\textbf{16-201. Permit required.} It shall be unlawful for any person, firm, corporation, association, or others, to make any excavation in any street, alley, or public place, or to tunnel under any street, alley, or public place without having first obtained a permit as herein required, and without complying with the provisions of this chapter; and it shall also be unlawful to violate, or vary from, the terms of any such permit; provided, however, any person maintaining pipes, lines, or other underground facilities in or under the surface of any street may proceed with an opening without a permit when emergency circumstances demand the work to be done immediately and a permit cannot reasonably and practicably be obtained beforehand. The person shall thereafter apply for a permit on the first regular business day on which the office of the recorder and treasurer is open for business, and said permit shall be retroactive to the date when the work was begun. (1979 Code, § 12-201)

\textbf{16-202. Applications.} Applications for such permits shall be made to the recorder and treasurer, or such person as he may designate to receive such applications, and shall state thereon the location of the intended excavation or tunnel, the size thereof, the purpose thereof, the person, firm, corporation, association, or others doing the actual excavating, the name of the person, firm, corporation, association, or others for whom the work is being done, and shall

\textsuperscript{1}State law reference
This chapter was patterned substantially after the ordinance upheld by the Tennessee Supreme Court in the case of City of Paris, Tennessee v. Paris-Henry County Public Utility District, 207 Tenn. 388, 340 S.W.2d 885 (1960).
contain an agreement that the applicant will comply with all ordinances and laws relating to the work to be done. Such application shall be rejected or approved by the recorder and treasurer within twenty-four (24) hours of its filing. (1979 Code, § 12-202)

16-203. **Fee.** The fee for such permits shall be two dollars ($2.00) for excavations which do not exceed twenty-five (25) square feet in area or tunnels not exceeding twenty-five (25) feet in length; and twenty-five cents ($.25) for each additional square foot in the case of excavations, or lineal foot in the case of tunnels; but not to exceed one hundred dollars ($100.00) for any permit. (1979 Code, § 12-203)

16-204. **Deposit or bond.** No such permit shall be issued unless and until the applicant therefor has deposited with the recorder and treasurer a cash deposit. The deposit shall be in the sum of five hundred dollars ($500.00) if no pavement is involved or one thousand dollars ($1,000.00) if the excavation is in a paved area and shall insure the proper restoration of the ground and laying of the pavement, if any. Where the amount of the deposit is clearly inadequate to cover the cost of restoration, the recorder and treasurer may increase the amount of the deposit to an amount considered by him to be adequate to cover the cost. From this deposit shall be deducted the expense to the town of relaying the surface of the ground or pavement, and of making the refill if this is done by the town or at its expense. The balance shall be returned to the applicant without interest after the tunnel or excavation is completely refilled and the surface or pavement is restored.

In lieu of a deposit the applicant may deposit with the recorder and treasurer a surety bond in such form and amount as the recorder and treasurer shall deem adequate to cover the costs to the town if the applicant fails to make proper restoration. (1979 Code, § 12-204, as amended by Ord. #15-2015, Dec. 2015)

16-205. **Manner of excavating—barricades and lights—temporary sidewalks.** Any person, firm, corporation, association, or others making any excavation or tunnel shall do so according to the terms and conditions of the application and permit authorizing the work to be done. Sufficient and proper barricades and lights shall be maintained to protect persons and property from injury by or because of the excavation being made. If any sidewalk is blocked by any such work, a temporary sidewalk shall be constructed and provided which shall be safe for travel and convenient for users. (1979 Code, § 12-205)

16-206. **Restoration of streets, etc.** Any person, firm, corporation, association, or others making any excavation or tunnel in or under any street, alley, or public place in the Town of Cumberland Gap shall restore said street, alley, or public place to its original condition except for the surfacing, which
shall be done by the town, but shall be paid for by such person, firm, corporation, association, or others promptly upon the completion of the work for which the excavation or tunnel was made. In case of unreasonable delay in restoring the street, alley, or public place, the recorder and treasurer shall give notice to the person, firm, corporation, association, or others that unless the excavation or tunnel is refilled properly within a specified reasonable period of time, the town will do the work and charge the expense of doing the same to such person, firm, corporation, association, or others. If within the specified time the conditions of the above notice have not been complied with, the work shall be done by the town, an accurate account of the expense involved shall be kept, and the total cost shall be charged to the person, firm, corporation, association, or others who made the excavation or tunnel. (1979 Code, § 12-206)

16-207. Insurance. In addition to making the deposit or giving the bond hereinbefore required to insure that proper restoration is made, each person applying for an excavation permit shall file a certificate of insurance indicating that he is insured against claims for damages for personal injury as well as against claims for property damage which may arise from or out of the performance of the work, whether such performance be by himself, his subcontractor, or anyone directly or indirectly employed by him. Such insurance shall cover collapse, explosive hazards, and underground work by equipment on the street, and shall include protection against liability arising from completed operations. The amount of the insurance shall be prescribed by the town recorder in accordance with the nature of the risk involved; provided, however, that the liability insurance for bodily injury shall not be less than three hundred thousand dollars ($300,000.00) for each person and seven hundred thousand dollars ($700,000.00) for each accident, and for property damages not less than one hundred thousand dollars ($100,000.00) for each accident. (1979 Code, § 12-207, as replaced by Ord. #15-2015, Dec. 2015)

16-208. Time limits. Each application for a permit shall state the length of time it is estimated will elapse from the commencement of the work until the restoration of the surface of the ground or pavement, or until the refill is made ready for the pavement to be put on by the town if the town restores such surface pavement. It shall be unlawful to fail to comply with this time limitation unless permission for an extension of time is granted by the recorder and treasurer. (1979 Code, § 12-208)

16-209. Supervision. The person designated by the board of mayor and alderman shall from time to time inspect all excavations and tunnels being made in or under any public street, alley, or other public place in the town and see to the enforcement of the provisions of this chapter. Notice shall be given to him at least ten (10) hours before the work of refilling any such excavation or

16-210. **Driveway curb cuts.** No one shall cut, build, or maintain a driveway across a curb or sidewalk without first obtaining a permit from the recorder and treasurer. Such a permit will not be issued when the contemplated driveway is to be so located or constructed as to create an unreasonable hazard to pedestrian and/or vehicular traffic. No driveway shall exceed thirty-five feet (35') in width at its outer or street edge and when two (2) or more adjoining driveways are provided for the same property a safety island of not less than ten feet (10') in width at its outer or street edge shall be provided. Driveway aprons shall not extend out into the street. (1979 Code, § 12-210)

16-211. **Violation and penalty.** Any violation of this chapter shall constitute a civil offense and shall be punishable by a civil penalty under the general provision of this code, by revocation of permit, or by both penalty and revocation. Each day a violation shall be allowed to continue shall constitute a separate offense. (as added by Ord. #15-2015, Dec. 2015)
