15-404. Left turns on other than two-way roadways.

15-405. U-turns.

15-401. Generally. Every driver who intends to turn, or partly turn from a direct line, shall first see that such movement can be made in safety, and whenever the operation of any other vehicle may be affected by such movement, shall give a signal required in Tennessee Code Annotated, § 55-8-143, plainly visible to the driver of such other vehicle of the intention to make such movement. - 15-502. When emerging from alleys, etc.
- 15-503. To prevent obstructing an intersection.
- 15-504. At "stop" signs.
- 15-505. At "yield" signs.
- 15-506. At traffic control signals generally.
- 15-507. At flashing traffic control signals.
- 15-508. At pedestrian control signals.
- 15-509. Stops to be signaled.

15-501. Upon approach of authorized emergency vehicles.¹ Upon the immediate approach of an authorized emergency vehicle making use of audible and visual signals meeting the requirements of the applicable laws of this state, or of a police vehicle making use of an audible signal only, the driver of every other vehicle shall yield the right-of-way and shall immediately drive to a position parallel to, and as close as possible to, the right hand edge or curb of the roadway clear of any intersection, and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer.

15-502. When emerging from alleys, etc. The drivers of all vehicles emerging from alleys, parking lots, driveways, or buildings shall stop such vehicles immediately prior to driving onto a sidewalk or onto the sidewalk area extending across any alleyway or driveway, and shall yield the right-of-way to any pedestrian as may be necessary to avoid collision, and upon entering the roadway shall yield the right-of-way to all vehicles approaching on the roadway.

No driver shall enter any intersection or marked crosswalk unless there is sufficient space on the other side of such intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of traffic in or on the intersecting street or crosswalk. This provision shall be effective notwithstanding any traffic control signal indication to proceed.

15-504. At "stop" signs. The driver of a vehicle facing a "stop" sign shall stop before entering the crosswalk on the near side of the intersection or, if there

is no crosswalk, shall stop at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, except when directed to proceed by a police officer or traffic control signal.

15-505. At "yield" signs. (1) The driver of a vehicle who is faced with a yield sign at the entrance to a through highway or other public roadway is not necessarily required to stop, but is required to exercise caution in entering the highway or other roadway and to yield the right-of-way to other vehicles which have entered the intersection from the highway or other roadway, or which are approaching so closely on the highway or other roadway as to constitute an immediate hazard, and the driver having so yielded may proceed when the way is clear.

(2) Where there is provided more than one (1) lane for vehicular traffic entering a through highway or other public roadway, if one (1) or more lanes at such entrance are designated a yield lane by an appropriate marker, this section shall control the movement of traffic in any lane so marked with a yield sign, even though traffic in other lanes may be controlled by an electrical signal device or other signs, signals, markings or controls.

15-506. At traffic control signals generally. Whenever traffic is controlled by traffic control signals exhibiting the words "Go," "Caution," or "Stop," or exhibiting different colored lights successively one at a time, or with arrows, the following colors only shall be used and the terms and lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

(1) Green alone, or "Go":

(a) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.

(2) Yellow alone, or "Caution", when shown following the green or "Go" signal:

(a) Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited.

(b) Pedestrians facing the signal are thereby advised that there is insufficient time to cross the roadway, and any pedestrian then starting to cross shall yield the right-of-way to all vehicles.

(3) Red alone, or "Stop":

(a) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "Go" is shown alone. A right turn on a red signal shall be permitted at all intersections within the city, provided that the prospective turning car shall come to a full and complete stop before turning and that the turning car shall yield the right-of-way to pedestrians and cross traffic traveling in accordance with their traffic signal. However, such turn will not endanger other traffic lawfully using the intersection. A right turn on red shall be permitted at all intersections, except those that are clearly marked by a "No Turns On Red" sign, which may be erected by the city at intersections which the city decides require no right turns on red in the interest of traffic safety.

(b) No pedestrian facing such signal shall enter the roadway unless such entry can be made safely and without interfering with any vehicular traffic.

(c) A left turn on a red or stop signal shall be permitted at all intersections within the city where a one-way street intersects with another one-way street moving in the same direction into which the left turn would be made from the original one-way street. Before making such a turn, the prospective turning car shall come to a full and complete stop and shall yield the right-of-way to pedestrians and cross traffic traveling in accordance with the traffic signal so as not to endanger traffic lawfully using the intersection. A left turn on red shall be permitted at any applicable intersection except that clearly marked by a "No Turn of Red" sign, which may be erected by the city at intersections which the city decides requires no left turns on red in the interest of traffic safety.

(4) Steady red with green arrow:

(a) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

(b) No pedestrian facing such signal shall enter the roadway unless such entry can be made safely and without interfering with any vehicular traffic.

(5) In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

15-507. At flashing traffic control signals. (1) Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal, it shall require obedience by vehicular traffic as follows:

(a) Flashing red (stop signal). When a red lens is illuminated with intermittent flashes, and the light is clearly visible for a sufficient distance ahead to permit such stopping, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or, if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) Flashing yellow (caution signal). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(2) This section shall not apply at railroad grade crossings.

15-508. At pedestrian control signals. Wherever special pedestrian control signals exhibiting the words "Walk" or "Wait" or "Don't Walk" are in place, such signals shall indicate as follows:

(1) Walk. Pedestrians facing such signals may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.

(2) Wait or Don't Walk. No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed crossing on the walk signal shall proceed to a sidewalk or safety island while the wait signal is showing.

15-509. Stops to be signaled. Every driver operating a motor vehicle who intends to stop such vehicle, shall first see that such movement can be made in safety, and whenever the operation of any other vehicle may be affected by such movement, shall give the signal required in Tennessee Code Annotated, § 55-8-143, plainly visible to the driver of such other vehicle of the intention to make such movement.

- (9) On the roadway side of any vehicle stopped or parked at the edge or curb of a street.
- (10) Upon any bridge.
- (11) Alongside any curb painted yellow or red by the municipality.
- (12) Upon any highway, or shoulder thereof, or upon property that abuts the shoulder of the highway, in such a manner so as to endanger, interfere with or obstruct traffic traveling upon the highway in either direction. (1970 Code, § 9-504, as amended by Ord. #62, May 1988)

15-605. Loading and unloading zones. No person shall park a vehicle for any purpose or period of time other than for the expeditious loading or unloading of passengers or merchandise in any place marked by the municipality as a loading and unloading zone.

15-606. Presumption with respect to illegal parking. When any unoccupied vehicle is found parked in violation of any provision of this chapter, there shall be a prima facie presumption that the registered owner of the vehicle is responsible for such illegal parking. (1970 Code, § 9-512)
