(1970 Code, § 1-902)

(1970 Code, § 1-903)

For a full-time employee hired or re-hired on and after May 1, 2016 desiring family coverage under a plan then in effect the city will pay eighty percent (80%) of the premium cost for family coverage if applicable with the employee being responsible for the other twenty percent (20%) thereof. (as added by Ord. #293, April 2016)

(11) The director shall establish and maintain a system for collecting and reporting safety and health data required under the Tennessee Occupational Safety and Health Act.

(12) The director shall apply this program to employees of each administrative department, commission, board, division or other agency of the City of McEwen.

- 4-521. Governing law.
- 4-522. Effective date.

4-501. Establishment of plan and administration. The city hereby establishes for the benefit of individuals who perform services to the city as full-time employees or as elected or appointed officials a deferred compensation retirement and disability plan (hereinafter called the "plan"). The plan shall be administered by the person who shall be duly elected to and holding the office of mayor of the city from time-to-time as reflected in the records (hereinafter referred to as the "plan administrator"). (Ord. #147-1, June 1990)

4-502. Pension and retirement board. The board of mayor and alderman (the "board") shall ex-officio constitute the pension and retirement board of the city and shall have general supervision of the plan and to whom the plan administrator shall be responsible. (Ord. #147-1, June 1990)

4-503. Eligibility for participation. Participation in the plan shall be voluntary. Any individual who is a full-time employee of the city who is paid a salary or wage, but not a part-time or temporary employee, and any individual

who is elected or appointed to an office with the city may become a participant in the plan by executing a compensation reduction authorization agreement (hereinafter called a "CRA") in a form acceptable to the board, specifying the amount of his or her includable compensation to be deferred on a regular basis to be used by the board to provide the benefits set forth in the plan. No employee or officer of the city or person furnishing services to the city shall be entitled to any benefit conferred herein who has not become a participant by executing a CRA. (Ord. #147-1, June 1990)

4-504. Effective date of participation. Participation may be effected by any eligible individual on July 1 of any year provided he or she was employed by the city or serving as an elected or appointed officer thereof on January 1 prior thereto. (Ord. #147-1, June 1990)

4-505. Modification or termination of participation. Modification or termination of participation in the plan is effected by executing a subsequent CRA which will supersede and nullify a prior CRA. Such modification will be effected by either increasing or decreasing the amount of compensation to be deferred. A termination of deferrals will be effected by reducing to zero the amount of compensation to be deferred. All amounts of compensation deferred pursuant to a CRA, whether subsequently modified or terminated, shall be legally binding upon the participant and shall be irrevocable when accomplished. A request for a modification or termination shall be made no later than on the second pay day of the participant prior to the effective date of such modification or termination. (Ord. #147-1, June 1990)

4-506. Authorized investments of deferred compensation. When submitting a CRA a participant will select, in a form suitable to the board, one or more life insurance policies, annuity contracts or other insurance product permitted by law on his or her life having aggregate premiums equal to the amount of compensation deferred (hereinafter referred to as "authorized investments"). Authorized investments of a participant shall serve as the measure of his or her benefits to be paid under the plan. A participant shall specify the authorized investments to be purchased. Any insurer whose products are thus specified must be a duly licensed insurer authorized to do business in the State of Tennessee. The insurer selected by a participant shall hereinafter be referred to as the "insurer". In the absence of a selection of authorized investments by a participant, the plan administrator may treat the same as the selection of a fixed annuity contract on the participant's life to be purchased by the plan administrator from Metropolitan Life Insurance Company and such annuity contract when purchased shall constitute an authorized investment for the purpose of the plan. (Ord. #147-1, June 1990)

4-507. Compensation eligible to be deferred. Compensation which may be deferred shall be the amount of compensation which is includable in a participant's gross income for the taxable year. It shall not include amounts which are used to purchase an annuity contract under Section 403(b) of the code or amounts deferrable under the plan or any other plan meeting the requirements of Section 457 of the code. Such compensation shall be considered at its present value. (Ord. #147-1, June 1990)

4-508. Normal retirement age. Normal retirement age under the plan shall mean the date on which a participant attains the age of sixty-five (65) years (hereinafter called "normal retirement age"). (Ord. #147-1, June 1990)

4-509. Maximum compensation deferrable. Except as hereinafter provided the maximum amount of compensation which a participant may have deferred under the plan for any taxable year shall be the lesser of:

- (1) \$7,500 or
- (2) 1/3 of his or her includable compensation.

