(2) If as a result of such investigation the chief reports the applicant's moral reputation and/or business responsibility to be unsatisfactory the city recorder shall notify the applicant that his application is disapproved and that no permit will be issued.

The city recorder shall keep a permanent record of all permits issued. (1964 Code, § 5-204)

Action on such bond may be brought by any person aggrieved and for whose benefit, among others, the bond is given, but the surety may, by paying, pursuant to order of the court, the face amount of the bond to the clerk of the court in which the suit is commenced, be relieved without costs of all further liability. (2) Notice of the hearing for revocation of a permit shall be given by the city recorder in writing, setting forth specifically the grounds of complaint and the time and place of hearing. Such notice shall be mailed to the permittee at his last known address at least five (5) days prior to the date set for hearing, or it shall be delivered by a police officer in the same manner as a summons at least three (3) days prior to the date set for hearing.

An application for a renewal shall be made substantially in the same form as an original application. However, only so much of the application shall be completed as is necessary to reflect conditions which have changed since the last application was filed. (1964 Code, § 5-213)

- (1) Permit non-discriminatory access to the public rights-of-way for providers of telecommunications services; and

- (5) Minimize the congestion, inconvenience, visual impact, and other adverse effects on the town's public rights-of-way. (Ord. #97-06, Sept. 1997)

9-502. Applicable scope. This chapter applies to all telecommunications service providers under Titles II ("Title II") and VI ("Title VI") of the Communications Act of 1934, as amended, (47 U.S.C. 201 et seq.) excluding services provided solely by means of wireless transmission. This chapter does not exempt providers of cable service or open video systems service from the requirements of Title VI and applicable FCC rules and regulations. Any requirements and obligations imposed by this chapter are in addition to any requirements imposed by Title VI or state law and regulation on such providers. (Ord. #97-06, Sept. 1997)

9-503. Definitions. (1) "Applicant." Any person who files an application with the town, under § 9-505 (Application to Provide Telecommunications Services) of this chapter, in order to obtain the necessary permission to use the public rights-of-way to provide telecommunications services within the town, whether by means of the person's own facilities or by means of capacity obtained from another provider of telecommunications services.

(2) "Chief administrative officer." The chief administrative officer of the Town of Morrison, or the person designated by the board of mayor and aldermen to carry out the duties and responsibilities of the chief administrative officer. "Chief administrative officer" shall also mean the person under the chief administrative officer's management and control designated by the chief administrative officer to administer the provisions of this chapter.

(3) "Gross revenue." All revenues received by a provider for telecommunications services furnished within the town. However, revenues received for use of network capacity, switched or unswitched access, and sale of unbundled elements under 47 U.S.C. 251 (b) and (c) from resellers of telecommunications services who are in compliance with this chapter are not included. Gross revenue does not include revenue uncollectible from customers ("bad debt") and any end user taxes collected from customers.

(4) "Municipal right-of-way use permit or municipal permit." The right granted by the town to use public rights-of-way to provide telecommunications services within the town to the public or to other providers, as specified by the terms of this chapter.

(5) "Person." Any person, firm, partnership, association, corporation, company or organization of any kind.

(6) "Provider." (7) "Public rights-of-way." The surface, the air space above the surface, and the area below the surface of any public street, highway, lane, path, alley, sidewalk boulevard, drive, bridge, tunnel, easement or similar property in

which the town holds any property interest or exercises any rights of management or control over and which, consistent with the purposes for which it was acquired or dedicated, may be used for the installation and maintenance of a telecommunications network.

(8) "Telecommunications network or network." All facilities placed in the public rights-of-way and used to provide telecommunications services.

(9) "Telecommunications services." All transmissions between or among points specified by the user, of information of the user's choosing (whether voice, video or data), without change in content of the information as sent and received, where such transmissions are accomplished through a telecommunications network. Telecommunications services include all ancillary or adjunct switching services and signal conversions rendered as a function of underlying transmission services, but excludes long distance transmissions (inter-LATA and intra-LATA toll transmissions). Telecommunications services include all services provided. Telecommunications services also include all content or value-added services rendered in conjunction with transmission services.

(10) "Town." The Town of Morrison, the present municipal corporation of Morrison, together with any future annexation made pursuant to law.

(11) "Town requirements." All laws, rules, regulations, policies and directives of general application of the Town of Morrison in effect at present or to be adopted in the future by the town. (Ord. #97-06, Sept. 1997)

9-504. Municipal right-of-way use permit required. (1) A person may not deliver telecommunications services in the town by means of a network unless the person obtains a municipal right-of-way use permit.

