PREFACE

The Rockwood Municipal Code contains the codification and revision of the ordinances of the City of Rockwood, Tennessee. By referring to the historical citation appearing at the end of each section, the user can determine the origin of each particular section. The absence of a historical citation means that the section was added by the codifier. The word "modified" in the historical citation indicates significant modification of the original ordinance.

The code is arranged into titles, chapters, and sections. Related matter is kept together, so far as possible, within the same title. Each section number is complete within itself, containing the title number, the chapter number, and the section of the chapter of which it is a part. Specifically, the first digit, followed by a hyphen, identifies the title number. The second digit identifies the chapter number, and the last two digits identify the section number. For example, title 2, chapter 1, section 6, is designated as section 2-106.

By utilizing the table of contents and the analysis preceding each title and chapter of the code, together with the cross references and explanations included as footnotes, the user should locate all the provisions in the code relating to any question that might arise. However, the user should note that most of the administrative ordinances (e.g. Annual Budget, Zoning Map Amendments, Tax Assessments, etc...) do not appear in the code. Likewise, ordinances that have been passed since the last update of the code do not appear here. Therefore, the user should refer to the city's ordinance book or the city recorder for a comprehensive and up to date review of the city's ordinances.

Following this preface is an outline of the ordinance adoption procedures, if any, prescribed by the city's charter.

The code has been arranged and prepared in loose-leaf form to facilitate keeping it up to date. MTAS will provide updating service under the following conditions:

1. That all ordinances relating to subjects treated in the code or which should be added to the code are adopted as amending, adding, or deleting specific chapters or sections of the code (see section 8 of the adopting ordinance).
2. That one copy of every ordinance adopted by the city is kept in a separate ordinance book and forwarded to MTAS annually.
3. That the city agrees to pay the annual update fee as provided in the MTAS codification service charges policy in effect at the time of the update.

When the foregoing conditions are met MTAS will reproduce replacement pages for the code to reflect the amendments and additions made by such ordinances. This service will be performed at least annually and more often if
justified by the volume of amendments. Replacement pages will be supplied with detailed instructions for utilizing them so as again to make the code complete and up to date.

The able assistance of Sandy Selvage, the MTAS Sr. Word Processing Specialist who did all the typing on this project, and Tracy G. Gardner, Administrative Services Assistant, is gratefully acknowledged.

Codification Consultant
Section 2. Ordinance Adoption. Except as otherwise provided, ordinances shall be passed in the following manner. Every proposed ordinance shall be in writing. After adoption of a code of ordinances, each ordinance of a general and permanent nature shall be adopted, as far as practicable, as amending or adding a numbered section of the code. Any ordinance which amends an existing ordinance or part of the city code shall set out in full the ordinance, sections or sub-sections amended. Each ordinance shall be read and passed at two separate meetings, which may be regular or special, but which shall be at least ten days apart. After passage, each ordinance shall be authenticated by the Mayor and Recorder or by two Councilmen, and placed in a binder. The body of ordinances may be omitted from the minutes of the Council, but reference therein shall be made to the ordinance by number and subject matter.

In addition, the official or employee may, to the extent allowed by law, charter, ordinance, or

1Masculine pronouns include the feminine. Only masculine pronouns have been used for convenience and readability.
1-405. Acceptance of gratuities, etc. An official or employee may not accept, directly or indirectly, any money, gift, gratuity, or other consideration or favor of any kind from anyone other than the City of Rockwood:

(1) For the performance of an act, or refraining from performance of an act, that he would be expected to perform, or refrain from performing, in the regular course of his duties; or

(2) That might reasonably be interpreted as an attempt to influence his action, or reward him for past action, in executing municipal business. (as added by Ord. #07-1101, May 2007)

1-406. Use of information. (1) An official or employee may not disclose any information obtained in his official capacity or position of employment that is made confidential under state or federal law except as authorized by law.

(2) An official or employee may not use or disclose information obtained in his official capacity or position of employment with the intent to result in financial gain for himself or any other person or entity. (as added by Ord. #07-1101, May 2007)

1-407. Use of municipal time, facilities, etc. (1) An official or employee may not use or authorize the use of municipal time, facilities, equipment, or supplies for private gain or advantage to himself.

(2) An official or employee may not use or authorize the use of municipal time, facilities, equipment, or supplies for private gain or advantage to any private person or entity, except as authorized by legitimate contract or lease that is determined by the governing body to be in the best interests of the City of Rockwood. (as added by Ord. #07-1101, May 2007)

1-408. Use of position or authority. (1) An official or employee may not make or attempt to make private purchases, for cash or otherwise, in the name of the City of Rockwood.

1-409. Outside employment. An official or employee may not accept or continue any outside employment if the work unreasonably inhibits the performance of any affirmative duty of the municipal position or conflicts with any provision of the City of Rockwood's charter or any ordinance or policy. (as added by Ord. #07-1101, May 2007)

1-410. Ethics complaints. (1) The city attorney is designated as the ethics officer of the City of Rockwood. Upon the written request of an official or
employee potentially affected by a provision of this chapter, the city attorney may render an oral or written advisory ethics opinion based upon this chapter and other applicable law.

(2) (a) Except as otherwise provided in this subsection, the city attorney shall investigate any credible complaint against an appointed official or employee charging any violation of this chapter, or may undertake an investigation on his own initiative when he acquires information indicating a possible violation, and make recommendations for action to end or seek retribution for any activity that, in the attorney’s judgment, constitutes a violation of this code of ethics.

(b) The city attorney may request the governing body to hire another attorney, individual, or entity to act as ethics officer when he has or will have a conflict of interests in a particular matter.

(c) When a complaint of a violation of any provision of this chapter is lodged against a member of the City of Rockwood's governing body, the governing body shall either determine that the complaint has merit, determine that the complaint does not have merit, or determine that the complaint has sufficient merit to warrant further investigation. If the governing body determines that a complaint warrants further investigation, it shall authorize an investigation by the city attorney or another individual or entity chosen by the governing body.

(3) The interpretation that a reasonable person in the circumstances would apply shall be used in interpreting and enforcing this code of ethics.

(4) When a violation of this code of ethics also constitutes a violation of a personnel policy, rule, or regulation or a civil service policy, rule, or regulation, the violation shall be dealt with as a violation of the personnel or civil service provisions rather than as a violation of this code of ethics. (as added by Ord. #07-1101, May 2007)

1-411. Violations. An elected official or appointed member of a separate municipal board, commission, committee, authority, corporation, or other instrumentality who violates any provision of this chapter is subject to punishment as provided by the City of Rockwood's charter or other applicable law, and in addition is subject to censure by the governing body. An appointed official or an employee who violates any provision of this chapter is subject to disciplinary action. (as added by Ord. #07-1101, May 2007)

Subject to the other standards set forth in this chapter, the department heads shall meet with the board as soon after the enactment of this chapter as may be possible and shall give assistance to the board in drawing up minimum standards of mental ability, physical conditions, experience, education, personality, and specified training for each job classification in their respective departments. Such standards, when set, shall remain in effect until altered by action of the board. After the enunciation of said standards, a roster shall be kept by the board of all full time personnel in the classified service indicating what job classifications within their respective departments such personnel are eligible to fill. A roster shall also be kept on all applicants to become members of the classified service with appropriate indication of what job classifications such applicants are eligible to fill.

After the enunciation of said standards, no vacancy shall be filled except by a person on the roster of persons having the requisite qualifications to fill such vacancy.

If any vacancy shall occur within any branch of the classified service, the vacancy shall be offered first to that member of the said branch qualified on the roster who shall have the greatest seniority and so on in descending order. No person shall be reinstated in, or transferred, suspended or discharged from any place, position or employment in the classified service contrary to the provisions of this chapter. (Ord. #1008, March 1997)

4-504. Functions and duties of the board; officers of the board; and meetings of the board. The board shall organize by forthwith electing one of its members as chairman and shall hold regular meetings at least once a month, and such additional meetings as may be required for the proper discharge of its duties.

The board shall appoint a secretary who shall keep its records, preserve all reports made to it, superintend and keep a record of all examinations and perform such other duties as the board may prescribe.

It shall be the duty of the board:

(1) To make suitable rules and regulations not inconsistent with the provisions of this chapter. Such rules and regulations shall provide in detail the manner in which examinations may be held and appointments, promotions, transfers, demotions, reinstatements, suspensions and discharges shall be made, and may also provide for any other matters connected with the general subject of personnel administration; such rules and regulations shall include the methods used in determining the standard for each job classification in the classified service. These rules and regulations may be changed from time to time by the board and shall be printed or reproduced for free public distribution.

(2) The rules and regulations shall include provisions so that seniority may not be lost by any person holding a position in the classified service if such person leaves the classified service to enter the military service of the United States, provided that such person returns to the classified service within six
months following his honorable discharge from such service. In such cases the period of military service shall be included in the period of seniority of such person.

(3) The board shall make investigations and report upon all matters touching the enforcement and effect of the provisions of this chapter, and the rules and regulations prescribed hereunder, inspect all institutions and employment affected by this chapter, and ascertain whether the ordinance and all such rules and regulations are being obeyed. Such investigations shall be made by the board on its own motion and must also be made on petition of any citizen duly verified stating that irregularities or abuses exist, or setting forth in writing the necessity for such investigation. In the course of such investigation, the board shall have the power to administer oaths, subpoena and require the attendance of witnesses, and require the production of books, papers, documents and accounts appertaining to the investigation. The failure upon the part of any person to comply with such subpoena or demand shall be a violation of this chapter and punishable as such. The board shall have the authority to refer any complaint, before or after investigation, to the department head for solution.

(4) All hearings and investigations before the board shall be governed by this chapter and by the rules of practice and procedure to be adopted by the board. The board, or its designated hearing officer, shall not be bound by technical rules of evidence. No formality in any procedure or hearing shall invalidate any order, decision, rule or regulation made or approved by the board; provided, however, that no decision shall be binding unless concurred in by at least three of the board members.

(5) To hear and determine appeals or complaints relative to the allocation of positions, the determination of job changes, the furnishings of rosters and the position of members of the classified service, and of applicants on such rosters, and such other matters relating to the administration of this chapter as may be referred to the board.

(6) To prepare a standard schedule of pay and of hours based generally upon presently applicable salary rates and hours worked for each class of positions in the classified service. Such pay plan shall include a minimum and maximum and such intermediate rates as may be deemed desirable for each class of position. In increasing or decreasing items in budgets, the governing body of the City of Rockwood shall not increase or decrease any individual salary item, but shall act solely with respect to classes of positions as established in the classification and pay plan. In no event shall the said governing body reduce the salary of a class below the minimum or raise it above the maximum salary established by the pay plan except by amendment of the same. Provided, that nothing in this chapter shall limit the hours to be worked in event of riot, dangerous fire or other bona fide emergency.

(7) To see that the job classification, the standard for filling said classifications and the roster of eligible appointees for each classification are
kept continuously up to date, and posted in the respective departments of the
classified service. Said rosters shall show name, rank and number in their
proper order by reason of seniority established by continuous service in the
respective departments. Terms of leaves of absence granted by the board hereby
created upon recommendation of the head of each department shall not forfeit
the rights of the member granted leave under this chapter nor be charged
against such member in his order of seniority.

(8) To make provisions that men laid off because of curtailment of
expenditures, reduction in force, and for like causes, shall be the last person, or
persons, including probationers, that have been appointed to the respective
department of the classified service. Rules and regulations shall provide that
persons so laid off shall be reinstated before any new appointments to said
department shall be made.

(9) To keep the appointing authority notified of the person highest on
each eligible list for appointment to each vacancy that may occur.

(10) To keep such records as may be necessary for the proper
administration of this chapter. (Ord. #1008, March 1997)

4-505. Induction of incumbents into civil service. All persons
holding positions in the classified service, upon the effective date of this chapter,
who shall have served in such position for a period of at least ninety days
previous thereto, are hereby inducted into civil service in the office, position or
employment which such persons respectively held at the time of the enactment
of this chapter, subject, however, to removal, demotion, or suspension upon the
same terms as any other person inducted permanently into civil service
following the effective date of this chapter. (Ord. #1008, March 1997)

4-506. Qualification of applicants. (1) Citizenship. An applicant for
a civil service position of any kind under the classified service must be a citizen
of the United States, who can read and write the English language.

(2) Character and fitness. Every applicant for a position in the
classified service must, in addition to such minimum standards as are stated by
the board, also be of ordinary good health, of good moral character and of
temperate and industrious habits; these facts to be ascertained in such manner
as the board may deem advisable. (Ord. #1008, March 1997)

4-507. Tenure of office; grounds for demotion, suspension or
discharge. The tenure of everyone holding office, place, position, or
employment under the provisions of this chapter shall be for and only during
good behavior. Any such person may be removed or discharged, suspended
without pay, demoted or reduced in rank, or deprived of vacation privileges or
other special privileges for any of the following reasons, but for no other reasons:

(1) Dishonesty, intemperance, immoral conduct, insubordination, or
any other act of omission or commission tending to injure the public service; or
any other willful failure on the part of the employee to conduct himself properly; or any willful violation of the provisions of this chapter or the rules and regulations to be adopted hereunder.

(2) Conviction of a felony, or a misdemeanor involving moral turpitude, or a misdemeanor reflecting upon ability to perform public service or one for which a jail sentence is or may be imposed.

(3) Any other act or failure to act which, in the judgment of the board, is sufficient to show the offender to be an unsuitable and unfit person to be employed in the classified service. (Ord. #1008, March 1997)

4-508. Removal of members from civil service. No person in the classified civil service who shall have been permanently appointed or inducted into civil service under the provisions of this chapter shall be removed, suspended or discharged except for cause, and only upon the written accusation of the appointing power, or any citizen or taxpayer, a written statement of which accusation shall be served upon the accused, and a duplicate filed with the board. The department head may suspend an employee of the department pending the confirmation of the suspension by the regular appointing power under this chapter which must be within ten days. Any person so removed, suspended or discharged may within twenty days from the time of his removal, suspension or discharge file with the board a written demand for an investigation, whereupon the board shall conduct such investigation. The investigation shall be confined to the determination of whether such removal, suspension or discharge was or was not made for political reasons and was or was not made in good faith for cause. After such investigation, the board may affirm the removal, or if it shall find that the removal or suspension was made for political reasons, or was not made in good faith for cause, shall order the immediate reinstatement or re-employment of such person in the office, place, position or employment from which such person was removed, suspended or discharged, which reinstatement shall, if the board so provides in its discretion, be retroactive, and entitle such person to pay or compensation from the time of such removal, suspension or discharge. The board, in its discretion, in lieu of affirming or reversing the removal, suspension or discharge, may modify the order by direction a suspension without pay for a given period and subsequent restoration of duty, grade or pay; and the findings of the board shall be certified in writing to the appointing power and shall be forthwith enforced by such authority.

All investigations made by the board pursuant to the provisions of this section shall be by public hearing, after reasonable notice to the accused of the time and place of such hearing, at which hearing the accused shall be afforded an opportunity of appearing in person and by counsel and presenting his defense. At any such hearing the testimony of all witnesses shall be taken in writing and a record made of all proceedings. From any order adverse to the accused, the latter may appeal to the chancery court of Roane County,
Tennessee. Such appeal shall be taken by serving the board, within ten days after the entry of such order, a written notice of appeal, stating the grounds thereof, and demanding that a certified transcript of the record and of all papers on file in the office of the board affecting or relating to such order be filed by the board in such court. The board shall within twenty days after the filing of such notice, make, certify and file such transcript with such court. The chancery court shall thereupon proceed to hear and determine such appeal; provided, however, that such hearing shall be confined to the determination of whether the order of removal, discharge or suspension made by the board was or was not made in good faith for cause, and no appeal to such court shall be taken except upon such ground, or grounds, and the decision of the court shall be final. CHAPTER 6

HARASSMENT POLICY

SECTION
4-601. Sexual harassment and other forms of harassment.
4-602. Making harassment complaints.
4-603. Reporting and investigating of harassment complaints.
4-604. Response of department head.
4-605. Obligation of employee.
4-606. Workplace violence and harassment.
4-607. Objects used as weapons.
4-608. Reporting harassment.
4-609. Copies of reports will be turned over to governing body.

4-601. Sexual harassment and other forms of harassment. The definition of sexual harassment includes conduct directed by men toward women, conduct directed by men toward men, conduct directed by women toward men and conduct by women toward women. Also prohibited under this policy is harassing conduct directed toward employees on the basis of race, sex, age, national origin, color, disability, religion, or in retaliation for involvement of any protected activity. Consequently, this policy applies to officers and employees of the City of Rockwood, including but not limited to, full and part-time employees, elected officials, permanent and temporary employees, employees covered or exempt from the Human Resources Manual or other regulations of the municipal government and employees working under contract for the municipality.

1. Definition. Sexual harassment or unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature in the form of pinching, grabbing, patting, propositioning, making either explicit or implied job threats or promises in return for submission to sexual favors; making inappropriate sex-oriented stories; displaying sexually explicit or pornographic material, no matter how it is displayed; or sexual assault on the job by supervisors, fellow employees or, on occasion, non-employees when any of the foregoing unwelcome conduct affects employment decisions, makes the job environment hostile, distracting or unreasonably interferes with work performance practice and is absolutely prohibited by the municipal government.

2. Harassment based upon race, sex, national origin, color, disability, age, religion, or in harassment might include words, gestures, behaviors, or actions which diminish employees, makes the job environment hostile, affects employment decisions, and/or interferes with work performance. It is the intent of this policy to treat all complaints seriously and to utilize the same complaint processing procedure. (as added by Ord. #06-1087, Nov. 2005)
4-602. Making harassment complaints. The municipality may be held liable for the actions of all employees with regard to harassment and, therefore, will not tolerate the harassment of its employees. The city will take immediate, positive steps to stop it when it occurs. By law, the city is responsible for acts of harassment in the workplace where the city (or its agents or supervisory employees) knows or reasonably should have known of the conduct, unless it can be shown that the city took immediate and appropriate corrective action. The municipality may also be responsible for the acts of non-employees, with respect to the harassment of employees in the workplace, where the municipal government (or its agents or supervisory employees) knows or reasonably should have known of the conduct and failed to take immediate corrective action. Prevention is the best tool for the elimination of harassment. Therefore, the following rules shall be strictly enforced. An employee who feels that he/she is being subjected to harassment should immediately contact one of the persons below with whom the employee feels the most comfortable. Complaints may be made orally or in writing to:

1. The employee's immediate supervisor;
2. The employee's department head;
3. City recorder or city attorney;
4. The mayor.

