

AMERICANS WITH DISABILITIES ACT (ADA)

Self-Evaluation Checklist & Transition Plan

Town of
Arlington, TN

November 2016

A. Introduction

The Americans with Disabilities Act (ADA) is a wide-ranging civil rights law that prohibits discrimination against people with disabilities in employment, transportation, public accommodation, communications, and governmental activities. It is a law that was enacted by the U. S. Congress in 1990. It was signed into law on July 26, 1990, by President George H. W. Bush. On July 23, 2010, Attorney General Eric Holder signed final regulations revising the Department's ADA regulations, including its ADA Standards for Accessible Design. These final rules went into effect on March 15, 2011, but were not required until March 15, 2012. There are five (5) separate Titles (or sections) of the Americans with Disabilities Act (hereafter referred to as "ADA") as follows:

- Title I – Employment
- Title II – Public Services and Transportation
- Title III – Public Accommodations
- Title IV – Telecommunications
- Title V – Miscellaneous

Pursuant to Title II of the ADA, public entities are prohibited from discriminating on the basis of a disability. All programs, services and activities offered by the public entity must be accessible to persons with disabilities. In order to accomplish this, the Department of Justice developed regulations requiring the City to conduct a Self-Evaluation of the accessibility of its programs and services to determine whether issues of accessibility could be addressed through changes in the way such programs and services are provided.

The Town is obligated to remove physical barriers to accessibility when program changes cannot ensure access to services, programs, and activities in existing facilities. Realizing that the structural changes would take time and money to provide, the Department of Justice Regulations, Federal Register 28 CFR Part 35, states that "in the event that structural changes to facilities will be undertaken to achieve program accessibility, a public entity that employs 50 or more persons shall develop a Transition Plan setting forth the steps necessary to complete such changes." Additionally, "if a public entity has responsibility or authority over streets, roads, or walkways, its Transition Plan shall include a schedule for providing curb ramps or other sloped areas where pedestrian walks cross curbs, giving priority to walkways serving entities covered by the Act."

The law also reads that:

"(a) A public entity" (without qualifying by number of employees or any other measurement) "shall, within one year of the effective date of this part, evaluate its current services, policies, and practices, and the effects thereof, that do not or may not meet the requirements of this part and,

to the extent modification of any such services, policies, and practices is required, the public entity shall proceed to make the necessary modifications.

(b) A public entity shall provide an opportunity to interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the Self-Evaluation process by submitting comments.”

At a minimum, a Transition Plan must:

1. Identify an ADA Coordinator
2. Identify Barriers to Access
 - a. Within the Public Right-of-Way - Priorities for areas of Town:
 - State and local government offices
 - Places of public accommodation (parks, schools, Depot Square, etc.)
 - Other areas of Town (older residential neighborhoods)
 - b. To Town-owned facilities
 - Develop list of Town-owned facilities
 - List those facilities that are used by the public
 - Assess from parking lot to inside the building (meeting rooms, restrooms, etc.)
 - c. To Town programs, services and activities
 - Board meetings
 - Public meetings
 - Communication
3. Develop a Complaint Process
4. Develop/Adopt Design Standards
5. Identify Public Involvement Opportunities
6. Identify Plan (time and budget) to Remove Barriers
7. Reevaluation Schedule

B. Town's Current ADA Program

1. Responsible Official

An Americans with Disabilities Act (ADA) Compliance Coordinator has been designated by the Mayor as the person responsible for the development and implementation of the City's ADA Transition Plan.

2. Advisory Team

The Town Administrator will appoint an Americans with Disabilities Act (ADA) Advisory Team which will include the Town's ADA Compliance Coordinator and other Town staff, along with (as applicable) disabled Town residents and representatives of agencies or organizations that offer programs or services to those with disabilities

This group will be an advocate for those with disabilities, and will develop policies and procedures to be adopted by the Town. It will review and evaluate policies, procedures, programs, services, plans and other aspects of all Town functions to determine if the needs of the disabled community are being addressed. This group will meet periodically as needed, and the meetings will be open to the public.

The Advisory Team welcomes the opportunity to learn how it can better serve the disabled community. The public may give input and comment on matters related to the ADA to a Town staff person, elected officials and ADA Advisory Team members. However, the Town recommends that all comments be directed to the ADA Compliance Coordinator. Reports may be made verbally to Town Hall or Public Works, or in writing by mail or by e-mail.

