PREFACE

The Harrogate Municipal Code contains the codification and revision of the ordinances of the City of Harrogate, Tennessee. By referring to the historical citation appearing at the end of each section, the user can determine the origin of each particular section. The absence of a historical citation means that the section was added by the codifier. The word “modified” in the historical citation indicates significant modification of the original ordinance.

The code is arranged into titles, chapters, and sections. Related matter is kept together, so far as possible, within the same title. Each section number is complete within itself, containing the title number, the chapter number, and the section of the chapter of which it is a part. Specifically, the first digit, followed by a hyphen, identifies the title number. The second digit identifies the chapter number, and the last two digits identify the section number. For example, title 2, chapter 1, section 6, is designated as section 2-106.

By utilizing the table of contents and the analysis preceding each title and chapter of the code, together with the cross references and explanations included as footnotes, the user should locate all the provisions in the code relating to any question that might arise. However, the user should note that most of the administrative ordinances (e.g. Annual Budget, Zoning Map Amendments, Tax Assessments, etc...) do not appear in the code. Likewise, ordinances that have been passed since the last update of the code do not appear here. Therefore, the user should refer to the city's ordinance book or the city recorder for a comprehensive and up to date review of the city's ordinances.

Following this preface is an outline of the ordinance adoption procedures, if any, prescribed by the city's charter.

The code has been arranged and prepared in loose-leaf form to facilitate keeping it up to date. MTAS will provide updating service under the following conditions:

(1) That all ordinances relating to subjects treated in the code or which should be added to the code are adopted as amending, adding, or deleting specific chapters or sections of the code (see section 7 of the adopting ordinance).

(2) That one copy of every ordinance adopted by the city is kept in a separate ordinance book and forwarded to MTAS annually.
(3) That the city agrees to pay the annual update fee as provided in the MTAS codification service charges policy in effect at the time of the update.

When the foregoing conditions are met MTAS will reproduce replacement pages for the code to reflect the amendments and additions made by such ordinances. This service will be performed at least annually and more often if justified by the volume of amendments. Replacement pages will be supplied with detailed instructions for utilizing them so as again to make the code complete and up to date.

The able assistance of the codes team, Emily Keyser, Linda Winstead, Nancy Gibson, and Doug Brown, is gratefully acknowledged.

interest on a form provided by and filed with the recorder. In addition, the official or employee may, to the extent allowed by law, charter, ordinance, or policy, recuse himself from the exercise of discretion in the matter. (Ord. #56, Dec. 2006)

1-405. **Acceptance of gratuities, etc.** An official or employee may not accept, directly or indirectly, any money, gift, gratuity, or other consideration or favor of any kind from anyone other than the city:

1. For the performance of an act, or refraining from performance of an act, that he would be expected to perform, or refrain from performing, in the regular course of his duties; or
2. That might reasonably be interpreted as an attempt to influence his action, or reward him for past action, in executing municipal business. (Ord. #56, Dec. 2006)

1-406. **Use of information.** (1) An official or employee may not disclose any information obtained in his official capacity or position of employment that is made confidential under state or federal law except as authorized by law.

2. An official or employee may not use or authorize the use of municipal time, facilities, equipment, or supplies for private gain or advantage to any private person or entity, except as authorized by legitimate contract or lease that is determined by the governing body to be in the best interests of the city. (Ord. #56, Dec. 2006)

(2) (a) Except as otherwise provided in this subsection, the city attorney shall investigate any credible complaint against an appointed official or employee charging any violation of this chapter, or may undertake an investigation on his own initiative when he acquires information indicating a possible violation, and make recommendations for action to end or seek retribution for any activity that, in the attorney’s judgment, constitutes a violation of this code of ethics.

(b) The city attorney may request the board of mayor and aldermen to hire another attorney, individual, or entity to act as ethics officer when he has or will have a conflict of interests in a particular matter.

(c) When a complaint of a violation of any provision of this chapter is lodged against a member of the city’s board of mayor and aldermen, the board of mayor and aldermen shall either determine that the complaint has merit, determine that the complaint does not have merit, or determine that the complaint has sufficient merit to warrant further investigation. If the board of mayor and aldermen determines that a complaint warrants further investigation, it shall authorize an investigation by the city attorney or another individual or entity chosen by the governing body.

(3) The interpretation that a reasonable person in the circumstances would apply shall be used in interpreting and enforcing this code of ethics.

(4) When a violation of this code of ethics also constitutes a violation of a personnel policy, rule, or regulation or a civil service policy, rule, or regulation, the violation shall be dealt with as a violation of the personnel or civil service provisions rather than as a violation of this code of ethics. (Ord. #56, Dec. 2006)

1-411. Violations. An elected official or appointed member of a separate municipal board, commission, committee, authority, corporation, or other instrumentality who violates any provision of this chapter is subject to punishment as provided by the municipality’s charter or other applicable law, and in addition is subject to censure by the board of mayor and aldermen. However, no beer permit shall be revoked or suspended until a public hearing is held by the board after reasonable notice to all the known parties in interest. Revocation or suspension proceedings may be initiated by the police chief or by any member of the beer board.

(2) Pursuant to Tennessee Code Annotated, § 57-5-608, the beer board shall not revoke or suspend the permit of a “responsible vendor” qualified under
the requirements of Tennessee Code Annotated § 57-5-606 for a clerk’s illegal sale of beer to a minor if the clerk is properly certified and has attended annual meetings since the clerk’s original certification, unless the vendor’s status as a certified responsible vendor has been revoked by the alcoholic beverage commission. If the responsible vendor’s certification has been revoked, the vendor shall be punished by the beer board as if the vendor were not certified as a responsible vendor. “Clerk” means any person working in a capacity to sell beer directly to consumers for off-premises consumption. Under Tennessee Code Annotated, § 57-5-608, the alcoholic beverage commission shall revoke a vendor’s status as a responsible vendor upon notification by the beer board that the board has made a final determination that the vendor has sold beer to a minor for the second time in a consecutive twelve (12) month period. The revocation shall be for three (3) years.

(2) Penalty, revocation or suspension. The beer board may, at the time it imposes a revocation or suspension, offer a permit holder that is not a responsible vendor the alternative of paying a civil penalty not to exceed two thousand five hundred dollars ($2,500.00) for each offense of making or permitting to be made any sales to minors, or a civil penalty not to exceed one thousand dollars ($1,000.00) for any other offense.

(3) The beer board may impose on a responsible vendor a civil penalty not to exceed one thousand dollars ($1,000.00) for each offense of making or permitting to be made any sales to minors or for any other offense.

(4) If a civil penalty is offered as an alternative to revocation or suspension, the holder shall have seven (7) days within which to pay the civil penalty before the revocation or suspension shall be imposed. If the civil penalty is paid within that time, the revocation or suspension shall be deemed withdrawn.

(5) Payment of the civil penalty in lieu of revocation or suspension by a permit holder shall be an admission by the holder of the violation so charged and shall be paid to the exclusion of any other penalty that the city may impose.

8-216. Loss of clerk’s certification for sale to minor. If the beer board determines that a clerk of an off-premises beer permit holder certified under Tennessee Code Annotated, § 57-5-606, sold beer to a minor, the beer board shall report the name of the clerk to the alcoholic beverage commission within fifteen (15) days of determination of the sale. The certification of the
clerk shall be invalid and the clerk may not reapply for a new certificate for a period of one (1) year from the date of the beer board’s determination.

13-301. Definitions.
13-303. Screening methods.
13-304. Requirements for effective screening.
13-308. Permits and fees.
13-309. Violations and penalty.

13-301. Definitions. (1) "Junk" shall mean old or scrap copper, brass, rope, rags, batteries, paper, trash, rubber, debris, waste, or junked, dismantled, or wrecked automobiles, trucks, vehicles of all kinds, or parts thereof, iron, steel, and other old or scrap ferrous or nonferrous material.

(2) "Junkyard" shall mean an establishment or place of business which is maintained, operated, or used for storing, keeping, buying, or selling junk, or for the maintenance or operation of an automobile graveyard. This definition includes scrap metal processors, used auto parts yards, yards providing temporary storage of automobile bodies or parts awaiting disposal as a normal part of the business operation when the business will continually have like materials located on the premises, garbage dumps, sanitary landfills, and recycling centers.

(3) "Recycling center" means an establishment, place of business, facility or building which is maintained, operated, or used for the storing, keeping, buying, or selling of newspaper or used food or beverage containers or plastic containers for the purpose of converting such items into a usable product.

(4) "Person" means any individual, firm, agency, company, association, partnership, business trust, joint stock company, body politic, or corporation.

(5) "Screening" means the use of plantings, fencing, natural objects, and other appropriate means which screen any deposit of junk so that the junk is not visible from the highways and streets of the city.

13-302. Junkyard screening. Every junkyard shall be screened or otherwise removed from view by its owner or operator in such a manner as to bring the junkyard into compliance with this chapter.

13-303. Screening methods. The following methods and materials for screening are given for consideration only:
(1) **Landscape planting.** The planting of trees, shrubs, etc., of sufficient size and density to provide a year-round effective screen. Plants of the evergreen variety are recommended.

(2) **Earth grading.** The construction of earth mounds which are graded, shaped, and planted to a natural appearance.

(3) **Architectural barriers.** The utilization of:
   (a) Panel fences made of metal, plastic, fiberglass, or plywood.
   (b) Wood fences of vertical or horizontal boards using durable woods such as western cedar or redwood or others treated with a preservative.
   (c) Walls of masonry, including plain or ornamented concrete block, brick, stone, or other suitable materials.

(4) **Natural objects.** Naturally occurring rock outcrops, woods, earth mounds, etc., may be utilized for screening or used in conjunction with fences, plantings, or other appropriate objects to form an effective screen.

**13-304. Requirements for effective screening.** Screening may be accomplished using natural objects, earth mounds, landscape plantings, fences, or other appropriate materials used singly or in combination as approved by the city. The effect of the completed screening must be the concealment of the junkyard from view on a year-round basis.

   (1) Screens which provide a "see-through" effect when viewed from a moving vehicle shall not be acceptable.

   (2) Open entrances through which junk materials are visible from the main traveled way shall not be permitted except where entrance gates, capable of concealing the junk materials when closed, have been installed. Entrance gates must remain closed from sundown to sunrise.

   (3) Screening shall be located on private property and not on any part of the highway right-of-way.

   (4) At no time after the screen is established shall junk be stacked or placed high enough to be visible above the screen nor shall junk be placed outside of the screened area.

**13-305. Maintenance of screens.** The owner or operator of the junkyard shall be responsible for maintaining the screen in good repair to insure the continuous concealment of the junkyard. Damaged or dilapidated screens, including dead or diseased plantings, which permit a view of the junk within shall render the junkyard visible and shall be in violation of this code and shall be replaced as required by the city.

If not replaced within sixty (60) days the city may replace said screening and require payment upon demand.

**13-306. Utilization of highway right-of-way.** The utilization of highway right-of-way for operating or maintaining any portion of a junkyard is
prohibited; this shall include temporary use for the storage of junk pending disposition.

13-307. **Non-conforming junkyards.** Those junkyards within the city and lawfully in existence prior to the enactment of this code, which do not conform with the provisions of the code shall be considered as "non-conforming." Such junkyards shall be subject to the following conditions, any violation of which shall terminate the non-conforming status:

1. The junkyard must continue to be lawfully maintained.
2. There must be existing property rights in the junk or junkyard.
3. Abandoned junkyards shall no longer be lawful.
4. If the location is changed, the junkyard shall be treated as a new establishment at a new location and shall conform to the laws of the city.
5. The junkyard may not be extended or enlarged.

13-308. **Permits and fees.** It shall be unlawful for any junkyard located within the city to operate without a "junkyard control permit" issued by the city. Permits shall be valid for the fiscal year for which issued and shall be subject to renewal each year. The city's fiscal year begins on July 1 and ends on June 30 the year next following. Each application for an original or renewal permit shall be accompanied by a fee of fifty dollars ($50.00) which is not subject to either proration or refund. All applications for an original or renewal permit shall be made on a form prescribed by the city. Permits shall be issued only to those junkyards that are in compliance with these rules. A permit is valid only while held by the permittee and for the location for which it is issued.

13-309. **Violations and penalty.** A violation of any provision of this chapter shall subject the offender to a penalty under the general penalty provision of this code. Each day a violation shall be allowed to continue shall constitute a separate offense.

CHAPTER 2
MUNICIPAL FLOOD DAMAGE PREVENTION ORDINANCE

SECTION
14-201. Statutory authorization, findings of fact, purpose and objectives.
14-203. General provisions.
14-204. Administration.
14-207. Legal status provisions.

14-201. Statutory authorization, findings of fact, purpose and objectives. (1) Statutory authorization. The Legislature of the State of Tennessee has in Tennessee Code Annotated, § 6-2-201, delegated the responsibility to units of local government to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry. Therefore, the City of Harrogate, Tennessee, Mayor and its Legislative Body do ordain as follows:

(2) Findings of fact. (a) The City of Harrogate, Tennessee, Mayor and its Legislative Body wishes to maintain eligibility in the National Flood Insurance Program (NFIP) and in order to do so must meet the NFIP regulations found in title 44 of the Code of Federal Regulations (CFR), ch. 1, section 60.3.

(b) Areas of the City of Harrogate, Tennessee are subject to periodic inundation which could result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.

(c) Flood losses are caused by the cumulative effect of obstructions in floodplains, causing increases in flood heights and velocities; by uses in flood hazard areas which are vulnerable to floods; or construction which is inadequately elevated, floodproofed, or otherwise unprotected from flood damages.

(3) Statement of purpose. It is the purpose of this ordinance to promote the public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas. This ordinance is designed to:

(a) Restrict or prohibit uses which are vulnerable to flooding or erosion hazards, or which result in damaging increases in erosion, flood heights, or velocities;
(b) Require that uses vulnerable to floods, including community facilities, be protected against flood damage at the time of initial construction;

(c) Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of floodwaters;

(d) Control filling, grading, dredging and other development which may increase flood damage or erosion;

(e) Prevent or regulate the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards to other lands.

(4) **Objectives**. The objectives of this ordinance are:

(a) To protect human life, health, safety and property;

(b) To minimize expenditure of public funds for costly flood control projects;

(c) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;

(d) To minimize prolonged business interruptions;

(e) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodprone areas;

(f) To help maintain a stable tax base by providing for the sound use and development of floodprone areas to minimize blight in flood areas;

(g) To ensure that potential homebuyers are notified that property is in a floodprone area;

(h) To maintain eligibility for participation in the NFIP.

(Ord. #75, May 2009)

**14-202. Definitions.** Unless specifically defined below, words or phrases used in this ordinance shall be interpreted as to give them the meaning they have in common usage and to give this ordinance its most reasonable application given its stated purpose and objectives.

(1) "Accessory structure" means a subordinate structure to the principal structure on the same lot and, for the purpose of this ordinance, shall conform to the following:

(a) Accessory structures shall only be used for parking of vehicles and storage.

(b) Accessory structures shall be designed to have low flood damage potential.

(c) Accessory structures shall be constructed and placed on the building site so as to offer the minimum resistance to the flow of floodwaters.
(d) Accessory structures shall be firmly anchored to prevent flotation, collapse, and lateral movement, which otherwise may result in damage to other structures.

(e) Utilities and service facilities such as electrical and heating equipment shall be elevated or otherwise protected from intrusion of floodwaters.

(2) "Addition (to an existing building)" means any walled and roofed expansion to the perimeter or height of a building.

(3) "Appeal" means a request for a review of the local enforcement officer's interpretation of any provision of this ordinance or a request for a variance.

(4) "Area of shallow flooding" means a designated AO or AH Zone on a community's Flood Insurance Rate Map (FIRM) with one percent (1%) or greater annual chance of flooding to an average depth of one to three feet (1' – 3') where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate; and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

(5) "Area of special flood-related erosion hazard" is the land within a community which is most likely to be subject to severe flood-related erosion losses. The area may be designated as Zone E on the Flood Hazard Boundary Map (FHBMM). After the detailed evaluation of the special flood-related erosion hazard area in preparation for publication of the FIRM, Zone E may be further refined.

(6) "Area of special flood hazard" see "special flood hazard area."

(7) "Base flood" means the flood having a one percent (1%) chance of being equaled or exceeded in any given year. This term is also referred to as the 100-year flood or the one percent (1%) annual chance flood.

(9) "Building" see "structure."

(10) "Development" means any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavating, drilling operations, or storage of equipment or materials.

(11) "Elevated building" means a non-basement building built to have the lowest floor of the lowest enclosed area elevated above the ground level by means of solid foundation perimeter walls with openings sufficient to facilitate the unimpeded movement of floodwater, pilings, columns, piers, or shear walls adequately anchored so as not to impair the structural integrity of the building during a base flood event.

