TITLE 4

MUNICIPAL PERSONNEL

CHAPTER
1. PERSONNEL SYSTEM.
2. OCCUPATIONAL SAFETY AND HEALTH PROGRAM.
3. INFECTIOUS DISEASE CONTROL POLICY.
4. TRAVEL REIMBURSEMENT REGULATIONS.
5. PERSONNEL POLICY.

CHAPTER 1

PERSONNEL SYSTEM

SECTION
4-101. Purpose.
4-102. Coverage.
4-103. Administration.
4-104. Personnel rules and regulations.
4-105. Records.
4-106. Right to contract for special services.
4-107. Discrimination.

4-101. Purpose. The purpose of this chapter is to establish a system of personnel administration in the Town of Estill Springs that is based on merit and fitness. The system shall provide a means to select, develop, and maintain an effective municipal work force through impartially applying personnel policies and procedures free of personal and political considerations and regardless of race, color, gender, age, creed, national origin, or disability. (1997 Code, § 4-201)

4-102. Coverage. All offices and positions of the municipal government are divided into the classified service and the exempt service. The classified service shall include all regular full-time and regular part-time positions in the town's service, unless specifically placed in the exempt service. All offices and positions of the municipal government placed in the exempt service are as follows:
(1) All elected officials;
(2) Members of appointed boards and commissions;
(3) Consultants, advisers, and legal counsel rendering temporary professional service;
(4) Town attorney;
(5) Independent contractors;
(6) People employed by the municipality for not more than three (3) months during a fiscal year;
(7) Part-time employees paid by the hour or the day, and not considered regular;
(8) Volunteer personnel appointed without compensation; and
(9) Town judge.

All employment positions of the municipal government not expressly exempt from coverage by this section shall be subject to the provisions of the town charter. (1997 Code, § 4-202)

4-103. Administration. The personnel system shall be administered by the mayor, who shall have the following duties and responsibilities:

(1) Exercise leadership in developing an effective personnel administration system subject to provisions in this chapter, other ordinances, the town charter, and federal and state laws relating to personnel administration;
(2) Recommend to the board of mayor and aldermen policies and procedures for recruiting, appointing, and disciplining all employees of the municipality subject to those policies as set forth in this chapter, the town charter, and the municipal code;
(3) Fix and establish the number of employees in the various town departments and offices and determine the duties, authority, responsibility, and compensation in accordance with the policies as set forth in the town charter and code, and subject to the approval of the board of mayor and aldermen and budget limitations;
(4) Foster and develop programs for improving employee effectiveness, including training, safety, and health;
(5) Maintain records of all employees, subject to the provisions of this chapter of the town code, which shall include each employee's class, title, pay rates, and other relevant data;
(6) Make periodic reports to the board of mayor and aldermen regarding administering the personnel system;
(7) Prepare and recommend to the board of mayor and aldermen a pay plan for all municipal government employees;
(8) Develop and administer such recruiting programs as may be necessary to obtain an adequate supply of competent applicants to meet the employment needs of the municipal government;
(9) Be responsible for certification of payrolls; and
(10) Perform such other duties and exercise such other authority in personnel administration as may be prescribed by law. (1997 Code, § 4-203)

4-104. Personnel rules and regulations. The mayor shall develop a set of personnel rules and regulations necessary for effectively administering the personnel system. Said rules shall be adopted by board of mayor and aldermen
via ordinance. Amendments to the personnel rules and regulations shall be made via ordinance adopted by the board during a public meeting. Nothing in the personnel rules and regulations document shall be deemed to give employees any more property rights in their job than may already be given by the town charter. The town reserves the right to alter or change any or all of these rules without prior notice to employees. (1997 Code, § 4-204, modified)

4-105. Records. The mayor, or his designee, shall maintain adequate records of the employment record of every employee as specified herein. (1997 Code, § 4-205)

4-106. Right to contract for special services. The board of mayor and aldermen may contract with any competent agency for performing such technical services in connection with the establishment of the personnel system or with its operation as may be deemed necessary. (1997 Code, § 4-206)

4-107. Discrimination. No person in the classified service or seeking admission thereto shall be employed, promoted, demoted, discharged, or in any way favored or discriminated against because of political opinions or affiliations, race, color, creed, national origin, gender, age, religious belief, or disability. (1997 Code, § 4-207)
CHAPTER 2

OCCUPATIONAL SAFETY AND HEALTH PROGRAM

SECTION

4-201. Title.
4-202. Purpose.
4-203. Coverage.
4-204. Standards authorized.
4-205. Variances from standards authorized.
4-206. Administration.
4-207. Funding the program.