If a participant is involved in any other annuity or deferred compensation arrangement meeting the requirements of Section 403(b) or Section 457 of the code, then the maximum deferrable amount for the taxable year shall be reduced by the amounts, if any, excluded or deferred under any other elective deferral arrangement such as amounts excluded to purchase an annuity contract under Section 403(b), Section 402(a)(8), Section 401(k), Section 402(h)(1)(B), SEP's and Section 501(c)(18), all of the code. For one or more of a participant's last three taxable years before attaining normal retirement age the maximum amount of compensation which may be deferred under this plan shall be the lesser of:

- (a) \$15,000 or
- (b) The sum of the maximum amount which he or she may defer for the taxable year as herein provided and the difference between the maximum amount which he or she could have deferred as herein provided in all prior taxable years since participation commenced and the amount actually deferred in all such prior taxable years. (Ord. #147-1, June 1990)

4-510. Option to purchase authorized investments ownership of funds. The plan administrator may, but is not required to, purchase with the city as owner the authorized investments selected by a participant pursuant to the plan. All amounts of compensation deferred by and for a participant under the plan, all authorized investments purchased by the plan administrator and all income therefrom shall be and remain solely the property and rights of the city, subject only to claims of the general creditors of the city. Nothing in the plan shall be construed or interpreted to give any participant or the beneficiary of any participant at any time any security interest in an authorized investment.

Nor shall the plan be construed or interpreted so as to place any authorized investment in trust with the plan administrator for the city for the benefit of a participant or for the benefit of his or her beneficiaries. City shall be the sole owner of all authorized investments and shall have the exclusive right to all benefits therefrom. Authorized investments shall not be deemed to be collateral security for the payment of any benefits under the plan and shall be available to the city to meet its general obligations if the need shall arise; provided however, if the plan administrator does not purchase the authorized investments selected by a participant or if any authorized investment purchased is liquidated for any reason, then any and all benefits under the plan shall be paid from other funds and revenues of the city in amounts determined as set forth under the benefit portions of the plan. (Ord. #147-1, June 1990)

4-511. Death of a participant-designation of beneficiary. In the event of a participant's death the plan administrator shall make such payments as required to be made to the participant pursuant to the plan to any other person designated as beneficiary in writing with the plan administrator. A participant may change a designation of beneficiary from time to time either before or after payments shall commence. A change of beneficiary shall be accomplished and shall become effective upon receipt by the plan administrator of a written designation of beneficiary in a form acceptable to the board. In the absence of any written designation of a beneficiary the spouse of a participant, if any, at the time of death shall be deemed the designated beneficiary, otherwise the designated beneficiary shall be deemed to be the estate of the participant. (Ord. #147-1, June 1990)

4-512. Payments of deferred compensation. Payments of deferred compensation under the plan shall begin when a participant is actually separated from service with the city as an employee or as an elected or appointed official and is totally disabled or has reached normal retirement age or has died. In no event shall any distributions under the plan commence later than April 1 following the year in which a participant attains the age of 70½ years. Commencing with the first full calendar month following a participant's retirement from actual service due to total disability or upon death or upon a participant reaching normal retirement age and electing to cease active service, the plan administrator will cause monthly payments to be made to the participant for the remainder of his or her life with a total minimum guarantee of 120 such monthly payments. In the case of death such payments shall be made to his or her designated beneficiary. Such payments shall be equal in amount to what would be payable by the insurer to the city at the insurer's settlement rates in effect on the date of the participant's retirement, death or disability as if all the authorized investments selected by the participant, or otherwise, pursuant to the plan, had been purchased and as if, upon the participant's retirement, the city were to elect settlement of all such authorized

investments under an option providing for equal monthly payments for the life of the participant with a total minimum guarantee of 120 such payments. If a participant shall die before or after the plan administrator has caused payments hereunder to commence and if his or her designated beneficiary shall thereafter die before the final minimum monthly payments payable hereunder have been made, then the plan administrator shall promptly ascertain and cause to be paid in one lump sum to the beneficiary's estate an amount equal to what would be the commuted value of the remaining amount payable by the insurer to the city as if the city had elected a settlement option described above with respect to all authorized investments on the participant's life. If no designated beneficiary survives the participant then the plan administrator shall promptly ascertain and cause to be paid in one lump sum to the participant's estate an amount equal to what would be the commuted value of the remaining amount payable by the insurer to the city as if the city had elected the settlement option described above with respect to all authorized investments on his or her life. (Ord. #147-1, June 1990)