Employees have the right to circumvent the employee chain of command in selecting which person to whom to make a complaint of harassment. Regardless of which of the above persons the employee makes a complaint of harassment, the employee should be prepared to provide the following information:

1. Official's or employee's name, department and position title;
2. The name of the person(s) committing the harassment, including their title(s), if known;
3. The specific nature of the harassment, how long it has gone on and any employment action (demotion, failure to promote, dismissal, refusal to hire, transfer, etc.), taken against the employee as a result of the harassment, or any other threats made against the employee as a result of the harassment;
4. Witnesses to the harassment;
5. Whether the employee has previously reported the harassment and, if so, when and to whom.  (as added by Ord. #06-1087, Nov. 2005)

4-603. Reporting and investigating of harassment complaints. The recorder is the person designated by the municipal government to be the investigator of complaints of harassment against employees. In the event the harassment complaint is against the human resources director, the investigator shall be a municipal employee appointed by the city administrator. When an allegation of harassment is made by an employee, the person to whom the complaint is made shall immediately prepare a report of the complaint according to the preceding section and submit it to the department head. (Note: If the
complaint is lodged against the department head, the city administrator will be
the responsible official for reviewing these actions.) The investigator shall make
and keep a written record of the investigation, including notes of verbal
responses made to the investigator by the person complaining of harassment,
witnesses interviewed during the investigation, the person against whom the
complaint of harassment was made and any other person contacted by the
investigator in connection with the investigation. The notes shall be made at the
time the verbal interview is in progress. Upon conclusion of the investigation,
the investigator shall prepare a report of the findings to the department head.
The report shall include the written statement of the person complaining of
harassment, the written statement of witnesses, the written statement of the
person against whom the complaint of harassment was made, all the
investigator's notes connected to the investigation and a recommendation for
disciplinary action, if any. (as added by Ord. #06-1087, Nov. 2005)

4-604. Response of department head. Upon receipt of a report of the
investigation of a complaint of harassment, the department head shall
immediately review the report. If the department head determines that the
report is not complete in some respect, he/she may request additional
statements be taken from the person complaining of harassment, the person
against whom the complaint has been made, witnesses to the conduct in
question or any other person who may have knowledge about the harassment.
Based upon the report and his/her own investigation, where one is made, the
department head shall within a reasonable time, determine whether the conduct
of the person against whom a complaint of harassment has been made
constitutes harassment. In making that determination, the department head
shall look at the record as a whole and at the totality of circumstances, including
the nature of the conduct in question, the context in which the conduct, if any,
occurred and the conduct of the person complaining. The determination of
whether harassment occurred will be made on a case-by-case basis. If the
department head determines that the complaint of harassment is founded,
he/she shall take immediate and appropriate disciplinary action against the
employee guilty of harassment, consistent with his authority under the
municipal charter, ordinances or rules governing his authority to discipline
employees. Disciplinary action for harassment shall be governed by the same
rules governing disciplinary actions generally. See rule XII, section 7. The
disciplinary action shall be consistent with the nature and severity of the
offense, the rank of the employee and any other factors the board of mayor and
aldermen believes relate to fair and efficient administration of the municipal
government, including, but not limited to, the effect of the offense on employee
morale and public perception of the offense, and the light in which it casts the
municipality. The disciplinary action may include demotion, suspension,
dismissal, warning or reprimand. A determination of the level of disciplinary
action shall also be made on a case-by-case basis. A written record of
disciplinary actions taken shall be kept, including verbal reprimands. In all
events, an employee found guilty of harassment shall be warned not to retaliate
in any way against the person making the complaint of harassment, witnesses
or any other person connected with the investigation of the complaint of
harassment. In cases where the harassment is committed by a non-employee
against a municipal government employee in the work place, the city recorder
shall take whatever lawful action against the non-employee is necessary to bring
the harassment to an immediate end. (as added by Ord. #06-1087, Nov. 2005)

4-605. Obligation of employee. Employees are strongly encouraged
to report instances of harassment. Employees are also obligated to cooperate in
every investigation of harassment. The obligation includes, but it is not
necessarily limited to, coming forward with evidence, both favorable and
unfavorable for a person accused of such conduct; fully and truthfully making
written reports or verbally answering questions when required to do so by an
investigator. Employees are also obligated to refrain from making bad faith
accusations of harassment. Disciplinary action may also be taken against any
employee who fails or refuses to cooperate in the investigation of a complaint of
harassment or who files a complaint of harassment in bad faith. (as added by
Ord. #06-1087, Nov. 2005)

4-606. Workplace violence and harassment. It is the policy of the
City of Rockwood to promote a productive, safe and healthy work environment
for all employees, customers, vendors, contractors and members of the general
public and to provide for the efficient and effective operation of the city's
activities. The City of Rockwood will not tolerate verbal or physical conduct by
an employee which harasses, disrupts or interferes with another's work
performance or which creates an intimidating, offensive or hostile environment.

No employee or non-employee shall be allowed to harass any other
employee, equal to, subordinate or superior in position, or non-employee by
exhibiting behavior including, but not limited to, the following:

1. Verbal harassment. Verbal threats toward persons or property; the
use of vulgar or profane language directed towards others; disparaging or
derogatory comments or slur; offensive flirtations or propositions (see also
section 19, Harassment); verbal intimidation, exaggerated criticism or
name-calling; spreading untrue and malicious gossip about others.

2. Physical harassment. Any physical assault, such as hitting,
pushing, kicking, holding, impeding or blocking the movement of another
person.

3. Visual harassment. Derogatory or offensive posters, cartoons,
publications or drawings. (as added by Ord. #06-1087, Nov. 2005)

4-607. Objects used as weapons. Under no circumstances are the
following items permitted on city property, including city-owned parking areas,
except when issued or sanctioned by the city for use in the performance of the employee's job:

1. All types of firearms, switchblade knives and knives with a blade longer than four inches;
2. Dangerous chemicals;
3. Explosives or blasting caps;
4. Chains; or
5. Other objects carried for the purposes of injury or intimidation. (as added by Ord. #06-1087, Nov. 2005)

4-608. Reporting harassment through chain of authority. Charges of violence and harassment may be reported to any supervisory employee of the city, including the city attorney, city recorder and the mayor. The recorder is charged with investigating all cases of workplace violence and harassment. Depending on the severity of the charges or whether a crime is committed, the city recorder may request that the police chief provide assistance to the recorder or assume responsibility for the investigation. All employees are required to assist in the course of the investigation by providing testimony, statements and evidence, as required. Failure to cooperate may result in disciplinary action. (as added by Ord. #06-1087, Nov. 2005)

4-609. Records of reports turned for appropriate action. Copies of the investigative report with recommendations for appropriate action will be turned over to the department head or city recorder as appropriate for further action. Disciplinary action up to, and including, termination may be taken against any employee who commits acts of workplace violence and harassment. (as added by Ord. #06-1087, Nov. 2005)

CHAPTER 6
CREDIT CARD POLICY

SECTION
5-601. General.
5-602. Credit card audits and documentation of purchases.
5-603. Disputing a transaction.
5-604. Cardholder responsibility and purchasing guidelines.
5-605. Lost or stolen cards.

5-601. General. The City of Rockwood hereby adopts this credit card policy to safeguard public funds and to provide clear instructions to all employees that are authorized to use city credit/debit cards by the city recorder. For the purposes of this policy, all authorized officers and employees shall be referred to as "cardholders." This policy may be amended from time to time by the city council.

As a cardholder, the person assumes the responsibility for the protection and proper use of the card. Purchases with city credit cards must not conflict with the City of Rockwood Purchasing Policy. The card should only be used by the authorized and use of the card shall not be delegated to other persons. Cardholders are responsible for all charges on the cards authorized to them. Cards and card numbers must be safeguarded against unauthorized use.

All credit card transactions will be visible via secure internet reporting tools and all cardholders' purchasing activity will be monitored by the finance department and reviewed by the city auditors. Credit cards are not intended to be used for normal, recurring expenses associated with normal department operations. Business accounts should be set up for recurring activities. Receipts for all purchases by credit card shall be forwarded to the city recorder and/or the finance director.

It is the goal of the City of Rockwood to have all transactions sales tax exempt, when applicable. It is the cardholder's responsibility to notify the supplier, at the time of the transaction, if it will be exempt from sales tax.

The following situations are examples of misuse of the card:
(1) Purchases for personal benefit of the cardholder or another employee;
(2) Assignment or transfer of an individual card to another person;
(3) Use of the card by an unauthorized employee;
(4) Use of a card by a suspended or terminated employee;
(5) Purchases that are not for legitimate City of Rockwood and public purposes;
(6) Purchases in violation of the City of Rockwood Purchasing Policy;
(7) Splitting a purchase to avoid a single-purchase limitation;
(8) Use of the card for commodities, goods, or services at vendors with City of Rockwood accounts; and
(9) Lack of proper and timely submission of all purchase receipts.

Any violations of this policy may subject the employee to discipline, including termination. (as added by Ord. #13-1160, Nov. 2012)

5-602. Credit card audits and documentation of purchases. The City of Rockwood’s Finance Director, auditor and/or state auditors will make periodic audits to verify that commodities, goods, and services purchased have been received and that policies and procedures are being followed. Adequate documentation must be maintained to record all transactions at the source. If a receipt is lost, a missing receipt affidavit must be filled out by the cardholder. (as added by Ord. #13-1160, Nov. 2012)

5-603. Disputing a transaction. If the cardholder believes a transaction is disputable, immediately notify your department head, the city recorder and the finance director of the disputed charge. The cardholder must agree to cooperate fully in dealing with the credit card company for all disputed purchases. (as added by Ord. #13-1160, Nov. 2012)

5-604. Cardholder responsibility and purchasing guidelines. It is important to remember that when using the card, the cardholder is expending taxpayer funds and that all credit card purchases must comply with City of Rockwood policies, including this policy, the purchasing policy and the internal financial controls policy. All expenditures are held to the highest degree of trust and accountability.

Cardholder privileges and procedures are contingent upon the following:

(1) You must obtain and preserve ALL receipts. Turn in all receipts to the city recorder or finance director immediately after use. Failure to produce adequate legible receipts will be subject to strict scrutiny by the finance department and city auditors. Proper forms of transaction documentation include an invoice with detail of items purchased, cash register receipt with detail of items purchased, sales slip with detail of items purchased, or handwritten receipt signed by an employee of the supplier/merchant that includes detail of items purchased. In the event a receipt is lost, you must submit a "missing receipt affidavit" in lieu of the receipt.

(2) If a cardholder fails to turn in a receipt, he/she must sign the document set forth on the following page of these policies.\footnote{The missing receipt affidavit appears at the end of this chapter.} Multiple failures to provide receipts may result in cancellation of the card and other disciplinary action.
(3) Cash back, cash refunds or rebates may not be received by the cardholder.

(4) Splitting of transactions is not allowable (making one (1) purchase into two (2) or more for the purpose of staying within your limits). (as added by Ord. #13-1160, Nov. 2012)

5-605. **Lost or stolen cards.** In the event of a lost, stolen or, mutilated card, cardholders should immediately notify the finance director and the city recorder. Please protect your card by keeping it in a safe place and away from other "magnetized" stripe cards. (as added by Ord. #13-1160, Nov. 2012)

6-504. Duties of the alarm company.
6-505. Prohibited acts.
6-506. Enforcement of provisions.
6-507. Alarm user awareness class.
6-508. Citation to city court.
6-509. Confidentiality.
6-510. Government immunity.

6-501. Definitions. The following words, terms and phrases, when used in this ordinance, shall have the meanings ascribed to them, except where the context clearly indicates a different meaning:

(1) "Alarm administrator" means a person or persons designated by the city to administer, control and review false alarm reduction efforts, and administer the provisions of this ordinance.

(2) "Alarm company" means a person subject to the state licensing requirements, and/or a company engaged in selling, leasing, installing, servicing or monitoring alarm systems; this person shall be licensed in compliance with state laws.

(3) "Alarm signal" means a detectable signal; audible or visual, generated by an alarm system, to which law enforcement and/or fire service are requested to respond.

(4) "Alarm system" means any single device or assembly of equipment designed to signal the occurrence of an illegal or unauthorized entry or other activity requiring immediate attention and to which law enforcement and/or fire service is requested to respond, but does not include motor vehicle or boat alarms, dedicated/stand-alone fire alarm systems, domestic violence alarms, or alarms designed to elicit a medical response.

(5) "Alarm user" means any person, corporation, partnership, proprietorship, governmental or educational entity or any other entity owning, leasing or operating an alarm system, or on whose premises an alarm system is maintained for the protection of such premises.

(6) "Alarm user awareness class" means a class conducted for the purpose of educating alarm users about the responsible use, operation and maintenance of alarm systems, and the problems created by false alarms.

(7) "Automatic dial protection device" means an automatic dialing device or an automatic telephone dialing alarm system and shall include any
system which; upon being activated, automatically initiates to the Rockwood Police Department or Rockwood Fire Department a recorded message or code signal indicating a need for law enforcement response.

(8) "Cancellation" means the process where response is terminated when the alarm company (designated by the alarm user) notifies the Rockwood Police Department or Rockwood Fire Department that there is not an existing situation at the alarm site requiring police response after an alarm dispatch request. If cancellation occurs prior to police or fire personnel arriving at the scene, this is not a false alarm for the purpose of civil penalty, and no penalty will be assessed.

(9) "City" means the City of Rockwood or its agent.

(10) "False alarm" means the activation of an alarm system through mechanical or electronic failure, malfunction, improper installation, or the negligence of the alarm user, his/her employees or agents, and signals activated to summon law enforcement personnel unless law enforcement response was cancelled by the alarm user or his/her agent before law enforcement personnel arrive at the alarm location. An alarm is false within the meaning of this article when, upon inspection by the Rockwood Police Department and/or Rockwood Fire Department, evidence indicates that there was no unauthorized entry, robbery, crime, smoke, excessive heat, or water flow which would have activated a properly functioning alarm system. Notwithstanding the foregoing, a false alarm shall not include an alarm, which can reasonably be determined to have been caused or activated by unusually violent conditions of nature, nor does it include other extraordinary circumstances not reasonably subject to control by the alarm user or circumstances indicating a real emergency.

(11) "Local alarm" means an alarm system that emits a signal at an alarm site that is audible or visible from the exterior of a structure and is not monitored by a remote monitoring facility, whether installed by an alarm company or user.

(13) "Verify" means an attempt by the monitoring company, or its representative, to contact the alarm site and/or alarm user by telephone and/or other electronic means, whether or not actual contact with a person is made, to attempt to determine whether an alarm signal is valid before requesting law enforcement dispatch, in an attempt to avoid an unnecessary alarm dispatch request. For the purpose of this ordinance, telephone verification shall require, as a minimum that a second call be made to a different number if the first
attempt fails to reach an alarm user who can properly identify themselves to attempt to determine whether an alarm signal is valid before requesting law enforcement dispatch.

In case of a fire alarm, the Rockwood Fire Department will respond without telephone verification. After the occurrence, fire department personnel will determine if the incident is classified a false alarm. (as added by Ord. #11-79, Feb. 2014)

All liquor stores shall be subject to applicable zoning, building, and city land development regulations unless specifically stated otherwise herein. No liquor store shall be located within five hundred feet (500') of any other liquor store in the City of Rockwood. The distance shall be measured in a straight line from the nearest point of the building upon which sits the building from which the alcoholic beverage will be sold, manufactured or stored, to the nearest point of the building upon which sits the second building from which the alcoholic beverage will be sold, manufactured or stored. (3) Selling or furnishing to minors, etc. It shall be unlawful for any licensee to sell, furnish or give away any alcoholic beverage to a minor below the age of twenty-one (21) years or to a person visibly intoxicated. It shall be unlawful for such person to enter or remain in a liquor store (except that employees with appropriate employee permits issued pursuant to state law who are age eighteen (18) years and older are permitted in a liquor store for the purpose of engaging in paid employment only) or to loiter in the immediate vicinity of a liquor store. It shall be unlawful for a minor below the age of twenty-one (21) years to misrepresent his or her age in an attempt to gain admission to a liquor store or in an attempt to buy any alcoholic beverage from a licensee.
(4) Consumption on premises of liquor store. It shall be unlawful for any licensee to sell any alcoholic beverage for consumption in such licensee's liquor store or on the premises used by the licensee in connection therewith. One (1) grand opening event shall be permitted at the time a liquor store is first opened for business and for two (2) weeks thereafter where one (1) grand opening banner shall be allowed provided a sign permit for such banner is properly obtained.

(6) Off-premises business. All retail sales of alcoholic beverages shall be confined to the premises of the liquor store. No curb service is permitted nor shall there be permitted drive-in windows. No licensee shall employee any canvasser, agent, solicitor, or other representative for the purpose of receiving an order from a consumer for any alcoholic beverages at the residence or place of business of such consumer nor shall any licensee receive or accept any such order which shall have been solicited and received at the residence or place of business of such consumer. This paragraph shall not be construed as to prohibit the solicitation by a state licensed wholesaler of any order from any licensed retailer at the licensed premises. (1970 Code, § 2-211, as replaced by Ord. #09-1115, Dec. 2008)

8-211. Fees. (1) Amounts generally. There is hereby levied on each licensee an inspection fee of five percent (5%) on the gross purchase price of all alcoholic beverages acquired by the licensee for retail sale from any wholesaler or any other source.

(2) Collection. Collection of such inspection fee shall be made by the wholesaler or other source vending to the licensee at the time the sale is made to the licensee. Payment of the inspection fee by the collecting wholesaler or other source shall be made to the city clerk on or before the twentieth (20th) day of each calendar month for all collections in the preceding calendar month. Nothing herein shall relieve the licensee of the obligation of payment of the inspection fee and it shall be the licensee's duty to see that the payment of the inspection fee for his or her liquor store is made to the city clerk on or before the twentieth day of each calendar month for the preceding month. Wholesalers collecting and remitting the inspection fee to the city shall be entitled to reimbursement for this collection service in a sum equal to five percent (5%) of the total amount of inspection fees collected and remitted, such reimbursement to be deducted and shown on the monthly report to the city.
(3) **Reports.** The city clerk shall prepare and make available to each wholesaler and other source vending alcoholic beverages to licensees sufficient forms for the monthly report of inspection fees payable by such licensee making purchases from such wholesaler or other source. Such wholesaler shall timely complete and return the forms and the required information and inspection fees within the time specified above.

(4) **Failure to pay fees.** The failure to pay the inspection fees and to make the required reports accurately and within the time required by this chapter shall, at the sole discretion of the city recorder, be cause for suspension of the offending licensee's local liquor store privilege license for as much as thirty (30) days and, at the sole discretion of the city council, be cause for revocation of such local liquor store privilege license. Each such action may be taken by giving written notice thereof to the licensee, no hearing with respect to such an offense being required. If a licensee has his license revoked, suspended or otherwise removed and owes the city inspection fees at the time of such suspension, revocation, or removal, the city attorney may timely file the necessary action in a court of appropriate jurisdiction for recovery of such inspection fees. Further, each licensee who fails to pay or have paid on his or her behalf the inspection fees imposed hereunder shall be liable to the city for a penalty on the delinquent amount due in an amount of ten percent (10%) of the inspection fee. (1970 Code, § 2-212, modified, as amended by Ord. #1051, Feb. 2002, and replaced by Ord. #09-1115, Dec. 2008)

8-212. **Records kept by licensee.** In addition to any records specified in the state laws, rules and regulations, each licensee shall keep on file, at such licensee's store, the following records:

(1) The original invoices of all alcoholic beverages bought by the licensee;
(2) The original receipts for any alcoholic beverages returned by such licensee to any wholesaler;
(3) A current daily record of the gross sales by such licensee with evidence of cash register receipts for each day's sales; and,
(4) An accurate record of all alcoholic beverages lost, damaged, or disposed of other than by sale and showing for each such transaction the date thereof, the quantity and brands of alcoholic beverages involved, and the name of the person or persons receiving the same. All such records shall be preserved for a period of at least fifteen (15) months unless the city clerk gives the licensee written permission to dispose of such records at an earlier time. In the event of co-licensees holding a single license, one (1) set of records per liquor store satisfies the requirements of this part. (1970 Code, § 2-213, as replaced by Ord. #09-1115, Dec. 2008)

8-213. **Inspections generally.** The city recorder, the city clerk, the chief of police or the authorized representatives or agents of any of them are
authorized to examine the premises, books, papers and records of any liquor
store at any time the liquor store is open for business for the purpose of
determining whether the provisions of this chapter are being observed. Refusal
to permit such examination shall be a violation of this chapter and shall
constitute sufficient reason for revocation of the local liquor store privilege
license of the offending licensee or for the refusal to renew the local liquor store
privilege license of the offending licensee. (1970 Code, § 2-214, modified, as

8-214. Certificate of compliance. As a condition precedent to the
issuance of a state liquor retailer's license by the state alcoholic beverage
commission, city council may authorize the issuance of certificates of compliance
by the city according to the terms contained herein. (1970 Code, § 2-215,
modified, as replaced by Ord. #09-1115, Dec. 2008)

information and whatever additional information the city council or city
recorder may require:

(3) Signature. The application form shall be signed and verified by each person to have any interest in the liquor store either as an owner, partner, stockholder or otherwise.

(4) Misrepresentation--concealment of fact--duty to amend. If any applicant, member of an applicant group, or licensee misrepresents or conceals any material fact in any application form, or as to any other information required to be disclosed by this chapter, such applicant, member of an applicant group, or licensee shall be deemed to have violated the provisions of this chapter and his or her application may be disregarded or his or her license restricted or revoked as deemed appropriate by city council. Further, no sale, transfer or gift of any interest of any nature, either financial or otherwise, in a liquor store shall be made without first obtaining a replacement license from the city upon the approval of the city council.

