(3) The hearing must be scheduled before the City of Bartlett Board of Mayor and Aldermen within sixty (60) days. Only members of said board may participate in the hearing and at least four (4) members must be present for the hearing to proceed.

(4) Where a permit is suspended or revoked, the suspension of the permit shall not occur within sixty (60) days of notice or prior to the date of the hearing, whichever is less, unless the health officer determines there is to be a health hazard or risk of disease at said location. No issuance of a new permit shall occur until after the hearing.

(5) A decision of the City of Bartlett Board of Mayor and Aldermen must be made in writing to all parties within five (5) days of the conclusion of the hearing.

(6) Any appeal of the decision of the City of Bartlett Board of Mayor and Aldermen shall be made by Common Law Writ of Certiorari to the Chancery Court of Shelby County, Tennessee.

(7) No permit shall be extended during this appeal without a court ordered writ of supersedes. Said appeal shall be filed within thirty (30) calendar days after receipt of a written decision by the City of Bartlett Board of Mayor and Aldermen. (Ord. #90-21, Jan. 1991)

9-312. Transfer of permit. A permittee shall not transfer his permit to another, nor shall a permittee operate a sexually oriented business under the authority of a permit at any place other than the street address designated in the application. (Ord. #90-21, Jan. 1991)

9-313. Location of sexually oriented businesses. (1) A person commits an offense if he operates or causes to be operated a sexually oriented business within one thousand five hundred (1,500) feet of:

- (a) A duly organized and recognized church;
- (b) A public or private elementary or secondary school;
- (c) A boundary of a residential or landmark district as defined in the City of Bartlett Zoning Ordinance;
- (d) A public park; or
- (e) The property line of a lot devoted to a residential use as defined in the City of Bartlett Zoning Ordinance.

(2) A person commits an offense if he causes or permits the operation, establishment, substantial enlargement, or transfer of ownership or control of a sexually oriented business within one thousand five hundred (1,500) feet of another sexually oriented business.

(3) A person commits an offense if he causes or permits the operation, establishment, or maintenance of more than one (1) sexually oriented business in the same building, structure, or portion thereof, or the increase of floor, area of any sexually oriented business in any building, structure, or portion thereof containing another sexually oriented business.

(4) For the purpose of subsection (1) of this section, measurement shall be made in a straight line, without regard to intervening structures or objects, from the nearest portion of the building or structure used as a part of the premises where a sexually oriented business is conducted, to the nearest property line of the premises of a church or public or private elementary or secondary school, or to the nearest boundary of an affected public park, residential district, or local historic district.

(5) For purposes of subsection (2) of this section, the distance between any two sexually oriented businesses shall be measured in a straight line, without regard to intervening structures or objects, from the closest exterior wall of the structure in which each business is located.

(6) Any sexually oriented business lawfully operating on January 22, 1991, that is in violation of subsections (1), (2), or (3) of this section shall be

deemed a nonconforming use. The nonconforming use will be permitted to continue for a period not to exceed one year, unless sooner terminated for any reason or voluntarily discontinued. In the event of termination of such a sexually oriented business, anyone applying for a reopening or for another sexually oriented business establishment at the premises, will be considered a new applicant. Such nonconforming uses shall not be increased, enlarged, extended or altered except that the use may be changed to a conforming use. If two (2) or more sexually oriented businesses are within one thousand five hundred (1,500) feet of one another and otherwise in a permissible location, the sexually oriented business which was first established and continually operating at a particular location is the conforming use and the later-established business(es) is nonconforming.

(7) A sexually oriented business lawfully operating as a use is not rendered a nonconforming use by the location, subsequent to the grant or renewal of the sexually oriented business permit, of a church, or public or private elementary or secondary school, public park, residential or residential lot within one thousand five hundred (1,500) feet of the sexually oriented business. This provision applies only to the renewal of a valid permit, and does not apply when an application for a permit is submitted after a permit has expired or has been revoked. (Ord. #90-21, Jan. 1991)

9-314. Exemption from location restrictions. (1) If the chief of police denies the issuance of a permit to an applicant because the location of the sexually oriented business establishment is in violation of § 9-313 of this chapter, then the applicant may, not later than ten (10) calendar days after receiving notice of the denial, file with the office of the mayor a written request for an exemption from the location restrictions of § 9-313. The hearings shall be handled according to the procedures set out in § 9-311.

