

**Survey Results
TPMA/ MTAS
Onsite Medical Clinic
May 2007**

The Knox County Human Resources Department asked TPMA/ MTAS to conduct a survey of jurisdictions currently offering or planning to offer onsite medical services to their employees.

Knox County Government is moving forward with implementing an onsite wellness center (medical clinic) for employees. The purpose of this clinic is to expand on their wellness program model (www.knoxcounty.org/hr) and better control healthcare costs. In addition, they are hoping to reduce “away from work time” associated with routine and sick visits.

General Survey Information

- 16 total responses
- 2 municipalities currently offer an onsite medical clinic
- 7 municipalities indicated they are considering implementing a clinic in the future
- 11 municipalities offer some form of Health Risk Assessment

Notes

HRA - Health Risk Assessment. Typically involves assessment of health related risks via traditional surveys and or biometrics/ lab work.

Clinic- For purposes of this survey a clinic is identified as medical staff dedicated to improve the health of the workforce.

Future plans - May include “maybes”
