(13) Issuance of citation or complaint after investigation at scene of accident or place of violation. All the procedures enumerated in this division as to giving citations or complaints in lieu of making arrests and taking out warrants, shall also apply when the officer as designated in section 15-201(8), makes a personal investigation at the scene of a traffic accident, or makes a personal investigation at the place of violation, as a result of which the officer has reasonable and probable grounds to believe that the driver of any vehicle involved in the accident has violated any traffic ordinance, law or regulation of the city; or in the case of violations other than traffic accidents, the officer has reasonable and probable grounds to believe that the owner or occupant of property involved in a violation has violated any ordinance, law or regulation of the city.

(c) If the driver fails to appear in court in answer to the charge filed against him, the clerk or judge accepting the license shall thereafter forward to the state department of safety the license of the driver deposited in lieu of bail, which license shall not be released by the state department of safety until so notified, that the charge for which such license was so deposited has been disposed of by the city.

(d) The licensee shall have his chauffeur's or operator's license in his immediate possession at all times when driving a motor vehicle and shall display it upon demand of any officer of the city except that where the licensee has previously deposited his chauffeur's or operator's license with the officer or court demanding bail, and has received a receipt from the officer or the court, the same shall serve as a substitute for the license until the specified date for court appearance of licensee or the license is otherwise returned to the licensee by the officer or court accepting the same for deposit. (2) No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction, unless such left side is clearly visible and is free from oncoming traffic for a sufficient distance ahead, to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to the right-hand side of the roadway before coming within one hundred (100) feet of any vehicle approaching from the opposite direction.

(3) No vehicle shall at any time be driven to the left side of the roadway under the following conditions:

(3) Official signs may be erected directing a slow-moving traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction, regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such sign.

(4) Where passing is unsafe because of traffic in the opposite direction or other conditions, a slow-moving vehicle, including a passenger vehicle, behind which five or more vehicles are formed in line, shall turn or pull off the roadway wherever sufficient area exists to do so safely, in order to permit vehicles following it to proceed. A slow-moving vehicle is one which is proceeding at a rate of speed which is ten miles per hour or more below the lawful maximum speed for that particular roadway at that time. entered. Whenever practicable, the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(c) Left turns on other than two-way roadways. At any intersection where traffic is restricted to one direction on one or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme lefthand lane lawfully available to traffic moving in the direction of travel of such vehicle, and after entering the intersection, the left turn shall be made so as to leave the intersection, as nearly as practicable, in the lefthand lane lawfully available to traffic moving in such direction upon the roadway being entered.

(d) Two-way left turn lanes. Where a special lane for making left turns by drivers proceeding in opposite directions has been established:

(i) A left turn shall not be made from any other lane unless a vehicle cannot safely enter the turn lane.

(ii) A vehicle shall not be driven in the left turn lane except when preparing for or making a left turn from or into the roadway.

(iii) A vehicle shall not use the left turn lane solely for the purpose of passing another vehicle.

(iv) A vehicle shall not enter a left turn lane more than a safe distance from the point of the intended turn.

(v) When any vehicle enters the turn lane, no other vehicle proceeding in an opposite direction shall enter that turn lane if such entrance would prohibit the vehicle already in the lane from making the intended turn.

(vi) When vehicles enter the turn lane proceeding in opposite directions, the first vehicle to enter the lane shall have the right-of-way.

(3) The driver of any truck, bus or any large vehicle which cannot comply with the provisions of subsection (2) of this section due to the size of the vehicle may use such additional portions of the street or roadway as may be necessary for a right turn; provided however, that the driver of such vehicle, before making such turn, shall first determine that this movement may be made in safety. State law references: Similar provisions, T.C.A. §§ 55-8-140, 55-8-142(a). (as added by Ord. #148-08, Oct. 2008)

15-325. Markers, buttons or signs regulating manner of making turns. Markers, buttons or signs may be placed within or adjacent to intersections by the city and thereby require and direct that a different course from that specified in § 15-341 be traveled by vehicles turning at an intersection, and when markers, buttons or signs are so placed, no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such

markers, buttons or signs. State law references: Similar provisions, T.C.A. § 55-8-140(4). (as added by Ord. #148-08, Oct. 2008)

15-327. Limitations on turning around. The driver of any vehicle shall not turn such vehicle so as to proceed in the opposite direction upon any street in the city, unless the opposing lanes are divided by a median at least twenty (20) feet wide. (as added by Ord. #148-08, Oct. 2008)

15-328. Signals for turns. (1) Every driver who intends to start, stop or turn, or partly turn from a direct line, shall first see that such movement can be made in safety, and whenever the operation of any other vehicle may be affected by such movement, shall give a signal required in this section, plainly visible to the driver of such other vehicle of the intention to make such movement.