(12) "Emergency flood insurance program" or "emergency program" means the program as implemented on an emergency basis in accordance with section 1336 of the Act. It is intended as a program to provide a first layer
amount of insurance on all insurable structures before the effective date of the initial FIRM.

(13) "Erosion" means the process of the gradual wearing away of land masses. This peril is not "per se" covered under the program.

(14) "Exception" means a waiver from the provisions of this ordinance which relieves the applicant from the requirements of a rule, regulation, order or other determination made or issued pursuant to this ordinance.

(15) "Existing construction" means any structure for which the "start of construction" commenced before the effective date of the initial floodplain management code or ordinance adopted by the community as a basis for that community's participation in the NFIP.

(16) "Existing manufactured home park or subdivision" means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, final site grading or the pouring of concrete pads) is completed before the effective date of the first floodplain management code or ordinance adopted by the community as a basis for that community's participation in the NFIP.

(17) "Existing structures" see "existing construction."

(18) "Expansion to an existing manufactured home park or subdivision" means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

(19) "Flood" or "flooding" means a general and temporary condition of partial or complete inundation of normally dry land areas from:

(a) The overflow of inland or tidal waters.
(b) The unusual and rapid accumulation or runoff of surface waters from any source.

(20) "Flood elevation determination" means a determination by the Federal Emergency Management Agency (FEMA) of the water surface elevations of the base flood, that is, the flood level that has a one percent (1%) or greater chance of occurrence in any given year.

(21) "Flood elevation study" means an examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudslide (i.e., mudflow) or flood-related erosion hazards.

(22) "Flood Hazard Boundary Map (FHBM)" means an official map of a community, issued by FEMA, where the boundaries of areas of special flood hazard have been designated as Zone A.

(23) "Flood Insurance Rate Map (FIRM)" means an official map of a community, issued by FEMA, delineating the areas of special flood hazard or the risk premium zones applicable to the community.

(25) "Floodplain" or "floodprone area" means any land area susceptible to being inundated by water from any source (see definition of "flooding").

(26) "Floodplain management" means the operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works and floodplain management regulations.

(27) "Flood protection system" means those physical structural works for which funds have been authorized, appropriated, and expended and which have been constructed specifically to modify flooding in order to reduce the extent of the area within a community subject to a "special flood hazard" and the extent of the depths of associated flooding. Such a system typically includes hurricane tidal barriers, dams, reservoirs, levees or dikes. These specialized flood modifying works are those constructed in conformance with sound engineering standards.

(28) "Floodproofing" means any combination of structural and nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities and structures and their contents.

(29) "Flood-related erosion" means the collapse or subsidence of land along the shore of a lake or other body of water as a result of undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as a flash flood, or by some similarly unusual and unforeseeable event which results in flooding.

(30) "Flood-related erosion area" or "flood-related erosion prone area" means a land area adjoining the shore of a lake or other body of water, which due to the composition of the shoreline or bank and high water levels or wind-driven currents, is likely to suffer flood-related erosion damage.

(32) "Floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height.

(33) "Freeboard" means a factor of safety usually expressed in feet above a flood level for purposes of floodplain management. "Freeboard" tends to compensate for the many unknown factors that could contribute to flood
heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, blockage of bridge or culvert openings, and the hydrological effect of urbanization of the watershed.

(34) "Functionally dependent use" means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

(35) "Highest adjacent grade" means the highest natural elevation of the ground surface, prior to construction, adjacent to the proposed walls of a structure.

(36) "Historic structure" means any structure that is:
   (a) Listed individually in the National Register of Historic Places (a listing maintained by the U.S. Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

   (c) Individually listed on the Tennessee inventory of historic places and determined as eligible by states with historic preservation programs which have been approved by the Secretary of the Interior; or
   (d) Individually listed on the City of Harrogate, Tennessee inventory of historic places and determined as eligible by communities with historic preservation programs that have been certified either:
      (i) By the approved Tennessee program as determined by the Secretary of the Interior; or
      (ii) Directly by the Secretary of the Interior.

(37) "Levee" means a man-made structure, usually an earthen embankment, designed and constructed in accordance with sound engineering practices to contain, control or divert the flow of water so as to provide protection from temporary flooding.

(38) "Levee system" means a flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices.

(39) "Lowest floor" means the lowest floor of the lowest enclosed area, including a basement. An unfinished or flood resistant enclosure used solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this ordinance.
"Manufactured home" means a structure, transportable in one or more sections, which is built on a permanent chassis and designed for use with or without a permanent foundation when attached to the required utilities. The term "manufactured home" does not include a "recreational vehicle."

"Manufactured home park or subdivision" means a parcel (or contiguous parcels) of land divided into two (2) or more manufactured home lots for rent or sale.

"Map" means the Flood Hazard Boundary Map (FHBDM) or the Flood Insurance Rate Map (FIRM) for a community issued by FEMA.

"Mean sea level" means the average height of the sea for all stages of the tide. It is used as a reference for establishing various elevations within the floodplain. For the purposes of this ordinance, the term is synonymous with the National Geodetic Vertical Datum (NGVD) of 1929, the North American Vertical Datum (NAVD) of 1988, or other datum, to which base flood elevations shown on a community's flood insurance rate map are referenced.

"National Geodetic Vertical Datum (NGVD)" means, as corrected in 1929, a vertical control used as a reference for establishing varying elevations within the floodplain.

"New construction" means any structure for which the "start of construction" commenced on or after the effective date of the initial floodplain management ordinance and includes any subsequent improvements to such structure.

"New manufactured home park or subdivision" means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of this ordinance or the effective date of the initial floodplain management ordinance and includes any subsequent improvements to such structure.

"North American Vertical Datum (NAVD)" means, as corrected in 1988, a vertical control used as a reference for establishing varying elevations within the floodplain.

"100-year flood" see "base flood."

"Person" includes any individual or group of individuals, corporation, partnership, association, or any other entity, including State and local governments and agencies.

"Reasonably safe from flooding" means base flood waters will not inundate the land or damage structures to be removed from the special flood hazard area and that any subsurface waters related to the base flood will not damage existing or proposed structures.

"Recreational vehicle" means a vehicle which is:

(a) Built on a single chassis;
(b) Four hundred (400) square feet or less when measured at the largest horizontal projection;

(54) "Special flood hazard area" is the land in the floodplain within a community subject to a one percent (1%) or greater chance of flooding in any given year. The area may be designated as Zone A on the FHBM. After detailed ratemaking has been completed in preparation for publication of the FIRM, Zone A usually is refined into Zones A, AO, AH, A1-30, AE or A99.

(55) "Special Hazard Area" means an area having special flood, mudslide (i.e., mudflow) and/or flood-related erosion hazards, and shown on an FHBM or FIRM as Zone A, AO, A1-30, AE, A99, or AH.

(56) "Start of construction" includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within one hundred eighty (180) days of the permit date. The actual start means either the first placement of permanent construction of a structure (including a manufactured home) on a site, such as the pouring of slabs or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; and includes the placement of a manufactured home on a foundation. Permanent construction does not include initial land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds, not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

(57) "State coordinating agency." The Tennessee Department of Economic and Community Development's Local Planning Assistance Office, as designated by the Governor of the State of Tennessee at the request of FEMA to assist in the implementation of the NFIP for the state.
(58) "Structure" for purposes of this ordinance, means a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

(59) "Substantial damage" means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed fifty percent (50%) of the market value of the structure before the damage occurred.

(60) "Substantial improvement" means any reconstruction, rehabilitation, addition, alteration or other improvement of a structure in which the cost equals or exceeds fifty percent (50%) of the market value of the structure before the "start of construction" of the initial improvement. This term includes structures which have incurred "substantial damage," regardless of the actual repair work performed. The market value of the structure should be:

(a) The appraised value of the structure prior to the start of the initial improvement; or
(b) In the case of substantial damage, the value of the structure prior to the damage occurring.

The term does not, however, include either:

(a) Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been pre-identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions and not solely triggered by an improvement or repair project; or
(b) Any alteration of a "historic structure," provided that the alteration will not preclude the structure's continued designation as a "historic structure."

(61) "Substantially improved existing manufactured home parks or subdivisions" is where the repair, reconstruction, rehabilitation or improvement of the streets, utilities and pads equals or exceeds fifty percent (50%) of the value of the streets, utilities and pads before the repair, reconstruction or improvement commenced.

(62) "Variance" is a grant of relief from the requirements of this ordinance.

(63) "Violation" means the failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certification, or other evidence of compliance required in this ordinance is presumed to be in violation until such time as that documentation is provided.

(64) "Water surface elevation" means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, the North American Vertical Datum (NAVD) of 1988, or other datum, where specified, of floods of various
magnitudes and frequencies in the floodplains of riverine areas. (Ord. #75, May 2009)

14-203. General provisions. (1) Application. This ordinance shall apply to all areas within the incorporated area of the City of Harrogate, Tennessee.

(2) Basis for establishing the areas of special flood hazard. The areas of special flood hazard identified on the City of Harrogate, Tennessee, as identified by FEMA, and in its Flood Insurance Study (FIS) and Flood Insurance Rate Map (FIRM), community panel numbers 4704200100 and 4704200125, dated September 25, 2009, along with all supporting technical data, are adopted by reference and declared to be a part of this ordinance.

(3) Requirement for development permit. A development permit shall be required in conformity with this ordinance prior to the commencement of any development activities.

(4) Compliance. No land, structure or use shall hereafter be located, extended, converted or structurally altered without full compliance with the terms of this ordinance and other applicable regulations.

(5) Abrogation and greater restrictions. This ordinance is not intended to repeal, abrogate, or impair any existing easements, covenants or deed restrictions. However, where this ordinance conflicts or overlaps with another regulatory instrument, whichever imposes the more stringent restrictions shall prevail.

(6) Interpretation. In the interpretation and application of this ordinance, all provisions shall be:

(a) Considered as minimum requirements;
(b) Liberally construed in favor of the governing body; and
(c) Deemed neither to limit nor repeal any other powers granted under Tennessee statutes.

(7) Warning and disclaimer of liability. The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This ordinance does not imply that land outside the areas of special flood hazard or uses permitted within such areas will be free from flooding or flood damages. This ordinance shall not create liability on the part of the City of Harrogate, Tennessee or by any officer or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made hereunder.

(8) Penalties for violation. Violation of the provisions of this ordinance or failure to comply with any of its requirements, including violation of conditions and safeguards established in connection with grants of variance shall constitute a misdemeanor punishable as other misdemeanors as provided by law. Any person who violates this ordinance or fails to comply with any of its
requirements shall, upon adjudication therefore, be fined as prescribed by Tennessee statutes, and in addition, shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the City of Harrogate, Tennessee from taking such other lawful actions to prevent or remedy any violation. (Ord. #75, May 2009)

14-204. Administration. (1) Designation of ordinance administrator. The building official is hereby appointed as the administrator to implement the provisions of this ordinance.

(2) Permit procedures. Application for a development permit shall be made to the administrator on forms furnished by the community prior to any development activities. The development permit may include, but is not limited to the following: plans in duplicate drawn to scale and showing the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, earthen fill placement, storage of materials or equipment, and drainage facilities. Specifically, the following information is required:

(a) Application stage. (i) Elevation in relation to mean sea level of the proposed lowest floor, including basement, of all buildings where base flood elevations are available, or to certain height above the highest adjacent grade when applicable under this ordinance.

(ii) Elevation in relation to mean sea level to which any non-residential building will be floodproofed where base flood elevations are available, or to certain height above the highest adjacent grade when applicable under this ordinance.

(iii) A FEMA floodproofing certificate from a Tennessee registered professional engineer or architect that the proposed non-residential floodproofed building will meet the floodproofing criteria in § 14-205(1) and (2).

(iv) Description of the extent to which any watercourse will be altered or relocated as a result of proposed development.

(b) Construction stage. Within AE Zones, where base flood elevation data is available, any lowest floor certification made relative to mean sea level shall be prepared by or under the direct supervision of, a Tennessee registered land surveyor and certified by same. The administrator shall record the elevation of the lowest floor on the development permit. When floodproofing is utilized for a non-residential building, said certification shall be prepared by, or under the direct supervision of, a Tennessee registered professional engineer or architect and certified by same.

Within approximate A Zones, where base flood elevation data is not available, the elevation of the lowest floor shall be determined as the measurement of the lowest floor of the building relative to the highest
adjacent grade. The administrator shall record the elevation of the lowest floor on the development permit. When floodproofing is utilized for a non-residential building, said certification shall be prepared by, or under the direct supervision of, a Tennessee registered professional engineer or architect and certified by same.

For all new construction and substantial improvements, the permit holder shall provide to the administrator an as-built certification of the lowest floor elevation or floodproofing level upon the completion of the lowest floor or floodproofing.

Any work undertaken prior to submission of the certification shall be at the permit holder's risk. The administrator shall review the above-referenced certification data. Deficiencies detected by such review shall be corrected by the permit holder immediately and prior to further work being allowed to proceed. Failure to submit the certification or failure to make said corrections required hereby, shall be cause to issue a stop-work order for the project.

(3) Duties and responsibilities of the administrator. Duties of the administrator shall include, but not be limited to, the following:

(a) Review all development permits to assure that the permit requirements of this ordinance have been satisfied, and that proposed building sites will be reasonably safe from flooding.

(b) Review proposed development to assure that all necessary permits have been received from those governmental agencies from which approval is required by federal or state law, including section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334.

(c) Notify adjacent communities and the Tennessee Department of Economic and Community Development, Local Planning Assistance Office, prior to any alteration or relocation of a watercourse and submit evidence of such notification to FEMA.

(d) For any altered or relocated watercourse, submit engineering data/analysis within six (6) months to FEMA to ensure accuracy of community FIRMs through the letter of map revision process.

(e) Assure that the flood carrying capacity within an altered or relocated portion of any watercourse is maintained.

(f) Record the elevation, in relation to mean sea level or the highest adjacent grade, where applicable, of the lowest floor (including basement) of all new and substantially improved buildings, in accordance with § 14-204(2).

(g) Record the actual elevation, in relation to mean sea level or the highest adjacent grade, where applicable to which the new and substantially improved buildings have been floodproofed, in accordance with § 14-204(2).
(h) When floodproofing is utilized for a nonresidential structure, obtain certification of design criteria from a Tennessee registered professional engineer or architect, in accordance with § 14-204(2).

(i) Where interpretation is needed as to the exact location of boundaries of the areas of special flood hazard (for example, where there appears to be a conflict between a mapped boundary and actual field conditions), make the necessary interpretation. Any person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this ordinance.

(j) When base flood elevation data and floodway data have not been provided by FEMA, obtain, review, and reasonably utilize any base flood elevation and floodway data available from a federal, state, or other sources, including data developed as a result of these regulations, as criteria for requiring that new construction, substantial improvements, or other development in Zone A on the City of Harrogate, Tennessee FIRM meet the requirements of this ordinance.

(k) Maintain all records pertaining to the provisions of this ordinance in the office of the administrator and shall be open for public inspection. Permits issued under the provisions of this ordinance shall be maintained in a separate file or marked for expedited retrieval within combined files. (Ord. #75, May 2009)

14-205. **Provisions for flood hazard reduction.** (1) General standards. In all areas of special flood hazard, the following provisions are required:

(a) New construction and substantial improvements shall be anchored to prevent flotation, collapse and lateral movement of the structure;

(b) Manufactured homes shall be installed using methods and practices that minimize flood damage. They must be elevated and anchored to prevent flotation, collapse and lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable State of Tennessee and local anchoring requirements for resisting wind forces;

(c) New construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage;

(d) New construction and substantial improvements shall be constructed by methods and practices that minimize flood damage;

(e) All electrical, heating, ventilation, plumbing, air conditioning equipment, and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding;
(f) New and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system;

(g) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters;

(h) On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding;

(i) Any alteration, repair, reconstruction or improvements to a building that is in compliance with the provisions of this ordinance, shall meet the requirements of "new construction" as contained in this ordinance;

(j) Any alteration, repair, reconstruction or improvements to a building that is not in compliance with the provision of this ordinance, shall be undertaken only if said non-conformity is not further extended or replaced;

(k) All new construction and substantial improvement proposals shall provide copies of all necessary federal and state permits, including section 404 of the Federal Water Pollution Control Act amendments of 1972, 33 U.S.C. 1334;

(l) All subdivision proposals and other proposed new development proposals shall meet the standards of § 14-205(2);

(m) When proposed new construction and substantial improvements are partially located in an area of special flood hazard, the entire structure shall meet the standards for new construction;

(n) When proposed new construction and substantial improvements are located in multiple flood hazard risk zones or in a flood hazard risk zone with multiple base flood elevations, the entire structure shall meet the standards for the most hazardous flood hazard risk zone and the highest base flood elevation.

