THE MCKENZIE MUNICIPAL CODE

Prepared by the Municipal Technical Advisory Service
In cooperation with the Tennessee Municipal League

February 2012
PREFACE

The McKenzie Municipal Code contains the codification and revision of the ordinances of the City of McKenzie, Tennessee. By referring to the historical citation appearing at the end of each section, the user can determine the origin of each particular section. The absence of a historical citation means that the section was added by the codifier. The word "modified" in the historical citation indicates significant modification of the original ordinance.

The code is arranged into titles, chapters, and sections. Related matter is kept together, so far as possible, within the same title. Each section number is complete within itself, containing the title number, the chapter number, and the section of the chapter of which it is a part. Specifically, the first digit, followed by a hyphen, identifies the title number. The second digit identifies the chapter number, and the last two digits identify the section number. For example, title 2, chapter 1, section 6, is designated as section 2-106.

By utilizing the table of contents and the analysis preceding each title and chapter of the code, together with the cross references and explanations included as footnotes, the user should locate all the provisions in the code relating to any question that might arise. However, the user should note that most of the administrative ordinances (e.g. Annual Budget, Zoning Map Amendments, Tax Assessments, etc...) do not appear in the code. Likewise, ordinances that have been passed since the last update of the code do not appear here. Therefore, the user should refer to the city's ordinance book or the city clerk for a comprehensive and up to date review of the city's ordinances.

Following this preface is an outline of the ordinance adoption procedures, if any, prescribed by the city's charter.

The code has been arranged and prepared in loose-leaf form to facilitate keeping it up to date. MTAS will provide updating service under the following conditions:

(1) That all ordinances relating to subjects treated in the code or which should be added to the code are adopted as amending, adding, or deleting specific chapters or sections of the code (see section 8 of the adopting ordinance).

(2) That one copy of every ordinance adopted by the city is kept in a separate ordinance book and forwarded to MTAS annually.

(3) That the city agrees to reimburse MTAS for the actual costs of reproducing replacement pages for the code (no charge is made for the consultant’s work, and reproduction costs are usually nominal).

When the foregoing conditions are met MTAS will reproduce replacement pages for the code to reflect the amendments and additions made by such
ordinances. This service will be performed at least annually and more often if justified by the volume of amendments. Replacement pages will be supplied with detailed instructions for utilizing them so as again to make the code complete and up to date.

The able assistance of the codes team, Doug Brown, Nancy Gibson, Emily Keyser, and Linda Winstead, is gratefully acknowledged.

ORDINANCE ADOPTION PROCEDURES PRESCRIBED BY THE CITY CHARTER

SECTION 9. No ordinance shall be adopted without having first been passed on two (2) separate readings, and no more than one (1) reading shall be had on any one (1) day. All ordinances must be in written form upon introduction. An ordinance may pass first reading on the day on which it is introduced. An ordinance may be amended prior to the second reading. Upon final passage of an ordinance, the vote shall be taken by ayes and nays and the names of the councilmen voting for and against the ordinance shall be entered in the minutes. No ordinance shall be adopted unless it receives four (4) affirmative votes of the board of mayor and councilmen.

Within five (5) days, exclusive of Sundays and holidays, after final passage of an ordinance, the mayor shall indicate his approval by signing or his disapproval by vetoing the ordinance. If the mayor neither signs nor vetoes the ordinance during the five (5) day period, the ordinance becomes effective without his signature.

If the mayor vetoes an ordinance, his reasons for doing so shall be stated in writing and the ordinance and the veto shall be presented to the city council for its action. The city council may pass the ordinance over his veto by an affirmative vote of four (4) of its members.

TRAVEL REIMBURSEMENT REGULATIONS

SECTION
4-301. Enforcement.
4-302. Travel policy.
4-303. Travel reimbursement rate schedules.
4-304. Administrative procedures.

4-301. Enforcement. The Chief Administrative Officer (CAO) of the city or his or her designee shall be responsible for the enforcement of these travel regulations. (1995 Code, § 4-301)

4-302. Travel policy. (1) In the interpretation and application of this chapter, the term "traveler" or "authorized travel" means any elected or appointed municipal officer or employee, including members of municipal boards and committees appointed by the mayor or the municipal governing body, and the employees of such boards and committees who are traveling on official municipal business and whose travel was authorized in accordance with this chapter. "Authorized traveler" shall not include the spouse, children, other relatives, friends, or companions accompanying the authorized traveler on city business, unless the person(s) otherwise qualifies as an authorized traveler under this chapter.

(2) Authorized travelers are entitled to reimbursement of certain expenditures incurred while traveling on official business for the city. Reimbursable expenses shall include expenses for transportation; lodging; meals; registration fees for conferences, conventions, and seminars; and other actual and necessary expenses related to official business as determined by the CAO. Under certain conditions, entertainment expenses may be eligible for reimbursement.

(3) Authorized travelers can request either a travel advance for the projected cost of authorized travel, or advance billing directly to the city for registration fees, air fares, meals, lodging, conferences, and similar expenses.

Travel advance requests are not considered documentation of travel expenses. If travel advances exceed documented expenses, the traveler must immediately reimburse the city. It will be the responsibility of the CAO to initiate action to recover any undocumented travel advances.

(4) Travel advances are available only for special travel and only after completion and approval of the travel authorization form.

(5) The travel expense reimbursement form will be used to document all expense claims.

(6) To qualify for reimbursement, travel expenses must be:
(a) Directly related to the conduct of the city business for which travel was authorized; and

(b) Actual, reasonable, and necessary under the circumstances. The CAO may make exceptions for unusual circumstances. Expenses considered excessive won't be allowed.

(7) Claims of five dollars ($5.00) or more for travel expense reimbursement must be supported by the original paid receipt for lodging, vehicle rental, phone call, public carrier travel, conference fee, and other reimbursable costs.

(8) Any person attempting to defraud the city or misuse city travel funds is subject to legal action for recovery of fraudulent travel claims and/or advances.

(9) Mileage and motel expenses incurred within the city are not ordinarily considered eligible expenses for reimbursement. (1995 Code, § 4-302)

4-303. Travel reimbursement rate schedules. Authorized travelers shall be reimbursed according to the federal travel regulation rates. The city's travel reimbursement rates will automatically change when the federal rates are adjusted.

The municipality may pay directly to the provider for expenses such as meals, lodging, and registration fees for conferences, conventions, seminars, and other education programs. (1995 Code, § 4-303)

4-304. Administrative procedures. The city adopts and incorporates by reference—as if fully set out herein—the administrative procedures submitted by MTAS to, and approved by letter by, the Comptroller of the Treasury, State of Tennessee, in June 1993. A copy of the administrative procedures is on file in the office of the city clerk.

This chapter shall take effect upon its final reading by the municipal governing body. It shall cover all travel and expenses occurring on or after July 1, 1993. (1995 Code, § 4-304)

Payment of the civil penalty in lieu of revocation or suspension by a permit holder shall be an admission by the holder of the violation so charged and shall be paid to the exclusion of any other penalty that the city may impose. (Ord. #420, Aug. 2007)

8-217. Loss of clerk's certification for sale to minor. The certification of the clerk shall be invalidated and the clerk may not reapply for a new certification for a period of one (1) year from the date of the beer board's determination. (Ord. #420, Aug. 2007)

8-218. Violations. (2) Designation of public officer or department. The mayor and city council shall designate an appropriate department or person to enforce the provisions of this section.

(3) Notice to property owner. It is the duty of the department or person designated by the mayor and city council to enforce this section to serve notice upon the owner of record in violation of subsection (1) above, a notice in plain language to remedy the condition within ten (10) days (or twenty (20) days if the owner of record is a carrier engaged in the transportation of property or is a utility transmitting communications, electricity, gas, liquids, steam, sewage, or other materials), excluding Saturdays, Sundays, and legal holidays. The City of McKenzie may bring one (1) action for debt against more than one (1) or all of the owners of properties against whom such costs have been assessed, and the fact that multiple owners have been joined in one (1) action shall not be considered by the court as a misjoinder of parties. Pursuant to the authority conferred by the General Assembly of Tennessee, a tax lien may be declared on such property for all costs and expenses, of cutting, clearing, or removing incurred by the street department if costs incurred are not reimbursed to the city by the property owner after submission of statement of costs. (1995 Code, § 13-304)
13-305. Collection of costs incurred by city. Upon receipt of such statement of costs, the city clerk shall bill the owner, by certified mail, in a manner similar to that followed in mailing monthly utility bills, for the amount of the costs incurred by the city for such cutting or clearing of his property and all such bills or charges shall bear interest at the rate of one and one-half percent (1.5%) per month, during that period of time commencing thirty (30) days after the date of mailing such bills or statements of charges and ending on the date of payment. At the same time unpaid real estate taxes are certified or turned over to the city attorney for collection, the city clerk may also certify or turn over to him for collection all unpaid and uncollected bills or charges for the cutting, trimming, or removal of the accumulated debris specified in this chapter, and the city attorney shall file suit or take such other steps as may be necessary to enforce the lien for same on such property. CHAPTER 4

DEMOLITION BY NEGLECT

SECTION
13-401. Minimum maintenance requirements to prevent demolition by neglect. Any designated landmark within the McKenzie City limits; or any building or structure within the historic zone must be kept in good repair and must be maintained at minimum maintenance requirements that will prevent one (1) or more of the characteristics of deterioration set forth in § 13-402 of this chapter. The presence of one (1) or more of these characteristics, which left unrepai red could lead to deterioration of the building's structural frame or architectural integrity, shall constitute a failure to meet minimum maintenance requirements and is thus determined to be by demolition by neglect. (as added by Ord. #513, May 2018 Ch1_02-11-21)

13-402. Characteristics of deterioration. Demolition by neglect is determined to be deterioration of a building(s) and/or surrounding environment, and the failure to meet minimum maintenance requirements characterized by one or more of the following:
   (1) Those buildings which have parts thereof which are so attached that they may fall and injure members of the public or property;
   (2) Foundations that are deteriorated or inadequate;
   (3) Floor supports that are defective or deteriorated or floor supports insufficient to carry imposed loads with safety;
   (4) Members of walls, or other vertical supports that split, lean, list or buckle due to defective material or deterioration;
   (5) Members of walls, or other vertical supports that are insufficient to carry imposed loads with safety;
   (6) Members of ceilings, roofs, ceiling and roof supports, or other horizontal members which sag, split, or buckle due to defective material or deterioration;
   (7) Members of ceilings, roofs, ceiling and roof supports, or other horizontal members that are insufficient to carry imposed loads with safety;
Fireplaces or chimneys which list, bulge, or settle due to defective material or deterioration;

Important defining architectural features that are substantially deteriorated;

Those buildings with the peeling of external paint, rotting, holes, and other forms of decay;

Unsafe electrical and/or mechanical conditions;

Exterior plaster or mortar that is deteriorated or crumbling;

Those buildings with a lack of maintenance of the surrounding environment that is associated with the defining historical character of the structures; i.e. fences, gates, sidewalks, steps, signs, accessory structures, and landscaping;

Broken and or boarded windows and doors;

Any fault, defect, or condition in the building which renders the same structurally unsafe, not properly water tight, or likely to lead to the deterioration characteristics listed above. (as added by Ord. #513, May 2018 Ch1_02-11-21)

13-403. Implementation of minimum maintenance standards.

Identification of the failure to meet minimum maintenance requirements in a building as listed in § 13-402 above may be made by a member of the historic zoning commission and or design review commission, hereby further referred to as "the commission," commission staff, or the building inspector/codes enforcement officer. This initial identification may be made by routine inspection of the district or neighborhood or by referral from someone in the area.

Information related to initial identification of demolition by neglect is presented to the historic zoning commission. Upon determination of the commission that the landmark or the building within the historic zone may not meet minimum maintenance requirements, the commission may request upon majority vote, that the building inspector/codes enforcement officer inspect the structure. The chair of the commission shall send a letter by certified mail to inform the property owner of the action by the commission, the impending inspection by the building inspector/codes enforcement officer, and the opportunity he or she will have at next meeting to address the commission about the preliminary identification of demolition by neglect and the inspection report.

The building inspector/codes enforcement officer or his or her designee will present the inspection findings at the next commission meeting. The report shall detail any defects which constitute, in the inspectors opinion, a failure to meet the minimum maintenance requirements.

If the determination is made by the building inspector that the structure does not meet the minimum maintenance requirements, the commission, upon a majority vote, may initiate the citation process as specified in § 13-404. At this time, the commission must prepare an application for a
certificate of appropriateness specifying corrective work that is required according to the commission’s standards and design guidelines, and indicating the time schedule that will be necessary to complete the minimum maintenance improvements. The time schedule mandated by the commission will be a minimum of thirty (30) calendar days unless the building inspector/codes enforcement officer determines that the failure to immediately meet minimum maintenance requirements creates an imminent threat to the safety of the public or the property. (as added by Ord. #513, May 2018 Ch1_02-11-21)

13-404. Initiating citation process. (1) A citation is formal notification to the property owner that the commission has determined that the demolition by neglect is occurring on the property because minimum maintenance requirements have not been met; and notification of the owner that correction of the defects must be undertaken.

(2) After action by the commission authorizing the citation process, the building inspector/codes enforcement officer will attempt to notify the property owner(s) of the determination of demolition by neglect by the commission. The notification shall state the reasons why the structure is found to be in violation of the minimum maintenance requirements. In addition, the notification shall include a copy of the application for a certificate of appropriateness listing the work required according to the commission’s standards and guidelines. The notification shall be in writing and shall be delivered by certified mail, registered mail, or such other method that shows the receipt of the notification by the owner. Notice of the date, time, and location of a citation hearing/public meeting in which the owner may address the commission concerning said violations will also be provided.

(3) If after two (2) attempts, the owner fails to receive the notification regarding the determination of demolition by neglect, the building inspector/codes enforcement officer will post the building/property with a notice of violation. Posting will be in a conspicuous, protected place on the property. The posted notice will include the fact that the building is in violation of minimum maintenance standards and the date, time, and location of the citation public hearing meeting held on the violations by the commission.

(4) The owner(s) of the building/property determined to be in violation of the minimum maintenance standards shall be notified of said violations as specified in §§ 13-404(2) or(3) above a minimum of ten (10) business days in advance of the meeting on the issue held by the commission.

