

CODE OF ETHICS

APPENDIX A

Section-by-Section Summary and Explanation

SECTION 1. This section provides that the code of ethics adopted by the municipal governing body applies to all full-time and part-time elected and appointed officials, whether compensated or not. It also applies to members and employees of separate boards, authorities, and commissions created by the municipality. This includes school boards, planning commissions, boards of zoning appeals, beer boards, airport authorities, and housing authorities among others. These applications of the code of ethics are mandated by the ethics act passed by the General Assembly.

SECTION 2. The ethics act passed by the General Assembly requires that "personal interests" that affect or appear to affect the actions of municipal officials and employees must be disclosed, but the state statute does not define "personal interests." This section defines those interests. This is a broad definition and is much more encompassing than the state's conflict of interests laws. It includes ANY financial, ownership, or employment interest of an official or employee in a business or entity the municipality does business with, regulates, or supervises. It also includes these interests of the listed family members of the official or employee. It includes situations in which the official, employee, or family member is negotiating employment with an affected entity. There is some overlap with indirect interests under state law, but most of the situations to which this provision in the code of ethics will apply will not be covered by the conflicts of interests laws. An example would be a family member of a member of the governing body who is an employee of a business seeking to do business with the municipality. This would not be a direct or indirect conflict of interests under the state law, but it would be a personal interest that would have to be disclosed under this definition. This section provides that when there is an overlap with the conflicts of interest laws, those laws take precedence.

SECTION 3. This section requires an official with the responsibility to vote to disclose any of his/her personal interests that might affect his/her discretion before the vote so they appear in the minutes. The state statute does not require that an official with a personal interest recuse himself/herself from voting. The implication of the statute is to the contrary and that after disclosure the official may vote. Nevertheless, this section allows, but does not require, the official to recuse himself/herself.

SECTION 4. This section applies to employees and officials who must exercise discretion in matters that do not require a vote. The official or employee

should when possible disclose the personal interest before the exercise of the discretion. Again, recusal is not required, but this section allows this when it is permitted by law, charter, ordinance, or policy of the municipality.

SECTION 5. This section prohibits an official or employee from taking any money, gift, favor, or other gratuity from anyone other than the municipality for the performance of an official's or employee's regular duties or that gives the appearance of attempting to influence the actions of the official or employee in carrying out municipal business. This is a somewhat modified version of a provision that most municipalities already had on the books. An alternative to this gift prohibition that is allowed by the state ethics statute would be to allow gifts and gratuities up to a certain amount but to require reporting of those items. MTAS decided on prohibition because it is simpler to implement and because most cities already had similar provisions.

SECTION 6. This section prohibits officials and employees from disclosing confidential information, and from disclosing any other information with the intent to result in financial gain. Again, these are common provisions in ethics ordinances that some cities had already adopted.

SECTION 7. This section prohibits officials and employees from using or authorizing the use of municipal time and facilities for their own financial gain. It also prohibits this for other entities or individuals unless this is authorized by contract or lease determined by the governing body to be in the best interests of the municipality. This is a provision similar to ones that have been adopted by many municipalities.

SECTION 8. This section prohibits officials and employees from using their position to make private purchases in the name of the municipality and from using their position to gain privileges or exemptions that are not authorized by charter, general law, ordinance, or policy. These provisions are similar to provisions adopted by many municipalities.

SECTION 9. This section prohibits outside employment by officials or employees if the outside work interferes with municipal duties or is in conflict with any provision of the charter, any ordinance, or policy of the municipality. Many municipalities have adopted similar provisions.

SECTION 10. This section provides methods for bringing and investigating complaints of violations of the code of ethics. The city attorney is designated as the ethics officer and may issue opinions when requested in writing on whether certain conduct would comply with the code of ethics and other applicable law. The city attorney is designated to receive and investigate complaints about officials and employees who are not members of the governing

body. The attorney may request the governing body to designate another person or entity to act as ethics officer when he/she has a conflict of interests. The governing body must determine the merit of complaints against its members. If the governing body determines a complaint warrants further investigation, it must authorize the investigation by the city attorney or another person or entity chosen by the governing body.

Because many municipalities already have personnel policies that deal with some of the same behaviors regulated by the code of ethics, this section also provides that when a violation of the code of ethics also constitutes a violation of a personnel or civil service policy, rule, or regulation, the violation would be handled as a violation of the personnel provisions rather than as a violation of the code of ethics.

This section also provides for a "reasonable person" interpretation and enforcement of the code of ethics.