(5) Fees. Each applicant shall be accompanied by a non-refundable three hundred dollars ($300.00) investigation fee. One (1) application fee per applicant group is sufficient. (1970 Code, § 2-216, as replaced by Ord. #09-1115, Dec. 2008, and amended by Ord. #11-70, March 2013)

8-216. Consideration of application for certificate of compliance. In issuing a certificate of compliance sufficient for the licensing of the liquor stores in the city permitted by this chapter, the city council will consider all applications filed with it after publication of notices published in a newspaper of general circulation in Roane County, Tennessee required by state law and/or applicable sign regulations. The city council will determine if the applicants have the qualifications required by state law. Applications and all matters
submitted with or as a part of such applications become, at the time they are submitted, the sole and exclusive property of the city and constitute public records open to public inspection. (as added by Ord. #09-1115, Dec. 2008)

8-217. Restrictions upon issuance of certificate of compliance.
(1) No violation of chapter. No certificate of compliance shall be issued unless a license issued on the basis thereof can be exercised without violating any provisions of this chapter.
(2) Time period for action. Any applicant or applicant group who has obtained a certificate of compliance as provided herein must, unless an extension is granted by city council, within one hundred twenty (120) days open a liquor store in the city or said certificate of compliance will be revoked by the passage of this amount of time and a certification thereof will be sent to the Alcoholic Beverage Commission of the State of Tennessee and the local liquor store privilege license issued pursuant to such application shall be considered canceled and revoked. (as added by Ord. #09-1115, Dec. 2008)

8-218. Local liquor store privilege license from city to operate liquor store. After an applicant or applicant group receives a license from the State of Tennessee to operate a retail liquor store pursuant to Tennessee Code Annotated, §§ 57-3-101 et seq., he or she shall apply to the city clerk for a local liquor store privilege license to operate a retail liquor store pursuant to the following terms, conditions and restrictions set out in §§ 8-219 and 8-220 hereof. (as added by Ord. #09-1115, Dec. 2008)

8-219. Restrictions on local liquor store privilege licenses.

(3) Transfer. A licensee or co-licensee shall not sell, assign or transfer his license or any interest therein to any other person. No license shall be transferred from one (1) location to another location without the express permission of city council.
(4) Fees. A license fee of five hundred dollars ($500.00) is due at the time of application for a license and annually, prior to January 1 each year, thereafter. The initial license shall remain in effect for the remainder of the calendar year when it is first issued so that the first year may not be a full year period. The license fee shall be paid to the city clerk before any license shall issue. (as added by Ord. #09-1115, Dec. 2008)
8-220. Restrictions upon licensees and employees. (1) Initial qualifications. To be eligible to apply for or to receive a license, an applicant, or in the case of an applicant group each member of the applicant group, must satisfy all of the requirements of the state statutes and of the state laws, rules and regulations for the holder of a state liquor retailer's license.

(2) Public officers and employees. No license shall be issued to a person who is a holder of a public office, either appointed or elected, or who is a public employee, either national, state, city or county. It shall be unlawful for any such person to have any interest in such liquor store either directly or indirectly, either proprietary or by means of a loan or participation in the profits of any such business. This prohibition shall not apply, however, to uncompensated, appointed members of boards or commissions who have no duties covering the regulation of alcoholic beverages or beer.

(3) Felons. No licensee who has been convicted of a felony within ten (10) years prior to the time he or she or the legal entity to which he or she is connected shall receive a license, provided that this provision shall not apply to any person who has been so convicted but whose rights of citizenship have been restored or judgment of infamy has been removed by a court of competent jurisdiction. In case of such conviction occurring after a license has been issued and received, the license shall immediately be revoked if such convicted felon is an individual licensee and, if not, the partnership, corporation, limited liability company or association with which he or she is connected shall immediately discharge him or her and he or she shall have no further interest therein or else such license shall be immediately revoked.

(4) Employee felons. No licensee shall employ in the storage, sale, or distribution of alcoholic beverages any person who, within ten (10) years prior to the date of his or her employment, shall have been convicted of a felony. In the case that an employee is convicted of a felony while he is employed by a licensee at a liquor store, he or she shall be immediately discharged after his or her conviction provided that this provision shall not apply to any person who has been so convicted but whose rights of citizenship have been restored or judgment of infamy has been removed by a court of competent jurisdiction.

(5) Liquor offenses. No license shall be issued to any person who, within ten (10) years preceding application for license or permit, shall have been convicted of any offense under the laws of this state or any state or of the United States regulating the sale, possession, transportation, storing, manufacturing, or otherwise handling of intoxicating liquors or beer who has, during such period, been engaged in business, alone or with others, in violation of any such laws or rules and regulations.

(6) Disclosure of interest. It shall be unlawful for any person to have ownership in or participate in, either directly or indirectly, the profits of any liquor store unless his or her interest in such business and the nature, extent and character thereof shall appear on the application or if the interest is
acquired after the issuance of a license unless it be fully disclosed to the city recorder and approved by him or her in a timely manner.

(7) **Age.** No licensee shall be a person under the age of twenty-one (21) years and it shall be unlawful for any licensee to employ any person under the age of eighteen (18) years for the physical storage, sale or distribution of alcoholic beverages or to permit any such person under such age in his place of business to engage in the storage, sale or distribution of alcoholic beverages.

(8) **Interest in only one liquor store.** A person shall have an interest, either direct or indirect, in no more than one (1) liquor store licensed under this chapter in the City of Rockwood. (as added by Ord. #09-1115, Dec. 2008, and amended by Ord. #11-20, March 2013)

8-221. **Nature of license; suspension or revocation.** The issuance of a license does not vest a property right in the licensee but is a privilege subject to revocation or suspension. Any license shall be subject to suspension or revocation by city council for any violation of this chapter by the licensee or by any person whose acts the licensee is responsible. The licensee shall be given reasonable notice and an opportunity to be heard before the city council suspends or revokes a license for any violation unless provided otherwise specifically herein. If the licensee is convicted of a violation of this chapter by a final judgment in any court and the operation of the judgment is not suspended by an appeal, upon written notice to the licensee, the city recorder may immediately suspend the license for a period not to exceed sixty (60) days and the city council may revoke the license on the basis of such conviction thereafter. A license shall be subject to revocation or suspension without a hearing whenever such action is expressly authorized by other provisions of this chapter stating the effect of specific violations. (as added by Ord. #09-1115, Dec. 2008)

8-222. **Violations—penalties.** Any violation of the provisions of this chapter shall constitute a misdemeanor and shall, upon conviction, be punishable by a fine of not less than fifty dollars ($50.00). Upon conviction of any person under this chapter, it shall be mandatory for the city judge to immediately certify said conviction, whether on appeal or not, directly to the Tennessee Alcoholic Beverage Commission, together with petition that all licenses be revoked, pursuant to the provisions of chapter 3 of title 57 of the Tennessee Code Annotated, and the rules and regulations of said commission. (as added by Ord. #09-1115, Dec. 2008)

8-223. **Selection of liquor store applicants.** (1) Each applicant shall submit his name, address, voting precinct, phone number and a fee of two hundred dollars ($200.00) (cash or check), non-refundable, in order to be included in the lottery drawing.

(2) At a public meeting, time and date to be set, a lottery drawing will be held.
(3) Names will be drawn and numbered in the order drawn, and listed accordingly, until all names have been drawn and listed.

(4) Depending upon the number of liquor stores authorized by city council, applicants at the top of the list will be authorized to begin the state and local licensing process.

(5) Should any of the tentative selectees be eliminated from consideration, then that slot would fall to the next highest lottery name on the list until all slots are filled.

(6) This lottery is only an initial step in the licensing process and in no way assures an applicant's final selection and licensing. (as added by Ord. #09-1115, Dec. 2008)

CHAPTER 4

CODES SUPPLEMENT FOR MOBILE HOMES
AND TRAVEL TRAILERS

SECTION
14-402. Administration.
14-403. Definitions.
14-404. General.
14-405. License required for trailer court.
14-406. Requirements for permanent occupancy.
14-407. Mobile home parks.
14-408. Mobile homes on individual lots.
14-409. Requirements for temporary occupancy.
14-410. Travel trailer parks.
14-411. Legal and enactment provisions.

14-401. Statement of policy. It is the policy of the City of Rockwood to recognize that:

(1) Mobile homes, when located in a suitable environment and appropriately regulated to protect the public health, safety, and general welfare, constitutes:

(a) A legitimate and meaningful addition to the permanent housing supply, and
(b) A satisfactory and convenient means to meet sudden high demands for housing for limited durations or special temporary needs, and

(2) Travel trailers, when suitably situated and regulated, play a useful role in providing temporary housing for those engaged in vocational, recreational, or other travel and to so permit and regulate mobile homes and travel trailers.

It is the intent of this chapter to insure the fitness for habitation of such structures by requiring their placement in environmental situations which are reasonably related to the type of occupancy involved. It is further intended that those who choose to reside permanently in mobile homes be encouraged to locate in mobile home parks designed for such living rather than to attempt to supplement the somewhat limited living facilities of a mobile home on a conventional single-family lot. (1970 Code, § 4-601)

14-402. Administration. This codes supplement is hereby declared to be remedial for the purposes and in the manner cited in the appropriate sections of the building, plumbing, electrical, gas, and housing codes, inclusive, as incorporated by reference in title 12, in its application to trailer coaches, existing
or hereafter repaired, altered, or constructed in the City of Rockwood. The scope of such application and the requirements for maintenance shall be the same as is referred to in the appropriate section of the housing code. The building official of the City of Rockwood is hereby declared to be the administrator of this codes supplement. In enforcing the provisions of this chapter, he shall have the same restrictions, powers, and duties as in enforcing the provisions of the other chapters of this title.

A building permit is required for the construction of any mobile home or travel trailer park or emplacement of a mobile home on an individual site, together with the required site improvements, according to applicable provisions in the building and plumbing codes, with the following exceptions and modifications:

1. The value of any mobile home unit(s) not constructed on the premises shall be excluded from valuation for permit fees purposes;
2. No fee shall be charged and no permit necessitated by the moving of a trailer coach onto a stand in a duly licensed mobile home park or travel trailer park; and
3. The provisions applicable to buildings and structures are similarly applicable to the site improvements required in this chapter.

No mobile home park, travel trailer park, or individual mobile home shall be occupied until after the building official has issued a certificate of occupancy therefor according to the provisions of the Standard Building Code which is incorporated by reference herein. Said certificate shall state the maximum number of persons permitted to occupy a mobile home or a bedroom therein, and occupancy by a greater number of persons than permitted by this chapter shall be a violation, punishable as such. A certificate of occupancy is not required for placement on a stand of a trailer coach in a duly licensed mobile home or travel trailer park, but a certificate of occupancy is required for the park itself.

The board of appeals as heretofore established for appeals from the provisions of title 12 shall have similar jurisdiction and procedure re the provisions of this chapter.

Any person, firm, corporation, or agent who shall violate a provision of this code shall be guilty of a misdemeanor. Each and every day or portion thereof during which a violation is committed or continued shall be deemed a separate offense, punishable as such. (1970 Code, § 4-602)

14-403. Definitions. The terms used in this chapter have meanings consistent with those defined in Tennessee Code Annotated, § 68-101-101(a) which section is hereby incorporated by reference into this section, and is herein classified and supplementarily defined as follows:

1. "Trailer court" is either:
   a. A "mobile home park," in which spaces are intended for permanent occupancy as evidenced by condominium ownership or long term rental; or
(b) A "travel trailer park," in which spaces are intended for temporary occupancy as evidenced by short term rental.
(2) A "mobile home" is an "independent trailer coach" (or other detached single unit) eight (8) feet or more in body width when occupied which is:
   (a) Designed for long-term occupancy and provided with sleeping accommodations, flush toilet, bath, kitchen facilities, and plumbing and electrical connections for attachment to outside systems;
   (b) Designed to be delivered on its own wheels (or on flatbed or other trailer or on detachable wheels) to the site on which it is to be occupied; and
   (c) Delivered to such site complete with built-in major appliances and furniture ready for occupancy except for incidental unpacking and assembly, location on foundation supports, and connection to utilities.
(3) A "travel trailer" is an "independent trailer coach" or other vehicular or portable structure (pick-up, piggyback, or motorized camper, converted bus, or tent-trailer) not more than eight (8) feet in body width in portable form; designed for temporary occupancy while on vocational, recreational, or other trip; and provided with sleeping accommodations and either:
   (a) Water storage facilities, flush toilet, and liquid waste holding tank to which toilet, bath, and kitchen sink are connected, or
   (b) Flush toilet and (if provided) lavatory, bath, and kitchen sink all connectable to external water supply and sewage systems.
(4) A "partial travel trailer unit" is a "dependent trailer coach," or any other vehicular or portable structure designed for temporary occupancy while on vocational, recreational, or other trip and which does not meet either of the definitions as a "mobile home" or a "travel trailer." (1970 Code, § 4-603)

14-404. General. All trailer coaches shall provide for a healthful environment, with living and service facilities arranged and equipped to assure such a condition. Where such living and service facilities are not provided by the trailer coach itself, they shall be provided, consistent with the type of occupancy, by the park or site in or on which the trailer is to be occupied, according to the provisions of this chapter.

The City of Rockwood shall not provide nor permit another to provide (either public or private) utility services such as water, gas, electricity, sewer, etc., to any trailer coach not meeting the provisions of this title.

No trailer coach shall be parked in any public right-of-way or in any drive of any trailer court for periods in excess of one hour except in case of emergency involving repairs. No trailer coach shall be used for overnight occupancy in any place, public or private, except a duly licensed trailer court or other place authorized by a temporary permit according to the provisions of this chapter.
No trailer court licensee shall permit any tenant or other person who is the owner of any dog, cat, or other pet animal to allow such animal to run at large or commit any nuisance within the trailer court. (1970 Code, § 4-604)

**14-405. License required for trailer court.** (1) It shall be unlawful for any person to maintain or operate within the corporate limits of the city any trailer court unless such person shall first obtain a license therefor.

(2) The license fee for each trailer court shall be $25.00 per annum. The license shall expire at 11:59 P.M. on December 31 of the year for which issued. The fee for the transfer of a license shall be $5.00.

(3) Application for an initial license shall be filed with the city recorder. Applications shall be in writing, shall be accompanied by three (3) copies of appropriate plans prepared by a registered engineer or architect (or other such person approved for such submissions by the building official), and shall contain information as follows:

(a) Name and address of the applicant.
(b) Location and legal description of the trailer court.
(c) Plot plan of the court, at scale of 1" = not more than 100', indicating spaces or areas for the placement of mobile homes, travel trailers, and/or partial travel trailer units and park facilities.
(d) Utilities plan, at scale of 1" = not more than 100', showing size and location of all gas, water, sanitary sewer, electric, and telephone lines, and connection points for trailer coaches, night lighting system, and fire protection system.
(e) Site features plan, at scale of 1" = not more than 100', showing location of park drives and walks, parking bays or areas, tenant storage facilities, trailer coach stands, surface water drainage pattern, drainage structures, areas of disturbed soil, and existing and proposed planting and screening.
(f) Floor plans and specifications of any community or service buildings or other structures.
(g) A scaled layout of typical trailer coach sites or integrated grouping of sites.
(h) Such further information as may be requested to enable the city to determine if the proposed court will comply with legal requirements.
(4) Upon certification by the chief of police, after investigation, that the applicant is of good moral character and upon the issuance of a building permit by the building official, the city recorder shall approve the application and, upon completion of the court according to the plans, as evidenced by issuance of a certificate of occupancy therefor, issue the license. Said license shall be displayed in the office of the trailer court.
(5) The application for an annual license reissuance for any trailer court except a temporary mobile home park permitted under the provisions of
§ 14-409(2) will be accepted and, upon the payment of the requisite fee, a new license issued by the city recorder at any time not more than thirty (30) days prior to expiration of the old license. After a not longer than fifteen (15) days grace period following the expiration of the old license, maintenance or operation of any trailer court without a valid license therefor shall be deemed a violation of this chapter. After expiration of the limited time for which a temporary mobile home park is permitted, renewal shall be denied subject to the action of the board of appeals pursuant to § 14-409(2) of this code.

(6) Upon application, the city recorder shall issue a transfer of the license if the chief of police reports that the transferee is of good moral character.

(7) The city recorder may revoke any license when the licensee fails to comply with any provision of this code or is found guilty of violating any health or sanitation law of the State of Tennessee or of the City of Rockwood or of a crime involving moral turpitude by a court of competent jurisdiction or when any health official or when the building official has issued a proper order that has not been complied with by the licensee. After such revocation, a new license may be issued if the circumstances leading to the conviction or official order have been remedied and evidence is offered that the park can be maintained and operated in full compliance with the law.

(8) Appeals arising under provisions for license application, issuance, transfer, and revocation may be taken to the board of appeals.

(9) All trailer courts in existence upon the effective date of this chapter (April 28, 1967) shall within ninety (90) days thereafter obtain a license as required by this section and comply, on the existing site, as fully as possible, in the opinion of the building official, subject to such conditions and site improvements as the building official shall require, with the requirements of this chapter, title 12, and other pertinent provisions of this Rockwood Municipal Code and general statutes. (1970 Code, § 4-605)

14-406. Requirements for permanent occupancy.  (1) No independent or dependent coach other than a mobile home as herein defined shall be occupied for periods of thirty (30) days or longer, except as provided in § 14-409 below. Any mobile home occupied for thirty (30) days or longer shall meet the provisions of this chapter and of the pertinent sections of the other chapters in this title of this code unless modified by this chapter.

(2) No mobile home shall be deemed fit for human habitation of a permanent nature unless either it is located in and served by the necessary group facilities of a mobile home park as regulated by § 14-407 below or with the necessary site features for individual unit use as a single family dwelling on its individual lot as regulated by § 14-408 below.

(3) No mobile home shall be provided with any attached accessory structure not designed by the manufacturer to be so attached and not conforming generally to the type of construction of the principle mobile home
unit. No accessory structure, whether attached or detached, shall exceed in height, above the finished grade, that of the principle mobile home occupying that site or space.

(4) Because the mobile home is generally designed by the manufacturer as a compact unit, with furniture carefully arranged, space conservation worked out in detail, and excellent ventilation provided, the standards for minimum space of dwelling units and rooms occupied for sleeping purposes of Section 306 of the Standard Housing Code, adopted by reference in title 12 are hereby varied in their application to mobile homes as follows:

(a) Every mobile home located in a park in which the building official has made a finding that a community building provides sufficient space for indoor leisure and recreation shall contain at least one hundred and fifty (150) square feet of habitable floor area for the first occupant, and at least seventy-five (75) square feet of additional habitable floor area for each additional occupant.

(b) In every mobile home, every room or compartment occupied for sleeping purposes by one occupant shall contain at least fifty (50) square feet of floor area, and every room or compartment occupied for sleeping purposes by more than one occupant shall contain at least thirty-five (35) square feet of floor area for each occupant.

(5) Every mobile home shall have a safe and unobstructed primary exit and an emergency exit located remotely from the primary exit. (1970 Code, § 4-606)

14-407. Mobile home parks. The following regulations shall apply to mobile home parks:

(1) In order to insure that mobile home parks are adequately maintained to provide a healthful, safe, and quiet residential environment, each such park shall be of sufficient size and shape to enable the operation thereof to be efficient and economical. No parcel of land containing less than six (6) acres or one block, whichever is less, and no operation providing less than twenty-five (25) trailer coach spaces available at first occupancy may be licensed for a mobile home park.

The parcel shall be reasonably compact in shape in order to minimize the adverse effects, if any, to and from adjacent land uses. The minimum dimension of the park shall be four hundred (400) feet.

(2) Each mobile home space shall contain ample room to insure that no mobile home shall be located closer than:

(a) Eight (8) feet from any common walk;

(b) Fifteen (15) feet from any interior park drive serving less than two hundred (200) mobile home spaces or twenty (20) feet from any entrance drive or any interior drive serving more than two hundred (200) spaces;
(c) Twenty (20) feet from any other mobile home stand or any park, outdoor recreation area, or automobile parking area; or
(d) Fifty (50) feet from any park, community or service building, laundry, drying-yard, public street right-of-way line, or other property line.

(3) The following required improvements are hereby declared the minimum necessary in order to insure that a mobile home park is suitable for human habitation:

(a) Internal driveway and walkway improvements shall be made to provide a continuous system connecting the existing or planned public street system, each mobile home space or integrated grouping of spaces, and the facilities of the park.

Drives shall be adapted to topography and shall have suitable alignment and gradient for safety of traffic, for surface and ground water drainage, and for proper functioning of sanitary and storm sewer systems.

