicate the mass of pollutants regulated by pretreatment standards in the effluent of the user.

(c) The reports required by this section shall contain the results of sampling and analysis of the discharge, including the flow and the nature and concentration, or production and mass where requested by the superintendent, or pollutants contained therein which are limited by the applicable pretreatment standards. The frequency of monitoring shall be prescribed in the wastewater discharge permit or the pretreatment standard. All analysis shall be performed in accordance with procedures established by the administrator pursuant to Section 304(g) of the Act and contained in 40 CFR, Part 136 and amendments thereto or with any other test procedures approved by the superintendent. Sampling shall be performed in accordance with the techniques approved by the superintendent.

(5) Maintenance of records. Any industrial user subject to the reporting requirements established in this section shall maintain records of all information resulting from any monitoring activities required by this section. Such records shall include for all samples:

- (a) The date, exact place, method, and time of sampling and the names of the persons taking the samples;
- (b) The dates analyses were performed;
- (c) Who performed the analyses;
- (d) The analytical techniques/methods used; and
- (e) The results of such analyses.

Any industrial user subject to the reporting requirement established in this section shall be required to retain for a minimum of three (3) years all

records of monitoring activities and results (whether or not such monitoring activities are required by this section) and shall make such records available for inspection and copying by the superintendent, Director of the Division of Water Quality Control Tennessee Department of Public Health, or the Environmental Protection Agency. This period of retention shall be extended during the course of any unresolved litigation regarding the industrial user or when requested by the superintendent, the approval authority, or the Environmental Protection Agency.

(6) Safety. While performing the necessary work on private properties, the superintendent or duly authorized employees of the city shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the city employees and the city shall indemnify the company against loss or damage to its property by city employees and against liability claims and demands for personal injury or property damage asserted against the company and growing out of the monitoring and sampling operation, except as such may be caused by negligence or failure of the company to maintain safe conditions. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-213. Enforcement and abatement. (1) Issuance of cease and desist orders. When the superintendent finds that a discharge of wastewater has taken place in violation of prohibitions or limitations of this chapter, or the provisions of a wastewater discharge permit, the superintendent shall issue an order to cease and desist, and direct that these persons not complying with such prohibitions, limits requirements, or provisions to:

- (a) Comply forthwith;
- (b) Comply in accordance with a time schedule set forth by the superintendent;
- (c) Take appropriate remedial or preventive action in the event of a threatened violation; or
- (d) Surrender his applicable user's permit if ordered to do so after a show cause hearing.

Failure of the superintendent to issue a cease and desist order to a violating user shall not in any way relieve the user from any consequences of a wrongful or illegal discharge.

(2) Submission of time. When the superintendent finds that a discharge of wastewater has been taking place in violation of prohibitions or limitations prescribed in this chapter, or wastewater source control requirements, effluent limitations of pretreatment standards, or the provisions of a wastewater discharge permit, the superintendent shall require the user to submit for approval, with such modifications as it deems necessary, a detailed time schedule of specific actions which the user shall take in order to prevent or correct a violation of requirements. Such schedule shall be submitted to the superintendent within 30 days of the issuance of the cease and desist order.

(3) Show cause hearing. (a) The city may order any user who causes or allows an unauthorized discharge to enter the POTW to show cause before the board of mayor and aldermen why the proposed enforcement action should not be taken. A notice shall be served on the user specifying the time and place of a hearing to be held by the city council regarding the violation, the reasons why the action is to be taken, the proposed enforcement action, and directing the user to show cause before the city council why the proposed enforcement action should not be taken. The notice of the hearing shall be served personally or by registered or certified mail (return receipt requested) at least ten (10) days before the hearing.

(b) The board of mayor and aldermen may itself conduct the hearing and take evidence, or may designate any of its members or any officer or employee of the water and sewer department to:

(i) Issue in the name of the board of mayor and aldermen notices of hearings requesting the attendance and testimony of witnesses and the production of evidence relevant to any matter involved in such hearings;

(ii) Take the evidence;

(iii) Transmit a report of the evidence and hearing, including transcripts and other evidence, together with recommendations to the board for action thereon.

(c) At any hearing held pursuant to this chapter, testimony taken must be under oath and recorded. The transcript, so recorded, will be made available to any member of the public or any party to the hearing upon payment of the usual charges thereof.