An alternative to appointing the city attorney as ethics officer would be to appoint another individual, such as another attorney or a retired judge. If a municipality chose to do this, it would probably want to provide for the appointment of the ethics officer after each municipal election. The position could be compensated or uncompensated, although it is unlikely many individuals would be willing to serve if the position is not compensated. Another acceptable alternative would be to establish a Board of Ethics to perform these functions. For municipalities that choose this alternative, MTAS suggests a three (3) member board to be appointed by the governing body. Terms should probably be three (3) years.

MTAS chose the above provisions for designating the ethics officer and for handling ethics complaints for the model code of ethics because they seemed simpler, less costly, and most appropriate for most Tennessee municipalities.

SECTION 11. This section provides for punishment for violations. Elected officials and appointed members of boards and commissions are punishable as already provided by law and in addition are subject to censure by the governing body. Appointed officials and employees are subject to disciplinary action. (as added by Ord. #521, June 2007)

VII. VARIANCE PROCEDURE

The Safety Director may apply for a variance as a result of a complaint from an employee or of his knowledge of certain hazards or exposures. The Safety Director should definitely believe that a variance is needed before the application for a variance is submitted to the Commissioner of

Labor and Workforce Development. The procedure for applying for a variance to the adopted safety and health standards is as follows:

- a. The application for a variance shall be prepared in writing and shall contain:
 1. A specification of the standard or portion thereof from which the variance is sought.
 2. A detailed statement of the reason(s) why the employer is unable to comply with the standard supported by representations by qualified personnel having first-hand knowledge of the facts represented.
 3. A statement of the steps employer has taken and will take (with specific date) to protect employees against the hazard covered by the standard.
 4. A statement of when the employer expects to comply and what steps have or will be taken (with dates specified) to come into compliance with the standard.
 5. A certification that the employer has informed employees, their authorized representative(s), and/or interested parties by giving them a copy of the request, posting a statement summarizing the application (to include the location of a copy available for examination) at the places where employee notices are normally posted by other appropriate means. The certification shall contain a description of the means actually used to inform employees and that employees have been informed of their right to petition the Commissioner of Labor and Workforce Development for a hearing.
- b. The application for a variance should be sent to the Commissioner of Labor and Workforce Development by registered or certified mail.
- c. The Commissioner of Labor and Workforce Development will review the application for a variance and may deny the request or issue an order granting the variance. An order granting a variance shall be issued only if it has been established that:
 1. The employer

- i. Is unable to comply with the standard by the effective date because of unavailability of professional or technical personnel or materials and equipment required or necessary construction or alteration of facilities or technology.
 - ii. Has taken all available steps to safeguard employees against the hazard(s) covered by the standard.
 - iii. Has an effective Program Plan for coming into compliance with the standard as quickly as possible.
 - 2. The employee is engaged in an experimental Program Plan as described in subsection (b), section 13 of the Act.
- d. A variance may be granted for a period of no longer than is required to achieve compliance or one (1) year, whichever is shorter.
- e. Upon receipt of an application for an order granting a variance, the Commissioner to whom such application is addressed may issue an interim order granting such a variance for the purpose of permitting time for an orderly consideration of such application. No such interim order may be effective for longer than one hundred eighty (180) days.
- f. The order or interim order granting a variance shall be posted at the worksite and employees notified of such order by the same means used to inform them of the application for said variance (see subsection (a)(5) of this section).

VIII. RECORDKEEPING AND REPORTING

Recording and reporting of all occupational accident, injuries, and illnesses shall be in accordance with instructions and on forms prescribed in the booklet. You can get a copy of the Forms for Recordkeeping from the internet. Go to www.osha.gov and click on Recordkeeping Forms located on the home page.

The position responsible for recordkeeping is shown on the SAFETY AND HEALTH ORGANIZATIONAL CHART, Appendix IV to this plan.

Details of how reports of occupational accidents, injuries, and illnesses will reach the recorderkeeper are specified by ACCIDENT REPORTING PROCEDURES, Appendix IV to this plan. The Rule of Tennessee Department of Labor and Workforce Development Occupational Safety and Health, OCCUPATIONAL SAFETY AND HEALTH RECORD-KEEPING AND REPORTING, chapter 0800-01-03, as authorized by T.C.A., title 50.

IX. EMPLOYEE COMPLAINT PROCEDURE

If any employee feels that he is assigned to work in conditions which might affect his health, safety, or general welfare at the present time or at any time in the future, he should report the condition to the Safety Director of Occupational Safety and Health.

