<p><b>City and county governments in the time of COVID-19 and the recession: the long and winding road.</b> J. Edwin Benton, Grant E. Rissler, Spencer Wagner. The unexpected COVID-19 pandemic and recession occurring simultaneously required that that state and local governments adapt quickly. This includes methods for managing public health responses, protecting first responders and balancing their budgets.  <i>(In State and Local Government Review – Vol. 52, no. 1 (2020) p. 28-52).</i></p>	Article	<a href="#">Request</a>
<p><b>City of Maryville: clean water is essential to life.</b> Mary Bristol. The author profiles the water and sewer inspectors that assure clean water and sanitation are handled correctly in the City of Maryville, Tennessee.  <i>(In Streamlines – (Winter 2020) p. 19-21).</i></p>	Article	<a href="#">Request</a>
<p><b>Compensation/Classification Consulting Service Providers.</b> MTAS. A list of consulting companies who can do compensation studies.</p>	General	<a href="#">Download</a>
<p><b>Cybersecurity challenges and COVID-19: network safety in the office and working from home.</b> Edward Cooney. During the height of the pandemic, an officer in a New Jersey police department clicked on an email with the title COVID-19 resource and when opened, the department’s entire network had been taken hostage and held for ransom.  <i>(In NJ Municipalities – Vol. 97, no 8 (October 2020) p. 26-28).</i></p>	Article	<a href="#">Request</a>

<p><b>How Fort Worth drove down workers' compensation costs while getting injured employees better care.</b> Scott Roloff, Bill McCallum, Mark Barta, Jody Moses. The biggest myth in healthcare is that better care costs more. The City of Fort Worth, Texas busted that myth. Using advanced analytics to establish and monitor a provider network, the city got its injured employees better care, while driving its workers' compensation costs down, not up. <i>(In Public Risk - Vol. 37, no. 2 (March/April 2021) p. 10-13).</i></p>	Article	<a href="#">Request</a>
<p><b>Life in the desert leads to improvements at El Paso Water's Kay Bailey Hutchinson inland desalination plant.</b> Isaac Campos, Sarah Guemez, Jorge Arevalo, Doug Brown, Gilbert Trejo. The article discusses the world's largest inland desalination plant, in El Paso, Texas and what updates and upgrades were required for the facility in 2017. <i>(In Opflow - Vol. 46, no. 12 (December 2020) p. 24-27).</i></p>	Article	<a href="#">Request</a>
<p><b>Social determinants of health drive outcomes and costs for injured workers.</b> Tammy Bradly. Employers and workers compensation officials are now going beyond the injury to look at the whole person when an employee is hurt on the job. <i>(In Public Risk - Vol. 37, no. 2 (March/April 2021) p. 6-9).</i></p>	Article	<a href="#">Request</a>
<p><b>Technology and the pandemic: lessons learned so far.</b> Marc Pfeiffer. The author explains that a small group of New Jersey local officials responded to a survey in late 2020 regarding their technology experiences during the pandemic. <i>(In NJ Municipalities - Vol. 97, no. 8 (October 2020) p. 22-25).</i></p>	Article	<a href="#">Request</a>
<p><b>The future of insurance in the autonomous vehicle industry.</b> Steve Miller. The inclusion of autonomous vehicles in the automotive industry is about to change the way we travel. As with any other technology, with evolution comes more risk. In order to manage these new risks, the car insurance industry has to adapt as well. <i>(In Public Risk - Vol. 37, no. 1 (January/February 2021) p. 12-13).</i></p>	Article	<a href="#">Request</a>

**Up to the challenge: current obstacles that can stand in the way of effective leachate management.** Peter Hildebrandt. The author explains that water moving through a landfill creates leachate. This issue can be expensive and problematic over time. *(In MSW Management – Vol. 31, no. 1 (January/February 2021) p. 22-25).*