(5) After receiving notification of the determination of demolition by neglect, the owner(s) may initiate corrective action before the citation public hearing is held. Before work is begun however, the owner(s) must complete the application for a certificate of appropriateness, obtain a certificate of appropriateness, and a building permit. (as added by Ord. #513, May 2018 Ch1_02-11-21)
13-405. Citation public hearing meeting. (1) If by the designated citation public hearing meeting, the owner(s) of the property has not completed corrective work specified in the notification of violation and the application for a certificate of appropriateness, the commission will restate the violations of the minimum maintenance requirements related to the property. The owner(s) will then be provided with the opportunity to address the concerns of the commission, to provide evidence, and to show cause why a citation should not be issued regarding the alleged violations.

(2) After reviewing the violations of the minimum maintenance requirements and providing the opportunity for the owner(s) to address the concerns; the commission may consider a motion to recognize the condition of the building/property and the owner(s) failure to correct defects. Upon a majority vote of the commission, the building inspector may be authorized to issue a citation to the owner(s) for failure to comply with the minimum maintenance requirements of this ordinance. This citation will include the following requirements:

(a) A list of minimum maintenance requirements still in violation.

(b) Any remaining or amended requirements detailed in the application for a certificate of appropriateness initially issued through § 13-403(4) above.

(c) A written schedule of the time allotted to correct the violations.

(d) A statement detailing the requirement to complete and return within ten (10) days the application for a certificate of appropriateness, and to obtain a certificate of appropriateness, and a building permit.

(3) The determination of the commission related to the citation and certificate of appropriateness as specified in § 13-405(2) above shall on the date it is authorized be a final administrative decision subject only to the application process for unreasonable economic hardship as specified in § 13-407 and appealable only to the appropriate state court. Any appeal of the commission's decision to the state court must be made within thirty (30) calendar days. (as added by Ord. #513, May 2018 Ch1_02-11-21)

13-406. Enforcement. If any owner has not complied with the commission's requirement to complete the application for a certificate of appropriateness, obtain a certificate of appropriateness, and a building permit within ten (10) business days; or if the owner(s) does not adhere to the allotted schedule for the corrections to take place as approved or amended by the commission in the certificate of appropriateness; or if the owner(s) has not complied with the requirements specified from the commission's standards and guidelines detailed in the certificate of appropriateness, then any or all of the following may apply:
The owner(s) may be required to attend the next meeting of the commission to explain to the commission's satisfaction why the corrections to the owner(s) cited building/property have not been made and to show cause why the commission should not initiate additional enforcement action. Upon review of any information provided regarding delays in the correction of the demolition by neglect, the commission may defer the matter in order to provide the owner(s) with more time either to correct the deficiencies, make a proposal for repairs, or perhaps sell the property.

The commission, upon majority vote, may request the board of mayor and council to direct the city attorney to take the appropriate legal action, either civil or criminal, against the owner(s).

Charges may be brought against the owner(s) in the municipal court of the city for the violation(s) of this chapter.

The commission, upon majority vote, may request the board of mayor and council to cause such property to be repaired by the city at the city's expense at such time funds are available, or to cause such property to be repaired by a designated agent of the city. If repairs are initiated through action by the board of mayor and council, the board will instruct the city attorney to file the necessary affidavits with the courts and/or the register of deeds which shall establish a lien and privilege against the cited property for the benefit of the city or the agent of the city to the extent of the amount of money spent for said repairs plus interest accrued at bank prime rates in effect beginning at the completion of said repairs and continuing until the lien is satisfied.

In final recourse and to preserve the property from irreversible damage or loss, violations of the minimum maintenance requirements shall make a property subject to the city's right of eminent domain. The commission may, upon majority vote, request the board of mayor and council to exercise its power of eminent domain if it is determined that no alternate course of action is feasible. The board may work with any agent to develop a plan for the purchase and the repair of the cited building. Upon the obtaining of ownership to any party or agent that enters into and consummates an agreement with the board of mayor and council to make the necessary building repairs and maintenance corrections in an agreed upon period of time. (as added by Ord. #513, May 2018 Ch1_02-11-21)

13-407. Unreasonable economic hardship.  (1) Unreasonable economic hardship can be considered when enforcement of regulations in the chapter deprives the owner(s) of the entire reasonable economic value of the property. Enforcement of a minimum maintenance requirement may create unreasonable economic hardship only if all of the following apply:

(a) There is no reasonable return possible on the property as it is;

(b) There is no profitable use to which, the property could be adapted;
(c) The sale or rental of the property is impractical or it is not feasible for the owner(s) to dispose of the property as is at a reasonable price.

(2) An owner(s) that feels he or she fits the criteria established for unreasonable economic hardship may file an application for a certificate of economic hardship. Applications will be accepted by the commission after the commission votes to authorize the building inspector/ codes enforcement officer to issue a citation for violations and the notification has been received by the owner(s).

(3) The owner(s) of property cited for demolition by neglect must inform the commission in writing of his or her intent to file an application for a certificate of economic hardship within ten (10) business days of the date of the citation was issued.

(4) The owner(s) of the cited property must file within ten (10) business days of the date of the citation was issued, a completed application for a certificate of economic hardship. The completed application must be filed with the commission and must be submitted with the following information:

   (a) A copy with the current recorded deed.
   (b) The amount paid for the property and purchase date.
   (c) The current assessed value.
   (d) Past and current use of property.
   (e) Current market value of the property preferably determined by a recent appraisal(s) or if not through county tax records.
   (f) Ownership structure of property (partnership, corporation, joint venture, not for profit, sole proprietorship, etc.)
   (g) Mortgage history of the property including any current mortgage principal balance and interest rate, and any other financing secured by the property including a detail of principal and interest.
   (h) Equity in current use and in previous alternative uses.
   (i) Tax bracket of ownership, and federal income tax returns for previous two (2) calendar or fiscal years.
   (j) Past and current income, expense, and net worth statements for a two (2) calendar or fiscal year period. If the property is income producing, annual gross income from the property and the itemized operating and maintenance expenses for the previous two (2) calendar or fiscal years. In addition the depreciation deduction and annual cash flow before and after debt services, if any, during the same period.
   (k) Past capital expenditures during ownership of the current owner(s).
   (l) Estimate of the cost of the proposed construction, alteration, demolition, or removal related to the corrective measures detailed in the citation issued by the historic zoning commission.
   (m) A detailed description of what alternative legal adaptive uses have been considered by the owners(s).
A detailed description of what efforts have been made by the owner(s) to sell the property, including any listing of the property for sale or rent, price asked, and offers received, if any.

A detailed description of what efforts have been made by the owner(s) to obtain financial assistance, tax credits, transfer of density, etc. that might generate funding for needed improvements.

The commission shall schedule and hold a public hearing on the owner(s) application for a certificate of economic hardship within fifteen (15) calendar days from receipt of the application. Notice of the date, time, and place of the hearing shall be provided to the owner(s) a minimum of fifteen (15) calendar days in advance of the meeting.

The commission may require at the hearing that the applicant furnish additional information relevant to the application including but not limited to the solicitation of expert testimony.

The commission may request, receive, and consider studies and economic analysis related to the property in question from other agencies and sources including private organizations and individuals.

In evaluating the owner's information provided in the application for a certificate of economic hardship, if commission determines that the owner(s) present return is not reasonable, the commission must consider whether there are other uses currently allowed for the structure that would provide a reasonable return and whether such a return could be obtained through an investment in the rehabilitation of the property.

The commission shall review all the evidence and information required of the applicant for a certificate of economic hardship, and make a determination within thirty (30) calendar days following the conclusion of the hearing.

Written notice of the determination will be provided to the applicant along with the reasons justifying the decision by the commission.

If the commission grants a certificate of economic hardship, the commission must detail options it has considered that would bring the property up to minimum maintenance requirements and why each option is not deemed feasible. In granting a certificate of economic hardship, the commission may determine that some corrections may be feasible while others cannot be implemented due to economic hardship. Under such circumstances, the commission must authorize the building inspector/ codes enforcement officer to issue a building permit for any activity that is deemed feasible under the conditions detailed in the certificate of economic hardship.

In granting a certificate of economic hardship, the commission may also detail any feasible plan to relieve any aspect of the economic hardship. The plan may include, but is not limited to, tax relief, loans and grant available from any source public or private, building code modifications, etc. The commission may recommend that the planning commission consider recommending changes to the zoning. The commission may also request the board of mayor and council
to consider relaxation of the provisions of this chapter sufficient to allow reasonable beneficial use of or return from the property. If no alternative cause of action has been deemed feasible, the commission may request the board to consider acquisition through the eminent domain.

(13) If the commission denies a certificate of hardship, the commission must detail in writing the economic and financial options that in the judgment of the commission will allow the improvements to be made to the property as required in the citation issued as specified in section 13-405(2) above.

(14) If a certificate of economic hardship is denied by the commission, the commission will revise, to the extent necessary, the designated schedule for completion of the corrective measures detailed in the citation taking into account any agreed upon need for additional time due to time lost during consideration of the certificate application. The commission will notify the owner(s) in writing of any schedule amendments with the notification of the denial of the certificate within fifteen (15) calendar days.

(15) The determination by the commission of an application for a certificate of economic hardship, either approving or disapproving, shall on the date it is issued be a final administrative decision appealable only to the appropriate state court. Any appeal of the commission's decision to state court must be made within fifteen (15) calendar days. (as added by Ord. #513, May 2018 Ch1_02-11-21)

13-408. Penalties. Any person violating any provision of this chapter shall be guilty of a misdemeanor and upon conviction shall be fined fifty dollars ($50.00) for each offense. STOPPING AND YIELDING

SECTION
15-501. When emerging from alleys, etc.
15-502. To prevent obstructing an intersection.
15-503. At railroad crossings.
15-504. At "stop" signs.
15-505. At "yield" signs.
15-506. At traffic-control signals generally.
15-507. At flashing traffic-control signals.
15-508. At pedestrian-control signals.
15-509. Stops to be signaled.

15-501. When emerging from alleys, etc. The drivers of all vehicles emerging from alleys, parking lots, driveways, or buildings shall stop such vehicles immediately prior to driving onto any sidewalk or street. They shall not proceed to drive onto the sidewalk or street until they can safely do so without colliding or interfering with approaching pedestrians or vehicles. (1995 Code, § 15-502)

15-502. To prevent obstructing an intersection. No driver shall enter any intersection or marked crosswalk unless there is sufficient space on the other side of such intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of traffic in or on the intersecting street or crosswalk. This provision shall be effective notwithstanding any traffic-control signal indication to proceed. (1995 Code, § 15-503)

15-503. At railroad crossings. Any driver of a vehicle approaching a railroad grade crossing shall stop within not less than fifteen feet (15') from the nearest rail of such railroad and shall not proceed further while any of the following conditions exist:
(1) A clearly visible electrical or mechanical signal device gives warning of the approach of a railroad train.
(2) A crossing gate is lowered or a human flagman signals the approach of a railroad train.
(3) A railroad train is approaching within approximately one thousand five hundred feet (1,500') of the highway crossing and is emitting an audible signal indicating its approach.
(4) An approaching railroad train is plainly visible and is in hazardous proximity to the crossing. (1995 Code, § 15-504)
15-504. At "stop" signs. The driver of a vehicle facing a "stop" sign shall bring his vehicle to a complete stop immediately before entering the crosswalk on the near side of the intersection or, if there is no crosswalk, then immediately before entering the intersection, and shall remain standing until he can proceed through the intersection in safety. (1995 Code, § 15-505)

15-505. At "yield" signs. The drivers of all vehicles shall yield the right of way to approaching vehicles before proceeding at all places where "yield" signs have been posted. (1995 Code, § 15-506)

15-506 At traffic-control signals generally. Traffic-control signals exhibiting the words "Go," "Caution," or "Stop," or exhibiting different colored lights successively one at a time, or with arrows, shall show the following colors only and shall apply to drivers of vehicles and pedestrians as follows:

1. Green alone, or "Go":
   (a) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.
   (b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.

2. Steady yellow alone, or "Caution":
   (a) Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited.
   (b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

3. Steady red alone, or "Stop":
   (a) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "Go" is shown alone.
   (b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

4. Steady red with green arrow:
   (a) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.
   (b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.
(5) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made a vehicle length short of the signal. (1995 Code, § 15-507)

15-507. At flashing traffic-control signals. (1) Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal placed or erected in the city it shall require obedience by vehicular traffic as follows:
   (a) Flasing red (stop signal). When a red lens is illuminated with intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.
   (b) Flashing yellow (caution signal). When a yellow lens is illuminated with intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.
(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules set forth in § 15-504 of this code. (1995 Code, § 15-508)

15-508. At pedestrian-control signals. Wherever special pedestrian-control signals exhibiting the words "Walk" or "Wait" or "Don't Walk" have been placed or erected by the city, such signals shall apply as follows:
   (1) Walk. Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right of way by the drivers of all vehicles.
   (2) Wait or Don't Walk. No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the walk signal shall proceed to the nearest sidewalk or safety zone while the walk signal is showing. (1995 Code, § 15-509)

15-509. Stops to be signaled. No person operating a motor vehicle shall stop such vehicle, whether in obedience to a traffic sign or signal or otherwise, without first signaling his intention in accordance with the requirements of the state law, except in an emergency. (1995 Code, § 15-510)

PARKING

SECTION
15-603. Occupancy of more than one space.
15-604. Where prohibited.

Except as hereinafter provided, every vehicle parked upon a street within this city shall be so parked that its right wheels are approximately parallel to and within eighteen inches (18") of the right edge or curb of the street. On one-way streets where the city has not placed signs prohibiting the same, vehicles may be permitted to park on the left side of the street, and in such cases the left wheels shall be required to be within eighteen inches (18") of the left edge or curb of the street.

Notwithstanding anything else in this code to the contrary, no person shall park or leave a vehicle parked on any public street or alley within the fire limits between the hours of 1:00 A.M. and 5:00 A.M. or on any other public street or alley for more than seventy-two (72) consecutive hours without the prior approval of the chief of police.