(2) The use of public rights-of-way for the delivery of any service not covered by this chapter is subject to all other applicable town requirements. (Ord. #97-06, Sept. 1997)

9-505. Application to provide telecommunications services using the public rights-of-way. (1) Any person proposing to provide telecommunications services by means of a telecommunications network located within the public rights-of-way ("applicant") shall submit an application to the chief administrative officer. The application, in a form to be prescribed by the chief administrative officer, shall describe all services the applicant wishes to provide, outline applicant's proposed network, and identify the uses of and potential impact on the public rights-of-way.

(2) The chief administrative officer shall have the duty to review applications submitted under this chapter and administer the provisions of this chapter regarding the granting or denial of a municipal right-of-way use permit to applicants. The chief administrative officer shall issue municipal right-of-way use permits, and shall administer and enforce compliance with respect to all municipal right-of-way use permits granted under this chapter. The chief

administrative officer shall submit a report annually to the board of mayor and aldermen analyzing whether any requirements imposed by each section of this chapter result in:

- (a) Anticompetitive effects in the market for telecommunications services in the town, as defined by federal law, and/or
- (b) Discrimination in favor of or against a holder of a certificate of need under state law. (Ord. #97-06, Sept. 1997)

9-506. Municipal right-of-way use permit issuance. (1) If the chief administrative officer finds that the application meets the requirements of this chapter, the chief administrative officer shall cause to be prepared a municipal right-of-way use permit for issuance to the applicant.

(2) The chief administrative officer shall complete all deliberations towards issuing a municipal right-of-way use permit, and shall issue the permit or a written denial within 60 days of the receipt of an application. The applicant shall respond to all reasonable information requests of the chief administrative officer during this consideration period. Any delays in providing such information shall be documented in writing by the chief administrative officer, who may cite any delays or refusals in obtaining information from an applicant as grounds for denial of a permit. (Ord. #97-06, Sept. 1997)

9-507. Petition for reconsideration. The act of granting, denying or terminating a municipal right-of-way use permit is an exercise of the police power of the town. A person whose application for a municipal right-of-way use permit is denied must petition the board of mayor and aldermen for reconsideration before seeking judicial remedies, and must file such a petition within 45 days of the written denial of such application by the chief administrative officer. A petition is considered denied if the board of mayor and aldermen does not act within 45 days after the petition is filed with the town recorder. (Ord. #97-06, Sept. 1997)

9-508. Administration and enforcement. (1) The chief administrative officer shall administer this chapter and enforce compliance with a municipal right-of-way use permit granted under this chapter.

(2) A provider shall report information that the chief administrative officer requires in the form and manner prescribed by the chief administrative officer relating to the use of public rights-of-way for the right-of-way occupancy authorized by a municipal right-of-way use permit granted under this chapter.

(3) The chief administrative officer shall report to the board of mayor and aldermen the chief administrative officer's determination that a provider has failed to comply with this chapter. (Ord. #97-06, Sept. 1997)

9-509. Applicability. (1) Sections 9-515 (Construction), 9-516 (ROW Occupancy), and 9-517 (Insurance) of this chapter apply only to a provider that owns or controls physical facilities in the rights-of-way.

(2) Section 9-518 (Indemnity) of this chapter applies to a provider that has a property interest in a network. (Ord. #97-06, Sept. 1997)

9-510. Compensation to town. (1) To compensate the town for the use and occupancy of the public rights-of-way, a provider shall pay a municipal right-of-way rental fee calculated as follows:

(a) Rights-of-way rental fee. Each provider shall be subject to a 5% annual fee based on gross revenue obtained from the provision of telecommunications services within the town.

(b) Non-monetary consideration. To the extent allowed by state and federal law, the town may include non-monetary consideration from each provider. To the extent not expressly prohibited by applicable law, a provider may agree to furnish to the town non-monetary consideration in the form of telecommunications services, network capacity, conduit, or other infrastructure, valued at the provider's direct cost. The chief administrative officer shall apply a credit or an offset for any non-monetary consideration received to the annual right-of-way rental fee. The chief administrative officer shall publicly disclose the form of non-monetary consideration and the credit amount.

(c) Credit for cable television franchise fees and other contributions. Any telecommunications provider who is currently franchised by the town under state and federal law and regulations to provide cable television service shall receive a credit against the annual rights-of-way rental fee for any cable television franchise fees paid to the town, and any other monetary or non-monetary contributions to the town under a cable franchise agreement.