(2) If the written request is filed with the Office of the Mayor of the City of Bartlett within the ten (10) day limit, the City of Bartlett Board of Mayor and Aldermen shall consider the request. The City of Bartlett Board of Mayor and Aldermen shall set a date for the hearing within sixty (60) days from the date the written request is received, and shall give notice to the public of such hearing according to the provisions of Tennessee Code Annotated, § 8-44-103.

(3) A hearing by the City of Bartlett Board of Mayor and Aldermen may proceed if at least four (4) of the board members are present. The board shall hear and consider evidence offered by any interested person. The formal rules of evidence do not apply.

(4) The City of Bartlett Board of Mayor and Aldermen may, in its discretion, grant an exemption from the locational restrictions of § 9-313 if it makes the following findings:

(a) That the location of the proposed or existing sexually oriented business will not have a detrimental effect on nearby properties or be contrary to the public welfare;

(b) That the granting of the exemption will not violate the spirit and intent of this section;

(c) That the location of the proposed or existing sexually oriented business will not downgrade the property values or quality of life in the adjacent areas or encourage the development of urban blight;

(d) That the location of an additional sexually oriented business or the continued location of an existing sexually oriented business in the area will not be contrary to any program of neighborhood conservation nor will it interfere with any efforts of urban renewal or restoration; and

(e) That all other applicable provisions of this chapter will be observed.

(5) The City of Bartlett Board of Mayor and Aldermen shall grant or deny the exemption by a majority vote. Failure to reach a majority vote shall be decided on the basis of a preponderance of the evidence. The decision of the City of Bartlett Board of Mayor and Aldermen is final. Appeal shall be by common law writ of certiorari to chancery court.

(6) If the City of Bartlett Board of Mayor and Aldermen grants the exemption, the exemption is valid for one (1) year from the date of the board's action. Upon the expiration of an exemption, the sexually oriented business is in violation of the locational restrictions of § 9-313 until the applicant applies or receives another exemption.

(7) If the City of Bartlett Board of Mayor and Aldermen denies the exemption, the applicant may not re-apply for an exemption until at least twelve (12) months have elapsed since the date of the board's action.

(8) The grant of an exemption does not exempt the applicant from any other provisions of this chapter other than the locational restrictions of § 9-313. (Ord. #90-21, Jan. 1991)

9-318. Additional regulations for adult motels. Evidence that a sleeping room in a hotel, motel, or similar commercial establishment has been rented and vacated two (2) or more times in a period of time that is less than ten (10) hours creates a rebuttable presumption that the establishment is an adult motel as that term is defined in this chapter. an accuracy of plus or minus six (6) inches. The police chief may waive the foregoing diagram for renewal applications if the applicant adopts a diagram that was previously submitted and certifies that the configuration of the premises has not been altered since it was prepared.

(b) The application shall be sworn to be true and correct by the applicant.

(c) No alteration in the configuration or location of a manager's station may be made without the prior approval of the police chief or his designee.

This section shall be an additional remedy for any and all violations outlined in § 9-514.

(3) The city may, upon completion of construction of the service area as approved by the board of mayor and aldermen, waive or reduce the requirement of the company to maintain the bond. However, the city may require a performance bond to be posted by the company for any construction subsequent to the completion of the initial service areas, in a reasonable amount and upon such terms as determined by the city.

(4) The bond shall contain the following endorsement: "It is hereby understood and agreed that this bond may not be cancelled by the surety nor the intention not to renew be stated by the surety until thirty (30) days after receipt by the city, by registered mail, a written notice of such intent to cancel and not to renew."

(5) Upon receipt of a thirty-day notice, this shall be construed as default granting the city the right to call in the bond.

(6) The city may at any time during the term of this ordinance, waive grantee's requirement to maintain a performance bond. The invitation to waive the requirement can be initiated by the city or grantee. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

The company shall immediately advise the city attorney of any litigation that may develop that would affect this insurance.

(3) Neither the provisions of this section nor any damages recovered by the city thereunder, shall be construed to or limit the liability of the company under any franchise issued hereunder or for damages.

