REMINDER: OSHA POSTING DUE FEBRUARY 1

OSHA Postings Due — **Beginning February 1.** Cities are required to post the OSHA Form 300A (Summary of Work-Related Injuries and Illnesses) until April 30. Form 300A reports the total number of workplace deaths, missed workdays, job transfers or restrictions, and injuries as recorded on your Form 300 (Log of Work-Related Injuries and Illnesses).

More information can be found in the MTAS publication, "OSHA Procedures for Reporting Occupational Injuries and Illnesses 2012."

OSHA provides information on illness and injury recordkeeping requirements on its website at http://www.osha.gov/recordkeeping/index.html.

Certified Municipal Finance Officer (CMFO) Program Graduation

MTAS, the Institute for Public Service (IPS), and the Comptroller of the Treasury will conduct a graduation ceremony in Nashville at the War Memorial Auditorium on February 22. MTAS has offered two CMFO program cycles since 2008. The first cycle resulted in 97 individuals successfully completing the program requirements. The second cycle which ended on December 31, 2012, resulted in more than 200 individuals completing the program requirements. MTAS is proud to have provided statewide training to more than 300 municipal finance personnel since inception of the program. The 11 courses of the CMFO certification program will be offered on an annual basis beginning in 2013. It is open to any individual who would like to obtain CMFO certification as well as those interested in simply attending a class.

"I just wanted to say thank you again for the knowledge granted to me through the CMFO program. Since completing my training I am much more confident in my knowledge of municipal financial operations. The knowledge will enable me to be a good steward of tax payer dollars and provide excellent services to our citizens."

Melinda Holliday, CMFO (Class of 2012),
 MMC, City Clerk, Town of Dover

Subsequent to obtaining certification, CMFOs are required to obtain 24 hours of continuing professional education (CPE). Rules governing the CPE requirements are accessible on the website of the Comptroller of the Treasury, Division of Local Government Audit. MTAS is in the process of developing new training classes that will qualify for continuing professional education credits.

Geothermal 101: MTAS, CTAS, CIS Collaboration

Recently, the Tennessee Renewable Energy and Economic Development Council (TREEDC) partnered with Mid-State Construction, Michael Brady, Inc., the UT County Technical Assistance Service (CTAS) and UT Center for Industrial Services (CIS) to conduct the first-ever Geothermal 101 forum for TREEDC members. A total of 42 attendees learned about the various environmental and economic benefits associated with geothermal energy. Representatives from eight cities, six counties and staff from the Tennessee Departments of Environment and Conservation and Economic and County Development realized the need for more geothermal outreach and awareness in Tennessee.

CTAS Consultant Frank McKee and MTAS Consultant Warren Nevad developed the agenda, which consisted of best practices for geothermal programs for schools, recreational facilities and prisons. The mayors of TREEDC plan to take a more active role in promoting geothermal in the coming years. More information about the Geothermal 101 forum is available at www.treedc.us.