4-201. Title. This section shall be known as "the occupational safety and health program plan" for the employees of the Town of Estill Springs. (Ord. #13-397, April 2013, as replaced by Ord. #20-438, April 2020 Ch1_12-01-22)

4-202. Purpose. The board of mayor and aldermen in electing to update the established program plan will maintain an effective and comprehensive occupational safety and health program plan for its employees and shall:

(1) Provide a safe and healthful place and condition of employment that includes:
   (a) Top management commitment and employee involvement;
   (b) Continually analyze the worksite to identify all hazards and potential hazards;
   (c) Develop and maintain methods for preventing or controlling the existing or potential hazards; and
   (d) Train managers, supervisors, and employees to understand and deal with worksite hazards.

(2) Acquire, maintain and require the use of safety equipment, personal protective equipment and devices reasonably necessary to protect employees.

(3) Record, keep, preserve, and make available to the Commissioner of Labor and Workforce Development, or persons within the Department of Labor and Workforce Development to whom such responsibilities have been delegated, adequate records of all occupational accidents and illnesses and personal injuries for proper evaluation and necessary corrective action as required.

(4) Consult with the Commissioner of Labor and Workforce Development with regard to the adequacy of the form and content of records.

(5) Consult with the Commissioner of Labor and Workforce Development, as appropriate, regarding safety and health problems which are considered to be unusual or peculiar and are such that they cannot be achieved under a standard promulgated by the state.
(6) Provide reasonable opportunity for the participation of employees in the effectuation of the objectives of this program plan, including the opportunity to make anonymous complaints concerning conditions or practices injurious to employee safety and health.

(7) Provide for education and training of personnel for the fair and efficient administration of occupational safety and health standards, and provide for education and notification of all employees of the existence of this program plan. (Ord. #13-397, April 2013, as replaced by Ord. #20-438, April 2020 Ch1_12-01-22)

4-203. Coverage. The provisions of the Occupational Safety and Health Program Plan for the employees of Town of Estill Springs shall apply to all employees of each administrative department, commission, board, division, or other agency whether part-time or full-time, seasonal or permanent. (Ord. #13-397, April 2013, as replaced by Ord. #20-438, April 2020 Ch1_12-01-22)

4-204. Standards authorized. The occupational safety and health standards adopted by the Town of Estill Springs are the same as, but not limited to, the State of Tennessee Occupational Safety and Health Standards promulgated, or which may be promulgated, in accordance with section 6 of the Tennessee Occupational Safety and Health Act of 1972. (Tennessee Code Annotated, title 50, chapter 3). (Ord. #13-397, April 2013, as replaced by Ord. #20-438, April 2020 Ch1_12-01-22)

4-205. Variances from standards authorized. Upon written application to the Commissioner of Labor and Workforce Development of the State of Tennessee, we may request an order granting a temporary variance from any approved standards. Applications for variances shall be in accordance with Rules of Tennessee Department of Labor and Workforce Development Occupational Safety and Health, VARIANCES FROM OCCUPATIONAL SAFETY AND HEALTH STANDARDS, CHAPTER 0800-01-02, as authorized by Tennessee Code Annotated, title 50. Prior to requesting such temporary variance, we will notify or serve notice to our employees, their designated representatives, or interested parties and present them with an opportunity for a hearing. The posting of notice on the main bulletin board shall be deemed sufficient notice to employees. (Ord. #13-397, April 2013, as replaced by Ord. #20-438, April 2020 Ch1_12-01-22)

4-206. Administration. For the purposes of this chapter, department heads are designated as the Safety Director of Occupational Safety and Health to perform duties and to exercise powers assigned to plan, develop, and administer this program plan. The safety director shall develop a plan of operation for the program plan in accordance with Rules of Tennessee Department of Labor and Workforce Development Occupational Safety and
4-207. **Funding the program.** Sufficient funds for administering and staffing the program pursuant to this chapter shall be made available as authorized by the Town of Estill Springs. (Ord. #13-397, April 2013, as replaced by Ord. #20-438, April 2020 *Ch1_12-01-22*)
CHAPTER 3

INFECTIOUS DISEASE CONTROL POLICY

SECTION
4-301. Purpose.
4-302. Coverage.
4-303. Administration.
4-304. Definitions.
4-305. Policy statement.
4-306. General guidelines.
4-307. Hepatitis B vaccinations.
4-308. Reporting potential exposure.
4-309. Hepatitis B virus post-exposure management.
4-310. Human immunodeficiency virus post-exposure management.
4-311. Disability benefits.
4-312. Training regular employees.
4-313. Training high risk employees.
4-314. Training new employees.
4-315. Records and reports.
4-316. Legal rights of victims of communicable diseases.