(d) After the board of mayor and aldermen has reviewed the evidence, it may issue an order to the user responsible for the discharge directing that, following a specified time period, the sewer service be discontinued unless adequate treatment facilities, devices or other related appurtenances shall have been installed on existing treatment facilities, and that these devices or other related appurtenances are properly operated. Further orders and directives as are necessary and appropriate may be issued.

(4) Legal action. If any person discharges sewage, industrial wastes, or other wastes into the city's wastewater disposal system contrary to the provisions of this chapter, federal or state pretreatment requirements, or any order of the city, the city attorney may commence an action for appropriate legal and/or equitable relief in the Chancery Court of this county.

(5) Emergency termination of service. In the event of an actual or threatened discharge to the POTW of any pollutant which in the opinion of the superintendent presents or may present an imminent and substantial endangerment to the health or welfare of persons, or cause interference with POTW, the superintendent or in his absence the person then in charge of the

treatment works shall immediately notify the mayor of the nature of the emergency. The superintendent shall also attempt to notify the industrial user or other person causing the emergency and request their assistance in abating same. Following consultation with the aforementioned officials of the city or in their absence such elected officials of the city as may be available, the superintendent shall temporarily terminate the service of such user or users as are necessary to abate the condition when such action appears reasonably necessary. Such service shall be restored by the superintendent as soon as the emergency situation has been abated or corrected.

(6) Public nuisance. Discharges of wastewater in any manner in violation of this chapter or of any order issued by the superintendent as authorized by this chapter, is hereby declared a public nuisance and shall be corrected or abated as directed by the superintendent. Any person creating a public nuisance shall be subject to the provisions of the city codes or ordinances governing such nuisance.

(7) Correction of violation and collection of costs. In order to enforce the provisions of this chapter, the superintendent shall correct any violation hereof. The cost of such correction shall be added to any sewer service charge payable by the person violating the chapter or the owner or tenant of the property upon which the violation occurred, and the city shall have such remedies for the collection of such costs as it has for the collection of sewer service charges.

(8) Damage to facilities. When a discharge of wastes causes an obstruction, damage, or any other physical or operational impairment to facilities, the superintendent shall assess a charge against the user for the work required to clean or repair the facility and add such charge to the user's sewer service charge.

(9) Civil liabilities. Any person or user who intentionally or negligently violates any provision of this chapter, requirements, or conditions set forth in permit duly issued, or who discharges wastewater which causes pollution or violates any cease and desist order, prohibition, effluent limitation, national standard or performance, pretreatment, or toxicity standard, shall be liable civilly.

The City of Oakland shall sue for such damage in any court of competent jurisdiction. In determining the damages, the court shall take into consideration all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the nature and persistence of the violation, the length of time over which the violation occurs, and the correcting action, if any. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-214. Penalty: costs. (1) Civil penalties. Any user who is found to have violated an order of the board of mayor and aldermen or who willfully or negligently failed to comply with any provision of this chapter, and the order, rules, regulations and permits issued hereunder, shall be fined not less than

fifty and 00/100 dollars (\$50.00) for each offense. Each day of which a violation shall occur or continue shall be deemed a separate and distinct offense. In addition to the penalties provided herein, the city may recover reasonable attorney's fees, court costs, court reporters' fees and other expenses of litigation by appropriate suit at law against the person found to have violated this chapter or the orders, rules, regulations, and permits issued hereunder.

(2) Falsifying information. Any person who knowingly makes any false statements, representation or certification in any application, record, report, plan or other document filed or required to be maintained pursuant to this chapter, or wastewater discharge permit, or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required under this chapter, shall, upon conviction be punished by a fine of not more than \$1,000 or by imprisonment for not more than six (6) months, or by both. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-215. Fees and billing. (1) Purpose. It is the purpose of this chapter to provide for the equitable recovery of costs from users of the city's wastewater treatment system, including costs of operation, maintenance, administration, bond service costs, capital improvements, depreciation, and equitable cost recovery of EPA administered federal wastewater grants.

(2) Types of charges and fees. The charges and fees as established in the city's schedule of charges and fees, may include, but not be limited to:

- (a) Inspection fee and tapping fee;
- (b) Fees for applications for discharge;
- (c) Sewer use charges;
- (d) Surcharge fees;
- (e) Industrial wastewater discharge permit fees;
- (f) Fees for industrial discharge monitoring; and
- (g) Other fees as the city may deem necessary to carry out the

requirements of this chapter.

(3) Fees for applications for discharge. A fee may be charged when a user or prospective user makes application for discharge as required by § 18-210 of this chapter.