15-602. Angle parking. On those streets which have been signed or marked by the city for angle parking, no person shall park or stand a vehicle other than at the angle indicated by such signs or markings. No person shall back a vehicle into such a parking space but shall park the vehicle with its front wheels next to the curb or edge of the street. No person shall angle park any vehicle which has a trailer attached thereto or which has a length in excess of twenty-four feet (24"). (1995 Code, § 15-602)

15-603. Occupancy of more than one space. No person shall park a vehicle in any designated parking space so that any part of such vehicle occupies
more than one (1) such space or protrudes beyond the official markings on the
street or curb designating such space unless the vehicle is too large to be parked
within a single designated space. (1995 Code, § 15-603)

15-604. Where prohibited. No person shall park a vehicle in violation
of any sign placed or erected by the city, nor:

other traffic would be obstructed;
(9) On the roadway side of any vehicle stopped or parked at the edge

(10) Upon any bridge;
(11) Alongside any curb painted yellow or red by the city. (1995 Code,
§ 15-604)

15-605. Parking restrictions for trucks. It is unlawful to park, store,
or maintain any vehicle of four (4) axles or more or vehicle containing
hazardous, corrosive, or explosive material as defined by any statute, law, or
regulation of the United States, State of Tennessee, Interstate Commerce

area designated as R-1, R-2, or R-3, Residential Area by the McKenzie Regional
Planning Commission for any period of time exceeding two (2) hours. (1995
Code, § 15-605)

15-606. Loading and unloading zones. No person shall park a vehicle
for any purpose or period of time other than for the expeditious loading or
unloading of passengers or merchandise in any place marked by the city as a
loading and unloading zone. (1995 Code, § 15-606)

15-607. Unlawful to occupy more than one parking space. It shall
be unlawful for the owner or operator of any vehicle to park or allow his vehicle
to be parked across any line or marking designating a parking space or
otherwise so that such vehicle is not entirely within the designated parking
space; provided, however, that vehicles which are too large to park within
one (1) space may be permitted to occupy two (2) adjoining spaces. (1995 Code,
§ 15-610, modified)
15-068. **Presumption with respect to illegal parking.** When any unoccupied vehicle is found parked in violation of any provision of this chapter, there shall be a prima facie presumption that the registered owner of the vehicle is responsible for such illegal parking. (1995 Code, § 15-613)
CHAPTER 7

ENFORCEMENT

SECTION
15-701. Issuance of traffic citations.
15-702. Deposit of driver's license in lieu of bail.

15-704. Illegal parking.
15-705. Impoundment of vehicles.
15-707. Violation and penalty.

15-701. Issuance of traffic citations. The officer, upon receiving the written promise of the alleged violator to answer as specified in the citation, shall release such person from custody. It shall be unlawful for any alleged violator to give false or misleading information as to his name or address. (1995 Code, § 15-701)

15-702. Deposit of driver's license in lieu of bail. As authorized by Tennessee Code Annotated, § 55-50-801, any person who is given a traffic citation or is arrested on a warrant issued by the city court and who is lawfully in possession of a chauffeur's or operator's license therefor issued to him by the Tennessee Department of Safety, or under the driver licensing laws of any other state or territory or the District of Columbia, and who is charged with the violation of any municipal ordinance governing the operation of motor vehicles within the City of McKenzie, Tennessee, shall have the option of depositing his chauffeur's or operator's license with the officer or with the court demanding bail in lieu of any other security required for his appearance in court to answer the charge made. Whenever any person depositing his chauffeur's or operator's license as herein provided, either the officer or the court demanding bail and to whom such license is deposited, shall issue said person a receipt for said license upon a form approved or provided by the Tennessee Department of Safety. Tennessee Department of Safety the license of such alleged offender as 
deposited in lieu of bail which shall be otherwise disposed of as provided by law. 
(1995 Code, § 15-702)

15-703. Failure to obey citation. It shall be unlawful for any person 
to violate his written promise to appear in court after giving said promise to an 
officer upon the issuance of a traffic citation, regardless of the disposition of the 
charge for which the citation was originally issued. (1995 Code, § 15-703)

15-704. Illegal parking. Whenever any motor vehicle without a driver 
is found parked or stopped in violation of any of the restrictions imposed by this 
code, the officer finding such vehicle shall take its license number and may take 
any other information displayed on the vehicle which may identify its user, and 
shall conspicuously affix to such vehicle a citation for the driver and/or owner 
to answer for the violation within ten (10) days during the hours and at a place 
specified in the citation. (1995 Code, § 15-704, modified)

are hereby authorized, when reasonably necessary to prevent obstruction of 
traffic, to remove from the streets and impound any vehicle whose operator is

been abandoned if the owner cannot be located after a reasonable investigation.

SECTION
15-802. Administration.
15-805. Civil penalty.
15-806. Miscellaneous.

15-801. Definitions. The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning.

(j) Information advising the person alleged to be liable under this section:

(i) Of the manner and time in which liability alleged in the citation occurred and that the citation may be contested in the McKenzie Municipal Court; and
(ii) Warning that failure to contest in the manner and time provided shall be deemed an admission of liability and that a default judgment may be entered thereon.

(2) "In operation" means operating in good working condition.

(3) "Recorded images" means images recorded by a traffic control photographic system:

(a) On:

(i) A photograph; or
(ii) A microphotograph; or

(6) "Traffic control photographic system" is an electronic system consisting of a photographic, video or electronic camera and a vehicle sensor installed to work in conjunction with an official traffic control sign, signal or device and to automatically produce photographs, video or digital images of each vehicle violating a standard traffic control sign, signal or device and posted speed limits.

(7) "Vehicle owner" is the person identified by the Tennessee Department of Safety as the registered owner of a motor vehicle or a lessee of a motor vehicle under a lease of six (6) months or more. (Ord. #432, Oct. 2008)

15-802. Administration. (1) The McKenzie Police Department or an agent of the department shall administer the traffic control photographic and posted speed limit systems and shall maintain a list of system locations where traffic control photographic systems are installed with the exception of the portable speed control unit. The city may contract with third parties to perform ministerial and clerical functions.

(2) Any citation or warning for a violation of § 15-803 issued by an officer of the McKenzie Police Department at a system location shall be treated in the manner prescribed in this chapter.

(3) No third party contractor shall have the authority to issue citations and no citations shall be issued except upon the review of the photograph(s), digital and/or video images by the McKenzie Police Department. Upon review of such images by the McKenzie Police Department, on each case, and upon express approval for the issuance of a citation by the McKenzie Police Department, a third party contractor may perform ministerial and clerical functions of preparing, mailing, serving and/or processing citations.

(4) The city shall adopt procedures for the issuance of citations and warnings under this section. A citation or warning alleging that the violation of § 15-803 of this chapter occurred, sworn to or affirmed by officials or agents of the city, based on inspection of recorded images produced by a traffic control photographic system, shall be prima facie evidence of the facts contained therein and shall be admissible in any proceeding alleging a violation under this chapter. The citation or warning shall be forwarded by first-class mail
postmarked no later than thirty (30) days after the date of the alleged violation, to the vehicle owner's address as given on the motor vehicle registration records maintained by the State of Tennessee Department of Safety and other states' motor vehicle registration departments. Personal delivery to or personal service of process on the owner of the vehicle shall not be required.

(5) Signs to indicate the use of traffic control photographic systems shall be clearly posted. Signs to indicate the use of traffic control photographic systems shall be posted in advance of individual system locations and may be posted elsewhere in the city.

(6) The City of McKenzie shall have all necessary power and authority to contractually provide for the purchase, lease, and rental acquisition and/or to enter a service contract(s) so as to fully and necessarily implement the provisions of the traffic control photographic system authorized hereby. (Ord. #432, Oct. 2008)

15-803. Offense. It shall be unlawful for a vehicle to cross the stop line at a system location, in disregard or disobedience of the traffic control sign, signal or device at such location, posted speed limits on city streets or to otherwise violate any section of the McKenzie Municipal Code with respect to obedience to traffic lights, stop signs, speed limits or traffic signals.

The owner of a vehicle shall be responsible for a violation under this chapter, except as provided herein. When such owner provides evidence in accordance with the procedures set forth in § 15-804(2) that the vehicle was in the care, custody or control of another person at the time of the violation, the person who had the care, custody and control of the vehicle at the time of the violation shall be responsible. (Ord. #432, Oct. 2008)

15-804. Procedure. (1) A person who receives a citation or notice of violation under this chapter may:
   (a) Pay the civil penalty, in accordance with instructions on the citation or notice; or
   (b) Elect to contest the citation for alleged violation in a hearing before the City Judge of the McKenzie Municipal Court, in accordance with the instructions on the citation or notice.

(2) Liability under this chapter shall be determined based upon the preponderance of the evidence. The submission of a citation or notice of violation containing photographic, digital, or electronic images indicating a violation along with the name and address of the registered owner shall constitute prima facie proof that a violation occurred and that the registered owner is liable for the violation. Such proof may be rebutted by the following:
   (a) Proof that the vehicle in the photograph or other image does not materially match the registration information. The indication of the wrong color on the registration information shall not be a material deviation;
(b) The registered owner furnishes to the city court, prior to the
return date established on the citation or notice of violation, a sworn
notarized affidavit or sworn statement under penalty of perjury, that the
vehicle was under the care, custody or control of another person or entity
at the time of the violation and accurately identifying the name and
current address of the person who leased, rented or otherwise had
possession and/or control of the vehicle at the time of the alleged
violation; or

(c) The registered owner furnishes to the city court, prior to the
return date established on the citation or notice of violation, a certified
copy of a police report showing that the vehicle or the registration/license
plates had been reported to the police as stolen prior to the time of the
alleged violation or within a timely manner after the alleged theft
occurred; or

(d) In the case of a commercial vehicle with a registered gross
weight of ten thousand (10,000) pounds or more, a tractor vehicle, a
trailer operated in combination with a tractor vehicle or a passenger bus,
in order to demonstrate that said owner was not the violator, the owner
shall send a statement under penalty of perjury by certified mail, return
receipt requested, to the municipal court stating that the owner was not
the operator and the person's name, address, and driver's license
identification number who was operating the vehicle at the time of the
violation.

(3) In the event the owner identifies, under penalty of perjury, a
person or entity who had possession, care, custody and control of the vehicle at
the time of the alleged violation, then the city shall issue a citation or notice of
violation to the person or entity so identified. (Ord. #450, Oct. 2011)

15-805. Civil penalty. (1) Any violation of this chapter shall be deemed
civil violation for which a civil penalty of fifty dollars ($50.00) shall be
assessed.

(2) Failure to pay the civil penalty by the designated date, or to appear
in court to contest the citation on the designated date, or to otherwise provide
the information in the manner required under § 15-804 shall be deemed an
admission of liability and indebtedness to the City of McKenzie of fifty dollars
($50.00) and shall result in the imposition of a judgment by default of fifty
dollars ($50.00) plus the assessment of court costs and litigation tax as
otherwise provided for under the McKenzie Municipal Code and the statutes of
the State of Tennessee for non-parking offenses. The city may collect said debt
in the same manner as any other debt owed to the city.

(3) If the owner of the vehicle contests the citation or notice of violation
and the court rules same is valid, then such judgment shall result in the
imposition of a judgment of fifty dollars ($50.00) plus the assessment of court
costs and litigation tax as otherwise provided under the McKenzie Municipal
Code and the statutes of the State of Tennessee for non-parking offenses. The city may collect said debt in the same manner as any other debt owed to the city. (Ord. #450, Oct. 2011)

15-806. **Miscellaneous.** All recorded images generated by the traffic control photograph system and portable speed photographic system, including, but not limited to, photographs, electronic images, and videotape, shall be solely owned by the City of McKenzie. (Ord. #432, Oct. 2008)

In case of unreasonable delay in restoring the street, alley, or public place, the city clerk shall give notice to the person, firm, corporation, association,
or others that unless the excavation or tunnel is refilled properly within a specified reasonable period of time, the city will do the work and charge the expense of doing the same to such person, firm, corporation, association, or others. (b)  Technical Review Criteria (TRC) violations, defined here as those in which thirty-three percent (33%) or more of all of the measurements for each pollutant parameter taken during a six (6) month period equal or exceed the product of the daily maximum limit or the average limit multiplied by the applicable TRC (TRC = 1.4 for BOD, TSS, fats, oils and grease, and 1.2 for all other pollutants except pH).

(c)  Any other violation of a pretreatment effluent limit (daily maximum or longer-term average) that the control authority determines has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public).

(d)  Any discharge of a pollutant that has caused imminent endangerment to human health welfare or to the environment or has resulted in the POTW's exercise of its emergency authority to halt or prevent such a discharge.
(e) Failure to meet, within ninety (90) days after the schedule date, a compliance schedule milestone contained in a local control mechanism or enforcement order for starting construction, completing construction, or attaining final compliance.

(f) Failure to provide, within thirty (30) days after the due date, required reports such as baseline monitoring reports, ninety (90) day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules.

18-204. Requirements for proper sewage disposal. (1) Disposal of human and animal excrements. It shall be unlawful for any user to place, deposit, or permit to be deposited in any unsanitary manner on public or private property within the City of McKenzie or any area under the jurisdiction of the said city, any human or animal excrement, garbage, or other objectionable waste.

(2) Discharge of sewage or polluted waters. It shall be unlawful to directly discharge to any natural outlet within the City of McKenzie or in any area under the jurisdiction of the said city, any sewage or other polluted waters, except where suitable treatment has been provided in accordance with subsequent provisions of this chapter.

(3) Septic tank, cesspool, privy vault, and privy construction. Except as hereafter provided, it shall be unlawful to construct or maintain any privy, privy vault, septic tank, cesspool, or other facility intended or used for the disposal of sewage.

(4) Requirements of sewer connections. The owner of all houses, buildings or properties used for human occupancy, employment, recreation, or other purposes, situated within the city and abutting on any street, alley, or right-of-way in which there is now located or may in the future be located a public sanitary sewer of the city, is hereby required at his expense to install suitable toilet facilities therein, and to connect such facilities directly with the proper public sewer in accordance with the provisions of this chapter, within ninety (90) days after date of official notice to do so.

(5) Private sewage disposal. The disposal of sewage by means other than the use of the available sanitary sewer system shall be in accordance with local, county, state and federal law. The disposal of sewage by private disposal systems shall be permissible only in those instances where service from the available sanitary sewage system is not available. (1995 Code, § 18-204)

18-205. Building sewer permits and proper connections. (1) Sewer connections. No unauthorized user shall uncover, make any connections with or opening into, use, alter, or disturb any public sewer or appurtenances thereof without first obtaining a written permit from the superintendent.
(2) **Building sewer permits.** There shall be two (2) classes of building sewer permits;
   (a) For residential and commercial service, and
   (b) For service to establishments producing industrial wastes.

In either case, the owner or his agent shall make application on a special form furnished by the city. Their permit application shall be supplemented by any plans, specifications, or other information considered pertinent in the judgment of the superintendent. A review and inspection fee of ten dollars ($10.00) shall be paid to the city at the time the application is filed. If it is determined that the user is classified as a significant industrial user, a significant industrial user discharge permit shall be issued. A permit fee of three hundred fifty dollars ($350.00) shall be paid to the city prior to permit issuance.

(3) **Cost of sewer connection.** All costs and expense incidental to the installation and connection of the building sewer shall be borne by the owner. This includes any tap and/or hook-up charges which may apply. The owner shall indemnify the city from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

(4) **Users per connection.** A separate and independent building sewer shall be provided for every building except where the superintendent approves more than one connection to a septic tank as provided by the requirements of this chapter. No more than three (3) connections shall ever be made to a single septic tank.