4-301. **Purpose.** It is the responsibility of the Town of Estill Springs to provide employees a place of employment which is free from recognized hazards that may cause death or serious physical harm. In providing services to the citizens of the Town of Estill Springs, employees may come in contact with life-threatening infectious diseases which can be transmitted through job related activities. It is important that both citizens and employees are protected from the transmission of diseases just as it is equally important that neither is discriminated against because of basic misconceptions about various diseases and illnesses.

The purpose of this policy is to establish a comprehensive set of rules and regulations governing the prevention of discrimination and potential occupational exposure to Hepatitis B Virus (HBV), the Human Immunodeficiency Virus (HIV), and Tuberculosis (TB).

4-302. **Coverage.** Occupational exposures may occur in many ways, including needle sticks, cut injuries or blood spills. Several classes of employees are assumed to be at high risk for blood borne infections due to their routinely increased exposure to body fluids from potentially infected individuals. Those high risk occupations include but are not limited to:

1. Paramedics and emergency medical technicians;
2. Occupational nurses;
3. Housekeeping and laundry workers;
(4) Police and security personnel;
(5) Firefighters;
(6) Sanitation and landfill workers; and
(7) Any other employee deemed to be at high risk per this policy and an exposure determination.

4-303. Administration. This infection control policy shall be administered by the mayor or his/her designated representative who shall have the following duties and responsibilities:

(1) Exercise leadership in implementation and maintenance of an effective infection control policy subject to the provisions of this chapter, other ordinances, the town charter, and federal and state law relating to OSHA regulations;
(2) Make an exposure determination for all employee positions to determine a possible exposure to blood or other potentially infectious materials;
(3) Maintain records of all employees and incidents subject to the provisions of this chapter;
(4) Conduct periodic inspections to determine compliance with the infection control policy by municipal employees;
(5) Coordinate and document all relevant training activities in support of the infection control policy;
(6) Prepare and recommend to the board of mayor and aldermen any amendments or changes to the infection control policy;
(7) Identify any and all housekeeping operations involving substantial risk of direct exposure to potentially infectious materials and shall address the proper precautions to be taken while cleaning rooms and blood spills; and
(8) Perform such other duties and exercise such other authority as may be prescribed by the board of mayor and aldermen.

4-304. Definitions. (1) "Body fluids" - fluids that have been recognized by the Center for Disease Control as directly linked to the transmission of HIV and/or HBV and/or to which universal precautions apply: blood, semen, blood products, vaginal secretions, cerebrospinal fluid, synovial fluid, pericardial fluid, amniotic fluid, and concentrated HIV or HBV viruses.
(2) "Exposure" - the contact with blood or other potentially infectious materials to which universal precautions apply through contact with open wounds, non-intact skin, or mucous membranes during the performance of an individual's normal job duties.
(3) "Hepatitis B Virus (HBV)" - a serious blood-borne virus with potential for life-threatening complications. Possible complications include: massive hepatic necrosis, cirrhosis of the liver, chronic active hepatitis, and hepatocellular carcinoma.
(4) "Human Immunodeficiency Virus (HIV)" - the virus that causes acquired immunodeficiency syndrome (AIDS). HIV is transmitted through
sexual contact and exposure to infected blood or blood components and perinatally from mother to neonate.

(5) "Tuberculosis (TB)" - an acute or chronic communicable disease that usually affects the respiratory system, but may involve any system in the body.

(6) "Universal precautions" - refers to a system of infectious disease control which assumes that every direct contact with body fluid is infectious and requires every employee exposed to direct contact with potentially infectious materials to be protected as though such body fluid were HBV or HIV infected.