Any entrance drive serving more than two hundred (200) mobile home spaces shall be divided and channelized at its intersection with the public street system for a distance of seventy-five (75) feet from the public right-of-way. Each such divided driveway lane shall not be less than ten (10) feet wide separated by a not less than eight (8) feet wide grass median and provided with a minimum inside turning radius of thirty (30) feet at the point of turning from or into the public street. Such entrance drives shall be constructed to a design speed of not less than twenty (20) miles per hour.

Interior drives shall be constructed to a design speed of not less than fifteen (15) miles per hour. They shall be not less than nine (9) feet wide if one way with no parking and if serving not more than twenty-four (24) mobile home spaces.

They shall not be less than eighteen (18) feet wide if two-way with no parking and if serving not more than two hundred (200) mobile home spaces (but a two-way cul-de-sac with minimum eighty (80) feet diameter paved turnaround with no parking, serving not more than six (6) spaces, may be fourteen (14) or more feet wide).

Any drive (or divided lane) serving more than the above limited number of spaces shall be increased in width by two (2) feet. An entrance drive or any drive serving more than two hundred (200) spaces shall have a vertical gradient of not greater than nine (9) per cent; any drive serving from twenty-five to two hundred (200) spaces should have a vertical gradient of not greater than eleven (11) per cent; any other drive shall have a vertical gradient of not greater than thirteen (13) per cent.

Improvements to drives shall consist of a six-inch base of "crusher-run" stone and a two-inch wearing surface of plant-mixed asphaltic concrete with rolled concrete curbs (or equivalents) constructed
in accordance with standard engineering practice. Drives shall be graded to a width at least six (6) feet wider than the edge of the pavement and otherwise be sufficient in width to provide a reasonable level space for utilities installation and pedestrian walks.

Concrete pedestrian walks, constructed on a suitably prepared base according to standard engineering practice, shall not be less than four (4) inches thick (not less than six inches where crossed by automobile drives or parking space access) and not less than four (4) feet wide. Walks may be adjacent to drives, or they may form a separate system.

Walks and drives shall be lighted at night at an average intensity of not less than 0.4 lumens per square foot according to standard engineering practice.

(b) Park facilities shall be provided for the administration and maintenance of the park, grounds, and facilities and to supplement the limited facilities of the individual mobile homes therein.

(i) A management office shall be provided in a permanent building containing a desk for registration of occupants. The office shall also have appropriate furniture and supplies and a central bank of mailboxes, one for each mobile home space unless the post office provides individual distribution.

(ii) A management storage space shall be provided in a permanent structure containing adequate space for storage and maintenance of utility connection supplies in quantity, mobile home accessories, and park and mobile home maintenance materials and equipment.

(iii) A laundry shall be provided in one or more permanent buildings convenient to mobile home spaces, equipped with at least two automatic washers, one dryer, and five hundred (500) square feet of laundry drying yard, unless in the opinion of the building official, sufficient laundry facilities are otherwise available.

For parks containing more than thirty (30) mobile home spaces, additional washers shall be provided at the rate of one per additional twenty (20) spaces or fraction thereof and additional dryers at the rate of one (1) per additional forty (40) spaces or fraction thereof. Alternatively additional drying yard may be substituted for not more than one-half the required number of dryers at the rate of 1,000 sq. ft. per dryer. The board of appeals may vary these requirements only on condition that an appropriate number of mobile home spaces be reserved for mobile homes with factory installed laundry equipment.

At each laundry location there shall be provided for each sex at least one lavatory and one water closet in a distinctly-marked room with sound-resistant walls and with a vestibule or screen which prevents outside view when the door is open.
All such laundry and toilet facilities shall be maintained in a safe and sanitary condition in good working order. The building in which they are housed shall be appropriately heated and ventilated according to standards of title 12.

(iv) A permanent park community building for indoor leisure, recreation, and entertainment of guests shall be provided. Features shall include a community kitchen for the incidental preparation and serving of food and drink appropriate to a social occasion, toilets for each sex provided as at laundry locations above, and appropriate areas for indoor recreation for all age groups. The total usable floor space for such purposes shall be not less than one thousand (1,000) square feet, and for parks with numbers of mobile home spaces greater than thirty (30), an additional two hundred (200) square feet of space shall be provided for each ten (10) additional spaces or fraction thereof. The community building shall be appropriately heated, ventilated, and furnished.

The park office, storage space, and/or laundry may be housed in the same structure or grouping as the community building. However, space devoted to these functions shall not be included in the space required for leisure, recreation, and entertainment. Moreover, adequate separation of laundry and storage areas from community areas shall be maintained. Toilets may be jointly accessory to the different functional areas if provided in the same building.

(v) An outdoor recreation area shall be provided. Area devoted to such purposes shall be appropriately developed for active and passive outdoor functions for all age groups and appropriate physical and vegetative separations shall be maintained between areas devoted to different specialized uses. This area shall be located convenient to the park office and community building to enable convenient supervision of outdoor activities by reasonable and responsible persons.

The amount of land so developed shall be not less than twenty-thousand square feet in area, the minimum dimension of such area being fifty (50) feet. This area may include the site for the community building. However, no area devoted to laundry drying, automobile parking, or other similarly utilitarian function shall be counted as part of the required outdoor recreation area. For parks with numbers of mobile home spaces in excess of thirty (30), an additional two hundred (200) sq. ft. of such area per additional space shall be required.

(vi) Accessory and guest parking for the park shall be provided in the vicinity of the office, laundry, and community
buildings and recreation areas in parking bays (paved with a base equivalent to not less than four (4) inches of "crusher-run" stone compacted on a suitably prepared subgrade and with not less than a two-inch wearing surface of plant-mix asphalt) with marked spaces (9' x 20'), and with adequate similarly paved maneuvering space.

The required number of accessory parking spaces shall be provided adjacent to each facility as follows: office--two parking spaces; laundry--two parking spaces plus one parking space for each washer; and community building and outdoor recreation area--four (4) spaces plus one parking space per each ten (10) mobile home spaces or fraction thereof in the park.

(vii) A refuse collection center shall be provided to enable park residents to dispose of garbage and trash in a safe manner without creating a nuisance or an unsanitary condition. This center shall be of sufficient storage capacity to enable the public collection schedule to be met without overfilling containers provided. The center shall be located convenient to the public right-of-way or in a location arranged between the park licensee and the maintenance supervisor of the City of Rockwood.

(viii) A park-wide water and sewer system leading from a master connection with supplied public utilities to each mobile home space shall be provided according to the provisions of the Standard Plumbing Code, incorporated by reference in title 12. In no case shall outside valves or traps be required which duplicate those already provided inside a mobile home unit by a manufacturer subscribing to national standards of mobile homes manufacturers, nor shall any custom-fitted device be required which differs from national or statewide mobile home standards.

(ix) A park-wide electrical power system, primary electrical distribution lines, and service equipment may be installed and maintained by the Electric Power Board of Rockwood serving the entire park (or major sections thereof not smaller than twenty-four (24) spaces) and meters may be overhead or underground.

Feeder (secondary distribution lines to individual spaces or groupings of spaces), in general, shall be installed underground and maintained by the park. Feeder systems or parts thereof may be installed above ground in connection with mid-block fences or walls, under canopies of covered walkways, or in similarly protected locations, or overhead on acceptable type poles of suitable height, number, and location to blend unobtrusively with the residential character and appearance of the park, provided such above ground or overhead installation is in accordance with
the detailed plans submitted in the application for the trailer court license. In evaluating the plan, prior to issuance of a building permit, the building official shall consult with the Electric Power Board for location of primary and feeder systems.

(x) A park-wide fire protection system, equipped with standard fire hydrants connected to a water supply capable of delivering at least 500 g.p.m. for a duration of not less than two (2) hours shall be available within five hundred (500) feet of each mobile home space or park building. Locations shall be determined by the fire chief of the City of Rockwood. Mains connecting such hydrants with the public water system shall be not less than six (6) inches in diameter if looped or eight (8) inches in diameter if dead-end. The fire protection system may be integrated with the park water supply system.

Fire alarm boxes shall be provided for the park at locations and in numbers determined by the fire chief.

Cooking shelters, barbecue pits, wood, or coal burning stoves and fireplaces, and incinerators, if provided, shall be so located, constructed, maintained, and used so as to minimize fire hazards and smoke nuisances both on the property on which used and on neighboring property. No open fire shall be permitted except in facilities provided. No open fire shall be left unattended and all open fires shall be extinguished before occupants of spaces retire or leave the area. No fuel shall be used and no material burned which emits dense smoke or objectionable odors.

Any community area designated by the fire chief as a fire hazard area shall be equipped with such extinguishing equipment, maintained in good working order, as he may direct.

(c) Park site improvements shall be required commensurate with the standards for living in conventional housing in the City of Rockwood to ensure a home-like atmosphere, suitable in appearance and liveability for occupants of the park.

The park shall be fitted to the terrain with a minimum disturbance of the land. Existing trees, rock formations, and other site features shall be preserved to the extent practicable.

(i) Site grading shall be accomplished to such extent and in such manner that the finished grade will provide diversion of water away from buildings, patios, and mobile home stands; prevent standing water and soil saturation detrimental to structures and to park and mobile home space use; provide disposal of storm water from the park either in drainage structures or unpaved drainage swales to off-site drainageaways, the permanence and maintenance of which is assured by easements, public right-of-way, or other means; contain in all exposed area a
sufficient depth of workable topsoil, free of lumps, debris and stones, of sufficient fertility to sustain vigorous plant growth. To this end, topsoil existing on the site prior to any grading shall be removed from all areas to be paved or occupied by structures, stock-piled, and distributed to exposed areas of the park.

(ii) Lawn and other ground cover shall be provided where needed to prevent erosion of slopes and swales and to obtain usable yards for individual mobile home spaces. Such ground cover shall be maintained as a thick permanent stand on all park areas except those covered by structures, paved, or an otherwise surfaced area and planting beds, and except on undisturbed areas such as woods which are to be preserved in their natural state.

(iii) Trees and shrubs planted shall be hardy, appropriate to their use and location, and planted so as to thrive with normal maintenance.

(iv) Screen plantings are required to screen objectionable views, including but not limited to all laundry drying yards, refuse collection centers, adjacent non-residential uses, and views of rear yards of adjacent properties.

(v) Plantings of trees and shrubs shall be made to provide an attractive setting for the mobile homes and other improvements, to provide adequate privacy and pleasant outlooks for living units, to minimize reflected glare, and to afford summer shade. Community areas shall be liberally landscaped.

(d) Improvements to each mobile home space shall be required as follows:

(i) Permanent lot markers, flush with the ground, locating lot limits approximately the same as on the approved plans (accuracy to one (1) foot).

(ii) A permanent mobile home stand, constructed of six inches of concrete on a suitable subgrade. Size of stands shall be not less than 10' x 45'; however, not less than 50 per cent of stands shall be not less than 10' x 50'.

(iii) An accessway not less than twelve (12) feet wide shall be provided to each mobile home stand, reserved for maneuvering the mobile home into position, and kept free from trees and other immovable obstructions. Pavement of the accessway is not required.

(iv) Parking space for automobiles shall be provided in parking bays at the rate of one parking space for residents and one parking space for guests for each mobile home space. Such bays shall be constructed of not less than four (4) inches of "crusher-run" stone compacted on a suitably prepared subgrade

Such bays shall be so located that each 9' x 19' parking space therein shall be at least seven (7) feet distant from the edge of the traveled way of any park drive and that each parking space designated to serve a particular mobile home space shall be not farther than one hundred (100) feet from its stand.

However, where park drives are eight (8) feet wider than the minimum prescribed in § 14-407(3)(a), the required parking bay for mobile homes shall be reduced according to the number of spaces provided thereby. Moreover, where mobile homes are clustered in integrated groupings, the total required parking for the bay for that cluster shall be:

It shall be paved with a permanent and attractive material, appropriately landscaped for privacy, and provided with at least one double 110 volt electrical outlet for outdoor use.

Such interior collections shall be timed to meet municipal collections of park refuse from the park refuse collection center. Such containers shall be provided with a concrete pad and areas adjacent shall be so landscaped and screened as not to present an ugly appearance or to interfere with pleasurable residential living. Containers may be provided for mobile home spaces or for groups of spaces, but any container shall be generally not more than one hundred (100) feet from each stand served.
The licensee of each mobile home park is required to keep a register of all occupants of the park. This register shall be available at all times to law enforcement officers, public health officials, and other officials whose duties require such information. Records pertaining to departed occupants shall not be destroyed for a period of three (3) years following their departure. The register shall contain the following information:

(a) Names of all occupants of the mobile home quartered on each designated space and ages of minors.

14-408. Mobile homes on individual lots. Mobile homes on individual lots may be permitted in the City of Rockwood only if provided with the following improvements to site and lot necessitated to supplement the limited interior space and facilities of a mobile home, designed by manufacturers for living in and served by the group facilities of a mobile home park.

(1) Individual connection with permanent and appropriate traps and fittings to both a public water supply and a public sanitary sewer.
   (a) The lot requirements for a mobile home shall be the same as required for residences as defined in the zoning ordinance.
   (b) A deposit of one hundred and fifty dollars ($150.00) shall be deposited with the city recorder for each trailer or mobile home permit issued by the building inspector. The deposit shall be returned if, within 90 days from the date the permit was issued, the mobile home is brought into compliance with the mobile home ordinance, and approved by the building inspector. If the mobile home is not brought into compliance with the ordinance within ninety (90) days from the date the permit is issued, the deposit is to be forfeited.
   (c) It shall be unlawful for any person to own or occupy any mobile home within the corporate limits of Rockwood unless all state registration taxes due thereon have been paid.
(2) Individual connection to public electric power.
(3) A permanent concrete or masonry foundation, closed and vented, designed to bear the mobile home designated for permanent occupancy of the lot, constructed according to the provisions of title 12.
(4) A permanent storage building, constructed from weather-resistant materials similar in nature and design with the mobile home proposed for the lot. Storage space shall be provided not less in amount than one-hundred-sixty (160) cubic feet in volume, the smallest dimension of which is four (4) feet.
Additional space may be provided if feasible underneath the mobile home unit. Any such space devoted to storage or service shall be constructed with a four (4) inch concrete floor.

(5) A permanent patio, paved with permanent, attractive material, appropriately landscaped for privacy, and provided with at least one double 110-volt electrical outlet for outdoor use. The patio shall be convenient to the entrance of the mobile home and appropriately related to the open areas of the lot and to the carport.

The patio shall be sufficiently large in area to provide a total usable living area, indoor and outdoor, commensurate with that of typical single-family dwellings in Rockwood, an area hereby declared to be not less than one thousand (1,000) square feet and the number of square feet of the usable floor space provided inside the mobile home, but in no case less than two hundred and forty (240) square feet. The patio shall be reasonably compact in shape, the minimum dimension being fifteen (15) feet for patios with an area of three hundred square feet and greater or twelve (12) feet if less than three hundred square feet in area.

The patio may be partially or totally roofed in a manner consistent with the design and construction of the mobile home.

(6) A concrete walk of standard construction and a minimum width of three (3) feet and a minimum thickness of four (4) inches shall extend from the mobile home entrance to the street pavement, a public walk, or a driveway connecting thereto. A service walk of a minimum width of two (2) feet shall connect the main walk or mobile home entrance with the storage and service area, patio, refuse area, and accessory parking.

(7) Lawn and ground cover shall be planted in all exposed or disturbed areas of the lot not occupied by structures. Shrubs, trees, and screen planting shall be provided in accord with the principles and standards for residential living stated in § 14-407(3)(c) of this chapter. Soil may be made fertile and capable of supporting vigorous growth. Planting in undisturbed areas of the lot may be omitted when, in the opinion of the building official, sufficient and suitable existing vegetation is present to prevent erosion and to provide shade and amenity for living.

(8) A refuse storage area, adequately screened not to be easily visible from the walk, patio, public street, or front yard of adjoining property and located convenient to appropriate lot areas.

(9) Any roofed carport, if provided, shall be constructed on a four-inch concrete pad 10' x 20' in area. Materials used in the superstructure of such carport shall be compatible with the type of construction of the mobile home unit.

The carport shall be connected with the public street by a driveway. Not less than one guest parking space shall be provided, but may be part of the driveway. (1970 Code, § 4-608)
14-409. Requirements for temporary occupancy. Mobile homes, travel trailers, and partial travel trailer units are permitted for temporary occupancy under the following conditions and circumstances:

(1) A single mobile home or travel trailer may be placed on a lot where the applicant shows it is necessary to provide for the grading of a construction site or the care of a sick or infirm person who resides on that lot. In such cases a temporary permit may be granted by the building official for a period not exceeding three (3) months, renewable for periods not exceeding a total of one (1) year. A condition for issuance of such permit is that cooking, sleeping and living space and waste disposal for the number of persons occupying such single mobile home or travel trailer shall be provided consistent with this chapter and other pertinent laws. The applicant shall pay to the City of Rockwood a fee of fifty dollars ($50.00) for the issuance of said temporary permit.

(2) A temporary mobile home park may be licensed, consistent with the spirit of § 14-407 in this chapter, where the applicant shows there is a sudden and temporary high demand for housing in the Rockwood area caused by a large construction project, a natural disaster, or other situation which cannot be met by permanent housing available in the community. In such cases, such a license may be issued for a period of not to exceed one (1) year, renewable only upon action of the board of appeals upon a showing of continued necessity for not more than one additional period not to exceed one (1) additional year.

In varying the requirements of § 14-407 for this purpose the board of appeals may allow: drives, walks, and mobile home stands to be of gravel; park office, community, and service buildings to be of temporary construction; outdoor recreational area developed minimally; guest parking spaces omitted and parking bays and areas of gravel; utilities provision to be minimal and electric distribution to be overhead; park site improvements such as trees and shrubs requiring several years to reach maturity to be substituted with other temporary or fast-growing planting; and patios to be of temporary construction. The board of appeals shall not vary space and sanitation requirements only because of the temporary nature of the occupancy.

(3) A travel trailer park may be licensed, provided rentals of spaces are for periods of the day or week, and occupancy is for total periods not to exceed thirty (30) days by any tenant. Such travel trailer parks shall meet the requirements of § 14-410 below. (1970 Code, § 4-609, as amended by Ord. #11-98, Feb. 2015, and Ord. #12-21, May 2016)

14-410. Travel trailer parks. The following regulations shall apply to travel trailer parks:

(1) The site on which the travel trailer park is located shall be of adequate size to provide a healthful, safe, and reasonably quiet environment and to minimize the adverse effects, if any, to and from adjacent land uses. The minimum number of spaces for trailer coaches available at first occupancy shall be four (4). Each such space shall have ample room to insure that the unit occupying that space shall be no closer than:
(a) Eight (8) feet from any common walk;
(b) Twenty (20) feet from any interior park drive, any other stand for a trailer coach, or any common recreation or other area;
(c) Fifty (50) feet from any park building or service facility, non-residential building on the lot, parking lot or other structure serving such non-residential building, other property line, or public right-of-way line.

(2) The following required improvements are hereby declared the minimum necessary in order to insure that a travel trailer park is suitable for temporary human habitation.

(a) Adequate lighted internal driveway and walkway improvements equivalent to the standards set by § 14-407(3)(a) for mobile home parks. However, the entrance drive may be shared with another use to which the travel trailer park is accessory, according to the provisions of the zoning ordinance.

(b) Park facilities shall include:
   (i) A management and registration office in a permanent building reasonably proximate to the park entrance;
   (ii) Adequate management storage space;
   (iii) A self-service laundry of minimum size, according to standards for mobile home parks, unless such is available commercially within one-half mile of the park; and
   (iv) Toilet and bathing facilities consisting of at least one lavatory, one water closet, and one shower stall, distinctly marked for each sex; maintained in a clean, safe, and sanitary condition; maintained in good working order; housed in a permanent building; and appropriately heated and ventilated. Such facilities shall be for the exclusive use of occupants of the travel trailer park and shall be located no farther than two hundred (200) feet from the spaces served. Where spaces are made available for tent campers or other partial travel trailer units, additional toilet and bathing facilities shall be required at the rate of one additional lavatory, water closet, and shower stall for each sex for each ten (10) additional trailer coach spaces available for such use.