(4) Inspection fee and tapping fee. An inspection fee and tapping fee for a building sewer installation shall be paid to the city's sewer department at the time the application is filed. Fees shall cover the costs of inspecting new and/or existing plumbing within subject building establishments as well as inspection of building sewers, property sewers, and sewer service lines and connections to the public sewers. The inspection fee and tapping fee shall be set by the board of mayor and aldermen.

(5) Sewer user charges. (a) Classification of users. Users of the wastewater system shall be classified into two (2) general classes or categories depending upon the user's contribution of wastewater loads; each class user being identified as follows:

(i) Class I: Those users whose average biochemical oxygen demand is two hundred fifty milligrams per liter (250 mg/l) by weight or less, and whose suspended solids discharge is two hundred fifty milligrams per liter (250 mg/l) by weight or less.

(ii) Class II: Those users whose average biochemical oxygen demand exceeds two hundred fifty milligrams per liter concentration (250 mg/l) by weight and whose suspended solids exceeds two hundred fifty milligrams per liter concentration (250 mg/l).

(b) Determination of costs. The board of mayor and aldermen shall establish monthly rates and charges for the use of the wastewater system and for the services supplied by the wastewater system. Said charges shall be based upon the cost categories of administration costs, including billing and accounting costs; operation and maintenance costs of the wastewater collection and treatment system; and debt service costs.

(i) All users who fall under Class I shall pay a single unit charge expressed as dollars per 1,000 gallons of water purchased (\$/1,000 gallons) with the unit charge being determined in accordance with the following formula:

$$C_i = \frac{T.S.C.}{V_t}$$

Where;

C_i = the Class I total unit cost in \$/1,000 gallons

T.S.C. = the total operation and maintenance, administration, and debt service determined by yearly budget projections.

V_t = the total volume of wastewater contribution from all users per year as determined from projections from one city fiscal year to the next.

(ii) All users who fall within the Class II classification shall pay the same base unit charge per 1,000 gallons of water purchased as for the Class I users and in addition shall pay a surcharge rate on the excessive amounts of biochemical oxygen demand and suspended solids in direct proportion to the actual discharge quantities.

(iii) The volume of water purchased which is used in the calculation of sewer use charges may be adjusted by the superintendent if a user purchases a significant volume of water for a consumptive use and does not discharge it to the public sewers (i.e. filling swimming pools, industrial heating, and humidifying equipment, etc.). The user shall be responsible for documenting the quantity of waste discharged to the public sewer.

(iv) When either or both the total suspended solids or biochemical oxygen demand quantities discharged into the treatment works is in excess of those described in paragraph § 18-215(5)(a) above, thus being classified as Class II users, the following formula shall be used to compute the appropriate user charge:

$$C_u = V_c V_u + B_c B_u + S_c S_u$$

Where;

C_u	=	Total user charge per unit of time.
V_c	=	Total cost for transportation and treatment of a unit of wastewater volume.
V_u	=	Volume contribution per unit of time.
B_c	=	Total cost for treatment of a unit of biochemical oxygen demand (BOD).
B_u	=	Total BOD contribution for a user per unit of time.
S_c	=	Total cost of treatment of a unit of suspended solids.
S_u	=	Total suspended solids contribution from a user per unit of time.

(6) Surcharge fees. If it is determined by the city that the discharge of other loading parameters or wastewater substances are creating excessive operation and maintenance costs within the wastewater system, whether collection or treatment, then the monetary effect of such a parameter or parameters shall be borne by the discharge of such parameters in proportion to the amount of discharge.

(7) Industrial wastewater discharge permit fees. A fee may be charged for the issuance of an industrial wastewater discharge fee in accordance with § 18-210 of this chapter.

(8) Fees for industrial discharge monitoring. Fees may be collected from industrial users having pretreatment or other discharge requirements to compensate the city for the necessary compliance monitoring and other administrative duties of the pretreatment program.