(4) All insurance policies maintained pursuant to this ordinance shall contain the following endorsement: "It is hereby understood and agreed that this insurance policy may not be cancelled by the surety nor the intention not to renew be stated by the surety until thirty (30) days after receipt by the city, by registered mail, a written notice of such intention to cancel or not to renew." (2) The foregoing indemnity is conditioned upon the following: The city shall give the company prompt notice of the making of any claim or the commencement of any action suit or other proceeding covered by the provisions of this section. Nothing herein shall be deemed to prevent the city from cooperating with company and participating in the defense of any litigation by its own counsel at its sole cost and expense. No recovery by the city of any sum by reason of the letter of credit required in § 9-514, hereof shall be any limitation upon the liability of the company to the city under the terms of this section, except than any sum so received by the city shall be deducted from any recovery which the city might have against the company under the terms of this section. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

Such authorization is required for each type or classification of class IV broadband telecommunication system activity planned; provided however, that the company shall be entitled to conduct systemwide or individually addressed

(ii) The company must extend and make broadband telecommunication system available to any isolated resident outside the initial service area requesting connection at the standard connection charge, if the connection to the isolated resident would require no more than a standard one hundred and fifty (150) foot aerial drop line.

(3) Early extension. In areas not meeting the requirements for mandatory extension of service, the company shall provide, upon the request of a potential subscriber desiring service, an estimate of the costs required to extend service to the subscriber. The company shall then extend service upon request of the potential subscriber. The company may require advance payment or assurance of payment satisfactory to the company. The amount paid by subscribers for early extensions shall be non-refundable, and in the event the area subsequently reaches the density required for mandatory extension, such payments shall be treated as consideration for early extension.

(4) New development undergrounding. In cases of new construction or property development where utilities are to be placed underground, the developer or property owner shall give the company reasonable notice of such construction or development, and of the particular date on which open trenching will be available for the company's installation of conduit, pedestals and/or

vaults, and laterals to be provided at the company's expense. The company shall also provide specifications as needed for trenching. Costs of trenching and easements required to bring service to the development shall be borne by the developer or property owner; except that if the company fails to install its conduit, pedestals and/or vaults, and laterals within five (5) working days of the date the trenches are available, as designated in the notice given by the developer or property owner, then should the trenches be closed after the five (5) day period, the cost of new trenching is to be borne by the company. Except for the notice of the particular date on which trenching will be available to the company, any notice provided to the company by the city of a preliminary plat request shall satisfy the requirement of reasonable notice if sent to the local general manager or system engineer of the company prior to approval of the preliminary plat request.

(5) Special agreements. Nothing herein shall be construed to prevent the company from serving areas not covered under this section upon agreement with developers, property owners, or residents provided that five (5) percent of those gross revenues are returned to the city.

(a) The company, in its application, may propose a line extension policy which will result in serving more residents of the city than as required above, in which case the company's application will be incorporated by reference pursuant to § 9-505, and will be binding on the company.

(b) The violation of this section shall be considered a breach of the terms of this ordinance for which the provisions of either §§ 9-539 or 9-547 shall apply, as determined by the city. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-523. Construction and technical standards. (1) Compliance with construction and technical standards. The company shall construct, install, operate and maintain its system in a manner consistent with all laws, ordinances, construction standards, governmental requirements, Federal Communications Commission technical standards, and detailed standards submitted by the company as part of its application, which standards are incorporated by reference herein. In addition, the company shall provide the city, upon request, with a written report of the results of the company's annual proof of performance tests conducted pursuant to Federal Communications Commission standards and requirements.

(2) Additional specifications. (a) Construction, installation and maintenance of the broadband telecommunications system shall be performed in an orderly and workmanlike manner. All cables and wires shall be installed, where possible, parallel with electric and telephone lines. Multiple cable configurations shall be arranged in parallel and bundled with due respect for engineering considerations.

(b) The company shall at all times comply with:

- (i) National Electrical Safety Code (National Bureau of Standards);
- (ii) National Electrical Code (National Bureau of Fire Underwriters);
- (iii) Bell System Code of Pole Line Construction; and
- (iv) Applicable FCC or other federal, state and local regulations.

(c) In any event, the system shall not endanger or interfere with the safety of persons or property in the franchise area or other areas where the company may have equipment located.

(d) Any antenna structure used in the broadband telecommunications system shall comply with construction, marking, and lighting of antenna structure, required by the United States Department of Transportation.

(e) All working facilities and conditions used during construction, installation and maintenance of the broadband telecommunications system shall comply with the standards of the occupational safety and health administration.

(f) RF leakage shall be checked at reception locations for emergency radio services to prove no interference signal combinations are possible. Stray radiation shall be measured adjacent to any proposed aeronautical navigation radio sites to prove no interference to airborne navigational reception in the normal flight patterns. Federal Communications Commission rules and regulations shall govern.

(g) The company shall maintain equipment capable of providing standby power for headend, transportation and trunk amplifiers for a minimum of two (2) hours.