4-513. Determination of total disability. Retirement because of total disability to perform services for the city shall be determined by the board on a uniform basis applicable to all participants. (Ord. #147-1, June 1990)

4-514. Option to pay out in lump sum. Whenever the commuted value of amounts which would be payable by the insurer to the city under this plan is less than \$5,000 as of the date which would be the starting date of the full 120 payments payable under the plan, the plan administrator shall, in lieu of such 120 payments cause an amount equal to such commuted value to be paid in one lump sum. (Ord. #147-1, June 1990)

4-515. Benefits must commence no later than age 70½. In no event shall any distributions under the plan commence later than April 1 following the year in which a participant attains the age of 70½ years. Notwithstanding any other provisions of the plan a participant who is actually performing services for the city shall cause payments hereunder to commence upon proper application to the plan administrator during the calendar year in which he or she attains 70½ years. Such payments shall commence with the first full calendar month following the application. (Ord. #147-1, June 1990)

4-516. Transfer of authorized investments to participant. Notwithstanding any other provisions contained in the plan, upon the termination of employment or cessation in office of a participant, the board may, in its discretion, upon application of a participant, in lieu of the benefits provided under this plan, authorize the transfer and assignment to the participant of any authorized investments which the plan administrator has acquired on the life of the participant pursuant to the plan, any deferrals of

compensation that have not been invested in authorized investments and the value of any authorized investments that have been liquidated. For the purpose of applying this provision deferred compensation that is not invested in authorized investments and the value of any authorized investments that are liquidated, shall, while held by the city, bear interest at the rate of 6.00% per annum while not invested in authorized investments, except that no interest shall accrue with respect to deferred of compensation invested in an authorized investment within four (4) months of the date of deferral. City may, from time to time, change the rate of interest as herein provided by appropriate amendment hereto. If a transfer of assets is made hereunder all obligations of the city to pay benefits under the plan to a participant or to his or her beneficiary or estate shall terminate at the time of the transfer. (Ord. #147-1, June 1990)

4-517. Plan in addition to other benefits. The benefits payable pursuant to the plan are in addition to and not in lieu of any other retirement or disability benefits otherwise generally provided by the city from time-to-time. (Ord. #147-1, June 1990)

4-518. Non-assignability of benefits. No participant under the plan may assign, transfer or in any way encumber the benefits payable under the plan and any attempt to do so shall result in forfeiture of all rights to such benefits. The obligation of the city hereunder shall not be construed so as to give any participant any prior claim to any particular asset of the city. (Ord. #147-1, June 1990)

4-519. Withdrawals for certain emergencies. If a participant hereunder shall hereafter be faced with an unforeseeable emergency causing severe financial hardship, as hereafter defined or as defined in regulations issued of the Secretary of the Treasury of the United States pursuant to Section 457 of the code, the participant may apply, in a form acceptable to the board, for a withdrawal of any specified portion, as of the date of such application, of what would be the value of all authorized investments on his or her life as if the plan administrator had purchased from the insurer all the authorized investments selected by the participant, or otherwise, pursuant to the plan. Except as may be provided in regulations issued by the Secretary of the Treasury of the United States pursuant to Section 457 of the code, the phrase "unforeseeable emergency causing severe financial hardship" shall mean any sudden or unforeseen event or casualty beyond the control of the participant and which causes unexpected major expense and which is not in fact reimbursed from insurance or otherwise. Such an event or casualty may include an illness or accident involving the participant or a member of his or her immediate family; an accident or casualty causing serious damage or loss to his or her property; or any other situation causing unexpected major expense and which would not normally be budgeted

