**17-101. Refuse defined.** "Refuse" means and includes garbage, rubbish, leaves, brush, and refuse as those terms are generally defined, except that dead animals and fowls, body wastes, hot ashes, rocks, concrete, bricks, and similar materials are expressly excluded therefrom and shall not be stored therewith.

**17-102. Premises to be kept clean.** All persons within the city are required to keep their premises in a clean and sanitary condition, free from accumulations of refuse except when stored as provided in this chapter.

**17-103. Storage.** Each owner, occupant, or other responsible person using or occupying any building or other premises within this city where refuse accumulates or is likely to accumulate, shall provide and keep covered an adequate number of refuse containers. maximum capacity shall not apply to larger containers which the city's contractor handles mechanically. (modified)

**17-104. Location of containers.** Where alleys are used by the city refuse collectors, containers shall be placed on or within six feet (6') of the alley line in such a position as not to intrude upon the traveled portion of the alley. Where streets are used by the city refuse collectors, containers shall be placed adjacent to and back of the curb, or adjacent to and back of the ditch or street line if there is no curb, at such times as shall be scheduled by the city for the collection of refuse therefrom. As soon as practicable after such containers have been emptied, they shall be removed by the owner to within, or to the rear of, his premises and away from the street line until the next scheduled time for collection.

**17-105. Disturbing containers.** No unauthorized person shall uncover, rifle, pilfer, dig into, turn over, or in any other manner disturb or use any refuse container belonging to another. This section shall not be construed to prohibit the use of public refuse containers for their intended purpose.

**17-106. Collection.** All refuse accumulated within the corporate limits shall be collected, conveyed, and disposed of under the supervision of the contractor appointed by the board of commissioners. Collections shall be made regularly in accordance with an announced schedule. (modified)

**17-107. Collection vehicles.** The collection of refuse shall be by means of vehicles with beds constructed of impervious materials which are easily cleanable and so constructed that there will be no leakage of liquids draining from the refuse onto the streets and alleys. Furthermore, all refuse collection vehicles shall utilize closed beds or such coverings as will effectively prevent the scattering of refuse over the streets or alleys.

**17-108. Disposal.** The disposal of refuse in any quantity by any person in any place, public or private, other than at the site or sites designated for refuse disposal by the board of commissioners is expressly prohibited. (modified)

**17-109. Violations and penalty.** Violations of this chapter shall subject the offender to a penalty under the general penalty provision of this code. Each day a violation is allowed to continue shall constitute a separate offense.