(9) Billing. The billing for normal domestic wastewater services shall consist of monthly billing in accordance with the rates specified by the city,

subject to net and gross rates. (Ord. #59, June 1983, as replaced by Ord. #01-09-01, Oct. 2001)

18-216. Validity. (1) All ordinances or parts of ordinances in conflict here with are hereby repealed.

and Disposal Fields." A minimum liquid depth of four (4) feet should be provided with a minimum depth of air space above the liquid of one (1) foot. The septic tank dimensions should be such that the length from inlet to outlet is at least twice but not more than three (3) times the width. The liquid depth should not exceed five (5) feet. The discharge from the septic tank shall be disposed of in such a manner that it may not create a nuisance on the surface of the ground or pollute the underground water supply, and such disposal shall be in accordance with recommendations of the health officer as determined by acceptable soil percolation data;

(6) "Sanitary pit privy." A privy having a fly-tight floor and seat over an excavation in earth, located and constructed in such a manner that flies and animals will be excluded, surface water may not enter the pit, and danger of pollution of the surface of the ground or the underground water supply will be prevented;

(7) "Other approved method of sewage disposal." Any privy, chemical toilet, or other toilet device (other than a sanitary sewer, septic tank, or sanitary pit privy as described above) the type, location, and construction of which have been approved by the health officer;

(8) "Watercourse." Any natural or artificial drain which conveys water either continuously or intermittently.

18-302. Places required to have sanitary disposal methods. Every residence, building, or place where human beings reside, assemble, or are employed within the corporate limits shall be required to have a sanitary method for disposal of sewage and human excreta.

18-303. When a connection to the public sewer is required. Wherever an accessible sewer exists and water under pressure is available, approved plumbing facilities shall be provided and the wastes from such facilities shall be discharged through a connection to said sewer made in compliance with the requirements of the official responsible for the public sewerage system. On any lot or premise accessible to the sewer no other method of sewage disposal shall be employed.

18-304. When a septic tank shall be used. Wherever water carried sewage facilities are installed and their use is permitted by the health officer, and an accessible sewer does not exist, the wastes from such facilities shall be discharged into an approved septic tank system.

No septic tank or other water-carried sewage disposal system except a connection to a public sewer shall be installed without the approval of the health officer or his duly appointed representative. The design, layout, and construction of such systems shall be in accordance with specifications approved by the health officer and the installation shall be under the general supervision of the department of health.

18-305. Registration and records of septic tank cleaners, etc. Every person, firm, or corporation who operates equipment for the purpose of removing digested sludge from septic tanks, cesspools, privies, and other sewage disposal installations on private or public property must register with the health officer and furnish such records of work done within the corporate limits as may be deemed necessary by the health officer.

18-306. Use of pit privy or other method of disposal. Wherever a sanitary method of human excreta disposal is required under § 18-302 and water-carried sewage facilities are not used, a sanitary pit privy or other approved method of disposal shall be provided.

18-307. Approval and permit required for septic tanks, privies, etc. Any person, firm, or corporation proposing to construct a septic tank system, privy, or other sewage disposal facility, requiring the approval of the health officer under this chapter, shall before the initiation of construction obtain the approval of the health officer for the design and location of the system and secure a permit from the health officer for such system.

18-308. Owner to provide disposal facilities. It shall be the duty of the owner of any property upon which facilities for sanitary sewage or human excreta disposal are required by § 18-302, or the agent of the owner to provide such facilities.

18-309. Occupant to maintain disposal facilities. It shall be the duty of the occupant, tenant, lessee, or other person in charge to maintain the facilities for sewage disposal in a clean and sanitary condition at all times and no refuse or other material which may unduly fill up, clog, or otherwise interfere with the operation of such facilities shall be deposited therein.

18-310. Only specified methods of disposal to be used. No sewage or human excreta shall be thrown out, deposited, buried, or otherwise disposed of except by a sanitary method of disposal as specified in this chapter.

18-311. Discharge into watercourses restricted. No sewage or excreta shall be discharged or deposited into any lake or watercourse except under conditions specified by the health officer and specifically authorized by the Tennessee Stream Pollution Control Board.

18-312. Pollution of ground water prohibited. No sewage, effluent from a septic tank, sewage treatment plant, or discharges from any plumbing facility shall empty into any well, cistern, sinkhole, crevice, ditch, or other opening either natural or artificial, in any formation which may permit the pollution of ground water.

18-313. Enforcement of chapter. It shall be the duty of the health officer to make an inspection of the methods of disposal of sewage and human excreta as often as is considered necessary to insure full compliance with the terms of this chapter. Written notification of any violation shall be given by the health officer to the person or persons responsible for the correction of the condition, and correction shall be made within forty-five (45) days after notification. If the health officer shall advise any person that the method by which human excreta and sewage is being disposed of constitutes an immediate and serious menace to health, such person shall at once take steps to remove the menace. Failure to remove such menace immediately shall be punishable under the general penalty clause for this code. However, such person shall be allowed the number of days herein provided within which to make permanent correction.