   (v) Provision for outdoor cooking and eating, including at least one outdoor barbecue and one picnic table for each five (5) trailer spaces or fraction thereof. At least one source of water shall be provided. A covered picnic shelter shall be provided at any cooking area(s). Such shelter shall be of suitable permanent construction on a not less than four (4) inch concrete slab having minimum dimensions of 10' x 20'. Such shelter may be built integrally with the toilet and bathing facilities, provided there is adequate separation of functions.
(vi) Outdoor recreational area, provided proximate to the park, of a minimum area of 5,000 square feet appropriately developed for the first five (5) spaces and one hundred (100) additional square feet per additional trailer coach space. Such areas may include the picnic area but no space devoted to service or parking or other utilitarian functions shall be counted toward the required recreational areas. Recreational area may be shared with additional area for recreation for a motel, restaurant, or other similar joint use provided space is sufficient for all users under these standards.

(vii) Accessory parking at the rate of one (1) parking space per trailer space at each trailer space located so that disconnection of the trailer from the car is not necessary.

(viii) A refuse collection center.

(ix) A water and sewer system, with connections to each trailer coach space as for mobile home parks at all spaces except for those reserved for tent camping or other use by partial travel trailer units, in which case suitable alternative provisions shall be made.

(x) If spaces are to be rented to travel trailers with waste holding tanks, at least one (1) sanitary station in a well-screened location, consisting of a drainage basin constructed of impervious material, containing a disposal hatch with self-closing cover, and related washing facilities including at least one (1) slop sink or slop water closet. Each disposal hatch shall be connected to the park sewerage system. Facilities required to wash holding tanks and the area around the sanitary station shall be situated not farther than two-hundred (200) feet from any space available for trailer coaches equipped with waste-holding tanks and not closer to any trailer stand or cooking or eating area than fifty (50) feet.

(xi) Park site improvements equivalent to the standards for mobile home parks established in § 14-407(3)(c).

(xii) A fire protection system equivalent to the standard established for mobile home parks. Similar observance of rules for fires as those for mobile home parks shall be required.

(c) Improvements to each trailer coach space shall include:

(i) A trailer coach stand composed of not less than six (6) inches of compacted gravel or other suitable material of a size not less than 10’ x 30’ and a clear accessway from the park drive to the stand at least ten (10) feet wide.

(ii) A tenant refuse container on a four (4) inch concrete pad, unless provided for groups of spaces not farther than two
hundred feet from each stand served. The park management shall make daily collections.

(iii) A weatherproof electrical connection supplying 110 volts.

(iv) Water and sewer connections except to those spaces reserved for tent campers in which one outdoor water hydrant shall be provided to such space.

(3) The licensee of each travel trailer park shall be required to keep a register of occupants available at all times for inspection by proper officials. Such records shall not be destroyed for a period of three years following departure of occupants. The register shall contain the following information:

(a) Names of all occupants quartered on each designated trailer coach space;
(b) Description, make, model, and year of all trailer coaches and towing or other vehicles and state and license number of each; and
(c) Dates of arrival and departure of occupants of each trailer coach space. (1970 Code, § 4-610)

14-411. **Legal and enactment provisions.** The provisions made herein are supplemental and additional to provisions of other ordinances of the City of Rockwood and to public and private laws applicable to such city. In case of a conflict between this chapter or any part thereof and the whole thereof and the whole or part of any existing or future ordinance of the City of Rockwood, the more restrictive shall apply, unless pertaining to other chapters of Title 12 of the Rockwood Municipal Code which are herein specifically modified, in which case the provisions of this chapter will control.

If any section, clause, provision, or portion of this chapter shall be held invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect any other section, clause, provision, or portion of this chapter which is not of itself invalid or unconstitutional.

This shall become effective on April 28, 1967, 30 days after passage by the Board of Commissioners of the City of Rockwood, the public welfare requiring it. (1970 Code, § 4-611)

Any excavation on any public or private property within the city limits of Rockwood shall conform to the Tennessee Department of Environment and Conservation: Erosion and Sediment Control Handbook, second edition, March 2002, and any subsequent editions which may supersede it. It shall also be unlawful for any person, firm, corporation, association, or others, including utility districts to make any excavation of any street, alley, or public place, or to tunnel under any street, alley, or public place without having first obtained a permit as herein required, and without complying with the provisions of this chapter; and it shall also be unlawful to violate, or vary from, the terms of any such permit; provided, however, any person maintaining pipes, lines, or other underground facilities in or under the surface of any street may proceed with an opening without a permit when emergency circumstances demand the work to be done immediately and a permit cannot reasonably and practicably be obtained beforehand. The person shall thereafter apply for a permit on the first regular business day on which the office of the city recorder is open for business, and the permit shall be retroactive to the date when the work was begun. (as replaced by Ord. #07-1098, Dec. 2006)

¹State law reference
This chapter was patterned substantially after the ordinance upheld by the Tennessee Supreme Court in the case of City of Paris, Tennessee v. Paris-Henry County Public Utility District, 207 Tenn. 388, 340 S.W.2d 885 (1960).
16-202. **Applications.** Applications for such permits shall be made to the city recorder, or such person as he may designate to receive such applications, and shall state thereon the location of the intended excavation or tunnel, the size thereof, the purpose thereof, the person, firm, corporation, association, or others doing the actual excavating, the name of the person, firm, corporation, association, or others for whom the work is being done, and shall contain an agreement that the applicant will comply with all ordinances and laws relating to the work to be done. Such application shall be rejected or approved by the city recorder within twenty-four (24) hours of its filing.

16-203. **Fee.** The fee for such permit shall be determined in accordance with the applicable provisions of the *International Residential Code* adopted by the City of Rockwood by separate ordinance. (as replaced by Ord. #11-99, March 2015)

16-204. **Deposit or bond.** No such permit shall be issued unless and until the applicant therefor has deposited with the city recorder a cash deposit. The deposit shall be in the sum of five hundred dollars ($500.00) if no pavement is involved or one thousand dollars ($1,000.00) if the excavation is in a paved area and shall insure the proper restoration of the ground and, laying of the pavement, if any. Where the amount of the deposit is clearly inadequate to cover the cost of restoration, the city recorder may increase the amount of the deposit to an amount considered by him to be adequate to cover the cost. From this deposit shall be deducted the expense to the city of relaying the surface of the ground or pavement, and of making the refill if this is done by the city or at its expense. The balance shall be returned to the applicant without interest after the tunnel or excavation is completely refilled and the surface or pavement is restored.

In lieu of a deposit the applicant may deposit with the city recorder a surety bond in such form and amount as the city recorder shall deem adequate to cover the costs to the city if the applicant fails to make proper restoration.

16-205. **Safety restrictions on excavations.** Any person, firm, corporation, association, or others making any excavation or tunnel shall do so according to the terms and conditions of the application and permit authorizing the work to be done. Sufficient and proper barricades and lights shall be maintained to protect persons and property from injury by or because of the excavation being made. If any sidewalk is blocked by any such work, a temporary sidewalk shall be constructed and provided which shall be safe for travel and convenient for users.

16-206. **Restoration of streets, etc.** Any person, firm, corporation, association, or others making any excavation or tunnel in or under any street, alley, or public place in this city shall restore the street, alley, or public place to
its original condition except for the surfacing, which shall be done by the city but shall be paid for promptly upon completion by such person, firm, corporation, association, or others for which the excavation or tunnel was made. In case of unreasonable delay in restoring the street, alley, or public place, the city recorder shall give notice to the person, firm, corporation, association, or others that unless the excavation or tunnel is refilled properly within a specified reasonable period of time, the city will do the work and charge the expense of doing the same to such person, firm, corporation, association, or others. If within the specified time the conditions of the above notice have not been complied with, the work shall be done by the city, an accurate account of the expense involved shall be kept, and the total cost shall be charged to the person, firm, corporation, association, or others who made the excavation or tunnel.

16-207. Insurance. In addition to making the deposit or giving the bond hereinbefore required to insure that proper restoration is made, each person applying for an excavation permit shall file a certificate of insurance indicating that he is insured against claims for damages for personal injury as well as against claims for property damage which may arise from or out of the performance of the work, whether such performance be by himself, his subcontractor, or anyone directly or indirectly employed by him. Such insurance shall cover collapse, explosive hazards, and underground work by equipment on the street, and shall include protection against liability arising from completed operations. The amount of the insurance shall be prescribed by the city recorder in accordance with the nature of the risk involved; provided, however, that the liability insurance for bodily injury shall not be less than $150,000 for each person and $350,000 for each accident, and for property damages not less than $50,000 for any one (1) accident, and a $75,000 aggregate.

16-208. Time limits. Each application for a permit shall state the length of time it is estimated will elapse from the commencement of the work until the restoration of the surface of the ground or pavement, or until the refill is made ready for the pavement to be put on by the city if the city restores such surface pavement. It shall be unlawful to fail to comply with this time limitation unless permission for an extension of time is granted by the city recorder.

16-209. Supervision. The person designated by the board of mayor and aldermen shall from time to time inspect all excavations and tunnels being made in or under any public street, alley, or other public place in the city and see to the enforcement of the provisions of this chapter. Notice shall be given to him at least ten (10) hours before the work of refilling any such excavation or tunnel commences.
16-210. **Driveway curb cuts.** No one shall cut, build, or maintain a driveway across a curb or sidewalk without first obtaining a permit from the city. Such a permit will not be issued when the contemplated driveway is to be so located or constructed as to create an unreasonable hazard to pedestrian and/or vehicular traffic. No driveway shall exceed thirty-five (35) feet in width at its outer or street edge and when two (2) or more adjoining driveways are provided for the same property a safety island of not less than ten (10) feet in width at its outer or street edge shall be provided. Driveway aprons shall not extend out into the street. (1970 Code, § 12-206)

16-211. **Violation and penalty.** Any violation of this chapter shall constitute a civil offense and shall be punishable by a civil penalty under the general penalty provision of this code, by revocation of permit, or by both penalty and revocation. Each day a violation shall be allowed to continue shall constitute a separate offense.
CHAPTER 3

STREET NAMES AND PROPERTY NUMBERS

SECTION
16-301. Street names.
16-302. Property numbers.

16-301. Street names. There is hereby established an official system of street names in the City of Rockwood as shown on a map of record in the city recorder's office. The map is entitled "Rockwood, Tennessee," and is dated June 12, 1958. It was produced by the Tennessee State Planning Commission and is incorporated herein and made a part of this section by reference.

The names of streets in the City of Rockwood shall remain as shown on said map unless officially changed by ordinance.

No new streets shall be accepted by the city nor any municipal improvements made therein until such streets have been named. If such new streets are extensions of existing streets, the existing names shall be continued; if not extensions, they shall be given names which neither duplicate nor closely approximate street names already assigned. (1970 Code, § 12-101)

16-302. Property numbers. There is hereby established a uniform system of numbering properties and principal buildings in the City of Rockwood as shown on the map entitled "Property Numbering System" of record in the city recorder's office. The map is incorporated herein and made a part of this section by reference.

All properties or parcels of land within the corporate limits shall hereafter be identified by reference to the uniform numbering system adopted herein. All existing numbers of properties and buildings not in conformity with this uniform system shall be changed by the owner so as to conform forthwith.

Within zone 1, as shown on the map, a separate number shall be assigned for each twenty-five (25) feet of frontage.

Within zone 2, a separate number shall be assigned for each fifty (50) feet of frontage.

1See also Ord. #842, of record in the recorder's office, which purports to adopt a map entitled "Official Streets and Roads Map, Rockwood, Tennessee and Vicinity, Roane County, Tennessee," dated September, 1982. See also Ord. #843, of record in the recorder's office, which permanently closes an unopened alley; Ord. #941, dated August 17, 1992, and the list attached to Ord. #941 which was adopted as the official street names for the City of Rockwood; and Ord. #968, dated March 21, 1994, which quit claimed the alley right-of-way abutted on both sides by Paradise Baptist Church.
Each principal building shall bear the number assigned to the frontage on which the front entrance is located. In case a principal building is occupied by more than one business or family dwelling unit, each separate front entrance of such principal building shall bear a separate number. The numerals shall be posted in such a manner as to be visible from the street on which the property is located.

The Roane County Emergency 911 (E-911) system shall administer the numbering system. (1970 Code, § 12-102, modified)

Property maintenance regulations: title 13.
17-103. **Brush defined.** Brush shall mean and include tree limbs and tree trunks cut in lengths not to exceed six (6) feet, shrubs and shrub trimmings and brush as those terms generally defined except that debris and refuse as defined and used building materials including roofing and similar materials are expressly excluded therefrom and shall not be stored therewith. (1970 Code, § 8-203)

(1970 Code, § 8-204)

17-105. **Premises to be kept free of.** All persons within the City of Rockwood are hereby required to keep their premises in a clean and sanitary condition, free from accumulations of refuse, debris, brush, and used building materials, except when the same is stored in such refuse containers as are described in this chapter. The city may abate nuisances created by violations of this section at the property owner's expense when the owner does not take appropriate action after reasonable notice from the city. Any costs thereby incurred by the city may be collected the same as delinquent taxes are collected. (1970 Code, § 8-205)

17-106. **Fee schedule.** Charges for collection of refuse, debris, brush and used building materials as defined are determined by a fee schedule approved by the Rockwood City Council. Revisions and exceptions to the fee schedule will be approved by the city council. (1970 Code, § 8-206)

17-108. **Storage.** Each owner, occupant, or other responsible person using or occupying any building or other premises within the City of Rockwood where refuse accumulates, or is likely to accumulate, shall provide and keep covered an adequate number of strong, durable, rodent and insect proof, refuse containers each having a capacity of not more than thirty-two (32) gallons. The combined weight of the refuse container and its contents shall not exceed seventy-five (75) pounds. Each refuse container shall be equipped with lifting handles or a bail and a tight fitting lid and no refuse container shall have any jagged or sharp edges that might injure a person handling it. No refuse shall be placed in a refuse container until it has been drained of all free

17-109. **Location of containers.** Where alleys are used by the city refuse collectors, containers shall be placed on or within six (6) feet of the alley line in such a position as not to intrude upon the traveled portion of the alley. Where streets are used by the city refuse collectors, containers shall be adjacent to and back of the curb, or adjacent to and back of the ditch or street line if there be no curb, at such times as shall be scheduled by the city for the collection of refuse therefrom. As soon as practicable after such containers have been emptied they shall be removed by the owner to within, or to the rear of, his premises and away from the street line until the next scheduled time for collection. (1970 Code, § 8-209)

17-110. **Disturbing containers.** No unauthorized person shall uncover, rifle, pilfer, dig into, turn over, or in any other manner disturb or use any refuse container belonging to another. This section shall not be construed to prohibit the use of public refuse containers for their intended purposes. (1970 Code, § 8-210)

17-111. **Collection.** Except as provided herein, all refuse accumulated within the corporate limits shall be collected, conveyed and disposed of by the city or by the collection service the city has contracted with. Collections shall be made regularly in accordance with an announced schedule. All residents, commercial users, industrial users, real estate owners and real estate tenants within the corporate limits are required to participate in said refuse collection services and pay the fees therefor imposed by Rockwood City Council pursuant to § 17-106 of the Rockwood Municipal Code, unless an exception has been granted, or unless the commercial or industrial user qualifies for the exception set forth in § 17-114 of the Rockwood Municipal Code. The city administrator is authorized and empowered to grant exceptions for the following reasons:

1. A residential owner or tenant suffers from a medical condition that prevents said residential owner or tenant from taking refuge to the curb of the city street for pickup, and has provided other means for the regular, weekly removal of said refuse.
2. The real estate, whether residential, commercial or industrial, is vacant and thereby no refuse is produced thereon.
3. The real estate is used exclusively for livestock purposes as permitted by the Rockwood Municipal Code.
4. A commercial or industrial user has contracted for a dumpster, and the regular collection of refuse from said dumpster, and has produced a copy of such contract.
Exceptions for any reasons other than those stated above and those allowed by § 17-114 of the Rockwood Municipal Code must be approved by city council.

However, building and industrial wastes shall not be collected by the city except when the city is reimbursed according to the fee schedule for rendering such service. The person creating or in possession of such wastes shall be responsible for the disposal of the same in such manner as will not violate the provisions of this chapter. For the purposes of this section "building waste" shall mean waste incident to and resulting from building construction and repair, and from clearing land for new construction. "Industrial waste" shall mean waste and by-products of manufacturing and processing establishments.

It shall be unlawful for parties living outside the City of Rockwood to transport refuse generated outside the City of Rockwood into the corporate limits for the purpose of disposal. (1970 Code, § 8-211, as replaced by Ord. #12-61, Sept. 2019 Ch4_6-20-22)

17-112. Collection vehicles. The collection of refuse shall be by means of vehicles with beds constructed of impervious materials which are easily cleanable and so constructed that there will be no leakage of liquids draining from the garbage onto the streets and alleys. Furthermore, all refuse collection vehicles shall utilize closed beds or such coverings as will effectively prevent the scattering of refuse over the streets and alleys. (1970 Code, § 8-212)

17-113. Disposal. The disposal of refuse in any quantity by any person in any place, public or private, other than at the site or sites designated for refuse disposal by the city council is expressly prohibited. Failure to comply with the proper disposal of refuse shall result in penalties covered in § 17-107. (1970 Code, § 8-214)

17-114. Exceptions. Sections 17-106, 17-108, 17-109 and 17-111, shall not be applied to commercial or industrial users who contract to have their garbage hauled off, unless services are provided by the city. (1970 Code, § 8-216)

(d) Gasoline, benzine, naphtha, fuel oil, mineral oil, and other flammable or explosive liquids, solids, or gases.

(e) Unshredded or improperly shredded garbage.

(i) Unusual concentrations of inert suspended solids (such as but not limited to Fullers earth, lime slurries, and lime residues) or if dissolved solids (such as but not limited to sodium chloride and sodium sulfate).

(ii) Unusual BOD (above 400 mg/l) and COD (above 800 mg/l), or chlorine requirement in such quantities as to constitute a significant load on the sewage treatment works. A charge may be established by the superintendent for BOD and COD in excess of the previous figures.

(iii) Unusual volume of flow or concentration of wastes constituting "Slugs" and defined herein.

(p) Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment process employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

(q) Waters or wastes containing nitrogen in excess of 40 mg/l and settleable solids in excess of 20 mg/l. A charge may be established by the superintendent for wastes with excess nitrogen and settleable beyond that of the previous figures.

**Note:** The above maximum concentrations are based on research which has defined tolerance levels of various incompatible wastes relative to sewage treatment plant unit operations. Since there is no safety factor in the above parameter limits, careful judgement must be used to determine at what point corrective action must be taken to prevent incompatible pollutant concentrations from exceeding the maximum allowed in Table 2. It is important to note that cumulative toxicities and synergistic effects due to a mixture of incompatible wastes may have a deleterious effect on sewage treatment plant process at concentrations much less than those shown above. The second column indicates these same values with a safety factor applied. (A factor of 5 in most cases.) This is the recommended approach to listing incompatible pollutant concentrations in sewer use ordinances to protect the treatment plant. Additionally, the parameters listed in Table 2 are derived on the assumption that an effluent limited permit condition exists. However, in certain cases where the effluent standards for the sewage treatment plant are based on a water quality limited condition, then the concentrations stipulated in Table 2 may have to be adjusted downward to satisfy the permit requirements.

<sup>3</sup> BDL: Below detectable limit.
(2) If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, and contain the substances or possess the characteristics enumerated in § 18-105(1) and which in the judgment of the superintendent, and/or the Division of Water Quality Control, Tennessee Department of Health, may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the superintendent may:

(a) Reject the wastes;
(b) Require pretreatment to an acceptable condition for discharge to the public sewers;
(c) Require control over the quantities and rates of discharge; and/or
(d) Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges. Payment may be established by the superintendent.
(e) Require payment to cover the added cost of handling and treating the toxic or excess waste of an industry. Payment may be established by the superintendent.

(3) Grease, oil, and sand interceptors shall be provided when, in the opinion of the superintendent, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the superintendent, and shall be so located as to be readily and easily accessible for cleaning and inspection.

(4) Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

(5) When required by the superintendent, the owner of any property serviced by a building sewer carrying industrial wastes with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located and shall be constructed in accordance with plans approved by the superintendent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

(6) All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater," published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb,
and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples.)