3. Self-Evaluation

The Town has conducted a Self-Evaluation of Town facilities, programs, services and activities to ensure that they are accessible to and usable by persons with disabilities. The ADA Compliance Coordinator worked with the ADA Advisory Team and other Town staff to complete the Self-Evaluation process. Based upon the results of this Self-Evaluation, an Action Plan has been developed listing specific modifications needed, with target dates by which those modifications would be made.

4. Complaint Process

The Town has developed a disabled access Complaint Process for individuals who have an ADA issue with regard to program or facility access within the Town.

C. Self-Evaluation Results

- 1. Town-Owned Facilities:** Table 1 lists the Town-owned facilities and identifies the deficiencies of each regarding ADA accessibility. Five of the seven facilities have no accessibility deficiencies. The remaining two facilities are the Safe Room and the Wastewater Treatment Plant. For both of these facilities, ADA accessible parking spaces need to be designated, with appropriate signage denoting the location of the accessible parking. In addition, the Wastewater Treatment Plant does not have an accessible ADA ramp into the building.
- 2. Signalized Intersections:** Table 2 is a list of signalized intersections in Arlington, denoting whether sidewalks and ramps are present, and indicating the availability and timing of crosswalk push buttons at the intersections with ramps. For the 4 intersections with pedestrian facilities, none have audible crosswalk signals.
- 3. Streets & Intersections:** Table 3 is a list of streets and intersections within the Town, denoting whether sidewalks and ADA ramps are present, and whether the ramps have tactile surfaces and/or score lines. This list does not include the streets in the older parts of downtown Arlington because most of these streets are built to rural standards (i.e., no curb & gutter or sidewalk), and therefore do not have curb ramps. The majority of the intersections on this list (298 of 313) have ADA ramps installed. Of the 298, a total of 75 have either tactile surfaces, score lines, or both. The majority of the ramps in Arlington were built under older ADA standards that did not require a tactile surface.

Of the 313 items on this list, only 15 have no curb ramps. However, of these 15 intersections, a total of 10 are at 90-degree turns in the street with "bulb-outs," where the Town has not historically required the installation of curb ramps. These are item no's 95, 122, 144, 220, 221, 233, 234, 242, 245 and 270 on the list. Another 2 locations on the list (item no's 209 and 210) are at the end of streets with temporary cul-de-sacs which will be extended when the adjoining phase of the subdivision is built. One locations (no 24) is at the intersection of the side street with Highway 70, which has no sidewalks. The last two locations are at a T-intersection where ramps were not installed (no. 272), and one school-access walkway without a curb ramp (no. 6).

- 4. Sidewalks:** The Town currently has ownership and maintenance responsibility for sidewalks within the public right of way. The vast majority of sidewalks in Arlington have been built within the past 15 years, either as part of the development of new subdivisions, or as part of road construction projects. In these cases, the sidewalks were built in compliance with the ADA standards in effect at the time of construction.

As noted in Section C.3 above, the majority of streets with sidewalks have curb ramps, but do not have tactile surfaces because the standards did not require it.

The older parts of Arlington (pre-2000) were developed to rural street standards; i.e., no curb & gutter or sidewalks. However, within those parts of town, there are a few streets where sidewalks exist, and many of those sidewalks are over 20 years old. Table 4 lists the streets in the older parts of town that have sidewalks, and provides an estimate of the portion of these sidewalks that do not comply with ADA standards, either due to deterioration of the sidewalk or excess cross-slopes.

Checklist for facilities in the Public ROW:

Table 1.1 Accessibility Barriers Checklist

ISSUE	POSSIBLE BARRIERS
Sidewalk and Pathway Clear Width	Narrow. Below Guidelines
Sidewalk and Pathway Cross Slope	Steepness. Irregularity. Variability. Warping
Landings Along Sidewalks and Pathways	Less Than 4 feet by 4 feet
Sidewalk and Pathway Grade	Steepness. Angle Points
Materials and Finishes	Deterioration of Surfaces. Deterioration of Markings. Appropriateness of material (ex. Cobblestones)
Gratings	Grating Type. Grate Opening Orientation
Discontinuities	Missing Sections. Gaps. Drops. Steps
Detectable Warning System	Missing. Inappropriate Materials. Inadequate Size. Wrong Location
Obstructions	Signs. Mail Boxes. Fire Hydrants. Benches. Telephones. Traffic Signal Poles. Traffic Signal Controller Boxes. Newspaper Boxes. Drainage Structures. Tree Grates. Pole Mounted Objects. Standing Water. Snow or Ice
Traffic Signal Systems	Lack of Provision for the Visually Impaired such as APS. Inadequate Time Allowed. Inoperable Buttons. Inaccessible Buttons
Curb Ramp	Missing. Does not Fall within Marked Crosswalk. Doesn't Conform to Guidelines
Curb Ramp Flares	Missing Where Required. Too Steep