and which, if withdrawal were not permitted, would result in bankruptcy or in impending bankruptcy under federal law or under state law. Such shall not include the need for foreseeable expenditures which are normally budgetable, such as down payments for purchase of a home, payments for the purchase of motor vehicles or payments for college expenses. In the event of a withdrawal by a participant due to an unforeseeable emergency causing severe financial hardship the deferred compensation benefits payable pursuant to the plan shall be reduced to the extent any authorized investment on the life of the participant may be invaded for the purpose of such withdrawal as if the city had surrendered for its cash value or otherwise liquidated such authorized investment, in whole or in part, to obtain funds with which to pay the participant's requested withdrawal. Deferred compensation benefits thereafter shall be payable only on the basis of what would be the net remaining value cash or other value of such authorized investment on the date when deferred compensation benefits otherwise become payable pursuant to the plan. No withdrawal may in any event exceed the amount needed by a participant to meet the particular severe financial hardship including the estimate by the plan administrator of any increased federal or state income tax liability attributable to the amount of withdrawal pursuant hereto. (Ord. #147-1, June 1990)

4-520. Termination by the city. The city may terminate this plan at any time without the consent of any participant; provided, however, the plan shall be legally binding and irrevocable with respect to all deferrals of compensation effected prior to the effective date of such termination. Accordingly, any termination of this plan shall apply only to compensation of any participant earned after the effective date of such termination. (Ord. #147-1, June 1990)

4-521. Governing law. The plan as herein adopted shall be construed under and in accordance with the laws of the State of Tennessee. (Ord. #147-1, June 1990)

4-522. Effective date. This chapter shall take effect July 1, 1990, the welfare of the city requiring it. (Ord. #147-1, June 1990)

(as added by Ord. #183, § 5, Feb. 1997)

4-606. Investigation. The mayor and the city attorney, jointly or separately, shall immediately investigate all reports and complaints of sexual harassment toward the end of determining all facts in connection therewith and in an effort to arrive at the truth and to be as fair as possible to all parties involved. (5) If after a fair investigation it is determined that sexual harassment as charged or reported did not occur or that there is insufficient evidence to justify a finding that it did occur, then such conclusion shall be communicated

to the complaining or reporting employee along with a written statement of the reasons for the determination. (as added by Ord. #183, § 7, Feb. 1997)

To the extent the supervisor reasonably determines the employee is under the influence or impaired by use of alcohol or under the influence or impaired by use of a drug the employee will be excused from work or duties, without pay, during the continuation of such impairment. Disclosure made voluntarily by the employee will relieve penalty or sanction otherwise provided herein, but will not thereafter exempt the employee from any subsequent testing requirement or the sanction otherwise provided in connection therewith. (as added by Ord. #226, Aug. 2003)

4-803. Pre-employment testing. (1) Applicants for positions of employment must submit to drug and alcohol testing as a pre-requisite to employment. A negative test result must be received before a final offer of employment is made. Refusal to submit to testing will be disqualification from municipal employment.

(2) A positive test result for a prescription drug will not per se disqualify if the applicant discloses regular lawful use of such prescription drug prior to the testing and it is determined that continued use will not unreasonably interfere with the performance of the job for which applied. (as added by Ord. #226, Aug. 2003)

4-804. Post-accident testing. (1) If an employee is involved in an accident causing injury to the employee or to another person sufficient to require treatment for the injury, the employee will submit to an alcohol and drug test.

(2) A drug and alcohol test must be administered within two (2) hours following an accident. The employee must notify his or her supervisor immediately to insure action is taken to meet this testing requirement.

(3) An employee must refrain from using alcohol for eight (8) hours following an accident or until he or she has submitted to a drug and alcohol test, whichever first occurs; otherwise he or she will be considered as having refused to submit to testing.

(5) Refusal to comply with a testing requirement is grounds for immediate termination of employment. (as added by Ord. #226, Aug. 2003)

4-805. Random testing. (1) Employees are subject to random testing for drugs and alcohol. Random testing will be done in a fair and equitable manner.

(2) Testing may be done at any time an employee is at work. In the case of an employee who is not subject to regular or routine hours of employment the test will be administered at the first reasonable opportunity after he or she has been selected for such testing.

