16-113. Violations and penalty. A violation of any provision of this chapter shall subject the offender to a penalty under the general penalty provision of this code. Each day a violation shall be allowed to continue shall constitute a separate offense.

CHAPTER 2

STREET CUTS

SECTION

- 16-201. Purpose.
- 16-202. Definitions.
- 16-203. Permit required; standards of repairs.
- 16-204. Deposit or bond.
- 16-205. Insurance.
- 16-206. Supervision.
- 16-207. Violations and penalty.

16-201. Purpose. The purpose of this chapter is to regulate excavation, tunneling, fill, paving, or any alteration or repair by any individual, business, or governmental agency within the public street right-of way. (Ord. #9, Sept. 1993)

16-202. Definitions. For the purpose of this chapter:

- (1) "Construction" Means any excavation, tunneling, fill, paving, alteration or repair.
- (2) "Person" means any individual, contractor, or agent of any public board or utility.
- (3) "Street" means the full width of the public right-of-way. (Ord. #9, Sept. 1993)

16-203. Permit required; standards of repairs. No person shall, without first obtaining a permit, commence any construction within any street or close any street for any length of time. Permits may be obtained by making an application for a permit to the city recorder to issue such permit. In the case of an emergency that it becomes necessary for such construction, such as nights, weekends or holidays, the entity responsible is required to request the permit on the first workday after such emergency. The application shall consist of a written statement describing the work proposed, any required construction drawings, and a time schedule for the completion of the work. The following standards shall be used to review the application for a permit and to inspect subsequent construction.

- (1) All work of repairing surfaces which have been cut or opened shall be done in accordance with the specifications and standards of workmanship adopted by the City of Harrogate and shall be inspected by the city. Should any cut or trench not be refilled in accordance to these standards, the city may cause such opening to again be excavated and refilled to its satisfaction at the expense of the permittee. The permittee shall be responsible for total street failure, including changes in sub-base and supporting area, resulting from a meter main

breakage or from a sewer line breakage that was directly caused by a previous excavation of the permittee.

(2) The holder of a permit shall perform the work provided for therein with due regard to the public convenience and safety and as expeditiously as possible. Such permits shall expire automatically thereunder unless the work is begun within thirty (30) days after its issuance. Any permit not used within thirty (30) days shall be returned for cancellation or renewal.

(3) The holder of a permit while making the repairs, shall use every precaution required as to barricades, lights and devices for the safety of the public. This section shall not relieve the holder of the permit from responsibilities for accidents, should any occur. It shall be distinctly understood, and the application and permit shall state, that all persons making openings shall hold the city and its employees harmless from all damages which may be recovered by reason of injuries received to persons or property on account of such openings.

(4) The holder of a permit shall as soon as physically possible, repair the opening surface equal to or better than its original state as before the opening was made and shall repair all latent defects in construction for a period of three (3) years after completion of such opening. (Ord. #9, Sept. 1993)

16-204. Deposit or bond. No permit shall be issued unless and until the applicant therefor has deposited with the recorder a cash deposit. The deposit shall be in the sum of two hundred dollars (\$200.00) per excavation or tunnel and shall insure the proper restoration of the ground and laying of the pavement, if any. Where the amount of the deposit is clearly inadequate to cover the cost of restoration, the recorder, or such other person as may be designated by the board of mayor and aldermen, may increase the amount of the deposit to an amount considered by the recorder or designated representative to be adequate to cover the cost. If the applicant fails to comply with the restoration provision of this section, the expense to the city of relaying the surface of the ground or pavement, and of making the refill shall be deducted from the deposit. The balance shall be returned to the permittee without interest as provided herein after the tunnel or excavation is completely refilled and the surface or pavement is restored.

Any public utility intending to make excavations or tunnels may make and maintain with the city an annual deposit, surety bond, or letter of commitment in such form or amount as the designated representative of the board of mayor and aldermen deems adequate. (Ord. #9, Sept. 1993)

16-205. Insurance. In addition to making the deposit or giving the bond hereinbefore required to insure that proper restoration is made, each person applying for an excavation permit shall file a certificate of insurance indicating that he is insured against claims for damages for personal injury as well as against claims for property damage which may arise from or out of the

performance of the work, whether such performance be by himself, his subcontractor, or anyone directly or indirectly employed by him. Such insurance shall cover collapse, explosive hazards, and underground work by equipment on the street, and shall include protection against liability arising from completed operations. The amount of the insurance shall be prescribed by the recorder in accordance with the nature of the risk involved; provided, however, that the liability insurance for bodily injury shall not be less than three hundred thousand dollars (\$300,000.00) for each person, and not less than seven hundred thousand dollars (\$700,000.00) for each accident, and for property damages not less than one hundred thousand dollars (\$100,000.00) for each accident.

16-206. Supervision. The person designated by the board of mayor and aldermen shall from time to time inspect all excavations and tunnels being made in or under any public street, alley, or other public place in the city and see to the enforcement of the provisions of this chapter. Notice shall be given to him at least ten (10) hours before the work of refilling any such excavation or tunnel commences.

16-207. Violations and penalty. A violation of any provision of this chapter shall subject the offender to a penalty under the general penalty provision of this code. Each day a violation shall be allowed to continue shall constitute a separate offense.