18-314. Carnivals, circuses, etc. Whenever carnivals, circuses, or other transient groups of persons come within the corporate limits, such groups of transients shall provide a sanitary method for disposal of sewage and human excreta. Failure of a carnival, circus, or other transient group to provide such sanitary method of disposal and to make all reasonable changes and corrections proposed by the health officer shall constitute a violation of this section. In these cases the violator shall not be entitled to the notice of forty-five (45) days provided for in the preceding section.

18-315. Violations. Any person, persons, firm, association, or corporation or agent thereof, who shall fail, neglect, or refuse to comply with the provisions of this chapter shall be deemed guilty of a misdemeanor and shall be punishable under the general penalty clause for this code.

CHAPTER 4

SECTION

- 18-401. Definitions.
- 18-402. Standards.
- 18-403. Construction, operation, and supervision.
- 18-404. Statement required.
- 18-405. Inspections required.

18-401. Definitions. The following definitions and terms shall apply in the interpretation and enforcement of this chapter:

(1) "Public water supply." The waterworks system furnishing water to the Town of Oakland for general use and which supply is recognized as the public water supply by the Tennessee Department of Health.

(2) "Cross connection." Any physical connection whereby the public water supply is connected with any other water supply system, whether public or private, either inside or outside of any building or buildings, in such manner that a flow of water into the public water supply is possible either through the manipulation of valves or because of any other arrangement.

(3) "Auxiliary intake." Any piping connection or other device whereby water may be secured from a source other than that normally used.

(5) "Interconnection." Any system of piping or other arrangement whereby the public water supply is connected directly with a sewer, drain, conduit, pool, storage reservoir, or other device which does or may contain sewage or other waste or liquid which would be capable of imparting contamination to the public water supply.

(6) "Person." Any and all persons, natural or artificial, including any individual firm, or association, and any municipal or private corporation

organized or existing under the laws of this or any other state or country. (Ord. #56, Sept. 1981)

18-402. Standards. The Oakland Public Water Supply is to comply with Tennessee Code Annotated, §§ 68-221-701 through 68-221-720 as well as the Rules and Regulations for Public Water Supplies, legally adopted in accordance with this code, which pertain to cross connections, auxiliary intakes, bypasses, and interconnections, and establish an effective ongoing program to control these undesirable water uses. (Ord. #56, Sept. 1981)

18-403. Construction, operation, and supervision. It shall be unlawful for any person to cause a cross connection to be made; or allow one to exist for any purpose whatsoever unless the construction and operation of same have been approved by the Tennessee Department of Health, and the operation of such cross connection, auxiliary intake, bypass or interconnection is at all times under the direct supervision of the superintendent of the Oakland Water Supply. (Ord. #56, Sept. 1981)

18-404. Statement required. Any person whose premises are supplied with water from the public water supply, and who also has on the same premises a separate source of water supply or stores water in an uncovered or unsanitary storage reservoir from which the water stored therein is circulated through a piping system, shall file with the superintendent a statement of the non-existence of unapproved or unauthorized cross connections, auxiliary intakes, bypasses, or interconnections. Such statement shall also contain an agreement that no cross connection, auxiliary intake, bypass, or interconnection will be permitted upon the premises. (Ord. #56, Sept. 1981)

18-405. Inspections required. It shall be the duty of the superintendent of the public water supply to cause inspections to be made of all properties served by the public water supply where cross connections with the public water supply are deemed possible. The frequency of inspections and reinspection based on potential health hazards involved, shall be established by the superintendent of the Oakland Public Water Supply and as approved by the Tennessee Department of Health. (Ord. #56, Sept. 1981)

18-406. Right of entry for inspections. The superintendent or his authorized representative shall have the right to enter at any reasonable time, any property served by a connection to the Oakland Public Water Supply for the purpose of inspecting the piping system or systems therein for cross connections, auxiliary intakes, bypasses, or interconnections. On request, the owner, lessee, or occupant of any property so served shall furnish to the inspection agency any pertinent information regarding the piping system or systems on such property.

The refusal of such information or refusal of access, when requested, shall be deemed evidence of the presence of cross connections. (Ord. #56, Sept. 1981)

18-407. Correction of existing violations. Any person who now has cross connections, auxiliary intakes, bypasses, or interconnections in violation of the provisions of this chapter shall be allowed a reasonable time within which to comply with the provisions of this chapter. After a thorough investigation of existing conditions and an appraisal of the time required to complete the work, the amount of time shall be designated by the superintendent of the Oakland Public Water Supply.