(3) Selection of employees for random testing will be by a computer-based random number generator matched with employee Social Security numbers such that every employee shall have an equal chance of being selected. In order to comply with testing requirements for holders of Commercial Driver Licenses (CDL) those employees holding a CDL will be grouped into a separate database and shall be randomly selected from such separate database so as to assure that minimum annual testing requirements are met. Likewise volunteer firemen will be grouped into a separate database and at least one (1) volunteer fireman will be randomly selected for testing at the same time of random selection of employees in the general employee database.

(4) Random tests will be unannounced and spread reasonably throughout the year.

(5) Employees notified of selection for random testing shall proceed immediately to the designated collection site. (as added by Ord. #226, Aug. 2003)

Follow-up testing may continue up to sixty (60) months following return to duty. The cost of such additional testing shall be paid by the employee. (as added by Ord. #226, Aug. 2003)

4-809. Breath alcohol testing. Breath Alcohol Testing (BAT) will be performed by a certified technician trained in the principles of Evidential Breath Testing (EBT) device methodology, operation and calibration checks; the fundamentals of breath analysis for alcohol content; and the procedures required

for obtaining a breath sample; and interpreting and recording EBT results. The EBT device must be approved to the standards of the National Highway Traffic Safety Administration (NHTSA).

(1) Alcohol testing will be conducted in a location affording reasonable visual and aural privacy to the employee being tested. Unauthorized persons will not be permitted access to a testing location when a test is in progress.

(2) EBT will require an individually sealed mouthpiece attached to the EBT device. Employee will blow into the mouthpiece forcefully until an adequate amount of breath has been obtained. EBT device must record the result, display it, and print the result immediately. The printed result will be recorded on a breath testing form by attaching with tamper proof tape.

(3) If a BAT result is less than 0.02% no further testing is authorized and the result will be transmitted to the mayor.

(4) If the BAT result is 0.02% or greater, a confirmation test must be performed to verify the initial test. The confirmation test will be conducted no less than fifteen (15) minutes nor more than twenty (20) minutes after the initial test. In the event the initial and confirmation test results are different, the confirmation test result will be deemed to be the final result upon which any action is based.

(5) Following completion the BAT result will be dated and a certification entered on the form by the technician. The employee must sign the certification and fill in the date on the form.

(6) Refusal to submit to a test or to comply with testing procedures shall be treated the same as if the result were 0.04 or greater.

(7) BAT results will be kept in a secure and confidential manner so that disclosure of information to unauthorized persons does not occur; provided, however:

(a) An employee will have access to his or her test records upon written request.

(b) Post-accident testing information must be disclosed as part of an accident investigation.

(c) Records may be made available to a subsequent employer upon receipt of a written request from the employee.

(d) Records may be disclosed to the employee, counsel for the municipality and to the decision-maker in legal or other proceedings initiated by or on behalf of the employee. This includes worker's compensation, unemployment compensation, or other proceedings relating to a benefit sought by the employee.

(8) An employee who attempts, but fails to provide an adequate amount of breath, will be directed to obtain, as soon as practical, an evaluation from a licensed physician acceptable to the mayor concerning any claim of medical inability to provide an adequate amount of breath based on a medical reason. If no medical reason exists to prevent an employee from providing an adequate amount of breath, he or she shall be deemed as having refused to take the test. (as added by Ord. #226, Aug. 2003)

4-810. Urine specimen collection procedures. (1) Procedures for collection, shipment and accession of urine specimens to a designated laboratory will account for the integrity of each urine specimen and will track its handling and storage from point of collection to final disposition of the specimen.

(2) Urine specimen collections may be done in-house or by an outside source that meets security requirements. Collection sites will be secure locations to allow maximum privacy to include a toilet for completion of urination and a source of water for washing hands which is excluded from the area provided for urination.

(3) No person who is not involved in the collection process will be present or gain access to a collection area during the collection process. Specimens must remain in the direct control of the collection site collector. No person other than the collection site collector may handle specimens prior to the same being placed securely in a mailing container.

(4) An employee reporting to a collection site for specimen collection will present a photo I.D. and will remove all unnecessary outer garments (e.g., coat or jacket), and set aside all personal belongings except his or her wallet.

