

Do you want to improve your city's processes?

Do you want to reduce waste and costs?

Do you want to learn how to use the TMBP data to make real improvements?

**Learning the tools and techniques of LSS will do just that!**

## LEAN SIX SIGMA YELLOW BELT TRAINING

The Tennessee Municipal Benchmarking Project (TMBP) is excited to offer the Lean Six Sigma (LSS) Yellow Belt training to its members!

LSS Master Black Belt Trainer, Bruce Berger, conducts this course in an easy to understand, fun, and engaging format. Students will master the tools and techniques to immediately begin improvements and efficiencies.

**18 Participants Minimum | \$195 per Participant**

There is flexibility to accommodate smaller groups, so please contact the TMBP Project Coordinator at 865-974-7441 or [laura.ogle-graham@tennessee.edu](mailto:laura.ogle-graham@tennessee.edu).

*“While data and analytics are not usually considered fun and engaging, the Lean Six Sigma training provided by MTAS featured a seasoned trainer who was as good at keeping the group intrigued as he was at teaching us how to use data to move our organization in the way we want it to go. He presented the information clearly and provided useful tips we could take back and apply in our department.”*  
-- Aaron Browning, Deputy Director of Knoxville Parks & Recreation Department
