

TITLE 19

ELECTRICITY AND GAS

CHAPTER

1. MISCELLANEOUS.

CHAPTER 1

MISCELLANEOUS

SECTION

19-101. Future utilities shall be placed underground.

19-101. Future utilities shall be placed underground. All future utilities in the City of Piperton shall be placed underground, except when the above ground placement of high-powered electric transmission lines which are not designed for local residential service, and/or the above ground placement of electric transmission lines serving the City of Piperton as major electrical circuits and/or the above ground placement of other components of utility infrastructure including but not limited to electrical substations and telecommunications switching gear, are specifically approved for above ground placement by the board of mayor and commissioners, who shall first seek the recommendation of the Piperton Planning Commission before granting such approval. (as added by Ord. #50-04, Oct. 2004)