(h) In all areas of the city where the cables, wires, and other like facilities of public utilities are placed underground, the company shall place its cables, wires, or other like facilities underground. When public utilities relocate their facilities from pole to underground, the broadband telecommunication system operator must concurrently do so. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-524. Use of streets. (1) Interference with persons and improvements.

The company's system, poles, wires and appurtenances shall be located, erected and maintained so that none of its facilities shall endanger or interfere with the lives of persons or interfere with the rights or reasonable convenience of property owners who adjoin any of the streets and public ways, or interfere with any improvements the city may deem proper to make, or unnecessarily hinder or obstruct the free use of the streets, alleys, bridges, easements or public property.

(2) Restoration to prior condition. In case of any disturbance of pavement, sidewalk, driveway or other surfacing, the company shall, at its own

cost and expense and in a manner approved by the city, replace and restore all paving, sidewalk, driveway or surface of any street or alley disturbed, in as good condition as before the work was commenced and in accordance with standards for such work set by the city.

(3) Erection, removal and common uses of poles:

(a) No poles or other wire-holding structures shall be erected by the company without prior approval of the city with regard to location, height, types, and any other pertinent aspect. However, no location of any pole or wire-holding structure of the company shall be a vested interest and such poles or structures shall be removed or modified by the company at its own expense whenever the city determines that the public convenience would be enhanced thereby.

(b) Where poles or other wire-holding structures already existing for use in serving the city are available for use by the company, but it does not make arrangements for such use, the city may require the company to use such poles and structures if it determines that the public convenience would be enhanced thereby and the terms of the use available to the company are just and reasonable.

(c) Where the city or a public utility serving the city desires to make use of the poles or other wire-holding structures of the company, but agreement thereof with the company cannot be reached, the city may require the company to permit such use for such consideration and upon such terms as the city shall determine to be just and reasonable, if the city determines that the use would enhance the public convenience and would not unduly interfere with the company's operations.

(4) Relocation of the facilities. If at any time during the period of a franchise the city shall lawfully elect to alter, or change the grade of any street, alley or other public ways, the company, upon reasonable notice by the city, shall remove or relocate as necessary its poles, wires, cables, underground conduits, manholes and other fixtures at its own expense.

(5) Cooperation with building movers. The company shall, on the request of any person holding a building moving permit issued by the city, temporarily raise or lower its wires to permit the moving of buildings. The expense of such temporary removal, raising or lowering of wires shall be paid by the person requesting the same, and the company shall have the authority to require such payment in advance. The company shall be given not less than forty-eight (48) hours advance notice to arrange for such temporary wire changes.

(6) Tree trimming. The company shall not remove any tree or trim any portion, either above, at or below ground level, of any tree within any public place without the prior consent of the city. The city shall have the right to do the trimming requested by the company at the cost of the company. Regardless of who performs the work requested by the company, the company shall be responsible, shall defend and hold city harmless for any and all damages to any

tree as a result of trimming, or to the land surrounding any tree, whether such tree is trimmed or removed. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-525. Operational standards. (1) The company shall put, keep and maintain all parts of the system in good condition throughout the entire franchise period.

(2) Upon the reasonable request for service by any person located within the franchise territory, the company shall, within thirty (30) days, furnish the requested service to such person within terms of the line extension policy. A request for service shall be unreasonable for the purpose of this subsection if no trunk line installation capable of servicing that person's block has as yet been installed.

(3) The company shall render efficient service, make repairs promptly, and interrupt service only for good cause and for the shortest time possible. Such interruptions, insofar as possible, shall be preceded by notice and shall occur during periods of minimum system use.

(4) The company shall not allow its cable or other operations to interfere with television reception of persons not served by the company, nor shall the system interfere with, obstruct or hinder in any manner the operation of the various utilities serving the residents within the confines of the city.

(5) The company shall have knowledgeable, qualified company representatives available to respond to customer telephone inquiries Monday through Friday between the hours of 8:00 A.M. and 6:00 P.M., and Saturday between the hours of 9:00 A.M. and 5:00 P.M.

(6) The company will establish supplemental hours on week days and weekends that fit the needs of the community. Under normal operating conditions, telephone answer time, including wait time and the time required to transfer the call, shall not exceed thirty (30) seconds. This standard shall be met no less than ninety percent (90%) of the time as measured on an annual basis.

(7) Under normal operating conditions, the customer will receive a busy signal less than three percent (3%) of the total time that the office is open for business.

(8) Customer service centers and bill payment locations will be open for customer transactions Monday through Friday from 8:00 A.M. to 5:00 P.M., unless there is a need to modify those hours because of the location or customers served. The system will establish supplemental hours on weekdays and weekends if it would fit the needs of the community. The company shall provide service locations in the City of Bartlett for subscribers who wish to visit and conduct business.