(2) A provider may pass through to customers the municipal right-of-way rental fee on a pro rata basis, at its discretion, as permitted by state and federal law. The town does not require or recommend a pass-through charge of the fee on a per line or per customer basis. (Ord. #97-06, Sept. 1997)

9-511. Remitting rental fees to the town. A provider shall remit the municipal right-of-way rental fee on a quarterly basis. Payment shall be made on or before the 45th day following the close of each calendar quarter for which the payment is calculated. (Ord. #97-06, Sept. 1997)

9-512. Audits. (1) On 30 days notice to a provider, the town may audit a provider at any time. The provider shall furnish information to demonstrate its compliance with the municipal right-of-way use permit.

(2) A provider shall keep complete and accurate books of accounts and records of business and operations in accordance with generally accepted

accounting principles for a period of five years. If the Federal Communications Commission requires, a provider shall use the system of accounts and the forms of books, accounts, records, and memoranda prescribed in 47 CFR Part 32 or its successor. The town may examine the provider's books and records.

(3) A provider shall make available to the town, for the town to examine, audit, review and copy, in the town's offices, upon the chief administrative officer's reasonable written request, its books and records including papers, books, accounts, documents, maps, plans and other provider records pertaining to a municipal right-of-way use permit granted under this chapter. A provider shall fully cooperate in making records available and otherwise assist the town examiner. The town examiner shall not make copies of customer specific information. (Ord. #97-06, Sept. 1997)

9-513. Transfers. (1) A provider may not transfer a municipal right-of-way use permit unless the chief administrative officer approves the transfer in writing.

(2) A change in control of a provider is a transfer requiring chief administrative officer approval. A change of 25 percent or greater in the ownership of the provider establishes a rebuttable presumption of a change in control.

(3) If a provider attempts to transfer or transfers the provider's municipal right-of-way use permit without approval of the chief administrative officer, the chief administrative officer may revoke the municipal right-of-way use permit. If a municipal right-of-way use permit is revoked, all rights of the provider under the municipal right-of-way use permit end.

(4) A provider may transfer, without the chief administrative officer's approval, the facilities in the rights-of-way under a municipal right-of-way use permit to the provider's affiliate or to another provider who has a municipal right-of-way use permit under this chapter. The provider transferring the facilities remains subject to all applicable obligations and provisions of the municipal right-of-way use permit unless the provider to which the facilities are transferred is also subject to these applicable obligations and provisions.

(5) The chief administrative officer must act on a request for transfer of a municipal permit within 90 days of receipt of the request from the provider. Any request for a transfer of a municipal permit not acted upon within 90 days shall be deemed to have been approved. (Ord. #97-06, Sept. 1997)

9-514. Notices to the town. (1) A provider shall notify the chief administrative officer in writing contemporaneously with the transmittal of all petitions, applications, written communications and reports submitted by the provider, to the Federal Communications Commission and the Tennessee Regulatory Authority, or their successor agencies relating to matters affecting both the use of public rights-of-way and the telecommunications services

authorized by a municipal permit granted under this chapter. A provider shall furnish the chief administrative officer copies of the documents upon request.

(2) If a provider notifies the town of the confidential nature of information, the chief administrative officer shall maintain the confidentiality of the information to the extent permitted by law. Upon receipt in the chief administrative officer's office of requests for confidential information the town shall notify the affected providers of the request by facsimile transmission. (Ord. #97-06, Sept. 1997)

9-515. Construction obligations. (1) A provider is subject to the police powers of the town, other governmental powers, and the town's rights as a property owner under state and federal laws. A provider is subject to town requirements and federal and state rules in connection with the construction, expansion, reconstruction, maintenance or repair of facilities in the public rights-of-way.

(2) A provider shall place certain facilities underground according to applicable town requirements.

(3) At the town's request, a provider shall furnish the town accurate and complete information relating to the construction, reconstruction, removal, maintenance, operation and repair of facilities performed by the provider in the public rights-of-way. If any information furnished is erroneous as to the location of facilities, and reliance on this information results in construction delays or additional expenses, the provider who furnished the erroneous information shall be liable for the cost of delays and the additional expenses.

(4) The construction, expansion, reconstruction, excavation, use, maintenance and operation of a provider's facilities and property are subject to applicable town requirements.