4-305. Policy statement. All blood and other potentially infectious materials are infectious for several blood-borne pathogens. Some body fluids can also transmit infections. For this reason, the Center for Disease Control developed the strategy that everyone should always take particular care when there is a potential exposure. These precautions have been termed "universal precautions."

Universal precautions stress that all persons should be assumed to be infectious for HIV and/or other blood-borne pathogens. Universal precautions apply to blood, tissues, and other potentially infectious materials. Universal precautions also apply to semen, (although occupational risk or exposure is quite limited), vaginal secretions, and to cerebrospinal, synovial, pleural, peritoneal, pericardial and amniotic fluids. Universal precautions do not apply to feces, nasal secretions, human breast milk, sputum, saliva, sweat, tears, urine, and vomitus unless these substances contain visible blood.

4-306. General guidelines. General guidelines which shall be used by everyone include:

(1) Think when responding to emergency calls and exercise common sense when there is potential exposure to blood or other potentially infectious materials which require universal precautions.

(2) Keep all open cuts and abrasions covered with adhesive bandages which repel liquids.

(3) Soap and water kill many bacteria and viruses on contact. If hands are contaminated with blood or other potentially infectious materials to which universal precautions apply, then wash immediately and thoroughly. Hands shall also be washed after gloves are removed even if the gloves appear to be intact. When soap and water or handwashing facilities are not available, then use a waterless antiseptic hand cleaner according to the manufacturers recommendation for the product.

(4) All workers shall take precautions to prevent injuries caused by needles, scalpel blades, and other sharp instruments. To prevent needle stick injuries, needles shall not be recapped, purposely bent or broken by hand, removed from disposable syringes, or otherwise manipulated by hand. After they are used, disposable syringes and needles, scalpel blades and other sharp items
shall be placed in puncture resistant containers for disposal. The puncture resistant container shall be located as close as practical to the use area.

(5) The town will provide gloves of appropriate material, quality and size for each affected employee. The gloves are to be worn when there is contact (or when there is a potential contact) with blood or other potentially infectious materials to which universal precautions apply:

(a) While handling an individual where exposure is possible;
(b) While cleaning or handling contaminated items or equipment;
(c) While cleaning up an area that has been contaminated with one of the above;

Gloves shall not be used if they are peeling, cracked, or discolored, or if they have punctures, tears, or other evidence of deterioration. Employees shall not wash or disinfect surgical or examination gloves for reuse.

(6) Resuscitation equipment shall be used when necessary. (No transmission of HBV or HIV infection during mouth-to-mouth resuscitation has been documented.) However, because of the risk of salivary transmission of other infectious diseases and the theoretical risk of HIV or HBV transmission during artificial resuscitation, bags shall be used. Pocket mouth-to-mouth resuscitation masks designed to isolate emergency response personnel from contact with a victims' blood and blood contaminated saliva, respiratory secretion, and vomitus, are available to all personnel to provide or potentially provide emergency treatment.

(7) Masks or protective eyewear or face shields shall be worn during procedures that are likely to generate droplets of blood or other potentially infectious materials to prevent exposure to mucous membranes of the mouth, nose, and eyes. They are not required for routine care.

(8) Gowns, aprons, or lab coats shall be worn during procedures that are likely to generate splashes of blood or other potentially infectious materials.

(9) Areas and equipment contaminated with blood shall be cleaned as soon as possible. A household (chlorine) bleach solution (1 part chlorine to 10 parts water) shall be applied to the contaminated surface as a disinfectant leaving it on for a least thirty (30) seconds. A solution must be changed and re-mixed every twenty-four (24) hours to be effective.

(10) Contaminated clothing (or other articles) shall be handled carefully and washed as soon as possible. Laundry and dish washing cycles at one hundred twenty degrees (120°C) are adequate for decontamination.

(11) Place all disposable equipment (gloves, masks, gowns, etc.) in a clearly marked plastic bag. Place the bag in a second clearly marked bag (double bag). Seal and dispose of by placing in a designated "hazardous" dumpster. **NOTE:** Sharp objects must be placed in an impervious container and shall be properly disposed of.

(12) Tags shall be used as a means of preventing accidental injury or illness to employees who are exposed to hazardous or potentially hazardous
conditions, equipment or operations which are out of the ordinary, unexpected or not readily apparent. Tags shall be used until such time as the identified hazard is eliminated or the hazardous operation is completed.