(9) Under normal operating conditions, each of the following standards will be met no less than ninety five percent (95%) of the time as measured on an annual basis.

(a) Standard installations will be performed within seven (7) business days after an order has been placed. A standard installation is one that is within one hundred fifty feet (150') of the existing broadband telecommunications system.

(b) Excluding those situations which are beyond the control of the broadband telecommunication system, the company will respond to any service interruption (area or neighborhood outage affecting two (2) or more customers) promptly and in no event later than twenty-four (24) hours from the time of initial notification. All other regular service requests will be responded to within thirty six (36) hours during the normal work week for that system. The appointment window alternatives for installations, service calls and other installation activities will be: "morning"; "afternoon"; and "all day," during normal business hours for that system. The system will schedule supplemental hours during which appointments can be scheduled based on the needs of the community. If at any time an installer or technician is running late, an attempt to contact the customer will be made and the appointment rescheduled as necessary at a time that is convenient to the customer.

(10) The company will provide written information in each of the following areas at the time of installation and at any future time upon the request of the customer:

- (a) Product and services offered;
- (b) Prices and service options;
- (c) Installation and service policies;
- (d) How to use the broadband telecommunication system.

(11) Bills will be clear, concise and understandable.

(12) Refund checks will be issued promptly, but no later than the customer's next billing cycle following the receipt of the request and the return of the equipment to the company if service has been terminated.

(13) Customers will be notified a minimum of thirty (30) days in advance of any rate or channel change, provided that the change is within the control of the company.

(14) The company shall maintain and operate its network in accordance with the rules and regulations as are incorporated herein or may be promulgated by the Federal Communications Commission, the United States Congress, or the state.

(15) The company shall continue, through the term of the franchise, to maintain the technical standards and quality of service set forth in this ordinance. Should the city find, by resolution, that the company has failed to maintain these technical standards and quality of service, and should it, by resolution, specifically enumerate improvements to be made, the company shall make such improvements. Failure to make such improvements within three (3) months of such resolution will constitute a breach of a condition for which the remedy of § 9-547(2) is applicable. The company shall keep a service log which

will indicate the nature of each service complaint, the date and time it was received, the disposition of said complaint, and the time and date thereof. This log shall be made available for periodic inspection by the city. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-526. Continuity of service mandatory. (1) It shall be the right of all subscribers to continue receiving service insofar as their financial and other obligations to the company are honored. If the company elects to overbuild, rebuild, modify or sell the system, or the city gives notice of intent to terminate or fails to renew a franchise, the company shall act so as to ensure that all subscribers receive continuous, uninterrupted service regardless of the circumstances.

(2) If there is a change of franchise, or if a new operator acquires the system, the company shall cooperate with the city, new franchisee or operator in maintaining continuity of service to all subscribers. During such period, the company shall be entitled to the revenues for any period during which it operates the system, and shall be entitled to reasonable costs for its services when it no longer operates the system.

(3) If the company fails to operate the system for seven (7) consecutive days without prior approval of the city or without just cause, the city may, at its option, operate the system or designate an operator until such time as the company restores service under conditions acceptable to the city or a permanent operator is selected. If the city is required to fulfill this obligation for the company, the company shall reimburse the city for all reasonable costs or damages in excess of revenues from the system received by the city that are the result of the company's failure to perform. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-527. Complaint procedure. (1) The city mayor is designated as having primary responsibility for the continuing administration of the franchise and implementation of complaint procedures.

(2) During the terms of a franchise and any renewal thereof, the company shall maintain a business office in Shelby County for the purpose of receiving and resolving all complaints regarding the quality of service, equipment malfunctions, and similar matters. The office must be reachable by a local, toll-free telephone call to receive complaints regarding quality of service, equipment malfunctions and similar matters. The company will use its best efforts to arrange for one or more payment locations within the City of Bartlett where customers can pay bills or conduct other business activities.

(3) As subscribers are connected or reconnected to the system, the company shall by appropriate means, such as a card or brochure, furnish information concerning the procedures for making inquiries or complaints, including the name, address and local telephone number of the employee or employees or agent to whom such inquiries or complaints are to be addressed,

and furnish information concerning the city office responsible for administration of the franchise with the address and telephone number of the office.