(a) A provider shall perform excavations and other construction in the public rights-of-way in accordance with all applicable town requirements, including the obligation to use trenchless technology whenever possible. The director of public works shall waive the requirement of trenchless technology if he determines that field conditions warrant the waiver. A provider shall minimize interference with the use of public and private property and shall follow the construction directions given by the town.

(b) When a provider completes construction work, a provider shall promptly restore the public rights-of-way in accordance with applicable town requirements. A provider may excavate only for the construction, installation, expansion, repair, removal, and maintenance of the providers facilities.

(c) The town may require a provider to allow attachment of another provider's facilities to its poles and conduits, in accordance with the town charter, state and federal law.

(d) A provider shall furnish the director of public works and the chief administrative officer with construction plans and maps showing the routing of new construction at least 45 days before beginning construction that involves an alteration to the surface or subsurface of the public right-of-way. A provider may not begin construction until the plans and drawings have been approved in writing by the director of public works.

(e) If the chief administrative officer declares an emergency and requests the removal or abatement of facilities, by written notice, a provider shall remove or abate the provider's facilities by the deadline provided in the chief administrative officer's request. A provider and the town shall cooperate to the extent possible to assure continuity of service. If a provider, after notice, fails or refuses to act, the town may remove or abate the facility, at the sole cost and expense of the provider, without paying compensation to the provider and without the town incurring liability for damages.

(f) Except in an emergency, a provider may not excavate the pavement of a street or public right-of-way without first complying with town requirements.

(g) Within 120 days of completion of each new segment of a provider's facilities, a provider shall supply the town with a complete set of "as built" drawings for the segment in a format prescribed by the director of public works. A provider must obtain the town's approval before relocating the provider's facilities in the public rights-of-way. The town may not unreasonably withhold approval. A provider shall furnish a revised map including additional facilities on June 30 of each year to the director of public works showing how these facilities connect to existing facilities. (Ord. #97-06, Sept. 1997)

9-516. Conditions of rights-of-way occupancy. (1) In the exercise of governmental functions, the town has first priority over all other uses of the public rights-of-way. The town reserves the right to lay sewer, gas, water, and other pipe lines or cables and conduits, and to do underground and overhead work, and attachment, restructuring or changes in aerial facilities in, across, along, over or under a public street, alley or right-of-way occupied by a provider, and to change the curb, sidewalks or the grade of streets.

(2) In case of conflict or interference between the facilities of different providers, the provider whose facilities were first permitted shall have priority over a competing provider's use of the public rights-of-way.

(3) If, during the term of a municipal permit, the town authorizes abutting landowners to occupy space under the surface of any public street, alley, or rights-of-way, the grant to an abutting landowner shall be subject to the rights of the provider. If the town closes or abandons a public right-of-way that contains a portion of a provider's facilities, the town shall convey the land in the

closed or abandoned public rights-of-way subject to the rights granted in the municipal permit.

(4) If the town gives written notice, a provider shall, at the provider's expense, temporarily or permanently, remove, relocate, change or alter the position of provider's facilities that are in the public rights-of-way within 120 days. The town shall give notice whenever the town has determined that removal, relocation, change or alteration is reasonably necessary for the construction, operation, repair, maintenance or installation of a town or other governmental entity's public improvement in the public rights-of-way. This section shall not be construed to prevent a provider's recovery of the cost of relocation or removal from private third parties who initiate the request for relocation or removal.

(5) A provider who holds a municipal permit may trim trees in or over the rights-of-way for the safe and reliable operation, use and maintenance of its network. All tree trimming shall be performed in accordance with standards promulgated by the town. When ordered by the director of public works, tree trimming shall be done under the supervision of the town.

(6) Providers shall temporarily remove, raise or lower its aerial facilities to permit the moving of houses or other bulky structures, if the town gives written notice of no less than 48 hours. The expense of this temporary rearrangement shall be paid by the party or parties requesting and benefitting from the temporary rearrangement. Provider may require prepayment or prior posting of a bond from the party requesting the temporary move. (Ord. #97-06, Sept. 1997)

9-517. Insurance requirements. (1) A provider shall obtain and maintain insurance in the amounts prescribed by the chief administrative officer with an insurance company licensed to do business in the State of Tennessee acceptable to the chief administrative officer throughout the term of a municipal permit granted under this chapter. A provider shall furnish the town with proof of insurance at the time of issuance of a municipal permit. The town reserves the right to review the insurance requirements while a municipal permit is in effect, and to reasonably adjust insurance coverage and limits when the chief administrative officer determines that changes in statutory law, court decisions, or the claims history of the industry or the provider require adjustment of the coverage. For purposes of this section, the town will accept certificates of self-insurance issued by the State of Tennessee providing the same coverage.