(5) **Use of existing sewer connection.** Old building sewers, particularly existing service line, may be used in connection with new buildings only when they are found, on examination and test by the superintendent, to meet all requirements of this chapter.

(6) **Design consideration for building sewers.** The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing, and backfilling the trench, shall all conform to the following requirements:
   (a) The minimum size of a building sewer shall be four inches (4").
   (b) The minimum depth of a building sewer shall be eighteen inches (18").
   (c) Four inch (4") building sewers shall be laid on a grade greater than one-eighth inch (1/8") per foot. Larger building sewers shall be laid on a grade that will produce a velocity when flowing full of at least two feet (2') per second.
   (d) Slope and alignment of all building sewers shall be neat and regular.
   (e) Building sewers shall be constructed only of:
      (i) Concrete or clay sewer pipe using rubber or neoprene compression joints of approved type;
      (ii) Cast iron soil pipe with compression joints;
(iii) Polyvinyl chloride pipe with solvent welded or with rubber compression joints of approved type; or
(iv) Such other materials of equal or superior quality as may be approved by the superintendent. Under no circumstances will cement mortar joints be acceptable.

(f) A cleanout shall be located five feet (5') outside of the building, one as it taps onto the utility lateral and one at each change of direction of the building sewer which is greater than forty-five degrees (45°). Additional cleanouts shall be placed not more than seventy-five feet (75') apart in horizontal building sewers of four inch (4") nominal diameter and not more than one hundred feet (100') apart for larger pipes. Cleanouts shall be extended to or above the finished grade level directly above the place where the cleanout is installed. A "Y" (wye) and one-eighth (1/8) bend shall be used for the cleanout base. Cleanouts shall not be smaller than four inches (4") on a four inch (4") pipe.

(g) Connections of building sewers to the public sewer system shall be made at the appropriate existing wye or tee branch using compression type couplings or collar type rubber joint with corrosion resisting or stainless steel bands. Where existing wye or tee branches are not available, connections of building services shall be made by either removing a length of pipe and replacing it with a wye or tee fitting or installing a tee-saddle or tee-insert of a type approved by the superintendent. All such connections shall be made gas-tight and watertight.

(h) The building sewer may be brought into the building below the basement floor when gravity flow from the building to the sanitary sewer is at a grade of one-eighth inch (1/8") per foot or more if possible. In cases where basement or floor levels are lower than the ground elevation at the point of connection to the sewer, adequate precautions by installation of check values or other backflow prevention devices to protect against flooding shall be provided by the owner. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by an approved means and discharged to the building sewer at the expense of the owner.

(i) The methods to be used in excavation, placing of pipe, jointing, testing, backfilling the trench, or other activities in the construction of a building sewer which have not been described above shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the city or to the procedures set forth in appropriate specifications of the ASTM and Water Pollution Control Federal Manual of Practice No. 9. Any deviation from the prescribed procedures and materials must be approved by the superintendent before installation.
(j) An installed building sewer shall be gas tight and water tight.

(7) **Maintenance of building sewers.** Each individual property owner or user of the POTW shall be entirely responsible for the maintenance of the building sewer located on private property. This maintenance will include repair or replacement of the service line as deemed necessary by the superintendent to meet specifications of the city.

(8) **Illegal connections.** No user shall make connection of roof downspouts, exterior foundation drains, areaway drains, or other sources of uncontaminated surface runoff or groundwater to a building sewer or building which in turn is connected directly or indirectly to a public sanitary sewer.

(9) **Design considerations for connecting building and public sewers.** The connection of the building sewer into the public sewer shall conform to the requirement of the building and plumbing code or other applicable rules and regulations of the city, or the procedures set forth in appropriate specifications of the ASTM and the WPCF Manual of Practice No. 9. All such connections shall be made gas tight and water tight. Any deviation from the prescribed procedures and materials must be approved by the superintendent before installation.

(10) **Inspection of building sewers.** The applicant for the building sewer permit shall notify the superintendent when the building is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the superintendent or his representative. (1995 Code, § 18-205)

**18-206. General discharge prohibitions.** No user shall contribute or cause to be contributed, directly or indirectly, any pollutant or wastewater which will interfere with the operation or performance of the POTW. These general prohibitions apply to all such users of a POTW whether or not the user is subject to national categorical pretreatment standards or any other national, state, or local pretreatment standards or requirements. A user may not contribute the following substances to any POTW:

(1) Any liquids, solids or gases which by reason of their nature or quantity are, or may be, sufficient, either alone or by interaction with other substances, to cause fire or explosion or be injurious in any other way to the POTW or to the operation of the POTW. At no time shall two (2) successive readings on an explosion hazard meter, at the point of discharge into the system (or at any point in the system) be more than five percent (5%) nor any single reading over ten percent (10%) of the Lower Explosive Limit (LEL) of the meter. Prohibited materials include, but are not limited to, gasoline, kerosene, naphtha, benzene, toluene, xylene, ethers, alcohols, ketones, aldehydes, peroxides, chlorates, perchlorates, bromates, carbides, hydrides and sulfides and any other substances which the city, the state or EPA has notified the user is a fire hazard or a hazard to the system.

(2) Solid or viscous substances which may cause obstruction to the flow in a sewer or other interference with the operation of the wastewater treatment
facilities such as, but not limited to: grease, garbage with particles greater than one-half inch (1/2") in any dimension, animal guts or tissues, paunch manure, bones, hair, hides or fleshings, entrails, whole blood, feathers, ashes, cinders, sand, spent lime, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, spent grains, spent hops, waste paper, wood, plastics, gas, tar, asphalt residues, residues from refining or processing of fuel or lubricating oil, mud, or glass grinding or polishing wastes.

(3) Any wastewater having a pH less than 5.0 unless the POTW is specifically designed to accommodate such wastewater, or wastewater having any other corrosive property capable of causing damage or hazard to structures, equipment, and/or personnel of the POTW.

(4) Any wastewater containing toxic pollutants in sufficient quantity, either singly or by interaction with other pollutants, to injure or interfere with any wastewater treatment process, constitute a hazard to humans or animals, create a toxic effect in the receiving waters of the POTW, or to exceed the limitation set forth in a categorical pretreatment standard. A toxic pollutant shall include but not be limited to any pollutant identified pursuant to section 307(a) of the Act.

(5) Any noxious or malodorous liquids, gases, or solids which either singly or by interaction with other wastes are sufficient to create a public nuisance or hazard to life or are sufficient to prevent entry into the sewers for maintenance and repair.

(6) Any substance which may cause the POTW's effluent or any other product of the POTW such as residues, sludges, or scums, to be unsuitable for reclamation and reuse or to interfere with the reclamation process. In no case, shall a substance discharged to the POTW cause the POTW to be in non-compliance with sludge use or disposal criteria, guidelines or regulations developed under section 405 of the Act; any criteria, guidelines, or regulations affecting sludge use or disposal developed pursuant to the Solid Waste Disposal Act, the Clean Air Act, the Toxic Substances Control Act, or state criteria applicable to the sludge management method being used.

(7) Any substance which will cause the POTW to violate its NPDES and/or state disposal system permit or the receiving water quality standards.

(8) Any wastewater with objectionable color not removed in the treatment process, such as, but not limited to, dye wastes and vegetable tanning solutions.

(9) Any wastewater having a temperature which will inhibit biological activity in the POTW treatment plant resulting in interference, but in no case wastewater with a temperature at the introduction into the POTW which exceeds forty degrees (40°C) Celsius (one hundred four degrees (104°F) F) unless the POTW treatment plant is designed to accommodate such temperature.

(10) Any pollutants, including oxygen demanding pollutants (BOD, etc.) released at a flow rate and/or pollutant concentration which a user knows or has reason to know will cause interference to the POTW. In no case shall a slug load
have a flow rate or contain concentration or qualities of pollutants that exceed for any time period longer than fifteen (15) minutes more than five (5) times the average twenty-four (24) hour concentration, quantities, or flow during normal operation.

(11) Any wastewater containing any radioactive waste or isotopes of such half-life or concentration as may exceed limits established by the superintendent in compliance with applicable state or federal regulations.

(12) Any wastewater which causes a hazard to human life or creates a public nuisance.

(13) Petroleum oil, nonbiodegradable cutting oil, or products of mineral oil origin in amounts that will cause interference or pass through.

(14) Pollutants which result in the presence of toxic gases, vapors or fumes within the POTW in a quantity that may cause acute worker health and safety problems.

(15) Any trucked or hauled pollutants except at discharge points designated by the POTW.

When the superintendent determines that a user(s) is contributing to the POTW any of the above enumerated substances in such amounts as to interfere with the operation of the POTW, the superintendent shall:

(a) Advise the user(s) of the impact of the contribution on the POTW; and

(b) Develop effluent limitation(s) for such user to correct the interference with the POTW. (1995 Code, § 18-206)

18-207. Federal categorical pretreatment standards. Upon the promulgation of the federal categorical pretreatment standards for a particular industrial subcategory, the federal standard, if more stringent than limitations imposed under this chapter for sources in that subcategory shall immediately supersede the limitations imposed under this chapter. The superintendent shall notify all affected users of the applicable reporting requirements under 40 C.F.R., section 403.12. (1995 Code, § 18-207)

18-208. Modification of federal categorical pretreatment standards. Where the city's wastewater treatment system achieves consistent removal of pollutants limited by federal pretreatment standards, the city may apply to the approval authority for modification of specific limits in the federal pretreatment standards. "Consistent removal" shall mean reduction in the amount of a pollutant or alteration of the nature of the pollutant by the wastewater treatment system to a less toxic or harmless state in the effluent which is achieved by the system ninety-five percent (95%) of the samples taken when measured according to the procedures set forth in section 403.7(c)(2) of (title 40 of the Code of Federal Regulations, part 403) - "General Pretreatment Regulations for Existing and New Sources of Pollution" promulgated pursuant to the Act. The city may then modify pollutant discharge limits in the federal
pretreatment standards if the requirements contained in 40 C.F.R., part 403, section 403.7, are fulfilled and prior approval from the approval authority is obtained. (1995 Code, § 18-208)

18-209. State requirements. State requirements and limitations on discharges shall apply in any case where they are more stringent than federal requirements and limitations or those in this chapter. (1995 Code, § 18-209)

18-210. City's right of revision. The city reserves the right to establish by ordinance more stringent limitations or requirements on discharges to the wastewater disposal system if deemed necessary to comply with the objectives presented in § 18-201 of this chapter. (1995 Code, § 18-210)

18-211. Excessive discharge. No user shall ever increase the use of process water or, in any way attempt to dilute a discharge as a partial or complete substitute for adequate treatment to achieve compliance with the limitations contained in the federal categorical pretreatment standards, or in any other pollutant-specific limitation developed by the city or state. (Comment: Dilution may be an acceptable means of complying with some of the prohibitions set forth in § 18-206, e.g., the pH prohibition.) (1995 Code, § 18-211)

18-212. Accidental discharges. Each user shall provide protection from accidental discharge of prohibited materials or other substances regulated by this chapter. Facilities to prevent accidental discharge of prohibited materials shall be provided and maintained at the owner or user's own cost and expense. Detailed plans showing facilities and operating procedures to provide this protection shall be submitted to the city for review, and shall be approved by the city before construction of the facility. All existing users shall complete such a plan within one hundred eighty (180) days from adoption of this chapter. No user who commences contribution to the POTW after the effective date of this chapter shall be permitted to introduce pollutants into the system until accidental discharge procedures have been approved by the city. Review and approval of such plans and operating procedures shall not relieve the industrial user from the responsibility to modify the user's facility as necessary to meet the requirements of this chapter. In the case of an accidental discharge, it is the responsibility of the user to immediately telephone and notify the POTW of the incident. The notification shall include location of discharge, type of waste, concentration and volume, and corrective actions.

(1) Written notice. Within five (5) days following an accidental discharge, the user shall submit to the superintendent a detailed written report describing the cause of the discharge and the measures to be taken by the user to prevent similar future occurrences. Such notification shall not relieve the user of any expense, loss, damage, or other liability which may be incurred as a result of damage to the POTW, fish kills, or any other damage to person or
property; nor shall such notification relieve the user of any fines, civil penalties, or other liability which may be imposed by this chapter or other applicable law.

(2) Notice to employees. A notice shall be permanently posted on the user's bulletin board or other prominent place advising employees who to call in the event of a dangerous discharge. Employers shall insure that all employees who may cause or suffer such a dangerous discharge to occur are advised of the emergency notification procedure. (Ord. #324, Nov. 1991)

18-213. Hazardous waste discharges. The industrial user shall notify the POTW, the EPA Regional Waste Management Division Director, and state hazardous waste authorities in writing of any discharge into the POTW of a substance, which, if otherwise disposed of, would be a hazardous waste under 40 C.F.R. part 281. Such notification must include the name of the hazardous waste as set forth in 40 C.F.R. part 281, the EPA hazardous waste number, and the type of discharge (continuous batch or other). If the industrial user discharges more than one hundred (100) kilograms of such waste per calendar month to the POTW, the notification shall also contain the following information to the extent such information is known and readily available to the industrial user: An identification of the hazardous constituents contained in the wastes, an estimation of the mass and concentration of such constituents in the wastestream discharged during that calendar month, and an estimation of the mass of constituents in the wastestream expected to be discharged during the following twelve (12) months. All notification must take place within one hundred eighty (180) days of the effective date of this rule. Industrial users who commence discharging after the effective date of this rule shall provide the notification no later than one hundred eighty (180) days after the discharge of the listed or characteristic hazardous waste. Any notification under this paragraph need be submitted only once for each hazardous waste discharged. However, notifications of changed discharges must be submitted under 40 C.F.R. 403.12(j). The notification requirement in this section does not apply to pollutants already reported under the self-monitoring requirements or 40 C.F.R. 403.12 (b), (d), and (e). (1995 Code, § 18-213)

18-214. Affirmative defenses. A user shall have an affirmative defense in any action brought against it alleging a violation where the following exist:

(1) Treatment upsets. (a) Any industrial user which experiences an upset in operations that places it in a temporary state of noncompliance, which is not the result of operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventive maintenance or careless or improper operation, shall inform the superintendent thereof immediately upon becoming aware of the upset. Where such information is given orally, a written report thereof shall be filed by the user within five (5) days. The report shall contain:
(i) A description of the upset, its cause(s), and impact on the discharger's compliance status;
(ii) The duration of noncompliance, including exact dates and times of noncompliance, and if the noncompliance is continuing, the time by which compliance is reasonably expected to be restored;
(iii) All steps taken or planned to reduce, eliminate, and prevent recurrence of such an upset.