All required tags shall meet the following criteria:

(a) Tags shall contain a signal word and a major message. The signal word shall be "BIOHAZARD," or the biological hazard symbol. The major message shall indicate the specific hazardous condition or the instruction to be communicated to employees.

(b) The signal word shall be readable at a minimum distance of five feet (5') or such greater distance as warranted by the hazard.

(c) All employees shall be informed of the meaning of the various tags used throughout the workplace and what special precautions are necessary.

(13) Linen soiled with blood or other potentially infectious materials shall be handled as little as possible and with minimum agitation to prevent contamination of the person handling the linen. All soiled linen shall be bagged at the location where it was used. It shall not be sorted or rinsed in the area. Soiled linen shall be placed and transported in bags that prevent leakage.

The employee responsible for transported soiled linen should always wear protective gloves to prevent possible contamination. After removing the gloves, hands or other skin surfaces shall be washed thoroughly and immediately after contact with potentially infectious materials.

(14) Whenever possible, disposable equipment shall be used to minimize and contain clean-up.

4-307. **Hepatitis B vaccinations.** The Town of Estill Springs shall offer the appropriate Hepatitis B vaccination to employees at risk of exposure free of charge and in amounts and at times prescribed by standard medical practices. The vaccination shall be voluntarily administered. High risk employees who wish to take the HBV vaccination should notify their department head who shall make the appropriate arrangements through the Infectious Disease Control Coordinator.

4-308. **Reporting potential exposure.** Town employees shall observe the following procedures for reporting a job exposure incident that may put them at risk for HIV or HBV infections (i.e., needle sticks, blood contact on broken skin, body fluid contact with eyes or mouth, etc.):

(1) Notify the Infectious Disease Control Coordinator of the contact incident and details thereof.

(2) Complete the appropriate accident reports and any other specific form required.

(3) Arrangements will be made for the person to be seen by a physician as with any job-related injury.
Once an exposure has occurred, a blood sample should be drawn after consent is obtained from the individual from whom exposure occurred and tested for Hepatitis B surface antigen (HBsAg) and/or antibody to human immunodeficiency virus (HIV antibody). Testing of the source individual should be done at a location where appropriate pretest counseling is available. Post-test counseling and referral for treatment should also be provided.

4-309. **Hepatitis B virus post-exposure management.** For an exposure to a source individual found to be positive for HBsAg, the worker who has not previously been given the hepatitis B vaccine should receive the vaccine series. A single dose of hepatitis B immune globulin (HBIG) is also recommended, if it can be given within seven (7) days of exposure.

For exposure from an HBsAg-positive source to workers who have previously received the vaccine, the exposed worker should be tested for antibodies to hepatitis B surface antigen (anti-HBs), and given one dose of vaccine and one dose of HBIG if the antibody level in the worker's blood sample is inadequate (i.e., 10 SRU by RIA, negative by EIA).

If the source individual is negative for HBsAg and the worker has not been vaccinated, this opportunity should be taken to provide the hepatitis B vaccine series. HBIG administration should be considered on an individual basis when the source individual is known or suspected to be at high risk of HBV infection. Management and treatment, if any, of previously vaccinated workers who receive an exposure from a source who refuses testing or is not identifiable should be individualized.

4-310. **Human immunodeficiency virus post-exposure management.** For any exposure to a source individual who has AIDS, who is found to be positive for HIV infection, or who refuses testing, the worker should be counseled regarding the risk of infection and evaluated clinically and serologically for evidence of HIV infection as soon as possible after the exposure. The worker should be advised to report and seek medical evaluation for any acute febrile illness that occurs within twelve (12) weeks after the exposure. Such an illness, particularly one characterized by fever, rash, or lymphadenopathy, may be indicative of recent HIV infection.

Following the initial test at the time of exposure, seronegative workers should be retested six (6) weeks, twelve (12) weeks, and six (6) months after exposure to determine whether transmission has occurred. During this follow-up period (especially the first six to twelve (6-12) weeks after exposure) exposed workers should follow the U.S. Public Health service recommendation for preventing transmission of HIV. These include refraining from blood donations and using appropriate protection during sexual intercourse. During all phases of follow-up, it is vital that worker confidentiality be protected.

If the source individual was tested and found to be seronegative, baseline testing of the exposed worker with follow-up testing twelve (12) weeks later may
be performed if desired by the worker or recommended by the health care provider. If the source individual cannot be identified, decisions regarding appropriate follow-up should be individualized. Serologic testing should be made available by the town to all workers who may be concerned they have been infected with HIV through an occupational exposure.

