15-202. (1980 Code, § 9-201)

15-302. At intersections. It shall be unlawful for any person to operate or drive a motor vehicle through any intersection at a rate of speed in excess of fifteen (15) miles per hour unless such person is driving on a street regulated by traffic-control signals or signs which require traffic to stop or yield on the intersecting streets. (1980 Code, § 9-202)

15-303. In school zones. Generally, pursuant to Tennessee Code Annotated, § 55-8-153, special speed limits in school zones shall be enacted based on an engineering investigation; shall not be less than fifteen (15) miles per hour; and shall be in effect only when proper signs are posted with a warning flasher or flashers in operation. It shall be unlawful for any person to violate any such special speed limit enacted and in effect in accordance with this paragraph.

When the board of mayor and aldermen has not established special speed limits as provided for above, any person who shall drive at a speed exceeding fifteen (15) miles per hour when passing a school during a recess period when a warning flasher or flashers are in operation, or during a period of forty (40) minutes before the opening hour of a school or a period of forty (40) minutes after the closing hour of a school, while children are actually going to or leaving school, shall be prima facie guilty of reckless driving. STOPPING AND YIELDING

SECTION

- 15-501. Upon approach of authorized emergency vehicles.
- 15-502. When emerging from alleys, etc.
- 15-503. To prevent obstructing an intersection.
- 15-504. At railroad crossings.
- 15-505. At "stop" signs.
- 15-506. At "yield" signs.
- 15-507. At traffic-control signals generally.
- 15-508. At flashing traffic-control signals.
- 15-509. Stops to be signaled.

15-501. Upon approach of authorized emergency vehicles.¹ Upon the immediate approach of an authorized emergency vehicle making use of audible and/or visual signals meeting the requirements of the laws of this state, or of a police vehicle properly and lawfully making use of an audible signal only, the driver of every other vehicle shall immediately drive to a position parallel to, and as close as possible to, the right hand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer. (1980 Code, § 9-401)

15-502. When emerging from alleys, etc. The drivers of all vehicles emerging from alleys, parking lots, driveways, or buildings shall stop such vehicles immediately prior to driving onto any sidewalk or street. They shall not proceed to drive onto the sidewalk or street until they can safely do so without colliding or interfering with approaching pedestrians or vehicles. (1980 Code, § 9-402)

15-503. To prevent obstructing an intersection. No driver shall enter any intersection or marked crosswalk unless there is sufficient space on the other side of such intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of traffic in or on the intersecting street or crosswalk. This provision shall be effective notwithstanding any traffic-control signal indication to proceed. (1980 Code, § 9-403)

¹Municipal code reference

Special privileges of emergency vehicles: title 15, chapter 2.

15-504. At railroad crossings. Any driver of a vehicle approaching a railroad grade crossing shall stop within not less than fifteen (15) feet from the nearest rail of such railroad and shall not proceed further while any of the following conditions exist:

(1) A clearly visible electrical or mechanical signal device gives warning of the approach of a railroad train.

(2) A crossing gate is lowered or a human flagman signals the approach of a railroad train.

(3) A railroad train is approaching within approximately fifteen hundred (1500) feet of the highway crossing and is emitting an audible signal indicating its approach.

(4) An approaching railroad train is plainly visible and is in hazardous proximity to the crossing. (1980 Code, § 9-404)

15-505. At "stop" signs. The driver of a vehicle facing a "stop" sign shall bring his vehicle to a complete stop immediately before entering the crosswalk on the near side of the intersection or, if there is no crosswalk, then immediately before entering the intersection, and shall remain standing until he can proceed through the intersection in safety. (1980 Code, § 9-405)

15-506. At "yield" signs. The drivers of all vehicles shall yield the right of way to approaching vehicles before proceeding at all places where "yield" signs have been posted. (1980 Code, § 9-406)

15-507. At traffic-control signals generally. Traffic-control signals exhibiting the words "Go," "Caution," or "Stop," or exhibiting different colored lights successively one at a time, or with arrows, shall show the following colors only and shall apply to drivers of vehicles and pedestrians as follows:

(1) Green alone, or "Go":

(a) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.

(2) Steady yellow alone, or "Caution":

(a) Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited.

(b) Pedestrians facing such signal shall not enter the roadway.

(3) Steady red alone, or "Stop":

(a) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "Go" is shown alone. Provided, however, that a right turn on a red signal shall be permitted at all intersections within the town, provided that the prospective turning car comes to a full and complete stop before turning and that the turning car yields the right of way to pedestrians and cross traffic traveling in accordance with their traffic signal. However, said turn will not endanger other traffic lawfully using said intersection. A right turn on red shall be permitted at all intersections except those clearly marked by a "No Turns On Red" sign, which may be erected by the town at intersections which the town decides require no right turns on red in the interest of traffic safety.

(b) Pedestrians facing such signal shall not enter the roadway.

(4) Steady red with green arrow:

(a) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

(b) Pedestrians facing such signal shall not enter the roadway.

(5) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made a vehicle length short of the signal. (1980 Code, § 9-407)