(4) When there have been similar complaints made, or where there exists other evidence, which, in the judgment of the city, casts doubt on the reliability or quality or broadband telecommunication service, the city shall have the right and authority to require the company to test, analyze and report on the performance of the system. The company shall fully cooperate with the city in performing such testing and shall prepare results and a report, if requested, within thirty (30) days after notice. Such report shall include the following information:

- (a) The nature of the complaint or problem which precipitated the special tests;
- (b) What system component was tested;
- (c) The equipment used and procedures employed in testing;
- (d) The method, if any, in which such complaint or problem was resolved;
- (e) Any other information pertinent to the tests and analysis which may be required.

The city may require that tests be supervised, at the company's expense, by a professional engineer, not on the permanent staff of the company. The engineer should sign all records of special tests and forward to the city such records with a report interpreting the results of the tests and recommending actions to be taken.

The city's right under this section, shall be limited to requiring tests, analysis and reports covering specific subjects and characteristics based on said complaints or other evidence when and under such circumstances as the city has reasonable grounds to believe that the complaints or other evidence require that tests be performed to protect the public against substandard broadband telecommunication system service. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-528. Company rules and regulations. The company shall have the authority to promulgate such rules, regulations, terms and conditions governing the conduct of its business as shall be reasonably necessary to enable the company to exercise its rights and perform its obligations under its franchise, and to assure an uninterrupted service to each and all of its customers; provided, however, that such rules, regulations, terms and conditions shall not be in conflict with the provisions hereof or applicable state and federal laws, rules and regulations. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-529. Franchise fee. (1) For the reason that the public streets used by the company in the operation of its system within the boundaries of the city are valuable public properties acquired and maintained by the city at great expense

to its taxpayers, and that the grant to the company to the streets is a valuable property right without which the company would be required to invest substantial capital in right-of-way costs and acquisitions, the company shall pay to the city an amount that shall not exceed five percent (5%) of the company's gross annual revenue from the operations of the company within the confines of the city or contract area. If it is determined that the Federal Communications Commission lacks jurisdiction to impose the five percent (5%) limitation on franchise fees, or that the limit is or the Federal Communications Commission deletes the franchise fee limitation entirely, then the franchise fee may be changed by the city.

(2) This payment shall be in addition to any other tax or payment owed to the city by the company.

(3) The franchise fee and any other costs or penalties assessed shall be payable quarterly, to the city and the company shall file a complete and accurate verified statement of all gross receipts within the city during the period for which the quarterly payment is made. Said statement shall be filed within forty-five (45) days after the quarter is established between the city and the grantee.

(4) The city shall have the right to inspect the company's income records and the right to audit and to recompute any amounts determined to be payable under this ordinance provided, however, that such audit shall take place within thirty-six (36) months following the close of each of the company's fiscal years. Any additional amount due to the city as a result of the audit shall be paid within thirty (30) days following written notice to the company by the city which notice shall include a copy of the audit report. The city will pay for any audit conducted on the company's income record. However, if there is a discrepancy found and it totals more than five percent (5%), the company will in turn be responsible for paying auditor's cost for service rendered.

(5) If any franchise payment or recomputed amount, cost or penalty, is not made on or before the applicable dates heretofore specified, interest shall be charged daily from such date at the legal maximum rate. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-530. Transfer of ownership or control. (1) A franchise shall not be assigned or transferred, either in whole or in part, or leased, sublet or mortgaged in any manner, nor shall title thereto, either legal or equitable or any right, interest or property therein, pass to or vest in any person without the prior written consent of the city. The company may, however, transfer or assign the franchise to a wholly-owned subsidiary of the company and such subsidiary may transfer or assign the franchise back to the company without such consent. The proposed assignee must show financial responsibility as determined by the city and must agree to comply with all provisions of the franchise. The city shall be deemed to have consented to a proposed transfer or assignment if its refusal to consent is not communicated in writing to the company within one hundred

twenty (120) days following receipt of written notice of the proposed transfer or assignment. The city shall not unreasonably withhold such consent to the proposed transfer.

(2) The company shall promptly notify the city of any actual or proposed change in, or transfer of, or acquisition by any other party of, control of the company. The word "control" as used herein is not limited to major stockholders but includes actual working control in whatever manner exercised. A rebuttable presumption that a transfer of control has occurred shall arise upon the acquisition or accumulation by any person or group of persons of ten percent (10%) of the voting shares of the company. Every change, transfer or acquisition of control of the company shall make the franchise subject to cancellation unless and until the city shall have consented thereto, which consent will not be unreasonably withheld. For the purpose of determining whether it shall consent to such change, transfer or acquisition of control, the city may inquire into the qualification of the prospective controlling party, and the company shall assist the city in such inquiry.