(5) An employee will be allowed to provide a urine specimen in the privacy of a stall.

(6) If the collection site collector believes tampering or adulteration has occurred, a second specimen will be collected immediately under direct observation of a same-gender collection site collector. Both samples will be sent to the laboratory.

(7) Refusal to submit to a test will be considered a verified positive result.

(8) In all cases the employee and the collection site collector will keep the specimen in view at all times prior to being sealed and labeled. The specimen will be labeled with tamper proof seals. The employee will sign appropriate places on the chain of custody document and initial the seal on the bottle attesting that the specimen is specific to the employee providing the sample. (as added by Ord. #226, Aug. 2003)

4-811. Testing methodology. (1) Urine specimens will undergo an initial screening followed by confirmation of all positive screen results.

The report will indicate the drug/metabolites screened, whether the results are positive or negative, the specimen number assigned by the collection site collector and the laboratory identification number.

(3) A portion of the urine specimen will be retained by the laboratory for possible retesting for up to thirty (30) days. (as added by Ord. #226, Aug. 2003)

4-812. Review of results. (1) A licensed physician possessed of a knowledge of drug abuse disorders may be utilized to review and interpret positive results obtained from the laboratory and to assess and determine

whether alternate medical explanations can account for a positive test result. The physician may conduct a medical interview of the employee, review the employee's medical history and review any other relevant bio-medical factors.

(2) During the course of an interview of an employee who tested positive, if the physician learns of a medical condition which could, in reasonable medical judgment, pose a risk to safety, the physician will report that information to the mayor. (as added by Ord. #226, Aug. 2003)

4-813. Specimen re-testing requested by employee. An employee who has a confirmed positive drug test has seventy-two (72) hours in which to request a re-testing of the split specimen. If the employee makes such a request, the laboratory will be directed to provide the specimen to another certified laboratory for analysis. If the analysis of the specimen fails to reconfirm the presence of the drug or drug metabolite found in the primary specimen, or if the specimen is unavailable, inadequate for testing, or not susceptible to test, the re-test will be canceled. Re-testing of a specimen and the associated costs is the responsibility of the employee. (as added by Ord. #226, Aug. 2003)

4-814. Consequence of positive drug or alcohol test result of an employee. (1) A verified positive test result for an illegal drug and/or an alcohol breath test with a confirmed result of 0.04% or greater shall result in the immediate termination of an employee from his or her employment.

(2) A confirmed alcohol breath test result is 0.02% or greater, but less than 0.04%, or a confirmed test result of use of a prescription drug without satisfactory demonstration that it was used lawfully and regularly shall subject an employee to disciplinary action including, but not necessarily limited to a specified duration of suspension followed by a retest of the employee at his or her expense.

(3) In all cases of a verified positive drug test result and/or a confirmed alcohol breath test result the employee will be referred to a substance abuse professional for evaluation, referral and treatment as a condition of any retention of employment. The employee is responsible for any expense incurred for such treatment or rehabilitation subject to any health insurance benefits which may apply. (as added by Ord. #226, Aug. 2003)

4-815. Self-reporting. (1) An employee who approaches the mayor for assistance through rehabilitation for drug or alcohol abuse prior to testing will be afforded positive consideration for a medical leave of absence, without pay, for treatment and/or counseling to be pursued.

(2) An employee regularly taking lawfully prescribed prescription drugs must report such fact to his or her immediate supervisor and furnish a copy of the prescription form for inclusion in his or her personnel record. (as added by Ord. #226, Aug. 2003)

4-816. Employee acknowledgment of policy. Within thirty (30) days from the effective date hereof all employees as a condition for continued employment and all future applicants for employment as a condition for initial employment shall execute and file with the municipality as a part of his or her personnel record a statement that he or she has received a copy of this policy on alcohol and drug use and testing and understands and agrees to abide therewith. (as added by Ord. #226, Aug. 2003)

4-817. Repeal of existing policies. All existing policies of the municipality relative to drug or alcohol use in the workplace or for testing of employees are hereby abrogated, rescinded and repealed. (as added by Ord. #226, Aug. 2003)