(2) Specific standards. In all areas of special flood hazard, the following provisions, in addition to those set forth in § 14-205(1), are required:

(a) Residential structures. In AE Zones where base flood elevation data is available, new construction and substantial improvement of any residential building (or manufactured home) shall have the lowest floor, including basement, elevated to no lower than one foot (1') above the base flood elevation. Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate equalization of flood hydrostatic forces on both sides of exterior walls shall be provided in accordance with the standards of this section: "Enclosures."

   Within approximate A Zones where base flood elevations have not been established and where alternative data is not available, the
administrator shall require the lowest floor of a building to be elevated to a level of at least three feet (3') above the highest adjacent grade (as defined in § 14-202). Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate equalization of flood hydrostatic forces on both sides of exterior walls shall be provided in accordance with the standards of this section: "Enclosures."

(b) Non-residential structures. In AE Zones, where base flood elevation data is available, new construction and substantial improvement of any commercial, industrial, or non-residential building, shall have the lowest floor, including basement, elevated or floodproofed to no lower than one foot (1') above the level of the base flood elevation. Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate equalization of flood hydrostatic forces on both sides of exterior walls shall be provided in accordance with the standards of this section: "Enclosures."

In approximate A Zones, where base flood elevations have not been established and where alternative data is not available, new construction and substantial improvement of any commercial, industrial, or non-residential building, shall have the lowest floor, including basement, elevated or floodproofed to no lower than three feet (3') above the highest adjacent grade (as defined in § 14-202). Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate equalization of flood hydrostatic forces on both sides of exterior walls shall be provided in accordance with the standards of this section: "Enclosures."

Non-residential buildings located in all A Zones may be floodproofed, in lieu of being elevated, provided that all areas of the building below the required elevation are watertight, with walls substantially impermeable to the passage of water, and are built with structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy. A Tennessee registered professional engineer or architect shall certify that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions above, and shall provide such certification to the administrator as set forth in § 14-204(2).

(c) Enclosures. All new construction and substantial improvements that include fully enclosed areas formed by foundation and other exterior walls below the lowest floor that are subject to flooding, shall be designed to preclude finished living space and designed to allow for the entry and exit of flood waters to automatically equalize hydrostatic flood forces on exterior walls.

(i) Designs for complying with this requirement must either be certified by a Tennessee professional engineer or architect or meet or exceed the following minimum criteria.
(A) Provide a minimum of two openings having a total net area of not less than one (1) square inch for every square foot of enclosed area subject to flooding;

(B) The bottom of all openings shall be no higher than one foot (1') above the finished grade;

(C) Openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions.

(ii) The enclosed area shall be the minimum necessary to allow for parking of vehicles, storage or building access.

(iii) The interior portion of such enclosed area shall not be finished or partitioned into separate rooms in such a way as to impede the movement of floodwaters and all such partitions shall comply with the provisions of § 14-205(2).

(d) Standards for manufactured homes and recreational vehicles.

(i) All manufactured homes placed, or substantially improved, on:

(A) Individual lots or parcels;

(B) In expansions to existing manufactured home parks or subdivisions; or

(C) In new or substantially improved manufactured home parks or subdivisions, must meet all the requirements of new construction.

(ii) All manufactured homes placed or substantially improved in an existing manufactured home park or subdivision must be elevated so that either:

(A) In AE Zones, with base flood elevations, the lowest floor of the manufactured home is elevated on a permanent foundation to no lower than one foot (1') above the level of the base flood elevation; or

(B) In approximate A Zones, without base flood elevations, the manufactured home chassis is elevated and supported by reinforced piers (or other foundation elements of at least equivalent strength) that are at least three feet (3') in height above the highest adjacent grade (as defined in § 14-202).

(iii) Any manufactured home, which has incurred "substantial damage" as the result of a flood, must meet the standards of § 14-205(1) and (2).

(iv) All manufactured homes must be securely anchored to an adequately anchored foundation system to resist flotation, collapse and lateral movement.

(v) All recreational vehicles placed in an identified special flood hazard area must either:
(A) Be on the site for fewer than one hundred eighty (180) consecutive days;
(B) Be fully licensed and ready for highway use (a recreational vehicle is ready for highway use if it is licensed, on its wheels or jacking system, attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached structures or additions); or
(C) The recreational vehicle must meet all the requirements for new construction.

(e) Standards for subdivisions and other proposed new development proposals. Subdivisions and other proposed new developments, including manufactured home parks, shall be reviewed to determine whether such proposals will be reasonably safe from flooding.
   (i) All subdivision and other proposed new development proposals shall be consistent with the need to minimize flood damage.
   (ii) All subdivision and other proposed new development proposals shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize or eliminate flood damage.
   (iii) All subdivision and other proposed new development proposals shall have adequate drainage provided to reduce exposure to flood hazards.
   (iv) In all approximate A Zones require that all new subdivision proposals and other proposed developments (including proposals for manufactured home parks and subdivisions) greater than fifty (50) lots or five (5) acres, whichever is the lesser, include within such proposals base flood elevation data (see § 14-205(5)).

(3) Standards for special flood hazard areas with established base flood elevations and with floodways designated. Located within the special flood hazard areas established in § 14-203(2) are areas designated as floodways. A floodway may be an extremely hazardous area due to the velocity of floodwaters, debris or erosion potential. In addition, the area must remain free of encroachment in order to allow for the discharge of the base flood without increased flood heights and velocities. Therefore, the following provisions shall apply:
   (a) Encroachments are prohibited, including earthen fill material, new construction, substantial improvements or other development within the regulatory floodway. Development may be permitted however, provided it is demonstrated through hydrologic and hydraulic analyses performed in accordance with standard engineering practices that the cumulative effect of the proposed encroachments or new development shall not result in any increase in the water surface elevation of the base flood elevation, velocities, or floodway widths during
the occurrence of a base flood discharge at any point within the community. A Tennessee registered professional engineer must provide supporting technical data, using the same methodologies as in the effective flood insurance study for the City of Harrogate, Tennessee and certification, thereof.

(b) New construction and substantial improvements of buildings, where permitted, shall comply with all applicable flood hazard reduction provisions of § 14-205(1) and (2).

(4) Standards for areas of special flood hazard Zones AE with established base flood elevations but without floodways designated. Located within the special flood hazard areas established in § 14-403(2) where streams exist with base flood data provided but where no floodways have been designated (Zones AE), the following provisions apply:

(a) No encroachments, including fill material, new construction and substantial improvements shall be located within areas of special flood hazard, unless certification by a Tennessee registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot (1') at any point within the community. The engineering certification should be supported by technical data that conforms to standard hydraulic engineering principles.

(b) New construction and substantial improvements of buildings, where permitted, shall comply with all applicable flood hazard reduction provisions of § 14-205(1) and (2).

(5) Standards for streams without established base flood elevations and floodways (A Zones). Located within the special flood hazard areas established in § 14-203(2), where streams exist, but no base flood data has been provided and where a floodway has not been delineated, the following provisions shall apply:

(a) The administrator shall obtain, review, and reasonably utilize any base flood elevation and floodway data available from any federal, state, or other sources, including data developed as a result of these regulations (see (b) below), as criteria for requiring that new construction, substantial improvements, or other development in approximate A Zones meet the requirements of § 14-205(1) and (2).

(b) Require that all new subdivision proposals and other proposed developments (including proposals for manufactured home parks and subdivisions) greater than fifty (50) lots or five (5) acres, whichever is the lesser, include within such proposals base flood elevation data.

(c) Within approximate A Zones, where base flood elevations have not been established and where such data is not available from other sources, require the lowest floor of a building to be elevated or
floodproofed to a level of at least three feet (3') above the highest adjacent grade (as defined in § 14-202). All applicable data including elevations or floodproofing certifications shall be recorded as set forth in § 14-204(2). Openings sufficient to facilitate automatic equalization of hydrostatic flood forces on exterior walls shall be provided in accordance with the standards of § 14-205(2).

(d) Within approximate A Zones, where base flood elevations have not been established and where such data is not available from other sources, no encroachments, including structures or fill material, shall be located within an area equal to the width of the stream or twenty feet (20'), whichever is greater, measured from the top of the stream bank, unless certification by a Tennessee registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot (1') at any point within the City of Harrogate, Tennessee. The engineering certification should be supported by technical data that conforms to standard hydraulic engineering principles.

(e) New construction and substantial improvements of buildings, where permitted, shall comply with all applicable flood hazard reduction provisions of § 14-205(1) and (2). Within approximate A Zones, require that those subsections of § 14-205(2) dealing with the alteration or relocation of a watercourse, assuring watercourse carrying capacities are maintained and manufactured homes provisions are complied with as required.

(6) Standards for areas of shallow flooding (AO and AH Zones). Located within the special flood hazard areas established in § 14-203(2) are areas designated as shallow flooding areas. These areas have special flood hazards associated with base flood depths of one to three feet (1' – 3') where a clearly defined channel does not exist and where the path of flooding is unpredictable and indeterminate; therefore, the following provisions, in addition to those set forth in § 14-205(1) and (2), apply:

(a) All new construction and substantial improvements of residential and non-residential buildings shall have the lowest floor, including basement, elevated to at least one foot (1') above as many feet as the depth number specified on the FIRMs, in feet, above the highest adjacent grade. If no flood depth number is specified on the FIRM, the lowest floor, including basement, shall be elevated to at least three feet (3') above the highest adjacent grade. Openings sufficient to facilitate automatic equalization of hydrostatic flood forces on exterior walls shall be provided in accordance with standards of § 14-205(2).

(b) All new construction and substantial improvements of non-residential buildings may be floodproofed in lieu of elevation. The
structure together with attendant utility and sanitary facilities must be floodproofed and designed watertight to be completely floodproofed to at least one foot (1') above the flood depth number specified on the FIRM, with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy. If no depth number is specified on the FIRM, the structure shall be floodproofed to at least three feet (3') above the highest adjacent grade. A Tennessee registered professional engineer or architect shall certify that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this ordinance and shall provide such certification to the administrator as set forth above and as required in accordance with § 14-204(2).

(c) Adequate drainage paths shall be provided around slopes to guide floodwaters around and away from proposed structures.

(7) Standards for areas protected by flood protection system (A-99 Zones). Located within the areas of special flood hazard established in § 14-203(2) are areas of the 100-year floodplain protected by a flood protection system but where base flood elevations have not been determined. Within these areas (A-99 Zones) all provisions of §§ 14-204 and 14-205 shall apply.

(8) Standards for unmapped streams. Located within the City of Harrogate, Tennessee are unmapped streams where areas of special flood hazard are neither indicated nor identified. Adjacent to such streams, the following provisions shall apply:

(a) No encroachments including fill material or other development including structures shall be located within an area of at least equal to twice the width of the stream, measured from the top of each stream bank, unless certification by a Tennessee registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot (1') at any point within the locality.

(b) When a new flood hazard risk zone, and base flood elevation and floodway data is available, new construction and substantial improvements shall meet the standards established in accordance with §§ 14-204 and 14-205. (Ord. #75, May 2009)

(a) Creation and appointment. A board of floodplain review is hereby established which shall consist of three (3) members appointed by the chief executive officer. The term of membership shall be four (4) years except that the initial individual appointments to the board of floodplain review shall be terms of one (1), two (2), and three (3) years,
respectively. Vacancies shall be filled for any unexpired term by the chief executive officer.

(b) Procedure. Meetings of the board of floodplain review shall be held at such times, as the board shall determine. All meetings of the board of floodplain review shall be open to the public. The board of floodplain review shall adopt rules of procedure and shall keep records of applications and actions thereof, which shall be a public record. Compensation of the members of the board of floodplain review shall be set by the legislative body.

(c) Appeals: how taken. An appeal to the board of floodplain review may be taken by any person, firm or corporation aggrieved or by any governmental officer, department, or bureau affected by any decision of the administrator based in whole or in part upon the provisions of this ordinance. Such appeal shall be taken by filing with the board of floodplain review a notice of appeal, specifying the grounds thereof. In all cases where an appeal is made by a property owner or other interested party, a fee for the cost of publishing a notice of such hearings shall be paid by the appellant. The administrator shall transmit to the board of floodplain review all papers constituting the record upon which the appeal action was taken. The board of floodplain review shall fix a reasonable time for the hearing of the appeal, give public notice thereof, as well as due notice to parties in interest and decide the same within a reasonable time which shall not be more than thirty (30) days from the date of the hearing. At the hearing, any person or party may appear and be heard in person or by agent or by attorney.

(d) Powers. The board of floodplain review shall have the following powers:

(i) Administrative review. To hear and decide appeals where it is alleged by the applicant that there is error in any order, requirement, permit, decision, determination, or refusal made by the administrator or other administrative official in carrying out or enforcing any provisions of this ordinance.

(ii) Variance procedures. In the case of a request for a variance the following shall apply:

(A) The City of Harrogate, Tennessee Board of Floodplain Review shall hear and decide appeals and requests for variances from the requirements of this ordinance;

(B) Variances may be issued for the repair or rehabilitation of historic structures as defined, herein, upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary deviation from the requirements of this ordinance.
to preserve the historic character and design of the structure;

(C) In passing upon such applications, the board of floodplain review shall consider all technical evaluations, all relevant factors, all standards specified in other sections of this ordinance; and

(1) The danger that materials may be swept onto other property to the injury of others;
(2) The danger to life and property due to flooding or erosion;
(3) The susceptibility of the proposed facility and its contents to flood damage;
(4) The importance of the services provided by the proposed facility to the community;
(5) The necessity of the facility to a waterfront location, in the case of a functionally dependent use;
(6) The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use;
(7) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;
(8) The safety of access to the property in times of flood for ordinary and emergency vehicles;
(9) The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site;
(10) The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, water systems, and streets and bridges.

(D) Upon consideration of the factors listed above, and the purposes of this ordinance, the board of floodplain review may attach such conditions to the granting of variances, as it deems necessary to effectuate the purposes of this ordinance.

(E) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.
(2) **Conditions for variances.** (a) Variances shall be issued upon a determination that the variance is the minimum relief necessary, considering the flood hazard and the factors listed in § 16-406(1).

(b) Variances shall only be issued upon: a showing of good and sufficient cause, a determination that failure to grant the variance would result in exceptional hardship; or a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisance, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

(c) Any applicant to whom a variance is granted shall be given written notice that the issuance of a variance to construct a structure below the base flood elevation will result in increased premium rates for flood insurance (as high as twenty-five dollars ($25.00) for one hundred dollars ($100.00)) coverage, and that such construction below the base flood elevation increases risks to life and property.

(d) The administrator shall maintain the records of all appeal actions and report any variances to FEMA upon request. (Ord. #75, May 2009)

14-207. **Legal status provisions.** (1) **Conflict with other ordinances.** In case of conflict between this ordinance or any part thereof, and the whole or part of any existing or future ordinance of the City of Harrogate, Tennessee, the most restrictive shall in all cases apply.

(2) **Severability.** If any section, clause, provision, or portion of this ordinance shall be held to be invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect any other section, clause, provision, or portion of this ordinance which is not of itself invalid or unconstitutional. (Ord. #75, May 2009)

15-104. Unlaned streets. (1) Upon all unlaned streets of sufficient width, a vehicle shall be driven upon the right half of the street except:
   (a) When lawfully overtaking and passing another vehicle proceeding in the same direction.
   (b) When the right half of a roadway is closed to traffic while under construction or repair.
   (c) Upon a roadway designated and signposted by the city for one-way traffic.
(2) All vehicles proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven as close as practicable to the right hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn.

15-105. Laned streets. On streets marked with traffic lanes, it shall be unlawful for the operator of any vehicle to fail or refuse to keep his vehicle within the boundaries of the proper lane for his direction of travel except when
lawfully passing another vehicle or preparatory to making a lawful turning movement.

On two (2) lane and three (3) lane streets, the proper lane for travel shall be the right hand lane unless otherwise clearly marked. On streets with four (4) or more lanes, either of the right hand lanes shall be available for use except that traffic moving at less than the normal rate of speed shall use the extreme right hand lane. On one-way streets either lane may be lawfully used in the absence of markings to the contrary.

15-106. Yellow lines. On streets with a yellow line placed to the right of any lane line or center line, such yellow line shall designate a no-passing zone, and no operator shall drive his vehicle or any part thereof across or to the left of such yellow line except when necessary to make a lawful left turn from such street.

15-107. Miscellaneous traffic control signs, etc.¹ It shall be unlawful for any pedestrian or the operator of any vehicle to violate or fail to comply with any traffic control sign, signal, marking, or device placed or erected by the state or the city unless otherwise directed by a police officer.

No person shall willfully fail or refuse to comply with any lawful order of any police officer invested by law with the authority to direct, control or regulate traffic.