D. ADA Transition Plan

1. Overview

The goal of the Americans with Disabilities Act (ADA) Transition Plan is to ensure that the Town creates accessible public facilities and accessible paths of travel in the public right-of-way for people with disabilities.

The Town evaluated Town facilities and pedestrian circulation paths for accessible features as required by the Americans with Disabilities Act (ADA) and its implementing regulations (28 CFR 35) and Section 504 (49 CFR 27). The evaluation included, but was not limited to, buildings, sidewalks, curbs, curb ramps, the portion of the street surface in the crosswalk area and pedestrian signals, and was based on the requirements in the "Public Right of Way Accessibility Guidelines" (PROWAG), dated July 26, 2011. On the basis of this information, this transition plan outlines the steps the Town will take to provide new, or upgrade existing, ADA-compliant facilities as required by the ADA and its implementing regulations. The Town's facilities will be constructed or reconstructed to meet applicable requirements, effective at the time of bidding or at the time of construction if using Town forces.

2. Inventory

The inventory was based on the Town's Self-Evaluation of locations where no ADA parking and/or accessible routes are provided to Town facilities; where no curb ramps are provided at the intersection of existing sidewalks and public streets; where non-compliant curb ramps, sidewalks, and other features exist; and where existing features are in poor condition. Features may include, but are not limited to, parking, signage, sidewalks, curb ramps, the portion of the street surface in the crosswalk area and pedestrian signals. The evaluation was completed March of 2016 and will be updated every 5 years.

3. Priorities

ADA upgrades and/or additions and other features will be installed or reinstalled in the locations identified in the Self-Evaluation according to the following priorities:

- a. Local government offices and facilities
- b. Sidewalks
- c. Traffic signal upgrades to audible signals
- d. Curb ramp tactile surface retrofits

4. Funding

The Town has budgeted **\$10,000** annually for its ADA Program for ADA specific projects as defined in this transition plan. In addition to the yearly budgeted funds, ADA features may be installed as a part of projects that involve new construction, reconstruction, alterations, or maintenance to roadway or pedestrian facilities in the public right-of-way. These pedestrian access route features may be constructed at the time of the roadway or pedestrian project, even if they are identified as a lower priority in this transition plan. The cost of this work will be paid for using funds allocated for the roadway or pedestrian project.

5. Implementation Plan and Schedule

The Town will implement this transition plan based on the number of items identified in the ADA Self-Evaluation, estimated cost of those features, and funding levels identified above. The following implementation strategy will be used. These estimates are subject to change.

Priority 1 Number of locations: **5**
 Estimated number of locations constructed per year: **5**
 Construction season targeted for completion: **2018**

Priority 2 Number of locations: **7**
 Estimated number of locations constructed per year: **2-3**
 Construction season targeted for completion: **2021**

Priority 3 Number of locations: **4**
 Estimated number of locations constructed per year: **1**
 Construction season targeted for completion: **2025**

Priority 4 Number of locations: **220+**
 Estimated number of locations constructed per year: **25**
 Construction season targeted for completion: **2035**

						\$117,740		

6. Responsible Parties

The Town Recorder and ADA Coordinator are responsible for the implementation of this transition plan.

The Town Recorder and ADA Coordinator are responsible for ADA and Section 504 compliance.

7. Complaint Procedures

The Town has defined the complaint procedures to be followed to provide citizens the ability to file a complaint to the Town for alleged ADA and Section 504 discrimination. This is included in Appendix A.

8. Public Involvement

Public input was obtained in the development of this transition plan by soliciting comments from the Board of Mayor and Aldermen, and the general public for 30 days from October 1st, 2016 to November 7th, 2016. All comments have been reviewed and incorporated as appropriate.