(2) The chief administrative officer may, on request and at no cost to the town, receive copies of certificates of insurance evidencing the coverage required by this section. The chief administrative officer may request the deletion, revision or modification of particular policy terms, conditions, limitations or exclusions, unless the policy provisions are established by a law or regulation binding the town, the provider, or the underwriter. If the chief

administrative officer requests a deletion, revision or modification, a provider shall exercise reasonable efforts to pay for and to accomplish the change.

An insurance certificate shall contain the following required provisions:

(a) Name the town and its officers, employees, board members and elected representatives as additional insureds for all applicable coverage;

(b) Provide for 30 days notice to the town for cancellation, non-renewal, or material change;

(c) Provide that notice of claims shall be provided to the chief administrative officer by certified mail; and

(d) Provide that the terms of the municipal permit which impose obligations on the provider concerning liability, duty, and standard of care, including the indemnity section, are included in the policy and that the risks are insured within the policy terms and conditions.

(3) A provider shall file and maintain proof of insurance with the chief administrative officer during the term of a municipal permit. An insurance certificate obtained in compliance with this section is subject to town approval. The town may require the certificate to be changed to reflect changing liability limits. A provider shall immediately advise the town of actual or potential litigation that may develop that would affect insurance coverage related to a municipal permit.

(4) An insurer has no right of recovery against the town. The required insurance policies shall protect the provider and the town. The insurance shall be primary coverage for losses covered by the policies.

(5) The policy clause "Other Insurance" shall not apply to the town where the town is an insured under the policy.

(6) The provider shall pay premiums and assessments. A company which issues an insurance policy has no recourse against the town for payment of a premium or assessment. Insurance policies obtained by a provider must provide that the issuing company waives all right of recovery by way of subrogation against the town in connection with damage covered by the policy. (Ord. #97-06, Sept. 1997)

9-518. Indemnity. (1) During the term of a municipal permit, a provider is liable for the acts or omissions of an entity used by the provider, including an affiliate, when the entity is involved directly or indirectly in the construction and installation of the provider's facilities. The acts or omissions of the entity shall be considered the acts or omissions of the provider.

(2) Each provider granted a municipal permit under this chapter shall provide to the chief administrative officer, in writing, a statement that the provider agrees to defend, indemnify and hold the town harmless against all damages, cost, loss or expense arising out of, incident to, concerning or resulting from the negligence or willful misconduct of the provider, its agents, employees, or subcontractors, in the performance of activities under the municipal permit:

(a) For the repair, replacement, or restoration of town property, equipment materials, structures and facilities which are damaged, destroyed or found to be defective; and

(b) Against any and all claims, demands, suits, causes of action, and judgments for:

(i) Damage to or loss of the property of any person including, but not limited to the provider, its agents, officers, employees and subcontractors, the town's agents, officers and employees, and third parties; and

(ii) Death, bodily injury, illness, disease, worker's compensation, loss of services, or loss of income or wages to any person including but not limited to the agents, officers and employees of the provider, the providers subcontractors, the town, and third parties, no matter how, or to whom, the loss may occur.

(3) The chief administrative officer shall give prompt written notice to a provider of any claim for which the town seeks indemnification. The provider shall have the right to investigate, defend and compromise these claims subject to the town's prior approval. (Ord. #97-06, Sept. 1997)

9-519. Privacy of customer information. A provider shall comply with state and federal law regarding privacy of customer information. (Ord. #97-06, Sept. 1997)

9-520. Annexation: deannexation. Within thirty (30) days following the date of passage of any action affecting any deannexation or annexation, the chief administrative officer shall notify providers of this action by furnishing to the providers maps of the affected area(s), showing the new boundaries of the town. (Ord. #97-06, Sept. 1997)

5-521. Unauthorized use of public rights-of-way. (1) A person commits an offense if a person uses the public rights-of-way to provide a telecommunications service without first securing a municipal permit from the town.

(2) Each unauthorized use of the public rights-of-way and each unauthorized placement of facilities constitutes a separate offense. Each day a violation of this chapter occurs shall constitute a distinct and separate offense.

(3) An offense under this subsection is punishable by a fine of \$500. (Ord. #97-06, Sept. 1997)