15-108. General requirements for traffic control signs, etc. Pursuant to Tennessee Code Annotated, § 54-5-108, all traffic control signs, signals, markings, and devices shall conform to the latest revision of the Tennessee Manual on Uniform Traffic Control Devices for Streets and Highways,² and shall be uniform as to type and location throughout the city.

15-109. Unauthorized traffic control signs, etc. No person shall place, maintain, or display upon or in view of any street, any unauthorized sign, signal, marking, or device which purports to be or is an imitation of or resembles an official traffic control sign, signal, marking, or device or railroad sign or signal, or which attempts to control the movement of traffic or parking of vehicles, or which hides from view or interferes with the effectiveness of any

official traffic control sign, signal, marking, or device or any railroad sign or signal.

15-110. **School safety patrols.** All motorists and pedestrians shall obey the directions or signals of school safety patrols when such patrols are assigned under the authority of the chief of police and are acting in accordance with instructions; provided, that such persons giving any order, signal, or direction shall at the time be wearing some insignia and/or using authorized flags for giving signals.

15-111. **Driving through funerals or other processions.** Except when otherwise directed by a police officer, no driver of a vehicle shall drive between the vehicles comprising a funeral or other authorized procession while they are in motion and when such vehicles are conspicuously designated.

15-112. **Clinging to vehicles in motion.** It shall be unlawful for any person traveling upon any bicycle, motorcycle, coaster, sled, roller skates, or any other vehicle to cling to, or attach himself or his vehicle to any other moving vehicle upon any street, alley, or other public way or place.

15-113. **Riding on outside of vehicles.** It shall be unlawful for any person to ride, or for the owner or operator of any motor vehicle being operated on a street, alley, or other public way or place, to permit any person to ride on any portion of such vehicle not designed or intended for the use of passengers. This section shall not apply to persons engaged in the necessary discharge of lawful duties nor to persons riding in the load-carrying space of trucks.

15-114. **Backing vehicles.** The driver of a vehicle shall not back the same unless such movement can be made with reasonable safety and without interfering with other traffic.

15-115. **Projections from the rear of vehicles.** Whenever the load or any projecting portion of any vehicle shall extend beyond the rear of the bed or body thereof, the operator shall display at the end of such load or projection, in such position as to be clearly visible from the rear of such vehicle, a red flag being not less than twelve (12) inches square. Between one-half (1/2) hour after sunset and one-half (1/2) hour before sunrise, there shall be displayed in place of the flag a red light plainly visible under normal atmospheric conditions at least two hundred feet (200') from the rear of such vehicle.

15-116. **Causing unnecessary noise.** It shall be unlawful for any person to cause unnecessary noise by unnecessarily sounding the horn, "racing" the motor, or causing the "screeching" or "squealing" of the tires on any motor vehicle.
15-117. **Vehicles and operators to be licensed.** It shall be unlawful for any person to operate a motor vehicle in violation of the "Tennessee Motor Vehicle Title and Registration Law" or the "Uniform Classified and Commercial Driver License Act of 1988."

15-118. **Passing.** Except when overtaking and passing on the right is permitted, the driver of a vehicle passing another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the street until safely clear of the overtaken vehicle. The driver of the overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

When the street is wide enough, the driver of a vehicle may overtake and pass upon the right of another vehicle which is making or about to make a left turn.

The driver of a vehicle may overtake and pass another vehicle proceeding in the same direction either upon the left or upon the right on a street of sufficient width for four (4) or more lanes of moving traffic when such movement can be made in safety.

No person shall drive off the pavement or upon the shoulder of the street in overtaking or passing on the right.

When any vehicle has stopped at a marked crosswalk or at an intersection to permit a pedestrian to cross the street, no operator of any other vehicle approaching from the rear shall overtake and pass such stopped vehicle.

No vehicle operator shall attempt to pass another vehicle proceeding in the same direction unless he can see that the way ahead is sufficiently clear and unobstructed to enable him to make the movement in safety.

15-119. **Motorcycles, motor driven cycles, motorized bicycles, bicycles, etc.** (1) **Definitions.** For the purpose of the application of this section, the following words shall have the definitions indicated:

(a) "Motorcycle." Every motor vehicle having a seat or saddle for the use of the rider and designed to travel on not more than three (3) wheels in contact with the ground, including a vehicle that is fully enclosed, has three (3) wheels in contact with the ground, weighs less than one thousand five hundred pounds (1,500 lbs.), and has the capacity to maintain posted highway speed limits, but excluding a tractor or motorized bicycle.

EMERGENCY VEHICLES

SECTION
15-201. Authorized emergency vehicles defined.
15-203. Following emergency vehicles.
15-204. Running over fire hoses, etc.
15-205. Violations and penalty.

15-201. Authorized emergency vehicles defined. Authorized emergency vehicles shall be fire department vehicles, police vehicles, and such ambulances and other emergency vehicles as are designated by the chief of police.

15-202. Operation of authorized emergency vehicles. (1) The driver of an authorized emergency vehicle, when responding to an emergency call, or when in the pursuit of an actual or suspected violator of the law, or when responding to but not upon returning from a fire alarm, may exercise the privileges set forth in this section, subject to the conditions herein stated.

(2) The driver of an authorized emergency vehicle may:
   (a) Park or stand, irrespective of the provisions of this title;
   (b) Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation;
   (c) Exceed the maximum speed limit so long as life or property is not thereby endangered; and
   (d) Disregard regulations governing direction of movement or turning in specified directions.

(3) The exemptions herein granted to an authorized emergency vehicle shall apply only when such vehicle is making use of audible and visual signals meeting the requirements of the applicable laws of this state, except that an authorized emergency vehicle operated as a police vehicle may be equipped with or display a red light only in combination with a blue light visible from in front of the vehicle.

15-203. Following emergency vehicles. No driver of any vehicle other than one on official business shall follow any authorized emergency vehicle apparently traveling in response to an emergency call closer than five hundred

feet (500') or drive or park such vehicle within the block where fire apparatus has stopped in answer to a fire alarm.

15-204. **Running over fire hoses, etc.** It shall be unlawful for any person to drive over any hose lines or other equipment of the fire department except in obedience to the direction of a fireman or policeman.

15-205. **Violations and penalty.** A violation of any provision of this chapter shall subject the offender to a penalty under the general penalty provision of this code. Each day a violation shall be allowed to continue shall constitute a separate offense.
CHAPTER 3

SPEED LIMITS

SECTION
15-301. In general.
15-302. At intersections.
15-304. Violations and penalty.

15-301. In general. It shall be unlawful for any person to operate or drive a motor vehicle upon any highway or street at a rate of speed in excess of thirty (30) miles per hour except where official signs have been posted indicating other speed limits, in which cases the posted speed limit shall apply.

15-302. At intersections. It shall be unlawful for any person to operate or drive a motor vehicle through any intersection at a rate of speed in excess of fifteen (15) miles per hour unless such person is driving on a street regulated by traffic control signals or signs which require traffic to stop or yield on the intersecting streets.

15-303. In school zones. Pursuant to Tennessee Code Annotated, § 55-8-152, the city shall have the authority to enact special speed limits in school zones. Such special speed limits shall be enacted based on an engineering investigation; shall not be less than fifteen (15) miles per hour; and shall be in effect only when proper signs are posted with a warning flasher or flashers in operation. It shall be unlawful for any person to violate any such special speed limit enacted and in effect in accordance with this paragraph.

In school zones where the board of mayor and aldermen has not established special speed limits as provided for above, any person who shall drive at a speed exceeding fifteen (15) miles per hour when passing a school during a recess period when a warning flasher or flashers are in operation, or during a period of ninety (90) minutes before the opening hour of a school, or a period of ninety (90) minutes after the closing hour of a school, while children are actually going to or leaving school, shall be prima facie guilty of reckless driving.

15-304. Violations and penalty. A violation of any provision of this chapter shall subject the offender to a penalty under the general penalty provision of this code. Each day a violation shall be allowed to continue shall constitute a separate offense.
CHAPTER 4

TURNING MOVEMENTS

SECTION
15-402. Right turns.
15-403. Left turns on two-way roadways.
15-404. Left turns on other than two-way roadways.
15-405. Violations and penalty.

15-401. Generally. Every driver who intends to turn, or partly turn from a direct line, shall first see that such movement can be made in safety, and whenever the operation of any other vehicle may be affected by such movement, shall give a signal required in Tennessee Code Annotated, § 55-8-143, plainly visible to the driver of such other vehicle of the intention to make such movement.

15-402. Right turns. Both the approach for a right turn and a right turn shall be made as close as practicable to the right hand curb or edge of the roadway.

15-403. Left turns on two-way roadways. At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center line thereof and by passing to the right of such center line where it enters the intersection, and after entering the intersection the left turn shall be made so as to leave the intersection to the right of the center line of the roadway being entered. Whenever practicable, the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

15-404. Left turns on other than two-way roadways. At any intersection where traffic is restricted to one direction on one or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left hand lane lawfully available to traffic moving in the direction of travel of such vehicle, and after entering the intersection, the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left hand lane lawfully available to traffic moving in such direction upon the roadway being entered.

15-405. Violations and penalty. A violation of any provision of this chapter shall subject the offender to a penalty under the general penalty
provision of this code. Each day a violation shall be allowed to continue shall constitute a separate offense.
CHAPTER 5

STOPPING AND YIELDING

SECTION
15-501. When emerging from alleys, etc.
15-502. To prevent obstructing an intersection.
15-503. At railroad crossings.
15-504. At "stop" signs.
15-505. At "yield" signs.
15-506. At traffic control signals generally.
15-507. At flashing traffic control signals.
15-508. At pedestrian control signals.
15-509. Stops to be signaled.
15-510. Violations and penalty.

15-501. When emerging from alleys, etc. The drivers of all vehicles emerging from alleys, parking lots, driveways, or buildings shall stop such vehicles immediately prior to driving onto a sidewalk or onto the sidewalk area extending across any alleyway or driveway, and shall yield the right-of-way to any pedestrian as may be necessary to avoid collision, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on the roadway.

15-502. To prevent obstructing an intersection. No driver shall enter any intersection or marked crosswalk unless there is sufficient space on the other side of such intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of traffic in or on the intersecting street or crosswalk. This provision shall be effective notwithstanding any traffic control signal indication to proceed.

15-503. At railroad crossings. (1) Whenever any person driving a vehicle approaches a railroad grade crossing under any of the circumstances stated in this section, the driver of such vehicle shall stop within fifty feet (50') but not less than fifteen feet (15') from the nearest rail of such railroad, and shall not proceed until that driver can do so safely. The foregoing requirements shall apply when:
   (a) A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train;
   (b) A crossing gate is lowered or when a human flagger gives or continues to give a signal of the approach or passage of a railroad train;
   (c) A railroad train approaching within approximately one thousand five hundred feet (1,500') of the highway crossing emits a signal audible from such distance and such railroad train, by reason of its speed or nearness to such crossing, is an immediate hazard; and
(d) An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.

(2) No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed.

15-504. At "stop" signs. The driver of a vehicle facing a "stop" sign shall stop before entering the crosswalk on the near side of the intersection or, if there is no crosswalk, shall stop at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, except when directed to proceed by a police officer or traffic control signal.

15-505. At "yield" signs. (1) The driver of a vehicle who is faced with a yield sign at the entrance to a through highway or other public roadway is not necessarily required to stop, but is required to exercise caution in entering the highway or other roadway and to yield the right-of-way to other vehicles which have entered the intersection from the highway or other roadway, or which are approaching so closely on the highway or other roadway as to constitute an immediate hazard, and the driver having so yielded may proceed when the way is clear.

(2) Where there is provided more than one (1) lane for vehicular traffic entering a through highway or other public roadway, if one (1) or more lanes at such entrance are designated a yield lane by an appropriate marker, this section shall control the movement of traffic in any lane so marked with a yield sign, even though traffic in other lanes may be controlled by an electrical signal device or other signs, signals, markings or controls.

15-506. At traffic control signals generally. Whenever traffic is controlled by traffic control signals exhibiting the words "Go," "Caution," or "Stop," or exhibiting different colored lights successively one at a time, or with arrows, the following colors only shall be used and the terms and lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

(1) **Green alone, or "Go":**

   (a) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

   (b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.
(2) **Yellow alone, or "Caution", when shown following the green or "Go" signal:**

(a) Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited.

(b) Pedestrians facing the signal are thereby advised that there is insufficient time to cross the roadway, and any pedestrian then starting to cross shall yield the right-of-way to all vehicles.

(3) **Red alone, or "Stop":**

(a) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "Go" is shown alone. A right turn on a red signal shall be permitted at all intersections within the city, provided that the prospective turning car shall come to a full and complete stop before turning and that the turning car shall yield the right-of-way to pedestrians and cross traffic traveling in accordance with their traffic signal. However, such turn will not endanger other traffic lawfully using the intersection. A right turn on red shall be permitted at all intersections, except those that are clearly marked by a "No Turns On Red" sign, which may be erected by the city at intersections which the city decides require no right turns on red in the interest of traffic safety.

(b) No pedestrian facing such signal shall enter the roadway unless such entry can be made safely and without interfering with any vehicular traffic.

(c) A left turn on a red or stop signal shall be permitted at all intersections within the city where a one-way street intersects with another one-way street moving in the same direction into which the left turn would be made from the original one-way street. Before making such a turn, the prospective turning car shall come to a full and complete stop and shall yield the right-of-way to pedestrians and cross traffic traveling in accordance with the traffic signal so as not to endanger traffic lawfully using the intersection. A left turn on red shall be permitted at any applicable intersection except that clearly marked by a "No Turn of Red" sign, which may be erected by the city at intersections which the city decides requires no left turns on red in the interest of traffic safety.

(d) The driver of a motorcycle approaching an intersection that is controlled by a traffic-control signal utilizing a vehicle detection device that is inoperative due to the size of the motorcycle shall come to a full and complete stop at the intersection and, after exercising due care as provided by law, may proceed with due caution when it is safe to do so. It is not a defense to § 15-506, "At traffic control signals generally," that
the driver of a motorcycle proceeded under the belief that a traffic-control signal utilized a vehicle detection device or was inoperative due to the size of the motorcycle when such signal did not utilize a vehicle detection device or that any such device was not in fact inoperative due to the size of the motorcycle.

(4) **Steady red with green arrow:**
   (a) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.
   (b) No pedestrian facing such signal shall enter the roadway unless such entry can be made safely and without interfering with any vehicular traffic.

(5) In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

**15-507. At flashing traffic control signals.** (1) Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal, it shall require obedience by vehicular traffic as follows:
   (a) **Flashing red (stop signal).** When a red lens is illuminated with intermittent flashes, and the light is clearly visible for a sufficient distance ahead to permit such stopping, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or, if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.
   (b) **Flashing yellow (caution signal).** When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules set forth in § 15-504 of this code.

**15-508. At pedestrian control signals.** Wherever special pedestrian control signals exhibiting the words "Walk" or "Wait" or "Don't Walk" are in place, such signals shall indicate as follows:

(1) **Walk.** Pedestrians facing such signals may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.
(2) **Wait or Don't Walk.** No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed crossing on the walk signal shall proceed to a sidewalk or safety island while the wait signal is showing.

**15-509. Stops to be signaled.** Every driver operating a motor vehicle who intends to stop such vehicle, shall first see that such movement can be made in safety, and whenever the operation of any other vehicle may be affected by such movement, shall give the signal required in *Tennessee Code Annotated*, § 55-8-143, plainly visible to the driver of such other vehicle of the intention to make such movement.

**15-510. Violations and penalty.** A violation of any provision of this chapter shall subject the offender to a penalty under the general penalty provision of this code. Each day a violation shall be allowed to continue shall constitute a separate offense.

11. On the roadway side of any vehicle stopped or parked at the edge or curb of a street;
12. Upon any bridge or other elevated structure upon a highway or within a highway tunnel;
13. In a parking space clearly identified by an official sign as being reserved for the physically handicapped, unless, however, the person driving the vehicle is (a) physically handicapped, or (b) parking such vehicle for the benefit of a physically handicapped person. A vehicle parking in such a space shall display a certificate of identification or a disabled veteran's license plate issued under Tennessee Code Annotated, title 55, chapter 21.

15-605. **Loading and unloading zones.** No person shall park a vehicle for any purpose or period of time other than for the expeditious loading or unloading of passengers or merchandise in any place marked by the city as a loading and unloading zone.

15-606. **Presumption with respect to illegal parking.** When any unoccupied vehicle is found parked in violation of any provision of this chapter, there shall be a prima facie presumption that the registered owner of the vehicle is responsible for such illegal parking.

15-607. **Violations and penalty.** A violation of any provision of this chapter shall subject the offender to a penalty under the general penalty provision of this code. Each day a violation shall be allowed to continue shall constitute a separate offense.

STREET CUTS

SECTION
16-201. Purpose.
16-203. Permit required; standards of repairs.
16-204. Deposit or bond.
16-205. Insurance.
16-206. Supervision.
16-207. Violations and penalty.

