## Point Your Domain Name to your Website

**Reference Number:** MTAS-1771

This will vary based on the registrar and where your website is hosted. If the registrar is hosting your website, or if you have contracted this out to a vendor, then this should be handled by that party. If you maintain your website in house or with a vendor other than your registrar, you will have to make DNS changes to your domain name. These settings can be obtained from your host company, and the steps to make the changes can be found on your registrar's website. Once your domain name is registered and your website is live, let us know so we can update our records to reflect your new web address.