(2) The signal required by this section shall be given by means of the hand and arm, or by some mechanical or electrical device approved by the department of safety, in the manner specified in this subsection. Whenever the signal is given by means of the hand and arm, the driver shall indicate the intention to start, stop, or turn, or partly turn, by extending the hand and arm from and beyond the left side of the vehicle, in the following manner:

(a) For left turn, or to pull to the left, the arm shall be extended in a horizontal position straight from and level with the shoulder;

(b) For right turn, or pull to the right, the arm shall be extended upward; and

(c) For slowing down or to stop, the arm shall be extended downward.

(3) Such signals shall be given continuously for a distance of at least 50 feet before stopping, turning, partly turning, or materially altering the course of the vehicle.

(4) Drivers having once given a hand, electrical or mechanical device signal, must continue the course thus indicated, unless they alter the original signal and take care that drivers of vehicles and pedestrians have seen and are aware of the change.

(5) Drivers receiving a signal from another driver shall keep their vehicles under complete control and shall be able to avoid an accident resulting from a misunderstanding of such signal.

(6) Drivers of vehicles, standing or stopped at the curb or edge before moving such vehicles, shall give signals of their intention to move into traffic, as provided in this section, before turning in the direction the vehicle shall

proceed from the curb. State law references: Similar provisions, T.C.A. § 55-8-143(a)-(c). (as added by Ord. #148-08, Oct. 2008)

15-329. Right-of-way when vehicle turning left at intersection.

The driver of a vehicle within an intersection intending to turn to the left shall yield the right-of-way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard, but the driver, having so yielded and having given a signal when and as required by this chapter may make such left turn and the drivers of all other vehicles approaching the intersection from the opposite direction shall yield the right-of-way to the vehicle making the left turn. State law references: Similar provisions, T.C.A. § 55-8-129. (as added by Ord. #148-08, Oct. 2008)

15-330. Procedure upon approach of authorized emergency vehicle.

(1) Upon the immediate approach of an authorized emergency vehicle making use of audible and visual signals meeting the requirements of the applicable laws of the state, or of a police vehicle properly and lawfully making use of an audible signal only, the driver of every other vehicle shall yield the right-of-way and shall immediately drive to a position parallel to, and as close as possible to, the righthand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer.

(2) This section shall not operate to relieve the driver of an emergency vehicle from the duty to drive with due regard for the safety of all persons using the street. State law reference: Similar provisions, T.C.A. § 55-8-132. (as added by Ord. #148-08, Oct. 2008)

(as added by Ord. #148-08, Oct. 2008)

15-332. Emerging from alley, driveway or building. The driver of a vehicle entering into a street, either from an alley, from a private road or driveway of a building, shall yield the right-of-way to all pedestrians on a sidewalk crossing such alley or driveway and to all vehicles approaching on such street, and it shall be the duty of the driver of every vehicle so entering a street to bring his vehicle to a stop and not enter therein until same may be done with safety and without danger to others using the street, and he shall proceed with caution. The driver of any vehicle leaving a street to enter an alley, private driveway or building, shall likewise yield the right-of-way to all pedestrians on any sidewalk crossing such alley or driveway, and when such driver is making

a left turn into any alley, private driveway, or a building, such driver shall yield the right-of-way to all vehicles approaching from the opposite direction. State law references: Similar provisions, T.C.A. § 55-8-150. (as added by Ord. #148-08, Oct. 2008)

Such requirements shall apply when:

(a) A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train;

(b) A crossing gate is lowered or when a human flagger gives or continues to give a signal of the approach or passage of a railroad train;

(c) A railroad train approaching within approximately one thousand five hundred (1,500) feet of the street crossing emits a signal audible from such distance, or when such railroad train, by reason of its speed or nearness to such crossing is an immediate hazard;

(d) An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.

(2) No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed. State law reference: Similar provisions, T.C.A. § 55-8-145. (as added by Ord. #148-08, Oct. 2008)

(3) For the purpose of subsection (1) of this section, the term "separate roadways" means roadways divided by an intervening space which is not suitable to vehicular traffic.

(4) Except as otherwise provided by subsections (1)--(3) of this section, the school bus driver is required to stop such school bus on the righthand side of such road or highway, and the driver shall cause the bus to remain stationary and the visual stop signs on the bus actuated, until all school children who should be discharged from the bus have been so discharged and until all children whose destination causes them to cross the road or highway at that place have negotiated such crossing.