- a. The complaint should be in the form of a letter and give details on the condition(s) and how the employee believes it affects or will affect his health, safety, or general welfare. The employee should sign the letter but need not do so if he wishes to remain anonymous (see subsection (h) of Section 1 of this plan).
- b. Upon receipt of the complaint letter, the Safety Director will evaluate the condition(s) and institute any corrective action, if warranted. Within ten (10) working days following the receipt of the complaint, the Safety Director will answer the complaint in writing stating whether or not the complaint is deemed to be valid and if no, why not, what action has been or will be taken to correct or abate the condition(s), and giving a designated time period for correction or abatement. Answers to anonymous complaints will be posted upon bulletin boards or other places of common passage where the anonymous complaint may be reasonably expected to be seen by the complainant for a period of three (3) working days.
- c. If the complainant finds the reply not satisfactory because it was held to be invalid, the corrective action is felt to be insufficient, or the time period for correction is felt to be too long, he may forward a letter to the Chief Executive Officer or to the governing body explaining the condition(s) cited in his original complaint and why he believes the answer to be inappropriate or insufficient.
- d. The Chief Executive Officer or a representative of the governing body will evaluate the complaint and will begin to take action to correct or abate the condition(s) through arbitration or administrative sanctions or may find the complaint to be invalid. An answer will be sent to the complainant within ten (10) working days following receipt of the complaint or the next regularly scheduled meeting of the governing body following receipt of the complaint explaining decisions made and action taken or to be taken.
- e. After the above steps have been followed and the complainant is still not satisfied with the results, he may then file a complaint

with the Commissioner of Labor and Workforce Development. Any complaint filed with the Commissioner of Labor and Workforce Development in such cases shall include copies of all related correspondence with the Safety Director and the Chief Executive Officer or the representative of the governing body.

- f. Copies of all complaint and answers thereto will be filed by the Safety Director who shall make them available to the Commissioner of Labor and Workforce Development or his designated representative upon request.

X. EDUCATION AND TRAINING

- a. Safety Director and/or Compliance Inspector(s):

1. Arrangements will be made for the Safety Director and/or Compliance Inspector(s) to attend training seminars, workshops, etc., conducted by the State of Tennessee or other agencies.
2. Access will be made to reference materials such as 29 CFR 1910 General Industry Regulations; 29 CFR 1926 Construction Industry Regulations; The Rules of Tennessee Department of Labor and Workforce Development Occupational Safety and Health, and other equipment/supplies, deemed necessary for use in conducting compliance inspections, conducting local training, wiring technical reports, and informing officials, supervisors, and employees of the existence of safety and health hazards will be furnished.

- b. All Employees (including supervisory personnel):

A suitable safety and health training program for employees will be established. This program will, as a minimum:

1. Instruct each employee in the recognition and avoidance of hazards or unsafe conditions and of standards and regulations applicable to the employees work environment to control or eliminate any hazards, unsafe conditions, or other exposures to occupational illness or injury.
2. Instruct employees who are required to handle or use poisons, acids, caustics, toxicants, flammable liquids, or

gases including explosives, and other harmful substances in the proper handling procedures and use of such items and make them aware of the personal protective measures, person hygiene, etc., which may be required.

3. Instruct employees who may be exposed to environments where harmful plants or animals are present, of the hazards of the environment, how to best avoid injury or exposure, and the first aid procedures to be followed in the event of injury or exposure.
4. Instruct all employees of the common deadly hazards and how to avoid them, such as Falls; Equipment Turnover; Electrocuting; Struck by/Caught In; Trench Cave In; Heat Stress and Drowning.
5. Instruct employees on hazards and dangers of confined or enclosed spaces.
 - i. "Confined or enclosed space" means space having a limited means of egress and which is subject to the accumulation of toxic or flammable contaminants or has an oxygen deficient atmosphere. Confined or enclosed spaces include, but are not limited to, storage tanks, boilers, ventilation or exhaust ducts, sewers, underground utility accesses, tunnels, pipelines, and open top spaces more than four feet (4') in depth such as pits, tubs, vaults, and vessels.
 - ii. Employees will be given general instruction on hazards involved, precautions to be taken, and on use of personal protective and emergency equipment required. They shall also be instructed on all specific standards or regulations that apply to work in dangerous or potentially dangerous areas.
 - iii. The immediate supervisor of any employee who must perform work in a confined or enclosed space shall be responsible for instructing employees on danger of hazards which may be present, precautions to be taken, and use of personal protective and emergency equipment, immediately prior to their entry into such an area and shall require use of appropriate personal protective equipment.

XI. GENERAL INSPECTION PROCEDURES

It is the intention of the governing body and responsible officials to have an Occupational Safety and Health Program Plan that will insure the welfare of employees. In order to be aware of hazards, periodic inspections must be performed. These inspections will enable the finding of hazards or unsafe conditions or operations that will need correction in order to maintain safe and healthful worksites. Inspections made on a pre-designated basis may not yield the desired results. Inspections will be conducted, therefore, on a random basis at intervals not to exceed thirty (30) calendar days.