(b) An industrial user which complies with the notification provisions of this section in a timely manner shall have an affirmative defense to any enforcement action brought by the superintendent for any noncompliance with this chapter, or an order or permit issued hereunder by the user, which arises out of violations attributable to and alleged to have occurred during the period of the documented and verified upset.

(2) Treatment bypasses. (a) A bypass of the user's treatment system is prohibited unless all of the following conditions are met:
   (i) The bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;
   (ii) There was no feasible alternative to the bypass, including the use of auxiliary treatment or retention of the wastewater; and
   (iii) The industrial user properly notified the superintendent as described in paragraph (b) below.

(b) Industrial users must provide immediate notice to the superintendent upon discovery of an unanticipated bypass. If necessary, the superintendent may require the industrial user to submit a written report explaining the cause(s), nature, and duration of the bypass, and steps being taken to prevent its recurrence.

(c) An industrial user may allow a bypass to occur which does not cause pretreatment standards or requirements to be violated, but only if it is for essential maintenance to ensure efficient operation of the treatment system. Industrial users anticipating a bypass must submit notice to the superintendent at least ten (10) days in advance. The superintendent may only approve the anticipated bypass if the circumstances satisfy those set forth in paragraph (a) above. (1995 Code, § 18-214)

18-215. Fees. (1) Purpose of charges and fees. A schedule of charges and fees shall be adopted by the City of McKenzie which will enable it to comply with the revenue requirements of section 204 of the Clean Water Act. Charges and fees shall be determined in a manner consistent with regulations of the Federal Grant Program to ensure that sufficient revenues are collected to defray the cost of operating and maintaining, including replacement, adequate wastewater collection and treatment systems. Specific charges and fees shall be
adopted by a separate ordinance, this section describes the procedure to be used in calculating the charges and fees. Additional charges and fees to recover funds for capital outlay, bond service costs, and capital improvements may be assessed by the City of McKenzie. These charges and fees shall be recovered through the user classification established below.

(2) **Classification of user.** All users shall be classified by the superintendent either by assigning each one to a "user classification" category according to the principal activity conducted on the user's premises, by individual user analysis, or by a combination thereof. The purpose of such collective and/or individual classification is to facilitate the regulation of wastewater discharges based on wastewater constituents and characteristics.

(3) **Type of charges and sewer fees.** The charges and fees as established in treatment works schedule of charges and fees, may include, but not be limited to:
   (a) User classification charges;
   (b) Fees for monitoring requested by user;
   (c) Fees for permit applications;
   (d) Appeal fees;
   (e) Charges and fees based on wastewater constituents and characteristics;
   (f) Fees for use of garbage grinders;
   (g) Fees for holding tank wastes;
   (h) Charges for compliance monitoring;
   (i) Permit issuance fee;

(4) **Basis of determination of charges.** Charges and fees may be based upon a minimum basic charge for each premise, computed on the basis of "normal wastewater" from a domestic premise with the following characteristics:

<table>
<thead>
<tr>
<th>Constituent</th>
<th>Concentration</th>
</tr>
</thead>
<tbody>
<tr>
<td>BOD</td>
<td>300 mg/L</td>
</tr>
<tr>
<td>COD</td>
<td>600 mg/L</td>
</tr>
<tr>
<td>TKN</td>
<td>60 mg/L</td>
</tr>
<tr>
<td>NH₃-N</td>
<td>30 mg/L</td>
</tr>
<tr>
<td>Suspended solids</td>
<td>300 mg/L</td>
</tr>
<tr>
<td>Fats, oil and grease</td>
<td>100 mg/L</td>
</tr>
</tbody>
</table>

The charges and fees for all classifications of users other than the basic domestic premise shall be based upon the relative difference between the average wastewater constituents and characteristics of that classification as related to those of a domestic premise.

The charges and fees established for permitted users shall be based upon the measured or estimated constituents and characteristics of the wastewater discharge of that user which may include, but not be limited to, BOD, COD, SS, NH₃-N, chlorine demand, and volume.

(5) **User charges.** Each user shall be levied a charge for payment of bonded indebtedness of the treatment system and for that user's proportionate
share of the operations and maintenance costs of the system. A surcharge will be levied against those users with wastewater that exceeds the strength of "normal wastewater."

(a) Operation and maintenance user charges: Each user's share of operation and maintenance costs will be computed by the following formula:

\[ Cu = \frac{Ct}{Vt} \times (Vu) \]

Where:
- \( Cu \) = User's charge for O & M per unit of time.
- \( Ct \) = Total O & M cost per unit of time.
- \( Vt \) = Total volume contribution from all users per unit of time.
- \( Vu \) = Volume contribution from a user per unit of time.

Operation and maintenance charges may be established on a percentage of water use charge only in the event that water use charges are based on a constant cost per unit of consumption.

(b) Surcharges: The surcharge will be the user's proportionate share of the O & M costs for handling its periodic volume of wastewater which exceeds the strength of BOD, suspended solids, and/or other elements in "normal wastewater" excluding "toxic wastes". The amount of the surcharge shall be determined by the following formula:

\[ Cs = \frac{[(Bc \times B) + (Sc \times S) + (Pc \times P)]}{Vi} \]

Where:
- \( Cs \) = Surcharge for wastewaters exceeding the strength of "normal wastewater" expressed in dollars per billing period.
- \( Bc \) = O & M cost for treatment of a unit of BOD expressed in dollars per pound.
- \( B \) = Concentration of BOD from a user above the base level of 2.50 lbs/1,000 gallons expressed in pounds per 1,000 gallons.
- \( Sc \) = O & M costs for treatment of a unit of suspended solids expressed in dollars per pound.
- \( S \) = Concentration of suspended solids from a user above the base level of 2.50 lbs/1,000 gallons expressed in pounds per 1,000 gallons.
- \( Pc \) = O & M cost for treatment of a unit of any pollutant which the publicly-owned treatment
works is committed to treat by virtue of an NPDES permit or other regulatory requirement expressed in dollars per pound.

\[ P = \text{Concentration of any pollutant from a user above base level. Base levels for pollutants subject to surcharges will be established by the superintendent.} \]

\[ V_i = \text{Volume contribution of a user per billing period. (Expressed in thousands of gallons).} \]

The values of parameters used to determine user charges may vary from time to time. Therefore, the superintendent is authorized to modify any parameter or value as often as necessary. Review of all parameters and values shall be undertaken whenever necessary; but in no case less frequently than annually.

(6) Notification. Each user shall be notified, at least annually, in conjunction with a regular bill, of the rate and that portion of the user charges which are attributable to wastewater treatment services.

(7) Biennial review of operation and maintenance charges. The City of McKenzie shall review not less often than every two (2) years the wastewater contribution of users and user classes, the total costs of operation and maintenance of the treatment works and its approved user charge system. The city shall revise the charges for users or user classes to accomplish the following:

(a) Maintain the proportionate distribution of operation and maintenance costs among users and user classes as required herein;

(b) Generate sufficient revenue to pay the total operation and maintenance costs necessary to the proper operation and maintenance (including replacement) of the treatment works; and

(c) Apply excess revenues collected from a class of users to the costs of operation and maintenance attributable to that class for the next year and adjust the rate accordingly.

(8) Appeal procedure. A user shall have the right to appeal any and all charges and fees assessed against him. The procedure shall be as follows:

A written notice, signed by the user seeking an appeal hearing, shall be delivered by registered mail to the superintendent outlining the fees and charges which the user wishes to appeal. The superintendent shall then have thirty (30) days from the time of receipt of the notice to notify the McKenzie City Council that an appeal hearing will be held. A hearing shall then be conducted and all grievances alleged by the user shall be discussed, and appropriate decisions rendered by the superintendent. Any decisions which, in the judgment of the user, are inappropriate may be appealed to the Mayor and City Council of McKenzie by filing a written notice with said commission within fourteen (14) days after completion of the first hearing. The Mayor and City Council of McKenzie shall then have forty-five (45) days in which to convene a meeting of
the Mayor and City Council of McKenzie to hear all unresolved grievances and issues appropriate to decisions.

Nothing in this section shall affect a person's right to appeals provided by state law.

(9) Wastewater characteristics. The wastewater characteristics of each industrial user shall be determined by monitoring or, where monitoring is not feasible, wastewater characteristics may be estimated using historical records, data from similar industrial users, etc. After initiation of the charges and fee system, major industrial users shall be monitored on a regular basis, not less often than annually. Monitoring of minor industries may be done intermittently. Monitoring shall be conducted during periods of normal discharge. (1995 Code, § 18-215)

18-216. Wastewater discharges. It shall be unlawful to discharge without a city permit to any natural outlet within the City of McKenzie, or in any area under the jurisdiction of said city, and/or to the POTW any wastewater except as authorized by the superintendent in accordance with the provisions of this chapter. (1995 Code, § 18-216)

18-217. Wastewater discharge permits. (1) General permits. All significant users proposing to connect to or to contribute to the POTW shall obtain a wastewater discharge permit before connecting to or contributing to the POTW.

(2) Permit application. Users required to obtain a wastewater contribution permit shall complete and file with the city, an application in the form prescribed by the city, and accompanied by the appropriate fee. Proposed new users shall apply at least ninety (90) days prior to connecting to or contributing to the POTW. In support of the application, the user shall submit, in units and terms appropriate for evaluation, the following information:

(a) Name, address, and location, (if different from the address).

(b) SIC number according to the Standard Industrial Classification Manual, Office of Management and Budget, 1972, as amended.

(c) Wastewater constituents and characteristics including but not limited to those mentioned in §§ 18-206 through 18-214 of this chapter as determined by a reliable analytical laboratory; sampling and analysis shall be performed in accordance with procedures established by the EPA pursuant to section 304(g) of the Act and contained in 40 C.F.R., part 136, as amended.

(d) Time and duration of contribution.

(e) Average daily and thirty (30) minute peak wastewater flow rates, including daily, monthly and seasonal variations if any.
(f) Site plans, floor plans, mechanical and plumbing plans and details to show all sewers, sewer connections, and appurtenances by the size, location and elevation.

(g) Description of activities, facilities and plant processes on the premises including all materials which are or could be discharged.

(h) Where known, the nature and concentration of any pollutants in the discharge which are limited by any city, state, or federal pretreatment standards, and a statement regarding whether or not the pretreatment standards are being met on a consistent basis and if not, whether additional operation and maintenance (O & M) and/or additional pretreatment is required for the user to meet applicable pretreatment standards.

(i) If additional pretreatment and/or O & M will be required to meet the pretreatment standards, the shortest schedule by which the user will provide such additional pretreatment. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard.

The following conditions shall apply to this schedule:

(i) The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the user to meet the applicable pretreatment standards (e.g., hiring an engineer, completing preliminary plans, completing final plans, executing contract for major components, commencing construction, completing construction, etc.).

(ii) No increment referred to in paragraph (i) shall exceed nine (9) months.

(iii) Not later than fourteen (14) days following each date in the schedule and the final date for compliance, the user shall submit a progress report to the superintendent including, as a minimum, whether or not it complied with the increment of progress to be met on such date and, if not, the date on which it expects to comply with this increment of progress, the reason for delay, and the steps being taken by the user to return the construction to the schedule established. In no event shall more than nine (9) months elapse between such progress reports to the superintendent.

(j) Each product produced by type, amount, process or processes and rate of production.

(k) Type and amount of raw materials processed (average and maximum per day).

(l) Number and type of employees, and hours of operation of plant and proposed or actual hours of operation of pretreatment system.
18-22

(m) Any other information as may be deemed by the city to be necessary to evaluate the permit application.

The city will evaluate the data furnished by the user and may require additional information. After evaluation and acceptance of the data furnished, the city may issue a wastewater contribution permit subject to terms and conditions provided herein.

(3) Permit modifications. Within nine (9) months of the promulgation of a national categorical pretreatment standard, the wastewater contribution permit of users subject to such standards shall be revised to require compliance with standard within the time frame prescribed by such standard. Where a user, subject to a national categorical pretreatment standard, has not previously submitted an application for a wastewater contribution permit as required by § 18-217(2), the user shall apply for a wastewater contribution permit within one hundred eighty (180) days after the promulgation of the applicable national categorical pretreatment standard. In addition, the user with an existing wastewater contribution permit shall submit to the superintendent within one hundred eighty (180) days after the promulgation of an applicable federal categorical pretreatment standard the information required by paragraph (h) and (i) of § 18-217(2).

(4) Permit conditions. Wastewater discharge permits shall be expressly subject to all provisions of this chapter and all other applicable regulations, user charges and fees established by the city. Permits may contain the following:

(a) The unit charge or schedule of user charges and fees for the wastewater to be discharged to a community sewer;
(b) Limits on the average and maximum wastewater constituents and characteristics;
(c) Limits on average and maximum rate and time of discharge or requirements for flow regulation and equalization;
(d) Requirements for installation and maintenance of inspection and sampling facilities;
(e) Specifications for monitoring programs which may include sampling, locations, frequency of sampling, number, types and standards for tests and reporting schedule;
(f) Compliance schedules;
(g) Requirements for submission of technical reports or discharge reports (see § 18-218);
(h) Requirements for maintaining and retaining plant records relating to wastewater discharge as specified by the city, and affording city access thereto;
(i) Requirements for notification of the city or any new introduction of wastewater constituents or any substantial change in the volume or character of the wastewater treatment constituents being introduced into the wastewater treatment system;
(j) Requirements for notification of slug discharges as per § 18-213;
(k) Statement of permit duration;
(l) Requirements for permit transfer;
(m) Statements of civil and criminal penalties are set forth under this chapter;
(n) Other conditions as deemed appropriate by the city to ensure compliance with this chapter.

(5) Permit duration. A permit shall be valid for a maximum of two (2) years. A permit may be issued for a lessor period of time with a specified expiration date. It shall be the responsibility of the user to submit for permit reissuance a minimum of one hundred eighty (180) days prior to expiration. Discharge to the sewer system after expiration of a permit shall be considered an unlawful connection and is subject to the provision of § 18-220.