The failure to correct conditions threatening the safety of the public water system as prohibited by this chapter and the Tennessee Code Annotated, § 68-221-711, within a reasonable time and within the time limits set by the Oakland Public Water Supply shall be grounds for denial of water service. If proper protection has not been provided after a reasonable time, the utility shall give the customer legal notification that water service is to be discontinued, and physically separate the public water supply from the customer's on-site piping system in such a manner that the two systems cannot again be connected by an unauthorized person.

Where cross connections, interconnections, auxiliary intakes, or bypasses are found that constitute an extreme hazard of immediate concern of contaminating the public water system, the management of the water supply shall require that immediate corrective action be taken to eliminate the threat to the public water system. Immediate steps shall be taken to disconnect the public water supply from the on-site piping system unless the imminent hazard(s) is (are) corrected immediately. (Ord. #56, Sept. 1981)

18-408. Use of protective devices. Where the nature of use of the water supplied a premises by the water department is such that it is deemed:

- (1) Impractical to provide an effective air-gap separation,
- (2) That the owner and/or occupant of the premises cannot, or is not willing, to demonstrate to the official in charge of the water supply, or his designated representative, that the water use and protective features of the plumbing are such as to propose no threat to the safety or potability of the water supply,
- (3) That the nature and mode of operation within a premises are such that frequent alterations are made to the plumbing,
- (4) There is a likelihood that protective measures may be subverted, altered, or disconnected.

The superintendent of the Oakland Public Water Supply, or his designated representative, shall require the use of an approved protective device on the service line serving the premises to assure that any contamination that may originate in the customer's premises is contained therein. The protective devices shall be a reduced pressure zone type backflow preventer approved by

the Tennessee Department of Health as to manufacture, model, and size. The method of installation of backflow protective devices shall be approved by the superintendent of the public water supply prior to installation and shall comply with the criteria set forth by the Tennessee Department of Health. The installation shall be at the expense of the owner or occupant of the premises.

Personnel of the Oakland Public Water Supply shall have the right to inspect and test the device or devices on an annual basis or whenever deemed necessary by the superintendent, or his designated representative. Water service shall not be disrupted to test the device without the knowledge of the occupant of the premises.

Where the use of water is critical to the continuance of normal operations or protection of life, property, or equipment, duplicate units shall be provided to avoid the necessity of discontinuing water service to test or repair the protective device or devices. Where it is found that only one unit has been installed and the continuance of service is critical, the superintendent shall notify, in writing, the occupant of the premises of plans to discontinue water service and arrange for a mutually acceptable time to test and/or repair the device. The water supply shall require the occupant of the premises to make all repairs indicated promptly, to keep the unit(s) working properly, and the expense of such repairs shall be borne by the owner or occupant of the premises. Repairs shall be made by qualified personnel acceptable to the superintendent of the Oakland Public Water Supply.

The failure to maintain backflow prevention device(s) in proper working order shall be grounds for discontinuing water service to a premises. Likewise, the removal, bypassing, or altering of the protective device(s) or the installation thereof so as to render the device(s) ineffective shall constitute grounds for discontinuance of water service. Water service to such premises shall not be restored until the customer has corrected or eliminated such conditions or defects to the satisfaction of the Oakland Public Water Supply. (Ord. #56, Sept. 1981)

18-409. Unpotable water to be labeled. The potable water supply made available to premises served by the public water supply shall be protected from possible contamination as specified herein. Any water outlet which could be used for potable or domestic purposes and which is not supplied by the potable system must be labeled in a conspicuous manner as:

WATER UNSAFE

FOR DRINKING

The minimum acceptable sign shall have black letters at least one-inch high located on a red background. (Ord. #56, Sept. 1981)

18-410. Violations. The requirements contained herein shall apply to all premises served by the Oakland Water System whether located inside or outside the corporate limits and are hereby made a part of the conditions required to be met for the town to provide water services to any premises. Such action, being essential for the protection of the water distribution system against the entrance of contamination which may render the water unsafe healthwise, or otherwise undesirable, shall be enforced rigidly without regard to location of the premises, whether inside or outside the Oakland Corporate Limits.

Any person who neglects or refuses to comply with any of the provisions of this chapter shall be deemed guilty of a misdemeanor and, upon conviction therefor, shall be fined not less than ten dollars (\$10.00) nor more than one hundred dollars (\$100.00), and each day of continued violation after conviction shall constitute a separate offense. (Ord. #56, Sept. 1981)

CHAPTER 2

PUBLIC RECORDS POLICY

SECTION

20-201. Procedures regarding access to and inspection of public records.

