13-201. Definitions. (1) "Junk" shall mean old or scrap copper, brass, rope, rags, batteries, paper, trash, rubber, debris, waste, or junked, dismantled, or wrecked automobiles, trucks, vehicles of all kinds, or parts thereof, iron, steel, and other old or scrap ferrous or nonferrous material.

(2) "Junkyard" shall mean an establishment or place of business which is maintained, operated, or used for storing, keeping, buying, or selling junk, or for the maintenance or operation of an automobile graveyard. This definition includes scrap metal processors, used auto parts yards, yards providing temporary storage of automobile bodies or parts awaiting disposal as a normal part of the business operation when the business will continually have like materials located on the premises, garbage dumps, sanitary landfills, and recycling centers.

(3) "Recycling center" means an establishment, place of business, facility or building which is maintained, operated, or used for the storing, keeping, buying, or selling of newspapers or used food or beverage containers or plastic containers for the purpose of converting such items into a usable product.

(4) "Person" means any individual, firm, agency, company, association, partnership, business trust, joint stock company, body politic, or corporation.

(5) "Screening" means the use of plantings, fencing, natural objects, and other appropriate means which screen any deposit of junk so that the junk is not visible from the highways and streets of the city. (Ord. #134, Nov. 1998)

13-202. Junkyard screening. Every junkyard shall be screened or otherwise removed from view by its owner or operator in such a manner as to bring the junkyard into compliance with this chapter. (Ord. #134, Nov. 1998)

13-203. Screening methods. The following methods and materials for screening are given for consideration only:

(1) Landscape planting. The planting of trees, shrubs, etc., of sufficient size and density to provide a year-round effective screen. Plants of the evergreen variety are recommended.

(2) Earth grading. The construction of earth mounds which are graded, shaped, and planted to a natural appearance.

(3) Architectural barriers. The utilization of:

(a) Panel fences made of metal, plastic, fiberglass, or plywood.

(b) Wood fences of verticle or horizontal boards using durable woods such as western cedar or redwood or others treated with a preservative.

(c) Walls of masonry, including plain or ornamented concrete block, brick, stone, or other suitable materials.

(4) Natural objects. Naturally occurring rock outcrops, woods, earth mounds, etc., may be utilized for screening or used in conjunction with fences, plantings, or other appropriate objects to form an effective screen. (Ord. #134, Nov. 1998)

13-204. Requirements for effective screening. Screening may be accomplished using natural objects, earth mounds, landscape plantings, fences, or other appropriate materials used singly or in combination as approved by the city. The effect of the completed screening must be the concealment of the junkyard from view on a year round basis.

(1) Screens which provide a "see-through" effect when viewed from a moving vehicle shall not be acceptable.

(2) Open entrances through which junk materials are visible from the main traveled way shall not be permitted except where entrance gates, capable of concealing the junk materials when closed, have been installed. Entrance gates must remain closed from sundown to sunrise.

(3) Screening shall be located on private property and not on any part of the highway right-of-way.

(4) At no time after the screen is established shall junk be stacked or placed high enough to be visible above the screen nor shall junk be placed outside of the screened area. (Ord. #134, Nov. 1998)

13-205. Maintenance of screens. The owner or operator of the junkyard shall be responsible for maintaining the screen in good repair to insure the continuous concealment of the junkyard. Damaged or dilapidated screens, including dead or diseased plantings, which permit a view of the junk within shall render the junkyard visible and shall be in violation of this code and shall be replaced as required by the city.

If not replaced within sixty (60) days the city shall replace said screening and shall require payment upon demand. Failure to pay in full shall result in the fee plus interest to be assessed to the property and shall be combined with the subsequent taxation of the property by the city. (Ord. #134, Nov. 1998)

13-206. Utilization of highway right-of-way. The utilization of highway right-of-way for operating or maintaining any portion of a junkyard is prohibited; this shall include temporary use for the storage of junk pending disposition. (Ord. #134, Nov. 1998)

13-207. Non-conforming junkyards. Those junkyards within the city and lawfully in existence prior to the enactment of this code, which do not conform with the provisions of the code shall be considered as "non-conforming." Such junkyards shall be subject to the following conditions, any violation of which shall terminate the non-conforming status:

- (1) The junkyard must continue to be lawfully maintained.
- (2) There must be existing property rights in the junk or junkyard.
- (3) Abandoned junkyards shall no longer be lawful.
- (4) The location of the junkyard may not be changed for any reason.

If the location is changed, the junkyard shall be treated as a new establishment at a new location and shall conform to the laws of the city.

- (5) The junkyard may not be extended or enlarged. (Ord. #134, Nov. 1998)

13-208. Permits and fees. It shall be unlawful for any junkyard located within the city to operate without a "junkyard control permit" issued by the city.

- (1) Permits shall be valid for the fiscal year for which issued and shall be subject to renewal each year. The city's fiscal year begins on July 1 and ends on June 30 the year next following.

- (2) Each application for an original or renewal permit shall be accompanied by a fee of fifty dollars (\$50.00) which is not subject to either proration or refund.

- (3) All applications for an original or renewal permit shall be made on a form prescribed by the city.

- (4) Permits shall be issued only to those junkyards that are in compliance with these rules.

- (5) A permit is valid only while held by the permittee and for the location for which it is issued. (Ord. #134, Nov. 1998)

13-209. Violations and penalty. Violations of this chapter shall subject the offender to a penalty of up to five hundred dollars (\$500) for each offense. Each day a violation is allowed to continue shall constitute a separate offense. (Ord. #134, Nov. 1998)