(7) Industrial wastes. Users discharging industrial waste into the sewerage system shall be required to:

(a) Pretreat waste in accordance with local, state, and federal guidelines for all established limits,

(b) Pay surcharge in accordance with § 18-105(2) and,

(c) Provide payment to the city for the extra cost incurred for construction of wastewater facilities in accordance with the guidelines established in MCD - 45 "Federal Guidelines - Industrial Cost Recovery Systems". Under no circumstance shall the concentration in the discharge exceed those limits established in Table 3. Plans for all pretreatment facilities shall be approved by the superintendent prior to construction, and the Tennessee Department of Health. At the time plans are submitted for approval, written maintenance plans shall also be submitted and approved by the superintendent. The facilities shall be allowed to operate only as long as they are maintained in accordance with approved maintenance plans. Treatment facilities shall be required by the city in the following cases:

(i) In cases where a waste may violate the requirements of § 18-105(1), but be alterable by chemical means to be an acceptable waste, the following requirements must be met. Plans shall be submitted for the neutralization of strong acid or alkaline wastes; the plans shall include the necessary instrumentation and controls to assure compliance with the above regulations at all times. Where the volume of acid or alkaline waste is sufficient, in the opinion of the superintendent, to affect quickly the performance of the waste treatment facilities, the user discharging such waste into the sewerage system shall authorize the city to neutralize the waste in emergencies and to charge the offending user for all costs, including chemicals and labor.

(ii) Equalization or holding tanks shall be required ahead of the receiving manhole in the city's sewerage system when deemed necessary by the superintendent to present peak flows that exceed the capacity of the system or that result in operational problems.

3 Industries may individually utilize the capacity of the sewage treatment plant until the maximum discharge (lbs./day) and flow limits (MGD) allocated to the industrial sector are utilized. When this point is reached, no further increase in industrial connections will be permitted. Industries which are presently attached to the system shall not be permitted to increase their discharge or flow rates. This is to prevent encroachment that portion of the plant's capacity allocated for domestic growth.

(iii) All preliminary treatment facilities shall be operated and maintained continuously in satisfactory and effective operation, by the owner at his expense.

(8) Waiver of requirements. There shall be no provision for the granting of variances for discharge of incompatible wastes in greater concentrations than specified in § 18-105, Tables 1, 2 and 3. If a user begins to violate any of the provisions of this section it shall be his responsibility to apply to the superintendent, who can at his discretion, issue a temporary permit along with a compliance schedule for planning and construction of necessary treatment or pretreatment works. Each case will be carefully evaluated with respect to its effect on the municipal treatment plant and the environment prior to issuance of a temporary permit and compliance schedule.

(9) Discontinuance of service for failure to comply. Failure to comply with provisions of this section shall be cause for the discontinuance of sewer or water service to the offending user. The procedure shall be as follows:
A written notice, signed by the superintendent, shall be delivered personally to the person then in charge of the offending use outlining the conditions of the wastes which violates the city ordinances. In the event that the person then in charge of the industry or business will not accept the notice, then it shall be conveyed by registered mail to the person in charge at the address of the business or industry. The person notified shall have twenty-four (24) hours from the time of receipt of the notice, either personally given or received by registered mail, to correct the offending conditions. If correction is not made or request for extension is not received by the superintendent within twenty-four (24) hours, it shall be mandatory that water or sewer service shall be discontinued to the offending user without further notice. If a request for an extension of time is received by the superintendent within twenty-four (24) hours of the above notice and if circumstances are such that the opinion of the superintendent, the best interest of the city would be served in extending the time for the correction of the offending condition, then he may grant an extension of time up to a maximum limit of thirty (30) days. (1970 Code, § 8-705)

18-106. Protection from damage. No unauthorized person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct. (1970 Code, § 8-706)

18-107. Powers and authority of inspectors. (1) The superintendent and other duly authorized employees of the city bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing in accordance with the provisions of this chapter. The superintendent or his representatives shall have no authority to inquire into any processes, including metallurgical, chemical, oil, refining, ceramic, paper, or other industries, beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for waste treatment.

(2) While performing the necessary work on private properties, subsection (1) above, the superintendent or duly authorized employees of the city shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the city employees and the city shall indemnify the company against loss or damage to its property by community employees and against liability claims and demands for personal injury or property damage asserted against the company and growing out of the gauging and sampling operation, except as such may be caused by negligence or failure of the company to maintain safe conditions as required in § 18-105(8).
(3) The superintendent and other duly authorized employees of the city bearing proper credentials and identification shall be permitted to enter all private properties through which the city holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved. (1970 Code, § 8-707)

18-108. Violations. (1) Any person found to be violating any provision of this chapter except § 18-106 shall be served by the city with a written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.

(2) Any person who shall continue any violation beyond the time limit provided for in the preceding subsection shall be guilty of a misdemeanor, and on conviction thereof may be fined in the amount not exceeding fifty dollars for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.

(3) Any person violating any of the provisions of this chapter shall become liable to the city for any expense, loss, or damage occasioned the city by reason of such violation. (1970 Code, § 8-708)

18-203. When a connection to the sanitary sewer is required.
18-204. When a septic tank is required.
18-205. Use of other than prescribed facilities.

18-201. **When sanitary sewage disposal facilities are required.** All land situated within the corporate limits and improved with a building or structure wherein people live, are employed, or congregate shall be required to have such sanitary facilities for sewage disposal as are prescribed by this chapter. (1970 Code, § 8-301)

18-202. **Responsibility for installation and maintenance of facilities.** The owner of all property required by this chapter to have sanitary facilities for sewage disposal shall be responsible for the proper installation of such facilities. The occupant or person having immediate use and control of such property shall be responsible for maintaining the facilities in a sanitary and usable condition unless by contractual arrangement between the parties the owner expressly assumes to retain such responsibility.

The owner, tenant or occupant of each lot or parcel of land required to be connected to the sanitary sewer by § 18-203 of the Rockwood Municipal Code, or any other provision of said code, or any other state or federal regulation of or law, shall each be responsible for the proper installation and maintenance of such facilities unless by contractual arrangements between the parties, only one (1) of the parties expressly assumes to retain such responsibility. The Rockwood Water, Sewer and Natural Gas Department may refuse water service to any such owner, tenant, or occupant for any such property, lot or parcel of land, whether within or outside the city limits of the City of Rockwood, when the private sewer line, or any portion thereof, connecting said property, lot or parcel to the sanitary sewer system has not been properly installed or has been improperly maintained. Additionally, when an owner, tenant or occupant has failed to repair, replace or properly maintain a private sewer line connecting any lot, parcel of land or property to the sanitary sewer system within thirty (30) days after transmittal of a notice to repair, replace or properly maintain, the Rockwood Water, Sewer and Natural Gas Department may discontinue

water service to such property until the owner, tenant or occupant has complied with such notice. (1970 Code, § 8-302, as replaced by Ord. #12-55, Feb. 2019 Ch3_6-18-19)

18-203. **When a connection to the sanitary sewer is required.** All property required to have sanitary sewage disposal facilities and abutting upon a street or other public way containing a sanitary sewer is required to have such facilities connected to the sanitary sewer. Failure to connect to the sanitary sewer does not relieve responsibility to pay sanitary service usage charges. (1970 Code, § 8-303)

18-204. **When a septic tank is required.** All property located within the fire limits\(^1\) and required to have sanitary sewage disposal facilities but which does not abut on a sanitary sewer is required to have such sewage disposal facilities connected to a septic tank approved by the health officer. (1970 Code, § 8-304)

18-205. **Use of other than prescribed facilities.** Where this chapter requires a particular type of sewage disposal facility the use of any other type, or disposal by any other means, is hereby expressly prohibited unless approved by the health officer. The health officer is authorized to approve exceptions to the provisions of this chapter only when the lot size, soil composition, lay of the land, or other unusual circumstances makes the installation and use of the prescribed facilities unfeasible. 18-301. Objectives. The objectives of this chapter are:
(1) To protect the public potable water system of the Rockwood Water Sewer and Gas from the possibility of contamination or pollution by isolating within the customer's internal distribution system, such contaminants or pollutants that could backflow or back siphon into the public water system;
(2) To promote the elimination or control of existing cross connections, actual or potential, between the customer's in-house potable water system and non-potable water systems, plumbing fixtures, and industrial piping systems;
(3) To provide for the maintenance of a continuing program of cross connection control that will systematically and effectively prevent the contamination or pollution of all potable water systems. (1970 Code, § 8-401, as replaced by Ord. #12-42, Aug. 2017)

18-302. Definitions. The following words, terms and phrases shall have the meanings ascribed to them in this section, when used in the interpretation and enforcement of this article:
(1) "Air-gap" shall mean a vertical, physical separation between a water supply and the overflow rim of a non-pressurized receiving vessel. An

¹Municipal code references

Wastewater treatment: title 18.
approved air-gap separation shall be at least twice the inside diameter of the water supply line, but in no case less than six (6") inches. Where a discharge line serves as receiver, the air-gap shall be at least twice the diameter of the discharge line, but not less than six inches (6”).

(2) "Atmospheric vacuum breaker" shall mean a device, which prevents backsiphonage by creating an atmospheric vent when there is either a negative pressure or sub-atmospheric pressure in the water system.

(3) "Auxiliary intake" shall mean any water supply, on or available to a premises, other than that directly supplied by the public water system. These auxiliary waters may include water from another purveyor's public water system; any natural source, such as a well, spring, river, stream, and so forth; used, reclaimed or recycled waters; or industrial fluids.

(4) "Backflow" shall mean the undesirable reversal of the intended direction of flow in a potable water distribution system as a result of a cross connection.

(5) "Backpressure" shall mean any elevation of pressure in the downstream piping system (caused by pump, elevated tank or piping, steam and/or air pressure) above the water supply pressure at the point which would cause, or tend to cause, a reversal of the normal direction of flow.

(6) "Backsiphonage" shall mean the flow of water or other liquids, mixtures or substances into the potable water system from any source other than its intended source, caused by the reduction of pressure in the potable water system.

(7) "Bypass" shall mean any system of piping or other arrangement whereby water from the public water system can be diverted around a backflow prevention device.

(8) "Cross connection" shall mean any physical connection or potential connection whereby the public water system is connected, directly or indirectly, with any other water supply system, sewer, drain, conduit, pool, storage reservoir, plumbing fixture or other waste or liquid of unknown or unsafe quality, which may be capable of imparting contamination to the public water system as a result of backflow or backsiphonage. Bypass arrangements, jumper connections, removable sections, swivel or changeover devices, through which or because of which backflow could occur, are considered to be cross connections.

(9) "Double check valve assembly" shall mean an assembly of two (2) independently operating, approved check valves with tightly closing resilient seated shut-off valves on each side of the check valves, fitted with properly located resilient seated test cocks for testing each check valve.

(10) "Double check detector assembly" shall mean an assembly of two (2) independently operating, approved check valves with an approved water meter (protected by another double check valve assembly) connected across the check valves with tightly dosing resilient seated shut-off valves on each side of the check valves, fitted with properly located resilient seated test cocks for testing each part of the assembly.
"Fire protection system" shall be classified in six (6) different classes in accordance with AWWA Manual M14 - Second Edition 1990. The six (6) classes are as follows:

(a) Class 1 shall be those with direct connections from public water mains only; no pumps, tanks or reservoirs; no physical connection from other water supplies; no antifreeze or other additives of any kind; all sprinkler drains discharging to the atmosphere, dry wells or other safe outlets.

(b) Class 2 shall be the same as Class 1, except that booster pumps may be installed in the connections from the street mains.

(c) Class 3 shall be those with direct connection from public water supply mains, plus one (1) or more of the following: elevated storage tanks, fire pumps taking suction from above ground covered reservoirs or tanks, and/or pressure tanks (all storage facilities are filled from or connected to public water only, and the water in the tanks is to be maintained in a potable condition).

(d) Class 4 shall be those with direct connection from the public water supply mains, similar to Class 1 and Class 2, with an auxiliary water supply dedicated to fire department use and available to the premises, such as an auxiliary supply located within one thousand seven hundred feet (1,700') of the pumper connection.

(e) Class 5 shall be those directly supplied from public water mains and interconnected with auxiliary supplies, such as pumps taking suction from reservoirs exposed to contamination, or rivers and ponds; driven wells; mills or other industrial water systems; or where antifreeze or other additives are used.

(f) Class 6 shall be those with combined industrial and fire protection systems supplied from the public water mains only, with or without gravity storage or pump suction tanks.

"Interconnection" shall mean any system of piping or other arrangements whereby the public water supply is connected directly with a sewer, drain, conduit, pool, storage reservoir, or other device, which does or may contain sewage or other waste or liquid which would be capable of imparting contamination to the public water system.

"Person" shall mean any and all persons, natural or artificial, including any individual, firm or association, and any municipal or private corporation organized or existing under the laws of this or any other state or country.

"Potable water" shall mean water, which meets the criteria of the Tennessee Department of Environment and Conservation and the United States Environmental Protection Agency for human consumption.

"Pressure vacuum breaker" shall mean an assembly consisting of a device containing one (1) or two (2) independently operating spring-loaded
check valves and an independently operating springloaded air inlet valve located on the discharge side of the check valve(s), with tightly closing shut-off valves on each side of the check valves and properly located test cocks for the testing of the check valves and relief valve.

(16) "Public water supply" shall mean Rockwood Water Sewer and Gas, which furnishes potable water to the public for general use and which is recognized as the public water supply by the Tennessee Department of Environment and Conservation.

(17) "Reduced pressure principle backflow prevention device" shall mean an assembly consisting of two (2) independently operating approved check valves with an automatically operating differential relief valve located between the two (2) check valves, tightly closing resilient seated shut-off valves, plus properly located resilient seated test cocks for the testing of the check valves and the relief valve.

(18) "Manager" shall mean the General Manager of the Rockwood Water Sewer and Gas or his/her duly authorized deputy, agent or representative.

(19) "Water system" shall be considered as made up of two (2) parts, the utility system and the customer system.

(a) The utility system shall consist of the facilities for the storage and distribution of water and shall include all those facilities of the water system under the complete control of the utility system, up to the point where the customer's system begins (i.e. the water meter);

(b) The customer system shall include those parts of the facilities beyond the termination of the utility system distribution system that are utilized in conveying domestic water to points of use.

(20) "Rockwood Water Sewer and Gas" shall mean the Rockwood Water, Sewer and Gas Department of the City of Rockwood, Tennessee.

**18-303. Compliance with Tennessee Code Annotated.** Rockwood Water Sewer and Gas shall be responsible for the protection of the public water system from contamination or pollution due to the backflow of contaminants through the water service connection. Rockwood Water Sewer and Gas shall comply with § 68-221-711 of the Tennessee Code Annotated, as well as the Rules and Regulations for Public Water Systems and Drinking Water Quality, legally adopted in accordance with this code, which pertain to cross connections, auxiliary intakes, bypasses and interconnections; and shall establish an effective, on-going program to control these undesirable water uses. (1970 Code, § 8-403, as replaced by Ord. #12-42, Aug. 2017)
18-304. **Regulated.** (1) No water service connection to any premises shall be installed or maintained by Rockwood Water Sewer and Gas unless the water supply system is protected as required by state laws and this ordinance. Service of water to any premises shall be discontinued by Rockwood Water Sewer and Gas if a backflow prevention device required by this ordinance is not installed, tested, and/or maintained; or if it is found that a backflow prevention device has been removed, bypassed, or if an unprotected cross connection exists on the premises. Service shall not be restored until such conditions or defects are corrected.

(2) It shall be unlawful for any person to cause a cross connection to be made or allow one to exist for any purpose whatsoever unless the construction and operation of same have been approved by the Tennessee Department of Environment and Conservation, and the operation of such cross connection is at all times under the direction of the General Manager of Rockwood Water Sewer and Gas.

(3) If, in the judgment of the General Manager or his/her designated agent, an approved backflow prevention device is required at the water service connection to a customer's premises, or at any point(s) within the premises, to protect the potable water supply, the general manager shall compel the installation, testing and maintenance of the required backflow prevention device(s) at the customer's expense.

(4) An approved backflow prevention device shall be installed on each water service line to a customer's premises at or near the property line or immediately inside the building being served; but in all cases, before the first branch line leading off the service line.

(5) For new installations, the general manager or his/her designated agent shall inspect the site and/or review plans in order to assess the degree of hazard and to determine the type of backflow prevention device, if any, that will be required, and to notify the owners in writing of the required device and installation criteria. All required devices shall be installed and operational prior to the initiation of water service.

(6) For existing premises, personnel from Rockwood Water Sewer and Gas or their designee shall conduct inspections and evaluations, and shall require correction of violations in accordance with the provisions of this chapter. (1970 Code, § 8-404, as replaced by Ord. #12-42, Aug. 2017)

18-305. **New installations.** No installation, alteration, or change shall be made to any backflow prevention device connected to the public water supply for water service, fire protection or any other purpose without first contacting Rockwood Water Sewer and Gas for approval. (1970 Code, § 8-405, as replaced by Ord. #12-42, Aug. 2017)
18-306. **Existing installations.** No alteration, repair, testing or change shall be made of any existing backflow prevention device connected to the public water supply for water service, fire protection or any other purpose without first securing the appropriate approval from Rockwood Water Sewer and Gas. (1970 Code, § 8-406, as replaced by Ord. #12-42, Aug. 2017)

18-307. **Inspections.** The general manager or his/her designated agent shall inspect all properties served by the public water supply where cross connections with the public water supply are deemed possible. The frequency of inspections and re-inspection shall be based on potential health hazards involved, and shall be established by Rockwood Water Sewer and Gas in accordance with guidelines acceptable to the Tennessee Department of Environment and Conservation. Rockwood Water Sewer and Gas will have the right to exceed the guidelines if the general manager deems necessary to further protect the public water supply. (1970 Code, § 8-407, as replaced by Ord. #12-42, Aug. 2017)

18-308. **Right of entry for inspections.** The general manager or his/her authorized representative shall have the right to enter, at any reasonable time, any property served by a connection to Rockwood Water Sewer and Gas public water system for the purpose of inspecting the piping system therein for cross connection, auxiliary intakes, bypasses or interconnections, or for the testing of backflow prevention devices. Upon request, the owner, lessee, or occupant of any property so served shall furnish any pertinent information regarding the piping system(s) on such property. The refusal of such information or refusal of access, when requested, shall be deemed evidence of the presence of cross connections, and shall be grounds for disconnection of water service. (1970 Code, § 8-408, as replaced by Ord. #12-42, Aug. 2017)

18-309. **Correction of violations.** (1) Any person found to have cross connections, auxiliary intakes, bypasses or interconnections in violation of the provisions of this chapter shall be allowed a reasonable time within which to comply with the provisions of this chapter. After thorough investigation of the existing conditions and an appraisal of the time required to complete the work, the general manager or his/her representative shall assign an appropriate amount of time, but in no case, shall the time for corrective measures exceed ninety (90) days, unless the manager determines that due to unusual circumstances additional time should be granted.

(2) Where cross connections, auxiliary intakes, bypasses or interconnections are found that constitute an extreme hazard, with the immediate possibility of contaminating the public water system, Rockwood Water Sewer and Gas shall require that immediate corrective action be taken to eliminate the threat to the public water system. Expeditious steps shall be taken to disconnect the public water system from the onsite piping system.
unless the imminent hazard is immediately corrected, subject to the right to a
due process hearing upon timely request. The time allowed for preparation for
a due process hearing shall be relative to the risk of hazard to the public health
and may follow disconnection when the risk to the public health and safety, in
the opinion of the general manager, warrants disconnection prior to a due
process bearing.

(3) The failure to correct conditions threatening the safety of the public
water system as prohibited by this chapter and Tennessee Code Annotated,
§ 68-221-711, within the time limits established by the general manager or
his/her representative, shall be grounds for denial of water service. If proper
protection has not been provided after a reasonable time, the general manager
shall give the customer legal notification that water service is to be
discontinued, and shall physically separate the public water system from the
customers on-site piping in such a manner that the two (2) systems cannot again
be connected by an unauthorized person, subject to the right of a due process
hearing upon timely request. The due process hearing may follow disconnection
when the risk to the public health and safety, in the opinion of the general
manager, warrants disconnection prior to a due process hearing. (1970 Code,
§ 8-409, as replaced by Ord. #12-42, Aug. 2017)

18-310. Required devices. (1) An approved backflow prevention
assembly shall be installed downstream of the meter on each service line to a
customer’s premises at or near the property line or immediately inside the
building being served, but in all cases, before the first branch line leading off the
service line, when any of the following conditions exist:

(a) Impractical to provide an effective air-gap separation;
(b) The owner/occupant of the premises cannot or is not willing
to demonstrate to Rockwood Water Sewer and Gas that the water use and
protective features of the plumbing are such as to pose no threat to the
safety or potability of the water;
(c) The nature and mode of operation within a premise are such
that frequent alterations are made to the plumbing;
(d) There is likelihood that protective measures may be
subverted, altered or disconnected;
(e) The nature of the premises is such that the use of the
structure may change to a use wherein backflow prevention is required;
(f) The plumbing from a private well or other water source
enters the premises served by the public water system.