20-201. Procedures regarding access to an inspection of public records. Consistent with the Public Records Act of the State of Tennessee, personnel of the Town of Oakland shall provide full access and assistance in a timely and efficient manner to Tennessee residents who request access to public documents.

(1) Employees of the Town of Oakland shall protect the integrity and organization of public records with respect to the manner in which the records are inspected and copied. All inspections of records must be performed under the supervision of the town recorder as records custodian, or the town recorder's designee. All copying of public records must be performed by employees of the town during regular business hours, or, in the event that town personnel are unable to copy the records, by an entity or person designated by the town recorder.

(2) To prevent excessive disruptions of the work, essential functions, and duties of employees of the Town of Oakland, persons requesting inspection and/or copying of public records are required to complete a records request form to be furnished by the town and furnish a government issued photo identification upon request. Persons requesting access to open public records shall describe the records with specificity so that the records may be located and made available for public inspection or duplication, as provided in subsection (1) above. All requests for public records shall be directed to the town recorder. The statutory time frame for responding to the request is not triggered until the request is made by the requestor to the records custodian.

(3) When records are requested for inspection or copying, the records custodian has up to seven (7) business days to determine whether the town can retrieve the records requested and whether the requested records contain any confidential information, and the estimated charge for copying based upon the number of copies and amount of time required. Within seven (7) business days of a request for records the records custodian shall:

- (a) Produce the records requested;
- (b) Deny the records in writing, giving explanation for denial;

or

(c) In the case of voluminous requests, provide, in writing, the requestor with an estimated time frame for production and an estimation of duplication costs.

(4) There is no charge assessed to a requester for inspecting a public record. Charges for physical copies of records, in accordance with the Office of Open Records Counsel (OORC) schedule of reasonable charges, are as follows:

(a) Standard 8 1/2 x 11 or 8 1/2 x 14 black and white copy - \$.15 per page for each produced.

(b) Standard 8 1/2 x 11 or 8 1/2 x 14 color copy - \$.50 per page for each produced.

(c) Accident reports - \$.15 per page for each standard 8 1/2 x 11 or 8 1/2 x 14 black and white copy produced.

(c) Accident reports - \$.50 per page for each standard 8 1/2 x 11 or 8 1/2 x 14 color copy produced.

(d) Maps, plats, electronic data, audio discs, video discs, and all other materials shall be duplicated at actual cost to the town. The medium for transfer must be provided by requestor and compatible with town electronic equipment.

(e) If the actual costs are higher than those reflected above, or if the requested records are being produced on a medium other than those listed above, the records custodian may develop its own charges based on actual costs.

(f) Waivers may be permitted for copies of current agendas, minutes from meetings held the previous calendar month, and copies of resolutions or ordinances on current agenda as determined by the records custodian.

(5) Requests requiring less than one (1) hour of municipal employee labor for research, retrieval, redaction and duplication will not result in an assessment of labor charges to the requestor. Employee labor in excess of one (1) hour may be charged to the requestor, in addition to the cost per copy, as provided in subsection (4). The records custodian may require payment in advance of producing any request. Requests for copies of records may not be broken down to multiple requests for the same information in order to qualify for the first free hour.

(a) For a request requiring more than one (1) employee to complete, labor charges will be assessed based on the following formula: In calculating the charge for labor, a department head shall determine the number of hours each employee spent producing a request. The department head shall then subtract the one (1) hour threshold from the number of hours the highest paid employee(s) spent producing the request. The department head will then multiply total number of hours to be charged for the labor of each employee by that employee's hourly wage. Finally, the department head will add together the totals for all the employees involved in the request and that will be the total amount of labor that can be charged.

(b) When the total number of requests made by requestor within a calendar month exceeds four (4), the requests will be aggregated, and the requestor shall be charged a fee for any and all labor that is reasonably necessary to produce the copies of the requested records after informing the requestor that the aggregation limit has been met. Request

for items that are routinely released and readily accessible, such as agendas for current calendar month meetings and approved minutes from meetings held in the previous calendar month, shall not be counted in the aggregated requests.

(6) If the town is assessed a charge to retrieve the requested records from archives or any other entity having possession of requested records, the records custodian may assess the requestor the cost assessed to the town.

