Nashville	John	Drake	chief@police@nashville.gov	511,546	Yes	Yes		No		Maybe	Yes	The Nashville Department of Transportation includes the Bicycle and Pedestrian Advisory Committee through which community meetings/events are organized and safety information disseminated. Additionally, they often collaborate with Walk Bike Nashville, which is a non-profit organization dedicated to bicycle/pedestrian advocacy in the city. https://www.nashville.gov/departments/transportation/boards/bpac https://www.walkbikenashville.org/	
Nolensville	Chuck	Downham	cdownham@nolensvilletn.gov	16,836	Yes	Yes	Collectively, all types of e-bikes. Challenges with unsafe and/or unlawful operation of e-bikes is predominantly being experienced with non-adult (youth) riders but we are also experiencing unsafe and/or unlawful operation by adults on occasion as well. Yes, non-adult e-bike riders are unaware of the rules and regulations for safe and lawful operation and the requirement to follow the rules of the road when operating on streets; helmets are not being worn; operating on streets, pathways and sidewalks often at excessive and unsafe speeds.	No		Maybe	Yes	The Town of Nolensville is working collaboratively with the county school system and other law enforcement agencies to promote e-bike safety and training for non-adult riders. The Town is providing public education that includes bike safety, pedestrian crossing safety, and e-bike safety in a variety of formats including videos, presentations, and brochures. The following is a Crosswalk Safety PSA completed by the Nolensville Police Department this past year: https://youtu.be/4HyDDz7v0Y?feature=share	We would like to share the following thoughts: 1) Having a bike registration requirement would aid with regulation/enforcement; 2) Need more parental involvement in education and responsible use of e-bikes by non-adult riders; 3) Citations issued to non-adult riders requires appearance in Juvenile Court - could serve as an added deterrent to illegal/unsafe operation of e-bikes by juvenile riders; 4) State regulations may need to be amended to provide a clear regulatory framework for adopting local regulations and their enforcement for adult and non-adult riders (engage Tennessee Municipal League to work in collaboration with Tennessee General Assembly).

Red Bank	Martin	Granum	mgranum@redbanktn.gov	11,899	Yes	Yes	E-bikes, and bikes in general, do not benefit from adequate bike infrastructure to allow safe use of our roads. Anecdotally we are perceiving an increasing ridership across all sorts of bikes (e-bikes, typical road bikes, triathletes training on time trial bikes, and bike commuters... all sorts of bikes). A specific concern is the SR-8 tunnel that connects Red Bank to Chattanooga... it is	No		No	No		We have declined to participate in the CARTA-sponsored bike-share program, which includes e-bikes, because we don't want to specifically incentivize additional bike users on our city's roads at this time.