(6) Permit transfer. Wastewater discharge permits are issued to a specific user for a specific operation. A wastewater discharge permit shall not be reassigned or transferred or sold to a new owner, new user, different premises, or a new or changed operation without the approval of the city. Any succeeding owner or user shall also comply with the terms and conditions of the existing permit. (1995 Code, § 18-217)

18-218. Reporting requirements for permittee. (1) Compliance date report. Within ninety (90) days following the date for final compliance with applicable pretreatment standards or, in the case of a new source, following commencement of the introduction of wastewater into the POTW, any user subject to pretreatment standards and requirements shall submit to the superintendent a report indicating the nature and concentration of all pollutants in the discharge from the regulated process which are limited by pretreatment standards and requirements and the average and maximum daily flow for these process units in the user facility which are limited by such pretreatment standards or requirements. The report shall state whether the applicable pretreatment standards or requirements are being met on a consistent basis and, if not, what additional O & M and/or pretreatment is necessary to bring the user into compliance with the applicable pretreatment standards or requirements.

(2) Periodic compliance reports. (a) Any user subject to a pretreatment standard, after the compliance date of such pretreatment standard, or, in the case of a new source, after commencement of the discharge into the POTW, shall submit to the superintendent during the months of June and December, unless required more frequently in the pretreatment standard or by the superintendent a report indicating the nature and concentration, of pollutants in the effluent which are limited by such pretreatment standards. In addition, this report shall include a record of all daily flows which during the reporting period exceeded the
average daily flow reported in the application for permit. At the discretion of the superintendent and in consideration of such factors as local high or low flow rates, holidays, budget cycles, etc., the superintendent may agree to alter the months during which the above reports are to be submitted. If the user monitors pollutants at times more frequent than those required by the POTW, the user shall also include this information in its scheduled report to the POTW.

(b) The superintendent may impose mass limitations on users which are using dilution to meet applicable pretreatment standards or requirements, or in other cases where the imposition of mass limitations are appropriate. In such cases, the report required by subparagraph (a) of this paragraph shall indicate the mass of pollutants regulated by pretreatment standards in the effluent of the user. These reports shall contain the results of sampling and analysis of the discharge, including the flow and the nature and concentration, or production and mass where requested by the superintendent, of pollutants contained therein which are limited by the applicable pretreatment standards. The frequency of monitoring shall be prescribed in the applicable pretreatment standard. All analysis shall be performed in accordance with procedures established by the administrator pursuant to section 304(g) of the Act and contained in 40 C.F.R., part 136 and amendments thereto or with any other test procedures approved by the administrator. Sampling shall be performed in accordance with the techniques approved by the administrator. (Comment: Where 40 C.F.R., part 136 does not include a sampling or analytical technique for the pollutant in question sampling and analysis shall be performed in accordance with the procedures set forth in the EPA publication, "Sampling and Analysis Procedures for Screening of Industrial Effluents for Priority Pollutants," April, 1977, and amendments thereto, or with any other sampling and analytical procedures approved by the administrator.)

(c) If sampling performed by an industrial user indicates a violation, the user shall notify the POTW within twenty-four (24) hours of becoming aware of the violation. The user shall also repeat the sampling and analysis and submit the results to the POTW. The report sampling and analysis shall be completed not later than thirty (30) days after becoming aware of the violation.

(d) If, in the opinion of the city, the installation of additional control technology may be required to remedy or avoid a violation of ordinance or sewer user permit, within sixty (60) days from notice by the city, the user shall submit a compliance schedule for installation of equipment as deemed necessary by the city.

(3) Signatory requirements. All reports issued by the industrial user to the POTW shall contain the following statement signed by an officer of the company or duly appointed representative as set forth by 40 C.F.R. § 403.12(l).
I certify under penalty of law that this document, and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is to the best of my knowledge and belief true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

(4) Monitoring facilities. The city shall require to be provided and operated at the user's own expense, monitoring facilities to allow inspection, sampling, and flow measurement of the building sewer and/or internal drainage system. The monitoring facility should normally be situated on the user's premises, but the city may, when such a location would be impractical or cause undue hardship on the user, allow the facility to be constructed in the public street or sidewalk area and located so that it will not be obstructed by landscaping or parked vehicles.

There shall be ample room in or near such sampling manhole or facility to allow accurate sampling and preparation of samples for analysis. The facility, sampling, and measuring equipment shall be maintained at all times in a safe and proper operating condition at the expense of the user.

Whether constructed on public or private property, the sampling and monitoring facilities shall be provided in accordance with the city's requirements and all applicable local construction standards and specifications. Construction shall be completed within ninety (90) days following written notification by the city.

(5) Inspection and sampling. The city shall inspect the facilities and take wastewater samples of any user to ascertain whether the purpose of this chapter is being met and all requirements are being complied with. Times of such inspections may or may not be scheduled in advance with the user. Persons or occupants of premises where wastewater is created or discharged shall allow the city or their representative ready access at all reasonable times to all parts of the premises for the purposes of inspection, sampling, records examination or in the performance of any of their duties. The city approval authority and (where the NPDES state is the approval authority), EPA shall have the right to set up on the user's property such devices as are necessary to conduct sampling inspection, compliance monitoring and/or testing. At a minimum, the city shall conduct a scheduled inspection and take samples once a year. The POTW shall contact the IU to schedule the inspection prior to visiting the site. At a minimum, one (1) additional unscheduled inspection may occur during the remainder of the year. Charges for all compliance monitoring including sampling and testing by the city shall be paid by the user.

(6) Maintenance of records. Record-keeping requirements. Any industrial user subject to the reporting requirements established in this section
shall maintain records of all information resulting from any monitoring activities required by this section. Such records shall include for all samples:

(a) The date, exact place, method, and time of sampling and the names of the person or persons taking the samples;
(b) The dates analyses were performed;
(c) Who performed the analyses;
(d) The analytical techniques/methods use; and
(e) The results of the analyses.

Any industrial user subject to the reporting requirements established in this section shall be required to retain for a minimum of three (3) years any records of monitoring activities and results (whether or not such monitoring activities are required by this section) and shall make such records available for inspection and copying by the director and the regional administrator (and POTW in the case of an industrial user.) This period of retention shall be extended during the course of any unresolved litigation regarding the industrial user or POTW or when requested by the director or the regional administrator.

7) Confidentiality of information. When requested by the person furnishing a report, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public but shall be made available upon written request to governmental agencies for uses related to this chapter, the National Pollutant Discharge Elimination System (NPDES) permit, state disposal system permit and/or the pretreatment programs; provided, however, that such portions of a report shall be available for use by the state or any state agency in judicial review or enforcement proceedings involving the person furnishing the report. Wastewater constituents and characteristics will not be recognized as confidential information.

Information accepted by the city as confidential shall not be transmitted to any governmental agency or to the general public by the city until and unless a ten (10) day notification is given to the user. (1995 Code, § 18-218)

18-219. Administrative enforcement remedies. (1) Notification of violation. Whenever the superintendent finds that any user has violated or is violating this chapter, or a wastewater permit or order issued hereunder, the superintendent or his agent may serve upon said user written notice of the violation. Within ten (10) days of the receipt date of this notice, an explanation of the violation and a plan for the satisfactory correction and prevention thereof, to include specific required actions, shall be submitted to the superintendent. Submission of this plan in no way relieves the user of liability for any violations occurring before or after receipt of the notice of violation.

(2) Consent orders. The superintendent is empowered to enter into consent orders, assurances of voluntary compliance, or other similar documents establishing an agreement with the industrial user responsible for the noncompliance. Such orders will include specific action to be taken by the industrial user to correct the noncompliance within a time period also specified
by the order. Consent orders shall have the same force and effect as administrative orders issued pursuant to § 18-219(4).

(3) Show cause hearing. The superintendent may order any user which causes or contributes to violation of this chapter or wastewater permit or order issued hereunder, to show cause why a proposed enforcement action should not be taken. Notice shall be served on the user specifying the time and place for the meeting, the proposed enforcement action and the reasons for such action, and a request that the user show cause why this proposed enforcement action should not be taken. The notice of the meeting shall be served personally or by registered or certified mail (return receipt requested) at least ten (10) days prior to the hearing. Such notice may be served on any principal executive, general partner or corporate officer. Whether or not a duly noticed industrial user appears as noticed, immediate enforcement action may be pursued.

(4) Compliance order. When the superintendent finds that a user has violated or continues to violate the ordinance or a permit or order issued thereunder, he may issue an order to the industrial user responsible for the discharge directing that, following a specified time period, sewer service shall be discontinued unless adequate treatment facilities, devices or other related appurtenances have been installed and are properly operated. Orders may also contain such other requirements as might be reasonably necessary and appropriate to address the noncompliance, including the installation of pretreatment technology, additional self-monitoring, and management practices.

(5) Cease and desist orders. When the superintendent finds that an industrial user has violated or continues to violate this chapter or any permit or order issued hereunder, the superintendent may issue an order to cease and desist all such violations and direct those persons in noncompliance to:

(a) Comply forwith;
(b) Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations and terminating the discharge.

(6) Administrative fines. Notwithstanding any other section of this chapter, any user who is found to have violated any provision of this chapter, or permits and orders issued hereunder, shall be fined in an amount not to exceed one thousand dollars ($1,000.00) per violation. Each day on which noncompliance shall occur or continue shall be deemed a separate and distinct violation. Such assessments may be added to the user's next scheduled sewer service charge and the superintendent shall have such other collection remedies as he has to collect other service charges. Unpaid charges, fines, and penalties shall constitute a lien against the individual user's property. Industrial users desiring to dispute such fines must file a request for the superintendent to reconsider the fine within ten (10) days of being notified of the fine. Where the superintendent believes a request has merit, he shall convene a hearing on the matter with fifteen (15) days of receiving the request from the industrial user.
(7) **Emergency suspensions.** (a) The superintendent may suspend the wastewater treatment service and/or wastewater permit of an industrial user, whenever such suspension is necessary in order to stop an actual or threatened discharge presenting or causing an imminent or substantial endangerment to the health or welfare of persons, the POTW, or the environment.

(b) Any user notified of a suspension of the wastewater treatment service and/or the wastewater permit shall immediately stop or eliminate its contribution. In the event of a user's failure to immediately comply voluntarily with the suspension order, the superintendent shall take such steps as deemed necessary including immediate severance of the sewer connection, to prevent or minimize damage to the POTW, its receiving stream, or endangerment to any individuals. The superintendent shall allow the user to recommence its discharge when the endangerment has passed unless the termination proceedings set forth in § 18-219(8) are initiated against the user.

(c) An industrial user which is responsible, in whole or part, for imminent endangerment shall submit a detailed written statement describing the causes of the harmful contribution and the measures taken to prevent any future occurrence to the superintendent prior to the date of the hearing described in paragraph (b) above.

(8) **Termination of permit.** Significant industrial users proposing to discharge into the POTW, must first obtain a wastewater discharge permit from the control authority. Any user who violates the following conditions of this chapter or a wastewater discharge permit or order, or any applicable or state and federal law, is subject to permit termination:

(a) Violation of permit conditions;

(b) Failure to accurately report the wastewater constituents and characteristics of its discharge;

(c) Failure to report significant changes in operations or wastewater constituents and characteristics;

(d) Refusal of reasonable access to the user's premises for the purpose of inspection, monitoring, or sampling.

Noncompliant industrial users will be notified of the proposed termination of their wastewater permit and be offered an opportunity to show cause under § 18-219(3) why the proposed action should not be taken. (1995 Code, § 18-219)

18-220. **Judicial and supplemental enforcement remedies.** If any person discharges sewage, industrial wastes, or other wastes into the wastewater disposal system contrary to the provisions of this chapter or any order or permit issued hereunder, the superintendent, through the city attorney, may commence an action for appropriate legal and/or equitable relief in the Circuit Court for Carroll County.
(1) **Injunctive relief.** Whenever an industrial user has violated or continues to violate the provisions of this chapter or permit or order issued hereunder, the superintendent, through counsel may petition the court for the issuance of a preliminary or permanent injunction or both (as may be appropriate) which restrains or compels the activities on the part of the industrial user. The superintendent shall have such remedies to collect these fees as it has to collect other sewer service charges.

(2) **Civil penalties.** (a) Any industrial user who has violated or continues to violate this chapter or any order or permit issued hereunder, shall be liable to the superintendent for a civil penalty of not more than one thousand dollars ($1,000.00) plus actual damages incurred by the POTW per violation per day for as long as the violation continues. In addition to the above described penalty and damages, the superintendent may recover reasonable attorney's fees, court costs, and other expenses associated with the enforcement activities, including sampling and monitoring expenses.

(b) The superintendent shall petition the court to impose, assess, and recover such sums. In determining amount of liability, the court shall take into account all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the magnitude and duration, any economic benefit gained through the industrial user's violation, corrective actions by the industrial user, the compliance history of the user, and any other factor as justice requires.

(3) **Criminal prosecution.** (a) Violations - generally. (i) Any industrial user who willfully or negligently violates any provision of this chapter or any orders or permits issued hereunder shall, upon conviction, be guilty of a misdemeanor, punishable by a fine not to exceed ten thousand dollars ($10,000.00) per violation per day or imprisonment for not more than one (1) year or both.

(ii) In the event of a second conviction, the user shall be punishable by a fine not to exceed ten thousand dollars ($10,000.00) per violation per day or imprisonment for not more than three (3) years or both.

(b) Falsifying information. (i) Any industrial user who knowingly makes any false statements, representations, or certifications in any application, record, report, plan or other document filed or required to be maintained pursuant to this chapter, or wastewater permit, or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required under this chapter shall upon conviction, be punished by a fine of not more than ten thousand dollars ($10,000.00) per violation per day or imprisonment for not more than one (1) year or both.
(ii) In the event of a second conviction, the user shall be punishable by a fine not to exceed ten thousand dollars ($10,000.00) per violation per day or imprisonment for not more than three (3) years or both.

(4) **Annual publication of significant violations.** The superintendent shall publish, at least annually in the largest daily newspaper circulated in the service area, a description of those industrial users which are found to be in significant non-compliance as defined in § 18-202 with any provisions of this chapter or any permit or order issued hereunder during the period since the previous publication.

(5) **Performance bonds.** The superintendent may decline to reissue a permit to any industrial user which has failed to comply with the provisions of this chapter or any order or previous permit issued hereunder unless such user first files with a satisfactory bond, payable to the POTW, in a sum not to exceed a value determined by the superintendent to be necessary to achieve consistent compliance.

(6) **Liability insurance.** The superintendent may decline to reissue a permit to any industrial user which has failed to comply with the provisions of this chapter or any order or previous permit issued hereunder, unless the industrial user first submits proof that it has obtained financial assurances sufficient to restore or repair POTW damage caused by its discharge.

(7) **Water supply severance.** Whenever any user has violated or continues to violate the provisions of this chapter or an order or permit issued hereunder, water service to the user may be severed and service will only recommence, at the user's expense, after it has satisfactorily demonstrated its ability to comply.