APPENDIX A

Discrimination Complaint Procedures

APPENDIX A

Discrimination Complaint Procedures for Allegations of discrimination in federally assisted programs or activities

The Town of Arlington adopts the following ADA discrimination complaint procedures for complaints relating to transportation-related programs or activities.

- 1. Filing a discrimination complaint:** Any person who believes that they, or any class of individuals, or in connection with any disadvantaged business enterprise (DBE), has been or is being subjected to discrimination prohibited by the Civil Rights Act of 1964, the American with Disabilities Act of 1990, Section 504 of the Vocational Rehabilitation Act of 1973, and Civil Rights Restoration Act of 1987, as amended, has the right to file a complaint.

Any individual wishing to file a discrimination complaint must be given the option to file the complaint with the Town, or directly with TDOT, FHWA, USDOT, and U.S. Department of Justice (USDOJ). Complaints may be filed with all agencies simultaneously.

No individual or agency shall refuse service, discharge, or retaliate in any manner against any persons because that individual has filed a discrimination complaint, instituted any proceeding related to a discrimination complaint, testified, or is about to testify, in any proceeding or investigation related to a discrimination complaint, or has provided information or assisted in an investigation.

- 2. Complaint filing time-frame:** A discrimination complaint must be filed within 180 calendar days of either:
 - a. The alleged act of discrimination,
 - b. Date when the person(s) became aware of the alleged discrimination, or
 - c. Date on which the conduct was discontinued, if there has been a continuing course of conduct.

The Town or their designee may extend the time for filing or waive the time limit in the interest of justice, specifying in writing the reason for so doing.

- 3. Contents of a complaint:** A discrimination complaint must be written. The document must contain the following information:
 - a. The complainant's name and address, or other means by which the complainant may be contacted.
 - b. Identification of individual(s) or organization(s) responsible for the alleged discrimination.
 - c. A description of the complainant's allegations, which must include enough detail to determine if the Town has jurisdiction over the complaint and if the complaint was filed timely.
 - d. Specific prohibited bases of alleged discrimination (i.e., disability, race, color or gender, etc.).
 - e. Apparent merit of the complaint.
 - f. The complainant's signature or signature of their authorized representative.

In the event that a person makes a verbal complaint of discrimination to an officer or employee of the Town, the complainant shall be interviewed by the Town's ADA coordinator. If necessary, the Town's ADA coordinator will assist the complainant in reducing the complaint to writing and then submit the

written version of the complaint to the person for signature.

4. **Complaints against the Town:** Any complaints received against the Town should immediately be forwarded to TDOT for investigation. The Town shall not investigate any complaint in which it has been named in the complaint. The contact information for the TDOT ADA Program Coordinator is:

Ms. Margaret Z. Mahler, ADA Compliance - Chief Engineer's Office
Tennessee Department of Transportation
Suite 400, James K. Polk Building, 505 Deaderick Street, Nashville, TN 37243-0327
(615) 741-4984 / (615) 532-5995 (fax)

Notice of Receipt: All complaints shall be referred to the Town's ADA coordinator for review and action. Within 10 days of receipt of the discrimination complaint, the Town's ADA coordinator shall issue an initial written Notice of Receipt that:

- a. Acknowledges receipt of the discrimination complaint.
 - b. Advises the complainant of their right to seek representation by an attorney or other individual of their choice in the discrimination complaint process.
 - c. Contains a list of each issue raised in the discrimination complaint.
 - d. Advises the complainant of the time-frames for processing the discrimination complaint and providing a determination.
 - e. Advises the complainant of other avenues of redress (TDOT, FHWA, USDOT and USDOJ, etc.).
5. **Notification to TDOT of a complaint:** The Town of Arlington shall advise TDOT ADA Program Coordinator within 10 business days of receipt of the complaint. Generally, the following information will be included in every notification to TDOT.
 - a. Name, address and phone number of the complainant
 - b. Name(s) and address(es) of alleged discriminating official(s)
 - c. Basis of complaint (i.e., race, color, national origin or gender)
 - d. Date of alleged discriminatory act(s)
 - e. Date of complaint received by the Town
 - f. A statement of the complaint
 - g. Other agencies (state, local or federal) where the complaint has been filed
 - h. Explanation of actions the Town has taken/proposed to resolve the issue identified in the complaint

6. **Processing a complaint and time-frame:** Total time allowed for processing the discrimination complaint is 90 calendar days from date the complaint was filed. No extension is available at this level. This includes 60 calendar days at the local level and 30 days for review at the state level, if needed.