16-201. Purpose. The purpose of this chapter is to regulate excavation, tunneling, fill, paving, or any alteration or repair by any individual, business, or governmental agency within the public street right-of-way. (Ord. #9, Sept. 1993)

16-202. Definitions. For the purpose of this chapter:
(1) "Construction" Means any excavation, tunneling, fill, paving, alteration or repair.
(2) "Person" means any individual, contractor, or agent of any public board or utility.
(3) "Street" means the full width of the public right-of-way. (Ord. #9, Sept. 1993)

16-203. Permit required; standards of repairs. No person shall, without first obtaining a permit, commence any construction within any street or close any street for any length of time. Permits may be obtained by making an application for a permit to the city recorder to issue such permit. In the case of an emergency that it becomes necessary for such construction, such as nights, weekends or holidays, the entity responsible is required to request the permit on the first workday after such emergency. The application shall consist of a written statement describing the work proposed, any required construction drawings, and a time schedule for the completion of the work. The following standards shall be used to review the application for a permit and to inspect subsequent construction.

(1) All work of repairing surfaces which have been cut or opened shall be done in accordance with the specifications and standards of workmanship adopted by the City of Harrogate and shall be inspected by the city. Should any cut or trench not be refilled in accordance to these standards, the city may cause such opening to again be excavated and refilled to its satisfaction at the expense of the permittee. The permittee shall be responsible for total street failure, including changes in sub-base and supporting area, resulting from a meter main
breakage or from a sewer line breakage that was directly caused by a previous excavation of the permittee.

(2) The holder of a permit shall perform the work provided for therein with due regard to the public convenience and safety and as expeditiously as possible. Such permits shall expire automatically thereunder unless the work is begun within thirty (30) days after its issuance. Any permit not used within thirty (30) days shall be returned for cancellation or renewal.

(3) The holder of a permit while making the repairs, shall use every precaution required as to barricades, lights and devices for the safety of the public. This section shall not relieve the holder of the permit from responsibilities for accidents, should any occur. It shall be distinctly understood, and the application and permit shall state, that all persons making openings shall hold the city and its employees harmless from all damages which may be recovered by reason of injuries received to persons or property on account of such openings.

(4) The holder of a permit shall as soon as physically possible, repair the opening surface equal to or better than its original state as before the opening was made and shall repair all latent defects in construction for a period of three (3) years after completion of such opening. (Ord. #9, Sept. 1993)

16-204. Deposit or bond. No permit shall be issued unless and until the applicant therefor has deposited with the recorder a cash deposit. The deposit shall be in the sum of two hundred dollars ($200.00) per excavation or tunnel and shall insure the proper restoration of the ground and laying of the pavement, if any. Where the amount of the deposit is clearly inadequate to cover the cost of restoration, the recorder, or such other person as may be designated by the board of mayor and aldermen, may increase the amount of the deposit to an amount considered by the recorder or designated representative to be adequate to cover the cost. If the applicant fails to comply with the restoration provision of this section, the expense to the city of relaying the surface of the ground or pavement, and of making the refill shall be deducted from the deposit. The balance shall be returned to the permittee without interest as provided herein after the tunnel or excavation is completely refilled and the surface or pavement is restored.

Any public utility intending to make excavations or tunnels may make and maintain with the city an annual deposit, surety bond, or letter of commitment in such form or amount as the designated representative of the board of mayor and aldermen deems adequate. (Ord. #9, Sept. 1993)

16-205. Insurance. In addition to making the deposit or giving the bond hereinbefore required to insure that proper restoration is made, each person applying for an excavation permit shall file a certificate of insurance indicating that he is insured against claims for damages for personal injury as well as against claims for property damage which may arise from or out of the
performance of the work, whether such performance be by himself, his subcontractor, or anyone directly or indirectly employed by him. Such insurance shall cover collapse, explosive hazards, and underground work by equipment on the street, and shall include protection against liability arising from completed operations. The amount of the insurance shall be prescribed by the recorder in accordance with the nature of the risk involved; provided, however, that the liability insurance for bodily injury shall not be less than three hundred thousand dollars ($300,000.00) for each person, and not less than seven hundred thousand dollars ($700,000.00) for each accident, and for property damages not less than one hundred thousand dollars ($100,000.00) for each accident.

16-206. **Supervision.** The person designated by the board of mayor and aldermen shall from time to time inspect all excavations and tunnels being made in or under any public street, alley, or other public place in the city and see to the enforcement of the provisions of this chapter. Notice shall be given to him at least ten (10) hours before the work of refilling any such excavation or tunnel commences.

16-207. **Violations and penalty.** A violation of any provision of this chapter shall subject the offender to a penalty under the general penalty provision of this code. Each day a violation shall be allowed to continue shall constitute a separate offense.

TITLE 18
WATER AND SEWERS

CHAPTER
1. WASTEWATER SERVICE CONNECTION FEES.
2. WASTEWATER DISPOSAL.

CHAPTER 1
WASTEWATER SERVICE CONNECTION FEES

SECTION
18-101. Fee established.  The city wastewater service connection fee is two hundred (200) gallons per day per examining room hereby set at one thousand two hundred dollars ($1,200.00) per unit and:
   (1) Each new customer must pay for the cost of the service connection to the wastewater system prior to any service connection.
   (2) Residential customers are not permitted to share a common meter or connection to avoid the rate system designed for the recovery of capital and operating costs.
   (3) Where the water utility has allowed the use of a common meter, the city may assess a separate connection fee per dwelling unit.
   (4) All customers are required to pay at least a minimum wastewater service connection fee as established by this chapter.
   (5) For the purpose of this chapter a unit is defined as a separate living unit for apartments and dwellings.  (Ord. #46, Aug. 2005)

18-102. System usage.  In an effort to make the tap fee as fair and objective as possible a method based upon commercial, industrial, and institutional water consumption requirements outlined in Community Water Systems Source Book, fifth edition shall be used.
(1) Using one hundred (100) gallons per day of water per person and 2.5 residents per household, the average usage for the service is seven thousand five hundred (7,500) gallons per month. Thus, seven thousand five hundred (7,500) is the basic measure of usage associated with one connection or one unit and it is the same measure used by the state in evaluating facility designs. The application of all other uses shall be computed according to the above referenced design standards regardless of what the actual usage of the system is.

(2) Schedule of water consumption requirements. The following water consumption shall be used in computing wastewater service connection fees:

(Ord. #46, Aug. 2005)

18-103. **Formula.** The formula for calculating the service connection fee, sometimes referred to as the "tap fee" is:

\[
\text{Gallons per day} \times 30 \text{ days usage} / 7500 \text{ gallons} \times \$1,200 \text{ (tap fee)} \quad \text{(Ord. #46, Aug. 2005)}
\]

18-104. **Example guide.** Example: A 10,000 SF office building - The number of units is 12 gallons per day per 100 SF (from the above usage standards) or 1,200 gallons per day. Multiplied by 30 days in the month the usage is 36,000 gallons per month. Divide by the 7,500-gallon base for each unit or tap and 4.8 units are determined. To determine the connection fee multiply 4.8 times $1,200.00 (established by the city utility board). The connection fee for an office building used in the above example would be as follows: 4.8 times $1,200.00 or $5,760.00 connection fee. (Ord. #46, Aug. 2005)

18-105. **Schedule of usage and fees.** The following schedules of fees are included as a part of this chapter and are applicable to all service connection fees.

**Wastewater connection fees schedule:**

- **Residential single unit** - 100 gallons per day per person. Using 2.5 persons per household for 30 days the monthly water usage is 7,500 gallons. This monthly usage represents one equity connection fee. The equity connection fee is $1,200.00.
Apartments, rooming houses, condominiums, duplexes, triplexes, etc. - Each apartment unit, rooming house unit, condominium unit, duplex unit, triplex unit, etc. are assessed a fee of $1,200.00 per unit. Each unit is treated just like a single residential unit. The service connection fee for a 14 unit apartment building would be 14 x $1,200.00 or $16,800.00.

Barber shop - 100 gallons per day per chair. Using 2 chairs, 100 x 2 x 30 days equal 6,000 gallons per month usage. 6,000 gallons/7,500 residential base usage equals .8 connections. The connection fee would be $960.00. The shop would be assessed the minimum service connection fee of $1,200.00.

Beauty shop - 125 gallons per day per chair. Using 4 chairs, 125 x 4 x 30 days equal 15,000 gallons per month usage. 15,000 gallons/7,500 residential base usage equals 2 connections. The connection fee would be 2 x $1,200.00 or $2,400.00.

Dentist office - 750 gallons per day per chair. Using 2 chairs, 750 x 2 x 30 days equal 45,000 gallons per month usage. 45,000 gallons/7,500 residential base usage equals 6 connections. The connection fee would be 6 x $1,200.00 or $7,200.00.

Department store - 40 gallons per day per employee. Using 4 employees, 40 x 4 x 30 days equal 4,800 gallons per month usage. 4,800 gallons/7,500 residential base usage equals 64 connections. The connection fee would be 64 x $1,200.00 or $768.00. The department store would be assessed the minimum service connection fee of $1,200.00.

Drug store - 500 gallons per day. 500 x 30 days equal 15,000 gallons per month usage. 15,000 gallons/7,500 residential base usage equals 2 connections. The connection fee would be 2 x $1,200.00 or $2,400.00.

Church - 3 gallons per day per member. Using 300 members, 3 x 300 x 30 days equal 27,000 gallons per month usage 27,000 gallons/7,500 residential base usage equals 3.6 connections. The connection fee would be 3.6 x $1,200.00 or $4,320.00. If the connection serves a separate building at the church an estimate of the number of people who will use the building should be used for the number of members.

Schools - 16 gallons per day per person. Using 300 enrollment, 16 x 300 x 30 days equal 144,000 gallons per month usage. 144,000 gallons/7,500 residential base usage equals 19.2 connections. The connection fee would be 19.2 x $1,200.00 or $23,040.00.

Hospitals - 300 gallons per day per bed. Using 100 beds, 300 x 100 x 30 days equal 900,000 gallons per month usage. 900,000 gallons/7,500 residential base usage equals 120 connections. The connection fee would be 120 x $1,200.00 or $144,000.00.
Nursing homes - 195 gallons per day per bed. Using 25 beds, 195 x 25 x 30 days equal 146,250 gallons per month usage. 146,250 gallons/7,500 residential base usage equals 19.5 connections. The connection fee would be 19.5 x $1,200.00 or $23,400.00.

Laundry - 5,000 gallons per day. 5,000 x 30 days equal 150,000 gallons per month usage. 150,000 gallons/7,500 residential base usage equals 20 connections. The connection fee would be 20 x $1,200.00 or $24,000.00.

Laundrette - 250 gallons per day per machine. Using 10 washing machines, 250 x 10 x 30 days equal 75,000 gallons per month usage. 75,000 gallons/7,500 residential base usage equals 10 connections. The connection fee would be 10 x $1,200.00 or $12,000.00.

All candidates for the chief administrative office (mayor), any candidates who spend more than $500, and candidates for other offices that pay at least $100 a month are required to file campaign financial disclosure reports. Civil penalties of $25 per day are authorized for late filings. Penalties up to the greater of $10,000 or 15 percent of the amount in controversy may be levied for filings more than 35 days late. It is a Class E felony for a multicandidate political campaign committee with a prior assessment record to intentionally fail to file a required campaign financial report. Further, the treasurer of such a committee may be personally liable for any penalty levied by the Registry of Election Finance (T.C.A. § 2-10-101–118).

Contributions to political campaigns for municipal candidates are limited to:
   a. $1,000 from any person (including corporations and other organizations);
   b. $5,000 from a multicandidate political campaign committee;
   c. $20,000 from the candidate;
   d. $20,000 from a political party; and
   e. $75,000 from multicandidate political campaign committees.

The Registry of Election Finance may impose a maximum penalty of $10,000 or 115 percent of the amount of all contributions made or accepted in excess of these limits, whichever is greater (T.C.A. § 2-10-301–310).

Each candidate for local public office must prepare a report of contributions that includes the receipt date of each contribution and a political campaign committee’s statement indicating the date of each expenditure (T.C.A. § 2-10-105, 107).

Candidates are prohibited from converting leftover campaign funds to personal use. The funds must be returned to contributors, put in the volunteer public education trust fund, or transferred to another political campaign fund, a political party, a charitable or civic organization, educational institution, or an organization described in 26 U.S.C. 170(c) (T.C.A. § 2-10-114).

2. Conflicts of Interest.

Municipal officers and employees are permitted to have an “indirect interest” in contracts with their municipality if the officers or employees publicly acknowledge their interest. An indirect interest is any interest that is not “direct,” except it includes a direct interest if the officer is the only supplier of
goods or services in a municipality. A “direct interest” is any contract with the official himself or with any business of which the official is the sole proprietor, a partner, or owner of the largest number of outstanding shares held by any individual or corporation. Except as noted, direct interests are absolutely prohibited (T.C.A. § 6-2-402, T.C.A. § 6-20-205, T.C.A. § 6-54-107–108, T.C.A. § 12-4-101–102).

Conflict of interest disclosure reports by any candidate or appointee to a local public office are required under T.C.A. §§ 8-50-501 et seq. Detailed financial information is required, including the names of corporations or organizations in which the official or one immediate family member has an investment of over $10,000 or 5 percent of the total capital. This must be filed no later than 30 days after the last day legally allowed for qualifying as a candidate. As long as an elected official holds office, he or she must file an amended statement with the Tennessee Ethics Commission or inform that office in writing that an amended statement is not necessary because nothing has changed. The amended statement must be filed no later than January 31 of each year (T.C.A. § 8-50-504).

4. Consulting fee prohibition for elected municipal officials.

Any member or member-elect of a municipal governing body is prohibited under T.C.A. § 2-10-124 from “knowingly” receiving any form of compensation for “consulting services” other than compensation paid by the state, county, or municipality. Violations are punishable as Class C felonies if the conduct constitutes bribery under T.C.A. § 39-16-102. Other violations are prosecuted as Class A misdemeanors. A conviction under either statute disqualifies the offender from holding any office under the laws or Constitution of the State of Tennessee.

“Consulting services” under T.C.A. § 2-10-122 means “services to advise or assist a person or entity in influencing legislative or administrative action, as that term is defined in § 3-6-301, relative to the municipality or county represented by that official.” “Consulting services” also means services to advise or assist a person or entity in maintaining, applying for, soliciting or entering into a contract with the municipality represented by that official. "Consulting services" does not mean the practice or business of law in connection with representation of clients by a licensed attorney in a contested case action, administrative proceeding or rule making procedure;
"Compensation" does not include an “honorarium” under T.C.A. § 2-10-116, or certain gifts under T.C.A. § 3-6-305(b), which are defined and prohibited under those statutes.

The attorney general construes "Consulting services" to include advertising or other informational services that directly promote specific legislation or specifically target legislators or state executive officials. Advertising aimed at the general public that does not promote or otherwise attempt to influence specific legislative or administrative action is not prohibited. Op. Atty.Gen. No. 05-096, June 17, 2005.

5. Bribery offenses.

   a. A person who is convicted of bribery of a public servant, as defined in T.C.A. § 39-16-102, or a public servant who is convicted of accepting a bribe under the statute, commits a Class B felony.

   b. Under T.C.A. § 39-16-103, a person convicted of bribery is disqualified from ever holding office again in the state. Conviction while in office will not end the person’s term of office under this statute, but a person may be removed from office pursuant to any law providing for removal or expulsion existing prior to the conviction.

   c. A public servant who requests a pecuniary benefit for performing an act the person would have had to perform without the benefit or for a lesser fee, may be convicted of a Class E felony for solicitation of unlawful compensation under T.C.A. § 39-16-104.

   d. A public servant convicted of “buying and selling in regard to offices” under T.C.A. § 39-16-105, may be found guilty of a Class C felony. Offenses under this statute relevant to public officials are selling, resigning, vacating, or refusing to qualify and enter upon the duties of the office for pecuniary gain, or entering into any kind of borrowing or selling for anything of value with regard to the office.

   e. Exceptions to 1, 3, and 4, above include lawful contributions to political campaigns, and a “trivial benefit” that is “incidental to personal, professional, or business contacts” in which there is no danger of undermining an official’s impartiality.

   a. Public misconduct offenses under Tennessee Code Annotated § 39-16-401 through § 39-16-404 apply to officers, elected officials, employees,
candidates for nomination or election to public office, and persons performing a governmental function under claim of right even though not qualified to do so.

b. Official misconduct under Tennessee Code Annotated § 39-16-402 pertains to acts related to a public servant’s office or employment committed with an intent to obtain a benefit or to harm another. Acts constituting an offense include the unauthorized exercise of official power, acts exceeding one’s official power, failure to perform a duty required by law, and receiving a benefit not authorized by law. Offenses under this section constitute a Class E felony.

c. Under Tennessee Code Annotated § 39-16-403, “Official oppression,” a public servant acting in an official capacity who intentionally arrests, detains, frisks, etc., or intentionally prevents another from enjoying a right or privilege commits a Class E felony.

d. Tennessee Code Annotated § 39-16-404 prohibits a public servant’s use of information attained in an official capacity, to attain a benefit or aid another which has not been made public. Offenses under the section are Class B misdemeanors.

e. A public servant convicted for any of the offenses summarized in sections 2-4 above shall be removed from office or discharged from a position of employment, in addition to the criminal penalties provided for each offense. Additionally, an elected or appointed official is prohibited from holding another appointed or elected office for ten (10) years. At-will employees convicted will be discharged, but are not prohibited from working in public service for any specific period. Subsequent employment is left to the discretion of the hiring entity for those employees. Tennessee Code Annotated § 39-16-406.