(8) **Public nuisances.** Any violation of the prohibitions or effluent limitations of this chapter or permit or order issued hereunder is hereby declared a public nuisance and shall be corrected or abated as directed by the superintendent or his designee. Any person(s) creating a public nuisance shall be subject to the provisions of the city code governing such nuisances, including reimbursing the POTW for any costs incurred in removing, abating, or remedying said nuisance.

(9) **Informant rewards.** The superintendent is authorized to pay up to five hundred dollars ($500.00) for information leading to the discovery of noncompliance by an industrial user. In the event that the information provided results in an administrative fine or civil penalty levied against the user, the superintendent is authorized to disperse up to ten percent (10%) of the collected fine or penalty to the informant. However, a single reward payment may not exceed ten thousand dollars ($10,000.00). (1995 Code, § 18-220)

Cross connections: title 18.
18-302. Use of public sewers required. (1) It shall be unlawful for any person to place, deposit, or permit to be deposited in any unsanitary manner on public or private property within the city, or in any area under the jurisdiction of said city, any human or animal excrement, garbage, or other objectionable waste.

(2) It shall be unlawful to discharge to any natural outlet within the city, or in any area under the jurisdiction of said city, any sewage or other polluted waters, except where suitable treatment has been provided in accordance with subsequent provisions of this chapter.
(3) Except as hereinafter provided, it shall be unlawful to construct or maintain any privy, septic tank, or other facility intended or used for the disposal of sewage.

(4) The owner of property when new construction is in progress is hereby required to connect to the City of McKenzie Sanitary Sewer System immediately, provided sewer is available to the property. The owner of existing property shall connect to the City Sanitary Sewer System, if available to the property, when the Carroll County Health Officer properly declares the existing septic system of such property to be a health hazard. (1995 Code, § 18-302)

18-303. Private sewage disposal. (1) Where a public sanitary sewer is not available under the provisions of § 18-302(4), the building sewer shall be connected to a private sewage disposal system complying with the provisions of this section.

(2) Before commencement of construction of a private sewage disposal system, the owner shall first obtain a written permit signed by the superintendent. The owner shall cooperate with the superintendent by furnishing him a construction schedule and any plans and specifications which are deemed necessary.

(3) A permit for a private sewage disposal system shall not become effective until the installation is completed to the satisfaction of the superintendent. He shall be allowed to inspect the work at any stage of construction, and, in any event, the applicant for the permit shall notify the superintendent when the work is ready for final inspection, and before any underground portions are covered.

(4) The type, capacities, location, and layout of a private sewage disposal system shall comply with all recommendations of the Department of Environment and Conservation of the State of Tennessee. No permit shall be issued for any private sewage disposal system employing subsurface soil absorption facilities where the area of the lot is less than that required as determined by the standard percolation tests. No septic tank shall be permitted to discharge to any natural outlet.

(5) At such time as a public sewer becomes available to a property served by a private sewage disposal system, as provided in § 18-302(4), a direct connection shall be made to the public sewer in compliance with this chapter, and any septic tanks and similar private sewage disposal facilities shall be abandoned and filled with suitable material.

(6) The owner shall operate and maintain the private sewage disposal facilities in a sanitary manner at all times, at no expense to the city.

(7) No statement contained in this chapter shall be construed to interfere with any additional requirements that may be imposed by the health officer.

(8) When a public sewer becomes available, the building sewer shall be connected to said sewer within sixty (60) days and the private sewage
disposal system shall be cleaned of sludge and filled with clean bank-run gravel or dirt. (1995 Code, § 18-303, modified)

18-304. **Building sewers and connections.** (1) No unauthorized person shall uncover, make any connections with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the superintendent.

(2) There shall be two (2) classes of building sewer permits:
   (a) For residential and commercial service; and
   (b) For service to establishments producing industrial wastes. In either case, the owner or his agent shall make written application to the city. The permit application shall be supplemented by any plans, specifications, or other information considered pertinent in the judgment of the superintendent.

(3) All costs and expenses incident to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify the city from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

   The property owner shall be responsible for the maintenance of the sewer line from the main line of the sewer to the structure.

(4) A separate and independent building sewer shall be provided for every building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway, the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.

(5) Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the superintendent, to meet all requirements of this chapter.

(6) The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing, and backfilling the trench, shall all conform to the requirements of the building and plumbing codes or other applicable rules and regulations of the city. In the absence of code provisions or in amplification thereof, the materials and procedures set forth in appropriate specifications of the ASTM and WPCF Manual of Practice No. 9 shall apply.

(7) Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, the sanitary sewage carried by such building drain shall be lifted by an approved means and discharged to the building sewer.

(8) No person shall make connections of roof downspouts, exterior foundation drains, areaway drains, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.
(9) The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing codes or other applicable rules and regulations of the city, or the procedures set forth in appropriate specifications of the ASTM and the WPCF Manual of Practice No. 9. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the superintendent before installation.

(10) The applicant for the building sewer permit shall notify the superintendent when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the superintendent or his representative.

(11) All excavations for building sewer installations shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the city. (1995 Code, § 18-304)

18-305. Use of the public sewers. (1) No person shall discharge or cause to be discharged any stormwater, surface water, ground water, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.

(2) Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as storm sewers, or to a natural outlet approved by the superintendent. Industrial cooling water or unpolluted process waters may be discharged, on approval of the superintendent, to a storm sewer or natural outlet.

(3) No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:
   (a) Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
   (b) Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) mg/l as CN in the wastes as discharged to the public sewer.
   (c) Any waters or wastes having a pH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment, or personnel of the sewage works.
   (d) Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers,
tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

(4) No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, or public property, or constitute a nuisance. In forming his opinion as to the acceptability of these wastes, the superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances prohibited are:

(a) Any liquid or vapor having a temperature higher than one hundred fifty degrees (150°F) (sixty-five degrees (65°C)) C.

(b) Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two degrees (32°F) and one hundred fifty degrees (150°F) F (zero degrees (0°C) and sixty-five degrees (65°C)).

(c) Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of three-fourths (3/4) horsepower or greater shall be subject to the review and approval of the superintendent.

(d) Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solutions whether neutralized or not.

(e) Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such a degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the superintendent for such materials.

(f) Any waters or wastes containing phenols or other taste-or odor-producing substances, in such concentrations exceeding limits which may be established by the superintendent as necessary, after treatment of the composite sewage, to meet the requirements of the state, federal, or other public agencies of jurisdiction for such discharges to the receiving waters.

(g) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the superintendent in compliance with applicable state or federal regulations.

(h) Any waters or wastes having a pH in excess of 9.5.

(i) Materials which exert or cause:
(i) Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

(ii) Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).

(iii) Unusual BOD, chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.

(iv) Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.

(j) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

(5) If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in subsection (4) of this section and which in the judgment of the superintendent, may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the superintendent may:

(a) Reject the wastes;

(b) Require pretreatment to an acceptable condition for discharge to the public sewers;

(c) Require control over the quantities and rates of discharge; and/or

(d) Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of § 18-215.

If the superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the superintendent, and subject to the review of all applicable reviewing authorities.

(6) Grease, oil, and sand interceptors shall be provided when, in the opinion of the superintendent, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall be of a type and capacity approved by the superintendent and shall be located as to be readily and easily accessible for cleaning and inspection.

(7) Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.
(8) When required by the superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located and shall be constructed in accordance with plans approved by the superintendent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

(9) All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of Standard Methods for the Examination of Water and Wastewater, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the downstream manhole in the public sewer nearest to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from twenty-four (24) hour composites of all outfalls whereas pHs are determined from periodic grab samples.)

(10) No statement contained in this section shall be construed as preventing any special agreement or arrangement between the city and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the city for treatment, subject to payment therefore, by the industrial concern. (1995 Code, § 18-305)

18-306. Protection from damage. No unauthorized person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct. (1995 Code, § 18-306)

18-401. Definitions. The following definitions and terms shall apply in the interpretation and enforcement of this chapter:

(1) "Auxiliary intake." Any piping connection or other device whereby water may be secured from a source other than that normally used.

(2) "Bypass." Any system of piping or other arrangement whereby the water may be diverted around any part or portion of a water purification plant.

(3) "Cross connection." Any physical connection whereby the public water supply is connected with any other water supply system, whether supply system, whether public or private, either inside or outside of any building or buildings, in such manner that a flow of water into the public water supply is possible either through the manipulation of valves or because of any other arrangement.

(4) "Interconnection." Any system of piping or other arrangement whereby the public water supply is connected directly with a sewer, drain, conduit, pool, storage reservoir, or other device which does or may contain sewage or other waste or liquid which would be capable of imparting contamination to the public water supply.

(5) "Person." Any and all persons, natural or artificial, including any individual, firm, or association, and any municipal or private corporation organized or existing under the laws of this or any other state or country.

(6) "Public water supply." The waterworks system furnishing water to the municipality for general use and which supply is recognized as the public water supply by the Tennessee Department of Health. (1995 Code, § 18-401)

¹Municipal code references
Water and sewer system administration: title 18.
Wastewater treatment: title 18.
18-402. **Standards.** The municipal public water supply is to comply with Tennessee Code Annotated, §§ 68-221-701 through 68-221-720 as well as the rules and regulations for public water supplies, legally adopted in accordance with this code, which pertain to cross connections, auxiliary intakes, bypasses, and interconnections, and establish an effective ongoing program to control these undesirable water uses. (1995 Code, § 18-402)

18-403. **Construction, operation, and supervision.** It shall be unlawful for any person to cause a cross connection to be made, or allow one to exist for any purpose whatsoever, unless the construction and operation of same have been approved by the Tennessee Department of Environment and Conservation and the operation of such cross connection, auxiliary intake, bypass or interconnection is at all times under the direct supervision of the waterworks of the McKenzie Water Department. (1995 Code, § 18-403, modified)

18-404. **Statement required.** Any person whose premises are supplied with water from the public water supply and who also has on the same premises a separate source of water supply, or stores water in an uncovered or unsanitary storage reservoir from which the water stored therein is circulated through a piping system, shall file with the superintendent of the McKenzie Water Department a statement of the non-existence of unapproved or unauthorized cross connections, auxiliary intakes, bypasses, or interconnections. Such statement shall also contain an agreement that no cross connection, auxiliary intake, bypass, or interconnection will be permitted upon the premises. (1995 Code, § 18-404)

18-405. **Inspections required.** It shall be the duty of the McKenzie Water Department of the waterworks to cause inspections to be made of all properties served by the public water supply where cross connections with the public water supply are deemed possible. The frequency of inspections and reinspection, based on potential health hazards involved, shall be established by the superintendent of the waterworks and as approved by the Tennessee Department of Environment and Conservation. (1995 Code, § 18-405, modified)

18-406. **Right of entry for inspections.** The superintendent of waterworks or his authorized representative shall have the right to enter, at any reasonable time, any property served by a connection to the public water supply for the purpose of inspecting the piping system or systems therein for cross connections, auxiliary intakes, bypasses, or interconnections. On request, the owner, lessee, or occupant of any property so served shall furnish to the inspection agency any pertinent information regarding the piping system or systems on such property. The refusal of such information or refusal of access,
when requested, shall be deemed evidence of the presence of cross connections. 
(1995 Code, § 18-406)

18-407. **Correction of existing violations.** Any person who now has 
cross connections, auxiliary intakes, bypasses, or interconnections in violation 
of the provisions of this chapter shall be allowed a reasonable time within which 
to comply with the provisions of this chapter. After a thorough investigation of 
extisting conditions and an appraisal of the time required to complete the work, 
the amount of time shall be designated by the superintendent of the 
waterworks. 

The failure to correct conditions threatening the safety of the public water 
system as prohibited by this chapter and the Tennessee Code Annotated, 
§ 68-221-711, within a reasonable time and within the time limits set by the 
superintendent of the waterworks shall be grounds for denial of water service. 
If proper protection has not been provided after a reasonable time, the utility 
shall give the customer legal notification that water service is to be discontinued 
and shall physically separate the public water supply from the customer's 
on-site piping system in such a manner that the two systems cannot again be 
connected by an unauthorized person. 

Where cross connections, interconnections, auxiliary intakes, or bypasses 
are found that constitute an extreme hazard of immediate concern of 
contaminating the public water system, the management of the water supply 
shall require that immediate corrective action be taken to eliminate the threat 
to the public water system. Immediate steps shall be taken to disconnect the 
public water supply from the on-site piping system unless the imminent 
hazard(s) is (are) corrected immediately. (1995 Code, § 18-407)

18-408. **Use of protective devices.** Where the nature of use of the 
water supplied a premises by the water department is such that it is deemed: 

(1) Impractical to provide an effective air-gap separation.

(2) That the owner and/or occupant of the premises cannot, or is not 
    willing, to demonstrate to the official in charge of the water supply, or his 
    designated representative, that the water use and protective features of the 
    plumbing are such as to propose no threat to the safety or potability of the water 
    supply.

(3) That the nature and mode of operation within a premises are such 
    that frequent alterations are made to the plumbing.

(4) There is a likelihood that protective measures may be subverted, 
    altered, or disconnected, the superintendent of the McKenzie Water Department 
    or his designated representative, shall require the use of an approved protective 
    device on the service line serving the premises to assure that any contamination 
    that may originate in the customer's premises is contained therein. The 
    protective device shall be a reduced pressure zone type backflow preventer 
    approved by the Tennessee Department of Health as to manufacture, model, and
size. The method of installation of backflow protective devices shall be approved by the superintendent of the waterworks prior to installation and shall comply with the criteria set forth by the Tennessee Department of Environment and Conservation. The installation shall be at the expense of the owner or occupant of the premises.

Personnel of the municipal public water supply shall have the right to inspect and test the device or devices on an annual basis or whenever deemed necessary by the superintendent of the waterworks or his designated representative. Water service shall not be disrupted to test the device without the knowledge of the occupant of the premises.

Where the use of water is critical to the continuance of normal operations or protection of life, property, or equipment, duplicate units shall be provided to avoid the necessity of discontinuing water service to test or repair the protective device or devices. Where it is found that only one (1) unit has been installed and the continuance of service is critical, the water department shall notify, in writing, the occupant of the premises of plans to discontinue water service and arrange for a mutually acceptable time to test and/or repair the device. The superintendent shall require the occupant of the premises to make all repairs indicated promptly, to keep the unit(s) working properly, and the expense of such repairs shall be borne by the owner or occupant of the premises. Repairs shall be made by qualified personnel acceptable to the superintendent of the McKenzie Water Department.