(3) The consent or approval of the city to any transfer of the company shall not constitute a waiver or release of the rights of the city in and to the streets, and any transfer shall by its terms, be expressly subordinate to the terms and conditions of this ordinance.

(4) In the absence of extraordinary circumstances, the city will not approve any transfer or assignment of the franchise prior to substantial completion of construction of the proposed system.

(5) In no event shall a transfer of ownership or control be approved without successor in interest becoming a signatory to the franchise agreement.

(6) The board of mayor and aldermen reserves the right to review the purchase price of any transfer or assignment of the broadband telecommunications system. Any assignee to this franchise expressly agrees that any negotiated sale value which the board (acting upon professional advice) deems unreasonable will not be considered in the rate base for any subsequent request for rate increases. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-531. Availability of books and records. The company shall fully cooperate in making available at reasonable times, and the city shall have the right to inspect the books, records, maps, plans and other like materials of the company applicable to the broadband telecommunications system, at any time during normal business hours; provided where volume and convenience necessitate, the company may require inspection to take place on the company premises. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-532. Other petitions and applications. Copies of all petitions, applications, communications and reports submitted by the company to the Federal Communications Commission, Securities and Exchange Commission,

or any other federal or state regulatory commission or agency having jurisdiction in respect to any matters affecting broadband telecommunication system operations authorized pursuant to the franchise, shall be provided simultaneously to the city. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-533. Fiscal reports. (1) Upon request, the company shall file annually with the city no later than one hundred twenty (120) days after the end of the company's fiscal year, a copy of a financial report applicable to the broadband telecommunications system including an income statement applicable to its operations during the preceding twelve (12) month period, a balance sheet, and a statement of its properties devoted to system operations, by categories, giving its investment in such properties on the basis of original cost, less applicable depreciation.

(2) These reports shall be certified as correct by an authorized officer of the company and there shall be submitted along with them such other reasonable information as the city shall request with respect to the company's properties and expenses related to its operations within the city. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-534. Removal of broadband and telecommunications system. At the expiration of the terms for which a franchise is granted, or upon its termination as provided herein, the company shall forthwith, upon notice by the city, remove at its own expense all designated portions of the broadband telecommunication system from all streets and public property within the city. If the company fails to do so, the city may perform the work at the company's expense. A bond shall be furnished by the company in an amount sufficient to cover this expense. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-535. Required services and facilities. (1) The broadband telecommunications system shall have a minimum channel capacity of fifty (50) channels available for immediate use for the totality of broadband telecommunications services to be offered.

(2) Such system shall maintain a plant having the technical capacity for communications.

(3) The company may maintain the following:

(a) At least one (1) specially-designated, channel for use by non-commercial public access available on a first-come, non-discriminatory basis, and by local educational authorities and/or the county;

(b) At least one (1) specially-designated channel for local governmental uses;

(c) At least one (1) specially-designated channel for leased access uses;

(d) Provided, however, these uses may be combined on one or more channels until such time as additional channels become necessary in the opinion of the board of mayor and aldermen.

(4) The company shall incorporate into its broadband telecommunications system the capacity which will permit the city, in times of emergency, to override by remote control, the audio of all channels simultaneously. The company shall designate a channel which will be used for emergency broadcasts of both audio and video. The company shall cooperate with the city in the use and operation of the emergency alert override system.

(5) The company may be required to interconnect its system with other broadband communication facilities. Such interconnection shall be made within the time limit established by the city. The interconnection shall, at the city's discretion, be accomplished according to the method and technical standards determined by the city and generally accepted in industry practices. "Broadband communications facility," as used herein, means any network of cable, optical, electrical or electronic equipment, including broadband telecommunication systems, used for the purpose of transmitting telecommunications signals.

(a) Interconnection procedure. Upon receiving the directive of the city to interconnect, the franchisee shall immediately initiate negotiations with the other affected system or systems in order that all costs may be shared equally among companies for both construction and operation of the interconnection link.

(b) Relief. The franchisee may be granted reasonable extensions of time to interconnect or the city may rescind its order to interconnect upon petition by the franchisee to the city. The city shall grant the request if it finds that the franchisee has negotiated in good faith and has failed to obtain an approval from the operator or franchising authority of system to be interconnected, or the cost of the interconnection would cause an unreasonable or unacceptable increase in subscriber rates.

