

The Town of Farragut has completed its review of the resumes received in application for the position of _____. We regret that we are unable to offer you an interview at this time, but wish to thank you for the opportunity to review your qualifications.

Narrowing the resumes down to a manageable number for interviews was a difficult process. Although we are optimistic about our ability to select a _____ from among those selected for interviews, if we are not successful we may ask to reconsider your qualifications if your interest continues.

Thank you once again.