7. Ouster law.

Some Tennessee city charters include ouster provisions, but the only general law procedure for removing elected officials from office is judicial ouster. Cities are entitled to use their municipal charter ouster provisions, or they may proceed under state law.

The judicial ouster procedure applies to all officers, including people holding any municipal “office of trust or profit.” (Note that it must be an “office” filled by an “officer,” distinguished from an “employee” holding a “position” that does not have the attributes of an “office.”) The statute makes any officer subject to such removal “who shall knowingly or willfully misconduct himself in office, or who shall knowingly or willfully neglect to perform any duty enjoined upon such officer by any of the laws of the state, or who shall in any public place be in a state of intoxication produced by strong drink voluntarily taken, or who shall
engage in any form of illegal gambling, or who shall commit any act constituting a violation of any penal statute involving moral turpitude” (T.C.A. § 8-47-101).

T.C.A. § 8-47-122(b) allows the taxing of costs and attorney fees against the complainant in an ouster suit if the complaint subsequently is withdrawn or deemed meritless. Similarly, after a final judgment in an ouster suit, governments may order reimbursement of attorney fees to the officer targeted in a failed ouster attempt (T.C.A. § 8-47-121).

The local attorney general or city attorney has a legal “duty” to investigate a written allegation that an officer has been guilty of any of the mentioned offenses. If he or she finds that “there is reasonable cause for such complaint, he shall forthwith institute proceedings in the Circuit, Chancery, or Criminal Court of the proper county.” However, with respect to the city attorney, there may be an irreconcilable conflict between that duty and the city attorney’s duties to the city, the mayor, and the rules of professional responsibility governing attorneys. Also, an attorney general or city attorney may act on his or her own initiative without a formal complaint (T.C.A. § 8-47-101–102). The officer must be removed from office if found guilty (T.C.A. § 8-47-120).

DRUG AND ALCOHOL TESTING POLICY

(Note - The MTAS model Drug and Alcohol Testing Policy was prepared by MTAS Consultants for use by Tennessee municipalities implementing drug testing programs for municipal employees. This policy is an alternative to the Drug Free Workplace Program developed by the Tennessee Department of Labor, under the Drug Free Workplace Act. Municipalities seeking the "drug free workplace" designation from the state must adopt the program developed by the Department of Labor. MTAS Management Consultants can assist your city in obtaining a copy of the state regulations for the Drug Free Workplace Program.

The Tennessee Drug Free Workplace Program is broader than the MTAS policy in that it requires the testing of applicants for all employment positions, after a conditional offer of employment. MTAS Consultants have concerns about the legality of the state program as applied to government employees. Drug testing by a government employer is considered to be a search under the United States Constitution, and some courts have found that government employees have greater rights to contest drug testing policies than employees in the private sector. The Tennessee Drug Free Workplace Act has not been tested in court, so there is no guidance concerning the outcome of potential constitutional challenges which public employees may raise under the state law. MTAS Consultants are further concerned that cities adopting the state program may inadvertently alter the at-will status of employees. The adoption of the state program also results in the employer's loss of control over drug testing, as the General Assembly and the Department of Labor have authority over the requirements of the law and the implementation of the statute.

One benefit of adopting the state program is that the city may be designated as a "drug free workplace" by the Workers' Compensation Division of the Department of Labor. Such designation may entitle the employer to a discount on workers' compensation insurance premiums. The TML Risk Management Pool, which provides workers' compensation insurance for many Tennessee municipalities, views the drug free workplace designation as one of many factors considered when setting premium amounts charged to municipal employers.

The MTAS model Drug and Alcohol Testing Policy permits pre-employment testing and random testing of employees in "safety sensitive" positions only. This policy further provides for reasonable suspicion testing and post accident testing for all employment positions. The more limited scope and application of the MTAS policy, as compared to the state program, is based upon legal research and analysis by MTAS Consultants. It is the opinion of MTAS Consultants that drug and alcohol testing of municipal employees when
implemented in accordance with this model policy, is a practice which may be defended successfully in the event of litigation.

If you have questions concerning the MTAS model Drug and Alcohol Testing Policy please contact your MTAS Management Consultant for further information.)
1. **PURPOSE**

The City of Harrogate, Tennessee, recognizes that the use and abuse of drugs and alcohol in today's society is a serious problem that may involve the workplace. It is the intent of the City of Harrogate, Tennessee, to provide all employees with a safe and secure workplace in which each person can perform his/her duties in an environment that promotes individual health and workplace efficiency. Employees of the City of Harrogate, Tennessee are public employees and must foster the public trust by preserving employee reputation for integrity, honesty, and responsibility.

To provide a safe, healthy, productive, and drug-free working environment for its employees to properly conduct the public business, the City of Harrogate, Tennessee has adopted this drug and alcohol testing policy effective March, 2011. This policy complies with the Federal Drug-Free Workplace Act of 1988, which ensures employees the right to work in an alcohol- and drug-free environment and to work with persons free from the effects of alcohol and drugs; Federal Highway Administration (FHWA) rules, which require drug and alcohol testing for persons required to have a commercial driver's license (CDL); Division of Transportation (DOT) rules, which include procedures for urine drug testing and breath alcohol testing; and the Omnibus Transportation Employee Testing Act of 1991, which requires alcohol and drug testing of safety-sensitive employees in the aviation, motor carrier, railroad, pipeline, commercial marine, and mass transit industries. In the case of this policy, the Omnibus Transportation Employee Testing Act of 1991 is most significant with its additional requirement of using the "split specimen" approach to drug testing, which provides an extra safeguard for employees. The types of tests required are: pre-employment, transfer, reasonable suspicion, post-accident (post-incident), random, return-to-duty, and follow-up.

It is the policy of the City of Harrogate, Tennessee that the use of drugs by its employees and impairment in the workplace due to drugs and/or alcohol are prohibited and will not be tolerated. Engaging in prohibited and/or illegal conduct may lead to termination of employment. Prohibited and/or illegal conduct includes but is not limited to:

1. Being on duty or performing work in or on city property while under the influence of drugs and/or alcohol;

2. Engaging in the manufacture, sale, distribution, use, or unauthorized possession of (illegal) drugs at any time and of alcohol while on duty or while in or on city property;
3. Refusing or failing a drug and/or alcohol test administered under this policy;

4. Providing an adulterated, altered, or substituted specimen for testing;

5. Use of alcohol within four hours prior to reporting for duty on schedule or use of alcohol while on-call for duty; and

6. Use of alcohol or drugs within eight hours following an accident (incident) if the employee's involvement has not been discounted as a contributing factor in the accident (incident) or until the employee has successfully completed drug and/or alcohol testing procedures.

This policy does not preclude the appropriate use of legally prescribed medication that does not adversely affect the mental, physical, or emotional ability of the employee to safely and efficiently perform his/her duties. It is the employee's responsibility to inform the proper supervisory personnel of his/her use of such legally prescribed medication before the employee goes on duty or performs any work.

In order to educate the employees about the dangers of drug and/or alcohol abuse, the city shall sponsor an information and education program for all employees and supervisors. Information will be provided on the signs and symptoms of drug and/or alcohol abuse; the effects of drug and/or alcohol abuse on an individual's health, work, and personal life; the city's policy regarding drugs and/or alcohol; and the availability of counseling. The city recorder or his/her designee has been designated as the municipal official responsible for answering questions regarding this policy and its implementation.

All City of Harrogate, Tennessee property may be subject to inspection at any time without notice. There should be no expectation of privacy in such property. Property includes, but is not limited to, vehicles, desks, containers, files, and lockers.

2. **SCOPE**

Certain aspects of this policy may apply to full-time, part-time, temporary, and volunteer employees of the City of Harrogate, Tennessee. The policy also applies to applicants for positions requiring a CDL and other safety sensitive positions who have been given a conditional offer of employment from the City of Harrogate, Tennessee.
3. CONSENT FORM

Before a drug and/or alcohol test is administered, employees and applicants will be asked to sign a consent form authorizing the test and permitting release of test results to the laboratory, medical review officer (MRO), city recorder or his/her designee. The consent form shall provide space for employees and applicants to acknowledge that they have been notified of the city's drug and alcohol testing policy.

The consent form shall set forth the following information:

1. The procedure for confirming and verifying an initial positive test result;
2. The consequences of a verified positive test result; and
3. The consequences of refusing to undergo a drug and/or alcohol test.

The consent form also provides authorization for certified or licensed attending medical personnel to take and have analyzed appropriate specimens to determine if drugs or alcohol were present in the employee's system.

4. COMPLIANCE WITH SUBSTANCE ABUSE POLICY

Compliance with this substance abuse policy is a condition of employment. The failure or refusal by an applicant or employee to cooperate fully by signing necessary consent forms or other required documents or the failure or refusal to submit to any test or any procedure under this policy in a timely manner will be grounds for refusal to hire or for termination. The submission by an applicant or employee of a urine sample that is not his/her own or is adulterated shall be grounds for refusal to hire or for termination.

5. GENERAL RULES

These are the general rules governing the City of Harrogate, Tennessee's drug and alcohol testing program:

1. City employees shall not take or be under the influence of any drugs unless prescribed by the employee's licensed physician. Employees who are required to take prescription and/or over-the-counter medications shall notify the proper supervisory personnel before the employees go on duty.
2. City employees are prohibited from engaging in the manufacture, sale, distribution, use, or unauthorized possession of illegal drugs at any time and of alcohol while on duty or while in or on city property.

3. All City of Harrogate, Tennessee, property is subject to inspection at any time without notice. There should be no expectation of privacy in or on such property. City property includes, but is not limited to, vehicles, desks, containers, files, and lockers.

Failure to so inform the city subjects the employee to disciplinary action up to and including termination for the first offense. The city will notify the federal contracting officer pursuant to applicable provisions of the Drug-Free Workplace Act and the Omnibus Transportation Employee Testing Act.

6. **DRUG TESTING**

   An applicant or employee must carry and present a current and recent photo ID to appropriate personnel during testing. Failure to present a photo ID is equivalent to refusing to take the test. Employees and applicants may be required to submit to drug testing under six separate conditions:

   A. **TYPES OF TESTS**

   1. **Pre-employment**

      All employment applicants for safety sensitive positions who have received a conditional offer of employment with the City of Harrogate, Tennessee, must take a drug test before receiving a final offer of employment. "Safety sensitive positions" include police officers, firefighters, positions requiring a commercial driver's license, public works positions involving the operation of heavy equipment, water/wastewater plant operators, all positions involving the construction and maintenance of electrical lines, teachers and other positions having responsibility for the safety and care of children.
2. **Transfer**

Employees transferring to a safety sensitive position and/or another position within the city that requires a commercial driver's license (CDL) shall undergo drug testing.

3. **Post-Accident/Post-Incident Testing**

Following any workplace accident (incident) determined by supervisory personnel of the City of Harrogate, Tennessee, to have resulted in significant property or environmental damage or in significant personal injury, including but not limited to a fatality or human injury requiring medical treatment, any employee whose performance either contributed to the accident (incident) or cannot be discounted as a contributing factor to the accident (incident) and who is reasonably suspected of possible drug use as determined during a routine post-accident (post-incident) investigation or who receives a citation for a moving violation arising from the accident will be required to take a post-accident (post-incident) drug test.

Post-accident (post-incident) testing shall be carried out within 32 hours following the accident (incident). (Note - DOT regulations allow up to 32 hours for drug tests. A lesser time provision is optional.) Urine collection for post-accident (post-incident) testing shall be monitored or observed by same-gender collection personnel at the established collection site(s).

In instances where post-accident (post-incident) testing is to be performed, the City of Harrogate, Tennessee reserves the right to direct the medical review officer (MRO) to instruct the designated laboratory to perform testing on submitted urine specimens for possible illegal/illegitimate substances.

Any testing for additional substances listed under the Tennessee Drug Control Act of 1989 as amended shall be performed at the urinary cutoff level that is normally used for those specific substances by the laboratory selected.

a. **Post-Accident (Post-Incident) Testing for Ambulatory Employees**

Following all workplace accidents (incidents) where drug testing is to be performed, unless otherwise specified by the department head, any affected employees who are
ambulatory will be taken by a supervisor or designated personnel of the City of Harrogate, Tennessee to the designated urine specimen collection site within 32 hours following the accident. (Note - DOT regulations allow up to 32 hours for drug tests. A lesser time provision is optional.) In the event of an accident (incident) occurring after regular work hours, the employee(s) will be taken to the (testing site) within 32 hours. No employee shall consume drugs prior to completing the post-accident (post-incident) testing procedures.

No employee shall delay his/her appearance at the designated collection site(s) for post-accident (post-incident) testing. Any unreasonable delay in providing specimens for drug testing shall be considered a refusal to cooperate with the substance abuse program of the City of Harrogate, Tennessee and shall result in administrative action up to and including termination of employment.

b. Post-Accident (Post-Incident) Testing for Injured Employees

Any affected employee who is seriously injured, non-ambulatory, and/or under professional medical care following a significant accident (incident) shall consent to the obtaining of specimens for drug testing by qualified, licensed attending medical personnel and consent to the testing of the specimens. Consent shall also be given for the attending medical personnel and/or medical facility (including hospitals) to release to the medical review officer (MRO) of the City of Harrogate, Tennessee appropriate and necessary information or records that would indicate only whether or not specified prohibited drugs (and what amounts) were found in the employee's system. Consent shall be granted by each employee at the implementation date of the substance abuse policy of the City of Harrogate, Tennessee or upon hiring following the implementation date.

Post-accident (post-incident) urinary testing may be impossible for unconscious, seriously-injured, or hospitalized employees. If this is the case, certified or licensed attending medical personnel shall take and have analyzed appropriate specimens to determine if drugs were present in the employee's system. Only an accepted method
for collecting specimens will be used. Any failure to do post-accident (post-incident) testing within 32 hours must be fully documented by the attending medical personnel.

4. **Testing Based on Reasonable Suspicion**

A drug test is required for any employee where there is reasonable suspicion to believe the employee is using or is under the influence of drugs and/or alcohol.

The decision to test for reasonable suspicion must be based on a reasonable and articulate belief that the employee is using or has used drugs. This belief should be based on recent, physical, behavioral, or performance indicators of possible drug use. One supervisor who has received drug detection training that complies with DOT regulations must make the decision to test and must observe the employee's suspicious behavior.

Supervisory personnel of the City of Harrogate, Tennessee making a determination to subject any employee to drug testing based on reasonable suspicion shall document their specific reasons and observations in writing to the city recorder or his/her designee within 24 hours of the decision to test and before the results of the urine drug tests are received by the department. Urine collection for reasonable suspicion testing shall be monitored or observed by same-gender collection personnel.

5. **Random Testing**

Only employees of the City of Harrogate, Tennessee holding safety sensitive positions are subject to random alcohol and drug testing. "Safety sensitive positions" include police officers, firefighters, positions requiring a commercial driver's license, public works equipment operators, water/wastewater plant operators, all positions involving the construction and maintenance of electrical lines, teachers and other positions having responsibility for the safety and care of children. It is the policy of the City of Harrogate, Tennessee to annually random test for drugs at least 50 percent of the total number of drivers possessing or obtaining a commercial driver's license (CDL).

A minimum of 15 minutes and a maximum of two hours will be allowed between notification of an employee's selection for random
urine drug testing and the actual presentation for specimen collection.

Random donor selection dates will be unannounced with unpredictable frequency. Some may be tested more than once each year while others may not be tested at all, depending on the random selection.

If an employee is unavailable (i.e., vacation, sick day, out of town, work-related causes, etc.) to produce a specimen on the date random testing occurs, the City of Harrogate, Tennessee may omit that employee from that random testing or await the employee's return to work.

6. **Return-to-Duty and Follow-Up**

Any employee of the City of Harrogate, Tennessee who has violated the prohibited drug conduct standards and is allowed to return to work, must submit to a return-to-duty test. Follow-up tests will be unannounced, and at least six tests will be conducted in the first 12 months after an employee returns to duty. Follow-up testing may be extended for up to 60 months following return to duty.