(5) The driver of a vehicle on a highway upon meeting or overtaking from either direction any church bus which has stopped on the highway for the

purpose of receiving or discharging passengers shall stop the vehicle before reaching such church bus, and the driver shall not proceed until such church bus resumes motion or is signaled by the church bus driver to proceed or the visual signals on the bus are no longer actuated. necessary. (as added by Ord. #66-05, Aug. 2005, as replaced by Ord. #148-08, Oct. 2008)

15-404. Establishment of safety zones. The city shall establish safety zones of such kind and character and at such places as may be deemed necessary for the protection of pedestrians. (as added by Ord. #66-05, Aug. 2005, as replaced by Ord. #148-08, Oct. 2008)

5-405. Marking traffic lanes. The city shall mark traffic lanes upon the roadway of any street where a regular alignment of traffic is necessary as designated by the city. (as added by Ord. #66-05, Aug. 2005, as replaced by Ord. #148-08, Oct. 2008)

15-406. Controlled-access roadways. The city may, with respect to any controlled-access roadway under the city's jurisdiction, prohibit the use of any such roadway by pedestrians, bicycles or other non-motorized traffic or by any person operating a motor-driven cycle. Such prohibition shall be indicated by appropriate signs erected by the city and, when so erected, no person shall disobey the restrictions stated on such signs. State law references: Authority for this section, T.C.A. § 55-8-127. (as added by Ord. #148-08, Oct. 2008)

15-407. Obedience to devices. Whenever a particular section does not state that signs are required, such section shall be effective even though no signs are erected or in place. State law references: Similar provisions, T.C.A. § 55-8-109(b). (as added by Ord. #148-08, Oct. 2008)

15-409. Traffic control signals. (1) Whenever traffic is controlled by traffic control signals exhibiting the words "go," "caution" or "stop," or exhibiting different colored lights successively one at a time, or with arrows, the following colors only shall be used and the terms and lights shall indicate and apply to drivers or vehicles and pedestrians as follows:

- (a) Green alone or "go".

(i) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(ii) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.

(b) Yellow alone or "caution," when shown following the green or "go" signal.

(i) Vehicular traffic facing the signal is thereby warned that the red or "stop" signal will be exhibited immediately thereafter and such vehicular traffic shall not enter or cross the intersection when the red or "stop" signal is exhibited.

(ii) Pedestrians facing such signal are thereby advised that there is insufficient time to cross the roadway, and any pedestrian then starting to cross shall yield the right-of-way to all vehicles.

(c) Red alone or "stop".

(i) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "go" is shown alone. A right turn on a red signal shall be permitted at all intersections within the state; provided, however, that the prospective turning car shall come to a full and complete stop before turning and that the turning car shall yield the right-of-way to pedestrians and cross traffic traveling in accordance with their traffic signal. However, such turn will not endanger other traffic lawfully using the intersection. A right turn on red shall be permitted at all intersections, except that are clearly marked by a "no turns on red" sign, which may be erected by the responsible municipal or county governments at intersections which they decide require no right turns on red in the interest of traffic safety.

(ii) No pedestrian facing such signal shall enter the roadway unless such entry can be made safely and without interfering with any vehicular traffic.

(iii) A left turn on a red or stop signal shall be permitted at all intersections within the state where a one-way street intersects with another one-way street moving in the same direction into which the left turn would be made from the original one-way street. Before making such a turn, the prospective turning car shall come to a full and complete stop and shall yield the right-of-way to pedestrians and cross traffic traveling in

accordance with the traffic signal so as not to endanger traffic lawfully using the intersection. A left turn on red shall be permitted at any applicable intersection except that clearly marked by a "no turn on red" sign, which may be erected by the responsible municipal or county governments at intersections which such governments decide require no left turns on red in the interest of traffic safety.

(c) Red with green arrow.

(i) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow, but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

(ii) No pedestrian facing such signal shall enter the roadway unless such entry can be made safely and without interfering with any vehicular traffic.

(2) If an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal. State law references: Similar provisions, T.C.A. § 55-8-110. (as added by Ord. #148-08, Oct. 2008)

15-410. Flashing signals. Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal it shall require obedience by vehicular traffic as follows:

(1) **Flashing red (stop signal).** When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or, if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(2) **Flashing yellow (caution signal).** When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution. State law references: Similar provisions, T.C.A. § 55-8-112. (as added by Ord. #148-08, Oct. 2008)

15-411. Pedestrian control signal. (1) Whenever special pedestrian control signals exhibiting the words "walk," "wait" or "don't walk" are in place, such signals shall indicate as follows:

(a) Walk. Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.