- a. In order to carry out the purposes of this Ordinance, the Safety Director and/or Compliance Inspector(s), if appointed, is authorized:
 1. To enter at any reasonable time, any establishment, facility, or worksite where work is being performed by an employee when such establishment, facility, or worksite is under the jurisdiction of the employer and;
 2. To inspect and investigate during regular working hours and at other reasonable times, within reasonable limits, and in a reasonable manner, any such place of employment and all pertinent conditions, processes, structures, machines, apparatus, devices, equipment, and materials therein, and to question privately any supervisor, operator, agent, or employee working therein.
- b. If an imminent danger situation is found, alleged, or otherwise brought to the attention of the Safety Director or Inspector during a routine inspection, he shall immediately inspect the imminent danger situation in accordance with Section XII of this plan before inspecting the remaining portions of the establishment, facility, or worksite.
- c. An administrative representative of the employer and a representative authorized by the employees shall be given an opportunity to consult with and/or to accompany the Safety Director or Inspector during the physical inspection of any worksite for the purpose of aiding such inspection.
- d. The right of accompaniment may be denied any person whose conduct interferes with a full and orderly inspection.

- e. The conduct of the inspection shall be such as to preclude unreasonable disruptions of the operation(s) of the workplace.
- f. Interviews of employees during the course of the inspection may be made when such interviews are considered essential to investigative techniques.
- g. Advance Notice of Inspections.
 - 1. Generally, advance notice of inspections will not be given as this precludes the opportunity to make minor or temporary adjustments in an attempt to create a misleading impression of conditions in an establishment.
 - 2. There may be occasions when advance notice of inspections will be necessary in order to conduct an effective inspection or investigation. When advance notice of inspection is given, employees or their authorized representative(s) will also be given notice of the inspection.
- h. The Safety Director need not personally make an inspection of each and every worksite once every thirty (30) days. He may delegate the responsibility for such inspections to supervisors or other personnel provided:
 - 1. Inspections conducted by supervisors or other personnel are at least as effective as those made by the Safety Director.
 - 2. Records are made of the inspections, any discrepancies found and corrective actions taken. This information is forwarded to the Safety Director.
- i. The Safety Director shall maintain records of inspections to include identification of worksite inspected, date of inspection, description of violations of standards or other unsafe conditions or practices found, and corrective action taken toward abatement. Those inspection records shall be subject to review by the Commissioner of Labor and Workforce Development or his authorized representative.

XII. IMMINENT DANGER PROCEDURES

- a. Any discovery, any allegation, or any report of imminent danger shall be handled in accordance with the following procedures:

1. The Safety Director shall immediately be informed of the alleged imminent danger situation and he shall immediately ascertain whether there is a reasonable basis for the allegation.
2. If the alleged imminent danger situation is determined to have merit by the Safety Director, he shall make or cause to be made an immediate inspection of the alleged imminent danger location.
3. As soon as it is concluded from such inspection that conditions or practices exist which constitutes an imminent danger, the Safety Director or Compliance Inspector shall attempt to have the danger corrected. All employees at the location shall be informed of the danger and the supervisor or person in charge of the worksite shall be requested to remove employees from the area, if deemed necessary.
4. The administrative or operational head of the workplace in which the imminent danger exists, or his authorized representative, shall be responsible for determining the manner in which the imminent danger situation will be abated. This shall be done in cooperation with the Safety Director or Compliance Inspector and to the mutual satisfaction of all parties involved.
5. The imminent danger shall be deemed abated if:
 - i. The imminence of the danger has been eliminated by removal of employees from the area of danger.

NOTE: A procedure such as one of those listed above or similar information is necessary to satisfy Item Number 4 listed under **PROGRAM PLAN** in Section V. ADMINISTRATION, part b of the Tennessee Occupational Safety and Health Plan. This information may be submitted in flow chart form instead of in narrative form if desired. These procedures may be modified in any way to fit local situations as they have been prepared as a guide only.

The four (4) procedures listed above are based upon the size of the work force and relative complexity of the organization. The approximate size of the organization for which each procedure is suggested is indicated in parenthesis in the left hand margin at the beginning, i.e., (1-15), (16-50), (51-250), and (251 Plus), and the figures relate to the total number of employees including the Chief Executive Officer but excluding the governing body (City Council, Board of Directors, etc.).

Generally, the more simple an accident reporting procedure is, the more effective it is. Please select the one procedure listed above, or prepare a similar procedure or flow chart, which most nearly fits what will be the most effective for your local situation. Note also that the specific information listed for written reports applies to all three of the procedures listed for those organizations with sixteen (16) or more employees.