(2) The protective devices shall be of the reduced pressure zone type
(except in the case of certain fire protection systems and swimming pools with
no permanent plumbing installed) approved by the Tennessee Department of
Environment and Conservation and Rockwood Water Sewer and Gas, as to
manufacture, model, size and application. The method of installation of backflow
prevention devices shall be approved by Rockwood Water Sewer and Gas prior
to installation and shall comply with the criteria set forth in this chapter. The installation and maintenance of backflow prevention devices shall be at the expense of the owner or occupant of the premises.

(3) **Premises requiring reduced pressure principle assemblies or air gap separation.** Establishments which pose significant risk of contamination or may create conditions which pose an extreme hazard of immediate concern (high risk high hazards), the cross connection control inspector shall require immediate or a short amount of time (thirty (30) days maximum), depending on conditions, for corrective action to be taken. In such cases, if corrections have not been made within the time limits set forth, water service will be discontinued.

High risk high hazards require a reduced pressure principle (or detector) assembly. The following list is establishments deemed high risk high hazard and require a reduced pressure principle assembly:

(a) High risk high hazards:
   (i) Mortuaries, morgues, autopsy facilities.
   (ii) Hospitals, medical buildings, animal hospitals and control centers, doctor and dental offices.

   (vii) Packing and rendering houses.
   (viii) Manufacturing plants.
   (ix) Food and beverage processing plants.
   (x) Automated car wash facilities.
   (xi) Extermination companies.
   (xii) Airports, railroads, bus terminals, piers, boat docks.

   (xxii) Taxidermy facilities.
(xxiii) Establishments which handle, process, or have extremely toxic or large amounts of toxic chemicals or use water of unknown or unsafe quality extensively.

(b) High hazard. In cases where there is less risk of contamination, or less likelihood of cross connections contaminating the system, a time period of ninety (90) days maximum (unless additional time is granted by the general manager) will be allowed for corrections. High hazard is a cross connection or potential cross connection involving any substance that could, if introduced in the public water supply, cause death, illness, and spread disease (see Appendix A of manual).

(4) Application requiring backflow prevention devices shall include, but not be limited to, domestic water service and/or fire flow connections for all medical facilities, all fountains, lawn irrigation systems, wells, water softeners and other treatment systems, swimming pools and on all fire hydrant connections other than those by the fire department in combating fires. Those facilities deemed by Rockwood Water Sewer and Gas as needing protection.

(a) Class 1, Class 2 and Class 3 fire protection systems shall require a reduced pressure backflow prevention device shall be required where:

(i) Underground fire sprinkler lines are parallel to and within ten feet (10') horizontally of pipes carrying sewage or significantly toxic materials;
(ii) Premises have unusually complex piping systems;
(iii) Pumpers connecting to the system have corrosion inhibitors or other chemicals added to the tanks of the fire trucks.

(b) Class 4, Class 5 and Class 6 fire protection systems shall require reduced pressure backflow prevention devices.

(c) Wherever the fire protection system piping is not an acceptable potable water system material, or chemicals such as foam concentrates or antifreeze additives are used, a reduced pressure backflow prevention device shall be required.

(d) Swimming pools with no permanent plumbing and only filled with hoses will require a hose bib vacuum breaker be installed on the faucet used for filling.

(5) The general manager or his/her representative may require additional and/or internal backflow prevention devices wherein it is deemed necessary to protect potable water supplies within the premises.

(6) Installation criteria. The minimum acceptable criteria for the installation of reduced pressure backflow prevention devices, double check valve assemblies or other backflow prevention devices requiring regular inspection or testing shall include the following:

(a) All required devices shall be installed in accordance with the provisions of this chapter, by a person approved by Rockwood Water Sewer and Gas who is knowledgeable in the proper installation. Only
licensed sprinkler contractors may install, repair or test backflow prevention devices on fire protection systems.

(b) All devices shall be installed in accordance with the manufacturer's instructions and shall possess appropriate test cocks, fittings and caps required for the testing of the device (except hose bib vacuum breakers). All fittings shall be of brass construction, unless otherwise approved by Rockwood Water Sewer and Gas, and shall permit direct connection to department test equipment.

(c) The entire device, including valves and test cocks, shall be easily accessible for testing and repair.

(d) All devices shall be placed in the upright position in a horizontal run of pipe.

(e) Device shall be protected from freezing, vandalism, mechanical abuse and from any corrosive, sticky, greasy, abrasive or other damaging environment.

(f) Reduced pressure backflow prevention devices shall be located a minimum of twelve inches (12") plus the nominal diameter of the device above either; (i) the floor, (ii) the top of opening(s) in the enclosure or (iii) maximum flood level, whichever is higher. Maximum height above the floor surface shall not exceed sixty inches (60").

(g) Clearance from wall surfaces or other obstructions shall be at least six inches (6"). Devices located in non-removable enclosures shall have at least twenty-four inches (24") of clearance on each side of the device for testing and repairs.

(h) Devices shall be positioned where a discharge from the relief port will not create undesirable conditions. The relief port must never be plugged, restricted or solidly piped to a drain.

(i) An approved air-gap shall separate the relief port from any drainage system. An approved air-gap shall be at least twice the inside diameter of the supply line, but never less than one inch (1").

(j) An approved strainer shall be installed immediately upstream of the backflow prevention device, except in the case of a fire protection system.

(k) Devices shall be located in an area free from submergence or flood potential, therefore never in a below grade pit or vault. All devices shall be adequately supported to prevent sagging.

(l) Adequate drainage shall be provided for all devices. Reduced pressure backflow prevention devices shall be drained to the outside whenever possible.

(m) Fire hydrant drains shall not be connected to the sewer, nor shall fire hydrants be installed such that backflow/backsiphonage through the drain may occur.

(n) Enclosures for outside installations shall meet the following criteria:
(i) All enclosures for backflow prevention devices shall be as manufactured by a reputable company or an approved equal.

(ii) For backflow prevention devices, up to and including two inches (2"), the enclosure shall be constructed of adequate material to protect the device from vandalism and freezing and shall be approved by Rockwood Water Sewer and Gas. The complete assembly, including valve stems and hand wheels, shall be protected by being inside the enclosure.

(iii) To provide access for backflow prevention devices up to and including two inches (2"), the enclosure shall be completely removable. Access for backflow prevention devices two and one half inches (2 1/2") and larger shall be provided through a minimum of two (2) access panels. The access panels shall be of the same height as the enclosure and shall be completely removable. All access panels shall be provided with built-in locks.

(iv) The enclosure shall be mounted to a concrete pad in no case less than four inches (4") thick. The enclosure shall be constructed, assembled and/or mounted in such a manner that it will remain locked and secured to the pad even if any outside fasteners are removed. All hardware and fasteners shall be constructed of 300 series stainless steel.

(v) Heating equipment, if required, shall be designed and furnished by the manufacturer of the enclosure to maintain an interior temperature of plus forty degrees Fahrenheit (+40°F) with an outside temperature of minus thirty degrees Fahrenheit (-30°F) and a wind velocity of fifteen (15) miles per hour.

(o) Where the use of water is critical to the continuance of normal operations or the protection of life, property or equipment, duplicate backflow prevention devices shall be provided to avoid the necessity of discontinuing water service to test or repair the protective device. Where it is found that only one (1) device has been installed and the continuance of service is critical, Rockwood Water Sewer and Gas shall notify, in writing, the occupant of the premises of plans to interrupt water services and arrange for a mutually acceptable time to test the device. In such cases, Rockwood Water Sewer and Gas may require the installation of a duplicate device.

(p) Rockwood Water Sewer and Gas shall require the occupant of the premises to keep any backflow prevention devices working properly, and to make all indicated repairs promptly. Repairs shall be made by qualified personnel acceptable to Rockwood Water Sewer and Gas. Expense of such repairs shall be borne by the owner for occupant of the premises. The failure to maintain a backflow prevention device in proper working condition shall be grounds for discontinuance of water service to a premises. Likewise, the removal, bypassing or alternation of
a backflow prevention device or the installation thereof, so as to render a device ineffective shall constitute a violation of this chapter and shall be grounds for discontinuance of water service. Water service to such premises shall not be restored until the customer has corrected or eliminated such conditions or defects to the satisfaction of Rockwood Water Sewer and Gas.

(6) Testing of devices. Devices shall be tested at least annually by a qualified person possessing a valid certification from the Tennessee Department of Environment and Conservation, Division of Water Supply for the testing of such devices as required by Rockwood Water Sewer and Gas. A record of this test will be on file with Rockwood Water Sewer and Gas and a copy of this report will be supplied to the customer. Water service shall not be disrupted to test a device without the knowledge of the occupant of the premises. All charges for testing will be billed to the customer. (as replaced by Ord. #12-42, Aug. 2017)

18-311. Non-potable supplies. The potable water supply made available to a premise served by the public water system shall be protected from contamination as specified in the provisions of this chapter. Any water pipe or outlet which could be used for potable or domestic purposes and which is not supplied by the potable water system must be labeled in a conspicuous manner such as:

WATER UNSAFE FOR DRINKING

The minimum acceptable sign shall have black letters at least one inch (1") high located on a red background. Color-coding of pipelines, in accordance with (OSHA) Occupational Safety and Health Act guidelines, shall be required in locations where in the judgment of Rockwood Water Sewer and Gas, such coding is necessary to identify and protect the potable water supply. (as added by Ord. #12-42, Aug. 2017)

18-312. Statement required. Any person whose premises are supplied with water from the public water system, and who also has on the same premises a well or other separate source of water supply, or who stores water in an uncovered or unsanitary storage reservoir from which the water is circulated through a piping system, shall file with Rockwood Water Sewer and Gas a statement of the nonexistence of unapproved or unauthorized cross connections, auxiliary intakes, bypasses or interconnections. Such statement shall contain an agreement that no cross connections, auxiliary intakes, bypasses or interconnections will be permitted upon the premises. Such statement shall also include the location of all additional water sources utilized on the premises and how they are used. Maximum backflow protection shall be required on all public water sources supplied to the premises. (as added by Ord. #12-42, Aug. 2017)
18-313. **Penalty; discontinuance of water supply.** (1) Any person who neglects or refuses to comply with any of the provisions of this chapter may be deemed guilty of a misdemeanor and subject to a fine.

(2) Independent of and in addition to any fines or penalties imposed, the manager may discontinue the public water supply service to any premises upon which there is found to be a cross connection, auxiliary intake, bypass or interconnection; and service shall not be restored until such cross connection, auxiliary intake, bypass or interconnection has been eliminated. (as added by Ord. #12-42, Aug. 2017)

18-314. **Provision applicable.** The requirements contained in this chapter shall apply to all premises served by Rockwood Water Sewer and Gas and are hereby made part of the conditions required to be met for Rockwood Water Sewer and Gas to provide water services to any premises. The provisions of this chapter shall be rigidly enforced since it is essential for the protection of the public water distribution system against the entrance of contamination. Any person aggrieved by the action of Rockwood Water Sewer and Gas is entitled to a due process hearing upon timely request. (as added by Ord. #12-42, Aug. 2017)

The customer shall own and install in accordance with the requirements of the city's gas code all gas service lines on the customer's side of the meter. Authorized representatives of the city shall have
access at all reasonable times to all gas meters and lines, etc., which may be located on customer's premises. (1970 Code, § 13-212)

18-412. **Gas extension policy.** An extension of gas service mains will be made to any person with the city bearing all the costs thereof provided the board of water, sewerage, and natural gas commissioners is satisfied that the investment for such extension will earn a fair and adequate return. However, if the board decides that an extension will not show a fair and adequate return, the city may require the applicant for such service to pay all or a part of the costs of such extension. When the customer makes an extension he shall be required to convey all his rights, title, and interest in the same to the city before gas shall be supplied thereto. (1970 Code, § 13-216, modified)

18-416. **Interruptions in gas service.** The city will endeavor to furnish continuous gas service, and to maintain reasonably constant pressure, but the city cannot and does not guarantee to the consumer any fixed pressure or continuous service. The city shall not be liable for any damages for any interruption or disturbance of service whatsoever.

In connection with the operation, maintenance, repair and extension of the city's gas system, the gas supply may be shut off without notice, when
necessary or desirable; and each customer must be prepared for such emergencies. The city shall not be held liable for any damages from such interruption of service or for damages from the resumption of service without notice after any such interruption. (1970 Code, § 13-218)

18-417. Discontinuance of gas service. The board of water works, sewerage, and natural gas commissioners shall have the right to discontinue gas service to any customer who is in default in the payment of any obligation due the city for gas service. (1970 Code, § 13-219, modified)

18-418. Payment for services rendered by the city. The water, sewer and natural gas department shall pay the City of Rockwood for services rendered by the city $50,000 per year, to be divided into twelve (12) equal payments. (1970 Code, § 13-221)

Prior to the provision of electric, water, gas, or sewer utility services to a site the service provider shall require the applicant to provide a valid building permit or certificate of occupancy. A certificate of occupancy may be issued without inspection of an existing structure, residential or business, provided the building inspector determines that the property complies with zoning requirements and that an inspection is not required under the provisions of title 13, chapter 2 and/or other municipal ordinances and codes. (1970 Code, § 13-222)

18-420. Sewer rates for low volume commercial water customers. (1) A commercial customer using no more than three thousand (3,000) cubic feet of water at said customer's commercial service location during a monthly billing cycle and having no restroom facilities, shower facilities, bathing facilities, washing facilities or sinks connected to the sewer system at said service location, shall be charged during said monthly billing cycle, a sewer fee of twenty dollars ($20.00).

(2) To be eligible for this sewer fee, the customer must first apply and then allow a representative from the Rockwood Water, Sewer and Gas Department to inspect the commercial location where water service is provided to verify that the location has no restroom facilities, shower facilities, bathing facilities, washing facilities or sinks connected to the sewer. Said Customer must also allow a representative from the Rockwood Water, Sewer and Gas Department to inspect said location on an annual basis to confirm that said location has no restroom facilities, shower facilities bathing facilities, washing facilities or sinks connected to the sewer.

(3) This rate shall apply only during monthly billing cycles when the service location uses no more than three thousand (3,000) cubic feet of water. For any monthly billing cycle when the location receives more than three...
thousand (3,000) cubic feet of water, the regular sewer rate charged to all other commercial customers shall apply. (as added by Ord. #12-14, Sept. 2015)

CHAPTER 6
SOCIAL MEDIA POLICY

SECTION
20-601. Purpose.
20-603. Background.
20-604. Definitions.
20-605. Policy.

20-601. Purpose. The purpose is to provide guidance to employees, supervisors and management of the City of Rockwood, and the various departments thereof, to clarify the boundaries between appropriate and inappropriate use of social media and to provide guidelines on the management, administration, and oversight. This policy will collectively refer to employees, supervisors and management, both full-time and part-time, as "employees." This policy addresses social media in general terms as technology will outpace the ability to discover emerging technology and create policies governing its use. The inappropriate use of social media may lead to actual harm and disruption to the city in terms of the public's perception of the organization as willing to render services to them.

This policy endorses the secure use of social media to enhance communication, collaboration, and information exchange, streamline processes and foster productivity. This policy establishes the city's position on the utility and management of social media and provides guidance on its management, administration and oversight. (as added by Ord. #12-72, Oct. 2020 Ch4_06-20-22)

20-602. Policy statement. Engaging in social media and social networking activities is a form of speech. Nothing in these rules is intended to unlawfully restrict an employee's right to discuss, as a private citizen, matters of public concern, nor engage in concerted activity with co-workers. Employees have an affirmative obligation to avoid being perceived as a spokesperson for the City of Rockwood, or for any specific department thereof, except a department head or a department head's designate, is considered the spokesperson for that particular department.

Social media provides new and potentially valuable means of assisting the City of Rockwood and its departments in meeting community outreach, problem-solving, and performing governmental duties and functions. This policy identifies potential uses that may be explored or expanded upon as deemed reasonable by administrative and supervisory personnel. The personal use of social media can have a bearing on city employees in their official capacity. As
such, this policy provides information of a precautionary nature as well as
prohibitions on the use of social media. (as added by Ord. #12-72, Oct. 2020

assisting the city in meeting community education, community information, fire
prevention, crime prevention, investigation, and other related organizational
and community objectives. This policy identifies possible uses that may be
evaluated and used as deemed necessary by the city and departmental
administrators. (as added by Ord. #12-72, Oct. 2020 Ch4_06-20-22)

2. A part of an internal body system would be inhibited in its normal performance or function to such a degree as to shorten life or cause reduction in physical or mental efficiency (e.g., lung impairment causing shortness of breath).

On the other hand, simple fractures, cuts, bruises, concussions, or similar injuries would not fit either of these categories and would not constitute serious physical harm.

Employees shall also be informed of corrective action being taken.

f. Subject to regulations issued pursuant to this Program Plan, any employee or authorized representative of employees shall be given the right to request an inspection and to consult with the Safety Director(s) or Inspector at the time of the physical inspection of the worksite.

g. Any employee may bring to the attention of the Safety Director(s) any violation or suspected violations of the standards or any other health or safety hazards.

Note: 29 CFR 1910 General Industry Regulations; 29 CFR 1926 Construction Industry Regulations; and the Rules of Tennessee Department of Labor and Workforce Development Occupational Safety and Health, CHAPTER 0800-01-1 through CHAPTER 0800-01-11 are the standards and rules invoked.

VII. VARIANCE PROCEDURE

The Safety Director(s) may apply for a variance as a result of a complaint from an employee or of his knowledge of certain hazards or exposures. The Safety Director(s) should definitely believe that a variance is needed before the application for a variance is submitted to the Commissioner of Labor and Workforce Development.

The procedure for applying for a variance to the adopted safety and health standards is as follows:

a. The application for a variance shall be prepared in writing and shall contain:

1. A specification of the standard or portion thereof from which the variance is sought.
2. A detailed statement of the reason(s) why the employer is unable to comply with the standard supported by representations by qualified personnel having first-hand knowledge of the facts represented.
3. A statement of the steps employer has taken and will take (with specific date) to protect employees against the hazard covered by the standard.
4. A statement of when the employer expects to comply and what steps have or will be taken (with dates specified) to come into compliance with the standard.
5. A certification that the employer has informed employees, their authorized representative(s), and/or interested parties by giving them a copy of the request, posting a statement summarizing the application (to include the location of a copy available for examination) at the places where
employee notices are normally posted and by other appropriate means. The certification shall contain a description of the means actually used to inform employees and that employees have been informed of their right to petition the Commissioner of Labor and Workforce Development for a hearing.

b. The application for a variance should be sent to the Commissioner of Labor and Workforce Development by registered or certified mail.

c. The Commissioner of Labor and Workforce Development will review the application for a variance and may deny the request or issue an order granting the variance. An order granting a variance shall be issued only if it has been established that:

1. The employer:
   i. Is unable to comply with the standard by the effective date because of unavailability of professional or technical personnel or materials and equipment required or necessary construction or alteration of facilities or technology.
   ii. Has taken all available steps to safeguard employees against the hazard(s) covered by the standard.
   iii. Has as effective Program Plan for coming into compliance with the standard as quickly as possible.

2. The employee is engaged in an experimental Program Plan as described in subsection (b), section 13 of the Act.

d. A variance may be granted for a period of no longer than is required to achieve compliance or one (1) year, whichever is shorter.

e. Upon receipt of an application for an order granting a variance, the Commissioner to whom such application is addressed may issue an interim order granting such a variance for the purpose of permitting time for an orderly consideration of such application. No such interim order may be effective for longer than one hundred eighty (180) days.

f. The order or interim order granting a variance shall be posted at the worksite and employees notified of such order by the same means used to inform them of the application for said variance (see subsection (a)(5) of this section).

Recording and reporting of all occupational accident, injuries, and illnesses shall be in accordance with instructions and on forms prescribed in the booklet. You can get a copy of the Forms for Recordkeeping from the internet. Go to www.osha.gov and click on Recordkeeping Forms located on the home page.