(b) Wait or don't walk. No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the walk signal shall proceed to a sidewalk or safety island while the wait signal is showing.

(2) When in the sequence of "walk," "wait" or "don't walk" signals, during an interval in which neither signal is illuminated, no pedestrian shall leave the curb and start crossing the roadway. When all motor vehicle traffic is stopped and a "walk" signal is displayed, pedestrians may cross the intersection diagonally. State law references: Similar provisions, T.C.A. § 55-8-111. (as added by Ord. #148-08, Oct. 2008)

15-412. Unauthorized signs, signals or devices. (1) No person shall place, maintain or display upon or in view of any street any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic control device or railroad sign or signal, or which attempts to direct the parking or movement of traffic, or which hides from view or interferes with the effectiveness of any official traffic control device or any railroad sign or signal. No person shall place or maintain, nor shall any public authority permit, upon any street any traffic sign or signal bearing thereon any commercial advertising. This section shall not be deemed to prohibit the erection, upon private property adjacent to highways, of signs giving useful directional information and of a type that cannot be mistaken for official signs.

(2) Every such prohibited sign, signal or marking is hereby declared to be a public nuisance, and the city is hereby empowered to remove the same or cause it to be removed without notice. State law references: Similar provisions, T.C.A. § 55-8-113. (as added by Ord. #148-08, Oct. 2008)

15-413. Altering, injuring or removal of devices. No person shall, without lawful authority, attempt to or in fact alter, deface, injure, knock down or remove any official traffic control device or any railroad sign or signal or any inscription, shield or insignia, or any other part of such device, sign or signal. State law references: Similar provisions, T.C.A. § 55-8-114. (as added by Ord. #148-08, Oct. 2008)

(1) "Abandoned vehicle" means any motor vehicle to which the last registered owner of record has relinquished all further dominion and control and/or any vehicle which is wrecked or partially dismantled or inoperable for a period of ten days. There shall be a presumption that the last registered owner has abandoned such vehicle, regardless of whether the physical possession of such vehicle remains in the technical custody of such owner, if it has remained inoperable or partially dismantled, or if the owner has relinquished dominion or control of such vehicle for ten days.

15-602. Declared a public nuisance. The accumulation and storage of abandoned, wrecked, junked, partially dismantled or inoperable motor vehicles on public and private property is hereby found to create an unsightly

condition upon the property tending to reduce the value thereof, to invite plundering, to create fire hazards, and to constitute an attractive nuisance creating a hazard to the health and safety of minors. Such accumulation and storage of vehicles is further found to promote urban blight and deterioration in the community; to violate the zoning regulations of the city in many instances, particularly where such vehicles are maintained in the required yard areas of residential property; and that such wrecked, junked, abandoned or partially dismantled or inoperable motor vehicles are in the nature of rubbish, litter and unsightly debris in violation of health and sanitation laws. 15-603. Storage on public or private property. No person shall park, store, leave or permit the parking, storing or leaving of any motor vehicle which is in a rusted, wrecked, junked, partially dismantled, inoperable or abandoned condition upon any property within the city for a period in excess of ten (10) days unless such vehicle is completely enclosed within a building or unless such vehicle is so stored or parked on the property in connection with a duly licensed business or commercial enterprise, operated and conducted pursuant to law, when such parking or storing of vehicles is necessary to the operation of the business or commercial enterprise. Except for vehicles located on property of a duly licensed business a motor vehicle that does not have a current state registration license tag attached to the vehicle is an inoperable vehicle, and any motor vehicle that has a current state registration license tag but is mechanically incapable of being driven due to deflated tires, inoperative brakes, faulty or missing battery, frozen engine, defective transmission, broken starter, etc., is an inoperable vehicle and subject to the provisions of this section. Such notice shall be served upon the owner of the vehicle by leaving a copy of the notice on or within the vehicle. Notice to the owner or person in lawful possession or control of the property upon which such motor vehicle is located may be served by conspicuously posting the notice upon the premises. In the case of publicly-owned property, notice to the owner of the

property where the vehicle is found is hereby dispensed with. (as added by Ord. #66-05, Aug. 2005, as replaced by Ord. #148-08, Oct. 2008)

15-605. Failure to remove declared misdemeanor. The owner of any abandoned vehicle who fails, neglects or refuses to remove the vehicle or to house such vehicle and abate such nuisance in accordance with the notice given pursuant to the provisions of § 15-604 shall be guilty of a misdemeanor.