The employee will be required to pay for his or her return-to-duty and follow-up tests accordingly.

Testing will also be performed on any employee possessing a CDL returning from leave or special assignment in excess of six months. In this situation, the employee will not be required to pay for the testing.

**B. PROHIBITED DRUGS**

All drug results will be reported to the medical review officer (MRO). If verified by the MRO, they will be reported to the city recorder or his/her designee. The following is a list of drugs for which tests will be routinely conducted (see Appendix A for cutoff levels):

1. Amphetamines,
2. Marijuana,
3. Cocaine,
4. Opiates,
5. Phencyclidine (PCP),
6. Alcohol, and
7. Depressants.

The city may test for any additional substances listed under the Tennessee Drug Control Act of 1989.

C. DRUG TESTING COLLECTION PROCEDURES

Testing will be accomplished as non-intrusively as possible. Affected employees, except in cases of random testing, will be taken by a supervisor or designated personnel of the City of Harrogate, Tennessee to a drug test collection facility selected by the City of Harrogate, Tennessee (see Appendix B), where a urine sample will be taken from the employee in privacy. The urine sample will be immediately sealed by personnel overseeing the specimen collection after first being examined by these personnel for signs of alteration, adulteration, or substitution. The sample will be placed in a secure mailing container. The employee will be asked to complete a chain-of-custody form to accompany the sample to a laboratory selected by the City of Harrogate, Tennessee to perform the analysis on collected urine samples.

D. DRUG TESTING LABORATORY STANDARDS AND PROCEDURES

All collected urine samples will be sent to a laboratory that is certified and monitored by the federal Department of Health and Human Services (DHHS) (see Appendix C).

As specified earlier, in the event of an accident (incident) occurring after regular work hours, the supervisor or designated personnel shall take the employee(s) to the (testing site) within 32 hours where proper collection procedures will be administered.

The Omnibus Act requires that drug testing procedures include split specimen procedures. Each urine specimen is subdivided into two bottles labeled as a "primary" and a "split" specimen. Both bottles are sent to a laboratory. Only the primary specimen is opened and used for the urinalysis. The split specimen bottle remains sealed and is stored at the laboratory. If the analysis of the primary specimen confirms the presence
of drugs, the employee has 72 hours to request sending the split specimen to another federal Department of Health and Human Services (DHHS) certified laboratory for analysis. The employee will be required to pay for his or her split specimen test(s).

For the employee's protection, the results of the analysis will be confidential except for the testing laboratory. After the MRO has evaluated a positive test result, the employee will be notified, and the MRO will notify the city recorder or his/her designee.

E. REPORTING AND REVIEWING

The City of Harrogate, Tennessee shall designate a medical review officer (MRO) to receive, report, and file testing information transmitted by the laboratory. This person shall be a licensed physician with knowledge of substance abuse disorders (see Appendix C).

1. The laboratory shall report test results only to the designated MRO, who will review them in accordance with accepted guidelines and the procedures adopted by the City of Harrogate, Tennessee.

2. Reports from the laboratory to the MRO shall be in writing or by fax. The MRO may talk with the employee by telephone upon exchange of acceptable identification.

3. The testing laboratory, collection site personnel, and MRO shall maintain security over all the testing data and limit access to such information to the following: the respective department head, the city recorder or his/her designee, and the employee.

4. Neither the City of Harrogate, Tennessee the laboratory, nor the MRO shall disclose any drug test results to any other person except under written authorization from the affected employee, unless such results are necessary in the process of resolution of accident (incident) investigations, requested by court order, or required to be released to parties (i.e., DOT, the Tennessee Department of Labor, etc.) having legitimate right-to-know as determined by the city attorney.
7. ALCOHOL TESTING

An applicant or employee must carry and present a current and recent photo ID to appropriate personnel during testing. Failure to present a photo ID is equivalent to refusing to take the test. Employees and applicants may be required to submit to alcohol testing under six separate conditions:

A. TYPES OF TESTS

1. **Post-Accident/Post-Incident Testing**

Following any workplace accident (incident) determined by supervisory personnel of the City of Harrogate, Tennessee to have resulted in significant property or environmental damage or in significant personal injury, including but not limited to a fatality or human injury requiring medical treatment, each employee whose performance either contributed to the accident (incident) or cannot be discounted as a contributing factor to the accident (incident) and who is reasonably suspected of possible alcohol use as determined during a routine post-accident (post-incident) investigation or who receives a citation for a moving violation arising from the accident will be required to take a post-accident (post-incident) alcohol test.

Post-accident (post-incident) testing shall be carried out within two hours following the accident (incident).

a. **Post-Accident (Post-Incident) Testing for Ambulatory Employees**

Following all workplace accidents (incidents) where alcohol testing is to be performed, unless otherwise specified by the department head, affected employees who are ambulatory will be taken by a supervisor or designated personnel of the City of Harrogate, Tennessee to the designated breath alcohol test site for a breath alcohol test within two hours following the accident. In the event of an accident (incident) occurring after regular work hours, the employee(s) will be taken to the (testing site) within two hours. No employee shall consume alcohol prior to completing the post-accident (post-incident) testing procedures.

No employee shall delay his/her appearance at the designated collection site(s) for post-accident (post-incident) testing. Any unreasonable delay in appearing for alcohol
testing shall be considered a refusal to cooperate with the substance abuse program of the City of Harrogate, Tennessee, and shall result in administrative action up to and including termination of employment.

b. **Post-Accident (Post-Incident) Testing for Injured Employees**

An affected employee who is seriously injured, non-ambulatory, and/or under professional medical care following a significant accident (incident) shall consent to the obtaining of specimens for alcohol testing by qualified, licensed attending medical personnel and consent to specimen testing. Consent shall also be given for the attending medical personnel and/or medical facility (including hospitals) to release to the medical review officer (MRO) of the City of Harrogate, Tennessee, appropriate and necessary information or records that would indicate only whether or not specified prohibited alcohol (and what amount) was found in the employee's system. Consent shall be granted by each employee at the implementation date of the substance abuse policy of the City of Harrogate, Tennessee or upon hiring following the implementation date.

Post-accident (post-incident) breath alcohol testing may be impossible for unconscious, seriously injured, or hospitalized employees. If this is the case, certified or licensed attending medical personnel shall take and have analyzed appropriate specimens to determine if alcohol was present in the employee's system. Only an accepted method for collecting specimens will be used. Any failure to do post-accident (post-incident) testing within two hours must be fully documented by the attending medical personnel.

2. **Testing Based on Reasonable Suspicion**

An alcohol test is required for each employee where there is reasonable suspicion to believe the employee is using or is under the influence of alcohol.

The decision to test for reasonable suspicion must be based on a reasonable and articulate belief that the employee is using or has used alcohol. This belief should be based on recent, physical, behavioral, or performance indicators of possible alcohol use. One
supervisor who has received alcohol detection training that complies with DOT regulations must make the decision to test and must observe the employee's suspicious behavior.

Supervisory personnel of the City of Harrogate, Tennessee making a determination to subject any employee to alcohol testing based on reasonable suspicion shall document their specific reasons and observations in writing to the city recorder or his/her designee within eight hours of the decision to test and before the results of the tests are received by the department.

3. **Random Testing**

Only employees of the City of Harrogate, Tennessee holding safety sensitive positions are subject to random alcohol testing. "Safety sensitive positions" include police officers, firefighters, positions requiring a commercial driver's license, public works equipment operators, water/wastewater plant operators, all positions involving the construction and maintenance of pipelines, teachers and other positions having responsibility for the safety and care of children. It is the policy of the City of Harrogate, Tennessee to annually random test for alcohol at least 25 percent of the total number of drivers possessing or obtaining a commercial driver's license (CDL).

A minimum of 15 minutes and a maximum of two hours will be allowed between notification of an employee's selection for random alcohol testing and the actual presentation for testing.

Random test dates will be unannounced with unpredictable frequency. Some employees may be tested more than once each year while others may not be tested at all, depending on the random selection.

If an employee is unavailable (i.e., vacation, sick day, out of town, work-related causes, etc.) to be tested on the date random testing occurs, the City of Harrogate, Tennessee may omit that employee from that random testing or await the employee's return to work.

4. **Return-to-Duty and Follow-Up**

Any employee of the City of Harrogate, Tennessee who has violated the prohibited alcohol conduct standards must submit to a return-to-duty test. Follow-up tests will be unannounced, and at
least six tests will be conducted in the first 12 months after an employee returns to duty. Follow-up testing may be extended for up to 60 months following return to duty.

The employee will be required to pay for his or her return-to-duty and follow-up tests accordingly. (Note - Requiring employees to pay for their return-to-duty and follow-up tests is optional.)

Testing will also be performed on any employee with a CDL returning from leave or special assignment in excess of six months. In this situation, the employee will not be required to pay for the testing.

B. ALCOHOL TESTING PROCEDURES

All breath alcohol testing conducted for the City of Harrogate, Tennessee shall be performed using evidential breath testing (EBT) equipment and personnel approved by the National Highway Traffic Safety Administration (NHTSA). (Note - A city's own public safety department cannot do this testing unless the test is required because of a traffic accident (incident).)

Alcohol testing is to be performed by a qualified technician as follows:

1. **Step One:**
   An initial breath alcohol test will be performed using a breath alcohol analysis device approved by the National Highway Traffic Safety Administration (NHTSA). If the measured result is less than 0.02 percent breath alcohol level (BAL), the test shall be considered negative. If the result is greater or equal to 0.04 percent BAL, the result shall be recorded and witnessed, and the test shall proceed to Step Two.

2. **Step Two:**
   Fifteen minutes shall be allowed to pass following the completion of Step One above. Before the confirmation test or Step Two is administered for each employee, the breath alcohol technician shall insure that the evidential breath testing device registers 0.00 on an air blank. If the reading is greater than 0.00, the breath alcohol technician shall conduct one more air blank. If the reading is greater than 0.00, testing shall not proceed using that instrument. However, testing may proceed on another instrument. Then Step One shall be repeated using a new mouthpiece and
either the same or equivalent but different breath analysis device.

The breath alcohol level detected in Step Two shall be recorded and witnessed.

If the lower of the breath alcohol measurements in Step One and Step Two is 0.04 percent or greater, the employee shall be considered to have failed the breath alcohol test. Failure of the breath alcohol test shall result in administrative action by proper officials of the City of Harrogate, Tennessee up to and including termination of employment.

Any breath level found upon analysis to be between 0.02 percent BAL and 0.04 percent BAL shall result in the employee's removal from duty without pay for a minimum of 24 hours. In this situation, the employee must be retested by breath analysis and found to have a BAL of less than 0.02 percent before returning to duty with the City of Harrogate, Tennessee.

All breath alcohol test results shall be recorded by the technician and shall be witnessed by the tested employee and by a supervisory employee of the City of Harrogate, Tennessee, when possible.

The completed breath alcohol test form shall be submitted to the city recorder or his/her designee.

8. **EDUCATION AND TRAINING**

   A. **Supervisory Personnel Who Will Determine Reasonable Suspicion Testing**

   Training supervisory personnel who will determine whether an employee must be tested based on reasonable suspicion will include at the minimum two 60-minute periods of training on the specific, contemporaneous, physical, behavioral, and performance indicators of both probable drug use and alcohol use. One 60-minute period will be for drugs and one will be for alcohol.

   The City of Harrogate, Tennessee will sponsor a drug-free awareness program for all employees.
B. Distribution of Information

The minimal distribution of information for all employees will include the display and distribution of:

a. Informational material on the effects of drug and alcohol abuse;

b. An existing community services hotline number, available drug counseling, rehabilitation, and employee assistance programs for employee assistance;

c. The City of Harrogate, Tennessee policy regarding the use of prohibited drugs and/or alcohol; and

d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

9. CONSEQUENCES OF A CONFIRMED POSITIVE DRUG AND/OR ALCOHOL TEST RESULT AND/OR VERIFIED POSITIVE DRUG AND/OR ALCOHOL TEST RESULT

Job applicants will be denied employment with the City of Harrogate, Tennessee if their initial positive pre-employment drug test results have been confirmed/verified.

If a current employee's positive drug and alcohol test result has been confirmed, the employee is subject to immediate removal from any safety-sensitive function and may be subject to disciplinary action up to and including termination. The city may consider the following factors in determining the appropriate disciplinary response: the employee's work history, length of employment, current work assignment, current job performance, and existence of past disciplinary actions. However, the city reserves the right to allow employees to participate in an education and/or treatment program approved by the city Employee Assistance Program as an alternative to or in addition to disciplinary action. If such a program is offered and accepted by the employee, then the employee must satisfactorily participate in and complete the program as a condition of continued employment.

No disciplinary action may be taken pursuant to this drug policy against employees who voluntarily identify themselves as drug users, obtain counseling and rehabilitation through the city's Employee Assistance Program or other program sanctioned by the city, and thereafter refrain from violating the city's policy on drug and alcohol abuse. However, voluntary identification will not...
prohibit disciplinary action for the violation of city personnel policy and regulations, nor will it relieve the employee of any requirements for return to duty testing.

Refusing to submit to an alcohol or controlled substances test means that a driver: (1) fails to provide adequate breath for testing without a valid medical explanation after he or she has received notice of the requirement for breath testing in accordance with the provisions of this part; (2) fails to provide adequate urine for controlled substances testing without a valid medical explanation after he or she has received notice of the requirement for urine testing in accordance with the provisions of this part; or (3) engages in conduct that clearly obstructs the testing process. In either case the physician or breath alcohol technician shall provide a written statement to the city indicating a refusal to test.

10. VOLUNTARY DISCLOSURE OF DRUG AND/OR ALCOHOL USE

In the event that an employee of the City of Harrogate, Tennessee is dependent upon or an abuser of drugs and/or alcohol and sincerely wishes to seek professional medical care, that employee should voluntarily discuss his/her problem with the respective department head in private.

Such voluntary desire for help with a substance abuse problem will be honored by the City of Harrogate, Tennessee. If substance abuse treatment is required, the employee will be removed from active duty pending completion of the treatment.

Affected employees of the City of Harrogate, Tennessee may be allowed up to 30 consecutive calendar days for initial substance abuse treatment as follows:

1. The employee must use all vacation, sick, and compensatory time available.

2. In the event accumulated vacation, sick, and compensatory time is insufficient to provide the medically prescribed and needed treatment up to a maximum of 30 consecutive calendar days, the employee will be provided paid/unpaid leave for the difference between the amount of accumulated leave and the number of days prescribed and needed for treatment up to the maximum 30-day treatment period. (Note - This is an optional provision.)

Voluntary disclosure must occur before an employee is notified of or otherwise becomes subject to a pending drug and/or alcohol test.
Prior to any return-to-duty consideration of an employee following voluntary substance abuse treatment, the employee shall obtain a return-to-duty recommendation from the substance abuse professional (SAP) of the City of Harrogate, Tennessee. The SAP may suggest conditions of reinstatement of the employee that may include after-care and return-to-duty and/or random drug and alcohol testing requirements. The respective department head and city recorder or his/her designee of the City of Harrogate, Tennessee will consider each case individually and set forth final conditions of reinstatement to active duty. These conditions of reinstatement must be met by the employee. Failure of the employee to complete treatment or follow after-care conditions, or subsequent failure of any drug or alcohol test under this policy will result in administrative action up to and including termination of employment.

These provisions apply to voluntary disclosure of a substance abuse problem by an employee of the City of Harrogate, Tennessee. Voluntary disclosure provisions do not apply to applicants. Employees found positive during drug and/or alcohol testing under this policy are subject to administrative action up to and including termination of employment as specified elsewhere in this policy.

11. **EXCEPTIONS**

This policy does not apply to possession, use, or provision of alcohol and/or drugs by employees in the context of authorized work assignments (i.e., undercover police enforcement, intoxilyzer demonstrations). In all such cases, it is the individual employee's responsibility to ensure that job performance is not adversely affected by the possession, use, or provision of alcohol.

12. **MODIFICATION OF POLICY**

This statement of policy may be revised by the City of Harrogate, Tennessee at any time to comply with applicable federal and state regulations that may be implemented, to comply with judicial rulings, or to meet any changes in the work environment or changes in the drug and alcohol testing policy of the City of Harrogate, Tennessee.

This employee drug and alcohol testing policy has been approved and adopted by the City of Harrogate, Tennessee, effective March 2011.