The position responsible for recordkeeping is shown on the SAFETY AND HEALTH ORGANIZATIONAL CHART, Appendix IV to this plan.

Details of how reports of occupational accidents, injuries, and illnesses will reach the recordkeeper are specified by ACCIDENT REPORTING PROCEDURES, Appendix IV to this plan. The Rule of Tennessee Department of Labor and Workforce Development Occupational Safety and Health, OCCUPATIONAL SAFETY AND HEALTH RECORD-KEEPING AND REPORTING, CHAPTER 0800-01-03, as authorized by T.C.A., Title 50.

IX. EMPLOYEE COMPLAINT PROCEDURE

If any employee feels that he is assigned to work in conditions which might affect his health, safety, or general welfare at the present time or at any time in the future, he should report the condition to the Safety Director(s) of Occupational Safety and Health.

a. The complaint should be in the form of a letter and give details on the condition(s) and how the employee believes it affects or will affect his health, safety, or general welfare. The employee should sign the letter but need not do so if he wishes to remain anonymous (see subsection (h) of Section 1 of this plan).

b. Upon receipt of the complaint letter, the Safety Director(s) will evaluate the condition(s) and institute any corrective action, if warranted. Within ten (10) working days following the receipt of the complaint, the Safety Director(s) will answer the complaint in writing stating whether or not the complaint is deemed to be valid and if no, why not, what action has been or will be taken to correct or abate the condition(s), and giving a designated time period for correction or abatement. Answers to anonymous complaints will be posted upon bulletin boards or other places of common passage where the anonymous complaint may be reasonably expected to be seen by the complainant for a period of three (3) working days.

c. If the complainant finds the reply not satisfactory because it was held to be invalid, the corrective action is felt to be insufficient, or
the time period for correction is felt to be too long, he may forward
a letter to the Chief Executive Officer or to the governing body
explaining the condition(s) cited in his original complaint and why
he believes the answer to be inappropriate or insufficient.

d. The Chief Executive Officer or a representative of the governing
body will evaluate the complaint and will begin to take action to
correct or abate the condition(s) through arbitration or
administrative sanctions or may find the complaint to be invalid.
An answer will be sent to the complainant within ten (10) working
days following receipt of the complaint or the next regularly
scheduled meeting of the governing body following receipt of the
complaint explaining decisions made and action taken or to be
taken.
e. After the above steps have been followed and the complainant is
still not satisfied with the results, he may then file a complaint
with the Commissioner of Labor and Workforce Development. Any
complaint filed with the Commissioner of Labor and Workforce
Development in such cases shall include copies of all related
correspondence with the Safety Director(s) and the Chief Executive
Officer or the representative of the governing body.
f. Copies of all complaint and answers thereto will be filed by the
Safety Directors) who shall make them available to the
Commissioner of Labor and Workforce Development or his
designated representative upon request.

other agencies. A list of Seminars can be obtained.
2. Access will be made to reference materials such as 29 CFR
1910 General Industry Regulations; 29 CFR 1926
Construction Industry Regulations; The Rules of Tennessee
Department of Labor and Workforce Development
Occupational Safety and Health, and other

compliance inspections, conducting local training, wiring
technical reports, and informing officials, supervisors, and
employees of the existence of safety and health hazards will
be furnished.
b. All Employees (including supervisory personnel):

A suitable safety and health training program for employees will be established. This program will, as a minimum:

1. Instruct each employee in the recognition and avoidance of hazards or unsafe conditions and of standards and regulations applicable to the employees work environment to control or eliminate any hazards, unsafe conditions, or other exposures to occupational illness or injury.
2. Instruct employees who are required to handle or use poisons, acids, caustics, toxicants, flammable liquids, or gases including explosives, and other harmful substances in the proper handling procedures and use of such items and make them aware of the personal protective measures, person hygiene, etc., which may be required.
3. Instruct employees who may be exposed to environments where harmful plants or animals are present, of the hazards of the environment, how to best avoid injury or exposure, and the first aid procedures to be followed in the event of injury or exposure.
4. Instruct all employees of the common deadly hazards and how to avoid them, such as Falls; Equipment Turnover; Electrocution; Struck by/Caught In; Trench Cave In; Heat Stress and Drowning.
5. Instruct employees on hazards and dangers of confined or enclosed spaces.

i. Confined or enclosed space means space having a limited means of egress and which is subject to the accumulation of toxic or flammable contaminants or has an oxygen deficient atmosphere. Confined or enclosed spaces include, but are not limited to, storage tanks, boilers, ventilation or exhaust ducts, sewers, underground utility accesses, tunnels, pipelines, and open top spaces more than four feet (4) in depth such as pits, tubs, vaults, and vessels.

ii. Employees will be given general instruction on hazards involved, precautions to be taken, and on use of personal protective and emergency equipment required. They shall also be instructed on all specific standards or regulations that apply to work in dangerous or potentially dangerous areas.
iii. The immediate supervisor of any employee who must perform work in a confined or enclosed space shall be responsible for instructing employees on danger of hazards which may be present, precautions to be taken, and use of personal protective and emergency equipment, immediately prior to their entry into such an area and shall require use of appropriate personal protective equipment.

XI. GENERAL INSPECTION PROCEDURES

It is the intention of the governing body and responsible officials to have an Occupational Safety and Health Program Plan that will insure the welfare of employees. In order to be aware of hazards, periodic inspections must be performed. These inspections will enable the finding of hazards or unsafe conditions or operations that will need correction in order to maintain safe and healthful worksites. Inspections made on a pre-designated basis may not yield the desired results. Inspections will be conducted, therefore, on a random basis at intervals not to exceed thirty (30) calendar days.

a. In order to carry out the purposes of this Ordinance, the Safety Director(s) and/or Compliance Inspectors), if appointed, is authorized:

1. To enter at any reasonable time, any establishment, facility, or worksite where work is being performed by an employee when such establishment, facility, or worksite is under the jurisdiction of the employer and;

2. To inspect and investigate during regular working hours and at other reasonable times, within reasonable limits, and in a reasonable manner, any such place of employment and all pertinent conditions, processes, structures, machines, apparatus, devices, equipment, and materials therein, and to question privately any supervisor, operator, agent, or employee working therein.

b. If an imminent danger situation is found, alleged, or otherwise brought to the attention of the Safety Director(s) or Inspector during a routine inspection, he shall immediately inspect the imminent danger situation in accordance with Section XII of this plan before inspecting the remaining portions of the establishment, facility, or worksite.
c. An administrative representative of the employer and a representative authorized by the employees shall be given an opportunity to consult with and/or to accompany the Safety Directors) or Inspector during the physical inspection of any worksite for the purpose of aiding such inspection.

d. The right of accompaniment may be denied any person whose conduct interferes with a full and orderly inspection.

e. The conduct of the inspection shall be such as to preclude unreasonable disruptions of the operation(s) of the workplace.

f. Interviews of employees during the course of the inspection may be made when such interviews are considered essential to investigative techniques.

g. Advance Notice of Inspections.

1. Generally, advance notice of inspections will not be given as this precludes the opportunity to make minor or temporary adjustments in an attempt to create misleading impression of conditions in an establishment.

2. There may be occasions when advance notice of inspections will be necessary in order to conduct an effective inspection or investigation. When advance notice of inspection is given, employees or their authorized representative(s) will also be given notice of the inspection.

h. The Safety Director(s) need not personally make an inspection of each and every worksite once every thirty (30) days. He may delegate the responsibility for such inspections to supervisors or other personnel provided:

1. Inspections conducted by supervisors or other personnel are at least as effective as those made by the Safety Director(s).

2. Records are made of the inspections, any discrepancies found and corrective actions taken. This information is forwarded to the Safety Director(s).

i. The Safety Director(s) shall maintain records of inspections to include identification of worksite inspected, date of inspection, description of violations of standards or other unsafe conditions or practices found, and corrective action taken toward abatement. Those inspection records shall be subject to review by the Commissioner of Labor and Workforce Development or his authorized representative.
XII. IMMINENT DANGER PROCEDURES

a. Any discovery, any allegation, or any report of imminent danger shall be handled in accordance with the following procedures:

1. The Safety Director(s) shall immediately be informed of the alleged imminent danger situation and he shall immediately ascertain whether there is a reasonable basis for the allegation.

2. If the alleged imminent danger situation is determined to have merit by the Safety Director(s), he shall make or cause to be made an immediate inspection of the alleged imminent danger location.

3. As soon as it is concluded from such inspection that conditions or practices exist which constitutes an imminent danger, the Safety Director(s) or Compliance Inspector shall attempt to have the danger corrected. All employees at the location shall be informed of the danger and the supervisor or person in charge of the worksite shall be requested to remove employees from the area, if deemed necessary.

4. The administrative or operational head of the workplace in which the imminent danger exists, or his authorized representative, shall be responsible for determining the manner in which the imminent danger situation will be abated. This shall be done in cooperation with the Safety Director(s) or Compliance Inspector and to the mutual satisfaction of all parties involved.

5. The imminent danger shall be deemed abated if:

i. The imminence of the danger has been eliminated by removal of employees from the area of danger.

ii. Conditions or practices which resulted in the imminent danger have been eliminated or corrected to the point where an unsafe condition or practice no longer exists.

6. A written report shall be made by or to the Safety Director(s) describing in detail the imminent danger and its abatement. This report will be maintained by the Safety Director(s) in accordance with subsection (i) of Section XI of this plan.
b. Refusal to Abate.

1. Any refusal to abate an imminent danger situation shall be reported to the Safety Director(s) and Chief Executive Officer immediately.
2. The Safety Director(s) and/or Chief Executive Officer shall take whatever action may be necessary to achieve abatement.

XIII. ABATEMENT ORDERS AND HEARINGS

a. Whenever, as a result of an inspection or investigation, the Safety Director(s) or Compliance Inspector(s) finds that a worksite is not in compliance with the standards, rules or regulations pursuant to this plan and is unable to negotiate abatement with the administrative or operational head of the worksite within a reasonable period of time, the Safety Director(s) shall:

1. Issue an abatement order to the head of the worksite.
2. Post or cause to be posted, a copy of the abatement order at or near each location referred to in the abatement order.

1. The standard, rule, or regulation which was found to violated.
2. A description of the nature and location of the violation.
3. A description of what is required to abate or correct the violation.
4. A reasonable period of time during which the violation must be abated or corrected.

c. At any time within ten (10) days after receipt of an abatement order, anyone affected by the order may advise the Safety Director(s) in writing of any objections to the terms and conditions of the order. Upon receipt of such objections, the Safety Director(s) shall act promptly to hold a hearing with all interested and/or responsible parties in an effort to resolve any objections. Following such hearing, the Safety Director(s) shall, within three (3) working days, issue an abatement order and such subsequent order shall be binding on all parties and shall be final.
XIV. PENALTIES

a. No civil or criminal penalties shall be issued against any official, employee, or any other person for failure to comply with safety and health standards or any rules or regulations issued pursuant to this Program Plan.

b. Any employee, regardless of status, who willfully and/or repeatedly violates, or causes to be violated, any safety and health standard, rule, or regulation or any abatement order shall be subject to disciplinary action by the appointing authority. It shall be the duty of the appointing authority to administer discipline by taking action in one of the following ways as appropriate and warranted:

1. Oral reprimand.
2. Written reprimand.
3. Suspension for three (3) or more working days.
4. Termination of employment.

XV. CONFIDENTIALITY OF PRIVILEGED INFORMATION

All information obtained by or reported to the Safety Director(s) pursuant to this plan of operation or the legislation (ordinance, or executive order) enabling this Occupational Safety and Health Program Plan which contains or might reveal information which is otherwise privileged shall be considered confidential. Such information may be disclosed to other officials or employees concerned with carrying out this Program Plan or when relevant in any proceeding under this Program Plan. Such information may also be disclosed to the Commissioner of Labor and Workforce Development or their authorized representatives in carrying out their duties under the Tennessee Occupational Safety and Health Act of 1972.

XVI. DISCRIMINATION INVESTIGATIONS AND SANCTIONS

The Rule of Tennessee Department of Labor and Workforce Development Occupational Safety and Health, DISCRIMINATION AGAINST EMPLOYEES EXERCISING RIGHTS UNDER THE OCCUPATIONAL SAFETY AND HEALTH ACT OF 1972 0800-01-08, as authorized by T.C.A., Title 50. The agency agrees that any employee who believes they have been discriminated against or discharged in violation of Tenn. Code Ann § 50-3-409 can file a complaint with their agency/safety Safety Director(s) within 30 days, after the alleged discrimination occurred. Also, the agency agrees the employee has a right to file their complaint with the Commissioner of Labor and Workforce Development within the
same 30 day period. The Commissioner of Labor and Workforce Development may investigate such complaints, make recommendations, and/or issue a written notification of a violation.

XVII. COMPLIANCE WITH OTHER LAWS NOT EXCUSED

(251-Plus) Employees shall report all accidents, injuries, or illnesses to their supervisors as soon as possible, but not later than two (2) hours after their occurrence. The supervisor will provide the administrative head of the department with a verbal or telephone report of the accident as soon as possible, but not later than four (4) hours, after the accident. The supervisor or the administrative head of the accident within seventy-two (72) hours after the accident occurred (four (4) hours in the event of accidents involving a fatality or the hospitalization of three (3) or more employees).

Since Workers Compensation Form 6A or OSHA NO. 301 Form must be completed; all reports submitted in writing to the person responsible for recordkeeping shall include the following information as a minimum:

1. Accident location, if different from employer's mailing address and state whether accident occurred on premises owned or operated by employer.
2. Name, social security number, home address, age, sex, and occupation (regular job title) of injured or ill employee.

8. Date and time of injury or diagnosis of illness.
9. Name and address of physician, if applicable.
10. If employee was hospitalized, name and address of hospital.
11. Date of report.
NOTE: A procedure such as one of those listed above or similar information is necessary to satisfy Item Number 4 listed under PROGRAM PLAN in Section V. ADMINISTRATION, Part b of the Tennessee Occupational Safety and Health Plan. This information may be submitted in flow chart form instead of in narrative form if desired. These procedures may be modified in any way to fit local situations as they have been prepared as a guide only.

The four (4) procedures listed above are based upon the size of the work force and relative complexity of the organization. The approximate size of the organization for which each procedure is suggested is indicated in parenthesis in the left hand margin at the beginning, i.e., (1-15), (16-50), (51-250), and (251 Plus), and the figures relate to the total number of employees including the Chief Executive Officer but excluding the governing body (County Court, City Council, Board of Directors, etc.).

Generally, the more simple an accident reporting procedure is, the more effective it is. Please select the one procedure listed above, or prepare a similar procedure or flow chart, which most nearly fits what will be the most effective for your local situation. Note also that the specific information listed for written reports applies to all three of the procedures listed for those organizations with sixteen (16) or more employees.
ORDINANCE NO. 1033

AN ORDINANCE ADOPTING AND ENACTING A CODIFICATION AND REVISION OF THE ORDINANCES OF THE CITY OF ROCKWOOD TENNESSEE.

WHEREAS some of the ordinances of the City of Rockwood are obsolete, and

WHEREAS some of the other ordinances of the city are inconsistent with each other or are otherwise inadequate, and

WHEREAS the City Council of the City of Rockwood, Tennessee, has caused its ordinances of a general, continuing, and permanent application or of a penal nature to be codified and revised and the same are embodied in a code of ordinances known as the "Rockwood Municipal Code," now, therefore:

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWOOD, TENNESSEE, THAT:

Section 1. Ordinances codified. The ordinances of the city of a general, continuing, and permanent application or of a penal nature, as codified and revised in the following "titles," namely "titles" 1 to 20, both inclusive, are ordained and adopted as the "Rockwood Municipal Code," hereinafter referred to as the "municipal code."

Section 2. Ordinances repealed. All ordinances of a general, continuing, and permanent application or of a penal nature not contained in the municipal code are hereby repealed from and after the effective date of said code, except as hereinafter provided in Section 3 below.

Section 3. Ordinances saved from repeal. The repeal provided for in Section 2 of this ordinance shall not affect: Any offense or act committed or done, or any penalty or forfeiture incurred, or any contract or right established or accruing before the effective date of the municipal code; any ordinance or resolution promising or requiring the payment of money by or to the city or authorizing the issuance of any bonds or other evidence of said city's indebtedness; any appropriation ordinance or ordinance providing for the levy of taxes or any budget ordinance; any contract or obligation assumed by or in favor of said city; any ordinance establishing court costs; any ordinance establishing a social security system or providing coverage under that system; any administrative ordinances or resolutions not in conflict or inconsistent with the provisions of such code; the portion of any ordinance not in conflict
with such code which regulates speed, direction of travel, passing, stopping, yielding, standing, or parking on any specifically named public street or way; any right or franchise granted by the city; any ordinance dedicating, naming, establishing, locating, relocating, opening, paving, widening, vacating, etc., any street or public way; any ordinance establishing and prescribing the grade of any street; any ordinance providing for local improvements and special assessments therefor; any ordinance dedicating or accepting any plat or subdivision; any prosecution, suit, or other proceeding pending or any judgment rendered on or prior to the effective date of said code; any zoning ordinance or amendment thereto or amendment to the zoning map; nor shall such repeal affect any ordinance annexing territory to the city.

Section 4. Continuation of existing provisions. Insofar as the provisions of the municipal code are the same as those of ordinances existing and in force on its effective date, said provisions shall be considered to be continuations thereof and not as new enactments.

Section 5. Penalty clause. Unless otherwise specified in a title, chapter or section of the municipal code, including the codes and ordinances adopted by reference, whenever in the municipal code any act is prohibited or is made or declared to be a civil offense, or whenever in the municipal code the doing of any act is required or the failure to do any act is declared to be a civil offense, the violation of any such provision of the municipal code shall be punished by a civil penalty of not more than five hundred dollars ($500.00) and costs for each separate violation; provided, however, that the imposition of a civil penalty under the provisions of this municipal code shall not prevent the revocation of any permit or license or the taking of other punitive or remedial action where called for or permitted under the provisions of the municipal code or other applicable law. In any place in the municipal code the term "it shall be a misdemeanor" or "it shall be an offense" or "it shall be unlawful" or similar terms appears in the context of a penalty provision of this municipal code, it shall mean "it shall be a civil offense." Anytime the word "fine" or similar term appears in the context of a penalty provision of this municipal code, it shall mean "a civil penalty."

Each day any violation of the municipal code continues shall constitute a separate civil offense.

For authority to allow deferred payment of fines, or payment by installments, see *Tennessee Code Annotated*, § 40-24-101 *et seq.*
Section 6. Severability clause. Each section, subsection, paragraph, sentence, and clause of the municipal code, including the codes and ordinances adopted by reference, is hereby declared to be separable and severable. The invalidity of any section, subsection, paragraph, sentence, or clause in the municipal code shall not affect the validity of any other portion of said code, and only any portion declared to be invalid by a court of competent jurisdiction shall be deleted therefrom.

Section 7. Reproduction and amendment of code. The municipal code shall be reproduced in loose-leaf form. The city council, by motion or resolution, shall fix, and change from time to time as considered necessary, the prices to be charged for copies of the municipal code and revisions thereto. After adoption of the municipal code, each ordinance affecting the code shall be adopted as amending, adding, or deleting, by numbers, specific chapters or sections of said code. Periodically thereafter all affected pages of the municipal code shall be revised to reflect such amended, added, or deleted material and shall be distributed to city officers and employees having copies of said code and to other persons who have requested and paid for current revisions. Notes shall be inserted at the end of amended or new sections, referring to the numbers of ordinances making the amendments or adding the new provisions, and such references shall be cumulative if a section is amended more than once in order that the current copy of the municipal code will contain references to all ordinances responsible for current provisions. One copy of the municipal code as originally adopted and one copy of each amending ordinance thereafter adopted shall be furnished to the Municipal Technical Advisory Service immediately upon final passage and adoption.

Section 8. Construction of conflicting provisions. Where any provision of the municipal code is in conflict with any other provision in said code, the provision which establishes the higher standard for the promotion and protection of the public health, safety, and welfare shall prevail.

Section 9. Code available for public use. A copy of the municipal code shall be kept available in the recorder’s office for public use and inspection at all reasonable times.

Section 10. Date of effect. This ordinance shall take effect from and after its final passage, the public welfare requiring it, and the municipal code, including all the codes and ordinances therein adopted by reference, shall be effective on and after that date.