(7) Upon completion of a records request the requestor may pick up the copies of records at the office of the records custodian. Alternatively, the requestor may choose to have the copies of records delivered via United States Postal Service; provided that the requestor pays all related expenses in advance.

(8) The police chief shall maintain in his office records of undercover investigators containing personally identifying information. All other personnel records of the police department shall be maintained in the office of the records custodian. The police department shall maintain its own personnel records only if under the supervision of a highly trained records custodian as determined by the town recorder as the official town record custodian. Requests for personnel records other than for undercover investigators, shall be made to the records custodian, who shall promptly notify the police chief of such request. The police chief shall make the final determination as to the release the information requested. In the event that the police chief refuses to release the information, he shall provide a written explanation of his reasons for not releasing the information.

(9) If the public records requested are frail due to age or other conditions, and copying of the records will cause damage to the original records, the requesting party may be required to make an appointment for inspection. (as added by Ord. #13-20, Dec. 2013)

Alarm systems include, but are not limited to, direct dialing telephone devices, audible alarms and monitored alarms. Excluded from the definition of alarm systems are devices which are designed or used to register alarms that are audible or visible and emanate from any motor vehicle; auxiliary devices installed by telephone companies to protect telephone systems from damage or disruption of service; self-contained smoke detectors; and medical alert alarms.

20-303. Automatic dialing devices. (1) Within one hundred twenty (120) days of the effective date of the ordinance enacting this chapter, it shall be a violation of this chapter for any automatic dialing device to call the 911 or E911 emergency line. Such devices shall be restricted to dialing the non-emergency police, fire or Emergency Medical Services phone numbers.

(2) Any automatic dialing device shall:

(a) Have a clearly understandable recording;

(b) Be capable of repeating itself a minimum of two (2) times;

(c) Be capable of automatically resetting itself so as to not continuously call police, fire or EMS phone numbers.

(3) Programmed messages on an automatic dialing device must include and are restricted to the following:

(a) The owner's/resident's names and the exact street number and name;

WHEREAS some of the other ordinances of the town are inconsistent with each other or are otherwise inadequate, and

WHEREAS the Board of Mayor and Aldermen of the Town of Oakland, Tennessee, has caused its ordinances of a general, continuing, and permanent application or of a penal nature to be codified and revised and the same are embodied in a code of ordinances known as the "Oakland Municipal Code," now, therefore:

BE IT ORDAINED BY THE BOARD OF MAYOR AND ALDERMEN OF THE TOWN OF OAKLAND, TENNESSEE, THAT:

Section 1. Ordinances codified. The ordinances of the town of a general, continuing, and permanent application or of a penal nature, as codified and revised in the following "titles," namely "titles" 1 to 20, both inclusive, are ordained and adopted as the "Oakland Municipal Code," hereinafter referred to as the "municipal code."

Section 5. Penalty clause. Unless otherwise specified in a title, chapter or section of the municipal code, including the codes and ordinances adopted by reference, whenever in the municipal code any act is prohibited or is made or declared to be a civil offense, or whenever in the municipal code the doing of any act is required or the failure to do any act is declared to be a civil offense, the violation of any such provision of the municipal code shall be punished by a civil penalty of not more than five hundred dollars (\$500.00) and costs for each separate violation; provided, however, that the imposition of a civil penalty under the provisions of this municipal code shall not prevent the revocation of any permit or license or the taking of other punitive or remedial action where called for or permitted under the provisions of the municipal code or other applicable law. The board of mayor and aldermen, by motion or resolution, shall fix, and change from time to time as considered necessary, the prices to be charged for copies of the municipal code and revisions thereto. After adoption of the municipal code, each ordinance affecting the code shall be adopted as amending, adding, or deleting, by numbers, specific chapters or sections of said code. Periodically thereafter all affected pages of the municipal code shall be revised to reflect such amended, added, or deleted material and shall be distributed to town officers and employees having copies of said code and to other persons who have requested and paid for current revisions. Notes shall be inserted at the end of amended or new sections, referring to the numbers of ordinances making the amendments or adding the new provisions, and such references shall be cumulative if a section is amended more than once in order that the current copy of the municipal code will contain references to all ordinances responsible for current provisions. One copy of the municipal code as originally adopted and one copy of each amending ordinance thereafter adopted shall be furnished to the Municipal Technical Advisory Service immediately upon final passage and adoption.

Section 8. Construction of conflicting provisions. Where any provision of the municipal code is in conflict with any other provision in said code, the provision which establishes the higher standard for the promotion and protection of the public health, safety, and welfare shall prevail.