DRUG/ALCOHOL TESTING PROCEDURES

CONSENT AND ACKNOWLEDGMENT FORM

As an applicant or an employee with the City of Harrogate, Tennessee, I hereby consent to and acknowledge that I am scheduled to undergo drug and/or alcohol testing. The test for alcohol will be a breath analysis test. The drug test will involve an analysis of a urine sample, which I will provide at a designated site. The purpose of the test will be to test for the presence of the following substances: amphetamines, marijuana, cocaine, opiates, PCP, alcohol, and/or any additional drugs listed in the Tennessee Drug Control Act. I authorize qualified personnel to take and have analyzed appropriate specimens to determine if drugs and/or alcohol are present in my system. I acknowledge that the drug/alcohol screen test results will be made available to the testing laboratory, medical review officer (MRO), the city recorder, or his/her designee. As an applicant, I am aware that a confirmed and verified positive drug/alcohol test result will rescind my conditional offer of employment. As an employee, I am aware that a confirmed and verified positive test result may lead to disciplinary action up to and including immediate dismissal. I will present a copy of this form to the collection site when I report for my scheduled drug/alcohol test. I also understand that failure to provide adequate breath for testing without a valid medical explanation, failure to provide adequate urine for controlled substances testing without a valid medical explanation, and engaging in conduct that clearly obstructs the testing process are the same as refusing to test.

APPENDIX G

REQUIREMENTS FOR ALCOHOL AND DRUG TESTING POLICY STATEMENTS

Local governments are required to develop a policy statement for the alcohol and drug testing programs. This policy statement must be distributed to every safety sensitive employee prior to the start of the testing program, to representatives of employee organizations, and to new employees as they are hired or transferred into safety sensitive positions. The FHWA rules require that the following information be included in the policy:

1) The name of the person designated by the employer to answer questions about the alcohol and drug testing program;

2) The employees who are covered by the DOT and FHWA rules and consequently the local government's alcohol and drug testing policy;

3) Information about the safety sensitive functions performed by the covered employees;

4) Information concerning safety sensitive employee conduct that is prohibited under the DOT/FHWA rules;

5) The circumstances under which a driver will be tested for alcohol and drugs;

6) The procedures that will be followed to:
   a) Test for the presence of alcohol and drugs;
   b) Protect the covered employee and the integrity of the testing processes;
   c) Safeguard the validity of the test results;
   d) Ensure that those results are attributed to the correct employee;

7) The requirement that a covered employee submit to alcohol and drug tests administered in accordance with the DOT/FHWA rules;
8) An explanation of what constitutes a refusal to submit to an alcohol or drug test and the resulting consequences;

9) The consequences resulting from positive alcohol and/or drug tests;

10) Information concerning

   a) The effects of alcohol and drug use on an individual's health, work, and personal life

   b) Signs and symptoms of an alcohol or drug problem (the driver's or a coworker's)

   c) Available methods of intervening when an alcohol or drug problem is suspected, including confrontation, referral to any employee assistance program, and/or referral to management.

The policy may also include information on additional local government policies regarding the use or possession of alcohol or drugs that the local government has implemented under its own authority. For example, local governments may want to explain whether the local government will pay for all alcohol and drug tests, if the employees will pay for all the tests, or if the costs will be shared. Although these rules preempt any inconsistent state or local laws, state or local governments may have adopted policies that require funding of alcohol and drug tests and such policies would not be considered as inconsistent with these rules. A thorough, legal review of all state and local laws regarding alcohol and drug testing should be conducted before implementation of these rules begins.

The local government must ensure that each covered employee is required to sign a statement that he/she has received a copy of the policy described above. The local government keeps the original of the signed statement and may also provide a copy to the employee.
APPENDIX D

CITY OF HARROGATE

Purchasing Procedures

As designated in Ordinance No.31, adopted on June 18, 2002, the Mayor shall act as purchasing agent for the City, with power, except as set out in these procedures, to purchase materials, supplies, equipment, and services; secure leases and lease-purchases; and dispose of and transfer surplus property for the proper conduct of the City's business. All contracts, leases, and lease-purchase agreements extended beyond the end of any fiscal year must have prior approval of the governing body.

The purchasing agent shall have the authority to make purchases, leases, and lease-purchases of more than $1,000 and less than $10,000 singly or in the aggregate during any fiscal year and, except as otherwise provided herein, shall require a minimum of two competitive bids or quotations, either verbal or written whenever possible prior to each purchase. Competitive bids or quotations for the purchase of items which cost less than $1,000 are desirable but not mandatory. All competitive bids or quotations received shall be recorded and maintained in the office of the city recorder for a minimum of two years after audit. Awards shall be made to the lowest responsible bidder.

A description of all projects and purchases, except as herein provided, which require the expenditure of city funds of $10,000 or more singly or in the aggregate during any fiscal year shall be prepared by the purchasing agent and submitted to the governing body for authorization to call for bids or proposals. After the determination that adequate funds are budgeted and available for a purchase, the governing body may authorize the purchasing agent to advertise for bids or proposals. The award of purchases, leases, or lease-purchases of $10,000 or more shall be made by the governing body to the lowest responsible bidder.

Purchases amounting to $10,000 or more, which do not require public advertising and sealed bids or proposals, may be allowed only under the following circumstances and, except as otherwise provided herein, when such purchases are approved by the governing body:

- Sole source of supply or proprietary products as determined after complete search by the purchasing agent, with governing body approval.
- Emergency expenditures with subsequent approval of the governing body.
- Purchases from instrumentalities created by two or more cooperating governments.
Purchases from non-profit corporations whose purpose or one of whose purposes is to provide goods or services specifically to municipalities.

- Purchases, leases, or lease-purchases of real property.
- Purchases, leases, or lease-purchases, from any federal, state, or local government unit or agency, of second-hand articles or equipment or other materials, supplies, commodities, and equipment.
- Purchases through other units of governments as authorized by the Municipal Purchasing Law of 1983.
- Purchases directed through or in conjunction with the state Department of General Services.
- Purchases from Tennessee state industries.
- Professional service contracts as provided in Tennessee Code Annotated 29-20-407.
- Tort Liability Insurance as provided in TCA 12-4-407.
- Purchases of perishable commodities.
- Professional services shall not be bid.

The purchasing agent shall be responsible for following these procedures and the Municipal Purchasing Law of 1983, as amended, including keeping and filing required records and reports, as if they were set out herein and made a part of hereof and within definitions of words and phrases from the law as herein defined.

The purchasing agent may use a city purchase order to outline the terms and conditions for a purchase. A sample purchase order is attached.

A Receiving Report, copy attached, must be matched to each purchase order prior to payment.

If the purchase is over the dollar limit, under no circumstances may multiple forms be used in an effort to avoid competitive bidding. Any variations in the purchase order and invoiced amount for purchases exceeding $10,000 shall be approved by the Board of Mayor and Aldermen.

**Emergency purchases** are to be made only when normal functions and operations of the City would be hampered by purchasing in the regular manner, or where property, equipment, or life are endangered through unexpected circumstances and materials, services, etc., and are needed immediately. If a tool breaks and the repair is needed immediately an emergency purchase may be necessary. If a city waits until the last minute to purchase a police vehicle, and needs it for tomorrow evening's shift, it may be poor management instead of an emergency.
A Summary of Bids Form should be used to record all bids. The form should be included in the information presented to the governing body for consideration of award of the bid. All bids should be opened in public at a specified time. Late bids should not be accepted or opened. A copy of the Bid Summary Form is attached.

Petty Cash Fund

To buy items that cost less than $100* from businesses that do not issue invoices or have charge accounts, a petty cash fund must be set up by the finance officer. The finance officer is solely responsible for any withdrawals from this account. Any receipts or requests for monies from this fund must contain the expense code and be signed by the person receiving the cash for payment. This fund should be used only if other purchasing methods are not applicable.

- Amount to be established by the governing body.

Sealed Bids or Proposals

Sealed bids are required on purchases of $10,000 or more. Bids must be advertised in a local newspaper of general circulation not less than five days before bid opening date.

Purchasing Agent's Responsibility

- Prepare bid requests.
- Establish date and time for bid opening.
- Select possible sources of supply.
- Prepare specifications (unless of a technical nature, such as architectural, engineering, etc.)
- Mail bid requests and advertise as appropriate. If delivered by hand, a receipt of the bid request should be signed by the vendor.
- Receive and open bids.
- Evaluate bids using staff or professional assistance.
- Make recommendations on award to governing body for approval.
- Process purchase order after governing body approval.
- Maintain all specification and bid data files.

General Information

The following policies shall apply to sealed bids:

1. **Bid or Proposal Opening:** Bids will be opened at the time and date specified on the bid request. All bids are opened publicly and read aloud,
with a tabulation provided to all vendors participating. Proposals for extensive systems, complicated equipment, or construction projects, may be evaluated privately with a public recommendation to the governing board after evaluation and study.

2. **Late Bids:** No bids received after closing time will be accepted. All late bids will be returned unopened to the vendor. Bids postmarked on the bid opening date but received after the specified time will be considered late and will be returned unopened. It is important that the integrity of the bidding process be maintained.

3. **Bid Opening Schedule:** The purchasing agent is responsible for setting bid opening dates and times.

4. **Telephone Bids:** The purchasing agent will not accept any bid by telephone. He may accept telephone quotes for amounts less than $10,000.

5. **Bid Form:** When the purchasing agent sends duplicate copies of bid request forms to each bidder, thereby enabling the bidder to return one and maintain a file copy, only bids on the Bid Form will be accepted. Bids will not be accepted on any vendor letterhead, vendor bid form or other substitutions unless special permission is given by the purchasing agent.

6. **Unsigned Bids:** Failure of a vendor representative to sign a bid proposal removes that bid from consideration. A typed official's name will not be accepted without that person's written signature.

7. **Acceptance of Bids:** The City reserves the right to reject any or all bids, to waive any irregularities in a bid, to make awards to more than one bidder, to accept any part or all of a bid, or to accept that bid (or bids) which in the judgment of the governing body is in the best interest of the City.

8. **Shipping Charges:** Bids are to include all shipping charges to the point of delivery. Bids will only be considered on the basis of delivered price, except as otherwise authorized by the governing body. In many instances, the amount of shipping charges will be the deciding factor in making a purchase.

9. **Sample Product Policy:** The purchasing agent may request a sample product as part of a bid. If this is stated on the bid proposal form, the vendor is required to comply with this request or have the bid removed from consideration.
10. **Approved Equal Policy:** Specifications in the request for bids are intended to establish a desired quality or performance level or other minimum requirements, which will provide the City with the best product available at the lowest possible price.

When a **brand name** and/or model is designated, it signifies the minimum quality acceptable. If an alternate is offered, the bidder must include the brand name or model to be furnished, along with complete specifications and descriptive literature and, if requested, a sample for testing.

Brands and/or models other than those designated as "equal to" products shall receive equal consideration.

11. **Alternate Bids:** Should it be found, after bids have been opened, that a product has been offered with an alternative specification and that this product would be better for the City to use, all bids for that item may be rejected and specifications redrawn to allow all bidders an equal opportunity to submit bids on the alternate item.

12. **Tie Bids:** A tie bid is one in which two or more vendors bid identical items at the same unit cost. Tie bids may be determined by one of the following factors:

   a. Discount allowed
   b. Delivery schedule
   c. Precious vendor performance
   d. Vendor location
   e. Trade-in value offered

   If the tie cannot be resolved in this manner to the satisfaction of the governing body, the decision shall be based upon a coin toss as directed by the governing body.

13. **Cancellation of Invitation for Bid or Request for Proposal:** An invitation to bid, a request for proposal, or other solicitations may be canceled, or any or all bids or proposals may be rejected in part as may be specified in the solicitation when it is in the best interest of the City. The reasons shall be made a part of the bid or proposal file.

14. **Public Advertisement:** In addition to publication in a newspaper of general circulation as required by law, the purchasing agent may make any other efforts to let all prospective bidders know about the invitation to bid. This may be accomplished by delivery, verbally, mail, or by posting the invitation to bid in a public place. It is not required that specifications
be included in the invitation to bid. However, the notice should state clearly the purchase to be made.

15. **Other Aspects To Be Considered in Bid Awards:**

- The ability of the bidder to perform the contract or provide the material or service required.
- Whether the bidder can perform the contract or provide the material or service promptly or within the time specified, without delay or interference.
- The character, integrity, reputation, experience, and efficiency of the bidder.
- The previous and existing compliance, by the bidder, with laws and ordinances relating to the contract or service.
- The ability of the bidder to provide future maintenance and service for the use of the subject contract.
- Terms and conditions stated in the bid.
- Compliance and specifications or request for proposal.

**Non-Performance Policy**

Failure of a bidder to complete a contract, bid, or purchase order in the specified time agreed on, or failure to provide the service, materials, or supplies required by such contract, bid, or purchase order, or failure to honor a quoted price on services, materials, or supplies on a contract, bid, or purchase order may result in one or more of the following actions:

- Removal of a vendor from a bid list for a period to be determined by the governing body.
- Allowing the vendor to find the needed item for the City from another supplier at no additional cost to the City.
- Allowing the City to purchase the needed services, materials, or supplies from another source and charge the vendor for any difference in cost resulting from this purchase.
- Allowing monetary settlement.

**Delinquent Delivery**

Once the purchasing agent has issued a purchase order, no follow-up work should be done unless the item has not been received. If this happens, the purchasing agent may initiate action, either written or verbal as time allows, to investigate the delay.
Contractual Purchases

Such materials, supplies, or services that are constantly needed for city operations will be taken on a formal bid and will be awarded by the governing body for a contract period determined to be in the best interest of the City. This procedure shall be used in cases where the amount of the purchase of said materials, supplies, or services will be $10,000 or more within the fiscal year. For amounts below $10,000 the award will be made by the purchasing agent.

Items Covered By Warranty Or Guarantee

The City buys many items that have a warranty or guarantee for a certain length of time, such as tires, batteries, water heaters, roofs, and equipment. Before these items are repaired or replaced, the purchasing agent should be consulted to see if the item is covered by such warranty or guarantee. The city recorder shall maintain an active current file with complete information on such warranties or guarantees. All warranties must be remitted to the purchasing agent with the invoice indicating date of receipt.

Signatures

Contracts, applications for title, tax exemption certificates, agreements, and contracts for utilities shall not be signed by any city employee unless authorized in writing by the purchasing agent or by action of the governing body.

Trade-Ins

List of equipment to be used as trade-in shall accompany the request and specifications. The list includes the model, year, serial and city tag numbers, and other pertinent data.

Sale of Surplus Property

When the purchasing agent decides there is surplus equipment or material in the City, he shall figure out the best way to dispose of those items with an estimated value of less than $100 and dispose of them with a report to the governing board. Items with an estimated value of more than $100 shall be advertised for bidding, which will begin after the purchasing agent has received approval from the governing body. Such equipment or materials will be sold to the highest bidder.
Professional Service Contracts (Tennessee Code Annotated 12-4-106)

Professional services include legal services, fiscal agent, financial adviser or advisory services, educational consultant services, and similar services by professional people or groups with "high ethical standards." Only contracts for services performed within the professional's field of expertise are to be considered professional service contracts. Leasing office space from an attorney or purchasing computer services from an accountant, for example, are not professional services, and will require competitive bids.

Contracts for professional services will be awarded on the basis of recognized competence and integrity, rather than on competitive bids. This does not stop a city from requesting proposals from eligible service providers, then deciding about the capabilities of each. Although cost may be considered in choosing the service provider, it must not be the sole factor.

Certain Insurance (TCA 29-20-407)

Cities may purchase tort liability insurance, without competitive bidding, from the Tennessee Municipal League, or any other plan authorized by any organization of governmental entities representing cities and counties.

Purchases Through State-General Services (TCA 12-3-1001)

Cities may take advantage of so called "state prices" regardless of any charter or general law requirements. Not all prices quoted to the state are available to local governments. The items, price, and vendor information are available from the purchasing division of the Department of General Services.

"Buy America" Act (TCA 54-5-135)

Cities must not buy any materials used for highway or roadway construction, resurfacing, or maintenance from any foreign government, any company wholly owned or controlled by a foreign government, or any agency of such foreign government or company. Materials include, but are not limited to asphalt cement, asphalt emulsion, rock, aggregate, liquid and solid additives, sealers, and oils. This legislation will not apply if materials made by American companies are of unsatisfactory condition, are not of sufficient quantity, or increase the overall project cost by 5 percent more than the overall project costs using materials produced by foreign companies.
Purchases of Confiscated Property from the State (TCA 12-2-201)

A city may buy a motor vehicle that has been confiscated by the state by any city officer, employee, or their agent when the purchase is for municipal use.

Interest of Officer in Municipal Contracts (TCA 6-54-107)

No one holding a city office, elected or appointed, shall contract with the City for any work. Nor shall such person hold or have any direct interest in such a contract. Each day any violation of this Code or of any ordinance shall continue shall constitute a separate offense. Provided, however, that the imposition of a civil penalty under the provisions of this Code shall not prevent the revocation of any permit or license or the taking of other punitive or remedial action where authorized by or under the provisions of the Harrogate Municipal Code or other applicable law.
