PULSE TN

STRENGTHS-BASED LEADERSHIP INTENSIVE

We need your help identifying the next group of local leaders for the *2027 PULSE TN: Strengths-Based Leadership Intensive cohort!*

PULSE TN is inspired by the UT System's call to address Tennessee's Grand Challenges:

- **Advancing K-12 Education**
- **Overcoming Addiction**
- **Strengthening Rural Communities**

PULSE TN brings together municipal leaders, elected officials and community partners from across the state to develop strengths-based leadership skills, gain context and perspective through community-engaged service learning, and collaborate on solutions and opportunities to confront these state-wide challenges.

Grounded in the CliftonStrengths framework and adaptive leadership principles. The PULSE TN cohort meets four times from July through October and features:

1. Strengths-based leadership development and coaching
2. "Everywhere You Look" Panel Discussions with leaders, practitioners, and community partners working on complex challenges across Tennessee
3. Community-engaged and service-learning experiences that place participants alongside organizations doing the work
4. Intentional reflection and application to connect statewide challenges with local leadership
5. Tri-Star Team sessions that help participants turn learning, relationships, and ideas into their Strengths-in-Action Plans

Nominate an exceptional individual who is curious, engaged, and ready to amplify the beat of local leadership for a stronger Tennessee!

NOMINATE AN EXCEPTIONAL LOCAL LEADER!

NOMINATION DEADLINE: FEBRUARY 26, 2027

tiny.utk.edu/PULSETN-nomination

Nominating someone does not commit them to participate. Self-nominations are welcome.
