¹State law reference

This chapter was patterned substantially after the ordinance upheld by the Tennessee Supreme Court in the case of City of Paris, Tennessee v. Paris-Henry County Public Utility District, 207 Tenn. 388, 340 S.W.2d 885 (1960).

agreement that the applicant will comply with all ordinances and laws relating to the work to be done. Such applications shall be rejected or approved by the recorder within twenty-four (24) hours or its filing. (1969 Code, § 12-102, as replaced by Ord. #16-200, Sept. 2017 *Ch4_10-2-18*)

16-203. Fee. The fee of twenty-five dollars (\$25.00) for such permits shall be charged by the city for the issuance of a permit for excavations which do not exceed twenty five (25) square feet in area or tunnels not exceeding twenty-five (25) square feet in length; and twenty-five cents (\$.25) for each additional square foot in the case of excavations, or lineal foot in the case or tunnels. (1969 Code, § 12-103, as replaced by Ord. #16-200, Sept. 2017 *Ch4_10-2-18*)

16-204. Deposit or bond. No such permit shall be issued unless and until the applicant therefore has deposited with the recorder a bond or a cash deposit of five thousand dollars (\$5,000.00) when they are digging or cutting across roads. Where the amount of the deposit is clearly inadequate to cover the cost of restoration, the recorder may increase the amount of the deposit to an amount considered by him to be adequate to cover the said cost. From this deposit shall be deducted the expense to the municipality of relaying the surface of the ground or pavement, and of making the refill if this is done by the municipality or at its expense. The balance shall be returned to the applicant without interest after the tunnel or excavation is completely refilled and the surface or pavement is restored.

In lieu of a deposit the applicant may deposit with the recorder a surety bond in such form and amount as the recorder shall deem adequate to cover the costs to the municipality if the applicant fails to make proper restoration. Tennessee Code Annotated, § 12-4-201 requires the bonds given on all public works projects over one hundred thousand dollars (\$100,000.00) to be at least twenty-five percent (25%) of the contract price. (1969 Code, § 12-104, as replaced by Ord. #16-200, Sept. 2017 *Ch4_10-2-18*)

Sufficient and proper barricades and lights shall be maintained to protect persons and property from injury by or because of a the excavation being made. If any sidewalk is blocked by any such work, a temporary sidewalk shall be constructed land provided which shall be safe for travel and convenient for users. (1969 Code, § 12-105, as replaced by Ord. #16-200, Sept. 2017 *Ch4_10-2-18*)

16-206. Restoration of streets, etc. Any person, firm, corporation, association, or others making any excavation or tunnel in or under any street,

alley, or public place in this municipality shall restore said street, alley, or public place in this municipality shall restore said street, alley, or public place to its original condition except for the surfacing, which shall be done by the municipality, but shall be paid for by such person, firm, corporation, association, or others promptly upon the completion of the work for which the excavation or tunnel was made. In case of unreasonable delay in restoring the street, alley or public place, the recorder shall give notice to the person, firm, corporation, association, or others that unless the excavation or tunnel is refilled properly within a specified reasonable period of time, the municipality will do the work and charge the expense of doing the same to such person, firm, corporation, association, or others. If within the specified time the conditions of the above notice have not been complied with, the work shall be done by the municipality, an accurate account of the expense involved shall be kept, and the total cost shall be charged to the person, firm, corporation, association, or others who made the excavation or tunnel. (1969 Code, § 12-106, as replaced by Ord. #16-200, Sept. 2017 *Ch4_10-2-18*)

16-207. Insurance. In addition to making the deposit or giving the bond herein before required to insure that proper restoration is made, each person applying for an excavation permit shall file a certificate of insurance indicating that he is insured against claims for damages for personal injury as well as against claims for property damage which may arise from or out of the performance of the work, whether such performance be by himself, his subcontractor, or anyone directly or indirectly employed by him. Such insurance shall cover collapse, explosive hazards, and underground work by equipment on the street, and shall include protection against liability arising from completed operations. The amount of the insurance shall be presented by the recorder in accordance with the nature of the risk involved; provided, however, that the liability insurance for bodily injury shall not be less than one hundred thousand dollars (\$100,000.00) for each person and one million dollars (\$1,000,000.00) for each accident, and for property damages not less than seventy-five thousand dollars (\$75,000.00) for any one (1) accident, and a three hundred thousand dollar (\$300,000.00) aggregate. (1969 Code, § 12-107, as replaced by Ord. #16-200, Sept. 2017 *Ch4_10-2-18*)

16-208. Time limits. Each application for a permit shall state the length of time it is estimated will elapse from the commencement of the work until the restoration of the surface of the ground or pavement, or until the refill is made ready for the pavement to be put on by the municipality if the municipality restores such surface pavement. It shall be unlawful to fail to comply with this time limitation unless permission for an extension of time is granted by the recorder. (1969 Code, § 12-108, as replaced by Ord. #16-200, Sept. 2017 *Ch4_10-2-18*)

16-209. Supervision. The recorder or appointee shall from time to time inspect all excavations and tunnels being made in or under any public street, alley, or other public place in the municipality and see to the enforcement of the provisions of this chapter. Notice shall be given to him at least ten (10) hours before the work of refilling any such excavation or tunnel commences. (1969 Code, § 12-109, as replaced by Ord. #16-200, Sept. 2017 *Ch4_10-2-18*)

16-210. Driveway curb cuts. No one shall cut, build, or maintain a driveway across a curb or sidewalk without first obtaining a permit from the recorder. Such a permit will not be issued when the contemplated driveway is to be so located or constructed as to create an unreasonable hazard to pedestrian and/or vehicular traffic. No driveway shall exceed thirty-five feet (35') in width at its outer or street edge and when two (2) or more adjoining driveways are provided for the same property a safety island of not less than ten feet (10') in width at its outer or street edge shall be provided. Driveway aprons shall not extend out into the street. (1969 Code, § 12-110, as replaced by Ord. #16-200, Sept. 2017 *Ch4_10-2-18*)