The failure to maintain backflow prevention devices in proper working order shall be grounds for discontinuing water service to a premises. Likewise, the removal, bypassing, or altering of the protective devices or the installation thereof so as to render the devices ineffective shall constitute grounds for discontinuance of water service. Water service to such premises shall not be restored until the customer has corrected or eliminated such conditions or defects to the satisfaction of the superintendent of the water department. (1995 Code, § 18-408)

18-409. **Unpotable water to be labeled.** In order that the potable water supply made available to premises served by the public water supply shall be protected from possible contamination as specified herein, any water outlet which could be used for potable or domestic purposes and which is not supplied by the potable system must be labeled in a conspicuous manner as:

WATER UNSAFE

FOR DRINKING

The minimum acceptable sign shall have black letters at least one inch (1") high located on a red background. (1995 Code, § 18-409)
18-410. **Violations.** The requirements contained herein shall apply to all premises served by the municipal water system whether located inside or outside the corporate limits and are hereby made a part of the conditions required to be met for the municipality to provide water services to any premises. Such action, being essential for the protection of the water distribution system against the entrance of contamination which may render the water unsafe healthwise, or otherwise undesirable, shall be enforced rigidly without regard to location of the premises, whether inside or outside the corporate limits.

Any person who neglects or refuses to comply with any of the provisions of this chapter shall be deemed guilty of a misdemeanor and, upon conviction therefor, shall be fined under the general penalty clause for this municipal code of ordinances. (1995 Code, § 18-410)

If the mayor decides to resolve the complaints, he shall proceed to try to eliminate or correct the alleged discriminatory housing practice by information methods of conference, conciliation, and persuasion. respondent named in the complaint, to enforce the rights granted or protected

the court finds that a discriminatory housing practice has occurred or is about
to occur, the court may enjoin the respondent from engaging in such practice or
order such affirmative action as may be appropriate.

(5) In any proceeding brought pursuant to this section, the burden of
proof shall be on the complaint.

mayor shall immediately terminate all efforts to obtain voluntary compliance.
(1995 Code, § 20-510)

20-211. Investigations; subpoenas; giving of evidence. (1) In
conducting an investigation, the mayor shall have access at all reasonable times
to premises, records, documents, individuals, and other evidence or possible

unreasonable searches and seizures. The mayor may issue subpoenas to compel
his access to or the production of such materials, or the appearance of such
persons, and may issue interrogatories to a respondent, to the same extent and

district court of the district in which the investigation is taking place. The
mayor may administer oaths.

(2) Upon written application to the mayor, a respondent shall be
entitled to the issuance of a reasonable number of subpoenas by and in the name

respondent shall show on their face the name and address of such respondent
and shall state that they were issued at his request.

(3) Witnesses summoned by subpoena of the mayor shall be entitled
to the same witness and mileage fees as are witnesses in proceedings in United
States district courts. Fees payable to the witness summoned by a subpoena
issued at the request of a respondent shall be paid by them.

(4) Within five (5) days after service of a subpoena upon any person,
such person may petition the mayor to revoke or modify the subpoena. The
mayor shall grant the petition if he finds that the subpoena requires appearance
or attendance at an unreasonable time or place, that it requires production of
evidence which does not relate to any matter under investigation, that it does
not describe with sufficient particularity the evidence to be produced, that
compliance would be unduly onerous, or for other good reason.

(5) In case of contumacy or refusal to obey a subpoena, the mayor or

the municipal or state court for the district in which the person to whom the

imprisoned not more than one (1) year, or both. Any person who, with intent
thereby to mislead the mayor, shall make or cause to be made any false entry
or statement of fact in any report, account, record, or other document submitted
to the mayor pursuant to his subpoena or other order, or shall willfully neglect
or fail to make or cause to be made full, true, and correct entries in such reports,
accounts, records, or other documents, or shall willfully mutilate, alter, or by
any other means falsify any documentary evidence, shall be fined not more than
one thousand dollars ($1,000.00) or imprisoned not more than one (1) year, or

this chapter. (1995 Code, § 20-511)

20-212. Enforcement by private persons. (1) The rights granted by
§§ 20-203, 20-204, 20-205, and 20-206 may be enforced by civil actions in state
or local courts or general jurisdiction. A civil action shall be commenced within
one hundred and eighty (180) days after the alleged discriminatory housing
practice occurred: Provided, however, that the court shall continue such civil
case brought to this section or § 20-210(4) from time to time before bringing it
to trial or renting dwellings; or

(2) Any person because he is or has been, or in order to intimidate such
person or any other person or any class of persons from:

(a) Participating, without discrimination on account of race, color, religion, sex, national origin, familial status or disability, in any of
the activities, services, organizations or facilities; or

(b) Affording another person or class of persons opportunity or
protection so to participate, or

(3) Any citizen because he is or has been, or in order to discourage such
citizen or any other citizen from lawfully aiding or encouraging other persons

years or for life. (1995 Code, § 20-512)
CHAPTER 3

PARKS AND RECREATION CODE OF CONDUCT

SECTION

20-301. Code of conduct.

20-301. Code of conduct. Any individual or individuals causing disturbance or inappropriate conduct at a city of McKenzie event or grounds under the jurisdiction of the parks and recreation department will be asked to leave the venue immediately by authorized individual(s). Local authorities will be called if offender(s) do not comply. The alleged offender(s) will not be allowed back at any McKenzie City Parks and Recreation venue/event for a minimum of seven (7) days from the time of the incident, after reviewed at called parks and recreation advisory board meeting, if alleged offender(s) were deemed to have been in violation of the city's conduct policy. At the called meeting, the alleged offender(s) may be present, as well as any witnesses that were involved or give testimony in the matter. After hearing from any/all parties involved, the parks and recreation advisory board will vote on the specific incident and rule in favor of or against the seven (7) day suspension.

(2) A second conduct infraction of individual(s) at any City of McKenzie Parks and Recreation venue/event will warrant a one (1) year suspension within a calendar year, if deemed in violation of the city conduct policy and voted on by the McKenzie Parks and Recreation Advisory Board Members at the next specially called meeting, including alleged offender(s) and any witnesses involved giving testimony in the matter. These advisory board conduct meetings should be called by parks and recreation advisory board chairman, or designee, at the quickest available date after incidents occur.

(3) Any individual(s) involved in physically threatening, abusive, or potentially harmful behavior at the City of McKenzie event or property under the jurisdiction of the city parks and recreation department (including unusual disturbance), will be asked to leave the property or venue immediately by authorized individual(s). Local authorities will be called if the offender(s) do not comply. The alleged offender(s) will not be allowed back at any McKenzie City Parks and Recreation venue/event for one (1) calendar year from the time of incident, after reviewed at called parks and recreation advisory board meeting. The alleged offender(s) may be present at the called meeting, as well as any witnesses that were present or involved that give testimony in the matter. After hearing from any/all parties involved, the parks and recreation advisory board will vote on the specific incident and rule in favor of or against the one (1) year ban or suspension. Any individual(s) banned or suspended for a one (1) year period may not enter the property or grounds or be involved in any parks and recreation sporting leagues or events under the city's jurisdiction for the following calendar year, unless voted on and approved by the McKenzie City and
Parks Recreation Advisory Board. Any one (1) year ban of any individual(s) by the parks and recreation advisory board will leave the board members with options to suspend or ban any individual from being involved with or being present at McKenzie Parks and Recreation events for multiple calendar years, depending upon the nature of the suspension. This means any individual(s) could have suspensions from the parks and recreation grounds and facilities for multiple years, to be addressed by the board at the time the suspension period ends.

(4) Authorized individual(s) qualified to take immediate action in asking alleged offenders to leave McKenzie Parks and Recreation Grounds would include, but not limited to; umpires, referees, officials, city league officers, McKenzie Parks and Recreation staff. Local law authorities will be called immediately if alleged conduct offenders do not comply. Any alleged offender(s) that do not leave the McKenzie City Parks and Recreation property or events, after asked to do so by qualified persons regarding the conduct policy, will be banned for one (1) calendar year from the time of incident. After the McKenzie City Parks and Recreation and Advisory Board Members vote on the specific incident involving alleged offender(s) not complying with this request to leave property, Local authorities are to be contacted and the advisory board members have the option to ban or suspend offender(s) for the following calendar year as well.

(5) Any and all bans voted on by the McKenzie Parks and Recreation Advisory Board will result in the City of McKenzie Parks and Recreation Director sending ban letters to suspended individual(s). These ban letters are also shared with the McKenzie Police Department.

(6) Any individual McKenzie City Leagues will have the authority to extend the length of suspension based upon their by-laws, but may not lessen duration of the suspension. Any banned or suspended individual(s) recommended by the city parks and recreation advisory board will leave the final decision to the parks and recreation director.

(7) No person shall in any manner use any of the playground apparatus or devices for other than their intended purpose or misuse any playground apparatus, which is by size and shape meant exclusively for the use of children. It is unlawful for any person over age twelve (12), and anyone over five feet (5') in height to use any public playground equipment within the city, unless it is specifically designed as adult fitness equipment.

(8) Blatant disregard posted signs within the park concerning "No Dogs Allowed" and "No Smoking" within one hundred feet (100') of the ballfields can result in the police escorting patrons from the park and issuing a citation.

(9) State law will mandate on the "glove compartment rule" of guns on public property. (as added by Ord. #510, July 2017 Ch1_02-11-21, and amended by Ord. #528, June 2019 Ch1_02-11-21)
ORDINANCE 456

AN ORDINANCE ADOPTING AND ENACTING A CODIFICATION
AND REVISION OF THE ORDINANCES OF THE CITY OF  MCKENZIE,
TENNESSEE

WHEREAS some of the ordinances of the City of McKenzie are obsolete, and

WHEREAS some of the other ordinances of the city are inconsistent with each other or are otherwise inadequate, and

WHEREAS the Board of Mayor and Councilmen of the City of McKenzie, Tennessee, has caused its ordinances of a general, continuing, and permanent application or of a penal nature to be codified and revised and the same are embodied in a code of ordinances known as the "McKenzie Municipal Code," now, therefore:

BE IT ORDAINED BY THE BOARD OF MAYOR AND COUNCILMEN OF THE CITY OF MCKENZIE, TENNESSEE, THAT:

Section 1. Ordinances codified. The ordinances of the city of a general, continuing, and permanent application or of a penal nature, as codified and revised in the following "titles," namely "titles" 1 to 20, both inclusive, are ordained and adopted as the "McKenzie Municipal Code," hereinafter referred to as the "municipal code."

Section 2. Ordinances repealed. All ordinances of a general, continuing, and permanent application or of a penal nature not contained in the municipal code are hereby repealed from and after the effective date of said code, except as hereinafter provided in Section 3 below.

Section 3. Ordinances saved from repeal. The repeal provided for in Section 2 of this ordinance shall not affect: Any offense or act committed or done, or any penalty or forfeiture incurred, or any contract or right established or accruing before the effective date of the municipal code; any ordinance or resolution providing for the levy of taxes or any budget ordinance; any contract or obligation assumed by or in favor of said city; any ordinance establishing a social security system or providing coverage under that system; any administrative ordinances or resolutions not in conflict or inconsistent with the provisions of such code; the portion of any
ordinance not in conflict with such code which regulates speed, direction of travel, passing, stopping, yielding, standing, or parking on any specifically named public street or way; any right or franchise granted by the city; any ordinance dedicating, naming, establishing, locating, relocating, opening, paving, widening, vacating, etc., any street or public way; any ordinance establishing and prescribing the grade of any street; any ordinance providing for local improvements and special assessments therefor; any ordinance dedicating or accepting any plat or subdivision; any prosecution, suit, or other proceeding pending or any judgment rendered on or prior to the effective date of said code; any zoning ordinance or amendment thereto or amendment to the zoning map; nor shall such repeal affect any ordinance annexing territory to the city.

Section 4. Continuation of existing provisions. Insofar as the provisions of the municipal code are the same as those of ordinances existing and in force on its effective date, said provisions shall be considered to be continuations thereof and not as new enactments.

Section 5. Penalty clause. Unless otherwise specified in a title, chapter or section of the municipal code, including the codes and ordinances adopted by reference, whenever in the municipal code any act is prohibited or is made or declared to be a civil offense, or whenever in the municipal code the doing of any act is required or the failure to do any act is declared to be a civil offense, the violation of any such provision of the municipal code shall be punished by a civil penalty of not more than fifty dollars ($50.00) and costs for each separate violation; provided, however, that the imposition of a civil penalty under the provisions of this municipal code shall not prevent the revocation of any permit or license or the taking of other punitive or remedial action where called for or permitted under the provisions of the municipal code or other applicable law. In any place in the municipal code the term "it shall be a misdemeanor" or "it shall be an offense" or "it shall be unlawful" or similar terms appears in the context of a penalty provision of this municipal code, it shall mean "it shall be a civil offense." Anytime the word "fine" or similar term appears in the context of a penalty provision of this municipal code, it shall mean "a civil penalty."1

Each day any violation of the municipal code continues shall constitute a separate civil offense.

Section 6. Severability clause. Each section, subsection, paragraph, sentence, and clause of the municipal code, including the codes and ordinances

1State law reference

adopted by reference, is hereby declared to be separable and severable. The无效性 of any section, subsection, paragraph, sentence, or clause in the municipal code shall not affect the validity of any other portion of said code, and only any portion declared to be invalid by a court of competent jurisdiction shall be deleted therefrom.

Section 7. Reproduction and amendment of code. The municipal code shall be reproduced in loose-leaf form. The board of mayor and councilmen, by motion or resolution, shall fix, and change from time to time as considered necessary, the prices to be charged for copies of the municipal code and revisions thereto. After adoption of the municipal code, each ordinance affecting the code shall be adopted as amending, adding, or deleting, by numbers, specific chapters or sections of said code. Periodically thereafter all affected pages of the municipal code shall be revised to reflect such amended, added, or deleted material and shall be distributed to city officers and employees having copies of said code and to other persons who have requested and paid for current revisions. Notes shall be inserted at the end of amended or new sections, referring to the numbers of ordinances making the amendments or adding the new provisions, and such references shall be cumulative if a section is amended more than once in order that the current copy of the municipal code will contain references to all ordinances responsible for current provisions. One copy of the municipal code as originally adopted and one copy of each amending ordinance thereafter adopted shall be furnished to the Municipal Technical Advisory Service immediately upon final passage and adoption.

Section 8. Construction of conflicting provisions. Where any provision of the municipal code is in conflict with any other provision in said code, the provision which establishes the higher standard for the promotion and protection of the public health, safety, and welfare shall prevail.

Section 9. Code available for public use. A copy of the municipal code shall be kept available in the recorder's office for public use and inspection at all reasonable times.

Section 10. Date of effect. This ordinance shall take effect from and after its final passage, the public welfare requiring it, and the municipal code, including all the codes and ordinances therein adopted by reference, shall be effective on and after that date.