4-311. **Disability benefits.** Entitlement to disability benefits and any other benefits available for employees who suffer from on-the-job injuries will be determined by the Tennessee Worker's Compensations Bureau in accordance with the provisions of *Tennessee Code Annotated*, § 50-6-303.

4-312. **Training regular employees.** On an annual basis all employees shall receive training and education on precautionary measures, epidemiology, modes of transmission and prevention of HIV/HBV infection and procedures to be used if they are exposed to needle sticks or potentially infectious materials. They shall also be counseled regarding possible risks to the fetus from HIV/HBV and other associated infectious agents.

4-313. **Training high risk employees.** In addition to the above, high risk employees shall also receive training regarding the location and proper use of personal protective equipment. They shall be trained concerning proper work practices and understand the concept of "universal precautions" as it applies to their work situation. They shall also be trained about the meaning of color coding and other methods used to designate contaminated material. Where tags are used, training shall cover precautions to be used in handling contaminated material as per this policy.

4-314. **Training new employees.** During the new employee's orientation to his/her job, all new employee will be trained on the effects of infectious disease prior to putting them to work.

4-315. **Records and reports.** (1) **Reports.** Occupational injury and illness records shall be maintained by the infectious disease control coordinator. Statistics shall be maintained on the OSHA-200 report. Only those work-related injuries that involve loss of consciousness, transfer to another job, restriction of work or motion, or medical treatment are required to be put on the OSHA-200.

(2) **Needle sticks.** Needle sticks, like any other puncture wound, are considered injuries for recordkeeping purposes due to the instantaneous nature of the event. Therefore, any needle stick requiring medical treatment (i.e. gamma globulin, hepatitis B immune globulin, hepatitis B vaccine, etc.) shall be recorded.

(3) **Prescription medication.** Likewise, the use of prescription medication (beyond a single dose for minor injury or discomfort) is considered medical treatment. Since these types of treatment are considered necessary, and
must be administered by physician or licensed medical personnel, such injuries cannot be considered minor and must be reported.

(4) Employee interviews. Should the town be inspected by the U.S. Department of Labor Office of Health Compliance, the compliance safety and health officer may wish to interview employees. Employees are expected to cooperate fully with the compliance officers.

4-316. Legal rights of victims of communicable diseases. Victims of communicable diseases have the legal right to expect, and municipal employees, including police and emergency service officers are duty bound to provide, the same level of service and enforcement as any other individual would receive.

(1) Officers assume that a certain degree of risk exists in law enforcement and emergency service work and accept those risks with their individual appointments. This holds true with any potential risks of contacting a communicable disease as surely as it does with the risks of confronting an armed criminal.

(2) Any officer who refuses to take proper action in regard to victims of a communicable disease, when appropriate protective equipment is available, shall be subject to disciplinary measures along with civil and, or criminal prosecution.

(3) Whenever an officer mentions in a report that an individual has or may have a communicable disease, he shall write "contains confidential medical information" across the top margin of the first page of the report.

(4) The officer's supervisor shall ensure that the above statement is on all reports requiring that statement at the time the report is reviewed and initiated by the supervisor.

(5) The supervisor disseminating newspaper releases shall make certain the confidential information is not given out to the news media.

(6) All requests (including subpoenas) for copies of reports marked "contains confidential medical information" shall be referred to the town attorney when the incident involves an indictable or juvenile offense.

(7) Prior approval shall be obtained from the town attorney before advising a victim of sexual assault that the suspect has, or is suspected of having a communicable disease.

(8) All circumstance, not covered in this policy, that may arise concerning releasing confidential information regarding a victim, or suspected victim, of a communicable disease shall be referred directly to the appropriate department head or town attorney.

(9) Victims of a communicable disease and their families have a right to conduct their lives without fear of discrimination. An employee shall not make public, directly or indirectly, the identity of a victim or suspected victim of a communicable disease.
(10) Whenever an employee finds it necessary to notify another employee, police officer, firefighter, emergency service officer, or health care provider that a victim has or is suspected of having a communicable disease, that information shall be conveyed in a dignified, discrete and confidential manner. The person to whom the information is being conveyed should be reminded that the information is confidential and that it should not be treated as public information.