If the complainant elects to file a complaint with both the Town and TDOT, the complainant shall be informed that the Town has 90 calendar days to process the discrimination complaint and TDOT shall not investigate the complaint until the 90 calendar-day period has expired.

Immediately after issuance of the Notice of Receipt to the complainant (step 5), the Town's ADA coordinator shall either begin the fact-finding or investigation of the discrimination complaint, or arrange to have an investigation conducted.

Based on the information obtained during that investigation, the Town's ADA coordinator shall render a recommendation for action in a Report of Findings to the Town Administrator.

7. **Alternative dispute resolution/mediation process:** The complainant must be given an invitation to participate in mediation to resolve the complaint by informal means. The Town's ADA coordinator shall include an invitation to mediation with the Notice of Receipt, offering the opportunity to use the alternative dispute resolution/mediation process.

If the complainant selects mediation, it allows disputes to be resolved in a less adversarial manner. With mediation, a neutral party assists two opposing parties in a dispute come to an agreement to resolve their issue. The mediator does not function as a judge or arbiter, but simply helps the parties resolve the dispute themselves.

Upon receiving a request to mediate, the Town's ADA coordinator shall identify or designate a mediator who must be a neutral and impartial third party. The mediator must be a person acceptable to all parties and who will assist the parties in resolving their disputes.

If the complainant chooses to participate in mediation, they or their designee must respond in writing within 10 calendar days of the date of the invitation. This written acceptance must be dated and signed by the complainant and must also include the relief sought.

After mediation is arranged, a written confirmation identifying the date, time, and location of the mediation conference shall be sent to both parties. If possible, the mediation process should be completed within 30 calendar days of receipt of the discrimination complaint. This will assist in keeping within the 90 calendar-day timeframe of the written Notice of Final Action if mediation is not successful.

If resolution is reached under mediation, the agreement shall be in writing. A copy of the signed agreement shall be sent to the TDOT ADA Program Coordinator. If an agreement is reached, but a party to it believes their agreement has been breached, the non-breaching party may file another complaint. If the parties do not reach resolution under mediation, the Town's ADA coordinator shall continue with the investigation.

8. **Notice of Final Action:** A written Notice of Final Action shall be provided to the complainant within 60 days of the date the discrimination complaint was filed. It shall contain:
 - a. A statement regarding the disposition of each issue identified in the discrimination complaint and reason for the determination.
 - b. A copy of the mediation agreement, if the discrimination complaint was resolved by mediation.
 - c. A notice that the complainant has the right to file a complaint with TDOT, FHWA, USDOT or USDOJ within 30 calendar days after the Notice of Final Action, if they are dissatisfied with the final action on the discrimination complaint.

The Town's ADA coordinator shall provide the TDOT ADA Program Coordinator with a copy of this decision, as well as a summary of findings upon completion of the investigation. Should deficiencies be noted in the implementation of these discrimination complaint procedures by the Town, the TDOT ADA Program Coordinator will work in conjunction with the Town's ADA coordinator to review the information and/or provide technical assistance in the discrimination complaint process, mediation process, and/or investigation.

9. **Corrective action:** If discrimination is found through the process of a complaint investigation, the respondent shall be requested to voluntarily comply with corrective action(s) or a conciliation agreement to correct the discrimination.
10. **Confidentiality:** The Town's and TDOT's ADA Program Coordinators are required to keep the following information confidential to the maximum extent possible, consistent with applicable law and fair determination of the discrimination complaint.
 - a. The fact that the discrimination complaint has been filed.
 - b. The identity of the complainant(s).
 - c. The identity of individual respondents to the allegations.
 - d. The identity of any person(s) who furnished information relative to, or assisting in, a complaint investigation.
11. **Record keeping:** The Town's ADA coordinator shall maintain a log of complaints filed that alleged discrimination. The log must include:
 - a. The name and address of the complainant.
 - b. Basis of discrimination complaint.
 - c. Description of complaint.
 - d. Date filed.
 - e. Disposition and date.
 - f. Any other pertinent information.

All records regarding discrimination complaints and actions taken on discrimination complaints must be maintained for a period of not less than 3 years from the final date of resolution of the complaint.