(c) Cooperation required. The franchisee shall cooperate with any interconnection corporation, regional interconnection authority or city, county, state and federal regulatory agency which may be hereafter established for the purpose of regulating, financing, or otherwise providing for the interconnection of broadband telecommunication systems beyond city boundaries.

(d) Initial technical requirements to assure future interconnection capability:

(i) All broadband telecommunication systems receiving franchises to operate within the city shall use the standard frequency allocations for television signals.

(ii) The city urges franchisees to provide local origination equipment that is compatible throughout the area so that videocassettes or videotapes can be shared by various systems.

(6) The company shall provide such additional services and facilities as are contained in its application, which is incorporated by reference herein. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-536. Rules and regulations. (1) In addition to the inherent powers of the city to regulate and control a franchise, and those powers expressly reserved by the city, or agreed to and provided for herein, the right and power is hereby reserved by the city to promulgate such additional regulations as it shall find necessary in the exercise of its lawful powers and furtherance of the terms and conditions of a franchise.

(2) The city may also adopt such regulations at the request of company upon application. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-537. Rate change procedures. Pursuant to the Cable Television Consumer Protection and Competition Act of 1992, the City of Bartlett is currently certified to regulate the basic service rates charged by grantee. Under these rules, a grantee is required to obtain approval from the city for a rate increase for any change to the rates for basic service. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-538. Advisory commission on cable television. (1) There may be established a citizens advisory commission entitled the Advisory Commission On Telecommunications. The telecommunications commission shall consist of ten (10) members. The members shall be appointed by the board of mayor and aldermen. Appointments to the telecommunications commission shall be made in conformity with applicable federal, state, and local laws regarding discrimination. Appointees may not be employed by, or have any interest in, the broadcasting, cable, or telephone business. One of the members of the commission shall be a member of the board of mayor and aldermen.

(2) Members shall serve for two (2) year staggered terms so that half the members shall have served the previous year with appointment beginning on January first and shall serve until their successors are appointed. Members may be reappointed by the board of mayor and aldermen with vacancies on the commission filled by the board of mayor and aldermen.

(3) The commission shall have the following duties and responsibilities:

(a) Advising the government regarding general policy relating to services provided subscribers and users by the telecommunications providers;

(b) Advising the government regarding general policy relating to the operation and uses of access channels with a view toward maximizing the diversity of programs and services to subscribers and users;

(c) Encouraging the use of access channels among the widest range of institutions, groups and individuals within the city;

(e) Submitting an annual report to the government including, but not limited to, a written appraisal of the performance of the company over the entire length of the franchise with regard to the provisions of the franchise, a summary and recommendations of the utilization of access channels, a review of any plans submitted during the year by the company for the development of new services, and a summary report of the commission's deliberations throughout the year in connection with its assigned functions, and any recommendations for revisions or additional provisions of the franchise. A copy of the report shall be sent within thirty (30) days of its submission to the board of mayor and aldermen and to the company;

(f) Advising the government on matters which may constitute grounds for revocation and/or termination of the franchise granted herein;

(g) Advising the government as to the granting or denying applications for new franchises or for authorization to transfer ownership of an existing franchise;

(h) Advising the government on the establishment of additional advisory commissions to address specific issues relating to the operation of the franchise. Nothing in this franchise is intended to prohibit the establishment of such advisory commissions to supervise the accessibility and operation of access channels.

(4) The telecommunications commission shall have the authority to submit proposed rules and regulations for the conduct of its business to the governments for approval and upon approval, shall have the right to hold hearings and make recommendations to the company and to the educational and governmental communities on the coordination of the educational and government access channels. All such actions shall only be advisory. (Ord. #80-26, Jan. 1981, as amended by Ord. #95-2, May 1995)

9-539. Forfeiture and termination. (1) In addition to all other rights and powers retained by the city under this ordinance or otherwise, the city reserves the right to forfeit and terminate a franchise and all rights and privileges of the company hereunder in the event of a substantial breach of its terms and conditions. A substantial breach by the company shall include, but shall not be limited to the following:

(a) Violation of any material provision of the franchise or any material rule, order, regulation or determination of the city made pursuant to the franchise;

(b) Attempt to evade any material provision of the franchise or practice any fraud or deceit upon the city or its subscribers or customers;

(c) Failure to begin or complete system construction or system extension as provided under § 9-522;

(d) Failure to provide the services promised in the company's application as incorporated herein by § 9-505;

(e) Failure to restore service after ninety-six (96) consecutive hours of interrupted service, except when approval of such interruption is obtained from the city; or

(f) Material misrepresentation of fact in the application for or negotiation of the franchise.