(11) Any employee who disseminates confidential information in regard to a victim, or suspected victim of a communicable disease in violation of this policy shall be subject to serious disciplinary action and/or civil and/or criminal prosecution.
CHAPTER 4

TRAVEL REIMBURSEMENT REGULATIONS

SECTION
4-401. Purpose.
4-402. Enforcement.
4-403. Travel policy.
4-404. Travel reimbursement rate schedule.
4-405. Administrative procedures.

4-401. Purpose. The purpose of this chapter and referenced regulations is to bring the town into compliance with Public Acts 1993, chapter 433. This act requires Tennessee municipalities to adopt travel and expense regulations covering expenses incurred by "any mayor and any member of the local governing body and any board or committee member elected or appointed by the mayor or local governing body, and any official or employee of the municipality whose salary is set by charter or general law."

To provide consistent travel regulations and reimbursement, this chapter is expanded to cover regular town employees. It's the intent of this policy to assure fair and equitable treatment to all individuals traveling on town business at town expense.

4-402. Enforcement. The Chief Administrative Officer (CAO) of the town or his or her designee shall be responsible for the enforcement of these travel regulations. (1997 Code, § 4-501)

4-402. Travel policy. (1) In the interpretation and application of this chapter, the term "traveler" or "authorized travel" means any elected or appointed municipal officer or employee, including members of municipal boards and committees appointed by the mayor or the municipal governing body, and the employees of such boards and committees who are traveling on official municipal business and whose travel was authorized in accordance with this chapter. "Authorized traveler" shall not include the spouse, children, other relatives, friends, or companions accompanying the authorized traveler on town business, unless the person(s) otherwise qualifies as an authorized traveler under this chapter.

(2) Authorized travelers are entitled to reimbursement of certain expenditures incurred while traveling on official business for the town. Reimbursable expenses shall include expenses for transportation; lodging; meals; registration fees for conferences, conventions, and seminars; and other actual and necessary expenses related to official business as determined by the chief administrative officer. Under certain conditions, entertainment expenses may be eligible for reimbursement.
(3) Authorized travelers can request either a travel advance for the projected cost of authorized travel, or advance billing directly to the town for registration fees, air fares, meals, lodging, conferences, and similar expenses. Travel advance requests are not considered documentation of travel expenses. If travel advances exceed documented expenses, the traveler must immediately reimburse the town. It will be the responsibility of the chief administrative officer to initiate action to recover any undocumented travel advances.

(4) Travel advances are available only for special travel and only after completion and approval of the travel authorization form.

(5) The travel expense reimbursement form will be used to document all expense claims.

(6) To qualify for reimbursement, travel expenses must be:
   (a) Directly related to the conduct of the town business for which travel was authorized, and
   (b) Actual, reasonable, and necessary under the circumstances.

   The chief administrative officer may make exceptions for unusual circumstances.

   Expenses considered excessive won’t be allowed.

(7) Claims of five dollars ($5.00) or more for travel expense reimbursement must be supported by the original paid receipt for lodging, vehicle rental, phone call, public carrier travel, conference fee, and other reimbursable costs.

(8) Any person attempting to defraud the town or misuse town travel funds is subject to legal action for recovery of fraudulent travel claims and/or advances.

(9) Mileage and motel expenses incurred within the town are not ordinarily considered eligible expenses for reimbursement. (1997 Code, § 4-502)

4-403. Travel reimbursement rate schedule. Authorized travelers shall be reimbursed according to the federal travel regulation rates. The town’s travel reimbursement rates will automatically change when the federal rates are adjusted.

The municipality may pay directly to the provider for expenses such as meals, lodging, and registration fees for conferences, conventions, seminars, and other education programs. (1997 Code, § 4-503)

4-404. Administrative procedures. The town adopts and incorporates by reference—as if fully set out herein—the administrative procedures submitted by MTAS to, and approved by letter by, the Comptroller of the Treasury, State of Tennessee. A copy of the administrative procedures is on file in the office of the recorder. (1997 Code, § 4-504)
CHAPTER 5
PERSONNEL POLICY

SECTION
4-501. Personnel regulations.

4-501. Personnel regulations. The personnel policy manual for the Town of Estill Springs is adopted by reference herein as if set out verbatim.¹

¹Ordinance #15-409 (and any amendments) adopts the personnel regulations for the Town of Estill Springs. It is available for viewing in the office of the recorder.
